The Daily Intelligencer.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, TUESDAY EVENING, FEBRUARY 1, 1870. No. 232

From Red River.

The following is the conclusion of the despatch of the Toronto *Telegraph's* Red River correspondent, telegraphed from St. Paul, January 28:—

MACDOUGALL MISLED.

After enquiry from responsible parties, the fact appears that Governor McDougall was wilfully and villanously misled by these who should have endeavored to aid him and themselves, as so-called loyal party leaders. A roll containing twelve or fourteen hundred names was shown him as being the names of those willing to protect him in his endeavors to enter the Territory, when, in fact, half the names were copied from the school registers in various parishes. James Ross, one of the parties to get up the roll, has since, with Holy Writ in hand, taken the oath of allegiance to the Patriot Government. Riell told me in the presence of a dozen of the leaders, that the loyal party in Winnepeg are all working to obtain their personal ends, to get fat offices, full pockets, at the expense of Canada, and have not a bit of patriotic feelings. McDougall was given to understand that no difficulty would be experienced, but when matters came to be investigated, it can be shown that altogether he acted indiscreetly in some instances. Still he did so under false impressions conveyed to him by so-called friends of Canada. Personally there was no objection to McDougall, except by a few parties influenced by the papers in Canada opposed to him. His Canadian officials did much harm, and injured the Canadian cause terribly.

SCHULTZ DENOUNCED.

The Canadian prisoners are loud in their denunciations of Schultz and those who entrapped them. They are fed on Government stores, and part are confined in the Fort and part in the jail. The English half breeds, who were armed under Dennis, were thoroughly disheartened by the latter leaving them in the night. While passive, the English half breeds are inclined to see the French succeed in their demands, now that they have taken the stand. Prominent English half-breed leaders of the loyal movement asked me if Canada would as soon give the three million pounds to the half-breeds who own the soil, as to the Hudson Bay Company, who have only the right to trade. So you see the drift. The English were afraid that the lands, which they have held without any title for years and years, and occupied by squatters' right, will be taken from them. They are jealous that the Hudson Bay Company should receive the spoils and they none.

YANKEE YARNS.

The Indians are still loyal, and the Sioux arming story has been in the main gotten up by the Pembincse, so that they will have American troops at Pembina next spring. It has had an effect, as General Hancock has promised troops to the Americans at Pembina. It was also exaggerated and goes to embitter the feelings with the half breeds. The few Indians who held lands as squatters were at first doubtful as to their chances under Canada: but the French half-breeds stepped in and told them their rights would be looked after. The Hudson Bay people now see that affairs have assumed a proportion never calculated on, and have made up their minds that Canada will eventually foot the bill of the insurgent's depredations.

NEGOTIATIONS.

Father Thibault was before the Council with DeSalaberry while I was in the fort. They were under guard and could show no credentials except a letter from Joe Howe, which is no good to negotiate. It was a a mistake sending DeSalaberry; the half-breeds think Canada should have sent a man of some calibre. Father Thibault is greatly respected by the half-breeds and could if allowed by the insurgents explain away much of the misapprehensions that exist.

HOWE'S MISCHIEF.

Joe Howe did mischief in his trip last summer by his careless talk, vaunating himself as the saviour of Nova Scotia. A half breed asked me if Howe did not sell himself to the Canada Government for five thousand a year, and if he made a handsome thing for Nova Scotia why cannot the North-West people make as much?

RIELL WILLING TO COME TO TERMS.

Riell is, I think, desirous of making terms with Canada, and undoubtedly would not undertake the task of organizing a republic. He has his hands outstretched, and may succeed in his sole object. Gold will fetch him. As long as the Hudson Bay stores last, so long will matters go smoothly. The rebellion is not as formidable as at first represented, yet formidable enough to keep a Governor out, unless supported by troops. A regiment of infantry, and one of cavalry, would clear the insurgents out, but there need be no fear of blood being spilt by Riell.

The insurgents expect that, when the Canadian Parliament opens, the North West question will be debated, and that commissioners will be sent out duly authorized to treat, and that an amicable arrangement will be entered into.

THE RAILWAY SCHEME.

The Canadian Pacific Railroad scheme is laughed at by those who have been over the country. A loyal resident in Winnepeg and one of position told me that the scheme is impracticable; that hundreds of thousands of dollars a mile will not build it; that the country through which it passes is barren and dotted with lagoons, and unfathomable marches. Ask any man except Government employees, anxious for a job, railroad contractors and jobbers and they will tell you the same.

ERRORS.

Our Government have in the whole affair erred, and if they had wanted to kill McDougall could not have taken a better course. The people see he was kept without instruction from the Government; that he had a number of officials to handle whose connections with him infuriated the people, and who did more harm by their talk than many are aware of. In fact he was misled, and was prompted to acts which, if he had used discretion, ought never to have been exercised. Dennis, although he made mistakes, was certainly the most energetic man of the party, and personally at Winnepeg and Pembina left a good opinion behind him. Captain Cameron, with all his faults, was the only other one of the Government party whom the half breeds are inclined to respect from the pluck and determination he evinced in his attempting to get into the territory, and the sensible manner in which he conversed with people on the subject of the troubles.

THE HALF-BREEDS.

The half-breed population, on the whole, are desirous of settling difficulties peaceably with Canada. Many half-breeds who are serving Riell, have opinions of their own, and will not support the Autocrat if he steps too far. It must be remembered that a very fair representation of the French are totally opposed to Riell, and would have supported McDougall in his entry. If McDougall had gone to the North-West without his Government hangers on, and had explained his policy to the people without listening to a word from the so-called loyal party, no doubt all difficulties would have been smoothed over. Of course he would have to consult the people in selecting his council. As the matter now stands, the Canada Government will have to deal with the people by Commissioners, (that is, if they hold on to the bargain,) and if duly authorized ones are sent there, they can quiet the troubles and restore peace and harmony in a few days.

THE FORCES AT WORK.

The priests will be the parties to throw obstacles in the way, and will be aided by Bishop Tache, whose letters home from Canada, prior to his departure for Rome, in a great measure gave the priest the main planks to stand on in the rebel platform. I divide the influence at work in this insurrection in the following heads, to give a clear idea of how things stand. 1st. Bishop Tache's letter to the priests, evincing dissatisfaction with the Canada Government; 2nd, the priest party who want land, and who use their influence with the half breeds to obtain that object; 3rd, the Hudson Bay influence which has been steadily opposed from the inception to Canadian interests; 4th, Riell, who, like Judas, is willing to sell himself for Canadian silver; 5th, the English half-breeds and Scotch who first, by public meetings, stirred up the rebellious elements by objecting to being brought over and ruled without consulation, and to the Hudson Bay Co. being paid for what they had no claim to, till they became so formidable the French took it out of their hands. 6th The French half-breeds also demand certain rights, which Riell is ostensibly fighting for, many believing that he is sincere, many that he is not; but all of whom are willing to negotiate with Canada. 7th. The annexation party at Winnepeg and Pembina—the latter small but mischievous, and the former a mere speck in the sea of rebellion. 8th. The Fenian element, which amounts to nothing, and has little or no foothold. 9th. General dissatisfaction at the unbusiness-like manner in which Canada, without legal authority, attempted to take possession. 10th. The officials and the population declare that the martial law incited the Indians, and insults the half-breeds by putting men over them with half martial capability, and with no knowledge of the country. 11th. The conduct of the leader of the Canadian party, associated in Winnepeg. 12th. Ruthless and ill advised acts of the surveying party last summer. 13th. The bad treatment of the half breeds and men employed on the Government road.—The above are as near as I can trace the leading features of the rebellion.

PERSONAL.

Coldwell, formerly of the *Globe*, has been forced to sell his new office and cease publication, as his first copies of the Red River *Pioneer* were sized. Major Robinson, an old American officer, and Col. Enos Schutz.

(Continued on second page.)

CANADA
Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates*, will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are

Indisputable on any ground whatever,

Subject only to payment of premiums which may become due.

SPECIAL FEATURES.
ECONOMY—
Giving more assurance, for the same money than other Companies.
HOME MANAGEMENT—
HOME INVESTMENTS—
Every advantage to policy holders which is compatible with sound management and ultimate safety.

A. G. RAMSAY,
Agent at Belleville, Manager.

man, the main spring of the rebel movement at Pembina, and a man of brains, are the proprietors.

ORDERED TO LEAVE.

It was with difficulty that I could speak with the loyal citizens, as they are closely watched. I was taken back to the Fort again, and as I did not hurry up next day at the appointd hour, Riell said—It takes you a G——d d——n long time to get out; he also told me if I camped out at a certain place, referring to a loyal citizen's house, 15 miles from the Fort, he would make it hot for me. He sent an escort armed to the teeth with me to Pembina and the house I slept in was watched by the insurgent troops, who had orders, if I attempted to secrete myself with any of the loyal citizens, I was to be shot down. The New York *Herald* man, Mr. Carpenter, and Mr. Williams of the St. Louis *Republican*, turned back 25 miles from Abercrombie, ostensibly on account of the cold, while the leading representatives of the Canadian papers encountered the dangers of the most perlious trip ever undertaken by living man; as a journey to Red River, in winter is seldon thought of.

Capt. Enrico Gay, a French officer said to be a friend of Bishop Tache, has gone to Riell to offer his services, in organizing the insurgent army.

Daily Intelligencer.

BELLEVILLE, TUESDAY, FEB. 1.

MISSIONARY TEA MEETING.—The annual Wesleyan Methodist Missionary Tea Meeting is to be held in the Church to night. A number of speakers will be present, and good music may be expected from the choir.

MUSIC TEACHER.—It will be observed by a card in another column that Mr. L. KOERBER, late of Cobourg, intends establishing himself permanently in Belleville. Mr. Koerber has a reputation as a Music Teacher second to none in Canada, as letters from Rev. S. Nelles, Principal of Victoria College, and other distinguished gentlemen, testify.

THE BANKING SCHEME.—The *Leader's* Ottawa correspondent, telegraphs the following: "The delegates from the bankers' meeting had an interview to-day with the Finance Minister and presented their views upon the question of banking and currency. They were understood to have placed strongly before Sir Francis Hincks the impolicy of not giving the banks the power of expansion to meet the reqirements of tradesmen and farmers when the crops were being moved in the West, and to be opposed to raising the circulation mainly upon the government securities. The Finance Minister is understood to have given an attentive consideration to the views put forward, but not to have committed himself to any policy."

Bad Policy.

If the *Army and Navy Gazette* is to be believed, all the British troops now in Canada are to be withdrawn during the present year. That paper of the 15th ult., says:—

> "The troops now stationed in British North America will be withdrawn during the present year. At Halifax alone a garrison will be retained at Imperial cost. A proposal has, however, been sent to all the colonies to allow Imperial troops to remain in each, provided all the contingent expenses are defrayed by the Colonial Exchequer."

In view of the Red River difficulty and the threatening attitude of the Fenians, this is very bad policy on the part of the Imperial Government. If the Fenian quarrel, however baseless it may be, was with ourselves alone, the question would assume another shape, and whatever force would be neccessary to combat them, it would be expected as a matter of course that we should furnish it. But the quarrel of the Fenians is with England; their assumed wrongs they don't pretend to hold Canada responsible for, but when they strike us they strike England, and it matters little to them whether the parent or the child feels the blow the heaviest. So long, therefore, as this organization menaces Canada, and so long as the British Government fosters Fenianism at home, we have some claim upon the Imperial Government for protection. Before the British Government removes the troops from the Dominion it should have a perfect understanding with the American Government with respect to the existence of the Fenian organization in the United States. It should demand the disbandment of the Fenians as an armed organization, and obtain some guarantee that this annual threatened invasion, and parading of armed Fenian troops should be stopped. Until some understanding of this kind is come to, until some such guarantee is obtained, it is not only bad policy to withdraw the troops, but it is a gross piece of injustice to Canada.

In addition to what the *Army and Navy Gazette* says respecting the withdrawal of the troops, a telegram from Montreal states that everything betokens "a removal of military head quarters from that city.—Officers have been advised not to retake their houses this year, it being uncertain what reductions will be made in the staff, or if any troops will be stationed in Montreal after May. The garrison Church in Gosford Street is to be given up in the Spring."

Wesleyan Methodist Missionary Meeting.

The annual meeting of the Wesleyan Methodist Missionary Society was held in the Bridge street Church, on Monday evening, January 31st. The large church was crowded to excess. After the reading of a portion of scripture by the Rev. G. R. Sanderson, and prayer by the Rev. Mr. Breathour, Merrick Sawyer, Esq., was called to the chair, who opened the meeting in a few appropriate remarks, and then called upon the Rev. Mr. Breathour to read the report of the year's transaction. These figures and facts have already been published in the INTELLIGENCER. On motion of the Rev. Mr. Sanderson, seconded by Rev. Mr. Cobb, a Committee of ladies was appointed to make the usual collections.—After which the meeting was addressed by the Rev. Wm. McLaren, Rev. Mr. Damond, Rev. I. B. Howard, and the Rev. Morley Punshon, the latter gentleman holding the audience enchanted for about an hour, in a speech seldom equalled in eloquence and power. The choir contributed much to the enjoyment of the evening's proceedings, by singing a number of anthems, with much skill and taste. The collection having been taken up, the meeting was dismissed with the benediction.

Grand Curling Match.

OTTAWA VS. BELLEVILLE.

The contest between the two Clubs for the Royal Caledonian Medal commenced this morning at the Belleville Curling Rink, two Rinks of the Ottawa and two of the Belleville Clubs being engaged. The ice was in capital condition and the players in good spirits. It was seen on the start that the Belleville players had old and keen curlers to contend with, and to on-lookers it was evident that the Ottawa Rink would come off victorious. The time fixed was five hours or thirty-one shots.—Play commenced shortly after nine o'clock, and at one o'clock, when luncheon was announced, No. 1 Rink of Ottawa and No. 1 of Belleville had completed their game, Ottawa making thirty-one points, while Belleville scored but fourteen.

No. 2 Rink stood at one o'clock, 22 for Ottawa and 14 for Belleville, and after luncheon, Belleville in the first end added two more to their score. At the close the score stood Belleville No. 2, 19; Ottawa No. 2, 33. The total score was therefore, Ottawa 64; Belleville 33, leaving Ottawa 31 ahead.

The following was the score at the close

OTTAWA.	BELLEVILLE.
RINK NO. 1.	RINK NO. 1.
A. Campbell,	N. McArthur,
N. Sparks,	J. Robertson,
W. Hutchinson,	D. Pitceathly,
T. McKay, Skip.--31	G. Neilson, Skip.--14
RINK NO. 2.	RINK NO. 2.
R. Lees,	E. R. Benjamin,
G. Hutchinson,.	Geo. Ritchie,
R. S. Cassels,	Thos. McRae,
A. Gilmour, Skip.--33	D. B. Robt'son, Skip--19

This does not decide the contest, however, for two other Rinks of Belleville are to go to Ottawa sometime during the sitting of Parliament, when it is hoped they will be able to reverse the order of things somewhat. The Club making the greatest number of shots in both contests will win the medal.

The game was witnessed by quite a number of visitors, who appeared much interested in the play. The best of feeling prevailed, and although beaten in the first part of the contest, Belleville does not give up all hope of carrying off the medal.

This evening the Belleville Club will entertain the Ottawa Curlers at a dinner to be given in the Club room.

The North-West.

The Red River correspondent of the Toronto *Telegraph*, telegraphs the following:

ST. PAUL, Minn., Jan. 31.—A letter dated Pembina, Jan. 20, says: A report has reached there from Fort Garry to the effect that the local authorities have arrested Riell, on account of the bitter annexation proclivities of himself and others, as promulgated through his organ, the *New Nation*.

Fort Garry letters of previous dates state that much dissatisfaction was felt by the French against the course of Riell, and foreshadow the above result.

Town Council.

MONDAY, Jan. 31st. 1870.

According to adjournment, the Council assembled in the Town Hall at 7½ o'clock.

PRESENT.—His Worship the Mayor; Messrs. Henderson, Kelso, Patterson, Beckett, Smith, Vandusen, Watters, Flint, Holden and Foster.

Mr. Lewis took his seat as representative of Ketcheson Ward.

The minutes of last meeting were read and approved.

PETITIONS.

From Mrs. Johnson, that she had expended $23 in helping to arrest the man Smith, who had enticed her daughter from home, and praying the Council to reimburse her.—Referred to the Finance Committee.

From a number of the rate payers in public meeting assembled, praying that the Council amend the Market By-Law in accordance with certain resolutions passed at said meeting.—Referred to Market and Police Committee.

Several other petitions were read and referred to their appropriate Committees.

REPORTS.

Mr. Watters presented the report of the Streets and Sidewalks Committee, instructing Mr. Northcott to make the necessary repairs to the Lower Bridge.

Mr. Holden presented the report of the Finance Committee, recommending the payment of a number of accounts, and suggesting that the Gas Company be requested to repay $2,080, advanced by the Town in 1865, with interest to the present date.

Mr. Flint, on behalf of the Market and Police Committee, reported verbally that after the public meeting of Thursday night, he had called a meeting of the Committee to consider the action taken by that meeting. Although its proceedings had not been placed officially before the Committee, the matter had been discussed, and it was generally agreed that two stalls should be licensed, one in Baldwin, and the other in Coleman Ward. Clause 13 of the present By-Law was defective, as it referred neither to fresh nor salted meat, while it was evidently intended to apply to fresh meat only. He would this evening introduce a By-Law to amend said clause. He had sent to several Municipalities for copies of their Market By-Laws, from which he would endeavor to incorporate one calculated to give general satisfaction.

NOTICES.

Mr. Flint gave notice of a By-Law to amend the Market By-Law.

Mr. Flint gave notice of a By-Law to amend section 13 of the Market By-Law.

Mr. Holden moved for a return of the amount of fines, fees, and other statistics of the Police Court.

Mr. Holden moved for a return of the amount of taxes on lands on which arrears had not been paid.

FINANCE.

Council went into Committee of the Whole on Finance. Mr. Henderson in the chair.

The report of the Finance Committee was considered and passed through Committee.

Committee rose and reported.

Report adopted.

Mr. Tannahill came in.

STREETS AND SIDEWALKS.

On motion, the report of the Committee on Streets and Sidewalks was adopted.

BY-LAWS.

On motion of Mr. Flint, seconded by Mr. Foster, the rules of the Council were suspended to allow of the passage of a By-Law to amend section 13 of the Market By Law, to take effect at once.

Council went into Committee on By-Laws. Mr. Foster in the chair.

Mr. Holden moved the second reading of a By-Law for the appointment of Assessors, naming Wm. Davy, John Northcott and Thos. Rutherford to the office at a salary of $140.

Mr. Holden moved the second reading of a By Law for the appointment of License Inspector, the blanks being filled with the names of James Harrold and John Phillips.

Mr. Patterson moved, seconded by Mr. Tannahill, That the name of James Smith be substituted for that of John Phillips.

On the motion for the original clause, the vote stood:

YEAS.—Messrs. Henderson, Kelso, Beckett, Foster and Holden.—5.

NAYS.—Messrs. Patterson, Smith, Watters, Vandusen, Flint and Tannahill.—6.

The amendment was then put and carried on the same division.

Committee rose and reported.

Report adopted.

The several By-Laws were then read a third time and passed.

Mr. Holden said that if any discussion was likely to take place on the question, he would not to-night press his motion respecting back taxes.

Mr. Henderson would like to know whether anything was to be done in the matter of these back taxes, or if they were to be given up as a worthless asset.

Mr. Holden said the Treasurer was now preparing a statement of the amounts due on lands, which statement would be advertised before the close of the year, and the lands sold.

Mr. Kelso moved, seconded by Mr. Henderson, That the Auditors, in addition to examining the books of the Town, do examine and report upon those of the Police Court.—Carried.

The Council then adjourned.

Wardens for 1870.

The following is a list of the Wardens elected for 1870, so far as heard from:—

HASTINGS—A. F. Wood.
WENTWORTH—Thomas Bain.
PRINCE EDWARD—Robert Platt.
LENNOX AND ADDINGTON—J. J. Watson.
KENT—Stephen White.
PETERBORO—S. S. Peck.
HALTON—K. Chisholm.
GREY—S. J. Lane.
CARLETON—Ira Morgan.
PERTH—James Trow.
LEEDS—John Wolf.
LAMBTON—James Davison.
MIDDLESEX—Richard Tooley.
NORTHUMBERLAND & DURHAM.—Dr. Gould.
YORK—Mr. Parnham.
WELLINGTON—Mr. Mair.
ONTARIO—Mr. Sexton.
FRONTENAC—S. Shibley.
BRANT—Mr. Whiting.
LINCOLN—Mr. Waite.
HURON—Mr. Gibbons.
LANARK—Mr. Robertson.
OXFORD—Mr. McCorquodale.
VICTORIA—Mr. Staples.

POST OFFICE ROBBERY.—On Sunday last, a young lad named Potter, who had recently served a two years term in the Reformatory Prison at Penetanguishine, for theft, broke into the Post Office at Tamworth, and extracted $15 from the till. He then appropriated a horse belonging to Mr. D. Phillips to his own use, and made tracks for Napanee, where he was arrested on Monday just as he was taking the cars for parts unknown. Upon his own admission he was duly committed for trial.—*Whig.*

—William Pope, keeper of the New Bridge toll-gate, was charged on December 30, before the Wolverhampton magistrates, for unlawfully demanding toll from the Rev. J. Tremor, curate of the Roman Catholic church of St. Peter and St. Paul, Wolverhampton. The magistrates, however, held that a Roman Catholic priest was not included in the terms "rector, vicar, or curate," and dismissed the summons.

American Despatches.

THE PRINCE IN NEW YORK.

NEW YORK, Jan. 31.—Prince Arthur visited the Firemen's Ball at the Academy of Music this evening, and was very cordially received. The private box he occupied was handsomely decorated and hung with the British and American flags. "God Save the Queen" and "Yankee Doodle" were performed, and the Prince seemed to be well pleased during the hour he spent there.

DESTRUCTIVE FIRE.

A fire in Bunster's Liquor store, Fulton St., occurred at a late hour, and spread to Goodyear's India Rubber establishment adjoining. The loss is probably $100,000.

TELEGRAPH COMMUNICATION.

SOUTH WEST PASS, LA., 31.—The telegraph lines are nearly completed between Tampico and Vera Cruz. The lines will be extended to Matamoras, thus placing Mexico in telegraphic communication with the United States.

ARRIVED.

NEW YORK, Feb. 1.—The steamer *Bellona* from Liverpool has arrived.

A NEW EPIDEMIC.

Seventy six new cases of the new epidemic, the relapsing fever, were reported yesterday.—No deaths from the disease is yet reported.

PRINCE ARTHURS MOVEMENTS.

NEW YORK, Jan. 31.—Prince Arthur was waited upon at the Brevoort House this morning by a deputation of English, Scotch, and Irish residents, headed by the British Consul and presented with a congratulatory address.

The Prince made a feeling reply. He dined with W. B. Duncan this evening, and subsequently attended the fireman's ball at the Academy of Music. On Wednesday evening the Prince will dine with Moses H. Grinnell, on Thursday with August Belmont, and on Friday with Edwin H. Stoughton. He will leave for Boston on Saturday.

THE PEABODY OBSEQUIES.

PEABODY, Mass., Jan. 31.—The funeral of George Peabody is officially announced to take place here on Tuesday, Feb. 8th, at eleven o'clock in the South Church. On the arrival of the funeral train to-morrow the remains will be escorted to Peabody Institute from the railroad depot by a battalion of United States troops and Sutton Guards of this town—the latter furnishing a Guard of Honour while the remains lie in state. The doors of the institute will be open to visitors from the 2nd to the 7th February.

News Condensed.

—Thermometer 25° below zero at Quebec, on the 31st, ult.

—Quebec Parliment is to be prorogued today.

—The death of Admiral Sir Thomas Hastings is announced. The deceased officer, who was 80 years of age, entered the navy in 1830.

—A brakeman on a freight train on the Grand Trunk railway, named Clark, was killed at Acton, on the 31st ult.

—Dr. J. M. Platt, of Picton, has been appointed Associate Coroner for the County of Prince Edward.

—A wrought iron chimney 196 feet high, and 6 feet 7 inches in diameter, has recently been put up in Pittsburg, Pennsylvania.

—A large steamer, 500 feet in length and 2,600 tons burthen, is building in England, for the navigation of the Suez Canal.

—The lumber trade of New Brunswick is suffering, owing to the mildness of the season.—Teams cannot go into the lumber wood.

—A negro Methodist preacher in Philadelphia actually took his text from "de 'pistle of St. Paul to de Canadians."

—When is the newspaper you subscribe to like grass? When there is some *due* on it. That kind of dew never makes a paper grow.

—It is estimated that 1,130,000 logs will be got out this winter up the Ottawa, and its tributaries costing $1.40 cents a log, when in Ottawa.

—A Parisian lady being asked why she went into such excessive mourning attire on the death of her husband, replied, "Ah, my dear, *he was my eleventh!*"

—Mr. Reverdy Johnson is preparing a book which will appear very shortly. In it he will give in full detail the secret history of his mission to England.

—The oldest Freemason in the United States is Capt. Joseph Harding, of Swampscot, Massachussets. He having been made a Master Mason in Jany. 1800.

—One hundred and fifty babies have been found in the little basket crib at the door of the New York Foundling Asylum since the 20th of November.

—Men who will not advertise their business never think newspapers are read until they happen to get into a scrape. Then they can beg for hours to keep their names out of print.

—On Monday last while Mr. Daniel Dineen, eldest son of Mr. Patrick Dineen, farmer, Flamboro, was engaged in cutting down a tree, it fell upon him, and killed him instantly.

—The Thistle and Caledonian Curling Clubs of Montreal, on Thursday, played the first of their five rink game, on the 31st, ult., and when time was called the Caledonian had scored 26 shots against 17 by their opponents.

—A newly married man at Hannibal, Mo., threw his wife into the river, and then repented and jumped in and rescued her. When a policeman attempted to arrest the man his wife defended him with a piece of board, and would not see her darling taken to jail.

—The Charlottetown P. E. I. *Patriot* of the 15th inst., says: We understand that a meeting of some 20 or 30 Confederates was held in the city, last evening, and that the 'leading minds,' if not the majority of them were determined to accept the terms now offered.

—In a lecture at Buffalo the other evening, Olive Logan remarked:—"I never saw a pretty girl in my life, one upon whose cheeks the roses were blooming, but that I wanted to fold her in my arms and kiss her." This was too much for one of the male auditors to hear in silence, and ignoring the propriety of the occasion, he exclaimed: "I feel just so, too." (Tremendous applause.)

—The Pembroke *Observer* says the quantity of saw-logs now being made will, we are informed be about the same in number as last season.—In referring to our fyles, we find that the estimated number then got out was 1,050,000, a very small portion of which was cut into deals for the Quebec market, the chief part being sawn up for the American market. These logs, delivered at the mills in Ottawa will cost the mill owners at least $1.40 per standard this season.

BOARDING HOUSE.

THE premises above the Saloon of Truaisch & Zoller have been specially fitted up as a Boarding House.

A few boarders can be accommodated by applying to the undersigned.

B. TRUAISCH.

Belleville, Feby. 1st, 1870. 302-2w

L. KOERBER,

MUSIC TEACHER, intends locating himself permanently in Belleville. Persons desirous of taking instructions should make early application to

MR. H. ROSENBERG,

or at THE INTELLIGENCER office.

Belleville, Feb. 1, 1870. 302-tf

COUNTY OF HASTINGS

Sabbath School Convention.

THE First Sabbath School Convention of the County of Hastings will (D. V.) be held in the John St. Presbyterian Church in Belleville, on

Wednesday and Thursday,
the 16th and 17th of February,

Commencing at 2.30 p. m. on Wednesday. Ministers of the Gospel and two Delegates from each Sabbath School within the County of Hastings are cordially invited to attend and take part in the proceedings of the Convention.

Ample provision will be made by the Christian people of Belleville for the reception and comfort of the Ministers and Delegates attending the Convention.

In order that Ministers and Delegates may be properly provided for, it is important that the Secretary be duly informed of the names of those who intend to be present. Delegates will therefore please to have certificates duly filled up and forwarded to the County Secretary—Chas. Martin—not later than the 8th of February.

Ministers and Sabbath School workers from the adjoining County of Prince Edward are also cordially invited to be present, for whom also (due notice being given to the Secretary) the Committee will provide homes.

The introduction of the following subjects for discussion has been placed in the hands of competent Sabbath School workers, the aim of the Committee being to draw out the talent we have in our own County:—

SUBJECTS:

County Conventions—their work.
Aim and object of Sabbath School Teaching.
Duties of Parents to the Sabbath School.
Encouragements to labor in the Sabbath School.
Teachers' Meetings and how to conduct them.
Establishment and organization of Sabbath Schools.
How can we best retain our Senior Scholars?
How to conduct a Sabbath School Session.
The Blackboard.

CHAS. MARTIN,

Belleville, Jan. 27, 1870.

P. S.—Any Sabbath School in the County failing to receive circulars from the Secretary will please to appoint their Delegates and send notice thereof to the Secretary.

Chronicle copy twice. 302d1 51w2

Consular Agency.

U. S. CONSULATE, KINGSTON,
January 31st, 1870.

SIR,—You are hereby notified that you have been appointed U. S. Consular Agent at Belleville in place of J. W. Carman, resigned, and that you have been temporarily recognized as such by the Governor General of Canada, pending the action of Her Majesty's Government, in the premises, and you will at once enter upon the duties of your office.

You will call upon Mr. Carman and receive the archives of the office, and receipt to him for the same.

Your obedient servant,
S. B. HUNCE.

To R. R. LLOYD, Esq.,
Belleville, Ont.

All persons interested in trade or commerce between this port and the United States will please take notice and govern themselves in accordance with the above order.

R. R. LLOYD,
U. S. C. Agent.

Belleville, Ont., Feb. 1st, 1870.

Office—In the Custom House Block, Bridge Street. 302 1w—51-4w

DR. J. BRIGGS' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

BREAKFAST. EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks. —"The singular success which Mr. Epps attained by his homœpathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa. Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 91—6mT&S

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in Winter is fuel. To remedy these evils [illegible]'s Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and sashes perfectly air-tight and weather-proof. Awarded extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come first served. Apply to T. FOLEY & CO. LINDSAY, ONT. 221-4w

24 YEARS AFFLICTED WITH ASTHMA AND BRONCHITIS—DOCTORS AND MEDICINES FAIL TO CURE—ALLEN'S LUNG BALSAM CURES AFTER ALL OTHERS FAIL.

PAINESVILLE, Ohio, Dec. 1, 1861.

MESSRS. J. N. HARRIS & Co.

SIRS—In taking up one of your almanacs, I read the wonderful cures by the use of Allen's Lung Balsam. I was suffering much at the time with Asthma and Bronchitis. I thought I would try a bottle of it. I did so, and was relieved in a few days so that I could sit up. I think it will cure me altogether. I am sixty-five years of age; it is now twenty-four years that I have been so afflicted, and I have been doctored by many different physicians, but I have never taken anything that has done me so much good as Allen's Balsam. As soon as I took the Balsam it relieved me, and I have been getting better ever since. * * *

With much gratitude, MRS. AMY KENNEDY.

Later from the Same Lady.

PAINESVILLE, Ohio, Jan 6, 1865.

GENTLEMEN,—I cannot express the gratitude I feel. I have not felt as well for many years. I am so much better that I wanted you to know it, and I thank you many times for the benefit your medicine has been to me. Yours with much respect,

MRS. AMY KENNEDY.

Sold by all druggists. 29x[illegible]-1m

DEBILITY.

Every one at times feels the necessity of something to *tone up the system* depressed by mental and bodily exhaustion. At such times let him, instead of taking alcoholic or medicinal stimulants, which afford only a temporary relief, reinvigorate his debilitated system by the natural tonic elements of the

PERUVIAN SYRUP,

Or Protected Solution of the Protoxide of Iron, which vitalizes and enriches the blood by supplying it with its *Life Element*, IRON.

Being free from Alcohol in any form, *its energizing effects are not followed by corresponding reaction*, but are permanent, infusing STRENGTH, VIGOR and NEW LIFE into all parts of the system, and building up an IRON CONSTITUTION.

WM. C. STERLING, Esq., of Poughkeepsie, N. Y., says: "Since taking the Peruvian Syrup I feel better, my strength is improved, my bowels are regular, my appetite first rate. There is an old Physician in this city, (older than I am), who has been in the drug business for 40 years, who has used the Syrup for three months, and gives it as his decided opinion that it is the best Alterative Tonic Medicine he ever knew."

For DYSPEPSIA, DEBILITY and FEMALE WEAKNESSES the Peruvian Syrup is a specific. A 32 page pamphlet sent free. The genuine has "PERUVIAN SYRUP" blown in the glass.

J. P. DINSMORE, Proprietor, No 36 Dey St. New York.

Sold by all druggists. 47

FOR SALE.

THE undersigned being desirous of closing up his Mill and Town business, offers for sale the Steam Saw Mill, Boarding House, Lumber Docks, Land, &c., situated in West Belleville, together with his timber limits in Elzevir, Kaladar, and Grimsthorpe; also, 4,500 acres of fine timber lands in fee simple. The Mill is in excellent working order, and capable of cutting from 80,000 to 100,000 feet per 24 hours.

ALSO,

Wharf and Warehouses, together with the Foundry and Machine Shops, with Lathes, &c., complete.

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are now prepared to receive Tenders for four further Sections of the Line.

Section No. 13 will be in the Province of Quebec, and will extend from the Easterly end of Section No. 8 to Station 908, near Malfait Lake, about 20½ miles in length.

Section No. 14, will be in the Province of Quebec, and will extend from the Easterly end of Section No. 13, to Station 518, a point between the mouth of the River Amqui and the little Matapedia Lake, about 22½ miles in length.

Section No. 15 will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 9 to Station No. 639, a point fully half a mile Easterly from the crossing of the River Nepissiguit—length, twelve one-tenth miles.

Section No. 16, will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 15, to the Westerly end of Section No. 10, about 18⅞ miles in length.

The contracts for the above sections to be completely finished and ready for laying the track by the 1st day of July, 1872.

The Commissioners also give Public Notice that having annulled the Contracts for Sections Nos. 3 and 4, they are now prepared to receive Tenders for re-letting the same.

Section No 3, in the Province of New Brunswick, and extends from Station No. 810, about two miles South of the Restigouche River to Station No. 190, about 2,000 feet South of Eel River, near Dalhousie, being a distance of about 24 miles.

Section No. 4 is in the Province of Nova Scotia, and extends from Station No. 280, on the Amherst Ridge, to Station O, on the Ridge about a mile North of the River Phillip, a distance of about 27 miles.

The Contracts for Sections Nos. 3 and 4 to be completely finished and ready for laying the track by the 1st day of July, 1871.

Plans and Profiles, with specifications and terms of contract, will be exhibited at the office of the Chief Engineer in Ottawa; and at the offices of the Commissioners in Toronto, Quebec, Rimouski, Dalhousie, Newcastle, St. John and Halifax, on and after the 10th March next; and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders" will be received at their office in Ottawa, up to 7 o'clock P. M., on Monday, the 4th day of April, 1870.

Sureties for the completion of the contract will be required to sign the Tender.

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building, Front Street

The Champion Typo.—An Interesting Match.

The New York *Sun* says:—"The artists of the 'art preservative of all arts' are in a flutter over the prospects of a match between New York and Cincinnati compositors. For some years Mr. George A. Barber, of Cincinnati, has had a standing challenge to set type with any fellow-craftsman for $1,000, 'to work five or eight hours a day, on solid, straight matter, the type not to be larger than brevier nor smaller than agate.' Yesterday Mr. George Arensberg, employed in the *Times* office, called at the *Clipper* office with a few friends, and left a counter challenge, at the same time depositing $100 as an earnest of his intentions. Mr. Arensberg, who is known among his friends as 'The Velocipede,' accepts Barber's challenge, the only change in the terms being that he wants to work ten hours only. He offers Barber $100 to come to New York, or will take the same sum and go to Cincinnati. Barber is said to have set 17,800 solid minion in ten hours. This is rapid work. The friends of Arensberg do not say what he has accomplished heretofore, but are willing to back him with their money. The trial of skill is to be made within a month, providing the western man puts up. If he backs down Arensberg will make a match with any other man on the same terms."

A Charlottetown P. E. I., correspondent of the St. John *Telegraph and Journal* writes:—"The new terms of confederation are now the all-absorbing topic of conversation. They are very favourably received, and I think when they have been sufficienly ventilated, they will carry a majority at the next election."

A LEARNED JURY.—The Adrian (Mich.,) *Times* is responsible for the last good story at the expense of a justice's jury. It says that a recent case of assault was tried in that city on which six jurors voted by ballot. Juror number one voted "No case of action." Number two voted "Salt and batery, Second DeGree." Number three deemed the prisoner "Guilty of Salt." Number four decided there was "no action of caus." Number five voted it 'assault and Batory" while number six decided the prisoner "Guilty of an a salt only."

"A HAPPY NEW YEAR."—This is William Howitt's recipe for having seventy-five Happy New Years. "For my part," says he, "seeing the victims of fast life falling around me, I have willingly abandoned the apparent advantages of such a life, and preferred less popularity, less gains, the enjoyment of a sound mind in a sound body, the blessings of a quiet domestic life, and a more restricted but not less enjoyable circle of society. I am now approaching my seventy-fifth year. I cannot, indeed, say, vigorous as I am, that I have reached this age without the assistance of doctors; for I have had the constant attendance of those four famous ones Temperance, Exercise, Good Air, and Good Hours!"

CATARRH, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

CONSUMPTIVES, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

CURE for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

FROSTED FEET, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

THE ONLY LADIES BOOK IN AMERICA.

GODEY'S LADY'S BOOK

For 1870.

THE CHEAPEST OF LADIES' MAGAZINES,

BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

THE BEST WRITERS

In the literary world will contribute to the pages of the Lady's Book during the year 1860.

MARION HARLAND,

Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Mariam,"

Will contribute a story every month. Our former efficient corps of writers has also been retained.

The O Fogy paper will be continued.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES.

The original double fashion-plates will be continued

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1869.

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

INTELLIGENCER BUILDING,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all sufferers from Pain, Inflammation, Weakness, and of [illegible] in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy [illegible] to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this marvelous remedy known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that [illegible] the best approved discoveries in Medical Che[illegible] the Materia Medica, or the skill of the [illegible] Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for [illegible] duties, freights, commission agents, advertising bills were paid, and th[illegible] we continued to do for years. Wherever a community of living civilized souls existed, there we sent fr[illegible] at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever,
Typhoid Fever,
Scarlet Fever,
Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED Attacks [illegible]

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out its will in placing an antidote within the reach of His people of all nations of the earth—who had sufficient faith to wait for their "bread cast on the waters to return after many days," who were content to spread out before the world the richness, purity and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere—shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary [illegible] a few minutes will cure all, the Ready Relief [illegible]

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,

CHILLS AND FEVER,

SCARLET FEVER,

Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty of engorged liver, fat, spleen, disordered kidneys, saffron-colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of **Radway's Ready Relief** diluted in one gallon of proof spirits, will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, Kings, &c., all of these remedies being but poor imitations of **Radway's Ready Relief.**

One bottle of **Radway's Ready Relief**, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least ($25) twenty-five dollars, had you to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,	Cholera Morbus,
Bilious Colic.	Flux,

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series, In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equaling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews, - -	$4.00	per annum
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - - -	10.00	"
For Blackwood and three of the Reviews, - - - -	12.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews for 1869.* New Subscribers to all the five may receive Blackwood or *two of the Reviews for 1869.*

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December 1869, and of Blackwood's Magazine from January, 1866 to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

The Coming of the Silent Guest.

BY HOWARD GLYNDON.

Lo! England sends him back to us!
With sealed eyes and folded palms,
He drifts across the wintry seas,
Which chant to him its thousand psalms.

We proudly name and claim him ours,
We take him, England! from thy breast;
We open wide our doors to him,
Who cometh home a silent guest.

We lent him thee to teach thy sons
The lesson of the Open Hand,
Lest famished lips should bless them less,
Than him—the stranger in their land!

We lent him, living, unto thee,
To be a solace to thy pain;
But now, we want his noble dust,
To consecrate it ours again.

England! we take him from thine arms!
We thank thee for thy reverent care!
If thou and we were ever friends,
We should be so beside his bier.

His memory should be a spell
To banish spleen and bitterness—
Have kindled thoughts of us, for he
Was tender unto thy distress!

As we have kindlier thoughts of thee,
Because of honor done to him—
For while we weep, we turn to see
That England's eyes with tears are dim!

The Expense of Tippling.

HOW MUCH IT COSTS FOR THE DAILY SNIFTER OF THE TOPER.

From the New York Evening Post, Jan. 8.

Why is it that so many of the laboring families of the laboring men in our towns and cities live in such a poor beggarly way, in so many damp, dark basements, and up in such close, confined, rickety old attics? Many of the heads of these families receive good wages, and get their pay every week or month regularly. But where, in many cases, do their wages go? Not to the baker, the grocer, the butcher, the merchant: they go for strong drink, and beer, which do not strengthen the physical man. Franklin taught the printers of London that cold water was better than ale; and cold water has lost none of its virtues in 140 years.

The cost of tippling is in the aggregate enormous. The enquiry is often made, how are so many drinking-houses sustained. Let us see. Twenty men at 30 cents a day will pay one of the "tippling shops," $2,190 a year. A man who pays 30 cents a day for "drinks," pays $109 50 a year.—This is the interest on $1,564 at seven per cent. at simple interest. This sum, 30 cts. a day, amounts in ten years to $1,161 95! all this is wasted, paid out for "an enemy that steals away a man's brains," and robs him and his family of every comfort. Intoxicating liquors give neither strength to the body, vigor to the mind, resolution to the will, elevation to the morals, nor dignity to the character. Strong drink brings a man down from his high estate, depraves all his appetites, and leaves him in want and misery, the mere wreck and semblance of a man.

The constant use of intoxicating liquors makes hard times for many a man; thus, a family of five persons will consume four barrels of flour a year, or 1,657 pounds of bread. This is nearly three pounds a day. Good flour can be bought now at $7 a barrel; four times seven make $28; and 30 cents a day for drinks is $109 50, or $81 60 more per year than the bread for a family of five persons costs. "But," says A, "I only take two drinks a day." Very well, you pay then for your drinks $73 a year, only $45 more than you pay for the bread consumed by your whole family, if it contains five persons. This sum would provide tea and coffee for them.

Here, then, we see that the man who pays twenty cents a day for liquor, spends a sum sufficient to supply his family with bread, tea and coffee for the year. It is strange that times are hard, and men complain of the government, and charge that it oppresses them with onerous taxes?—The above figures show men tax temselves, and how they tax property, too.

In 1868, the Inebriate Asylum cost the taxpayers of this city $144,472 40. While the amount of money paid by the city for flour for all its hospitals, asylums, and for the relief of the poor, was only $102,575 38.

The outdoor poor cost the city, in 1868, $122,232 64. How much of this could be charged to intemperance?

The number of persons committed to the workhouse in this city, in 1868, was 15,738. The Commissioners say, "a considerable proportion of the committals is for intoxication." The police stations, the prisons, the alms house, the penitentiary, the miserable homes, all tell of the work of intemperance. It is the great curse of the land—it feeds upon the wages of labor, and like the horse leech's daughter, "it cries give, give," until all is gone of health, character and life."

A little boy inquired at the Augusta post office if there was a letter for Chester Pillsbury, and, while the clerk was looking for the letter, the little fellow thinking to help him in his search, said, 'He is married now, and I s'pose they put Mister on to his name.'

Chinese Hospitals in San Francisco.

A San Francisco correspondent makes the following horrible revelations concerning a Chinese "hospital" in California:—

"Very few of the women brought here are wives and they live for the most part, in the most abject manner. When one of these poor unfortunates become weak and sick, and a Chinese physician pronounces her case hopeless, she is notified that she must die. She knows very well that protestations and prayers are unavailing, and submits to her fate without a murmur.—Led by night to some miserable tenement that goes by the name of "hospital"—how it gained such a significent anæthical name we do not know—she is forced within a door and made to lie down upon a shelf.—A cup of water, one of boiled rice, and a little metal oil lamp are placed by her side. The assassins pass out of the death cell; the heavy door is locked, and the miserable creature is left to die alone. What agonies the poor victims suffer in their lingering death no one knows. The smothered shrieks of despair; the dreadful moan with which weakened nature announces its sufferings, may be heard by those who live in that immediate vicinity, but they either pay no attention to them, or simply vent maledictions on the suffering cause of their annoyance. No one thinks of interfering with the doomed one; all know the laws, and none are brave enough to interfere with the dreadful edicts. After a few days the lamp burns out, the light fails for the lack of oil; the rice cup and water cup are empty and dry, and the joss sticks, which were lighted when the woman was brought to the cell, are nothing but charred splinters of bamboo. Those who have immediate charge of the establishment know how long the oil should last, and when the limit is reached they return to the "hospital," unbar the door and enter, that they may remove the unhappy victim of such barbarous usage. Generally the woman is dead, either by starvation or her own hand; but sometimes life is not extinct; the spark yet remains when the "doctors" enter; but this makes little difference with them. They come for the corpse, and they will not go way without it. If the victim be not already dead, the circumstance only delays the removal of the remains a few minutes. When they enter the woman is still alive, but they soon come forth bearing a body—only a body; the heart has ceased to beat; the breath comes and goes no more; the soul has fled. How the deed is done—whether blood is drawn, the victim slaughtered or smothered, none save those in the secret know. The result is past dispute. A poor, erring woman, helpless and unloved, is murdered, and this is the heart of a Christian and enlightened city. Such is a simple chapter in the book of crimes of a cosmopolitan city. The truthfulness of the recital is vouched for by the police officers who aided the reporters in ferreting out the facts."

Fenian Outrages in Ireland

Fenian outrages are still rampant. On January 1st, Mr. Cotty, a farmer, was shot near Ballincove, County Mayo, while returning on a car from the Fair at Westport and near his own house. Some of his hair was shot off the top of his head, and the crown of his hat was blown away. The assassin, who was inside a hedge, walked coolly off. A shopkeeper named Walshe, residing in Shrule, a small town about ten miles from Tuam, was fired at on January 1, when returning from the market in the latter town. A man came up to him when about half a mile from Tuam, and putting a pistol against Walshe's stomach, fired and lodged the ball in the poor man's body. The two men who were on the car let the villain escape. The ball lodged in the bowels, and has not yet been extracted. The reason—which is believed to be the true one—for this attempt to murder is, that he was a very large dealer in eggs. As he had a great command of money, he was able to take a great deal of the trade out of other dealers' hands, and, in consequence there was a great deal of ill-feeling against him. His life had been threatened before, and he had had protection from the government. It is reported that he raised the price of eggs to 1½d each, and that it was to get rid of so formidable a rival he was shot. No arrest has been made, nor does there seem any likelihood of any one being made amenable, as the man himself says the night was so dark he would not be able to identify the person who shot him. He was so severely wounded that he could not be removed to his home, and lies in a precarious condition in a house in Taum. It is stated that a Mr. Jackson, who resides within a short distance of Crossmolina, was shot at on January 1, Mr. Jackson is agent to Mr. Featherstone, and the crime (if it has been committed) is considered to be of an agrarian nature. There is also another very influential and extensive landowner reported to have been shot at on January 1. He lives within eight miles of Castlebar.

FRESH OYSTERS.

CANADA
Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates*, will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are
Indisputable on any ground whatever,
Subject only to payment of premiums which may become due.

SPECIAL FEATURES.
ECONOMY—
Giving more assurance, for the same money than other Companies.
HOME MANAGEMENT—
HOME INVESTMENTS—
Every advantage to policy holders which is compatible with sound management and ultimate safety.

Mixed Train going East,	10.30 P. M.

Special passenger train for Toronto every Monday at 6.20 A. M.

Montreal Time.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, FEB. 2.

OFF THE TRACK.—The Western Express, due at 11.35, had not arrived up to 5 o'clock, having been delayed by a freight train which ran off the track about a mile from this station.

I. P. B. S.—The monthly meeting of the Irish Protestant Benevolent Society will be held in the Workingmen's Temperance Hall at 7 o'clock this evening.

SNOW.—Since early morning snow has been falling steadily, and continues to descend as we go to press. This snow fall is most timely, as the front roads in many places were becoming bare.

LECTURE.—Dr. G. J. Potts lectures to-night in the Workingmen's Temperance Hall, on "*Ireland's Illustrious Men.*" As the Doctor has already acquired a high reputation as a lecturer, we have no doubt there will be a good attendance.

THE DUNKIN ACT IN SIDNEY.—The Dunkin Act, for the prohibition of the sale of intoxicating liquors, is to be submitted to the votes of the electors of Sidney on the 26th instant. Commencing at Frankford on the the 8th, public meetings are to be held almost daily throughout the township, to discuss the advisability of passing the Act.—These meetings will be addressed by Rev. Jos. Wild, Rev. Mr. Brethour, W. W. Dean, Esq., Rev. Principal Carman and numerous other speakers.

POST OFFICES.—The following new Post Offices were established in Ontario on the 1st January:—Bowling Green in the County of Wellington; Fallbrook,in the County of Lenark; Huntsville, in the County of Victoria; Rosebank (re-opened), in the County of Brant; St. Olaf, in the County of Hastings; Sierra,in the County of Glengarry; Traverston, in the County of Grey, N. R.; Waldemar, in the County of Wellington. Offices Closed:—Hebron, County Perth; Larner, County Perth; Rosseau, County Simcoe.

MISSIONARY TEA MEETING.—The Annual Missionary Tea Meeting, in connection with the Wesleyan Methodist Church, Belleville, was held in their Church, Bridge Street, on Tuesday evening, February 1st; and was, as is always the case, a success, the proceeds being $214. After the tea was over, M. Bowell, Esq., M. P., was called to the chair, and the meeting addressed by Thomas Holden, Esq., Rev. William McLaren, W. W. Dean, Esq., and the Rev. I. B. Howard, in short and appropriate speeches. The excellent choir of the Church contributed much to the enjoyment of the evening by performing a number of anthems in exquisite style.

SILVER.—Sir Francis Hincks has issued a circular to the Banks, asking their co-operation in removing American Silver. He proposes to fix a day sufficiently distant to enable all to prepare for it, when American silver coins shall be a legal tender only at 20 per cent discount. He has applied to the Royal Mint for a Canadian silver coinage to the extent of a million dollars in 50 and 25 cent pieces, and until that is received he proposes to recommend the temporary issue of fractional Dominion Notes of 25 cents, redeemable like other Dominion notes in gold when presented in sums of five dollars.

Orange County Lodge, South Hastings.

The annual meeting of the Orange County Lodge of South Hastings, for the election of officers and the transaction of the general business of the Order,took place in the Orange Hall, Belleville, on Tuesday, February 1st. The meeting was largely attended, and the report read by the County Secretary in reference to the state of the Order in this County, was highly interesting and very satisfactory. The following Brethren were elected office-bearers for the current year:—

Bro. JOHN G. MOORE, County Master, re-elected.

Bro. WM. STOKES, Deputy County Master.

Bro. WM. JOHNSON, County Chaplain.

Bro. H. L. BOTTOMS, County Secretary, re-elected.

Bro. JAMES REID, County Treasurer, re-elected.

Bro. J. H. POST, Co. Director Ceremonies.

A resolution was unanimously adopted that a grand celebration should take place in Belleville on the next 12th of July. Invitations to be sent to Kingston, Prince Edward, Northumberland, Lennox and Addington,and North Hastings.

News Condensed.

—T. Thumb and party are in Japan.

—Windsor Forest contains 1,700 deer.

—California allows Sunday theatricals.

—"Dissenting Mormons" have broken out in Utah.

—A Minnesota married woman aged eleven, is a mother.

—"Shoo Fly" is still a feature of Philadelphia weddings.

—Bavaria is re-organizing her army after the Prussian model.

—The streams of Vermont are to be stocked with salmon eggs.

—Hon. Mr. McDougall is visiting his constituents in Lanark.

—Minnesota is making a fortune from her trade in muskrat skins.

—Mr. Thos. White leaves for Europe this week as Emigration Agent.

School Trustees.

TUESDAY, Feby. 1st, 1870.

The regular fortnightly meeting of the Board was held this evening in the Town Hall, at half-past seven o'clock.

PRESENT.—F. McAnnany, Esq., Chairman; Messrs. Shepard, Sawyer, Glass, Tennant and Wensley.

PETITONS.

From John Macoun, teacher School No. 1, to be allowed to attend the meeting of the Teachers' Convention of East Northumberland, to be held at Trenton on Friday next.

COMMUNICATIONS.

From Mr. Vermilyea, teacher of School No. 2, respecting repairs to school house—Referred to Committee on school.

From Miss Mellissa Ostrom, applying for the vacant teachership in the Girls' High School.

From Miss Louisa C. Lundy for the same.

Mr. Falkiner came in.

ACCOUNTS.

Several accounts were read and referred to the Finance Committe.

REPORTS.

The following report from the Local Superintendent was handed in and read:

To the Board of Common School Trustees of the Town of Belleville.

GENTLEMEN.—I herewith transmit to you the reports of the teachers of Schools Nos. 1, 2, 3, 4and 6, for the last quarter of the year 1869, and I would take this opportunity of respectfully requesting your Board to enact and publish some regulation which may secure uniformity,with regard to transmitting the teachers' reports to the Superintendent. Unless they are all sent in to him, it is impossible for him to present a complete tabular statement of the condition of the schools, which must always serve as a valuable basis for the recommendations which he may embody in his own report from time to time. And I may add that owing to the tardiness and irregularity hitherto prevailing in this matter, the Superintendent usually has been compelled to defer the drafting of his own Report to the last moment, and to throw it off in great haste. There seems no sufficient reason why these reports should not be sent in the day after the quarter has expired.

While treating of the subject of School Reports, I would also suggest the expediency of adopting some blank forms for the quarterly and annual reports of the Superintendent, and of having our blank forms bound up into a book, into which the several reports might be copied, and thus serve as a complete and orderly record convenient for after reference.

Quarterly Examinations were held by me in all the Schools except No. 5, the teacher of which had been suddenly called away by the alarming illness of a parent; but from what I have seen in my visits there I have no doubt that the examination would have proved satisfactory.

The examinations in general do not seem to invite any special remark.

I would call attention, however, to the very high average of attendance maintained at School No. 1, viz., one hundred and forty three, which, while it affords a high testimony to the value placed upon this School by the public, must nevertheless prove a severe strain upon the mental and physical energies of the teacher and his assistant. Some limit in this matter should, I think, be laid down for the several departments of all the schools.

At present there is a great deal of running about from school to school, sometimes in the hope of securing greater advantages,sometimes from mere caprice. Were every pupil required to bring an honorable discharge from his last teacher before he could be received by another, and were the parent or guardian in the event of an unreasonable refusal allowed to appeal to one of the trustees, or to the Local Superintendent, a wholesome check would be applied, and much light thrown incidentally upon the practical efficiency of the Schools.

The average attendance at School No. 2, has somewhat declined, which is in a measure accounted for by illness, both among teachers and pupils.

During one day the School was closed from want of fuel.

Three cases of suspension are reported, concerning which some unpleasantness was felt by the parents and guardians, owing probably to the existence of a slight ambiguity in the printed rules, which it might be well to correct.

Such cases ought, I think, to be invariably referred to the head teacher, and I should like to have the sense of the Board upon this point.

The teachers of Schools Nos. 2 and 3, draw attention to the leaky condition of their respective roofs.

The seats of School No. 2, are not properly secured to the floor, this causing constant annoyance and expense. Strips of wood about two inches high, marking off the seats of the galleries into spaces would cost a mere trifle, and save a great deal of time and trouble, especially in the younger departments. The ventilation of the gallery rooms, especially the first and second, is most defective. The windows of two of the rooms were constructed with a view to this, but for the want of a few pairs of hinges they have been, now for more than a year wholly useless.

Despairing of gaining attention to these small but important details, I endeavored at last but in vain, to rectify them with hammer, chisel and nails with my own hands.

The average attendance (84) at No. 4, is also small, for which the teacher offers a reason in his report. The Junior Department has since then filled up.

The average attendance at the Girls' School (63) has also fallen away very seriously, owing to the defective arrangements for heating. The teacher adds: "If this be not remedied, I fear the decrease will continue through the winter." This has since been partially remedied, but the fact is, that the trouble is to a great extent irremediable, and arises chiefly from the radical error and false economy of endeavoring to carry on a public school in a building never intended for it, and wholly unsuitable for such a purpose.

The cleanliness of the school rooms and outbuildings, during the past year has not been in general satisfactory.

This will never be thoroughly remedied until the head teacher in each school is held responsible, which it is not fair to exact, unless he has the control of the care-taker. Let the latter be engaged and dismissed by the teacher, and paid only upon his order, with any check or countersign which the Board may deem expedient, and I think an improvement would soon be manifested. The out-buildings, with one exception, are filthy.

With regard to the internal organization of the Schools, I would recommend the grading of School No. 3, so that no pupils would pass beyond the Fourth Book of Lessons, nor enter upon any other studies than Reading, Spelling, Writing, Dictation, Arithmetic, English Grammar, and easy lessons in Geography,—drafting the advanced scholars either into the Girls' School, or School No. 4.

No. 5 should be under the care of a female teacher at $250 per annum, and graded so as not to pass beyond the Third Book of Lessons; the more advanced pupils to be drafted into Schools Nos. 1 and 2.

If the teacher of School No. 1 could be brought to School No. 4 I should be also in favor of grading No. 1, so as to draft into No. 4 all pupils passing out of the Fourth Reader, paying the teacher $600.

Instead of two male teachers in School No. 2, I would recommend a female first assistant at $250, adding also $100 per annum to the salary of the head master, thus effecting, in two cases, a saving of $50 a year.

These suggestions are made of course with no desire to dissolve existing engagements, but are merely set down as memoranda for guidance in entering upon future arrangements.

I should be most happy, if required, to explain in detail my reasons for making these suggestions.

Allow me to add a few words respecting our School Buildings and School Teachers.

We have at present six Schools, and only three School buildings properly so called.

It is evident that we require accommodation for School No. 4, at which the attendance ought to be very large, say 150. And this central position would also be the most suitable for the Girls' School, into which the advanced girls from all the wards could then be conveniently drafted, and some symmetry be thus imparted to our present mongrel system.

With the advantages of a suitable building and situation, the attendance might easily be brought up to 150.

If, therefore, a new School building is to be erected for No. 4, I would most strenuously recommend the enlarging of the plan, so as to take in the Girls' School also. Thus we should have a building which would contain six rooms, accommodating, says 50 pupils each. Four of these rooms could be occupied by the Ward School, and two by the Girls'—or better still with a proper system of grading for all the Schools—three rooms for Boys and three for Girls.

With regard to the internal arrangement of this building, I would point out that the plan adopted, in patching and enlarging School No. 2, to which I was always most earnestly opposed, is very costly.

By erecting separate gallery rooms, (a desirable plan where expense is not a ruling consideration) you do, in effect,provide and warm sufficient accommodation to receive your pupils twice over, as though you had built eight class rooms for four classes.

By giving a fair slope to the floor of each class-room, most of the advantages of a gallery could be secured at one twentieth part of the expense.

This building might be so planned, as to be capable of further enlargement,should additional accommodation be gradually required.

A little reflection will show, that instead of building a house like No. 2, accommodating four classes, at a cost including the lot of, say between $4,000 or $5,000, you would be building a house at a cost in all probability no higher, which would accommodate six classes.

In our schemes of School House building, it will be well, however, to bear in mind that all the indications show a drifting of public opinion, and of consequent legislation towards the Union of Common and High Schools with Grammar Schools.

The recommendation above is based upon the appropriation of $3,000 voted by your Board for a building to replace the structure on the Hospital lot.

Should you be of the opinion, that such a Union is likely to take place, then it would be very desirable to delay building at all for the present.

Public opinion is undoubtedly ripening, and in a year or two more a Union Board would be sustained in erecting upon the Grammar School lot, which is so admirably situated, a building which would utilize the present edifice, do credit to the Town, and greatly promote the advance of education among us.

Meanwhile by thoroughly grading our present Schools some of the advantages of centralization may be attained.

With respect to our teachers, I would observe that without good teachers, no system, no buildings, no superintendence will ensure any good result.

In order to secure such teachers, two things are necessary, adequate remuneration, and a judicious system of selection the appointment.

Our present scale of remuneration, especially for head teachers, is unquestionably still below the mark, so that our best male teachers almost invariably leave the profession for other employments which will yield a fairer reward to men of energy and education, good character, good breeding, and good judgment, such as are alone fit to be entrusted with moulding the minds and manners of our children. With regard to our present system of appointment, although it has given us many good teachers, yet it seems capable of improvement. If here, as in some other towns, a small carefully selected committee, (say of two), in connection with the Local Superintendent, were struck annually by the Board to attend to the selection and appointment of teachers and the details of school organization, and who should absolutely refuse to be canvassed. There is reason to believe that this part of the work would be still better performed.

For convenience in referring I briefly recapitulate and number the various topics suggested in this report:—

1. Transmission to Sup. of Teachers' Reports.
2. Adopting and binding in a volume certain forms of Reports.
3. Limiting number of pupils at each school.
4. Some regulation to prevent too much wandering from School to School.
5. Various items about School Buildings Nos. 2, 3, and 6.
6. Organization of Schools, Scale of Payments, &c.
7. New School Building, Baldwin Ward.
8. Union Board.
9. Committee on Teachers and School Management.
10. Ambiguity in Printed Rules for Pupils.

In conclusion, gentlemen, I have to thank you for tendering to me for the present year the office of Local Superintendent. For reasons which like yourselves I hasten to forget, I had quite made up my mind not to undertake again the duties of this office, but your late unanimous expression of confidence and good will encourages me to hope that a new era of harmony and efficient work is before us, which will soon enable us to overtake the ground that has been lost. Under such auspices, I feel it a pleasure as well as a duty to accept with thanks the honorable and laborious office with which you have entrusted me, and the duties of which I shall use my best endeavors to fulfil.

I remain, gentlemen,
Your obedient servant,
SEPTIMUS JONES.

Belleville, Feb. 1, 1870.

Mr. Glass presented the report of the Finance Committee, recommending the payment of sundry accounts.

On motion of Mr. Glass, seconded by Mr. Shepard, the report was adopted.

APPOINTMENT OF TEACHER.

On motion, the rules were suspended, to allow of the appointment of teacher for the second division of the Girls' School.

Mr. Sawyer moved, seconded by Mr. Shepard, That Miss Melissa Ostrom, be appointed teacher in the second division of the Girls' High School, at a salary of $250 per annum.—Carried.

LEAVE OF ABSENCE.

Mr. Shepard moved, seconded by Mr. Wensley, That the leave of absence asked for by Mr. Macoun, to attend the Teachers' Convention at Trenton, be granted.

Mr. Sawyer, while not opposed to grant the leave asked in the present instance, thought that too many holidays were had, and the schools too often shut.

Mr. Shepard said Mr. Macoun was one of the most efficient teachers in the employ of the Board, and never absented himself without the consent of the Board.

Mr. Wensley agreed with the previous speaker.

The motion then passed.

SCHOOL NO. 2.

Mr. Falkiner moved,seconded by Mr. Glass, That the Secretary be authorized to advertise for a female teacher for School No. 2.

The Chairman suggested that the motion should be laid over, as there was really no vacancy, Miss Scarlett had been allowed leave of absence on account of ill-health, her sister in the meantime occupying her position. Miss Scarlett had been complained of for absenting herself from her duties on two or three different days, but perhaps she was not aware of the rules in that respect.

Mr. Sawyer said complaints had reached him of children being suspended for two or three days at a time for trivial causes.

Mr. Wensley said it was a practice in that school to allow children to go home early two or three times a week, to go errands.—He highly disapproved of this.

Mr. Falkiner had no objection to allow his motion to stand over, to see whether it was the intention of Miss Scarlett to return.

The motion was accordingly withdrawn for the present.

LOCAL SUPERINTENDENT'S REPORT.

Mr. Shepard said it was perhaps too late to consider the Superintendent's Report tonight, though it contained many valuable suggestions, on which he would like to see some action taken. He would move, seconded by Mr. Wensley, That it be referred to a Committee consisting of Messrs. Falkiner, Sawyer and the mover.—Carried.

Some discussion took place respecting the woodshed at school No. 2, and the matter was referred to the Committee for said school.

The Board then adjourned.

Police Court.

(Before A. DIAMOND, Esq., Police Magistrate.)

WEDNESDAY, Feb. 2.

There was a larger attendance than usual at the Court this morning, a desire being generally manifested to hear of the case against Mr. Vandusen for infringement of the market By-law, the result of which will be found below.

VAGRANCY.

Toby Mink was the first to be dealt with, and was sent to limbo for 10 days.

Elizabeth Whitelaw, on a similar charge, was fined $2 and costs, or 60 days. She went to gaol.

INFRINGEMENT OF MARKET BY-LAW.

Edward Snell charged J. G. Vandusen with having infringed the Market By-Law, by selling meat in less quantities than a quarter. Mr. Vandusen admitted that he had sold salt meat, as charged, and pleaded in justification the new By Law passed on Monday night. Mr. Dougall, on behalf of Mr. Snell, submitted that the offence was committed before the passage of said By-Law, and that the By-Law was amended on Monday last after this information was laid, and that Vandusen was a Councillor, and assisted in so amending it as to relieve himself.—The Magistrate said he had no jurisdiction under the new By-Law, which declared that the law should not be interpreted to mean salt meat, thereby giving it a retrospective as well as prospective effect, and the case was therefore allowed to drop.

The case against Mr. Snell for a like offence was not proceeded with.

THE LIQUOR LAW.

The adjourned case against Martin Naphin, for selling liquor on Sunday, was then gone into. Michael McLaughlin was examined, and on his testifying that Mr. Naphin was not present when the liquor was drank, and not aware of its being so, the case was dismissed.

The Magistrate announced that he would render his decision in the case of Charles McCarthy on Monday next.

ASSAULT.

Thomas Welsh, charged Chauncey Weese with assault. Complainant stated that he had been in Maybee's, and when coming out saw Weese, who used abusive language and struck him on the head with a bottle, knocking him down; that, upon regaining his senses he arose and struck his assailant with a club. Weese thereupon called for assistance and two of his comrades joined him in pursuit of Welsh, who managed to elude them. The case was laid over till Friday, to allow of further evidence being procured.

VALUABLE STOCK
AND
Business for Sale.

THE
STOCK OF GOODS
AND
Good Will

OF the Business belonging to the Estate of the late

George Vair, Esq.,
OF
Belleville,

Is now offered for sale by

TENDER.

The Stock consists of

Dry Goods, Groceries & Crockery,

And is one of the largest and best assorted Stocks in the country; will amount to between $30,000 and $40,000. A lease of the premises, which are very extensive, may be had with the Stock.

The established and favourable reputation of the above business, and the fact that the late owner realized a large fortune in a comparatively short time, render this an opportunity rarely to be met with.

The Stock may be examined and all needed information will be furnished by applying to the undersigned.

Tenders must be sent in before

Wednesday, 10th Feb'y,

To T. James Claxton, Montreal.

The Executors do not bind themselves to accept the highest or any Tender.

Unexceptionable security will be required if time is given.

A. G. NORTHRUP,

Latest from Red River.

RIELL ARRESTED.

Governor McTavish Reinstated.

NEW YORK, Feb. 2

A special from St. Paul says: Startling news has been received from Fort Garry January 20th, via Pembina, that Riell had been arrested from his brief and absolute dictatorship in the Red River Settlement, and the old Hudson Bay Company Government has been reinstated under the title of Government and Council of Assinaboia, with Governor McTavish at its head. For some time dissatisfaction has existed among the half-breeds on account of Riell's inefficiency or inactivity, and during his temporary absence from Foot Garry the old *regime* was reinstated. A guard met Riell on his way back and after a faint resistance he was captured and taken to Fort Garry.

American Despatches.

AMERICAN FINANCES.

WASHINTON, Feb. 2—Secretary Boutwell was again in conference yesterday with the Senate Finance Committee concerning the pending bill. The question under discussion was in regard to a clause for the retirement of greenbacks, and the substitution of a bond for national banking purposes. It is proposed to retire one hundred million dollars, and to issue one hundred million dollars of bonds at a low rate of interest, say 4 per cent or less.

GREAT FIRE IN NEW YORK.

NEW YORK, Feb. 2.—This morning fire was discovered in the large sugar refinery of Messrs. O'Kerhaussan, in Rose street. The fire is still burning. The loss is already estimated at $100,000, and will probably reach half a million.

THE PEABODY FUNERAL.

PEABODY, Mass. Feb. 2—The funeral train bearing the remains of Geo. Peabody, arrived here at 4:45 p. m. yesterday, and were at once placed on the elaborate funeral car that was to bear the remains to the institute.—The remains will be in state in the institute until Tuesday next.

NEW YORK STOCK MARKET.

NEW YORK, Feb. 2.

Gold 121⅜.

DR. J. BRIGGS' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks. —"The singular success which Mr. Epps attained by his homœpathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 94—6mT&S

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO. LINDSAY, ONT. 221-2w

24 YEARS AFFLICTED WITH ASTHMA AND BRONCHITIS—DOCTORS AND MEDICINE FAIL TO CURE—ALLEN'S LUNG BALSAM CURES AFTER ALL OTHERS FAIL.

PAINESVILLE, Ohio, Dec. 1, 1861.

MESSRS. J. N. HARRIS & Co.

SIRS—In taking up one of your almanacs, I read the wonderful cures by the use of Allen's Lung Balsam. I was suffering much at the time with Asthma and Bronchitis. I thought I would try a bottle of it. I did so, and was relieved in a few days so that I could sit up. I think it will cure me altogether. I am sixty-five years of age; it is now twenty-four years that I have been so afflicted, and I have been doctored by many different physicians, but I have never taken anything that has done me so much good as Allen's Balsam. As soon as I took the Balsam it relieved me, and I have been getting better ever since. • • •

With much gratitude, MRS. AMY KENNEDY.

Later from the Same Lady.

PAINESVILLE, Ohio, Jan. 6, 1865.

GENTLEMEN,—I cannot express the gratitude I feel. I have not felt as well for many years. I am so much better that I wanted you to know it, and I thank you many times for the benefit your medicine has been to me. Yours with much respect,

MRS. AMY KENNEDY.
Sold by all druggists. 2.9&47-1m

DEBILITY.

Every one at times feels the necessity of something to *tone up the system* depressed by mental and bodily exhaustion. At such times let him, instead of taking alcoholic or medicinal stimulants, which afford only a temporary relief, reinvigorate his debilitated system by the natural tonic elements of the

PERUVIAN SYRUP,

Or Protected Solution of the Protoxide of Iron, which vitalizes and enriches the blood by supplying it with its *Life Element*, IRON.

Being free from Alcohol in any form, *its energizing effects are not followed by corresponding reaction,* but are permanent, infusing STRENGTH, VIGOR and NEW LIFE into all parts of the system, and building up an IRON CONSTITUTION.

WM. C. STERLING, Esq., of Poughkeepsie, N. Y., says: "Since taking the Peruvian Syrup I feel better, my strength is improved, my bowels are regular, my appetite first rate. There is an old Physician in this city, (older than I am), who has been in the drug business for 40 years, who has used the Syrup for three months, and gives it as his decided opinion that it is the best Alterative Tonic Medicine he ever knew."

For DYSPEPSIA, DEBILITY and FEMALE WEAKNESSES the Peruvian Syrup is a specific. A 32 page pamphlet sent free. The genuine has "PERUVIAN SYRUP" blown in the glass.

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are now prepared to receive Tenders for four further Sections of the Line.

Section No. 13 will be in the Province of Quebec, and will extend from the Easterly end of Section No. 8 to Station 903, near Malfait Lake, about 20½ miles in length.

Section No. 14, will be in the Province of Quebec, and will extend from the Easterly end of Section No. 13, to Station 543, a point between the mouth of the River Amqui and the little Matapedia Lake, about 22½ miles in length.

Section No. 15 will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 9 to Station No. 639, a point fully half a mile Easterly from the crossing of the River Nepissiguit—length, twelve one-tenth miles.

Section No. 16, will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 15, to the Westerly end of Section No. 10, about 18½ miles in length.

The contracts for the above sections to be completely finished and ready for laying the track by the 1st day of July, 1872.

The Commissioners also give Public Notice that having annulled the Contracts for Sections Nos. 3 and 4, they are now prepared to receive Tenders for re-letting the same.

Section No 3, in the Province of New Brunswick, and extends from Station No. 370, about two miles South of the Restigouche River to Station No. 190, about 2,000 feet South of Eel River, near Dalhousie, being a distance of about 24 miles.

Section No. 4 is in the Province of Nova Scotia, and extends from Station No. 280, on the Amherst Ridge, to Station O, on the Ridge about a mile North of the River Phillip, a distance of about 27 miles.

The Contracts for Sections Nos. 3 and 4 to be completely finished and ready for laying the track by the 1st day of July, 1871.

Plans and Profiles, with specifications and terms of contract, will be exhibited at the office of the Chief Engineer in Ottawa; and at the offices of the Commissioners in Toronto, Quebec, Rimouski, Dalhousie, Newcastle, St. John and Halifax, on and after the 10th March next; and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders" will be received at their office in Ottawa, up to 7 o'clock P. M., on Monday, the 4th day of April, 1870.

Sureties for the completion of the contract will be required to sign the Tender.

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building, Front Street

Richer or Poorer.

The New York *World* comes to the conclusion that Ohio, and every Northern State is growing poorer. The data, drawn from the State of Ohio on which it bases this opinion, are the following :—For the last ten years the average area of wild land annually brought under cultivation has diminished enormously. The number of cattle, increasing, has dwindled down, to one half what it was in 1861. The number of hogs has decreased in the same ratio. There is a vast yearly increase of the mortgage debt over that State. The aggregate value of personal property, instead of having received an increase during the last two years, has diminished. Certain monetary returns show a loss or abstraction of more than $7,000,000 in the item of ready money during the last twelve months. During the last two years, the number of sheep in the State has diminished annually by twenty per cent. It should be, however, remembered that, as a result of war and tariffs, the stock of sheep increased during several preceding years at that same rate of twenty per cent. Finally, during the year last reported, pauperism has increased in Ohio at the rate of twelve per cent, or five times faster than the population increased.

A Pretty Compliment.—'Why do you wink at me?' said a young lady to her lover at a party one evening? 'I winked,, replied the lover, 'as men do when looking at the sun. Your splendor dazzled my eyes.'

The facts here referred to, and which are found in the statistical report of the Secretary of the State of Ohio, bear date before the late fall in grain, and before there had begun to be anxious complaint of hard times.

A contemporary publishes a letter, in which the writer says he has been placed in the trying dilemma of having to choose between a barrel of apples for his family and a subscrption for the newspaper. He adds that he finally concluded to subscribe for the paper, and 'trusted to Providence for the apples.

A wrought iron chimney 196 feet high and 6 feet 7 inches in diameter has just been erected in Pittsburg. Another is to put up 275 feet high. The first was riveted together in a horizontal position, and then lifted to the perpendicular by a crane. The other will be made upright. The plates will be riveted by means of a scaffolding running up inside.

A Pleasing Incident.—A poor young widow in Berlin, on returning to her house after an hour's absence, recently, found this note lying on her table :—

Madame : I came here with the intention of robbing you, but the sight of this respectable and peaceful little room, decorated with religious pictures, and adorned with pious souvenirs, and above all, your two little children, which were quietly sleeping in their little beds and smiling in their dreams, touched my heart, and instead of depriving you of the little money I found in your drawer, I take the liberty of leaving here $50, hoping that you will accept of them as a tribute of my respect and admiration."

Catarrh, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

Consumptives, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

Cure for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

Frosted Feet, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are prepared to receive Tenders for the following Rolling Stock :—

40 Locomotive Engines & Tenders.
250 Box Freight Cars.
150 Platform Cars.

Printed Specifications according to which these Engines and Cars are to be constructed can be had, and general plans of the different vehicles can be seen at the office of the Chief Engineer, in Ottawa, on and after the 17th January, 1870.

Sealed Tenders, addressed to the Commissioners of the Intercolonial Railway, marked "Tenders," will be received at their Office in Ottawa up to 7 o'clock P. M., the 17th March, 1870.

Fortieth Year.

GODEY'S LADY'S BOOK For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address **L. A. GODEY,**
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup,* it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure,* and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints,* arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use,

Its wonderful power in raising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and of [illegible] in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort. It met with the same treatment that the stone which the builders through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this marvelous remedy known as RADWAY'S READY RELIEF was completed, it supplied a want that had ever existed that [illegible] the best approved discoveries in Medical Che[illegible] or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium would allay pain; but an over-dose of either would cause death; and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure : it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar [illegible] our firm faith in the RADWAY'S READY RELIEF proving itself a saviour to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold and all expenses for foreign duties, freights, commission, agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent [illegible] at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers ; and in this class of diseases it cured when all others failed, and PREVENTED *attacks* [illegible]

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will in placing an antidote within the reach of the people of all nations of the earth who had sufficient faith to [illegible] their "bread cast on the waters to return after many days" who were content to spread it before the world the richness, purity and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity over where shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all its forms ; and as regards ordinary PAINS *that are common* to all, he Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty of engorged liver, fat spleen, disordered kidneys, saffron-colored skin, and hundreds of other symptoms of distress. Those agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits will give you equal in quantity, and superior in quality, to 144 bottles of the so-called Pain Killers, Embrocations, Panaceas, Lotions, &c., all of these being but poor imitations of Radway's Relief.

One bottle of Radway's Ready Relief for 25 cents as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least (say) twenty-five dollars, had you to purchase prescriptions or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyptheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops in a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera. Cholera Morbus,
Bilious Colic. Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate Radway's Ready Relief. Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents ; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the Edinburgh. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly ; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The Postage on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one* of the *Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two* of the *Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by Henry Stephens, F.R.S., Edinburgh, and the late J. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo, 1600 pages, and numerous Engravings.

Price $7. By Mail post-paid, $8.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, THURSDAY EVENING, FEBRUARY 3, 1870. No. ~~304.~~ 234

English and French Prisoners at Sebastopol.

War is a good field in which to study national character and temperament for any one caring about such matters. The difference presented by the captive English and French soldiers was alone worth notice. The former were almost always shockingly wounded before being taken prisoners; the latter often quite sound, and sometimes bearing a few insignificant scratches. And even if so wounded, the English soldier would not give up his animosity to the Russians, while the Frenchman immediately fraternised with them. I remember one day having seen an English soldier brought to the hospital with a fractured leg and a broken jaw. The man could not articulate, and hardily respired, he only groaned, and when put on his death-bed and surrounded by Russian surgeons, closed his fist and shook it at them. Amputation of his leg was resolved on, but as the surgeons could not make themselves understood, they found somewhere a German medical man, supposing that he would be more intelligible, and the learned doctor apparently did suppose it too, for he willingly undertook the negotiation as well as the operation. The wounded man was decidedly opposed to the operation, but chloroform being administered, the amputation was performed. Scarcely had the patient recovered his senses and seen the absence of his leg, than he took a leaden water-jug standing by his side and threw it at the German, groaning most dreadfully. Happily for the learned doctor, the man appeared to have been a bad marksman, and the jug only smashed a window and flew out into the street. Around the bed of wounded Frenchmen, on the contrary, there was always not only cordial conversation, but positively an entertainment of laughter and jokes. The Frenchmen often deserted, because, as they themselves said, their provisions were so bad. People fighting with the French must, I think, unavoidably come to the conclusion that acting *en masse* French soldiers are irreproachable, but taken each of them separately, and especially when young, they now-a-days seldom present any of those qualifications which are considered to form a good soldier.—"*A Late Enemy*," *in the Pall Mall Gazette.*

An Explosive Agent.

SUCCESSFUL EXPERIMENT AT THE HOOSAC TUNNEL.

Captain Von Schelika and Lieutenant Von Ditmar, both of the Prussian army, and the latter the inventor of the explosive known as dualin, have been giving a practical test of its quality at the Hoosac tunnel, which has proved very successful.—The experiments included trials of power upon rocks, simply placing a few ounces on the surface and covering it with dirt, upon a boulder in the open field, the hole being drilled in the usual way, and the dualin lightly stamped in, and in the regular work of the tunnel, at the west and central shafts. In every instance the explosive did all that is claimed for it, and proved itself a powerful agent for breaking things. The same weight of the dualin is more effective than nitro-glycerine, while it is also considerably cheaper, and is absolutely safe in the handling. Its obvious advantages over glycerine are so great, that a considerable quantity of it has been ordered already, and it is probable that it will soon be exclusively used by the Messrs. Shanly, the Canadian contractors in their work on the tunnel. Its great advantage is the safety with which it can be used, even allowing for accident or carelessness. While possessing many of the properties of glycerine, it is so prepared and combined with other substances as not to be exploded by concussion; indeed, when confined, and fire is applied to it, it does not explode, but simply burns. Lieut. Ditmar brought over with him from Germany 100 pounds of dualin in a carpet bag, and we are sure he would not have treated nitro-glycerine in that confidential manner. There have already been numerous fatal accidents from glycerine at the tunnel, and any explosive that will be equally effectual, and yet safe to handle, will be a real boon to the workmen, if to no on else.—*Springfield Republican.*

Prince Edward Island.

The papers are discussing the better terms sent from Ottawa. The *Herald*, Government organ, don't appear as if it could make up its mind to speak decidedly either one way or the other. It evidently is not satisfied, thinks the Canadian offers liberal, but urges that the Home Government should settle the Land question for the Island. The *Patriot* after a pretty lengthy and able review of the terms comes to the conclusion that they are neither liberal nor just to P. E. Island, and should be rejected. If the telegram in our last issue be correct, the people will soon have the question before them. If the Government accept the "better terms" they are bound to appeal to the people. In that case a general election in P. E. Island is not far off. The Summerside *Journal* promises to discuss the terms fully, but says in the meantime, "In one respect, however, the 'better terms' do not come up to our expectations, and that is, in the mater of a railway. The other Provinces are provided for in reference to public works. We should like to see something that would stimulate trade and put our Island on a par with the neighboring Provinces." The *Islander* and the *Argus* both go in unhesitatingly for the "better terms."

Navigation closed in Charlottetown on the 12th inst.

The *Patriot* of the 13th, has an article on the Island trade for 1869. The exports of oats were 1,642,952 bushels, an increase of 250,000 bushels over 1868; potatoes, 534,687 bushels; barley 55,551 bushels; turnips, 38,372 bushels. There is a slight falling off in the export of potatoes, barley and turnips. Nothwithstanding the heavy exports of the year, large quantities of produce are still held over for spring shipment. The export of butter, eggs, fish, &c., also show a large increase. The *Patriot* says, "taking as a whole the figures we have adduced indicate a steady and very satisfactory progress."

Ireland.

Ireland is still disturbed, and threats and deeds of violence are reported from several counties. The Nationalits are fierce against the priesthood for their conduct in respect of the Longford election. Mr. Sullivan, the late Attorney-General, has succeeded to the office of Master of Rolls, and Mr. Barry has become Attorney-General.

Through his secretary the Premier has replied to a memorial for the release of O'Donovan Rossa that he is ready to assume the responsibility of the decision to decline the release desired by the memoralists.

A row occurred between soldiers and civilians in a public-house in Kilkenny, but was stopped by the police. The next evening the disturbance was renewed with more serious results, one of the soldiers being severely wounded.

Mr. Meany and some others attempted to get up a demonstration at Hallinamuck in support of Mr. Martin's claims, but the congregation in the chapel attacked them after mass, dispersed their meeting and hunted them through the fields.

An armed party, numbering eight or ten men, visited the houses of several farmers in the parish of Cloon, near Carrigallen, on a property formerly belonging to Mr. Touche, but purchased about twelve months ago by Mr. Benson. In each case the occupier of the house was sworn not to pay any increase of rent, which the new landlord noticed them would be expected.

Mrs. Harriet Gardiner, a lady of preperty near Ballycastle, Mayo, was fired at on Christmas Eve, while sitting in her kitchen. She received seven or eight grains in the head. She has evicted several of her tenants during the past six months and had process of ejectments served on others.

Two policemen, Doyle and Macconaghty, were at Askeaton, county Limerick, when a shot from a blunderbuss was fired at them from an alley on the opposite side. Doyle was struck in the back with four pellets, one entering his side. Macconaghty was slightly wounded in the left arm. Two shots were fired afterwards, to deter pursuit which was not attempted, and the assassins thus managed to escape unseen. Doyle is reported to be dying.

Why O'Donovan Rossa should have found in Tipperary the favor which has been withheld from Mr. Martin in Longford is, the London *Daily News* (Jan. 4) thinks, a matter easily understood. In the statement of the fact, the explanation is implied. Longford is not Tipperary, and Mr. John Martin is not O'Donovan Rossa. Tipperary is notorious for its lawlessness. It is the seat and centre of Ribbon lodges and agrarian outrages. The peace-making custom which in most other parts of Ireland defines the relations of landlord and tenant with more or less exacitude is wholly unknown in Tipperery. Longford, which adjoins Ulster, partakes in some degree of its social and moral characteristics. It lacks venom. Then again, while O'Donovan Rossa represented the latest form of sedition, and so is on a level with the treason felony of his age, Mr. Martin belongs to an obsolete and outworn type of both. Moreover, Mr. Martin, though he could once claim an honourable title which he gave to his newspaper, has no longer any right to it. He is at large, as free as any other of her Majesty's subjects. His election would in no sense back the demand of the agitators for the release of the Fenian convicts. It would have none of the merits of a practical joke. The sense of fun had something to do with the choice of O'Donovan Rossa. But there is nothing funny about Mr. Martin. He is a Presbyterian and a landowner, and in these particulars had no advantage over his rivial, who is a landowner and a member of the Church of England.

BELLEVILLE, THURSDAY, FEB. 3.

MORE LIGHTHOUSES.—The department of marine and fisheries will advertise for tenders in a few weeks for the construction of nine other lighthouses on the St. Lawrence and lakes.

PETERS' MUSICAL MONTHLY.—J. L. Peters publisher, No. 599, Broadway, New York. The January number has been received, and contains a capital selection of music, and is remarkably cheap. For terms, etc., see advertisement.

L. O. L. No. 253, MADOC.—At the annual meeting of L. O. L. No. 253, Allan Settlement, Madoc, the following officers were elected for the year 1870:—James Allan, W. M.; Wm. Woods, D. M.; Robt. Kinneer, C.; Wm. McKnight, Sec.; Alex. Watt, Treas.; Wm. J. Allan, D. of C.

THE DUNKIN BILL.—A telegram from Picton, on the 2nd inst., states that voting on the Dunkin bill for the county of Prince Edward commenced to-day. The majority for the bill as far as heard from to-night is about 500. Five polling places are to be kept open to-morrow.

LECTURE.—To-night, in Ontario Hall, Professor Macintyre, of Albert College, delivers a lecture on "Oliver Cromwell." The lecture promises to be a most interesting one, as it was under the rule of Cromwell that England achieved some of her most glorious successes both by sea and land. The Prof. has already been favorably received as a public lecturer, and many will no doubt be anxious to hear this his second essay.

"IRELAND'S ILLUSTRIOUS MEN."—Last night Dr. Potts delivered a lecture on the above subject under the auspices of the Irish Protestant Benevolent Society, in the Workingmen's Temperance Hall. The lecture throughout was of a most interesting character, and was attentively listened to, and deservedly applauded. The attendance was large, despite the coldness of the night, which no doubt deterred many persons from being present. At the conclusion a vote of thanks was tendered to the lecturer for his interesting discourse.

IMPERTINENCE.—For genuine, unadultrated impudence, commend us to the members of the United States Senate. A telegram from Washington, of the 2nd inst., states, that in the Senate on the 1st of February, "the following resolution was offered instructing the committee on foreign relations to consider the expediency of recommending to the President of the United States that this government shall tender its mediation between the Dominion of Canada and the people of Red River Settlement, with a view to the adjustment of the present difficulties. The mover argued in favor of annexation to the United States and held it to be the best thing for all parties."

RE-UNION.—A very pleasant evening was passed on Friday, 28th ult., at Melrose, between Captain Pashley and the Non-Commissioned Officers and men of his Company, No. 5, 49th Battalion, on the occasion, or rather in anticipation of his retiring from its command. About seventy-five sat down to a most bountiful Oyster Supper. Among those present from a distance were Officers and Non-Commissioned Officers of the Battalion, gentlemen of the neighborhood, &c. The usual loyal toasts were given and responded to, as only such brave fellows can. Letters of apology were read from Col. Brown, Major Bowell, and Lieut. Harrison and others. The toast of the evening being, "Captain Pashley, his health, happiness and prosperity," called out the deep affection which his Company entertains for him. Captain Pashley responded in a very feeling, yet happy manner, saying, among other good things, that although he was certainly about to leave the Company, his heart would still be with them, and that if ever necessity should require it (which was not impossible), he was ready to take the post from which he had risen, "the ranks." Many other Volunteer toasts were given, all of which were kindly received. The party separating about 10:30.

FEJEE ISLANDS.—Yankee journals are at present glorifying over the alledged fact, that the Fejee Islanders want to be annexed to the United States. There are about 1,800 Fejee Islanders, and just 154 islands in the group. The habits of the inhabitants are voracious, white man broiled being their favourite lunch. The latter fact alone should make our cousins anxious for the annexation, for then could there arise immediately a market for a commodity, which is at present dead stock on their hands. We mean that in those daily little occurrences in Chicago, New York, &c., in which one free and independent citizen pistols another free and independent citizen for amusement. They might combine profit with the fun of the thing, by shipping the Republicans to Fejee, where he would be found useful in the way of lunch. The Yankees are a practical people, let them act on the suggestion.

—Of the most popular English magazines, four are edited by females.

Death of Gen. Wyndham.

At midnight, last night, Mr. C. J. Brydges, who is in Toronto, received a telegram from Jacksonville, Florida, informing him of the death last evening at half-past eight o'clock of General WYNDHAM. The deceased General left Montreal some time ago for the good of his health, and as the result has proved did not survive long after reaching Florida.

Sir Charles Wyndham, who was Commander of the Forces in Canada, was a son of the late Vice Admiral Wyndham. He was born in 1810, entered the Coldstream Guards in 1826, and became Colonel in June, 1853, and having meanwhile seen active service in Canada, during the rebellion in 1837-9, he was, on the breaking out of the Russian war, appointed Assistant Quartermaster General to the Fourth Division, and subsequently was promoted by General Simpson to the command of a brigade of the Second Division. He distinguished himself at the battle of Inkerman and at the attack on the Redan, and still more on September 8, 1855, when, in conjunction with Col. Unett, he led the attack on the Great Redan, and stood nearly single handed against an overpowering force, unwounded under a heavy fire. For his gallantry on this occasion, he was promoted to the rank of Major General, and creatsd a C. B., appointed to the command of the Fourth Division of the army, and made Chief of the Staff; on the capture of Sebastopol, in the following month, he was nominated Governor of the suburb of Karabelnia. Returning to England, after the conclusion of peace, he was elected in 1857, in the liberal interest, as M. P. for East Norfolk. In the course of the same year he was sent to India to aid in the suppression of the mutiny, and took an active part in the campaign under the late Lord Clyde, after which he was appointed to the military command to Lahore. He came to this country recently as Commander of the Forces, and up to a very short time since occupied the high position; but finding his health failing him, he took a trip to the States, and it was in Jacksonville that death overtook him, at the ripe age of sixty.

Curling Rink Dinner.

The Belleville Curlers entertained their brethren of the broom to a sumptuous repast after the Ottawaites had gained so signal a victory over them on Tuesday last.

The chair was filled very worthily by skip Geo. Neilson, Esq., supported on the right by Allen Gilmour, Esq., President of the Ottawa Curling Club. Skip, D. B. Robertson Esq., officiated as vice; skip McKay occupying the post of honor on his right.

The viands were satisfactorily disposed of, and toasts and sentiments followed.

The chairman after the usual loyal and patriotic toasts, gave the toast of the evening: "Skips Gilmour and McKay, and the Ottawa Curlers."

Mr. Gilmour replied in a most happy speech, thanking the Belleville players for the handsome manner in which they had been entertained, and especially for the keen contest wherein the Ottawa Club had only won by putting forth all their power.

Messrs. Cassels, Lees and Hutchinson followed in similar terms, and were heartily applauded.

Then followed, "The Belleville Curling Club," proposed by skip Gilmour. Song by skip Neilson, "When the Kye comes Hame."

Skip Robertson returned thanks in that happy and witty manner for which he is so justly celebrated.

The chairman then proposed "The Bench and Bar of the Dominion," coupling therewith his Hon. Judge Armstrong, who responded in a most eloquent and touching manner, alluding to his former residence in Belleville, 28 years ago, and the pleasant acquaintance he then made here. Song by Colonel Campbell.

Several toasts followed; among them, "The Commons." Responded to by Col Brown, M. P. "The Mayor and Corporation," and "The Ladies." A number of songs were sung.

The party broke up in time to enable the visitors to take the midnight train to Prescott, "Glad to meet, sorry to part, and happy to meet again."

When the return match comes off at Ottawa, may we be there to see.

AMERICAN PRISONERS IN GREAT BRITAIN.

WASHINGTON, Feb. 2.—Mr. Swan, from the committee on foreign affairs, to which was referred a resolution in reference to the treatment of American citizens in the prisons of Great Britain for political offences, made a report, closing with the following resolution:

Resolved, "That the President of the United States communicate to the House, if not incompatible with the public interest, any information which may have come to his knowledge concerning American citizens, whether native or naturalized, who may be at this time confined in jail in Great Britain for political offences, and any facts relative to the treatment of prisoners which he may feel at liberty to communicate."

The report states that while expressing no opinion of the truth or falsity of the statements brought to the notice of the committee, the committee deems it its duty to express cordial sympathy on the subject of the resolution so far as to co-operate in the endeavour to procure the fullest information on the facts involved, not only as a duty of Christain charity but of obligation to our adopted citizens.

—A hot stove fell in a house, in Montreal, and burned a child so severely, that it died in a few hours.

North Hastings Orange County Lodge.

At the annual meeting of the above Lodge, held in Marmora, on Tuesday, February 1st, 1870, the following officers were elected for the ensuing year:—

Bro. L. S. Guffin, County Master.
Bro. John Jeffrey, Deputy County Master.
Bro. Thomas Emo, Secretary.
Bro. Wm. Ward, Treasurer.
Bro. Wm. Warren, Director of Ceremonies.

News Condensed.

—Prince Arthur is to be in Ottawa on the 14th instant.

—The wages of the Glasgow cotton-spinners have been reduced ten per cent.

—Kossuth is so poor that he lives at Turin principally on bread and water.

—Scarlet fever prevails to a serious extent in Montreal, and in the Eastern Townships.

—The two hands found in the nunnery yard at Montreal turn out to be the paws of a bear.

—Mr. Gladstone has just completed his sixtieth year, and Mr. Disraeli his sixty-fourth.

—The Legislature of New Brunswick is to meet on the 10th of February next.

—The Ferryboats are still running on the Harbor between Pictou and the Landing, in Nova Scotia.

—No licenses for the sale of intoxicating liquors have been granted in Antigonish County, Nova Scotia, this year.

—A negro Methodist peracher in Philadelphia actually took his text from "de 'pistle of St. Paul to de Canadians."

—Mr. Tilley, formerly of the Belleville Grammar School, is now in charge of the Aylmer (Ottawa) Academy.

—A hungry Alaska editor writes that out there a beefsteak would be an "angelic vision of the happy land."

—A cotemporary seeing that every newspaper copied from every other, is getting anxious to find out who originally writes the items.

—A canoe crossing the river at Quebec on Friday was cut in two, and sunk with a valuable load. Six men narrowly escaped.

—The State of Illinois now has 5,185 miles of railroad, of which 4,708 are open for business, costing, with their equipments, $115,567,543.

—Jeff Davis is hard at work as President of the Caroline Life Insurance Company of Memphis, Tenn. Gen. Braxton Bragg is the company's agent for New Orleans.

—The Halifax *Citizen* says, there is a farmer living at Douglas, Hants Co., who is 108 years of age, and who is still hale and hearty. Nova Scotia is a great country for centenarians.

—The gross amount raised by Imperial taxation in the United Kingdom of Great Britain and Ireland, for the financial year ending 31st March, 1869, was £69,970,814, or $349,854,070—a larger sum than has been raised for several years.

—The imports of Great Britain for the year 1868 were £294,698,608; the exports, £227,778,454, showing the balance of trade against the nation to be £66,915,154, or $884,575,770.

MORE AMERICAN 'CHEEK.'—The matter of extending protection to 'American citizens,' held by Great Britain for participation in the Fenian insurrection was recently under consideration by the House Committee on Foreign Affairs. A reslution was authorized to be reported, calling upon the Secretary of State for information regarding such 'Americans' as are now imprisoned, and expressing the opinion that the government ought to demand their instant release. It remains to be seen whether this 'resolution' applies to the 'Americans' in the Kingston Penitentiary.

WARMING RAILWAY CARRIAGES.—It is greatly to be regretted that we are, remarks the *Globe*, behind the rest of the world in warming our railway carriages, as in everything else. Mr. Berchau has earned a brilliant ring from the Empress of Russia by the entire success of his plan for warming a whole train of railway carriages without expense. Everbody knows that so great is the heat produced by the friction of the axletrees in the boxes of the wheels of railway carriages that unless they are kept lubricated and cool with a mixture of grease they heat to the extent of setting the woodwork on fire. A moment's thought must suffice to suggest that a few disks attached to the axletrees of the carriages would by friction with proper apparatus generate enough heat to warm all the carriages pleasantly without appreciable cost; only the wear and tear of material. How comes it that this simple idea has never occurred to any English engineer, or been thought worthy of working out? And how comes it that now when the invention is ready to our hands we do not take advantage of it?

A SPY IN THE ŒCUMENICAL COUNCIL.—A letter from Rome tells the following story which is curious—whether true or not we cannot say:—Monday's session of the Œcumenical Council bade fair, at one moment, to give great food to scandalmongers. The fathers had scarcely taken their seats, when in marched an officer, accompanied by two gendarmes, who at once proceeded to collar and carry off, in the most unceremonious manner, a prelate who was dressed in the costume of an oriental bishop. The right reverends looked at each other, and seemed to ask whether the holy officer had began to wage war against the liberal clergy. Some of the orientals are said to be hostile to the infallibility dogma. But the mystery was soon explained—the Secretary of State and the Chief of Police had been informed that spies had been sent on from Florence to get into the Council, and the person arrested was one of them. At present this gentleman, who was in search of information under difficulties, and the tailor who got up his costume, are revelling in the delight of solitary confinement in one of the cells of the Castle of St. Angelo.

Kingston Correspondence.

THE RAILWAY—QUEEN'S COLLEGE LECTURES
—FESTIVALS—ROYAL CANADIAN RIFLES
—ARMY REDUCTION—COUNTY L. O. L.

KINGSTON, Feb. 2, 1870.

The Railway to Madoc is the all absorbing question of local importance. It will never see a commencement, say some: it is sure to be built and be a success say others. Which is correct cannot be decided just now; time alone can do that. A number of gentlemen started on an expedition last week for the purpose of observation, but it is questioned if they returned much wiser. I understand that the Mayor intends to call a meeting of the City Council at an early day for the purpose of, as my informant said, stating his experience of his trip into the back country. While the columns of the *News* have been occupied with hostile correspondence regarding the best route, writers have commenced to appear in the *Whig* denouncing the project altogether, expressing it as their opinion that the line, if constructed, would only be beneficial to a number of jobbers, while the benefits accruing to the city generally, would not be value for the amount of money to be expended thereon. If the railway be built, I think there is no question but that the Northern route will be the one selected. As it is probable that a good deal of discussion may arise when the subject is next brought before the City council, if convenient, I will attend and give you in a future letter the opinion that may be there expressed.

Professor Murray, of Queen's College, has commenced a class for young ladies for the study of English. I learn that a goodly number of names have been already enrolled, which is encouraging to the learned gentlemen who has broken the ice in this city in regard to this matter. Whether they will ever be admitted into the regular class-rooms with the students of the rougher sex, is a question to be decided by and bye. I certainly don't think it a wise policy to do so, as I am afraid, in many instances, the male students would give too much attention to female physiognomy; and perhaps it would not be saying too much to make the same remark regarding the ladies, who are quite susceptible of being influenced. Professor Dupis' second lecture on the Chemistry of the Gases was much more numerously attended than the first. The next lecturer announced is Professor Murray, who will deal with some of the topics now receiving so much attention from modern philosophers, concerning the accuracy of scripture history, &c.

During the last two weeks scarcely an evening passed, on which a festival, or meeting of some sort, was not held. The anniversary meetings of the Wesleyan Missionary Society proved very successful. The Revs. Wm. Pollard, Hall, B. A., and Pearson, advocated the cause of missions with much earnestness. The sermon of the latter gentleman was one characterized by most beautiful imagery and with eloquence such as I have not heard fer some time. Mr. Pearson will be heartily welcomed in Kingston again.

Kingston has the reputation, and rightly so, of being a dull place, which will be much increased if it ceases to be a military post. It is most probable that five or six companies of the Royal Canadian Rifles will be sent to Red River in the spring. It was at first thought that the regiment would be disbanded, but it appears that such is not the present intention of the Imperial authorities. Wherein consists of the wisdom of withdrawing the troops from the colonies, I am at a loss to perceive. The possession of her colonies gives England the prestige and power she possesses to-day, and when she looses these, alas for her greatness! It is anticipated that during the year 20,000 men will be allowed to leave the ranks of the army. Already dockyards have been closed, and thousands of the best workmen are starving. If Mr. Gladstone wants to commend his Government to the people of the country, I am afraid he is going the wrong way about the work. If during the present year a European war broke out, what position would England occupy, is a most important question. The present state of affairs on the continent, the unsatisfactory relations between Britain and the United States, and the unsettled state of affairs in different parts of the Empire, are far from justifying the intended action of the Imperial Government. The Colonies are part of the Empire, and if Great Britain is anxious to retain them, she must be prepared to defend them. Economy is a very fine political cry, but it should not be so far carried into practice as to place the nation in an unsafe position.

The County of Frontenac L. O. L. met yesterday on Amherst Island. Mr. William Robinson, Mayor of Kingston, was elected County Master for the present year. On their return from the Island, the city brethren came very near being immersed. The sleighs containing them went through the ice, but excepting one or two being slightly hurt, and some wet, no further damage was done. They had a narrow escape.

—A young lady went to a photograph artist recently, and wished him to take her picture with an expression as if composing a poem.

DR. J. BRIGGS' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks.—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 94—6mT&S

VALUABLE STOCK

AND

Business for Sale.

THE

STOCK OF GOODS
AND
Good Will

OF the Business belonging to the Estate of the late

George Vair, Esq.,
OF
Belleville,

Is now offered for sale by

TENDER.

The Stock consists of

Dry Goods, Groceries & Crockery,

And is one of the largest and best assorted Stocks in the country; will amount to between $30,000 and $40,000. A lease of the premises, which are very extensive, may be had with the Stock.

The established and favourable reputation of the above business, and the fact that the late owner realized a large fortune in a comparatively short time, render this an opportunity rarely to be met with.

The Stock may be examined and all needed information will be furnished by applying to the undersigned.

Tenders must be sent in before

Wednesday, 10th Feb'y,

To T. James Claxton, Montreal.

The Executors do not bind themselves to accept the highest or any Tender.

Unexceptionable security will be required if time is given.

FINNAN HADDIES regularly received per Express.

W. H. SCHOLES,
GROCER AND WINE MERCHANT,

Nov. 26, 1869. 177

PETERS' MUSICAL MONTLY

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

PETERS'

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL

MONTHLY

$60 for $3.

Consular Agency.

U. S. CONSULATE, KINGSTON,
January 31st, 1870.

SIR,—You are hereby notified that you have been appointed U. S. Consular Agent at Belleville in place of J. W. Carman, resigned, and that you have been temporarily recognized as such by the Governor General of Canada, pending the action of Her Majesty's Government, in the premises, and you will at once enter upon the duties of your office.

You will call upon Mr. Carman and receive the archives of the office, and receipt to him for the same.

Your obedient servant,
S. B. HANCE,
U. S. Consul.

To R. R. LLOYD, Esq.,
Belleville, Ont.

All persons interested in trade or commerce between this port and the United States will please take notice and govern themselves in accordance with the above order.

R. R. LLOYD,
U. S. C. Agent.

Latest by Telegraph.

BY ATLANTIC CABLE.

TELEGRAPH LINES.

LONDON, Feb. 2.—According to the provisions of the act of Parliament empowering the government to take possession of the telegraph lines of the kingdom, the Treasury department yesterday paid £726,000 for the cable connecting England with Germany.

THE TREATY WITH CHINA.

LONDON, Feb. 2.—The *Globe*, correcting the statement of the *Times*, says :—"Objections to the treaties with China are confined to doubts about the faithful observance of their stipulations by the Chinese."

A DUCHESS FLYING TO AMERICA.

VIENNA, Feb. 2.—The Archduchess Elizabeth of Austria has fled to America, having embarked at Hamburgh.

BISHOPS DYING OFF.

ROME, Feb. 2.—Since the assembling of the Council seven members have died and four have left the city.

STARTLING RUMOR—DR. LIVINGSTON REPORTED BURNED AS A WIZARD.

LONDON, Feb. 2.—A letter has been received here from Captain Cochrane, of the royal navy, commanding the Petrel stationed on the African cost. He reports that Dr. David Livingstone had been burned as a wizard by a chief in the interior.

THE LATEST

YACHT RACING.

LONDON, Feb. 2.—Mr. Douglas has received here a letter from Mr. Ashbury to-day, declining his former challenge for a race between the yachts 'Sappho' and 'Cambria.' Mr. Ashbury repeats his former offer of a contest with the yacht 'Sappho' for three races, including a run around the Isle of Wight from the Nore light, on the English coast, and back to the Nore light. Mr. Ashbury now offers a new proposition to Mr. Douglas for three races, from the Nab light round Owers light, off the Sussex coast, a distance of fifteen miles, thence round a steamboat twenty miles out to sea and back to the Nab light, a total distance of 52 miles. Mr. Ashbury recalls his former offer to race the 'Sappho' unconditionally, and insists on a time allowance should a race now take place, and the observance of the New York rule of measurement. Douglas will probably accept the Ower light race offer, provided that he finds there is no catch in it.

COMMERCIAL.

LONDON, Feb. 3.—American Securities quiet; 5-20's of '62, 86¾; '65 old 86¾; '67 85¾; 10 40's 84¾; stocks quiet; Erie 20¾; I. C. 103¾.

American Despatches.

THE 14TH AND 15TH AMENDMENTS.

ATLANTA, Ga., Feb. 2.—The State Legislature to-day, ratified the 14th and 15th amendments.

WEST INDIAN AFFAIRS.

NASSAU, Jan. 30, via Havana, Feb. 2.—The British gunboat 'Dart,' discovered the str. 'Anna' anchored near Berry Island on the 25th inst., and brought her here to this port, where an investigation was held. It was found that her papers were regular, so she was released. On the following day her consignees applied for clearance for St. Thomas, but it was refused. Yesterday a guard was put on board the 'Anna,' and the American flag lowered. The Spanish war steamer, 'Venandito" stopped and searched the cargo and papers of the American vessel 'Henry Perkins,' hence for Harbor Island.

Sec'y B. G. Co.

January 24, 1870. 225-12t

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO, LINDSAY, ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use :—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element* IRON, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations ; thus affording relief and a complete cure.

Only 25 cents a box ; sent by mail for 35 cents.

51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds,

BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
Montreal, P. Q.

204d 51w 4w

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are now prepared to receive Tenders for four further Sections of the Line.

Section No. 13 will be in the Province of Quebec, and will extend from the Easterly end of Section No. 8 to Station 906, near Malfait Lake, about 20½ miles in length.

Section No. 14, will be in the Province of Quebec, and will extend from the Easterly end of Section No. 13, to Station 513, a point between the mouth of the River Amqui and the little Matapedia Lake, about 22½ miles in length.

Section No. 15 will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 9 to Station No. 639, a point fully half a mile Easterly from the crossing of the River Nepissiguit—length, twelve one-tenth miles.

Section No. 16, will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 15, to the Westerly end of Section No. 10, about 18½ miles in length.

The contracts for the above sections to be completely finished and ready for laying the track by the 1st day of July, 1872.

The Commissioners also give Public Notice that having annulled the Contracts for Sections Nos. 3 and 4, they are now prepared to receive Tenders for re-letting the same.

Section No 3, in the Province of New Brunswick, and extends from Station No. 870, about two miles South of the Restigouche River to Station No. 190, about 2,000 feet South of Eel River, near Dalhousie, being a distance of about 24 miles.

Section No. 4 is in the Province of Nova Scotia, and extends from Station No. 280, on the Amherst Ridge, to Station O, on the Ridge about a mile North of the River Phillip, a distance of about 27 miles.

The Contracts for Sections Nos. 3 and 4 to be completely finished and ready for laying the track by the 1st day of July, 1871.

Plans and Profiles, with specifications and terms of contract, will be exhibited at the office of the Chief Engineer in Ottawa ; and at the offices of the Commissioners in Toronto, Quebec, Rimouski, Dalhousie, Newcastle, St. John and Halifax, on and after the 10th March next ; and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders" will be received at their office in Ottawa, up to 7 o'clock P. M., on Monday, the 4th day of April, 1870.

Sureties for the completion of the contract will be required to sign the Tender.

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building, Front Street

SPECIAL NOTICE.—MORRISBURGH, Sept., 1869.—Gentlemen,—Suffering from the prostration and weakness caused by a severe attack of Influenza, the past winter, I was induced to try your Sarsaparillian Resolvent as a restorative, and its effects were most satisfactory. I therefore, conscientiously recommend it as a thorough purifier and invigorator of the humam system, thus giving increased health and vitality to the weary invalid. (Signed), MRS. JAMES GLASSFORD.

RED RIVER.—People will prophesy that if this settlement is to be a success, it should now be prosperous and self-supporting. Such folks forget that Ontario was aided at its settlement by a generous Government for three consecutive years, and is it not now a success? The virtues and advantages of a colony are not so earily testified and established as are the undeniable curative properties of the great Shosonees Remedy for the respiratory and digestive organs. For sale by Druggists. 51-4w

COTTON SUPPLY.—The most engrossing subject that now engages the public attention in England is the question of the supply of Cotton, it certainly is a very serious question, and we hope it will be settled satisfactorily—at any rate the people of Canada will have no difficulty in procuring a supply of the "Canadian Pain Destroyer" at 25 cents per Bottle, to cure their rheumatism, neuralgia, burns, sprains, and to remove all pain from the system directly it is applied. 25 cents per Bottle. Sold by all Medicine Dealers.

Our readers have observed that we rarely praise patent medicines, and that we advertise only the very best of them. But now, the remarkable recovery of Mrs. Rice, of Canastota, from her distressing and almost helpless scrofulous disease, which is known throughout the community, and unquestionably to the effect of Ayer's Sarsaparilla, leads us to publish without reserve the remarkable efficacy of this medicine. We do this in the interest of the afflicted. Any remedy which can so effectually "rise one from the dead," should be universally known; and we wish it may be universally as it has been in the case of Mrs. Rice. (Daily Journal, Syracuse.

The efficacy of Bryan's Pulmonic wafers in curing Coughs, Colds, and all Bronchial affections, and cheering the afflicted, has passed into a proverb. In the United States, where these marvellous Wafers are known, they bear down all opposition and eclipse all rivalry; the demand for them has steadily increased for the last twenty years, until now the sales average over one hundred thousand boxes a year. Eminent members of the medical profession without number admit that they know of no preparation producing such beneficial results as these wafers. When taken in season they effect a permanent cure. Sold by every druggist and most of the respectable stores throughout the Province, at 25 cents per box.

HORSES SAVED.—The lives of thousands of horses have been saved during the past year, and the credit is due to "Darley's Condition Powders and Arabian Heave Remedy." This preparation is being extensively used, and exacts from all the highest praise. Nothing of the kind has ever before been half as successful or given such universal satisfaction; it cannot be equalled. We can confidently recommend it, and would advise all who own horses to keep a supply of it on hand—it may be the means of saving your horse's life. Remember the name, and see the signature of Hurd & Co., is on each package. Northrop & Lyman, Newcastle, Ont., Proprietors for Canada. Sold by all Medicine Dealers.

CINCINNATI, October 1st, 1868. Messrs. J. N. Harris & Co.—Gents: About one year ago I took a cold which settled upon my Lungs, a violent cough was the consequence which increased with severity. I expectorated large quantities of Phlegm and matter. During the last winter I became so much reduced that I was confined to my bed. The disease was attended with Cold Chills and Night Sweats. A Diarrhœa set in. My friends thought I was in the last stages of Consumption, and could not possibly get well. I was recommended to try Allen's Lung Balsam. The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, P. MEREDITH.

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

CATARRH, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

CONSUMPTIVES, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

CURE for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

FROSTED FEET, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are prepared to receive Tenders for the following Rolling Stock:—

40 Locomotive Engines & Tenders.
250 Box Freight Cars.
150 Platform Cars.

Printed Specifications according to which these Engines and Cars are to be constructed can be had, and general plans of the different vehicles can be seen at the office of the Chief Engineer, in Ottawa, on and after the 17th January, 1870.

Sealed Tenders, addressed to the Commissioners of the Intercolonial Railway, marked "Tenders," will be received at their Office in Ottawa up to 7 o'clock P. M., the 17th March, 1870.

Fortieth Year.

GODEY'S LADY'S BOOK For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

**MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.**

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

Belleville, Sept. 7, 1869. 108-30-tf

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

Publisher.

INTELLIGENCER BUILDING,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort: it met with the same treatment that the stone which the builders through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this mervelous remedy known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that [illegible] the best approved discoveries in Medical Chemistry or the Materia Medica, or the skill of the most eminent Physicians could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return beyond our own faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk,

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED *Attacks of* [illegible]

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to send for their bread cast on the waters to return after many days who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere, shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, be Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice pay the penalty of engorged liver, fat spleen, disordered kidneys, saffron-colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits, will give you equal in quantity, and superior in quality to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, Kings, &c., all of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes, that would cost at least (8.5) twenty-five dollars, but you to purchase prescriptions or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

**Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.**

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic. Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum.
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two of the Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by HENRY STEPHENS, F.R.S., Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo, 1600 pages, and numerous Engravings.

Price $7. By Mail post-paid, $8.

The Thistle of Scotland.

READ BEFORE THE CALEDONIAN SOCIETY OF TORONTO.

Give France her flaunting *fleur de lis*,
England her damask rose;
Let Ireland love the triple leaf
That on her green sward blows.

The land that nurtured Robert Bruce,
Where Wallace won his name,
Must find a sterner emblem flower
To symbol Scotland's fame.

Go, search her rugged mountain sides,
Her banks and braes so fair,
On sunny slope, on lonely moor,
Her emblem Flower is there!

See! where it rears its haughty head—
True Scot that ne'er will yield—
The Thistle! with its ruby crown,
Stands monarch of the field!

It spreads those warlike arms about,
To guard the land from spoil;
What foeman's foot e're rested long
On Caledonia's soil!

The banners of the Northern race
Oft waved above its spears,
When Border shout and pibroch note
Rang in the Southern ears.

O! Sons of Scotland! love it well,
Your sires its virtues knew.
Like your Thistle to the end,
As staunch, as leal and true!

The Sabbath and the Workingman.

The Sabbath is the brightest day of the week to the man who toils. None so well as he can appreciate and enjoy its quiet and its rest after a week of confinement and toil, which deprives him of the society of family and opportunities for recreation.—The laboring men needs and must have recreation, and time to improve the mind.

The agitation of the present hour, and the just demands of the workingman for fewer hours of toil, and an equitable share of the united products of capital and labor, will give all these more fully than at present, without trenching on the few hours wrested from the hurrying days of life, for the purpose of rest, thought and worship.

The tendency of the present is to degrade and prostitute the Sabbath to the service of pleasure. Let this be done, and the poor man has no day of rest. It will be his task to minister to the pleasure of those more highly favored—he must work that others may enjoy.

Pleasure involves work, and the poor man has this task to perform. There are already too many, on railroads and in cities, who have no day of rest, who are compelled to plod out day after day without change, without Sabbaths, until life seems, and to them is, but one long and dreary task ever pressing but never done.

The Sabbath,—the Sabbath of the olden time, with its calmness and repose, so like our brightest dreams of heaven, its village bells, its throng of worshippers, its grand anthem and sacred memories,—this is to the weary and the poor a priceless treasure.

No one should guard it more carefully, or defend it more earnestly, than the man of toil.

Pebbles.

The faculty of genius is the power of lighting its own fire.

Gratitude is the music of the heart when its chords are swept by the breeze of kindness.

Endeavour for the best and provide against the worst.

Never sport with pain or poverty.

A knowledge of our duties is the most useful part of philosophy.

Let your promise be sincere and within the compass of your ability.

Sands from the mountains; moments make the years.

Confine your expenses or they will confine you.

Cleanliness is the elegance of the poor.

He who opposes honesty never had any.

A knave discovered is the greatest fool.

A man would better be poisoned in his blood than in his principles.

Reckless youth makes rueful age.

Who spends before he thrives, will beg before he thinks.

Truth scorns all kinds of equivocation.

An idle brain is the devil's worship.

Anger and hate hinder good counsel.

Abundance, like want, ruins many.

Against misfortune oppose courage; against fashion, reason.

A faithful friend is a strong defense.

Modesty has more charms than beauty.

Confidence is the companion of success.

Business neglected is business lost.

A good cause makes a stout heart and a strong arm.

Perfection is a point at which all should aim.

At a great bargain pause a while.

Sorrow's best antidote is employment.

Dr. J. Briggs' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

OUR PARIS LETTER.

The Funeral of Victor Noir—Exciting Scenes—120,000 People Present—The Army of the Irreconcilables—Attempt to bring the Corpse to Paris—Dispersion of the Mob—The Emperor's Precaution—The Corps Legislatif—The Facts of the Murder—Arrest of Prince Pierre Bonaparte—Prince Murat Imprisoned—The Ollivier Ministry.

PARIS, Jan. 15th, 1870.

The burial of Victor Noir, the editor assassinated by the Emperor's' cousin, never was equalled in point of excitement and danger since the Second Empire was established. However, the people remained calm, despite a legitimate emotion and deplorable harangues. The Government committed a great fault in compelling the interment outside the City. Had the sad office been allowed to take place at Pere-la-Chaise, within the City, and the procession to march along the boulevards, it would have been a moral force to the authorities, in case disturbances called for the exercise of measures of repression.

The deceased lived at Neuilly, a village outside of Paris. Two o'clock on Wednesday, was the hour fixed for the ceremony. Since ten, the coffin had been closed, and lay on two chairs, covered with flowers and wreaths.—The persons present passed the time in reading the journals, demanding not punishment, but vengeance on Prince Pierre Bonaparte, and discussing the tragedy. Since eight o'clock, the crowd began to assemble, for the funeral was not so much a demonstration of sorrow, as homage to a murdered Republican. The weather was sombre—the rain fell, fine, cold, implacable. The earliest arrival was a band—some 200—of law and medical students, but each moment brought its deputation, each [illegible] furnished its contribution of assi[illegible] [illegible]ent, and in mourning costume. The [illegible]ocratic leaders as they arrived were cheered.

It is two o'clock, and the sun suddenly and brilliantly shines out. Over 120,000 people are present. Men hang like bunches of grapes from the lamp-posts and trees—the roofs of the houses are a sea of heads. It is easy to see, that in this vast multitude there are more blouses than broad-cloth—more caps than hats. It is a working class demonstration—not composed of the "Boys of June" last, but of artizans who have left their work shops, according to a *mot d'ordre*.—There they are, 100,000 men—with five times as many in the city with them in spirit. It is the first time the army of the Irreconcilables showed itself—it is truly formidable—frightful—and is ready to obey what its leaders decree. The shops are closed "on account of public mourning," as the cards nailed on the shutters inform us. There is not a policeman, nor "agent" to be seen—none to indicate the route the *cortege* ought to take, which was a want for Parisians, habituated to circulate by authority.

The modest hearse, drawn by two horses draws up before the door. The driver is very pale and trembling. He has cause to be so. Passionate discussions surge around the coffin. One party is for carrying the body to Paris—to rise the very stones of the city to mutiny, as in 1848, when the first victims of the fight, were held aloft on a cart, and thus paraded along the Boulevards. The other party demanded the interment at Neuilly.—In the meantime Fouvielle appears, that the Prince failed to kill—he wears the coat pierced by two balls from the pistol of His Highness. The crowd strip him of the coat, tears it into shreds, and divide the fragments as souvenirs. A score of top coats are offered to cover Fouvielle. In a corner a little Lynching is being done. Victor Noir had published some novels, and a book-seller improved the occasion by putting up posters, which led the bill sticker to bear the pains and penalties of his employer's bad taste. The dispute meantime waxes strong—a proposition is made to bring the body to Paris, even if by fragments. At last Rochefort appears—he is frantically welcomed. He tells the "citizens," it would be certain butchery for them to march to Pere-la Chaise—the roads are formidably guarded—"the bandits"—a metaphor for the army, "are armed to the teeth"—we are equal to them in numbers, but we are unarmed—we will exhume Noir at a future day, and convey his remains to Pere-la-Chaise, prepared for the worst. The popular vote decided for Neuilly.

The cortege moved on—the immense multitude swaying to and fro—crying out for "vengeance," and "to Paris." The editors of the opposition journals, in order to keep together, tied themselves to a red rope, attached to the hearse. Every one carried a red *immortelle* in the button-hole of his coat. The coffin was covered with garlands of white lilac, and the "crowns" sent by the Republicans from various cities. Rochefort, who had not slept for three nights nor tasted food for as many days, sat on the steps of the hearse saluting the crowd as they gave him a *Viva*.

Now follows a scene which beggars description. The multitude became so pressing around the bier, that Rochefort exclaimed "I am suffocating," and he was carried fainting into a grocer's shop. The cortege had now arrived at the private road leading to the cemetery. A private carriage contained two individuals—one was the ex-King of Spain, who, for the first time in his life, saw a new Sovereign—His Mejesty, the people. A final effort was now made to bring the corpse to Paris; the traces of the hearse were cut, the horses set loose, and their driver sent after them. A thousand hands were linked and drew the hearse to the grave yard. The cemetery was nearly full of spectators in advance—the new comers scaled the walls,

(Continued from first page.)

dropped down from houses beside the cemetery. Finally the coffin was lowered into the grave, a shower of bouquets followed, then the orations, whose common text was, "Poor brother we will avenge thy death." A body of citizens remained to prevent the remains from being taken up.

The procession then headed for Paris. It was the *moment supreme* of the day, and must have numbered at least 150,000 persons. *En route* it met Rochefort in a cab, and placed him at the head of the march. The air rang with exclamations of, "Vengeance," "Death to the assassin." Then was sung the *Marseillaise*, and the *Chœur des Girondins*. I have heard the *Marseillaise* chanted in 1848, by a victorious people; but here was an army—"willing to wound but afraid to strike"—who threw into the grand Revolutionary Hymn the deepest of hate, and the rage springing from being crushed. Hats and handkerchiefs were waved, arms uplifted; a Priest passes, raises his hat, and cries: *Vive la Liberte!* A dragoon on furlough is caught—he utters the same cry, and is carried on half a dozen shoulders. On arriving inside the fortifications, which constitute the city boundaries. The first display of force was met with, a mass of police and the municipal cavalry, who, however, remained passive spectators. They had, however, a little brush with the tail of the procession. Up the broad Avenue de Neuilly came the multitude, recalling the march on Versailles of other days. Arrived at the Arc de Triomphe, one spontaneous shout of *Vive la Republique* was given. Descending the Avenue des Champs, Elysees, the side streets are occupied by cavalry. Near the Palais de l'Industrie, the crowd is arrested. A squadron of cavalry trots quickly and forms a barrier across the road. The Mayor in his scarf of office gives the signal to beat the drum—three tatoos and the riot act is read. Rochefort advances—demands liberty for the people to pass. He claims to be as a Deputy—inviolable. He is told to retire or he will have the honor of being the first cut down. He calls upon the people to disperse or they will be massacred; they run like sheep right and left—it was time. As the cavalry draw swords the horses prance and neigh—await the bugle to sound the "charge." However, the avenue is cleared without bloodshed—the danger for the day is over. The cavalry sweeps round to the Place de la Concorde to protect the Tuilleries and the Corps Legislatif. A party of the procession re-forms here, encounters a battalion of the national guards. "*Vive la Garde Nationale*," exclaim the crowd; "*Vive le Peuple*," replies the guard, as the men place their shakos on their muskets. Moral: The little procession passes before the Tuileries shouting, "death to the assassin," "*Vive la Republique*," and singing the *Marseillaise*.

The evening and night passed over with a sinister tranquility; a few bands paraded the streets unmolested. The *gamins* sang ballads of their best, "which make soldiers laugh, and policemen grieve"; the kiosques were besieged to buy up the opposition journals at any price asked. At nine o'clock an engraving of Victor Noir on his death-bed appeared, with all dramatic details, and created a great sensation.

Never were military precautions more formidable. Versailles and Meaux supplied 5,000 cavalry, Vincennes four batteries of artillery, and 80,000 infantry were under arms in their barracks. A fight was expected, the crowd was undoubtedly armed with revolvers, daggers, and knives, but had no chance. During the day and night waggons flew past full of ammunition, the military surgeons had the ambulances and operating tables ready, the *cantinieres* presided over their carts, and served the soldiers with wine. Marshal Canrobert said, "I too want my dead body, but one soldier, and in five minutes I will quiet Paris, even if 40,000 citizens fall." He is known to be a man to keep his word, and the Parisians do not forget his "energy" in 1851, at the Coup d' Etat.

The Emperor is very much cast down at these events. During the day signal men occupy the roof of the palace, and the 2,500 Zouaves that guard it, encamp in the courts and in the terrace—the scene at night is picturesque, but how sad!

During this exciting day the Corps Legislatif was a melancholy scene. The court yards and approaches were occupied by the military, ready for action 'and the police. The Chamber expected a *petite visite* from the Republicans. The ladies who came to hear the debates fled in terror—Ministers received telegrams and despatches every minute, and passed them from hand to hand, all were on the tenter hooks of expectation, to hear "the earthquake tramp of Democracy's foot"—as many of the old Deputies had heard before. About five o'clock Rochefort entered, pale, care-worn, and covered with mud. He attempted to speak, but his friends prevailed on him to desist.

It was on Monday morning last, that Victor Noir and Fouvielle called on Prince Pierre Napoleon, as friends of M. Grousset, a fellow editor on the *Marseillaise*, with a letter from that gentleman, challenging the Prince for insulting him in a Corsican journal. Shown into an apartment, the Prince entered, read the letter, became coarse and angry, struck Noir in the face, retired a few paces, drew a revolver from his pocket, deliberately aimed, and shot him dead, in the heart. Fouvielle, the only living witness, gives this version, which is credited; the Prince's is the exact contrary. Seeing his friend murdered, Fouvielle endeavored to open his revolver case, but failing, ran behind a chair; the Prince aimed, and put a bullet through the collar of his coat; the unfortunate man then made for the door, and received a second ball in the skirt of his coat. The Prince at once gave himself up as prisoner in the *conciergerie*.—Victor Noir was a reporter on the *Marseillaise*, aged 22, very much esteemed. He was to be married to day. the invitations for the wedding were issued; his intended bride is but sixteen.

Prince Pierre Napoleon is aged 55, is a son of Prince Canino, and has led a stormy life, as a soldier and a civilian. In 1868 he married the girl he had seduced, a tradesman's daughter; he has two children by her, but the "Princess" is not received at court, and her husband rarely is seen at the Tuilleries. He lives in a plain house at Auteuil, without ceremony, and where Franklin passed many happy evenings, when it was occupied by Madame Helvetius. The Prince is a great eater, and in this occupation passes his time.

The Emperor at once ordered his cousin's arrest, and the constitution of the "High Court" to try him. The Prince demands to be tried before a common jury; but it appears he must bow to this exceptional tribunal. The Prince Murat, another cousin, will also be arraigned for beating "a simple citizen" some months ago.

These events have put all other matters into the shade. Troppmann is next to being forgotten. The Ollivier ministry thinks well but does not act so. It is contradictory. However, if any man in France can extinguish the volcano by pacific progress, it is Ollivier. In demanding permission of the Chamber to prosecute Rochefort for his writings in the *Marseillaise*, the Cabinet has made a great fault. The permission will be given if a "conciliatory amendment" be not carried on Monday, which is possible, and which must force Ministers to resign. Rochefort has shown he has 100,000 men to fight when he nods—it won't do to make him a martyr, and create other "days."

Daily Intelligencer.

BELLEVILLE, FRIDAY, FEB. 4.

DUNKIN BILL.—Latest returns from the County of Prince Edward, shew that the Dunkin Bill has been carried in that County, by a large majority, ranging from 700 to 1000.

A WIZARD.—It will be seen by reference to our advertising columns that Prof. Kellies is to give an entertainment in the Ontario Hall on Monday and Tuesday evenings next. American papers speak of him as a wonder in the art of psychomancy.

FRONTENAC ORANGE COUNTY LODGE.—At a meeting of the Frontenac Orange County Lodge, held in the lodge room, Amherest Island, on Tuesday afternoon, the following officers were elected for the present year:—County Master, W. Robinson, Esq., Mayor; Deputy County Master, Mr. W. Haslett; Secretary, Mr. M. Boswell; Treasurer, Mr. W. Allen; Chaplain, Mr. Robert Burleigh; Director of Ceremonies, Mr. W. McCameron.

OLIVER CROMWELL.—Professor Macintyre delivered a lecture on this subject last evening, in the Ontario Hall. The lecture, though containing many forcible and elegant passages, was scarcely up to the magnitude of the subject, and the lecturer's estimate of the character of the Protector was rather remote from the popular estimate. Cromwell was unquestionably one of England's greatest sons; but we are disposed to question, or almost to deny the assertion that he was one of her best men.

ORANGE SOIREE.—The members of Loyal Orange Lodge No. 242, Shannonville, held a Soiree and Tea Meeting in the Grand Trunk Railway Freight Shed, in that Village, on Thursday evening, February 3rd. The room was crowded to excess by the people of the village and neighborhood, realizing $104 towards the building fund of a new Orange Hall to be erected in that Village. After a most sumptuous supper had been served, Bro. John G. Moore, County Master of South Hastings, was called to the chair, and opened the proceedings with a few appropriate remarks, and then called upon the following gentlemen, who addressed the meeting in short speeches: Bro. Geo. D. Dickson, Rev. Mr. Lewin, Bro. John White, Dr. Potts, Wm. Johnson, Hon. Robt. Read, M. P., and M. Bowell, M. P.—Professor Clancy sang a number of excellent songs, accompanying himself upon the melodeon, and the Demorestville Brass Band contributed much to the enjoyment of those present. The meeting was closed by singing God Save the Queen, led by Bro. Ford.

FATAL ACCIDENT.—We learn that an accident, which resulted in immediate death, occurred between 2 and 3 o'clock this morning, to Thomas West, a carpenter, resident in Belleville. From the evidence taken at the inquest, held by Coroner Macdonnell this morning, it appears that deceased was engaged in building, and yesterday hired two teamsters to go to Shannonville, whence he proceeded along with them. While returning, the horses drawing the sleigh, on which West was seated, shyed at some large stones in the ditch, opposite the house of Mr. George Wilson. The frightened animals jumped towards the opposite fence, against which the sleigh collided and turned over. West was caught between two heavy sticks of timber which were on the sleigh, and squeezed to death. Dr. Lister examined the body, but no marks were found. The deceased leaves a wife and four children. The coroner's jury returned a verdict in accordance with the above facts.

CONSUMPTIVES, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

CURE for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

Hon. Wm. McDougall before his Constituency.

The Hon. Wm. McDougall, who lately returned from Pembina, not having been enabled to reach Fort Garry to assume the Government of the Red River Territory, owing to the little rebellion that has existed there, has been before his constituents explaining his position. How far he has kept within the bounds of discretion as a Cabinet Minister, or rather in keeping the secrets of a Cabinet Ministry, will be more plainly demonstrated after parliamentary explanations, which must be made in a short time. Mr. McDougall charges the government of Canada with having blundered in regard to the North West Territory, and yet "from the light he now had" he "did not believe the Government could be chargable with that blunder." How he reconciles the two positions we know not. His speech consisted of a short history of the trip to Pembina, his attempt to get into Fort Garry, his failure, and return to Canada. Mr. McDougall tells us that Mr. Howe had told people on his way home "that there would be trouble in the country," showing that he at least had learned the state of feeling which existed there among the half-breeds. Knowing that, the question naturally suggests itself, why did not he so inform Mr. McDougall; and tell him of the reason for that dissatisfaction? Is this assertion of Mr. McDougall further evidence that Mr. Howe incited, rather than attempted to allay that discontent? For full explanations we shall have to wait further explanations.

Mr. McDougall informs his constitutents that the delay in purchasing and paying for the territory was contrary to his advice, but he does not inform them that had the money been paid to the Hudson's Bay Company, the Winnipeg affray, for it scarcely deserves the name of war, would have been averted, nor that his authority would have been any more respected, nor that his entrance into the territory would have been facilitated thereby. He justifies the issuing of his proclamation, and from the circumstances, as they existed, no one will say he committed an error. He repeats what we have long known, that the principal instigators in the whole affairs are Americans, and that even American Post Masters at Pembina, would tamper with the mails so that it was impossible for him to rely upon anything received through it; that in fact, Stultzman who is one of the leading advisers of Rjell was assistant post master; and that men were kept stationed on the bridge that divides the territory from the United States, to prevent messengers from Fort Garry coming to him. Mr. McDougall repeats over and over again, that he thinks the government made a mistake, and blundered in their Nor'-West policy. It is quite evident from his remarks, that his policy was to have paid the money, asserted authority over the the territory, and poured 2,000 volunteers into the country to inforce that authority. A capital plan, provided it could have been done. But could volunteers have been sent into the country at this season of the year? These are questions upon which it would be unfair to pass opinions until all the facts are before the public.

Taking the whole Nor' West trouble from the beginning, and good will result from it. It has brought the country more prominently before the people, its resources will be carefully studied, and what is of quite as much importance, it will be the means of preventing the success of the intrigues which have been going on to secure a large portion of that country for the exclusive use of the Roman Catholic Church, to establish and perpetuate a French colony. Mr. McDougall plainly hints at such attempts being made, and speaks of parties having great influence with the Government as being at work, attempting to undermine and destroy any other influence and power except their own. In short, he plainly intimates that had Bishop Tache before leaving for Rome been propitiated, and his demands acceeded to, there would have been no trouble in Red River, better ten thousand times over to have had all the annoyances and trouble, than to have acceded to the demands of this wily Bishop.

Prince Edward Orange County Lodge.

The annual meeting of the Orange County Lodge of Prince Edward, was held at the Orange Hall, Demorestville, on Tuesday, February 1st. There was a full representation. After all business pertaining to the Order was disposed of, the following officers were elected and installed for the year 1870:

Bro. Wellington Boulter, County Master.
" James McComb, Deputy Co. Master.
" John Peck, County Chaplain.
" Franklin Jones, County Secretary.
" Frederick Dodge, County Treasurer.
" W. H. Mordon, Financial Secretary.
" Thos. E. Young, Co. Dir. Ceremonies.
" James Peck, senr., County Lecturer.

FROSTED FEET, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks.—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 94—6mT&S

Police Court.

(Before A. DIAMOND, Esq., Police Magistrate.)

FRIDAY, Feby. 4.

The most prominent feature of the morning's proceedings, was the number of liquor-selling cases presented for trial. Before proceeding to adjudicate upon any of these, the adjourned case of

ASSAULT

against Chauncey Weese was called up, but further proceedings were rendered nugatory by the announcement that Weese had left the country.

THE LIQUOR LAW.

The first case was that of William Doctor, who, upon being proved to have sold liquor contrary to law, was fined $20. The fine was paid.

F. Gabourie, grocer, was accused of selling liquor without license. As the evidence offered in proof was not at all to the point, the case was dismissed.

The case against A. Shearing was laid over till Monday.

J. Fullerton, tavern keeper, Smith's Mills, was charged with having sold liquor on Sunday last. Two witnesses were examined, neither of whom appeared to know anything about the matter. "Where ignorance is bliss," &c.

J. A. Consaul, tavern-keeper, Shannonville, was also arraigned on a similar charge. It was shown in evidence that liquor had been drunk on the premises on Sunday last, but on that day Mr. Consaul was unwell, and neither served liquor nor received pay for what was drunk. The Magistrate reserved decision until Monday next.

THE NOR'-WEST.

THE MOVEMENT AGAINST RIELL.

HOW IT WAS BROUGHT ABOUT.

MEETING OF THE CANADIAN COMMISSIONERS AND THE PEOPLE.

From the Telegraph's Special Despatch.

RED RIVER, Jan. 18, 1870.—In compliance with a promise I made to Mr. Robertson when he was here, I hasten to inform you of what is going on in the Territory. As I write important events are pending.

A serious dissension has taken place in the half-breed Council. Two influential men named Charles Nolin and Pierre Leveiller have taken a position of active hostility to Riell. They are backed at present by about fifty men. On Friday night last, Mr. Chief Factor Donald A. Smith, Canadian Commissioner, was put under a guard of four half-breeds, two of whom have never left him day or night.

Chief Trader Hardisty thereupon went to Pembina, where Mr. Smith's commission had been unintentionally left. On his journey he was accompanied by two half-breeds sent by Riell, who wanted to possess himself of the papers for some reason unknown to me. Nolin and Leveiller started to meet Hardisty, determined that they should retain the papers in his possession and open them in presence of Mr. Smith.

Hearing of his intended movement, Riell, with a party, went to La Riveire Sale, to dissuade the two insurgent Councillors from their purpose. He was not allowed to speak, but persisting, a pistol was placed by Leveiller at his head, and he was compelled to stand aside.

The Rev. Mr. Richot, the most active Insurgent priest, tried to influence the others in favor of Riel, but was immediately set aside. All parties reached the Fort about one o'clock to-day.

A meeting ensued between Messrs. Smith, Thibault and De Salaberry and the Insurgents of both parties; but the result, if any has been arrived at, is unknown.

A meeting will take place to-morrow between the Commissioners and people from every quarter of the colony. The result it is impossible to foreshadow; but I hope for the best.

By-Law No.——

A BY-LAW TO AID AND ASSIST THE KINGSTON AND MADOC RAILWAY COMPANY BY GIVING $10,000 TO THE COMPANY BY WAY OF BONUS, AND TO AUTHORIZE THE LEVYING OF A SPECIAL RATE FOR THE PAYMENT OF THE DEBENTURES AND INTEREST.

WHEREAS the MUNICIPAL COUNCIL of the TOWNSHIP of HUNGERFORD, in the County of Hastings, Province of Ontario, are desirous of aiding the KINGSTON AND MADOC RAILWAY COMPANY by way of Bonus in accordance with the provisions of "an Act to incorporate the Kingston and Madoc Railway Company," passed in the third session of the Legislature of the Province of Ontario, and in the thirty-third year of Her Majesty's reign, to the extent of TEN THOUSAND DOLLARS, upon the terms and subject to the conditions hereinafter mentioned:

And whereas, to carry the last recited object into effect, it is necessary for the said Municipality to raise the said sum of Ten Thousand dollars in the manner hereinafter mentioned:

And whereas the amount of the whole rateable property of the said municipality, irrespective of any future increase of the same, and also irrespective of any income to be derived from the temporary investment of the Sinking Fund hereinafter mentioned, or any part thereof, according to the last revised Assessment Roll of the said Municipality, being for the year One Thousand Eight Hundred and Sixty-nine, was Two Hundred and Ninety one Thousand, Three Hundred and Sixty Dollars (291,360.)

And whereas it will require the sum of Eleven Hundred Dollars to be raised annually by special rate for paying the said debt of ten thousand dollars and interest on debentures to be issued as hereinafter provided:

And whereas the amount of the existing debt of the said municipality is the sum of Nothing for principal and the sum of Nothing for interest:

And whereas for paying the interest and creating an equal yearly sinking fund for paying the debt of ten thousand dollars as hereinafter mentioned, it will require an equal annual special rate of four mills in the dollar in addition to all other rates to be levied in each year:

And whereas by the seventy seventh section of the "Railway Act," chap. sixty-sixth of the Consolidated Statutes of the late Province of Canada, it is provided that no municipal Corporation shall subscribe for stock or incur any debt or liability under the said Railway Act or the special Act, unless and until a By-Law to that effect has been duly made and adopted with the consent first had of a majority of the qualified Electors of the municiapality in the manner determined by the By-Law, after public advertisement thereof, containing a copy of the proposed By-Law, inserted at least four times in each newspaper printed within the limits of the municipality, or if none be printed therein, then in some one or more newspapers printed in the nearest city or town thereto, and circulated therein, and also put up in at least four of the most public places in the municipality:

BE IT THEREFORE ENACTED by the Municipal Council of the Township of Hungerford, in the County of Hastings, that it shall and may be lawful for the said municipality, for the purposes aforesaid, to aid and assist the Kingston and Madoc Railway, by giving thereto the sum of Ten Thousand Dollars by way of Bonus:

That it shall be lawful for the purpose aforesaid, for the Reeve of said Municipality, and he is hereby required to issue Debentures to the extent of ten thousand dollars, in sums of not less than Twenty Dollars each, and that said Debentures shall be sealed with the seal of the said Municipality, and signed by the Reeve and countersigned by the Treasurer of the said Municipality:

That the said Debentures shall be made payable in twenty years from the date hereinafter mentioned for the By-Law to take effect, at the office of the Merchants' Bank of Canada, Belleville, and shall have attached to them coupons for the payment of interest at the rate and in the manner hereinafter mentioned:

That the said Debentures shall bear interest at and after the rate of Six per cent. per annum from the date thereof, which interest shall be payable yearly on the first day of March in each and every year at the office of the Merchants' Bank of Canada, Belleville:

That for the purpose of forming a Sinking Fund for the purpose of payment of said debentures and the interest thereon, at the rate aforesaid, an equal special rate of four mills in the dollar shall, in addition to all other rates, be raised, levied, and collected in each year, upon all the rateable property in the said municipality, during the said term of twenty years from the coming into effect of this By-Law, unless such debentures shall be sooner paid:

That the debentures to be signed and issued as aforesaid shall be delivered by the Reeve of the said municipality to Trustees to be appointed in accordance with the Act incorporating the said "Kingston and Madoc Railway:"

That this By-Law shall take effect on, from and after the first day of June in the year of our Lord One Thousand Eight Hundred and Seventy:

PROVIDED ALWAYS, and it is hereby declared, and this By-Law is passed subject to the following

CONDITIONS AND STIPULATIONS:

That before the Reeve shall deliver the said debentures or any of them, the Directors of the said Railway Company shall, for and on behalf of the said Company, furnish and deliver to him an agreement under the seal of the Company, to run the said line of railway within one-half mile of the Village of Tweed, and erect a Station for the accommodation of said Village of Tweed:

And it is further enacted by the Municipal Council aforesaid, that the Votes of the Electors of the said Municipality will be taken on the said proposed By-Law at the following places:

At the Electoral Division, No. 1, in the Thomasburgh School House,—Forbes Sherry, Returning Officer:

Electoral Division, No. 2, in the Town Hall. George W. Howell, Returning Officer:

In Electoral Division, No. 3, in Downing's Hall, in the Village of Tweed,—John Bowell, Returning Officer:

In Electoral Division, No. 4, in Byrn's School House,—Daniel Byrn, Returning Officer:

In Electoral Division, No. 5, in Bogart's School House,—George Clare, Returning Officer.

TAKE NOTICE.

THAT the above is a true copy of the proposed By-Law which will be taken into consideration by the Council of this Municipality after one month from the first publication in the INTELLIGENCER Newspaper, the date of which first publication was on Friday, the 4th day of February, A. D., 1870, and that the votes of the Electors of the said Municipality will be taken in the various Electoral Divisions as mentioned in the above By-Law, on MONDAY the seventh day of MARCH, 1870, commencing at Nine o'clock in the forenoon, and closing at Five o'clock in the afternoon of the same day.

GEORGE W. HOWELL,
Township Clerk.

American Despatches.

RAILWAY ACCIDENT AND LOSS OF LIFE.

HUDSON, N. Y. Feb. 3.—A terrible accident occurred on the Hudson and Albany Railroad, half a mile west of Chathamville. A large freight train going east broke its coupling near the centre of the train and eleven cars ran back, down a heavy grade, coming in collision with another freight train, piling them all up in a mass of ruins with the engine, and instantly killing the conductor, breakesman, and a fireman; another breakesman was seriously injured, and the engineer slightly. The cars were heavily laden with valuable produce, which is reported to be nearly ruined.

INDIAN WAR.

CHICAGO, Feb. 4.—A letter received at Gen. Sherman's headquarters in this city from Camp Supply, Indian Territory, dated January 23rd, says:—Bull Bear, a prominent chief of the Cheyennes, came to that post with important news from several hostile tribes thereabouts.—He states that he knows the Comanches and Apaches, who are very numerous and formidable, are making active preparations for a war upon the whites, and had urged the Cheyennes to join them. No little apprehension was excited among the white settlers of the territory who heard the news, and it is feared serious trouble with the Indians is in store for them.

TUMULT AND LOSS OF LIFE IN HAVANA.

KEY WEST, Feb. 1.—Intelligence from Havana states that up to 10 o'clock of Sunday, about 350 persons had been killed and wounded by Spaniards in a tumult growing out of the Castanos affair. At latest accounts the carnage had not ceased. The Cubans seem to have been murdered without any respect to persons.

ADVICE TO THE CUBANS.

HAVANA, Feb. 3.—The Captain general sent a despatch to Matanzas, in which he warns the volunteers that they will give but a poor idea of the Government which employs them by committing acts of retaliation, and advises them to confine themselves to their duty in the maintenance of public order, in the peformance of which they are the firmest staff of the authorities.

CIVILITIES TO THE OFFICERS OF THE "MONARCH."

PORTLAND, Me., Feb. 3.—The officers of the United States steamer 'Plymouth' are giving a dinner this evening to the officers of the 'Monarch' at the Tilmouth House. Capt. Commorel has telegraphed to England for permission to take the "Monarch" to New York and Boston.

CHARITY BALL IN NEW YORK—PRINCE ARTHUR PRESENT.

NEW YORK, Feb. 3.—The annual charity ball to-night at the Academy of Music, was largely attended and yielded a handsome sum for the poor of New York. Prince Arthur was present.

THE LATE FIGHT IN CUBA.

NEW YORK, Feb. 4.—Details of the important battle at De Juan Rodergues, between Jordon and Puello, on New Year's Day, are given by the *World's* Havana correspondent. The battle lasted all day and ended with the retreat of Puello after a total loss of from 1,200 to 1,600 killed, wounded and prisoners. The Cubans pursued and harrassed the flying columns of the enemy until the latter reached Arroyo del Hondo, where Puello entrenched himself and stood siege for fifteen days, suffering great privations, and killing horses and mules for food. The approach of the Spanish column under Gen. Goryeneche, induced the Cubans to raise the siege, and Puello escaped with the remnant of his army to the small sea fort of Baga, where Spanish vessels removed it to Nuevitas. A postscript adds the rumor that Puello has been seized by the enraged Spanish Volunteers in Nuevitas, and is a captive in their hands.

Consular Agency.

U. S. CONSULATE, KINGSTON,
January 31st, 1870.

SIR,—You are hereby notified that you have been appointed U. S. Consular Agent at Belleville in place of J. W. Carman, resigned, and that you have been temporarily recognized as such by the Governor General of Canada, pending the action of Her Majesty's Government, in the premises, and you will at once enter upon the duties of your office.

You will call upon Mr. Carman and receive the archives of the office, and receipt to him for the same.

Your obedient servant,
S. B. HANCE,
U. S. Consul.

To R. R. LLOYD, Esq.,
Belleville, Ont.

All persons interested in trade or commerce between this port and the United States will please take notice and govern themselves in accordance with the above order.
R. R. LLOYD,
U. S. C. Agent.

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber, firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO., LINDSAY, ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element, Iron*, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.
J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.
SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations; thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.
51-30d 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds,
BURNS AND BRUISES,
PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.
PERRY DAVIS & SON, Proprietors,
304d 51w 4w Montreal, P. Q.

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are now prepared to receive Tenders for four further Sections of the Line.

Section No. 13 will be in the Province of Quebec, and will extend from the Easterly end of Section No. 8 to Station 906, near Malfait Lake, about 20½ miles in length.

Section No. 14, will be in the Province of Quebec, and will extend from the Easterly end of Section No. 13, to Station 518, a point between the mouth of the River Amqui and the little Matapedia Lake, about 22½ miles in length.

Section No. 15 will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 9 to Station No. 639, a point fully half a mile Easterly from the crossing of the River Nepissiguit—length, twelve one-tenth miles.

Section No. 16, will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 15, to the Westerly end of Section No. 10, about 18½ miles in length.

The contracts for the above sections to be completely finished and ready for laying the track by the 1st day of July, 1872.

The Commissioners also give Public Notice that having annulled the Contracts for Sections Nos. 3 and 4, they are now prepared to receive Tenders for re-letting the same.

Section No 3, in the Province of New Brunswick, and extends from Station No. 370, about two miles South of the Restigouche River to Station No. 190, about 2,000 feet South of Eel River, near Dalhousie, being a distance of about 24 miles.

Section No. 4 is in the Province of Nova Scotia, and extends from Station No. 230, on the Amherst Ridge, to Station O, on the Ridge about a mile North of the River Phillip, a distance of about 27 miles.

The Contracts for Sections Nos. 3 and 4 to be completely finished and ready for laying the track by the 1st day of July, 1871.

Plans and Profiles, with specifications and terms of contract, will be exhibited at the office of the Chief Engineer in Ottawa; and at the offices of the Commissioners in Toronto, Quebec, Rimouski, Dalhousie, Newcastle, St. John and Halifax, on and after the 10th March next; and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders" will be received at their office in Ottawa, up to 7 o'clock P. M., on Monday, the 4th day of April, 1870.

Sureties for the completion of the contract will be required to sign the Tender.

VALUABLE STOCK
AND
Business for Sale.

THE
STOCK OF GOODS
AND
Good Will

OF the Business belonging to the Estate of the late

George Vair, Esq.,
OF
Belleville,

Is now offered for sale by
TENDER.

The Stock consists of

Dry Goods, Groceries & Crockery,

And is one of the largest and best assorted Stocks in the country; will amount to between $30,000 and $40,000. A lease of the premises, which are very extensive, may be had with the Stock.

The established and favourable reputation of the above business, and the fact that the late owner realized a large fortune in a comparatively short time, render this an opportunity rarely to be met with.

The Stock may be examined and all needed information will be furnished by applying to the undersigned.

Tenders must be sent in before

Wednesday, 10th Feb'y,

To T. James Claxton, Montreal.

The Executors do not bind themselves to accept the highest or any Tender.

Unexceptionable security will be required if time is given.

A. G. NORTHRUP,
G. H. HAYMES,
Belleville.
T. JAMES CLAXTON,
Montreal,
Executors.

Belleville, 27th Jan., 1870. 228-13 50-2w

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc.

PETERS'

Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 a year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money.

MUSICAL

It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway, New York,

MONTHLY

where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

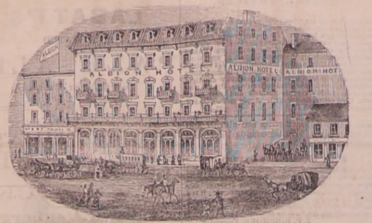
M. BOWELL,
INTELLIGENCER BUILDING
FRONT STREET, BELLEVILLE.



ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened under the most favorable auspices. **Splendidly furnished & Thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the old price of $1.50 per day will not be departed from. We, therefore, bespeak for ourselves a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS. (162d1y) DECKER & CO.

Tenders for Wood
FOR THE
Belleville Deaf & Dumb Institution,

TENDERS will be received, addressed to the undersigned, at the office of this Department, until noon of

Saturday, the 5th of February

Next, for the delivery of

400 CORDS of WOOD

On the grounds of the Belleville

Deaf & Dumb Institution,

Viz: 100 Cords to be delivered by the 1st May, 1870. 300 Cords to be delivered at any time before the 1st November, 1870.

The Wood to be sound body Beech and Maple of equal quantity, but not mixed of each kind, piled separately, and not to be more than six months felled. To be four feet in length (subject to deduction for shorter lengths). Payments will be made on the certificates of measurement by the Clerk of Works on the ground.

The Tenders must express the rate and contain the actual signatures of two sufficient sureties, who will be required for the due performance of the Contract on behalf of each person tendering for the same.

The lowest or any Tender will not necessarily be accepted.

JOHN CARLING,
Commissioner.

Dept. of Pub. Works, Ont., Toronto, 21st Jan., 1870. 224-13t

Fortieth Year.
GODEY'S LADY'S BOOK
For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, payable to the Order of L. A. Godey, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

BRIDGEWATER FOUNDRY.

TO RENT for a term of years, the

Bridgewater Foundry,

Lately occupied by MR. WM. GARRETT. Also for Sale the

Patterns and Tools,

together with the interest in the Business.

A person having some spare capital could do well with the Foundry, by adding one or two Iron Lathes for finishing and repairing Mill, Thrashing Machines, and other work.

BILLA FLINT.

Belleville, Sept. 7, 1869. 108-30-tf

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

All orders by mail promptly attended to.

M. BOWELL,
Publisher.
INTELLIGENCER BUILDING,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,
In a few moments after its use.

Its wonderful power in raising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all sufferers from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort. It met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this mervelous remedy known as RADWAY'S READY RELIEF was completed, it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH
RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first it at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED *Attacks of* [illegible]

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to sow for their "bread cast on the waters to return after many days" who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere—shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, he Ready Relief in a few minutes will stop

---

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cure, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty of engorged liver, fat spleen, disordered kidneys, saffron-colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, Kings, &c., all of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes, will secure every household freedom against sickness, and can be used for the same purposes that would cost at least ($25) twenty-five dollars, had you to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics,
Croup, Dyptheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH, HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,
Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic. Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 53 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one* of the *Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two* of the *Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, SATURDAY EVENING, FEBRUARY 5, 1870. No. ~~200.~~ 236

The Rights of the Rumseller.

What are his rights? Let them be told;
 To arm the murderer's hand;
To make the midnight robber bold;
 To light the incendiary brand;
To start the starving orphan's tears;
 To raise afresh the widow's curse;
To shade the sunset of man's tears,
 And even make the vilest worse.

To lead the nation's youth astray;
 To tempt to kill and to destroy;
On human wretchedness to prey;
 To cancel every human joy;
To blast each strong, vigorous tree,
 Which rears aloft its manly crest;
To blacken every destiny,
 Which but for him might have been blest.

His rights! The very fiends of hell
 Have rights as good as his to claim!
His rights! No tongue or pen can tell
 One half his wrongs or paint his shame.
His rights! It makes grim Satan sneer,
 The special pleading of his friends,
In their profound debates to hear,
 While working out his fiendish ends.

By all the glories of the past—
 By all our sires have ever done
To make the nation great at last—
 The purest, freest 'neath the sun—
Awake, ye people! up and arm,
 And battle in t' is holy cause!
Dispel the Rum-fiend's cursed charm,
 And call aloud for temperance laws!

Home Weddings.

What scene on earth is fairer than a wedding in the house? There are no weddings like home weddings. The church is well enough for those who cannot do better.—But to a child no cathedral can be like that chief and formost church of the heart, the father's house. This is the church within the church! There, where the daughter was reared, and taught in all womanly grace, and equipped with housewifely habits, ought she be married. Around her are all the tender associations of childhood, of love and happiness. Her new life should date from the nest in which her old life was bred. When, as in Europe, marriage is regarded as sacrament, as requiring, at least in a moral point of view, the special *grace* of which the priest is held to be the divine depositor, to make it sacred and safe, we can understand why the young applicants for domestic life and happiness should repair to the church.—And when, for centuries, generation after generation have been married in the village church, we can understand why a thousand associations would surround that charmed spot, and make it sacred to love as it is to devotion. But in America there are no such reason for resorting to the church.—And if there is an act in one's whole life that belongs to home, it is marriage. If one has no home, there is a good reason why, next to that, she should repair to a church. But we never could understand the feeling that leads a child, tenderly reared in an ample mansion, surrounded by endeared objects, to leave the roof under which her life has been spent, and repair for the marriage service to that most unhomelike place, a church. It is true that, to a devout nature, the associations connected with a church are many and precious. But they are not domestic. They are solemn, away from common life, almost the antithesis of that social and summery atmosphere in which two hearts ripen into marriage.—Without uncharitableness, it may be feared that too many persons have regard to the show, the brilliant impression made upon the admiring public. If so, the most sacred act of life is bribed by vanity, to serve in its mongrel service. But these censures are not to apply to the houseless creatures that in marriage seek a home; nor to those of big hearts and small houses, who have troops of friends without room to receive them: nor, in short, to any whose hearts do not bound at the name of home, as the dearest and most sacred place on earth.—Happy are they who are married under the roof where they were born, and who, when in their own houses, can see the smoke from their father's house, and the home of childhood, the paradise of memory!—*Henry Ward Beecher.*

Home Politeness.

Should an acquaintance tread upon your dress—your best—your very best—and by accident tear it, how profuse you are with your "never mind—don't think of it—I don't care at all." If a husband does it he gets a frown; if a child, he is chastised.

"Ah! these are little things," say you. They tell mightily on the heart, be assured, little as they are.

A gentleman stops at a friend's house and finds it in confusion. "He don't see anything to apologize for; never thinks of such matters; everything is all right," cold supper, cold room, crying children, perfectly comfortable.

He goes home; his wife has been taking care of the sick ones, and worked her life almost out.

Why not be polite at home? Why not use the golden coin of courtesy? How sweet they sound those little words, "I thank you," or "you are very kind." Doubly, yes trebly sweet from the lips we love, when heart smiles make the eye sparkle with the clear light of affection.

Be polite to your children. Do you expect them to be mindful as your welfare, to grow glad at your approach, to bound away to do your pleasure before your request is half spoken? Then with all your dignity and authority mingle politeness. Give it a niche in your household temple. Only then will you have the true secret of sending out into the world really finished gentlemen and ladies. Again we say unto all, be polite.—*Central Baptist.*

Kind Words Never Die.

They never blister the tongue nor lips. And we have never heard of any mental trouble arising from this quarter. Though they do not cost much, yet they accomplish much. They help one's own good nature, and good will. Soft words soften our own soul. Angry words are fuel to the flames of wrath, and make it blaze more fiercely. Kind words make other people good natured. Cold words freeze people, and hot words scorch them, and bitter words make them bitter, and wrathful words make them wrathful. There is such a rush of all other kinds of words in our day, that it seems desirable to give kind words chance among them. There are vain words, and idle words, and hasty words, and spiteful words, and silly words, and empty words, and boisterous words, and warlike words. Kind words also produce their own image in men's souls; and a beautiful image it is. They soothe, and quiet, and comfort the hearer. They shame him out of his sour, morose, unkind feelings. We have not yet begun to use kind words in such abundance as they ought to be used.—*Pascal.*

The New Scotch Bible.

We read in the London *Scotsman* that the Bible is to be turned into Scottish. A specimen of the new verson is given, and from it we make a quotation which we have selected because it does not contain aught that may not be reverently referred to here. Everybody knows that Anglican version of the 23rd of King David's Psalms. In Scotch it runs thus:—"Providence.

"2. Louts me till lie among green howes, airts me atowre by the lown wattirs.

"3. Waukens my wa'gaen soul; and weisés me roun', until right robbins.

"4. Na! tho' I gang thro' the deid-mirk dail, e'en tear sal I dried nae skaithing; for Yersel' are nar by me: Yer stok an' yer stay haud me ay cherrie.

"My buird Ye hea hansell'd in face o' my faes; Ye hae drookit my heid wi' oyle; my bicker is fu' an' skailin.'"

February.

WEATHER PROVERBS AND PROGNOSTICATIONS.

When February's white with snow,
The summer fields with corn will glow.

The meteorologist must observe all the phases of the weather. Wind or fog in February are supposed to indicate what follows below:

Should at the close, the wind to northward veer,
It gives fair token of a prosperous year.

If the weather is not wintry in February it will make amends in April.

Much fog in February—much rain throughout
 the year.

It is a good omen of a genial summer, when there is in February much rain, snow and rough weather.

Observations seem to have drawn portents not only from celestial phenomena, but also from the animal creation. Note the following.

In February if midges and flies do swarm,
In March one must strive to keep the ears warm.

And this of similar import:—

When the hares gaily spring,
And when the larks high upward sing,
Frost and cold these omens bring.

Wednesday was Candlemas. The belief about the hedge-hog looking forth from his den upon this day, and should it prove clear, returning to hibernate for a further period, is a legitimate inheritance from this more ancient prophesy. Candlemas day seems to be the grand day upon which all the various changes of the coming season were indicated. There are many weather-saws based upon the appearance of the day. First we have this:—

A leathy winter is to fear,
If Candlemas is bright and clear;
But if't should snow with heavy wind,
An early spring is close behind.

A cloudy Candlemas day rejoiceth the heart of the farmer.

When Candlemas with brilliant sunshine glows,
Look for rough weather with rough winter
 snows.

With regard to the twenty-second, we are told that if it should prove very cold, the same sort of weather may be expected to last a fortnight longer.

Finally at the close of the month we have authoritative and clear statement of what may be expected:—

Blustering winds at February's end
A fruitful year doth then protend;
But if in February no north winds blow,
Their sharpness in April will make the face
 glow.

* * *

The Rev. Theodore Peck, of Hoboken, is reported as a fugitive—the wife of one of his deacons going with him.

For The Intelligencer.

Dairyman's Meeting.

DAILY HOUSE,
Ingersoll, Feb. 3rd, 1870

DEAR INTELLIGENCER,—The "Canadian Dairymen's Association" have just closed their annual meeting after a two days session, and I must say that it has been a decided success. The attendance has been larger, and the discussions of a more important and practical kind, than those of any former meeting of the Association.

The question discussed by practical and scientific men, embraced almost every subject in connection with Butter and Cheese, from pasture to sale. The President, C. E. Chadwick, delivered a very able and eloquent address; and in the evening H. A. Willard, Esq., of Utica, N. Y., took the platform and addressed a crowded house of ladies and gentlemen for more than two hours. It was one of his best efforts, and of course was a great treat, for he is the best authority we have upon Dairy matters; his style is, pure, and his address abounded with many of the finest of sentiments.

In his opening remarks he said: "I esteem it a high honor to have the privilege of numbering Canadians among my friends, and it would be a source of profound regret should I fail at any time to retain your kindly feelings. I hope I represent in some degree a large class of American citizens who are not warped and cramped by narrow sectional views, but who can rejoice in the prosperity of a sister nation which comes from a stock common to us both. That Anglo-Saxon blood which maintains its individuality with such tremendous tenacity, which vivifies and electrifies all with whom it comes in contact, which overcomes all difficulties, which unites continents, and has risen higher in the cycle of civilization and progress than that of all other nations combined. Climate, soil, and circumstances may modify and change somewhat the exterior of this race, but when you probe down to the heart you find it of that large British pattern that cannot be well mistaken."

Among other important facts, the speaker showed conclusively that the dairy business could never be overdone in this country. So fast was the consumption of cheese and butter increasing in the United States, that they would soon cease to export either.

There were quite a number of dairymen here from different parts of the United States; and every section of Ontario, west of Toronto, was well represented; but I regret that I am obliged to say that there were but few from the east of Toronto, and but two from Hastings, and only one from Prince Edward. It should not be so. I assure our dairymen that they commit a great mistake by staying away from these meetings. Had there been a fair show of numbers from the East, the next meeting of the Association would have been held in Belleville, as a large number of the members wished it held there, but cupidity and narrow-mindedness of a few individuals defeated us when it came to a vote, and it was decided to hold the next meeting at Ingresoll; but it was amusing to see what efforts they put forth to defeat our small delegation from the East, and now they are heartily ashamed of themselves for not allowing it to be held in Belleville, and say they will do so next year. It will be changed when we come in force and not before.

As the mail for the East is fast closing, I must say adieu. R. P.

BELLEVILLE, SATURDAY, FEB. 5.

SERMON TO YOUNG MEN.—A sermon especially addressed to young men, will be preached at Christ's Church on Sunday evening next, 6th instant.

VERDICT.—The following is the verdict of the Coroner's Jury in the fatal accident case reported yesterday:—"That in the opinion of this jury, empannelled to enquire into the death of Thomas West, we the said jury are of the opinion that the immediate cause of death was by the upsetting of a load of lumber, and consider the same purely accidental, but feel compelled to attach great blame to those who have thoughtlessly left by the side of the road huge blocks of stone, causing teams to be frightened, and imperilling the lives of travellers, as unfortunately in this case we earnestly believe to have been the cause of the upset and death of deceased."

The Court of Chancery.

The sitting of the Court of Chancery for this district are appointed as follows:—

THE HON. VICE-CHANCELLOR STRONG.

Ottawa	Thursday	May	5
Cornwall	Tuesday	"	10
Brockville	Tuesday	"	17
Kingston	Friday	"	20
Belleville	Thursday	"	26
Peterborough	Wednesday	June	1

The Dunkin Bill in Prince Edward.

The friends of the Dunkin Bill will receive encouragement from the result of the vote in the County of Prince Edward. The following is the state of the poll at the close on the last day:—

	YEAS.	NAYS.
Picton	116	65
Hallowell	244	53
Ameliasburg	170	26
Sophiasburg	173	17
Marysburg	195	189
Wellington	21	23
Athol	90	19

Hillier is to be heard from.
Total majority about 800.

The "Globe" and Mr. Howe.

Mr. Howe has found it necessary to telegraph from Ottawa to the Toronto papers as follows:

"The Hon. Joseph Howe will be obliged if the Editor of the Toronto *Telegraph* will publish the following paragraph: We are authorized to say that the statement made in the Toronto *Globe*, of yesterday, that Mr. Howe left the North-West under a pass from Riell, and drank Dominion champagne in his company, are untrue. He never saw Riell or Bruce; had no pass from anybody; never saw a bottle of champagne in the Territory."

Mr. Howe's visits to the North West has been exceedingly unfortunate for him, having found it necessary, personally, to contradict various rumors which have been put in circulation by different newspapers through the editorial columns, and by correspondents. The special correspondent of the *Telegraph* has not been behind its *confrierer* through its North West telegrams, in attributing language to the Hon. gentleman, which, if true, should drive him from the Cabinet without either ceremony or consideration. It is difficult to believe that a Cabinet Minister could so far forget himself, unless demented, as to use language to incite revolt, and create difficulties in carrying out the policy of the Government, of which he is a member.

Significant.

"Five families, comprising about twenty-five peasons in all, arrived here yesterday from Illinois, *en route* for the Muskoka District, where they intend to purchase land and settle. They were all English, and had been residing in Illinois about six years."

The above paragraph we clip from the *Globe* of Friday, in which it appears simply as an item of local news, without note or comment of any kind. No doubt had any of the *Globe's* political friends—say, for instance, the "great Chancery lawyer," Mr. Edward Blake—been at the head of the Crown Lands Department, we should have had a glowing panegyric on the successful management of the public lands. But, as it is only the Hon. Stephen Richards, a member of the "Patent Combination," as the *Globe* and its satellites delight in calling the Ontario Cabinet—who has control of the affairs of the Crown Lands Bureau, the matter is passed over as of secondary importance. Now we do not wish to import undue weight to the mere arrival of twenty-five English people from the United States to settle upon our wild lands. Still, when it is considered that these heads of families have sojourned for six years in a rich and fertile state, and have at last determined to return to their old allegiance and settle in a British colony, surely the *Globe* should admit that there was something wrong where they had located, and that a better prospect must offer in the land to which they have directed their footsteps. It is also a fact that emigrants who have dwelt in the United States for so long a period as six years, get their eyes opened to the various dodges of land speculators, and other sharks who prey upon the recent arrivals from foreign countries. Therefore, the probability is, that these people have friends or relatives settled in the Muskoka district—that the wrote of their well-doing on Canadian soil, and that the others came and saw a better future opening before them, even under the regulations of Mr. Commissioner Richards, which the *Globe* so earnestly and persistently condemns. It is well to note these facts, which show that the tide of emigration, which has being flowing so long from Canada to the Western States, has at length received a check. May we not hope for a return of the tide? High taxes, and low rates for farm produce, will eventually work a cure for what had got to be almost an epidemic in some parts of the country. Though our own county happily, has probably suffered as little as any district in Canada from this cause; many have gone who would no doubt willingly return to their former homesteads were that possible. A short time ago, in a journey from Toronto, the writer met with a farmer from Camden who had been Westward, to the State of Michigan, looking for land, with the intention of settling there. When questioned as to the reason of his return, the answer gave was that taxes were too high, and prices of produce to low too induce him to leave his old home from which, when he returned, he would have no more thoughts of departing. And we think the fact as stated by this gentleman unanswerable, that the States, as an agricultural country, cannot compete with Canada for the reasons above mentioned. There, as in the older countries of Europe, the rich are growing richer, and the poor are growing poorer, day by day under the crushing system of taxation which prevail there.

We shall be glad to hear of the arrival from the United States of many more Englishmen, Scotchmen and Irishmen, with their families, after giving the country a fair trial; for it must be conceded that such as have had experience are better fitted for the settlement of bush farms than newly arrived emigrants.

The new Earl of Derby's first public speech was on the subject of lunacy.

INCONVENIENCE OF LONG SERMONS.—'This preaching forty five minutes,' said a rector at dinner one Sunday to his curate, 'will never do. Here's a fine goose roasted to a rag, and not a drop of gravy in it,'

Latest from Red River.

ARREST OF RIELL CONTRADICTED.

Associated Press Despatch.

CHICAGO, Feb. 4.

A special despatch to the *Tribune* from St. Paul says: The mail just arrived from Red River brings the last number of the *New Nation*, organ of the insurgents, and correspondence, neither of which makes any mention of the reported arrest of Riell by the Hudson Bay Company. On the contrary, a letter dated Winnipeg, Jan. 23rd, says: The opposition portion of the French party have all gone over to Riell and now want to invest him with supreme power. It is thought that the convention which is called to meet on the 25th, will end in making him full master of the situation, and stronger than ever. Riell proposes then to employ all his power and resources to carry out the programme of his adherents, which is Anti-Canadian to the last. These advices render it certain that the way is not yet open for the Hudson Bay Company to resume its sway in the Red River region, and for Canada to step in and take peaceful possession.

THE NOR'-WEST.

MASS MEETING.

SPEECHES OF THOSE PRESENT.

D. C. SMITH COMMISSIONER.

DESPATCHES FROM EARL GRANVILLE AND SIR JOHN YOUNG.

PROPOSAL FOR SETTLING THE QUESTION.

SATISFACTION EXPRESSED.

RIELL OBJECTS TO THE READING OF THE DOCUMEFT.

DELEGATES APPOINTED.

THE MEETING PASSES OFF QUIETLY—JUDGE BLACK REFUSES TO TAKE THE CHAIR.

From the Telegraph's Correspondent.

ST. PAUL, Feb. 4.—The *New Nation* of the 21st ult. contains a full report of a mass meeting, held at Upper Fort Garry, continuing two days, January 19th and 20th. The crowd assembled on the 19th, and being very large, they adjourned to the open air, where the meeting was continued five hours, notwithstanding the thermometer stood at twenty below zero. Among those present were Donald Smith, Riell, Judge Black, DeSalaberry, Thibault, O'Donohue and others. Riell moved, seconded by Pierre Levielle, that Thos. Burn take the Chair—Carried. Judge Black was appointed Secretary and Riell Interpreter.

The Chairman introduced Mr. Donald G. Smith, who came forward and read a document handed him in Canada, dated Ottawa, Dec. 10, signed by Howe, appointing him Special Commissioner to enquire into the cause and extent of armed resistance to Governor McDougall, and requesting him to arrange matters with McDougall and McTavish, and ascertain what the people demanded. He also read a letter handed to him at Ottawa, signed by Gov. Young, dated Ottawa, Dec. 12, which stated that Her Majesty's Government had no intention of asking or permitting others to act otherwise than in perfect good faith towards the inhabitants of the Red River District of the North-West. That fair protection would be extended to religious denominations of every persuasion (loud cheers,) and the titles to every description of property would be perfectly regarded, and franchises which have existed shall be duly continued and allowed, and that their motto of "the right shall be done in all cases," would be carried out (cheers.) Mr. Smith then asked that Thibault should read the letter he brought with him from Canada addressed to the Bishop of Rupert's Land, and Governor McTavish. Riell objected, and said he did not want the documents read. (Cries of "we will have them" and cheers). The question as to who had them arose, and it was ascertained that O'Donohue had taken possession of them. Mr. Bannatye moved that O'Donohue be requested to produce the letters. The motion was carried amid cheers. Mr. Bannatye demanded that the letters be delivered up. Riell seconded the demand and the letters were thereupon hunted up by O'Donohue, and handed over by that worthy. Mr. Smith had been asked that a letter, now in Governor McTavish's possession, be produced. It was read to the meeting. It was a letter containing a copy of a telegram from Earl Granville to Sir John Young, dated November 26th. It says, Her Majesty does not distrust the loyalty of her subjects, and hopes all question of rights and wrongs may be carefully discussed, and hoped that an amicable spirit may prevail and a satisfactory understanding be arrived at. The meeting then adjourned till the next day.

The meeting reassembled on the 20th, and was still larger than on the first day. Judge Black again refusing to act as Secretary, Mr. Bannatye was appointed Secretary of the meeting. Mr. Donald G. Smith then read a letter from the Hon. John Young to Governor McTavish, dated December 6th, accompanying Earl Granville's message declaring that Her Majesty's Government had no intention or idea of setting aside the titles of Red River settlers. The document was read amidst loud cheers from the assembly. Mr. Smith then addressed the meeting at some length, and said he had many friends and blood relations in the Red River country, and as a Scotchmen, he felt much interest in the country and wishes to see it prosper. He was not acting in the interest of Canada, but only as far as they were in accordance with the interest of the Red River Country. He believed a calm discussion of affairs could do no harm, but clear up everything satisfactorily. He then read the copy of instructions given by the Canadian Government to Governor McDougall, signed by Secretary Meredith.—After recess business resumed. Riell moved seconded by Bannatye, that twenty representatives be elected by the English settlers to meet twenty French representatives on Tuesday the twenty fifth, at noon, at the Court House, to consider a commission and decide what would be best for the welfare of the country.

Cheers were then given for Father Lestune, Mabrey, Rochat, Mr. Riell and Mr. O'Donohue and the Commissioners. The resolution seems to cast doubt on Smith's commission. Riell and O'Donohue were accepted on the commission as a genuine Council, merely to consider what should be done. Father Mabrey and Richat briefly addressed the meeting and said they hoped an amicable amendment would be arrived at, and their present uncertain state be ended as soon as possible.

Riell then said that before the meeting breaks up, I cannot but express my feelings. I came here with great fear. We are not enemies. (Loud cheering). But we came near being so. So soon as we understood each other we joined in demanding what our English fellow subjects, in common with us, believed to be our just rights. (Loud cheering) I am not afraid to say our rights. (Renewed cheers). We claim all rights. We are entitled to those rights which will be set forth by our representatives, and what is more, gentlemen, we will get them. (Loud cheers).

The meeting then adjourned.

News Condensed.

—Sir A. T. Galt has returned from England.

—The Strathroy *Times* has been discontinued for want of support.

—The Royal Insurance Buildings in Montreal, have been purchased for a custom house.

—A Union Association has been formed in Prince Edward Island.

—Mr. Thos. White has left Hamilton for England, as Emigration Agent from Ontario.

—Montreal is opposed to Hincks' scheme, for getting rid of American silver.

—Bishop Tache has arrived in Montreal from Rome, and proceeds at once to Red River.

—A State Ball is to be given at Rideau Hall on the opening of Parliament, in honor of Prince Arthur.

—There was a rumor in Ottawa on the 4th February, that a man residing ten miles out of that city had murdered his son.

—It is believed in St. John, N. B., that Munroe had confessed that he murdered the woman, for which he is to be hanged.

—The officers of the 'Monarch' are to be dined in Portland, by the officers of the United States steamer 'Plymouth.'

—Mr. King has established a branch of the Montreal Bank in London, England. Sir John Rose is one of the managers.

—A cashier in a grocery establishment in Montreal, decamped with $860 of his master's money, but was caught and relieved of his ill-gotten spoils.

—An annexation meeting has been held in Halifax, which urges upon the local parliament the passage of resolutions in favor of a Union with the United States.

—A child named Jordon, five years old, died in Ottawa on the 3rd of February, from the effects of a dose of acetate of morphia, administrated by mistake for sulphate of quinine by Dr. Phillon, graduate of Laval University.

St. Andrew's Society and No. 2 Fire Company.

To the Editor of the Daily Intelligencer.

SIR,—You will oblige me by giving insertion to the following letters—

Belleville, Feb. 2nd, 1870.

JAS. CUMMINGS, Esq.,
Capt. No. 2 Fire Company.

SIR,—In accordance with the instructions received from the County of Hastings St. Andrew's Society, I enclose a copy of a resolution passed at a meeting of the Society held 1st Feb. 1870: Resolved, "That in regard to the flag the property of this Society which was destroyed while in the hands of No. 2 Fire Company, and in consideration of the circumstances under which it was lost, this Society decline accepting any remuneration whatever; and that the Secretary be instructed to forward a copy of this resolution to the Captain of said Company.

Yours respectfully,
JAMES MCKAY,
Sec'y Co. of Hastings St. Andrew's Society.

Belleville, Feb. 2, 1870.

DEAR SIR,—With pleasure I hasten to acknowledge the receipt of your kind letter of the 2nd inst., containing a copy of a resolution passed by the members of your Society on the 1st inst., declining to accept any remuneration whatever for the Flag so kindly lent us to aid in decorating the Hall on the occasion of our late festival, it having been accidentally and unfortunately destroyed by fire. In taking that course, the St. Andrew's Society have placed No. 2 Fire Company under a special obligation, and its Capt. doubly so, which will not soon be forgotten. You will therefore please convey to the officers and members of St. Andrew's Society the thanks of the officers and men of No. 2 Fire Company, and assure them that the kindness offered in said resolution is duly appreciated.

Yours most respectfully,
JAMES CUMMINGS,
Capt. No. 2 Fire Co.

Jas. McKay, Sec'y Co. Hastings
St. Andrew's Society.

BEEVES should have warm quarters, where they will not be excited or disturbed by occurrences about them, and should be fed, if for the spring market, with all that they will eat of corn and oil meal mixed, and with roots and hay, to give variety, or with other fattening feed. Quick fattening is the most profitable, and they need very little exercise, if any, so long as they have good appetites.

BY ATLANTIC CABLE.

ROME.

ROME, Feb. 4.—The Pope has announced that he will hereafter decline to participate in any controversy respecting the dogma of personal infallibility.

Another public congregation of the Œcumenical Council was held to day. The Archbishop of Smyrna celebrated mass.

An official statement just published shows the Œcumenical Council now consists of exactly 760 members.

THE WEATHER.

LONDON, Feb 4.—The weather throughout England during the past few days has been clear, cool and delightful.

TELEGRAPH DELAYS.

The delays noticeable in the cable service recently do not arise from any imperfections in the cables or land connections. The government authorities on the 1st assumed control of the telegraphic system of the kingdom, and to this change alone must be ascribed the present derangement.

DISTRESS IN THE COTTON TRADE.

The *Times* this morning has an editorial article on the present depression in the cotton trade. The writer ascribes the cause of the dearness of the raw material and the superiority of American manufactures, and thinks the true remedies for the distress are, first, greater intelligence and skill on the part of workmen, and second, a reduction in the price of coal.

COMMERCIAL.

LONDON, Feb. 5.—Consols 92⅝ for money; 92⅝ for account; American Securities closed quiet; 5-20's of '62, 87⅝; '65 old 86⅝; '67 86; 10 40's 84⅝; Stocks firm; Erie 20⅛; A. & G. W. 26⅜.

LIVERPOOL, Feb. 5.—Cotton opened steady; Uplands 11⅝d to 11¾d; Orleans 11⅝d; rcts. of cotton at this port, week ending Thursday night, 90,000 bales; American 60,000; red winter wheat 7s 4d.

American Despatches.

ARRIVALS.

NEW YORK, Feb. 4.—The 'Cambria,' from Hamburg, and the 'Pennsylvania' from Liverpool, have arrived.

BANQUET TO PRINCE ARTHUR.

A private banquet was given this evening at the residence of E. W. Stoughton, an eminent barrister in honor of Prince Arthur. Covers were laid for twenty guests. In addition to the Prince, there were present Gen. McDowall, Admiral Gordon, Right Rev. Bishop Potter, W. B. Astor, Augustus Belmont, Judge Blatchford, Judge Woodruff, British Minister Thornton, and three members of the British legation.—After the banquet Mrs. Stoughton held a levee, during which some two hundred ladies and gentlemen were introduced to the Prince.

THE SPANISH MASSACRE FALSE.

HAVANA, Feb. 4.—The report originating in Key West, stating that 300 Cubans had been massacred by Spaniards, in consequence of the excitement growing out of Castanon affairs, is false.

THREE PERSONS DROWNED.

LOUISVILLE, Feb. 4.—Geo. Tresenseter, his wife and two children, while floating down the river Wednesday night on a raft, were upset during a gale, and all except one child were drowned.

DISCOVERY OF GOLD IN ILLINOIS.

TERREHAUT, Ind., Feb. 4.—The most intense excitement prevails in Clerk County, Illinois, in consequence of the discovery of gold on Big Creek, about 20 miles from this city. A lately returned California miner, of eighteen year's experience, has been for some days prospecting in the ravines along the creek, and in every handful of earth he has found gold in paying quantities. The people of that section are wild with the gold mania and leaving all other business to search for the precious metal.

DION AGAIN DEFEATED BY DEERY.

SAN FRANCISCO, Feb. 4.—Deery and Dion last night played a third game of billiards for $2,000. The game was 1,500 points four-ball carron, on a four-pocket table, push shot and crotch barred. There were 83 innings, resulting for Deery 1502 and for Dion 1044 points. Deery's highest run, 231; Dion 120.

JAMES GLASS,
Sec'y B. G. Co.
January 24, 1870. 225-12t

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protector are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and sashes perfectly air-tight and weather-proof. Awarded extra Prize, Provincial Exhibition, 1869 Agents wanted and can make money. First come, first served. Apply to T FOLEY & CO. LINDSAY, ONT. 221-4w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected solution of the Protoxide of Iron, supplies the blood with its *Life Element Iron*, giving strength, vigor and new life to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.
J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.
SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations; thus affording relief and a complete cure.
Only 25 cents a box; sent by mail for 35 cents.
51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds,
BURNS AND BRUISES,
PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.
PERRY DAVIS & SON, Proprietors,
304d 51w 4w Montreal, P. Q.

MADAME MONSUER,
SEEING MEDIUM,
Astrologist and Phrenologist,

HAS arrived in Town, and will remain a short time at the
ANGLO-AMERICAN HOTEL.
Please Walk Up-Stairs.
Reception Room first door to right. Private Room No. 6, second flat,

Where she can be consulted in regard to future events, relative to sickness, health, distant friends, place of residence in future, and even the complexion and condition in life of the future husband and wife, and will answer any question given her on any subject whatever, agreeable to the person propounding the same. By what means she can do this last is not known to herself, and barely knows as others know—she can do it.

She is descended from a long line of French Astrologists, and can also tell the future by the hand and cards.

Those who wish for consultation will please call on Madame Monsuer, at the Anglo-American Hotel, from 9 a. m. to 9 p. m.

Consultation fee, ladies and gentlemen 50 cents each.

N. B.—Remember to come soon, as her time is limited in Belleville, owing to arrangements in other places.

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are now prepared to receive Tenders for four further Sections of the Line.

Section No. 13 will be in the Province of Quebec, and will extend from the Easterly end of Section No. 8 to Station 90, near Malfait Lake, about 20½ miles in length.

Section No. 14, will be in the Province of Quebec, and will extend from the Easterly end of Section No. 13, to Station 5 3 a point between the mouth of the River Amqui and the little Matapedia Lake, about 2 ½ miles in length.

Section No. 15 will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 9 to Station No. 639, a point fully half a mile Easterly from the crossing of the River Nepissiguit—length, twelve one-tenth miles.

Section No. 16, will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 15, to the Westerly end of Section No. 10, about 18½ miles in length.

The contracts for the above sections to be completely finished and ready for laying the track by the 1st day of July, 1872.

The Commissioners also give Public Notice that having annulled the Contracts for Sections Nos. 3 and 4, they are now prepared to receive Tenders for re-letting the same.

Section No 3, in the Province of New Brunswick, and extends from Station No. 370, about two miles South of the Restigouche River to Station No. 190, about 2,000 feet South of Eel River, near Dalhousie, being a distance of about 24 miles.

Section No. 4 is in the Province of Nova Scotia, and extends from Station No. 280, on the Amherst Ridge, to Station O, on the Ridge about a mile North of the River Phillip, a distance of about 27 miles.

The Contracts for Sections Nos. 3 and 4 to be completely finished and ready for laying the track by the 1st day of July, 1871.

Plans and Profiles, with specifications and terms of contract, will be exhibited at the office of the Chief Engineer in Ottawa; and at the offices of the Commissioners in Toronto, Quebec, Rimouski, Dalhousie, Newcastle, St. John and Halifax, on and after the 10th March next; and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders" will be received at their office in Ottawa, up to 7 o'clock P. M., on Monday, the 4th day of April, 1870.

Sureties for the completion of the contract will be required to sign the Tender.

Milking-Time.

When shadows lengthen on the plain,
And leaves are scarlet in the sun;
When cows are lowing in the lane,
And coming homeward one by one;
When mists are tangled in the trees
That overhang the river's bank;
And farmers chat and take their ease,
And shining pails go "clink and clank;"
That's milking time.

When puss and fido linger round,
And run beside the dairy-maids;
When circling swallows skim the ground,
And on the eaves make sudden raids;
When rosy girls a ditty sing,
And squirrels hide in leafy home;
And crosswise jets go "ping and ping,"
And pails are heaped with creamy foam;
That's milking time.

When little ones are tired with play,
And in the corners blink and nod;
When katydids are loud and gay,
And wetted grows the chilly sod;
When stars are few and faintly glow,
And waking fireflies gather fast,
Like drifted flakes of golden snow—
It's hey for home; the hour is past
For milking time.

Meddlesome Good Nature.

He meant well enough, but was still in the way;
As a dunce always is, let him be where he may;
Indeed, they appear to come into existence
To impede other folks with their awkward assistance.
If you get up a dunce on the very North Pole,
All alone with himself, I believe, on my soul,
He'd manage to get betwixt somebody's shins,
And pitch him down bodily, all in his sins,
To the grave polar bears, sitting round on the ice,
All shortening their grace to be in for a slice;
Or, if he found nobody else there to bother,
Why, one of his legs would just trip up the other,
For there's nothing we read of in torture's inventions,
Like a well-meaning dunce with the best of intentions.

Hints About Work.

We assume that the regular labors of the field are suspended by cold weather; if otherwise, and we occasionally have winters when, even in Pennsylvania, plowing may be done in every month of the year, no hint from us will be needed to remind farmers that there are some kinds of properly called spring work, which may be done, greatly to the relief of men and teams, in March and April. Now and then, however, times occur when the ground is bare, and the stones are loose, and these offer an opportunity not to be lost sight of, to pick up stones and lay them in heaps, or haul them off at once from the fields to where they may be used.

Building may be done by contract in winter cheaper than in warm weather, especially if the contracts be made in the autumn; but builders will give moderate figures for good work, if one can present well made plans and specifications early in the new year, and give them time to do the finishing after the house is enclosed and the roof on, when their other work does not press upon them.

Ice.—Those who have ice houses should not neglect to fill them whenever sufficient thickness of ice forms to make it possible to handle it economically. At the lowest latitude where ice-houses are found, and where ice is usually gathered, it often happens that good ice can be obtained only for a very few days. Ice one inch thick may be very profitably handled, being dragged out upon a clean platform, running into the water, and from this shoveled into carts. It should be packed by pounding into as solid a mass as possible in the ice-house. An intermixture of a moderate quantity of pure, fresh-fallen snow is an advantage if it be well pounded. When thick ice can be obtained, chip off all the porous snow ice, and pack only the clearest, filling the crevices with fine ice chipped from the top of each layer. Cut the cakes to fit.

Horses—Ought to have good cleaning and regular exercise. If there is nothing for them to do, give them a run of an hour or two in a well-fenced lot, one at a time—if there is any danger of their kicking each other—every fair day. Don't scrimp in bedding; you will lose nothing, but gain, in the less amount of food a horse will eat if kept warm. Close stables must be well ventilated. Direct the blacksmith to put the best and toughest steel in the caulks, so welded on that they will not tear out. The caulks should be thick, so that they may be sharpened when necessary several times without the necessity of renewing the shoes.

Sheep which are fed for slaughter need to be sorted, so that the stronger ones shall not get more grain than is their share, or than is good for them. Sheep are easily thrown "off their feed" by over-feeding. Give turnips and oil cake with corn, and occasionally hemlock boughs, if these can be easily got; all sheep are fond of them, and they are a healthy variation of their diet. Examine all sheep for ticks, lice, and scab, and, if necessary, apply carbolic soap in the form of strong suds, thrown into the parted fleece through a quill in the cork of a bottle; it will keep the vermin in check

---

Catarrh, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr J. Briggs' Allevator, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

Consumptives, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

Cure for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

Frosted Feet, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

THE CHEAPEST OF LADIES' MAGAZINES
BECAUSE IT IS THE BEST.

IT has always been the care of the publisher to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed and will continue to furnish articles for the year 1870. Such names as MARION HARLAND, INO CHURCHILL, LOUISE DORR, METTA VICTORIA VICTOR, S. ANNIE FROST, MRS. DENNISON, AND MRS. C. A. HOPKINSON. Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies' Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

Two copies, one year, - - - - - - 5 00
Three copies, one year, - - - - - 7 50
Four copies, one year, - - - - - 10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies - - - - - - 14 00
Eight copies one year, and an extra copy to the person getting up the club, making nine copies - - - - - - 21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies - - - - - - 27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on receipt of $4 00.

Godey's Lady's Book and the Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month and the Children's Hour, will be sent one year on receipt of $6 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft on Philadelphia or New York, payable to the Order of L. A. Godey, is preferable to bank notes, as should the Order or Draft be lost or stolen it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

BRIDGEWATER FOUNDRY.

TO RENT for a term of years, the

Bridgewater Foundry,

Lately occupied by MR. WM. GARRETT. Also for Sale the

Patterns and Tools,

together with the interest in the Business.

A person having some spare capital could do well with the Foundry, by adding one or two Iron Lathes for finishing and repairing Mill, Thrashing Machines and other work.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, the Lunatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, giving in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this marvelous remedy, known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that no [illegible] the best approved discoveries in Medical Chemistry or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it possesses the miraculous power of

PREVENTING SICKNESS.

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers, for the moment it was applied externally, or TWENTY DROPS diluted in water taken in a drink the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicine and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent free at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHŒA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED Attacks [illegible]

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out its will in giving an antidote within the reach of His people of all nations of the earth who had sufficient faith to cast their "bread cast on the waters to return after many days" who were content to spread out before the world the richness, purity and wonderful quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere, shows that the instruments selected for the great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the pestilence in all forms; and as regards ordinary PAIN—that are common to all, its Ready Relief in a few minutes will stop

---

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,

Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty of engorged liver, fat spleen, disordered kidneys, saffron-colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits, will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, Kings, &c., all of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes, that would cost at least ($25) twenty-five dollars had you to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.
25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate Radway's Ready Relief.

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of Radway's Ready Relief, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co's Principal Office No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. Ask for Radway's Ready Relief.

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of the series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the Edinburgh. It resolutely maintains its opposition to politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equaling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15 00	"

Single numbers of a Review, $1. Single numbers Blackwood 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The Postage on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, one of the four Reviews for 1869. New Subscribers to all the five may receive Blackwood or two of the Reviews for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January 1865, to December 1869, and of Blackwood's Magazine from January, 1866 to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

Troppmann's Execution

A Paris letter of January 20th says:—The execution of Troppmann took place this morning on the Place de la Roquette, in presence of a considerable crowd, the greatest number of whom had passed the night on the gound. When the guiliotine had been erected the noise of the crowd somewhat ceased, and the general conduct then presented nothing to reprehend. At last the executioner, Mr. Heindeindrech, a tall, powerful man, dressed in black, fifty-eight years of age, with white hair, ascended the steps of the machine and examined minutely every part, in order that all might act freely at the supreme moment.

As soon as his inspection had terminated he slowly descended, and entering the prison, signed the usual receipt for the person ot the criminal. At about the same time arrived M. Lombard, peace officer of the arrondissement, and M. Blavier, one of the police officers of the central brigades.—They had soon to divide the crowd in order to allow the Abbe Crozes, the chaplain, to pass and perform the last duty to the prisoner. At a few minutes before six, accompanied by the executioner, these two assistants, the Governor and some warders, the priest entered Troppmann's cell.

When the head of the prison placed his hand on his shoulder the prisoner was seized with a convulsive trembling, which increased visibly when the fatal words were uttered, "Troppman, your application for commutation has been rejected. The hour is come!" The unfortunate man then turned round, and regarding with haggard eye the persons near, could scarcely rise.

He was then left for a short time alone with the abbe, after which the ceremony of the 'toilette'—that is to say, cutting off his back hair and removing the collar off his shirt—took place, the priest all the time reciting prayers aloud. The assistants then strapped down Troppman's hands to his sides, and placed another leather thong on his ankles, which act prevented too long steps, and the terrible cortege set out for the scaffold.

The executioner's two men placed themselves one at each side, and supported Troppman by holding him by his arms, the Abbe all the time following as close as possible with a crucifix, and whispering words of consolation. The executioner came next, and then several persons obliged by their official position to be present. On issuing from the prison on the Place, the unhappy criminal perceived the fatal machine right opposite, and instinctively recoiled. From that moment all power of motion seemed nearly gone, and were it not for the men at his sides he must have fallen.

After the crucifix had been presented to the almost unconscious criminal, he was with great rapidity placed on the gliding panel, and the next moment the heavy knife fell.

Slavery in Alaska---Gross Barbarity of the System.

One of the worst evils we have to complain ot in Alaska is a system of slavery that for barbarism cannot be surpassed in any country under the sun. It is a system that will require years to abolish, and great patience on the part of the white population and the civilized Indians to endure. It is a system which has been practiced ever since the discovery of the Territory, and tradition tells us that it was in existence for centuries before. Slaves can be bought to-day from any tribe that is in Alaska. Parents will sell their children for three or four blankets or a few dollars, and have no compunction of conscience for the use they may be put to in future.

When one tribe goes to war with another all the prisoners taken by either tribe are called, treated, and used as slaves. When a chief or any of his family dies, it is the custom to kill one or more of these slaves, so that the chief or his deceased relative may have a servant in the other world to wait on him. About a year ago the old chief of the Sitka tribe died, and a few days before his death, when his relatives were satisfied that he could live but a short time, they selected as a victim for sacrifice a young, healthy, good looking warrior, whom the Sitka tribe had taken prisoner while at war with one of the tribes down near Queen Charlotte's Sound.

The slave had been tied up two days about the time the old chief died, and by some means some of his friends became apprised of his condition, and immediately notified General Davis that the Indian slave was liable to be killed at any moment. General Davis had one of the chiefs brought before him, and after a long conversation about the foolishness of such sacrifices he agreed to let the slave go free, and lest they might attempt to put into execution their original idea of killing him, General Davis permitted the Indian to remain in the city where he would be protected.

Just a week ago yesterday, one of the chiefs tried hard to get hold of a half-breed named Evanoff to sacrifice him. For the two preceding weeks this chief would go up every day or so to General Davis, stating that he had a slave in the city, and wanting to know if he could not get him into Indian town. The General, supposing the chief wanted one of the Indians, told him to go and get him, but it was not until the day in question that the effort was made to get this man. It seems that Evanoff's mother was an Indian woman, but his father was a Russian, and when he was but three years of age a lady named Bengemen got him and adopted him and brought him up.

The chief who claimed him had a child that was expected to die, and afterwards did, and having no slave, but his claim on Evanoff, made this effort to sacrifice him that he might be a servant for his child in the spirit world. A lot of the chief's warriors were repairing to the house of Evanoff, but before getting there Evanoff's wife ran for the Russian Bishop and Evanoff after an interpreter to plead for his life before General Davis, having understood that General Davis told the Indians they could take him. When General Davis saw who the chief claimed, in a very few well-timed words he taught that old chief and several of his warrors more about civilization that ever they knew before. General Davis asked the chief what he wanted with this man, pointing to Evanoff. The Indian told him his child was sick and he only wanted him for three hours and then he would let him go free. The General told him that the best thing he could do was to look on Evanoff as a free man already, and told the Indian if in the future he should ever attempt to trouble Evanoff again he would put him in the guard-house and keep him there. The Indian went off well pleased, and stated that he would be a good Indian hereafter.

The slaves are put to death as follows: As soon as a chief dies the slave is compelled to wash the body of the corpse, and is then taken out and thrown flat on his back and held there, when a stick of wood is placed across his throat and two Indians set down on each end of it, and in this way strangle him to death. His body is then placed inside a large pile of wood and burned to ashes.

It is customary when a big chief dies to put to death two or more slaves. All slaves taken in war have to act as servants for the chiefs who own them.—*Sitka Times.*

Extraordinary Concealment of Sex.

Considerable consternation has been caused in the quiet colliery villages of Etherley and Toft Hill during the past few days by a disclosure by the death of a woman who has for the past fifty years resided as a man, and married two wives. It is said that she came from Scotland fifty years ago and obtained work at one of the collieries, where she worked for some time and paid her addresses to and ultimately married a servant girl living at the village inn. After being married she relinquished work at the pit, and commenced to make besoms, yellow clay balls, pipeclay rubber, which she and her partner vended in the surrounding villages. After living together for 23 years, the wife died. She (the husband,) professed to lament her loss very much. Ultimately she married a second woman, with whom she lived for a number of years, but at length by mutual consent they separated. For some time she was laid on a bed of sickness, and been dependent upon her neighbors, who, however, she strongly resisted coming too near her, and latterly she persisted in wearing trowsers in bed. The other day she died, and the discovery was made which caused a sensation throughout the district. She gave the name of Josiah Charles Stephenson, and has often been heard to speak of being heir of some property about Berwick, but had no money to go and claim it.—*Manchester Guardian.*

Shoeing Horses.

Two gentlemen connected with the British army—Mr. George Fleming, veterinary surgeon, and Col. Fitzwygram—have recently published works on the treatment of the horse, and both energetically protest against the paring and cutting away of the sole and frog which often accompanies the operation of shoeing a horse. Nothing can be more barbarous than the carving and cutting of a horse's foot before shoeing, though on his skill in this many a farrier prides himself. The idea that the frog must not be allowed to bear on the ground, that the sole must be thinned till it "springs to the thumb," is a most pernicious one.—On this subject Mr. Fleming's precept is: "The sole, frog and bars must on no account, or under any conditions, except those of a pathological nature, be interfered with in any way by knife or rasp." At each shoeing the hoof must be shortened to its natural proportions, beyond which it has grown behind the protecting shoe, and it is this which forms the chief difficulty of the work, and is the criterion of the good workman.

Purity of Life.—Let our lives be pure as snow-fields, where our footsteps leave a mark, but not a stain.

FRESH OYSTERS.

CANADA
Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates,* will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are

Indisputable on any ground whatever,

Subject only to payment of premiums which may become due.

SPECIAL FEATURES.
ECONOMY—
Giving more assurance, for the same money than other Companies.
HOME MANAGEMENT—
HOME INVESTMENTS—
Every advantage to policy holders which is compatible with sound management and ultimate safety.

BELLEVILLE, MONDAY, FEB. 7.

PSYCHOMANTHEUM.—Our readers by an advertisement will see that Professor Kellies gives his entertainment to-night in Ontario Hall. He is well spoken of by the American press.

BOARD OF TRADE.—A meeting of the Board of Trade will be held this evening in Neilson's Hall, to discuss the advisability of taking measures for the construction of the Grand Junction Railway from Belleville to Peterborough. We hope there will be a large attendance.

RAILWAY MEETING IN MARMORA.—There was a meeting held in Marmora on Saturday, 5th Feb. called by the Reeve, to take into consideration the propriety of giving a bonus to build a Railroad from Madoc to Peterborough, provided the road is built from Kingston to Madoc. The meeting was in favor of the Township giving $5,000.

WOOLEN FACTORY.—We are glad to learn by the Madoc *Mercury*, that the people of the Village of Madoc are agitating the question of the erection of a Woolen Mill in that Village. Manufactories add to the prosperity of every Town and Village in which they are situated, and we hope the scheme will succeed.

GAS COMPANY.—The annual meeting of the Belleville Gas Company, for the election of Directors, was held at noon to-day in the Town Hall. The following gentlemen were elected for the current year: Andrew Thompson, F. McAnnany, Lewis Wallbridge, J. H. Meacham and A. Robertson, Esqs.

DOMINIOM REVENUE.—The following is a statement of the revenue of the Dominion for January, 1870, as gazetted: Customs $461,706; Excise, $322,085; Post-office, $60,172; Public Works, including railways, $51,240; bill stamps, $18,173; miscellaneous, $41,718. Total, $995,089; Expenditure, $1,835,612.

GOLD IN MARMORA.—We learn that on Saturday, the 5th inst., the owners of the Severn Gold Mine, situate on Lot No. 8, Con. 8, Marmora, cleaned up the crushing of 19 tons of rock, crushed at Caldwell's Mill, and realized $220, averaging over $11.50 per ton. We understand that the proprietors of the Severn Mine propose early next spring to put up a first class mill on their own premises, having every confidence in the richness of their ore.

ENTERPRISE.—We are gratified to observe that Mr. Geo. H. Gordon, of Trenton, is making preparations to rebuild the Flouring and Grist Mill near Trenton, which was destroyed by fire a few weeks ago. Nearly all the timber and material for building are already on the ground, and building operations will commence early in the spring. The Mill will be of the same capacity as the old one, and the machinery and everything connected with it being all new, it will be second to none in the country. It is expected to be completed and in running order in August next. There is scarcely a locality in the country where a Mill is more needed than the site of Mr. Gordon's Mill, and the people of that section of the country will learn with pleasure that Mr. Gordon has determined to rebuild. The Paper Mill which was also burned, and in which Mr. Gordon has taken an interest with Mr. Ford is being rebuilt, and will be in operation early in April next.—The machinery is nearly all new, and is being put in place. The boiler for the Paper Mill is being made at the foundry of Messrs. Shea & Roblin, Trenton.

WRESTLING.—For a number of years past, Belleville has not been, so to speak, "on the muscle." That is to say, beyond an occasional bout at hammer throwing on the occurrence of some festival duly observed among our loyal inhabitants. Latterly, however, a couple of instructors in the Olympian sports of our Roman progenitors, have appeared in town, and opened a school for wrestling, boxing, etc., in Neilson's Hall. Of course this has raised a spirit of rivalry amongst wrestlers in the community, which culminated in a match between Jacob Clapp, of Belleville, and John Whitton, of Sidney. This match, for a small stake, was decided on Saturday, January 29th, and Whitton was the winner. Not satisfied with his defeat, Clapp made another match for a stake of $50 a side, the conditions being two out of three falls at back hold, Cumberland position, and a like number of bouts at side-hold, Devonshire style. The first struggle between these athletes had been so well contested that the second was looked forward to with much interest by sporting men. Accordingly, on Saturday afternoon, the rear division of Neilson's Hall was filled with spectators, anxious to behold the contest. Judges were selected, and the match was proceeded with in due form. About three o'clock the competitors appeared, though not in costume, having simply divested themselves of coats and vests. Whitton was the favorite, from his previous victory, and the result warranted the confidence reposed in him. And here, before the contest takes place, a glance at the competitors will not be out of place. Whitton, apparently the more powerful of the two, is quite a model athlete, standing about 5 ft. 6 in., stout and broadly built, and weighing in the vicinity of 160 lbs. Clapp, who is some 4 inches taller than his opponent, is apparently lithe, and muscular, but not so firmly set on his pins as Whitton, though probably about the same weight. Both are married men of nearly the same age, and the match may in all respects be considered a very even one. At the call of time, both men advanced to the centre of the ring, shook hands, and after a little time spent manœuvering for a hold, Clapp was thrown, the struggle lasting upwards of a minute. Both were more eager in the second bout, which, after a very tough and prolonged contest, was declared "no fall." The third round was more quickly decided, Clapp being thrown in half a minute. This round ended the back-hold wrestling in Whitton's favor, and his supporters now felt confident of his ability to win the match, which he did in three bouts. The first and third throws were easily secured by Whitton, the second being an unfair fall.

PRINCE ARTHUR.—The evening *Daily News* of New York, publishes a rumor to the effect that while the Prince was proceeding to the residence of Judge Stoughton, with some officers, on 5th Avenue, a "party of ruffians, stationed near the Brevoort House, approached the officer, drew their revolvers, and told him to leave. The officer got reinforcement, returned, and attacked the ruffians. After a severe fight they arrested Wm. Murphy, Pat. Mulhiale, Chas. Gardiner, John Lough and Michael McNulty. Lough is an Englishman, Gardiner is a native of Yonkers. The party refused to make an explanation of their conduct, and will be arraigned before the Police Court on the charge of assaulting the officers. There is not sufficient proof to establish designs against the Prince's life." The morning papers deny positively that there is any truth in the rumor, and pronounce the whole story false, and the Chief of Police also denies the truth of the rumor.

Newfoundland.

The Newfoundland Legislature met a short time since. The first Act was to elect an Anti-Confederate Speaker. The Lieut.-Governor in his speech said in reference to Confederation that "it was "quite clear that current opinions and "events had strongly set in towards union "with Canada. He firmly trusted nothing "would occur to check, turn or divert "Newfoundland from gliding onward, and "that the advances already made may be "continued until the Colony joins the Do-"minion, thus completing the great end so "anxiously looked for by the Imperial "Government." The Anti-Confederates however, did not agree with the Governor, and voted want of confidence in the Government, on a vote of 21 Antis to 8 Confederate. We are well rid of a union with Newfoundland, upon the terms proposed.

The North-West Trade.

Mr. Begg, appointed by the Canadian Government to organize the Custom and Inland Revenue Departments in the North West, states in his report that the imports for 1869, via Pembina, into the territory as recorded in the books of the United States Customs, to which he was permitted access by the courtesy of Mr. Nelson, Deputy Collector, Pembina, show a total of $776,094. Of that amount $521,365 were bonded goods from England and Canada, and the balance $254,781 purchased in the U. S. In his classified statement the following figures appear:—Tea, 170,052 lbs., value $4,645; tobbacco, 153,[illegible] lbs., value $66,635; sugar, 177,189 lbs., value $20,311 brandy, gin, &c., 7,904 galls. value $13,043; meat, salt, 215,202 lbs., value $33,870; soap, 2,103 lbs., value $436; coal oil, 1,977 galls., value $984; coffee, 1,073 lbs., value $238; confectionary, 2,986 lbs., value $713; wines, 265 galls., value $905; molasses, 837 galls., value $3,223; carriages, value $5,040; ready made clothing, $51,745; cottons, $129,831; cordage, $829; drugs, $3,922; gunpowder, $1,241; glassware, $884; hats and caps, $944; cutlery, $938; spiking and nails, $3,693; stores $1,794; general hardware, $7242; harness, $6,532; boots and shoes, $1,225; matches, $1,648; stationery, $1,124; woolens, $45,019; shot, $1,063; flour, 7,276 bbls., $47,140; wheat, 11,879. 11 fanning mills, $379.32; mowers and reapers, $4,640.37; ploughs and cultivators, $816, and other agricultural implements, value $2,395. 23 horses, $4,400; 93 cattle, $4,296. Unenumerated goods is given at $286,228; which includes about $200,000 for goods in bond; the bonds for which had not yet been returned from the settlement as cancelled, and consequently not entered in detail in the Collector's books. A large proportion of goods last referred to, in bond, are liquors of all kinds and goods imported by the Hudson Bay Company. The exports for the year 1868, via Pembina, was $102,807.

British Templars.

On Saturday afternoon a Lodge of the above Order of Templars was organized in this Town by P. H. Stewart, W. G. S., assisted by A. M. Phillips, Esq., special lecturer. "Speed Well" Lodge No. 75, the name of the new Lodge, promises to become a success, as the parties who have taken hold of it are some of the most active working temperance men. The next meeting will be held on Thursday evening next, and parties wishing to join should call and leave their names with Mr. W. J. Taylor, at his Sewing Machine Office, opposite Walker's Foundry, Front Street; Dr. G. J. Potts, Provincial Deputy; or James Macoun, W. Treasurer.

—17 per cent. is the discount on United States invoices.

—R. J. Cartwright, Esq., M. P., is about building a Cotton Mill in Napanee.

—The Customs Revenue in Montreal, from the 1st to the 5th of February, inclusive, amounted to $45,109.20.

—A petition is to be presented to the Dominion Parliament asking to have the channel below Montreal deepened to the extent of 25 feet, so as to enable ocean ships to reach Montreal.

—Nine hundred and seventy-two quarts of soup and six hundred and eighteen loaves of bread were distributed at the Griffintown soup kitchen, Montreal, during the week ending 5th February.

News Condensed.

—The London *Telegraph* sent a reporter to Portland to describe the Peabody funeral.

—Up to the 15th of January the actual payments of subscriptions towards Queen's College endowment, amounted to $42.243 76c.

—The Halifax *Chronicle* publishes lists of heavy tonnage, building or in operation in three counties; in Hants, 14,600 tons; in Colchester, 4,350, and in Pictou, 3,200.

—As an evidence of the rise of real estate in Halifax, it is mentioned that a gentleman purchased a lot of land six years ago for $700, and now refuses $8,000 for it.

—Bitter beer in England, according to a recent official analysis, is now made largely from sugar instead of from malt, as is shown by testing the specific gravity of the different liquors.

—They have unprecedently mild weather in Nova Scotia this winter. The other day a dandelion in full bloom was gathered near Halifax, and Mayflowers were gathered in the vicinity of Windsor.

—The Charlottetown *Patriot* says that Mr. Dundas has been relieved from the Lieutenant-Governorship of Prince Edward Island, and that Sir Robert Hodgson now holds the office of administrator of the government.

Police Court.

(Before A. DIAMOND, Esq., Police Magistrate.)

MONDAY, Feb. 7.

THE LIQUOR LAW.

The adjourned case against A. Shearing, for selling liquor without license, was the only one for trial this morning. Evidence was taken which proved that the offence had been committed, as charged. In consideration of this being a first offence, the light fine of $10 and costs was imposed.—The money was paid.

The Magistrate pronounced judgement in the case of Charles McCarty, declaring the offence proved, and sentencing him to two months' imprisonment with hard labor.

Judgment in the case of Sebastian Consaul, was deferred till Wednesday.

MARKET BY-LAW.

The charge against Edward Snell, for infringement of the Market By-Law, was further adjourned till Wednesday.

To the Editor of the Daily Intelligencer.

Roofing Slate.

SIR,—It will interest those who propose erecting buildings during the present year to know the results which have attended the use of slate in Montreal. When I commenced the business in this city, seventeen years since, slate was comparatively unknown, and the endeavor to introduce it was constantly met by the objection that the climate was too severe. Progress in overcoming this and other prejudices was slow, and during the first year or two it was only occasionally that a church, foundry, or dwelling-house was covered with slate. Since then, practical acquaintance with the article has effected a great change in public opinion.—During the past few years the number of new buildings in this city covered with it is very large. In all cases where it has been properly laid, it has answered its purpose and and given satisfaction. An experience of several years in Montreal clearly shows that the climate has no effect whatever upon it, proving it to be superior to all other roofing materials. Its great advantages are durability, safety, economy, and handsome appearance. The slate now produced at the quarries in the townships is much improved in quality, and fully equal, if not superior, to any used in this country.

I feel perfectly confident that the better slate becomes known throughout the Dominion the larger will be its annual consumption.

Yours truly,
GEO. W. REED.

Montreal, 12th Feb., 1870.

American Despatches.

ARRIVAL.

NEW YORK, Feb. 5.—The steamer 'Rhein,' from Bremen, has arrived.

FROM HAYTI.

WASHINGTON, Feb. 5.—Official advices are received from San Domingo, that the Haytien Government had offered to assist the revolutionists in the former Republic. The administration attaches no importance to the information.

MEXICO—ATTEMPTED ASSASSINATION.

CITY OF MEXICO, Feb. 1.—An attempt by troops to assassinate Lerde De Sejadoe and proclaim Santa Anna, has been discovered here and frustrated. A battle took place in San Luis Potosi, on the 14th ult., between the insurgents and Government troops. The insurgents were victorious, capturing 20 guns.

SAN DOMINGO, Jan. 20.—The Revolutionists, headed by Pimental, are marching north-west. They have captured Quayaban.

TERRIBLE STORM—MARINE DISASTERS.

WILMINGTON, N. C., Feb. 5.—Last night one of the most terrible storms ever experienced here, visited this neighbourhood. The schooner 'Eleanor,' from Baltimore, went ashore. Five men, her entire crew, were lost. Other vessels have been wrecked, and it is feared there has been fearful loss of life.

THE PRINCE IN BOSTON.

BOSTON, Feb. 5.—Prince Arthur and Minister Thornton attended Trinity Church this forenoon. The chief purpose of the Prince in visiting Boston is to attend the funeral of Geo. Peabody, and pending the obsequies he feels called upon to decline accepting more than the simple courtesies extended by private individuals.

The Irish Land Bill.

We have reason to believe that when the Cabinet Ministers assemble for the first time in the new year, on Friday next, it will be found that their deliberations in regard to the Irish Land Bill are very far from being terminated. We understand that the progress of inquiry in Ireland shows a very formidable bulk of respectable opinion which will assert itself in the house for some degree of fixity of tenure. The tenants want assurance that they shall not be turned out of their holdings, as well as some method of compensation for improvements. Of course, fixity of tenure in its literally meaning cannot be conceded; but the subject which will earliest engage the attention of the Cabinet will be whether in some form the strong body of opinion which is committed to this view of the question cannot be conciliated.—*The Echo.*

Ontario.

In the Province of Ontario there are now nearly 4,000 schools where persons from the age of five to twenty-one years may obtain a high class education without any payment whatever. These common schools, as they are called, are growing in favor year by year; and in proof of this assertion I may say that, out of $1,780,332 provided for them last year, not less than $181,987 having been paid them by the Governmet. Our Normal and Model schools differ somewhat from the similiar schools of Europe, and the United States.—Like them they are intended for training of teachers, but unlike them they assume a certain amount of preliminary education.—They are preparatory as well as finishing schools. They do for the teacher what an apprenticeship does for the mechanic, they teach him to practice his calling. The Model schools are the training ground, the workshop if you will, where the future teacher gains his practical experience and studies the system of the common schools. These are, therefore, appendages to the Normal Schools, and the number of pupils is limited to 150 in each school. The question as to whether those schools, which are of more immediate interest to a large section of the public be free or not, is left to be decided by the ratepayers themselves at their annual meetings, and it is a most gratifying fact, that the number of free schools has increased during the year by 140, while the number where there is a rate bill of 25c. or 16c. per month have decreased by ninety.

A Murderous Sea Flower.

One of the most exquisite wonders of the sea is called the opelet, and is about as large as the German aster, looking, indeed, very much like one. Imagine a very large double aster, with even so many long petals of a light green, glossy as satin, and each one tipped with rose color. These lovely petals do not lie quietly in their places, like those of the astor in your garden, but wave about in the water, while the opelet generally clings to a rock. How innocent and lovely it looks on its rocky bed! Who would suspect that it would eat anything grosser than dew or sunlight? But those beautiful waving arms, as you call them, have another use besides looking pretty. They have to provide food for a large, open mouth, which is hidden deep among them—so well hidden that one can scarcely find it. Well do they perform their duty, for the instant a foolish little fishlet touches one of the rosy tips he is struck with poison as fatal to him as lightning. He immediately becomes numb, and in a moment stops struggling; and then the other beautiful arms wrap themselves around him, and he is drawn into the huge, greedy mouth, and is seen no more. Then the lovely arms unclose and wave again in the water, looking as innocent and as harmless as though they had never touched a fish.

THE TRUE SHAMROCK.—Antiquarians abroad are much exercised at present as to what plant is the Irish Shamrock. Many think that it is the *Trifolium repens*, or common white clover; others think that it is *Trifolium minus*, or small yellow clover; while others think with much probability, that it was not a species of clover at all, but the *Oxalis acestosella*, or Wood Sorel. The antiquarians argue that in the days of St. Patrick, Ireland was very thickly wooded, as this plant grows very abundantly in the woods, it was doubtless very plentiful in Ireland, and would readily be used by St. Patrick to illustrate the doctrine of the Trinity to his hearers; and besides it is not certain but the two species of clover above mentioned are of comparatively recent introduction to that country. The Irish themselves do not appear to have any decided tradition as to what plant is the correct one: and as it is quite a vexed question, which cannot possibly be solved at this day, the antiquarians are therefore the more exercised about it.

—His Excellency the Governor General and Lady Young will hold a levee and drawing-room in honor of H. R. H. Prince Arthur at the Parliament House, on the 25th Feb. After the reception there will be a State Ball.

DR. J. BRIGGS' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks: —"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 94—6mT&S

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

Latest by Telegraph.

BY ATLANTIC CABLE.

AMERICAN LEGISLATION.

LONDON, Feb. 5.—The *Times* this morning has an editorial on American legislators and legislation, wherein it comments on the composition of peculiarities of the House of the United States Congress. The writer attributes the fault in American legislation to the utter absence of ability in the House of Representatives, a natural sequence to the popular elections. The Senate, however, is better, the *Times* thinks, because its members are otherwise chosen.

IRISH LAND QUESTION.

The *Saturday Review*, of to-day, predicts that the Irish land question and bills for regulating the ballots and the diffusion of education, will engross the attention of Parliament at the coming Session.

TELEGRAPHING.

Extraordinary scenes are occurring at the telegraph offices throughout England. The dissatisfaction is universal, and the complaints of delay and error have been greatly multiplied since the new arrangement went into effect in this city particularly. Crowds of people surround the offices, and there is the utmost confusion.

UNIVERSITY TESTS.

The movement of the abolition of University tests has been renewed vigorously. A large meeting was held at Plymouth last evening, and resolutions looking to that end were unanimously adopted. Other meetings are to be held elsewhere.

INDO-CHINESE TREATY.

The *Pall Mall Gazette* of this evening protests against the interruption of the Indo-Chinese trade in opium as contemplated.

There has recently been an improved demand for the American bonds, both Federate and State.

ŒCUMENICAL COUNCIL

ROME, Feb. 5.—Another session of the Œcumenical Council was held yesterday. The Archbishop of Turin celebrated mass and five fathers delivered addresses. The Committee Postulate meets once a week. The De Fide has completed a great part of the work.

The *Civita Cattolica*, published here, has a remarkable article entitled 'Les mauvais politiques et le Concile." After referring to the menances against the Œcumenical Council's establishing decrees contrary to modern ideas, it says the bishops despise menaces. If governments make laws at variance with the decrees of the Council, the subjects will not be held to observe them, and to exact obedience to such laws would be odious tyranny. If governments separate the Church from the State, they must expect terrible revolutions to overthrow them. France alone has been true to the Concordat, and the Council will bear this in mind.

THE LATEST

STEAMSHIP ARRIVED.

QUEENSTOWN, Feb. 5.—The 'Nevada' from New York has arrived.

PROBABLE DUEL.

MADRID, Feb. 5.—The duel between Senor *Figueras* and Col. Lugo will probably be fought, as the former will not withdraw his offensive expressions.

THE CASE OF ROCHEFORT.

PARIS, Feb. 6.—In the case of Henri Rochefort, no appeal having been taken, the sentence becomes final. The ministry are determined to put it into execution and the defendant has been notified to surrender himself to the authorities.

POLITICAL PROSECUTION.

Gustave Floureus is to be prosecuted for words used in a speech at a political meeting.

DISMISSAL OF LEVERRIER.

The 'Journal Officiel' publishes a decree removing Leverrier, the eminent astronomer, from office as Director of the Imperial Observatory, for taking certain action in the Senate, of which he is a member, inconsistent with his duties as an officer of the Government.

COMMERCIAL.

LONDON, Feb. 7.—Consols for money 92⅝; Account 92⅝; 5-20's of '62,87; '67 87⅜; Tallow 46s to 46s 3d.

LIVERPOOL, Feb. 7.—Flour 19s 6d; red wheat 7s 4d; red winter 8s 4d; white 8s 7d; European corn 26s; Barley 5s; Oats 2s 6d; Peas 34s; Pork 97s 6d; Lard 72s 6d.

Consular Agency.

U. S. CONSULATE, KINGSTON,
January 31st, 1870.

SIR,—You are hereby notified that you have been appointed U. S. Consular Agent at Belleville in place of J. W. Carman, resigned, and that you have been temporarily recognized as such by the Governor General of Canada, pending the action of Her Majesty's Government, in the premises, and you will at once enter upon the duties of your office.

You will call upon Mr. Carman and receive the archives of the office, and receipt to him for the same.

Your obedient servant,
S. B. HANCE,
U. S. Consul.

To R. R. LLOYD, Esq.,
Belleville, Ont.

All persons interested in trade or commerce between this port and the United States will please take notice and govern themselves in accordance with the above order.
R. R. LLOYD,
U. S. C. Agent.

Belleville, Ont., Feb. 1st, 1870.

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO., LINDSAY, ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.
J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.
SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations; thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.
51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds,
BURNS AND BRUISES,
PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.
PERRY DAVIS & SON, Proprietors.
304d 51 w 4w Montreal, P. Q.

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are now prepared to receive Tenders for four further Sections of the Line.

Section No. 13 will be in the Province of Quebec, and will extend from the Easterly end of Section No. 8 to Station 906, near Malfait Lake, about 20¼ miles in length.

Section No. 14, will be in the Province of Quebec, and will extend from the Easterly end of Section No. 13, to Station 543, a point between the mouth of the River Amqui and the little Matapedia Lake, about 22½ miles in length.

Section No. 15 will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 9 to Station No. 639, a point fully half a mile Easterly from the crossing of the River Nepissiguit—length, twelve one-tenth miles.

Section No. 16, will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 15, to the Westerly end of Section No. 10, about 18½ miles in length.

The contracts for the above sections to be completely finished and ready for laying the track by the 1st day of July, 1872.

The Commissioners also give Public Notice that having annulled the Contracts for Sections Nos. 3 and 4, they are now prepared to receive Tenders for re-letting the same.

Section No 3, in the Province of New Brunswick, and extends from Station No. 870, about two miles South of the Restigouche River to Station No. 190, about 2,000 feet South of Eel River, near Dalhousie, being a distance of about 24 miles.

Section No. 4 is in the Province of Nova Scotia, and extends from Station No. 230, on the Amherst Ridge, to Station O, on the Ridge about a mile North of the River Phillip, a distance of about 27 miles.

The Contracts for Sections Nos. 3 and 4 to be completely finished and ready for laying the track by the 1st day of July, 1871.

Plans and Profiles, with specifications and terms of contract, will be exhibited at the office of the Chief Engineer in Ottawa; and at the offices of the Commissioners in Toronto, Quebec, Rimouski, Dalhousie, Newcastle, St. John and Halifax, on and after the 10th March next; and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders" will be received at their office in Ottawa, up to 7 o'clock P. M., on Monday, the 4th day of April, 1870.

Sureties for the completion of the contract will be required to sign the Tender.

The Penalty.

"What makes your cheek so pale, young man,
What dims your sunken eye ?
What means that heaving of your breast—
That frequent deep-drawn sigh ?"

The young man sadly shook his head,
And heaved a heavy sigh ;
But, save those tokens of his grief,
He made me no reply.

"Perhaps some maid has trifled with
Thy too confiding heart,
And let thee feel the bitterness
Of slighted love's keen smart ?"

"Ah ! no," he said in accents low,
"Far wuss than that, old brick ;
I've been smoking a cigar, and oh !
It's made me orful sick."

Choice of a Husband.

Of beauty just enough to bear inspection ;
Of candor, sense, and wit, a good collection ;
Enough of love for one who needs protection
To scorn the words, "I'll keep her in subjection ;"
Wisdom to guide her right in each direction,
Nor blame a weaker vessel's imperfection,
Should I e'er meet with such in my connection,
Let him propose, I'll offer no objection.

Those who go to Heaven.

We would advise those who are sorely troubled and vexed in spirit, lest peradventure they have not found the true church, to read the following vision of the celebrated Wesley, who at one time was seriously troubled in regard to the disposition of the various secrets and chances of each in reference to future happiness and punishment. A dream, one night transported him in its uncertain wanderings to the gates of hell.

'Are there any Roman Catholics here ?' asked Wesley, thoughtfully.

'Yes.'

'Any Presbyterians ?'

'Yes,' again was the answer.

'Any Congregationalists ?'

'Yes.'

'Any Methodists ?' by way of a clencher, asked the pious Wesley.

'Yes,' to his great indignation, was answered.

In the mystic ways of dreams, a sudden transition, and he stood before the gates of heaven. Improving his opportunity, he again inquired :

'Are there any Roman Catholics here ?'

'No' was replied ;

'Any Presbyterians ?'

'No.'

'Any Congregationalists ?'

'No.'

'Any Methodists ?'

'No.'

'Well, then,' he asked, just in wonder, 'who are inside ?'

'Christians,' was the answer.

An Italian in his 110th year, being asked the secret of his living so long, replied :—

"When hungry, of the beast I eat,
And dry and warm I keep my feet ;
I screen my head from sun and rain,
And let few cares perplex my brain."

A grindstone should not be exposed to the weather, as it not only injuries the wood-work, but the sun's rays harden the stone so much as to render it useless in a very short time.

It is a bad sign to see a man with his hat off at midnight, explaining a new theory to a lamp post.

In reply to a young writer who wished to know 'which magazine will give me the highest position quickest,' a contemporary advises 'powder magazine, if you contribute a fiery article.'

'What, tipsy again ?' said a wife to her husband. 'No, my dear,' said he, 'not tipsy, but a little slippery. The fact is, somebody has been rubbing my boots till they are as smooth as a pane of glass.'

Short and Sweet.—Pay your debts as soon as you get any money in your pocket Speak your mind when it is necessary, hold your tongue when prudent. Speak to a friend in a seedy coat. If you can't lend a man money tell him why. If you don't wan't to, do the same. Cut any acquaintance who lacks principle. Bear with infirmities, but not vices. Respect honesty, despise duplicity. Wear your old clothes, till you can pay for new ones. Aim at comfort and propriety, not fashion. Entertain your friends but never beyond your means.

Young Cattle.—Give young cattle all the cornstalks and hay they want to eat, and with good shelter they will thrive. If lousy, wash them with a moderately strong solution of carbolic soap, following the direction accompanying the package.

Potato Pudding.—Boil three large mealy potatoes, mash them very smoothly, with one ounce of butter, and two or three tablespoonfuls of thick cream ; add three well-beaten eggs, a little salt, grated nutmeg, and a table-spoonful of brown sugar. Beat all well together, and bake in a buttered dish, for half an hour. A few currants may be added to the pudding.

Catarrh, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

Consumptives, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

Cure for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

Frosted Feet, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

THE DAILY INTELLIGENCER

BOOK AND JOB

Printing Office.

Fortieth Year.

GODEY'S LADY'S BOOK

For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

It has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year, - - - - - -	$3 00
Two copies, one year, - - - - - -	5 50
Three copies, one year, - - - - -	7 50

Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies - - - - - - -	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them ; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always —that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates ; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure :—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this marvelous remedy known as RADWAY'S READY RELIEF, was completed it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium would allay pain, but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure ; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years Wherever a community of living civilized souls existed, there we sent first at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers ; and in this class of diseases it cured when all others failed, and PREVENTED *Attacks if exposed.*

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will, in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to *wait* for their "bread cast on the waters to return after many days," who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere—shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms ; and as regards ordinary PAINS *that are common* to all, he Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice pay the penalty of engorged liver, fat spleen, disordered kidneys, saffron-colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures Cholagogues, &c., costing $1 to $5, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief, diluted in one gallon of proof spirits, will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, &c., &c., all of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes, that would cost at least (\$25) twenty-five dollars, had you to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,
Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents ; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the Edinburgh. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews, - -	$4.00 per annum
For any two of the Reviews, - -	7.00 "
For any three of the Reviews, - -	10.00 "
For all four of the Reviews, - - -	12.00 "
For Blackwood's Magazine, - - -	4.00 "
For Blackwood and one Review, - -	7.00 "
For Blackwood and any two of the Reviews, - - -	10.00 "
For Blackwood and three of the Reviews, - - -	13.00 "
For Blackwood and the four Reviews,	15.00 "

Single numbers of a Review, $1. Single numbers Blackwood, 35 Cents.

The Reviews are published quarterly ; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The Postage on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two of the Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by Henry Stephens, F.R.S., Edinburgh, and the late J. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo, 1600 pages, and numerous Engravings.

Price $7. By Mail post-paid, $8.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, TUESDAY EVENING, FEBRUARY 8, 1870. No. 308. 238

Dairymen's Association.

ANNUAL MEETING.

The Canadian Dairymen's Association held their third annual meeting at Ingersoll, on Tuesday and Wednesday, Feby. 2nd and 3rd, when, among other business, discussions took place upon the following subjects :—

CHEESE MAKING ONCE A DAY.

Mr. Yates, of Belleville, said he was connected with a factory where the system had been adopted, and had been found to work well, saving labour, and producing cheese of a better quality and firmer texture.—They used the milk of from 700 to 800 cows, divided over seven beats, the farthest point being about seven miles distant. In the evening the milk was put into the vats, to some of which ice in pails was applied, and in others Sterling Alguire's Milk Agitator was employed. The Saturday evening's milk was in this way kept over till Monday, and had not been found deteriorated, except for a short time during the very hot weather. There was a slight difference in the cheese of Monday's make, but not enough to require any selection or culling in the sales. Preferred the Agitator to the ice, as it kept the cream from rising, which, if separated, could not again be properly incorporated. Cheese was considered better if made from a portion of old milk, provided it was sweet. Used 800 gallon vats, setting about 2,000 pounds of milk in each. The average yield of cheese had been 9.40 pounds to the 100 pounds of milk.

Mr. Harris had also adopted the plan of making once a day, and employed the Agitator. He coincided with the previous speaker.

Mr. Losee, of Norwich, had tried the plan for two years with satisfactory results, producing a better yield, of better quality, with less labour. It was necessary to have the milk come in early and in good condition, rejecting all that was not so. Had two vats of 500 gallons each, and used about 8,000 lbs. of milk each day. The average yield of the past season had been a little under 10 lbs. to the 100 lbs., and had sold at an average price of 12½ cents.

Mr. Balantine, of Stratford, had also tried the plan, but could not altogether endorse the views of the previous speaker. He thought it was absolutely necessary to the production of fine flavoured cheese to get rid of the animal odour from the milk, for which purpose a certain amount of exposure to the air was essential—that mere reduction of temperature did not effect the object. He acknowledged that Mr. Losee's make, on the once-a-day system was of prime quality, which he attributed to his extreme care in manufacture, and the good condition in which his patrons had been educated to deliver the milk. In his own experience he had found the plan of making twice a day the better, and thought it impossible to make a first quality of cheese from entirely new milk.

CURD MILLS.

Mr. Griffin said he had found benefit from their use in producing a better texture of cheese. There was, however, considerable difference in these machines, some of which scarcely altered the condition of the curd, and others tore in asunder too much, and thereby deprived it partially of its richness. The curd should rather be ground fine than torn asunder. In very hot weather he had used a temporary press, in which the curd had been subjected to slight pressure before adding the salt,—the curd mill being used twice, before and after the addition.

Mr. Facey said that he had used the curd mill during the past season, and found advantage from it. Sometimes, however, he had observed that cheese, so treated, lost a portion of its richness during the curing. This he attributed to some imperfection in the curd mill, for in other establishments, where a different kind of mill was in use, this difficulty had not been experienced.

Mr. Farrington did not think the subject of the animal odour of milk had been definitely settled,—some eminent physiologists contending that its presence was not an essential condition, while others maintained that it was present in all milk, without being derived from any extraneous causes. He thought the night's milk would have more of this odour than the morning's milk, and for this reason, required time and exposure to get rid of it, while the mornin'gs milk being comparatively free might be made up at once, and then hence the mixture of the two was not injurious to the flavour of the cheese. During the day, the cow was heated, perhaps excited and over driven, and the milk was of too high a temperature, feverish and odorous ; but, during the night, the cow being cool and quiet, the morning's milk was destitute of the animal taints. He thought it best, however, that in all cases there should be some intervals between the time of receiving the milk and commencing operations in the vat. The plan of milking once a day was universal in the States, and quite successful.

ACIDITY IN CHEESE MAKING.

Mr. Farrington explained that the cause of this acidity was the partial conversion of the sugar of milk into lactic acid. When this change has not commenced—when milk was used too new—the subsequent fermentation was apt to be too violent, and to result in huffiness to the cheese. The proper degree of acidity was a matter to learnt mainly by experience.

Mr. Losse said that the application to the curd of a hot iron, heated short of redness gave a sure index of the right degree of acidity. When this was reached, the curd so treated could be drawn out by the iron in small sticky fibres.

SKIM MILK CHEESE.

Some one present asked if it was profitable, at the close of the season, to make cheese out of *skim milk*, rather than feed it to the swine.

Mr. Balentine thought the profit depended upon the market, and that there was not at present any demand for skim milk cheese.

Mr. Farrington was of opinion that at the end of the season—say after the 20th of November it was best to adopt the American plan ; skim part of the milk, and use only part whole milk, mixing the two together, from which to make the cheese. To make pork out of milk when cheese was 15c. a pound, was dear pork.

An animated discussion on this point ensued ; some members concurring in the views of Mr. Farrington, whilst others, and Mr. Caswell especially most earnestly deprecated the practice of skimming the milk—a practice likely to be very much abused, and to deteriorate the quality of our own cheese. He contended that without skimming, even at the late season, cheese of the very best quality could be made by extra care ; adducing in evidence of this statement the success of Mr. Sackrider, who had so late as after the 15th of December, manufactured cheese of the finest quality, and that commanded the highest price. There was no practical difficulty in incorporating an additional quantity of cream in cheese-making, as was shown in the case of Stilton cheese.

SOUR CHEESE.

The subject of sour cheese was brought up, and it was stated that cheese of this description need not be sold at a loss, inasmuch as if properly branded, and not smuggled in, there was a market for it in Liverpool, where cheese of this description was in limited demand for a certain class of consumers. It was necessary, however, that only a small proportion of this sour cheese—say four or five in a hundred—should be mixed with the better sort.

CUTTING AND COOKING FOOD.

The benefit to be derived from cutting and cooking food was then briefly described. Mr. Bailey, of Norwich, spoke in favor of the practice, having found out hay scalded and steamed much more nutritious than cut food given dry. A saving was effected in the grain required, as he had found two quarts of grain fed in this way keep the animals in as good condition as four quarts mixed with dry hay.

Mr. Farrington adduced the instance of an American dairyman, Mr. Hopkins, of Herkimer county, who had proved the advantage of cooked food by a very conclusive experiment. He divided his cows into two lots of twenty each, and to one lot fed dry food, to the other cooked. In the latter case the flow of milk increased ; while in the former it materially fell off. On reversing the trial, and giving the cooked food to the lot that had previously been fed on the dry, a corresponding change took place in the flow of milk, which again rose in the second lot fed with the cooked food, and fell in the other.

WINDMILLS.

A brief discussion was brought up on the practicability of using windmills for pumping water for stock or dairy purposes. It was small cost, and had been found very serviceable in certain cases.

QUALITY OF CANADIAN CHEESE.

The quality of Canadian cheese being the subject first in order, the Chairman called Mr. Caswell to open the discussion. He stated that during the past season the quality had been, on the whole, better by far than that of last year, owing in part, no doubt to the season, but not entirely so, for the improvement had been specially marked in certain factories, whilst others had deteriorated. He had shipped very extensively, had been extremely careful in inspecting and testing every lot, branding each, according to its true quality ; and he had invariably observed that where a defect had been noted on this side, a corresponding depreciation in the price had resulted on the other. He had taken pains in many instances to trace the cause of the defects, and found it attributable in some cases to want of cleanliness of the milk cans, in others to some fault in curing, to use of bad rennets, and to a loss of cream. The most frequent complaint against certain cheeses was that they were "short of meat." In consequence of the differences

Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates,* will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are
Indisputable on any ground whatever,
Subject only to payment of premiums which may become due.

SPECIAL FEATURES.
ECONOMY—
Giving more assurance, for the same money than other Companies.
HOME MANAGEMENT—
HOME INVESTMENTS—
Every advantage to policy holders which is compatible with sound management and ultimate safety.

of quality, the prices he had received had varied from $1 to $7 per cwt. in the same shipment. The first desideratum for cheese in the English market was quality, the next flavor. The best means to secure the finest quality were, in his opinion, besides scrupulous cleanliness throughout, the nicest care, an even temperature, and good ventilation in the curing room—no factorymen should ever allow their cheese to be shipped before it was perfectly cured, and most emphatically no skimming should be permitted.

Mr. Farrington observed that defect in cheese was often attributed to skimming where none of the cream had been removed, the faulty condition being due to some other cause. June cheese, for instance, was apt to be tough and to possess the appearance of skim cheese. The proper remedy in this case was to employ a lower temperature, and to continue the process longer. Some enquiry having been made on the effects of using the curd of the stomach with the rennet, Mr. Farrington had found no benefit whatever to result from the practice; but, on the contrary, it was apt to impart a sour flavour to the cheese.

Mr. Daly called attention to the importance of a prompt delivery of the cheese at its destination, and cited instances where cheese had been detained in the vessel after its arrival at Liverpool for several days, had heated in consequence and suffered damage. He was pleased to be able to state that notwithstanding all these difficulties, he had found during a recent visit to England that the reputation of Canadian cheese was greatly raised, and had seen samples of our manufacture in Liverpool that were considered equal to the finest fancy brands.

To be continued. 50

BELLEVILLE, TUESDAY, FEB. 8.

THE LOWER BRIDGE.—The necessary repairs to this structure are now being proceeded with, under the superintendence of the Chairman of the Streets and Sidewalks Committee. The bridge had sunk somewhat between the eastern shore and the first pier, and jack-screws have been placed beneath, by means of which it will soon be raised to its proper level and there secured.

PROF. KELLIES' ENTERTAINMENT.—Last night Prof. Kellies, the Anglo-African wizard, gave his first entertainment in Ontario Hall to a very fair audience. Some of his tricks, notably those with the cards, and licking a red-hot bar of iron with his tongue, were very cleverly performed, and in a manner to reflect credit on performers of far greater pretensions. We hope to see a good attendance to-night.

I. O. OF G. T.—Officers elected for current quarter, commencing 1st Feb., ending 30th April: Bros. S. G. Beatty, W. C. T.; S. Hughes, W. V. T.; G. V.N. Relyea, W. S.; A. M. Terwilliger, W. F. S.; W. McKeown, W. T.; C. R. Holton, W. M.; M. Bottoms, W. I. G.; C. Tuite, W. O. G.; W. A. Ostrom, P. W. C. T.; Sister A. Garratt, W. R. S.; M. Pringle, W. L. S.; A. Thompson, W. D. M.

INCENDIARISM.—We regret to learn that the residence of the English Church clergyman in Hillier, the Rev. E. H. M. Baker, was set on fire in four places on the night of the 6th, but fortunately was discovered in time and put out without much damage. The stables belonging to the house were discovered to be on fire about daylight on Monday, and were partially consumed, with their contents. There is no doubt about its being the work of an incendiary

GRAND JUNCTION RAILWAY.—In another column we give a report of an interesting meeting in favor of reviving the Grand Junction Railway scheme. A good deal of interest was manifested, and we hope to see it continued until the Road is opened. If it be not done, some other point on the front will seek the trade of the rear townships between this and Peterborough. Let this be done, and the trade of our own rear townships carried to Kingston, and good-bye to the prosperity of Belleville.

ORANGE TEA MEETING.—An Orange Tea Meeting was held in the Cheese Factory, Front of Sidney, on Friday Evening, February 4th, in aid of the fund for building a lodge room for L. O. L. No. 1291, lately established in that part of the township. A most sumptuous repast was provided, and the room was well filled. After the tea was over, Brother John G. Moore, County Master for South Hastings, was called to the chair, and opened the meeting in a few well timed remarks, after which he introduced the following gentlemen, who addressed those present in short but appropriate speeches:—S. T. Wilmot, Esq., Bro. A. M. Phillips, K. Graham, Esq., M. P. P., Bros. Wm. Johnson, Hon. Robert Read, M. P., John White, Dr. Potts, G. D. Dickson, P. H. Stewart, of Toronto, and M. Bowell, M. P. The Trenton band, which was present, added much to the enjoyment of the evening, by the performance of a number of select pieces of music. On the whole the meeting was a success.

Grand Junction Railway.

MEETING OF THE BOARD OF TRADE.

Last night a meeting, called by the President of the Board of Trade, was held in Neilson's Hall, to consider the advisability of taking measures to construct the Grand Junction Railway from Belleville to Peterborough. About one hundred gentlemen were present, giving a fair representation of the wealth and business talent of Belleville.

On motion, THOMAS KELSO, Esq., President of the Board of Trade, took the chair, and J. PARKER THOMAS, Esq., Secretary of the Board, acted as Secretary.

THOS. KELSO, Esq., after stating the object of the meeting and dwelling on the importance of the construction of such a road from Belleville to Peterborough through the wealthy and old settled townships of Rawdon, Seymour and Asphodel, said it was the unanimous desire of the people of Peterborough and Northumberland, that the Grand Junction scheme should be revived. He had received a communication from James Foulds, Esq., chairman of a meeting held in the township of Asphodel on the subject, which meeting had been almost unanimous in favor of a revival of the Grand Junction project. The township of Asphodel was prepared to give a large bonus if the road was constructed, as proposed. The matter had also been before the County Council of the County of Peterborough, which had passed a resolution expressing the deep interest with which the project was viewed in that county. In conversation with the Reeve of Seymour, that gentleman had assured him that his township would be ~~prepared to give a bonus of $[illegible]0,000~~ to further the construction of this road. Asphodel ~~would probably give $[illegible],000~~ bonus, and other townships in proportion. Therefore, the probability was, that if the matter were once earnestly taken hold of, but little difficulty would be experienced in the construction of the road, which could hardly fail to be a paying concern in a speculative point of view, when it was considered that large manufactories were already established in the section through which it would pass. These manufactories were sufficient to give employment to the road, and no doubt others would spring up along the line if it were once in operation.

The SECRETARY then read a letter from James S. Foulds, Esq., chairman of a meeting held in the township of Asphodel, at which it was resolved to grant a bonus of $10,000 for the construction of a railroad to connect at some point with the Grand Trunk. Also, a letter from Thomas Kelso, Esq., to Timothy Coughlin, Esq., Reeve of Asphodel, which letter had been laid before the County Council of Peterborough, and the following resolution passed in relation thereto:

"On motion of Mr. Hunter, seconded by Mr. McDonald, the Clerk was instructed to write to Mr. Kelso, Belleville, relative to his communication, and to express the deep interest with which the Council regards the project treated of in said communication.—The motion was carried."

R. P. JELLETT, Esq., wished for some gentleman to show what benefit this railway, if constructed, would be to the town. As Sheriff Reynolds, of Whitby, a gentleman of experience in railway matters, was present, he would like to hear his views on this project.

NELSON REYNOLDS, Esq., had, since leaving Belleville, been engaged in several railway projects, but would prefer to hear some of the Belleville gentlemen speak on the subject.

MR. JELLETT thought the best way to get up a discussion would be to start an opposition. He would admit, for the sake of argument, that the traffic would be great. Perhaps if the proposed road were built of narrow guage this might be of advantage to the town. But, if it were built the same guage as the Grand Trunk, the passengers and employees would stop at Docter's to get a drink and proceed onward, leaving Belleville without any benefit whatever. Where a railway terminus was only a point of transit from one road to another, as would be the case if this road were built on a wide guage, only a few persons resident at the point of transit, would be benefitted. As an old sailor, he knew that it was a direct course from Port Hope to Oswego, while from Belleville to the same place was far from being so. Therefore the Port Hope people had a great advantage over us in respect of cost of shipping, and we could not successfully compete with them in that regard. It struck him there was a wider and better scheme than this for the town. We monopolized at present a large portion of the trade of Prince Edward, but Picton was agitating for a railroad to Brighton, or some other point on the front. Why not secure this trade, if not by a railroad, by some slower mode of conveyance? He would propose that a bridge be built between Belleville and Prince Edward, which could be done at a trifling cost compared with the construction of a railway to Peterboro, and with more advantage to the town. Farmers from that fertile county could then bring, at all times, their grain and other produce to our market, thus building up our town. Another desirable object was the construction of the Murray Canal, which we should have had years ago had our Parliamentary representatives done their duty, as they had a grant for that purpose. Now these two grand projects were suspended to give place to the construction of a railroad to Peterborough and the back country. He had merely said this for the purpose of discussion. The railroad would pay, but to be consistent he would repeat the question, what benefit would it be to the town?

HON. BILLA FLINT thought Mr. Jellett was in error respecting the amount of advantage to be derived from the proposed railroad. Otherwise, why had the city of Toronto assisted to so large an extent in the construction of the Northern Railroad, which was a project similar to that now before the meeting? Why, in that city, before the construction of the Northern Road, wood had been $7.25; but the railroad reduced it to $5.75, thus affecting a saving of $1.50 on every cord consumed. The amount of wood annually consumed in this town was probably not less than 10,000 cords, which, at a reduction, as calculated, of $1 per cord here, would alone be a saving of $10,000 per annum. And thus, if the town gave a bonus of $50,000 to the road, it would be repaid in five years.—Were the proposed railroad to terminate at the Grand Trunk Station, it would not be of so much benefit to Belleville; but it was a fact too well known to need urging that railways could not compete with transit by water, consequently the road should be run to some one of the wharves on the bay shore. This would cause an increased amount of shipping to visit our port for the carriage of the extra grain, lumber, &c., brought in from the back country. Vessels would be built here, for the construction of which men would have to be employed, extra men would be required to handle the produce transported by the road and to carry on its working; and thus capital would be circulated and expended to the benefit of the town. Our water power, which was confessedly second to none in Canada, would be more fully utilized than at present; manufactures would spring up, and Belleville would become one of the leading cities of Canada. No doubt a bridge to Prince Edward would be a great advantage, but other projects more practicable should be thought of.—Why was Toronto fostering so many railway projects just now, but to bring the produce of the back country to their doors, and so build up their city? Everything that would increase the volume of trade and bring it to our town, we ought to do. Other places were doing their utmost to increase their wealth and population, and it would not do for us to be behind the age.

M. BOWELL, Esq., M. P., would like to ask Mr. Jellett whether he had ever read the terms on which the grant for the construction of the Murray Canal had been made?

MR. JELETT said he had not, but if our representatives had done their duty, they would have turned some of the fresh water of the lake into the bay, and thereby give us fresh water fish, instead of mud fish.

Mr. BOWELL said when a very large deputation waited on the Minister of Public Works, they had been informed the grant had been applied to "other purposes," as by the terms of said grant.

A. DIAMOND, Esq., thought the discussion had grown quite irrelevant, though Mr. Jellett was to be thanked for starting it.—That gentleman had asked what good was a railway running through the town? What good was the river Moira, down which saw-logs were floated, many of which were cut in the Oswego Mills? Simply that men were employed to cut and bring this timber to market, and spend their money here.—All avenues which conduced to the extension of trade were good. What were our hundred miles of gravel roads built for, but to enable farmers to bring their grain, butter, eggs, pork, flour &c., to market, with greater facility? It would be a poor town indeed if it consumed all the produce that was brought into it. For it was by handling those articles that the town's prosperity was promoted. All this produce would not stop here, but it would induce grain buyers to come here and buy and ship from this port. No one ever heard of grain going by railroad when water communication was to be had. Therefore, if the Grand Junction road were built, as proposed, it would benefit this town to a great degree. The project was a most feasible one, for we know pretty well the resources of the country, so rich, and old settled, the manufactures of which rival anything either north or south of the line 45. If the town of Belleville wished to grow into a city, it would do its best to promote this project. Since our gravel roads have been constructed, more farms had been cultivated, and more money had been put into the pockets of traders. Taxes, it was true, were higher, but who would wish to go back to the old system? It was for the interest of the farmers, as well as of the people of the town to promote the road.

MR. CRONK was opposed to the construction of this road. Suppose depots were erected at country villages, where farmers could get as high a price for their grain and buy their supplies at as cheap rates, they would not come here.

MR. DIAMOND—The price of wood at Madoc was from $1 to $1.50 per cord. This could be brought here by railroad and sold at $2 50 per cord, or $1 less than present prices. Surely this was some advantage.

THOMAS WILLS, Esq., thought the benefits of such a road might be stated in a few words. If this town ever expected to be a city, strenuous efforts must be put forth to promote its prosperity. Look at the course now being pursued by Toronto, Whitby and other places. These are assisting largely in building railways into the back country, in order to increase their prosperity; and the municipalities on these lines are giving large bonuses to gain rapid communication with the front. If this railroad were built, Belleville could hold out inducements for the establishment of manufactories such as few places could equal. Anything that was a saving of labor was an increase of wealth. People from the back country would come here to spend their money, and thus we and they would benefit largely.

W. H. PONTON, Esq., after hearing the able remarks of previous speakers, would not detain the meeting, but would simply move the following resolution, seconded by Thomas Wills, Esq.:

"That the construction of the Grand Junction Railway would conduce to the prosperity of Belleville, Peterborough and the intermediate country."

MR. PONTON, in supporting the resolution, said the advantages which would arise here from the construction of a railroad would be the same as had been experienced in other places. Those places which had not railway communication were struggling to get them. The importance of a railroad from Belleville to the back country would be instanced, by the effect the Grand Trunk had had upon the country generally. He would always have a kindly word for the Grand Trunk, which was the first enterprize that had done permanent good to Canada. People were not now restricted to sending their produce by water, but could avail themselves of the cheapest mode of communication. If we would only put our shoulders to the wheel, the project could easily be carried through.—The route lay through some of the best townships in the country. It was a fact that more fall grain was grown in the township of Seymour than in the whole county of Hastings. A Committee should be formed to confer with, and act in unison with other Committees which may be formed in the counties of Peterborough and Northumberland, and to prepare statistics of population, produce, &c. The resolution was then carried unanimously.

NELSON G. REYNOLDS, Esq., on being loudly called for, rose and said he was not prepared to render much assistance at present, but would be prepared to give his help when the work was in progress. He was surprised to see any one opposed to a work calculated to do so much good to the town in which it must have its terminus, the only struggle now-a-days was how to be first in getting hold of a railroad which ran through a good section of country.—Whitby had slept for a long time, but finding her lifesblood sapped by the designs of other places, the people there had fully awakened to the necessity of doing something, and were now constructing a first-class broad guage railroad, at a cost of £5,000 a mile. He would like to see Belleville, the town of his birth, second to none in prosperity. He had been the first to institute the bonus system, which had been spoken of in connection with this charter twenty years ago. Had this road been constructed then, Belleville, instead of having a population of 9,000 or 10,000, would have 20,000 inhabitants. Some places had gone too far in furtherance of railway enterprise. Port Hope, for instance, had done so, but she was now reaping her reward in increasing prosperity, and was now prepared to aid in extending her road. Besides, experience had been gained, and railroads could now be constructed at half the cost formerly incurred. The question should not be as to whether this road was to be built, but how best to do it.

JOHN BELL, Esq., Solicitor G. T. R., having been asked for explanations as to the position of the charter of the proposed Company with respect to the Grand Trunk; said the charter for its construction was obtained by the Grand Trunk Company, and a contract entered into for the building of the road, the contractor to take his pay in stock. The Russian war came on, and money became scarce; so that the Company had to relieve the contractor of his engagement. The charter was still part of the Grand Trunk, and he had no recollection of any Act by which said charter was repealed. If a Company were organized, an Act would have to be got to authorize the Grand Trunk to hand over their charter.

MR. DIAMOND asked whether the Grand Trunk would be hostile to the formation of a Company.

MR. BELL said the Grand Trunk would be happy to see it done.

MR. BOWELL—Was not the route now proposed, surveyed by the Grand Trunk under their charter, and had not that Company the maps, estimates and profiles now on hand, and would they not give the new Company the benefit of it.

MR. BELL—Yes; two routes were surveyed, and the plans were still in his possession. He had no doubt the Grand Trunk would be happy to make a present of the plans to any Company organized to construct the road.

Further discussion elicited the fact that legislation on the subject of the organization of a Company could be had in the Dominion Legislature.

HON. ROBT. READ, M. P., said as railways were now the order of the day, we must go to work in earnest. It was only a few years since railways were talked of at all, and now in some places in England, where he had been, they were three tiers deep. He would move, seconded by JAS. BROWN, Esq., M. P.

That a Committee be appointed to confer with any Committees that may be formed in Peterborough, or the intermediate townships for the purpose of furthering the construction of the Grand Junction Railway, said Committee to consist of His Worship the Mayor, Thomas Kelso, Esq., M. Bowell, Esq., M. P., Hon. B. Flint, James Brown, Esq., M. P., A. Diamond, Esq., and the mover.—Carried.

Moved by A. DIAMOND, Esq., seconded by NEIL MCARTHUR, Esq.,

That the Mayor be requested by this meeting to call a public meeting as an early a day as may be convenient, to consider the matter of the construction of the Grand Junction Railway.—Carried.

A vote of thanks was tendered to Thomas Kelso, Esq., for his conduct in the chair.

The meeting then broke up with three cheers for the Queen.

TENDERS

WILL be received till MONDAY, the 21st February, 1870, for the Carpenter and Joiner work of six tenement buildings to be erected on the "Blacklock Lot," alias "Central School Lot," on John Street, in the Town of Belleville. Also, for the Brick work.

VALUABLE STOCK

AND

Business for Sale.

THE

STOCK OF GOODS

AND

Good Will

OF the Business belonging to the Estate of the late

George Vair, Esq.,

OF

Belleville,

Is now offered for [illegible] by

TENDER.

The Stock consists of

Dry Goods, Groceries & Crockery,

And is one of the largest and best assorted Stocks in the country; will amount to between $30,000 and $40,000. A lease of the premises, which are very extensive, may be had with the Stock.

The established and favourable reputation of the above business, and the fact that the late owner realized a large fortune in a comparatively short time, render this an opportunity rarely to be met with.

The Stock may be examined and all needed information will be furnished by applying to the undersigned.

Tenders must be sent in before

Wednesday, 9th Feb'y,

To T. James Claxton, Montreal.

The Executors do not bind themselves to accept the highest or any Tender.

Unexceptionable security will be required if time is given.

A. G. NORTHRUP,

CHARTERS & Co.

Belleville, 3rd Feby., 1870. 304tf 51-4w

THE NOR'-WEST.

PARTICULARS OF RIELL'S ARREST.
THE PROVISIONAL GOVERNMENT.
ESCAPE OF DR. SCHULTZ.

CHICAGO, Feb. 7.—A special to the 'Tribune' gives the particulars of the alleged arrest of Riell at Red River, which was done by the Canadian loyalists, under the influence of the Canadian Government. Fort Garry was garrisoned by a small guard at the time, but his adherents coming in squads, it was determined to release him. A council was called, which consisted of 20 Englishmen and 20 half-breeds, and is now in session. Nothing definite is known of its action. A young Yankee named Scott was elected to the council, beating G. B. Berrity, a leading Englishman. Scott was formerly a soldier in the Union army.

A letter says the Provisional Government is still in authority, and will to all appearance be strongly sustained.

Dr. Schultz, for a long time a prominent resident of Canada, who has been court-martialled and imprisoned by the Provisional Government, has escaped and is now at large.

Latest by Telegraph.

BY ATLANTIC CABLE.

ASSEMBLING OF PARLIAMENT.

LONDON, Feb. 7.—The reassembling of Parliament to-morrow forms a theme of conversation and newspaper comment. The general impression is that the administration is so overwhelmingly strong that opposition will be helpless. The only hope of the latter will be to create a division in the liberal ranks.

DEBATE ABOUT ROCHFORT'S ARREST.

PARIS, Feb. 7.—In the Corps Legislatif to-day M. Cremieux said he desired to question ministers concerning the Rochefort affair.

M. Ollivier replied he would not await the result of interpellation, but would do his duty.

M. Cremieux rejoined that it was precisely as to what the ministers considered their duty that he sought to inquire and the Chamber would decide that this should be answered at once. He then proceeded to make a strong appeal against the contemplated arrest of M. Rochefort as wrong to his constituents.

M. Ollivier made a speech in reply, and after an agitated discussion the Chamber, by a vote of 190 to 45, adhered to the view of M. Ollivier. It was expected that Rochefort, who was in his seat during the debate, would be arrested on leaving the House, but he was not, and at the termination of the sitting proceeded to his office and up to 8 o'clock this evening had not been taken into custody.

ROCHEFORT DEFIANT.

PARIS, Feb. 7.—The *Marseillaise*, H. Rochefort's journal, appears this morning with a characteristic article over the signature of Rochefort himself relative to a recent notice served upon him ordering him to constitute himself a prisoner in obedience to the sentence of the Court. He declares boldly that he will not surrender himself, and that if the ministers want him they must come and take him, and furthermore, they must come prepared to use force.

INFALLIBILITY.

ROME, Feb. 7.—The Œcumenical Council will soon deliberate on the opportuneness of a discussion of the dogma of Papal infallibility.

THE LATEST

LATEST FROM PARIS—ARREST OF ROCHEFORT.

PARIS, Feby. 8, evening.—Henri Rochefort, editor of the *Marseillaise*, was arrested at his residence at Belleville, in the north-eastern part of the city, at an early hour this evening. His friends and partisans are assembling in great crowds in that quarter, and serious troubles are expected.

PARIS, Feby. 8, 2 p. m.—The troubles at Belleville are serious. The streets are filled with shouting people, and barricading has commenced. A detachment of Imperial troops arrived in this vicinity about eleven o'clock.

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO. LINDSAY, ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations; thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.
51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds,
BURNS AND BRUISES,
PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors.
304d 51w 4w Montreal, P. Q.

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are now prepared to receive Tenders for four further Sections of the Line.

Section No. 13 will be in the Province of Quebec, and will extend from the Easterly end of Section No. 8 to Station 906, near Malfait Lake, about 20¼ miles in length.

Section No. 14, will be in the Province of Quebec, and will extend from the Easterly end of Section No. 13, to Station 543, a point between the mouth of the River Amqui and the little Matapedia Lake, about 22¼ miles in length.

Section No. 15 will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 9 to Station No. 639, a point fully half a mile Easterly from the crossing of the River Nepissiguit—length, twelve one-tenth miles.

Section No. 16, will be in the Province of New Brunswick, and will extend from the Easterly end of Section No. 15, to the Westerly end of Section No. 10, about 18¾ miles in length.

The contracts for the above sections to be completely finished and ready for laying the track by the 1st day of July, 1872.

The Commissioners also give Public Notice that having annulled the Contracts for Sections Nos. 3 and 4, they are now prepared to receive Tenders for re-letting the same.

Section No 3, in the Province of New Brunswick, and extends from Station No. 870, about two miles South of the Restigouche River to Station No. 190, about 2,000 feet South of Eel River, near Dalhousie, being a distance of about 24 miles.

Section No. 4 is in the Province of Nova Scotia, and extends from Station No. 280, on the Amherst Ridge, to Station O, on the Ridge about a mile North of the River Phillip, a distance of about 27 miles.

The Contracts for Sections Nos. 3 and 4 to be completely finished and ready for laying the track by the 1st day of July, 1871.

Plans and Profiles, with specifications and terms of contract, will be exhibited at the office of the Chief Engineer in Ottawa; and at the offices of the Commissioners in Toronto, Quebec, Rimouski, Dalhousie, Newcastle, St. John and Halifax, on and after the 10th March next; and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders" will be received at their office in Ottawa, up to 7 o'clock P. M., on Monday, the 4th day of April, 1870.

Sureties for the completion of the contract will be required to sign the Tender.

The Part they Liked.

A singular case has just been decided in Naples, by the Duke d'Ossuna, who is looked upon as a second Daniel come to judgment. A very rich and bigoted citizen died, and left his property to a convent of monks, with a proviso that the brotherhood should give his son, a deserving young man, what part they liked. The monks took possession of their legacy, and offered a very small portion of it to the rightful heir; but instead of accepting it the youth carried the case before Ossuna. Having heard both sides of the matter he turned to the magistrate who administered the will and stated his surprise that a man so famous as a lawyer should have so wrongly interpreted the testment, which ordained that the monks should give the testator's son the part they liked. When they offered him forty thousand dollars and proposed to retain the two hundred and ten thousand remaining, it was quite plain that the greater sum was *the part they liked*; consequently the monks were ordered to carry out the terms of the will and pay the amount they preferred to the testator's heir. And it was so decreed.

Sharp Trick.—Pat went to the house of the priest to confess his sins, and passed into the kitchen to ask for the holy father; but perceiving that there was no one in the room, while a fine ham was lying on the table fresh from market, Pat lost no time in securing the prize. Hiding it as well as he could under his coat, he proceeded to the apartment of the priest and said:

'Here, your riverence, is a fine bacon which I stole and brought as a present to your holiness. Will you take it?'

'Take it,' said the cofessor; 'by no means. Carry it back instantly.'

'Faith, and I did sir, and he said he wouldn't take it by no means.'

'Very well, then, Patrick, you may keep it.'

'An' I'll be absolved your riverence, will I?' demanded Pat.

'Yes; it is yours, if the owner does not take it back.'

'Good morning! God bless ye! long life to your riverence!'

'Mr. White, will you have the kindness to lend me ten dollars?' 'Certainly, upon one condition.' 'Name it.' 'That you tell me why your request is like the back of my neck?' 'I must give it up.' 'Well, it is because I can't see it!'

Catarrh, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

Consumptives, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

Cure for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

Frosted Feet, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

COUNTY OF HASTINGS
Sabbath School Convention.

THE First Sabbath School Convention of the County of Hastings will (D. V.) be held in the John St. Presbyterian Church in Belleville, on

Wednesday and Thursday, the 16th and 17th of February,

Commencing at 2.30 p. m. on Wednesday. Ministers of the Gospel and two Delegates from each Sabbath School within the County of Hastings are cordially invited to attend and take part in the proceedings of the Convention.

Ample provision will be made by the Christian people of Belleville for the reception and comfort of the Ministers and Delegates attending the Convention.

In order that Ministers and Delegates may be properly provided for, it is important that the Secretary be duly informed of the names of those who intend to be present. Delegates will therefore please to have certificates duly filled up and forwarded to the County Secretary—Chas. Martin—not later than the 8th of February.

Ministers and Sabbath School workers from the adjoining County of Prince Edward are also cordially invited to be present, for whom also (due notice being given to the Secretary) the Committee will provide homes.

The introduction of the following subjects for discussion has been placed in the hands of competent Sabbath School workers, the aim of the Committee being to draw out the talent we have in our own County:—

SUBJECTS:

County Conventions—their work.
Aim and object of Sabbath School Teaching.
Duties of Parents to the Sabbath School.
Encouragements to labor in the Sabbath School.
Teachers' Meetings and how to conduct them.
Establishment and organization of Sabbath Schools.
How can we best retain our Senior Scholars?
How to conduct a Sabbath School Session.
The Blackboard.

CHAS. MARTIN,
Belleville, Jan. 27, 1870.

P. S.—Any Sabbath School in the County failing to receive circulars from the Secretary will please to appoint their Delegates and send notice thereof to the Secretary.

Chronicle copy twice. 802d1-51w2

Fortieth Year.
GODEY'S LADY'S BOOK
For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON,

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world ever.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

Commissioner of Customs

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's
Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in raising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this marvelous remedy known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever. Typhoid Fever.
Scarlet Fever. Ship Fever.

FEVER & AGUE.

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED attacks if exposed.

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to wait for their "bread cast on the waters to return after many days" who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere, shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, the Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or in fact any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from overdosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty in engorged liver, fat, spleen, disordered kidneys, yellow colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other aliments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits, will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Pain Killers, Embrocations, Panaceas, Liniments, &c. All of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least ([illegible]) twenty-five dollars paid you to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Billious Colic. Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate Radway's Ready Relief.

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the Edinburgh. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews, - -	$4.00	per annum.
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - -	10.00	"
For Blackwood and three of the Reviews, - - - -	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The Postage on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two of the Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by Henry Stephens, F.R.S., Edinburgh, and the late J. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo, 1600 pages, and numerous Engravings.

Price $7. By Mail post-paid. $8.

VOL. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, WEDNESDAY EVENING, FEBRUARY 9, 1870. No. ~~300.~~

OUR PARIS LETTER.

TROPPMANN FEVER—ROCHEFORT—VERMOREL—THE CABINET—THE CHAMBER—POLITENESS—THE COBDEN TREATY—THE EMPEROR—PRINCE NAPOLEON—COURT OF JUSTICE—RASPAIL NOT DEAD—BARON HAUSSMANN ILL—THE STRIKE—TROPPMANN'S EXECUTION—HORRIBLE SCENES—A FAST GIRL.

PARIS, Jan. 22, 1870.

The Troppmann fever is over, and without making "comparisons odorous," that of Rochefort will soon terminate, without any prospect of a relapse. The fact is, public opinion has become fatigued, at this playing at revolutions—and the traders are more than angry, in seeing their business all but destroyed by useless agitations. Rochefort has been "let down" very quietly by his friends, and it is very questionable, if, when he is tried and condemned, and sets out for exile a second time, he will find any to throw an old slipper after him. His constituents saw, he had not influence, no respect in the Chamber. Again, since Victor Noir's interment, he has fallen like Lucifer—never to rise again in the estimation of the extreme members of his party, who desired, through M. Flourens, son of the celebrated philosopher, to enter Paris with the body, and fight the 6 000 cavalry, 80,000 infantry, and six batteries of artillery.

Further: Rochefort has been guilty of defaming an eminent "Red" man, M. Vermorel, by publicly stating in the House, during the debate, that he was in the pay of the police. M. Vermorel holds very revolutionary views, for which he has suffered in purse, and undergone imprisonment, but he is a man of honor and a gentleman, and this cowardly attack has reacted on Rochefort, who has been called to name nine persons to act with a similar number chosen by M. Vermorel, to substantiate his dreadful assertions. In addition, since a deputation of officers waited upon Rochefort, warning him of what he might expect if he continued to insult the army, through his *Marseillaise*—the latter has roared like a sucking dove as a consequence, and the "men of the future" are not pleased with the falling off of their daily supply of thunder.

The Cabinet keeps well together, and its members are busily employed finding out and removing, all that is arbitrary and unsound in their respective departments. Their sincerity is not questioned, and much allowance is made for the difficulties of their task. If the nation has but patience, and allows the new laws to pass, there will soon not be a complaint for an Irreconsilable.

The Chamber of late has shown that it has need to include in its new code of regulations, something to secure politeness, and calm in discussion. The scene between Ollivier, the head of the Ministry—and Gambetta leader of the Left, was very personal, angry, and unparliamentary—especially as both were until late excellent friends. In the French Chamber, the Deputies display one parliamentary weakness—that of, when being contradicted by a succeeding Orator—they must instantly jump up and rebute.—Half of the *seance* is employed calling them to order. At present the discussion is upon the Cobden Treaty—to give notice to England, by the 4th proximo, that it will not be renewed. There is no danger that such a resolution will be carried—especially as the question of Free Trade and Protection will be submitted to the ordeal of a parliamentary inquiry. The Protectionists deal summarily with their antagonists—the government, by asserting that their customs' returns are cooked—false, and all conclusions based on such—ditto. This shocks the Statistical Department. But the views of his protectionist friends—and what he says is listened to with respect in the House, where it has no weight, and by the country, where it has no influence. He agrees with Canning, that nothing is more fallacious that facts—except figures.

The Emperor has had a few painful reminders from his friends—gout and rheumatism, owing to the late sudden change in the weather. Nothing of a nature to effect stocks. He has been very much affected, by the events of the last ten days, and passes much of his time, working and alone, in his study. The only visiter he receives regularly, is Prince Napoleon, whose advice—liberal in its tendency—tells on the Emperor. The Empress cannot see this influence of her rival, with pleasure—but the common safety of the family, ought to reconcile her. Napoleon, who owns vast landed estates—purchased by himself—in Spain—is about reselling a portion, and investing in American securities.

The High Court of Justice drags its slow length along, consequent on the extent of the preliminary inquiries. The Privy Council has voted the sums necessary to open it—at Bourges it is believed, where Raspail was tried in 1849, for the "15 May" tumult. Prince Pierre Napoleon receives numerous visits from military officers, who, it is known, give him all their sympathies.

Raspail is not dead, but hopelessly ill. This "People's Man," if he dies, will create anxiety for another "day," as his tomb, or rather "Mausoleum," is at Pere La-chaise, and his friends must enter Paris to place him there.

Baron Haussmann is reported dangerously ill—the ingratitude of the Parisians is doubtless the case—and ingratitude is *le peche du Cœur.*

The "strike" at the iron works of Creuzot, owned by M. Schneider, President of the Corps Legislatif, is said to be over. It would be madness for 10,000 or 12,000 men to cease working for the bad working of a law voted by themselves.

The disgraceful scenes at Troppmann's execution will lead to such exhibitions taking place within the prison for the future. Notice of a law to this effect has been given. It is curious that while executions are ordered to take place publicly in France, the authorities resort to the minutest precautions to conceal the hour for the fatal ceremony. Never did I before witness the hideous depravity and inhumanity of a mob as assembled on this occasion. It was hell let loose. Mixed with political exclamations and revolutionary chants, was all that the French language could display of filth and obscenity. The place of execution is ordinarily filled by 8,000 persons—there was four times this number present to witness the Troppmann *affaire*—for years there never was such a gathering of the morbidly curious. True, the crime that was to be expiated was exceptional in its barbariety, and the culprit unparalleled in ferocious impertinence. We were told that he of late observed every religious preparation to die—was as good as any twelfth hour converted murderer could be. But he showed no "outward and visible sign" of any "inward spiritual grace." His last words were a lie, and from day to day he put off revealing his accomplices in order to keep his head a few hours longer on his shoulders. But no one, it may be generally said, believed him. Alone he did his bloody business—poisoned the father and butchered the mother, and her six children. The crowd remembered the night of the 30th of last September when he struck his victims down, they seemed to hear the cries of the poor infants—"mamma mamma"—to save them from his knife and pick-axe, and were so fortified to witness the vengeance of the law.

After something like superhuman efforts I succeeded in obtaining the coveted "pass." In the dictionary of an "Our Own," there is no such word as "fail." Passing along files of carriages and cabs drawn up like an Opera night, and through a compact mass of men, women, and children, shouting and laughing, declining with thanks the offers of vendors of coffee, liqueurs and cakes, I arrived in front of the prison after midnight. The van had arrived and was discharging the *bois de Justice*—the materials for the scaffold. In a smaller van was the "salad basket," as the French dub the receptacle, filled with bran, destined to receive the victims head, and a large hamper for the body. While the carpenters set to work with "lanterns dimly burning," I enter the prison, and the corridor is occupied by "visitors." There is M. Claude, Chief of the Detective force, with eyes that read you in a glance, and the prison Chaplain, sad and retired. Troppmann sleeps profoundly; it is only when he awakes he will be told his last hour, or rather half hour is come.

We talk of the crime—the murderer—his strange character, and the hypothesis of accomplices—look into the prison kitchen, to see the soldiers and police in squads of fifties come to take their coffee, for the night is frosty. We take a bowl of the steaming, aromatic drink, and are right glad for having done so. Straying into the porter's lodge, there is seated before a roaring fire—a comfortable, ruddy face, benevolent looking man—dressed in a suit of faultless black—with an eye glass—his hair is white and bushy, and his whiskers the same. He rises and salutes—we return his politeness.—The porter announces his visiter—M. Heindeindrech—the executioner for Paris. He has just delivered his order to receive and execute by seven o'clock—Jean Baptiste Troppmann, and holds his receipts for the body. Conversation naturally turns upon matters guillotinish, whether that instrument is less cruel, than hanging or the garotte, and if death follows immediately the act of decapitation. Monsieur H—— listens, but only replies when directly questioned. He has unbounded faith in the guillotine, of which he is proud of having "perfected," but he cannot believe that a man is the same for any time, however short, when his head is off, as when it was on his shoulders. It is now four o'clock—one of his two assistants—a retired executioner—enters, salutes his chief, and informs him, the scaffold is ready. He allows us to accompany him on his "tour of inspection." A chance ray of the moon, lights up the horrible engine, with its frightful red arms. The carpenters loll against it, smoking tranquilly. We "mount the scaffold"—below is a squadron of the city cavalry in battle array—with drawn swords—around a triple guard of police—beyond, the multitude who yell like hyenas on seeing us. They imagine the execution will take place in the dark. Monsieur H—— tries the steps—shakes the paling, and nods approbation.—He sees the hampers are in their place—calling an assistant, the fatal plank is put in position, and he explains how the condemned is seized and strapped, and run out "into the eye" of the machine, destined to fix the neck. Next he explains the mechanicism of the springs—he orders the pulleys to be better greased. We examine the blade—nine inches by six, with its sloping, razor edge. On its upper surface is an hundred weight of lead, which when it falls from the height of thirteen feet, will become eight hundred pounds. It is hoist up—"click—click" number one, as a copper spring is pressed. It is only the demi-circle of iron that passes across, and fixes the head in "the eye." Another spring—a rolling of pulleys—and a tremendous "thrud"—the knife has fallen, and the thing you instinctly do after this electric shock, is to feel, are you still owner of a head. The knife is run up—the next time it falls, Troppmann will be no more. With this reflection we enter the prison—it is six o'clock—the condemned still sleeps. The Chaplain

(Continued from first page.)

and M. Claude, look at their watches, the former begs a little more delay. Half-past six we march up stone steps and down others, across yards, and finally before the cell. Troppmann is up and dressed, proceeding to write. In a glance, he understands his position. M. Claude informs him, his petition for pardon is rejected by the Emperor, and he must die. He says not a word, the strait jacket is removed, then the prison uniform,—his own clothes are brought—while putting on his trowsers, he replies, that he [illegible] seated on a bench, the hair is cut from the back of his head—and the collar of his shirt taken off. His legs are strapped together—then his hands behind his back, and another joins this from the shoulders, and throws the chest out. When he rises, his eyes are glassy—the veins of his neck swollen—beads of prespiration in his forehead. It is three minutes to seven—the procession forms—the culprit walks between the priest and Monsieur H———. At the foot of the scaffold he kisses the crucifix and the priest—again declares he had accomplicies. The chaplain kneels, and recites the prayers for the dead—the rolling noise of the crowd comes on, wave after wave. Troppmann is seized by the two assistants—strapped to the plank—with a terrible effort he bounds to one side—the executioner turns him down—is bitten in the thumb—he pushes the head into the "eye"—the semi-circle of iron grasps the neck—an assistant runs, seizes the head—cries "cut"—the pulleys roll, the *glaire* descends, with a dry, dull deadening chic—to be heard every day in a butcher's shop—and all is over. The head is put in the salad basket—a handful of bran thrown on the bleeding neck—the body is dropped into the hamper—both lowered into the van, which sets off, escorted by two of the mounted guard, at a galop.

"Rattle his bones, o'er the stones,
He is only a *murderer*, whom nobody owns."

As the cortege flies along, women bless themselves and men raise their hats. Arrived at the "no man's ground," adjoining the cemetery of ivry, the crowd is great. The gates open—close—the van draws up besides the grave. The body is taken out, thrown into the grave, a man descends, places him on his back—puts the head between his legs. The prison chaplain sprinkles a shovel of earth on the remains—prays, and retires in tears. So many demands were made for the body of the murderer, that the Minister of Police resolved to bury it, beside other beheaded criminals. The college of surgeons had a night of it, but differed as to which branch of the faculty should possess it. Besides, as in the case of Mumble, the priest asserted it would be sacrilege to dissect the body after receiving the sacrament. Troppmann was informed that he must die at half-past six, and he ceased to live at seven o'clock! The surgeons are very angry at not receiving the body—as the executed had a few physiological curiosities, his thumbs for example, which touched the first joint at the index finger.

A very pretty young girl kept a perfumery and glove shop, in one of the Arcades—Verdeau—in the city. The "men upon town" bought her stock several times over. Last week, she borrowed sets of diamonds from several of her friends, and ordered dresses, and et ceteras from several tradesmen. One fine morning the shop was closed—the handsome *blonde* and her servant had boited with all the spoils of the Egyptians—she, however, wrote affectionate farewells to those she robbed. The police are on her tracks.

THE NOR'-WEST.

Row between the H. B. Company and the Rebels—The Company's Stores Seized—General Pillage going on—Business at a stand still—Particulars of Dr. Schultz's Escape—Arrangements for Another Convention.

From the Telegraph's Special Despatch.

WINNEPEG, Jan. 25,
via ST. CLOUD, Feb 8.

On Saturday last a violent altercation took place between Riell and Dr. Cowan. The latter is the officer in charge of Fort Garry, and one of our most prominent men. Riell accused Cowan of tampering with the people, fermenting the misunderstanding and discontent among the half-breeds, and thwarting the plans of the insurgent party. It is said that Dr. Cowan has been working on the half-breeds in an underhand and secret manner. He told them that their first duty was to crush the Hudson Bay Company's officials, and deprive them of all power in the country, and then negotiate with the Canadian Government. Riell charged him with saying that he would make the Fort swim with blood. The dispute ran so high that Cowan swore he would deprive Riell of power, and make the people rise against him. Cowan then assumed authority over Riell, took possession of the officer's mess room and other places. This stirred up some of Riell's friends and a general fight became imminent.

Lepine, one of the insurgent Councillors, had a personal encounter with Dr. Cowan. Lepine is a leading half-breed, and one of the most powerful men, physically, in the Territory. He stands over six feet in height and is a perfect giant in strength. He is not so extreme in his views as some of his compatriots. He seized Dr. Cowan, and after a desperate struggle wrested the key of the sale-shop from his hands, and took possession of the stores of the Hudson Bay Company. The stores were pillaged, and as I write the insurgents are still securing all the loose property they can lay their hands on.

Business is at a stand still, and every one is wondering what will next be done.

On Sunday night Dr. John Schultz, the most obnoxious of the Canadian prisoners, made his escape from Fort Garry, and has not since been heard of. He cut his buffalo robe in strips, tied the strips together, and let them down from the window, and thus effected his escape. After getting out of the building he had to scale the walls, which he succeeded in doing. All trace has been lost of him. It is supposed that he is secreted in the house of some loyalist and that he will be conveyed across the frontier into the United States, and thus sent back to Canada.

The escape of Dr. Schultz has had the effect of inducing the insurgents to adopt a stricter course with the prisoners. Guards have been doubled, and every precaution taken to prevent the escape of any of the others.

Another election of delegates has taken place in order to complete the number of English and Scotch representatives. The delegates from those classes have arrived at the Court House for the purpose of entering into consultation with Riell's delegates, who are also on hand.

The cannons are all loaded and pointed from the bastions at the gates of Fort Garry, in order to be ready for immediate service in case of a counter revolution, which it is feared, may be attempted.

One hundred and fifty insurgents are collected, ready for any emergency. They are fully armed.

Riell still professes a desire to treat and arrange for a peaceful settlement of the trouble.

Judge Black and James Ross, two of the leading representatives of the English and Scotch section, are said to strongly favor reconciliation with Riell and his party.

Riell is said to have arranged his misunderstanding with the American party, and they are now as firm friends as ever.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, FEB. 9.

G. O. L. O. E.—The annual meeting of the Grand Orange Lodge of Ontario East will take place in Belleville on Tuesday and Wednesday, the 15th and 16th instant. The meetings will be held in the Workingmen's Temperance Hall, Front Street.

THE ADDINGTON BEAVER.—We have to acknowledge the receipt of No. 8 of this neat little sheet, which is published weekly in the village of Newburgh by Mr. Cephas I. Beeman. We hope it may meet with better success than has hitherto attended newspaper enterprise in that place.

AMERICAN SILVER.—A telegram from Ottawa says the Governor General will issue his proclamation immediately as authorized by law, ordering that American silver shall only be a legal tender at the rates mentioned in the Finance Minister's circular; half dollars 40c, quarter dollar 20c, and so on for the other coins after 15th April.

DRAMATIC.—At Ontario Hall to-night, the Belleville Amateurs make their first appearance for the season, in the comedy of "Lend me Five Shillings" and the farce of "That Rascal Pat." Both are very amusing pieces, and the satisfaction given by our Amateurs in times past ought to be sufficient to crowd the house this evening.

"THE ONTARIO FARMER."—The copyright of this monthly has been purchased by Messrs. T. & R. White, of the *Spectator* office, Hamilton, by whom it will be published in future, under the editorship of the Rev. W. F. Clarke. The "Farmer" is an excellent periodical, and in the hands of the present publishers will, we feel confident, be greatly improved. For terms, see prospectus in another column.

SABBATH SCHOOL CONVENTION.—As will be seen by advertisement in another column, a call has been issued for a convention of Sabbath School teachers in the County of Hastings, to which Ministers and Sabbath School teachers in the County of Prince Edward are also invited. The Convention is to be held in the John St. Presbyterian Church on Wednesday and Thursday the 16th and 17th instants. A ample provision has been made for the accommodation of all who may attend, there will no doubt be a large number present.

A NEW SURVEY.—We are glad to learn that Dr. Boulter, M. P. P., has succeeded in inducing the Crown Land Commissioner to order the survey of the Township of McClure in North Hastings, and that orders have been sent to Mr. Kennedy, of the firm of Forneri & Kennedy, Madoc, to proceed at once with the work. There are a number of settlers in that Township who will now be enabled to know where their land is. We believe there is some good land in McClure, which will, when laid out into lots, be soon taken up.

—The Dominion Arbitrators have completed their labors in Quebec.

—Francis McCasher, aged 105 years, died at Streetsville on the 6th. He was ill only two days and retained his faculties to the last.

—The City Council of Toronto, have granted a bonus of $100,000 to the Toronto and Muskoka Railway, subject to the approval of the ratepayers.

—Dr. Philion, who accidently poisoned a child named Jordon in Ottawa on Saturday, has been charged with manslaughter, but was admitted to bail yesterday.

Railway Meeting at Marmora.

Pursuant to a requisition presented to the Reeve of Marmora, a meeting of the people was held in the Town Hall, in the Village of Marmora, with a view of taking into consideration the propriety of encouraging railway communication by a bonus or otherwise, on Saturday last, February 5th.

On motion of James Hamilton, Esq., seconded by Julian Bessonette, Esq., the chair was taken by Hugh Jones, Esq., Reeve of Marmora.

Mr. Pearce read the requisition convening the meeting.

The chairman made a few remarks in reference to the question, in which he expressed himself as opposed to granting a bonus until the proposed Railway should be finished or in actual operation, as after making an advance of money, the Railway might not be built at all, or taken away in some other direction, so that the people of Marmora and adjoining townships might not be in any way benefitted.

It was moved by Mr. Hamilton, seconded by Mr. Aunger, "That a Railway from Kingston, through the Townships of Madoc and Marmora, to Peterborough, would be a great convenience and advantage to the rear Townships in general."

Peter Pearce, Esq., of Marmora and Belmont, then delivered a speech in favor of the proposed Railway, and in support of the following resolution: "That the interests of this Township would be greatly enhanced by the construction of a Railway from this place to some point on the Grand Trunk Railway."

P. M. Grover, Esq., M. P. for East Peterborough then addressed the meeting in favor of the same resolution.

The resolution was almost unanimously carried, though various suggestions and difficulties were made by certain parties, as to matters of detail, the substance of which was, that all the objectors were in favor of a Railway communicating with the front, if it could be made to pass their own doors, at the expense of other people.

It was then moved by Mr. Dell Hough, seconded by Mr. B. Johnson, That the municipality of Marmora and Lake be solicited to grant a bonus of $5,000 to any Company which will build the road to some point on the Grand Trunk Railway through this Township.—Carried almost unanimously.

It was further moved by Peter Pearce, Esq., seconded by David Fitchett, Esq., That a Committee of six gentlemen be appointed, consisting of Dell Hough, Thos. P. Pearce, D. G. Bowen, James Hamilton, A. M. Chisholm, and Hugh Jones, Esq's, to carry out the provisions of the foregoing resolution.—Carried.

BENJ. BEDDOME,
Secretary.

Marmora, Feb. 7th, 1870.

Police Court.

(Before A. DIAMOND, Esq., Police Magistrate.)

WEDNESDAY, Feb. 7.

THE LIQUOR LAW.

Decision was given in the matter of S. B. Consaul, of Shannonville, charged with liquor-selling on Sunday, the case being dismissed.

A similar charge against Wm. Power, Canifton, was laid over till Wednesday next.

Pilip Hambly was charged with selling liquor on Saturday night, after 7 o'clock. Three witnesses were examined, but from the unsatisfactory nature of their evidence, decision was reserved.

Charles Mollins was brought up on a charge of selling liquor on Sunday last. There was but one witness for the prosecution, Samuel Jones, of Huntingdon, who testified to having drunk and paid for liquor in Mollins' house on Sunday. The liquor was not served by Mollins himself, but by his brother, who was bar-tender. Mr. S. B. Burdett, who appeared on behalf of Mr. Mollins, subjected the prisoner to a searching cross-examination, during which the witness stated that he had acted disinterestedly in laying this and other informations, his desires being to suppress the Sunday liquor traffic. His intention was to donate his half of the fines to the Protestant churches of different denominations.

Mr. Robt. H. Breakell was then examined for the defense, and testified that he would not believe the prisoner upon oath, as had also been testified by A. F. Wood Esq., in the Division Court at Madoc. Mr. T. A. Holbrook also testified that from his knowledge of Jones' character, he would not believe him upon oath. An adjournment was allowed, in order to enable Jones to obtain witnesses to substantiate his character.

Similar charges against Messrs. F. Fanning and T. A. Holbrook, in which Jones was the only witness, were also allowed to stand over.

Charles L. Coleman was charged with selling liquor without license. As no proof could be adduced, the case was dismissed.

FURIOUS DRIVING.

A charge against Wm. Bleecker for furious driving, was laid over till Wednesday next.

—The Hudson River Railroad was impeded by a snow storm, on the 8th Feby.

—A Rapids Climber has been invented, and patented in Ottawa.

—The Quebec *Chronicle* contains over 50 advertisements of Houses to let and sell.

—A fire in Kingston on the 8th of February, consumed a number of buildings.

—Rev. Mr. Chiniquy, has been preaching in Kingston.

—Next season a weekly mail is to be established between Collingwood and Fort William.

—The small pox is raging among the Indians at Morias River, and that 25 are dying daily.

—The estimate for 1870, laid before the New York city council, is only $9,854,349.

—The Quebec Marine Insurance Company, has declared a dividend of 10 per cent.

—Three men were killed by the falling of a sand bank, on Logan's Farm, on the 7th of February.

To the Editor of the Daily Intelligencer.

The True Shamrock.

DEAR SIR,—In your issue of yesterday I saw a paragraph on the above subject in which it is said to be a doubtful question as to what is the true shamrock. Having pursued the study of botany at home with some degree of ardor, and never before having heard of any doubt on this subject, I may be allowed to state that the "Oxalis acetozella," or "wood sorrel," is always taken for the shamrock on the other side of the Atlantic. The little wood sorrel is a trefoil like the various species of clover, and except on a close examination might be taken for the "trifolium minus," or small clover; but the leaves are of a more transparent nature, and not unfrequently being of almost a purple tinge on the under side. The flower also has not the slightest resemblance to any of the clovers, as it is something like a cup in shape, often striped on the outer side of the petals. Many of your readers are no doubt well acquainted with this modest little 'child of the wood,' and as well as the writer would be sorry that any other plant should usurp the honors of

"The chosen leaf of bard and chief,
Old Erin's native Shamrock."

I may add in conclusion that the "oxalis acetozella" is not found in North America.

Yours, &c.,
W. C.

Belleville, Feb. 8, 1870.

For the Intelligencer.

The Dunkin Act.

The first Public Meeting in connection with the Dunkin Act for the Township of Sidney, was held in Frankford on the 8th inst. The large M. E. Church was crowded to excess by a most intelligent and highly respectable audience, among whom was a large sprinkling of the fair sex. Among those present we noticed the Reeve, B. Rose, Esq., Councillor, J. Row; John S. Huffman, Esq., B. Mallory, Esq., R. Cotter, Esq., P. Turley, Esq., and other prominent electors of Sidney. After Mr. Thos. Howard had been moved into the chair, addresses in favor of the passing of the Dunkin Act were and Rev. P. Knox. All the speeches were of a superior order—calm, argumentative, and logical; and the audience frequently showed their appreciation of points, made by enthusiastic applause. Although frequently the Chairman gave opportunity to the opposition to show cause why the Dunkin Act should not be passed, yet there was none so poor in common sense and reason as to say a word in that behalf. The delivered by S. D. Wilmot, Esq., W. W. Dean, Esq., Geo. D. Dickson, Esq., J. J. B. Flint, speeches finished, it was moved by Dr. Oronhyatekha, seconded by Mr. J. Chapman, that this meeting, "having heard the speeches to-night, pledge itself to give the Dunkin Act a vigorous and hearty support at the Polls on the 26th inst." This motion on being put was sustained by at least three-fourths of the electors present. After this a large working Committee was appointed to make all necessary arrangments for the polling day on the 26th inst. Frankford is determined, and will give a large majority for the Dunkin Act.

VERITAS.

Frankford, Feb. 9, 1870.

For The Intelligencer.

MR. EDITOR,—I wish to certify that I have found Dr. James to be the most skilful Physician in the County in cases of Consumption. After trying nearly all the so-called first class Physicians in the County, I still continued to get worse. I had almost despaired of being cured. I had been in a very low state of Consumption for nearly two years, and found no relief until I took Dr. James' medicine, and now I am as well as ever I was in my life, and can do as good a day's work as any man.

Yours respectfully,
JOHN JONES.

Lot 4, Con. 3rd, Huntingdon.

P. S.—Any of my neighbors can testify to these facts.

To the Editor of The Daily Intelligencer.

MR. EDITOR,—Having had the pleasure, on the 2nd and 3rd inst., of witnessing the performance of the Stirling Amateur Theatrical Troupe in this Village, given as a complimentary benefit to Mr. R. M. Roy, as Scenic Artist of the Company,—if you will allow me a corner in your journal, I would like to make a few remarks on the subject.

The play each night consisted of two parts: "The Idiot Witness, or Tale of Blood," and "Hunting a Turtle." The dress, demeanor, and performance of the actors, in each piece, were very much admired and drew down the applause of the house. The characters in the first piece were very difficult to sustain, but still were elegantly performed. Those in the latter being of a more amusing turn, attracted as a matter of course greater attention. The scenery, which displayed exquisite skill, was the work of our talented young friend, Mr. R. M. Roy, a gentleman possessed of rare skill as an artist, of a theatrical taste of the highest order, and to whose suggestions and kind services, the existence and success of our Dramatic Association are in a great measure indebted. His splendid talents would, I doubt not, if exercised in a wider sphere, entitle their owner to a position high on the roll of artistic worthies, and lead to honor and to fame. But, alas! he like many others, suffers his mental treasures to lie buried in obscurity, and to be one of those to whom are applicable the words of the poet:

"Full many a flower is born to blush unseen,
And waste its sweetness on the desert air."

I am, sir, respectfully yours,
S. L.

Stirling, February 7th, 1870.

—Schupkezel a pedlar, at Port Colborne, was killed by the upsetting of his sleigh on the 7th instant.

—Frank Newton and Edward Packhem, were drowned on the Bay, opposite Toronto on the 6th February.

—Five negroes were lately taken from a jail in Huntingdon, Tennessee, and shot by the mob. They have been guilty of murder and rape.

—Judge Davis has introduced a Bill in Congress, to confine the issue of naturalization papers to the United States Court. This is to prevent foreigners from becoming citizens too easily.

—For the fortnight ending, Feby. 7th, there were shipped from Kingston to the United States, 12 horses, 45 cows, 70 hogs, 7 tons of meat, and 7,610 lbs of butter. Total value $5,-860 25.

The Messrs. Allan have contracted with Messrs. Robert Steele & Co., shipbuilders, Greenock, to build for them another screw steamship of 4,500 tons, 370 feet in length, and 42 feet in breadth of beam, for their Liverpool and Montreal mail line. The new vessel will be called the *Assyrian*, and will be the thirteenth of the Allan "Liverpool" line.

NOTICE.

APPLICATION will be made to the Parliament of the Dominion of Canada at its next Session, for an Act to revive the Charter of the GRAND JUNCTION RAILWAY COMPANY, and to place the said Company in the same position it held before its amalgamation with the Grand Trunk Railway Company of Canada and with power to make arrangements with said Grand Trunk Railway Company for Station and other accommodation at Belleville, and for other purposes connected with said Railway.

Also for power to build said Railway of such gauge as may be most expedient; and for such amendments to said Charter as to the route, the character of the Railway, &c., as may be thought best.

Also for power to the Municipalities interested in the construction of said line, to grant bonuses, &c., to aid its construction; and for other purposes.

THE LATEST

OPENING OF PARLIAMENT.

THE QUEEN'S SPEECH.

THE IRISH QUESTION.

THE DEBATE UPON THE SPEECH.

THE MEMBER FOR TIPPERARY TO BE EXPELLED.

HOUSE OF LORDS.

LONDON, Feb. 8.—The second Session of the 8th Parliament was opened to-day by Royal commission, composed of the Lord Chancellor, Earl de Grey and Ripon, Lord Sydney, and the Earl of Bessborough. Only a few Peers and Peeresses were present.

At two o'clock the Commons were summoned to the Bar of the House of Lords. Lord Cairns then read the Queen's speech. At the conclusion of the reading the Marquis of Huntley, who was in full Highland costume, moved an address to the Queen, and the motion was seconded by the Earl of Fingall.

The address refers almost solely to the Irish question. Appeal is made to the House of Lords to treat the question generously and justly, content tenants, and give peace and prosperity to the population.

The Lord Chancellor said he regretted the absence of the Queen, and hoped she would soon be well. The relations of Great Britain with foreign powers were satisfactory, and it was unfortunate that the Queen's speech made no allusion to the affairs of the Colonies, there well-being not being a matter of indifference. He also regretted the absence of any reference of distress prevailing in the country. It would have been well to have told sufferers their case was understood and sympathy felt for them. The reference to national education was commendable, but he was amazed to see Scotland and Ireland left out of the scheme. After commenting briefly on other topics of the speech, the Lord Chancellor gave way to a motion for adjournment.

The motion to adjourn was not carried.

Earl Grenville rose and congratulated Lord Cairns on resuming the leadership of his party in the House of Lords. He then went into a vindication of the policy of the Government in Ireland. That policy was already producing the best effects. Government had been unremitting in its efforts to establish order. Scully's case was among the earliest of agrarian outrages, and was universally reprobated. He justified the course pursued towards Madden, who refused to serve the Sheriff; and ended by deprecating the presence of party feeling in the discussion of the land question.

Earl Grey feared that the action of last Session had pursuaded the Irish that the House was intimidated. Nothing was left but vigor in the maintenance of order.

The Duke of Marlborough deprecated any forbearance. The remedial measures of the Government were a failure, and now visionary hopes were rampant.

Lord Monck replied to Earl Grey by quoting the speech made by him in 1846, in which he expressed a preference for remedial to coersive measures. Lord Monck thought the Ministerial plan was effective.

With this speech the debate closed and the address was agreed to.

Lord Redesdale was re-elected Chairman of Committees of the House of Lords.

The House then adjourned.

HOUSE OF COMMONS.

In the House of Commons, many new members were sworn in, and a new writ of election for Dublin University was issued.

Mr. Gladstone, on entering the Chamber, was vehemently cheered. One of his first official acts was to give notice that he should move for the expulsion of the member from Tipperary, because he was under sentence of penal servitude, and the seat was consequently vacant.

Notices were also given of the introduction of the Irish Land Bill, the Education Bill, and Bills for the Abolition of Compulsory Pilotage, and for the Repeal of the University Clauses in the Reform Bill, in accordance with the arrangements previously announced.

Capt. Francis Egerton, member for East Derbyshire, moved the reply to the Queen's speech, and supported his motion with a few remarks, he said the programme was most satisfactory. The royal speech was marked by care and ability; the measures promised were sure to be framed with care and prudence, and debated without faction, and he was confident they would have the approval and support of the House.

Mr. Charles Wenthworth Dilke, member from Chelsea, seconded the motion. He declared that the programme of the Government was the most elaborate ever laid before the House. The country required that they should carry out the measures proposed, including the abolition of the University tests. He hoped for legislation, also on Trades Unions and other social questions. He was confident of the justice and fairness of Ministers in all things.

Mr. Disraeli then rose to speak, and was heartily cheered. He thought the discussion of important topics at such a moment untimely. He would only refer briefly to Ireland.—The Government tardily admitted that the state of that country was unsatisfactory, and made reforms consequent on future laws. Ireland was full of dissatisfaction, murder and secret societies. The Government was found to introduce old excuses like that of the partiality of Irish justice, which were now inadmissable. Loyalists were depressed and insulted, and Catholic Priests heartily supported the Government. Trade in this agitation was made desperate by the Whig policy. Fenian influence, which had originated in America, and had been checked by the Marquis of Abercorn, when Lord Lt. of Ireland, was now reviving. The land tenure still remained unchanged, and therefore could not be held responsible for the troubles, unless Ireland had bodily gone mad. She certainly cherished hopes suggested by the Government which it would be impossible to realize.

Mr. Gladstone replied. He admitted the difficult position of the Government. Their opponents indeed admitted the gravity of the situation, to remedy which the present may be the last opportunity. He complimented Mr. Disraeli on the moderation of his Government. This Government he added desired to try further remedies. He ascribed the tone of Mr. Disraeli's speech to a wish to satisfy extremes and a raving for coercion. He eulogized the Catholic Clergy of Ireland for their loyalty and good sense. The present Government, he declared, was misunderstood in Ireland. He proceeded to answer, seriatum, the charges made by Mr. Disraeli, and concluded with the declaration that he was conscious of having fulfilled his intention of seeking in all frankness and fairness, conciliation, rather than opposition.

After desultory speeches from new members and others, the House adjourned.

COMMERCIAL.

LONDON, Feb. 9.—Consols closed at 92⅝ for money; 92⅝ for Account; 10-40's 84¾; Erie 20; A. & G. W. 27.

LIVERPOOL, Feb. 9.—Flour 19s 6d; red wheat 7s 3d 7s 4d; red winter 8s 3d; white 8s 10d to 8s 11d; European corn 26s 6d; Barley 5s; Oats 2s 5d; Peas 34s; Pork 97s 6d.

TROUBLES.

PARIS, Feb. 8, 8 a. m.—The troubles at Belleville lasted all night, and have extended northward to La Villette, the extreme north-eastern *arrondissement* within the fortifications. The troops have not yet resorted to firearms. The police have been active, and made many arrests. Beyond the excitement naturally incident to such an occasion, the rest of the city is tranquil. The Government still continues its precautionary measures to prevent outbreaks elsewhere.

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO, LINDSAY, ONT. 221-2w

The Ontario Farmer,

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietor's interest in it, and become its publishers, in the belief that this region of country second to no part of Canada in agricultural and horticultural resources and progress needs and will *ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

THE BEST IN THE WORLD.

The Scientific American

$1,500 CASH. **For 1870.** $1,500 CASH.

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country, *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS.—AMERICAN INVENTORS."

the plate costing nearly $4 000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞1,500 Cash Prizes.☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms two dollars and fifty cents per annum. Specimen copies sent free, address the Publishers MUNN & CO., 37 Park Row, New York.

How to get Patents.—A pamphlet of Patent Laws and instruction to Inventors sent free.

Dairymen's Association.

CORN AS A FEED.

Corn for Soiling was the first subject taken up, though not first in order. Mr. Galway had used it and found it advantageous as green food when pastures were short, and when it was cured and fed dry it was more nutritious and productive of milk than the best hay. His method of growing it was to plant on sod ground, ploughed and harrowed, in drills 16 inches apart, using two bushels or two and a half for seed per acre.

Mr. Bailey also testified to the value of this fodder, but his mode of culture was somewhat different. He chose rich ground, setting the rows as much as three feet apart, using three bushels of seed to the acre, and cultivating assiduously.

Mr. A. Garner, of Drummondville, had found the best results from sowing the corn broadcast.

Mr. James would not sow far apart, preferred sod land, was careful to put in the seed early, by about the 28th of May, and if possible, not later than the 2nd of June. Had cut the crop last year with a reaping machine, the process by hand being tedious and expensive; had harvested with the reaper about four acres a day; preferred to cut while the plant was yet green and juicy, about the first of September. After cutting left it for three or four days on the ground, then gathered it and piled it in shooks or stooks in the usual way, hauling it away by a team and chain during the winter, as it was wanted. By this feed he estimated more cows could be raised on the same land, one acre of corn being equal to five acres of meadow, and not more exausting to the soil than grass. The Western corn was the variety best adapted for the purpose. It was to be procurred from the Western States, and recommended the purchase of selected seed corn.

HOOF DISEASE.

A paper on this subject was read by Mr. Harris. The disease affects only the hind feet, is attended with inflammation, suppuration, and sometimes results in the loss of the hoof, and prevails most in the winter. The treatment he recommended was making a couple of incisions on each side of the leg above the hoof, and inserting into the cut red precipitate and garlic.

Some desultory discussion ensued, and it was evident that there was not a sufficient discrimination in the nature of the disease, which was by many confounded with foot and mouth disease, or with the effects of inflammation and gangrene from frost. Mr. Willard said that the method of treatment adopted in Herkimer County was either corrosive sublimate applied to the sores, to promote suppuration, or red precipitate applied to the surface without any cutting of the skin.

BEST BREED OF CATTLE.

The question of the best breed of cattle for the dairy was slightly discussed, Mr. James giving the preference of grade to Durhams, and Mr. Farrington, looking more at the milking quality than the breed, preferred on the whole cows of comparatively small size.

SALT.

On the subject of Salt it was generally conceded that the quality of the Goderich Salt would be superior to any if it were only dryer. In consequence of the defect of moisture, preference was given by some to the best Onondaga or the Liverpool dairy salt.

Alluring.—A young butcher allures customers to his shop by announcing on a glaring sign that he "slaughters hogs like his father."

How to Make the Winter pass quickly.—Give a note to the bank for ninety days, and spring will come as soon as you are prepared for it.

COUNTY OF HASTINGS
Sabbath School Convention.

THE First Sabbath School Convention of the County of Hastings will (D. V.) be held in the John St. Presbyterian Church in Belleville, on

Wednesday and Thursday,
the 16th and 17th of February,

Commencing at 2.30 p. m. on Wednesday. Ministers of the Gospel and two Delegates from each Sabbath School within the County of Hastings are cordially invited to attend and take part in the proceedings of the Convention.

Ample provision will be made by the Christian people of Belleville for the reception and comfort of the Ministers and Delegates attending the Convention.

In order that Ministers and Delegates may be properly provided for, it is important that the Secretary be duly informed of the names of those who intend to be present. Delegates will therefore please to have certificates duly filled up and forwarded to the County Secretary—Chas. Martin—not later than the 8th of February.

Ministers and Sabbath School workers from the adjoining County of Prince Edward are also cordially invited to be present, for whom also (due notice being given to the Secretary) the Committee will provide homes.

The introduction of the following subjects for discussion has been placed in the hands of competent Sabbath School workers, the aim of the Committee being to draw out the talent we have in our own County:—

SUBJECTS:

- County Conventions—their work.
- Aim and object of Sabbath School Teaching.
- Duties of Parents to the Sabbath School.
- Encouragements to labor in the Sabbath School.
- Teachers' Meetings and how to conduct them.
- Establishment and organization of Sabbath Schools.
- How can we best retain our Senior Scholars?
- How to conduct a Sabbath School Session.
- The Blackboard.

CHAS. MARTIN,

Belleville, Jan. 27, 1870.

P. S.—Any Sabbath School in the County failing to receive circulars from the Secretary will please to appoint their Delegates and send notice thereof to the Secretary.

Chronicle copy twice. 202d1-51w2

THE DAILY INTELLIGENCER

BOOK AND JOB

Printing Office.

THE public are informed that in connection with THE DAILY and WEEKLY INTELLIGENCER Newspaper, we have one of the best appointed

JOB DEPARTMENTS

Fortieth Year.
GODEY'S LADY'S BOOK
For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets, PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Billious Headache, Sick Headache, Jaundice** or **Green Sickness, Billious Colic** and **Billious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

General Agents for Canada,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's
Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

INTELLIGENCER BUILDING,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years; and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL,

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this mervelous remedy, known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first, at our own risk,

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED attacks if exposed.

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to cast their bread upon the waters to return after many days, who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity, [illegible] that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS that are common to all, the Ready Relief in a few minutes will stop

---

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the [illegible] Ague Cures and Private Practice, pay the penalty of an gorged liver, fat spleen, disordered kidneys, [illegible] colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits, will give you equal in quantity and superior in quality to 144 bottles of the 25 cent [illegible] Pain Killers, Embrocations, Panaceas, [illegible] &c., all these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least ($25) twenty-five dollars, [illegible] you to purchase prescriptions or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels.
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Billous Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews, - -	$4.00	per annum.
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - - -	10.00	"
For Blackwood and three of the Reviews, - - - -	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two of the Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, THURSDAY EVENING, FEBRUARY 10, 1870. No. ~~310~~ 24

Resuscitation of an Executed Murderer.

The Louisville *Commercial* of January 26th, tells the following very extraordinary story:

It is well known that the unfortunate Kriel who suffered death—or was supposed to have done so—last Friday, went to his doom grim, implacable and unnaturally firm. It was well known that his desire to live was paramount to every other earthly desire. His bearing on the scaffold was so unnaturally calm that those who stood near him thought the man did not realize that death was so near, but still clung to life with a terrible tenacity.

When the rope that held the trap was severed and the body fell it was a subject of remark that the closed hands and position of the legs and feet remained entirely unchanged, showing a tremendous exercise of will and control of nerve. The neck was not broken, neither was the rope drawn so closely about the man's neck that its mark could be distinguished, nor was the skin chafed a particle. Gen. Whittaker, who was present at the execution, by the request of the prisoner, and who examined the body as it hung, declared in the hearing of those in the vicinity of the scaffold that pulsation in the carotid arteries of the neck was discernable after the gaol surgeon and his assistants declared life extinct.— No one can question the General's judgement and discretion, and when he placed his fingers on the arteries and declared there was circulation still discernible, in opposition to the opinion of the medical practitioners beside him, many felt that there might be grounds for the apprehension that the criminal would evade death.

The circumstances favoring this remarkable story are strong and closely connected. After hanging some minutes Kriel's body was placed in the coffin. The limbs remained flexible, the hands opened with the least persuasion, and were crossed on his bosom. The eyes, that stared half open when the black cap was withdrawn, remained closed after the slight touch upon them, and the face assumed an appearance of mobility and rest. The red flushing in the cheeks came back to a certain extent, and the dark coloring on the neck, under the knotted rope, partially disappeared. The short time that elapsed between his being placed in the coffin and being driven away was also a subject of remark. No one seemed to have any charge of the body, and it was driven away in a lonely hearse to the vault at the cemetery.

Now came the closing scenes in this strange story:—Near midnight a light waggon was driven rapidly out of Walnut street, in which were seated three muffled, silent figures, one of them a surgeon of great experimental knowledge—a firm believer in the theory of resuscitation of animal life through the galvanic process. In the waggon were a mattrass and several dark blankets. The waggon halted near the cemetery fence; the horse was held by the driver and two men went to the vault, carrying between them a large sack, well filled. In a short time they returned, bearing between them a motionless figure, shrouded in a blanket. The figure was placed on the mattrass, and in silence the waggon was driven back to the city. The body was conveyed to the surgeon, where some ten or twelve excited and expectant students stood anxiously awaiting the arrival of the strange party. The body was placed in a recumbent position on the table, the clothing unloosed, the chest extended and an incision made in one of the veins of the arm. At first but a small drop of dark-coloured blood came forth, but repeated incisions and manipulations of the body caused it at last to trickle forth more freely.

The galvanic battery was applied, and horrible and wonderful to relate, in less than fifteen minutes the warm blood commenced to course through the chilled body, and at last the eyes were opened. The students stood appalled and could hardly realize the extent of the demonstration before them. One of them spoke to Kriel, asking him, 'Are you sensible?' The eyes answered expressively and the lips opened ineffectually, for no speech came forth. Stimulants were poured down the throat of the revived criminal, and in less than one hour after he had been placed in the surgery Kriel sat up and asked them: 'What have you done? Am I alive?'

The consternation, and yet the professional delight of the spectators was loudly expressed. The experiment of a reckless class of students and an able experimentalist had resulted in the resuscitation of a man who had been hung a short time previous. Steps were immediately taken to save the life of the wretched man. Justice had been satisfied by the public execution, though life returned. Why should they deliver up what had so providentially and wonderfully been restored? None of Kriel's personal friends were notified. Strangers disguised him, furnished him with means, and by daylight a man, weak and tottering, but firm and immoveable in his demeanour, crossed the river and was last seen by a watchful, silent friend, who kept near him on the train leaving Seymour, Ind., on his way to an unknown, but it is hoped better future.

Prince Arthur in New York.

From the New York Herald.

Prince Arthur has been with us for a week, or all but a week. He has behaved well, very well. We had no absurd expectations; but our expectations have been met in a very agreeable shape. The Prince has seen the best of New York society. Our best people have been kind, thoughtful, considerate. The Prince has been sensible, wise, judicious. We have all learned to admire a young, well-bred, well conditioned gentleman. We do think that Prince Arthur, on the other hand, has had good reason to admire our New York society. We have every reason to believe that he does. In the Prince's judgement New York has no cause to be ashamed of London. Whatever may be the future of Prince Arthur he will never have any reason to think or speak lightly of our republican institutions, at least in so far as these are reflected in our better social centres. This, however does not fully state the case. New York is notoriously the hot bed of Fenianism, although we do not know if there be a live Fenian in our city. Some journals, disposed to talk wildly always, did speak of Fenianism, and did go the length of suggesting danger. With a lively remembrance of Fenian troubles in Great Britain, and not wholly forgetful of his brother Alfred's experience in Australia, Prince Arthur, if he had not, might have had some fear to show himself in our streets without a body guard. But he has shown himself, he has walked our streets, he has driven through our magnificent Park, he has gone to our theatres, he has even been brave enough to appear at our firemen's ball, and no voice has been rude, no hand has been rough except in the way of hearty greeting. We have no doubt that the Prince is a good and faithful correspondent, at least to his excellent mother. Each successive mail and occasionally a telegraphic despatch convey to Windsor or Buckingham or Osborne young Arthur's thoughts. It would not surprise us to learn that the Prince has been telling his mother that he is half converted to republicanism. Gentlemen without titles he has found to be gentlemen. Ladies without coronets he has found to be both beautiful and accomplished. As for Fenianism, he has not seen it. The warmest words he has heard, the heartiest grips he has experienced, he will ever associate with the sons and daughters of Erin. In any case he will ever have to confess that the American people, as a whole know and fully understand the meaning and practice of hospitality. Of the value of republican institutions it is long since all the people of Europe were convinced. It is something to know that we begin to convince princes. Princes as princes we care little for; but youth, good birth, good breeding, good looks, spirit, pluck and genuine manhood we admire and honor.

Passenger Cars in the United States.

Mr. Potter, President of the Grand Trunk Railway, in his account of his visit to this country, given at the half yearly meeting of the Company, held in London last Dec., said:

"If our passenger accommodations were more equal to the requirements of the luxurious travelling public—for the Americans are becoming an extremely luxurious people—I am satisfied there would be a very rapid increase in the passenger traffic of the Grand Trunk— * * It is evident to me that a great change has come over the habits of the travelling public in America. The first train I went into at Boston, was practically a first, second and third class train. The first class was called a Palace or Drawing Room car, richly furnished, with state rooms for privacy, and saloons for society. The ordinary car which ten years ago, was the only car suited to the simplicity of the manners of the Republic, was the second class, and the emigrant, was the third class. Throughout the West, the habits of travellers are still more luxurious—it is difficult to describe the extraordinary luxury of one of Pullman's Palace cars, which make the journey from Omaha to San Francisco. The public will go thirty or forty miles around, and will pay almost anything to ride in them; and the railways that do not have them are neglected. * * Mr. Pullman's largest cars cost about £4,000 to £4,500 sterling, and they are as superior to the ordinary first-class carriage on the London and North Western, or the Midland, as those are to the old stage-coach. You may sit in the society of your fellow-passengers, if you like, or if you want privacy, you may get it in a charming state-room. In the San Francisco train Mr. Pullman has introduced an organ car; and every day, during the trip across the Rocky Mountains, after dinner—which you get as good as you do at the *Cafe Dore* in Paris—ladies and gentlemen resort to the organ-car for an afternoon concert."

Daily Intelligencer.

BELLEVILLE, THURSDAY, FEB. 10.

Y. M. C. A.—The Rooms of this Association are now almost finished, and present a very comfortable appearance. A large attendance of the members is requested to-night at half-past seven o'clock, business of importance will be transacted.

GRAND TRUNK RAILWAY.—The Grand Trunk Railway Company have commenced booking through to China and Japan *via* Grand Trunk, Michigan and Union Pacific Railways, and Pacific Mail Steamers from San Francisco. The places they are at present ticketing to are Yokoma and Hiogo, Japan, and Hong Kong, Shanghia, and Nagasaki, China. First-class and emigrant fares are about as follows: In gold, to Yokohoma, $370 and $135. To Hiogo, $410 and $150, and to the others $420 and $150. Steamers leave San Francisco for China and Japan on the first of each month. The trip takes about three weeks from Monteal to China.

MISSIONARY MEETING.—The annual meeting of the Wesleyan Missionary Society was held in the village of Marmora, Monday evening, 7th. Mr. Beddome in the chair. After singing and prayer by the Rev. Mr. Howell, the chairman made a few appropriate remarks, and was followed by the Rev. Mr. Doxsee, who read several extracts from the last annual report, bearing upon the subject of Missions. Speeches of an interesting and instructive character were then delivered by the Rev. J. E. Howell of Canifton, Mr. Carr of Stirling, and Mr. Norton of Bannockburn. A collection was taken up, and subscription lists entered into. It would appear that Wesleyanism in Marmora is making good progress. Many new members having been dded during the last few months, and a lot of ground purchased and paid for, upon which to build a church at an early period. A commodious Parsonage has also been built, at a cost of $700, which is already paid for, within about $100, and all this in addition to funds raised for the support of the Marmora Mission, the Missionary Society, &c. The proceedings were enlivened by music of a superior order, both vocal and instrumental. The meeting was closed by singing the Doxology, and the Rev. Mr. Carr pronouncing the benediction.

CHARGE OF FORGERY.—A respectable looking and well dressed man, was arrested yesterday on a telegram from the Chief of Police at Napanee, on a charge of forgery, and gave his name as O. F. Parsons, stating his residence to be St. Catherines. He was brought before the Police Magistrate, and through his Counsel, Mr. M. Jellett, claimed his immediate discharge, on the grounds that the law does not warrant an arrest on a bare telegraphic dispatch, and that assuming it sufficient, contended evidence should have been given that the message produced was received by a telegraph operator. The objections being overruled; bail was offered and refused until after the arrival of the eastern train, when, should an officer not arrive from Napanee claiming him, he was to be admitted to bail; but as the cars brought such functionary, armed with a warrant from the Mayor, the prisoner was handed over and taken down by the midnight train. One Brown prefers the charge, which consists of forging the name of one McGaughey, to a note for $97, payable to the order of one E. D. Simpson. The examination was to take place at Napanee to-day. R. P. Jellett, Esq., accompanied the prisoner to Napanee to watch the case for him.

AMATEUR THEATRICALS.—The Belleville Dramatic Association, made their first appearance this season last night in Ontario Hall. The pieces selected were the Comedy "Lend me Five Shillings" and the roaring farce "That Rascal Pat." Both were very well put on the boards, and the frequent applause showed that the efforts of the performers were thoroughly appreciated. Mr. King in the comedy, and Mr. H. L. Henderson in the farce, took the leading parts and their excellent acting showed very plainly that they had devoted a careful study at their respective *roles*. In the course of the evening it was announced that a tragedy, "The Apostate," had been prepared by the association, but that on account of one of the leading performers having been suddenly called away, it was necessary to postpone its representation to a future occasion. We must not forget Mr. Henderson's admirable rendering, of "Vilikins and his Dinah" in character, which was given as an *entr' acte*, and loudly encored. The acting of Mr. Whatmough, who sustained the principal female character in each piece was deservedly applauded.

—The complimentary dinner, on the occasion of the return of Mr. J. Ross Robertson, of the Toronto *Telegraph*, took place on Saturday night at the Terrapin Restaurant. About 100 of the employers and others were present, including Hon. J. Sandfield McDonald, Hon. M. C. Cameron, J. Wallis, and F. Cumberland, M. P. Ps. The affair was a complete success.

—In answer to the New York *Tribune's* recommendation to the starving artizans of New York, 'Go into the country and dig.' A correspondent writes to the journal and says:—'There are at this time in the farming districts of New York 100,000 idle men asking employment.' Hardly a day passes without fresh evidence being afforded of the poverty and want that exists in the United States. In New York city the men out of work are in thousands; in the rural districts the same cry is raised; and from the west we hear the same story continually repeated.

Extraordinary Statement.

The Ottawa Evening *Mail* of the 7th February, a newspaper lately started in Ottawa in the interest of the opposition, gives publicity to the following extraordinary statement, which we advise our readers to accept with great caution. The story is altogether too improbable for belief:—

"The Red River insurrection has been fruitful in extraordinary developments; but one circumstance which has lately come to our knowledge gives such a singular illustration of the manner in which certain members of the Cabinet compass their ends, that it is well the public should be made aware of it. It appears that during a parley between Mr. Provencher and some of the insurgents, the latter stated that there were certain French members of the Dominion Cabinet who not only sympathized with them in the rebellion against Mr. McDougall, but had been in communication with them. Mr. Provencher asked who they were, and, in answer, was requested to name the French members of the Government. He named Sir George E. Carter, Mr. Langevin, and Mr. Chapais; and was told that one of those three, particularly, had caused it to be conveyed to the French population at Red River, that if they resisted the entrance of the Hon. Wm. McDougall into the territory, it was probable that a purely French system of Government would be established there. Collateral circumstances have brought the onus of this conspiracy home to Mr. Langevin, and proved that before Mr. McDougall had reached Pembina, the effects of this perfidious action had borne fruit in the revolt of the half-breeds. This piece of secret history is without a parallel for perfidy and double-dealing on the part of a sworn Minister of the Crown. Were we not in possession of the most undoubted evidence of the correctness of the story we would hesitate to publish it."

It is somewhat strange that neither the *Times* nor *Citizen* of Ottawa, both Government organs, say one word in refutation of this serious charge. The evening *Free Press* however, also a ministerial paper, says:

"There is reason to believe now that the one member of the Dominion Government, to whom Mr. Macdougall referred in his speech at Almonte, as having plotted against him, is not the Hon. Mr. Howe, but Mr. Macdougall's successor in the Public Works Department, the Hon. Mr. Langevin. We shall know about it when parliament meets. On the whole we are glad to think that Mr. Macdougall has no serious complaint to make of Mr. Howe. It seemed a most extraordinary thing that the latter should have acted the part attributed to him. The saddle it seems is going to be placed upon another horse, one of a different color altogether—much darker."

The Ottawa *Courier* referring to the *Mail's* charge, gives the following explanation:

"The *Evening Mail*, making the astounding discovery that the Honorable the Secretary of State, Mr. Langevin, has been the whole cause of the insurrectionary movement in the interest of the church. Such a charge made against the Honorable Hector Langevin, C. B., would almost [illegible] it not for the evil which such allegations, in a social sense, produce. They tend to a belief that English and French interests are not identical in the Dominion; that there is an antagonism somewhere; and that the public business must be conducted with a regard to the separate interests of a French, and of an English speaking people. Already it has been stated in this journal that it would be a very curious circumstance if the French members of the Cabinet did not feel an interest in the French residents at Red River. They certainly do take a very great interest in the welfare of these inhabitants and are most anxious to ascertain of what they have to complain. They have gone further, and have induced a Vicar General—the Rev. Mr. Thibault, and a Col. DeSalabery to make it their especial business to ascertain the present condition, the wants, and the wishes of the French settlers and to point out to them what will be gained by the political union with Canada. This, however, was after the retreat of the Governor, who had fears for his personal safety, not before. There is not the shadow of a fact to show that, previously to the disturbances in the North-West, Mr. Langevin took even the slightest interest in the Red River territory beyond that very particular interest which as a loyal minister of the Crown he could not help feeling with regard to the increased boundary of the Dominion, and the extension of British power on this continent."

This is not the kind of denial necessary under the circumstances. The charge is a a serious one, and requires a positive refutation. It may be that the Ottawa papers look upon the *Mail* as unworthy of notice, but these stories go to the world and find believers. If not true, it should be set right at once.

Belleville and Peterborough Railway.

The following letter written by Thomas Kelso, Esq., President of the Board of Trade, was read to the County Council of Peterborough at its last session:

BELLEVILLE, 25th Jan., 1870.

Timothy Coughlin, Esq., Reeve of Asphodel, Peterborough.

MY DEAR SIR,—In compliance with a letter of the 20th inst., received from Mr. Jas. S. Fowlds, Chairman of the Railway Meeting recently held in the Township of Asphodel, I beg to say that I have been conferring with the members of the Board of Trade of Belleville, with a view to the resuscitation of the Grand Junction scheme for constructing a line of railroad from Belleville to Peterborough and westward.

We are satisfied that the charter can easily be obtained from the Grand Taunk.

As it would benefit materially the Town and County of Peterborough, we desire to know in the event of the project going forward, what assistance the County of Peterboro' would be disposed to give to this scheme.

It is desirable to have this information at once. I am therefore requested to ask you to bring the matter before your County Council at its meeting to-morrow, and to request further that you will advise me of the result.

The County of Peterborough and particularly the Township of Asphodel are deeply interested in the success of this scheme. I hope, therefore, it will receive your earnest attention.

And remain,
Yours respectfully,
THOS. KELSO,
President of Board of Trade.

After some discussion, a resolution was passed, a copy of which has been received by Mr. Kelso, and is as follows:

Moved by Mr. Hunter, and seconded by Mr. McDonald,

"That the Clerk of this Council be instructed to convey to Thomas Kelso, Esq., President of the Board of Trade at Belleville, the thanks of the Council for the commendable energy displayed by him and the other members of that body, in endeavoring to open up Railway communication with this county, and further to inform them that this Council feels much interest in other projects of a similar kind, which will greatly add to the prosperity of this county. And wish that the several projected schemes conducive to the prosperity of this county, will be in such a position as to warrant this Council in thoroughly discussing the question of granting aid at its next session."

In our report of the meeting held in Belleville, the Townships of Seymour and Asphodel were represented as likely to give bonuses of $20,000 and $25,000. It should have read $50,000 each.

To the Editor of the Daily Intelligencer.

Poor and Sanitary Committee.

DEAR SIR,—Please allow me space to expose a wrong and an unjustice in that department of our Town Council called the Poor and Sanitary. It is to be hoped that those of the Council who caused the wrong, can be excused on the ground of a want of forethought. Not so with the shrewd Chairman of said Committee, with an eye ever open to business: quietly, and as it were, reluctantly allows himself to become the dispenser, and receives the profits on perhaps one thousand dollars a year through said office; enough I am sure to disqualify any Councillor from holding a seat at our Council Board, if I am not wrongly informed.

Imagine—a grocer and provision dealer is made Chairman, and issues his orders on his own shop when the poor ask an order on some other shop; when perhaps the articles they are getting in his, do not suit them, either in quantity or quality, are coolly told unless they comply with the arrangement, they can go without. Now, Mr. Editor, I ask in all candour, and I hope without prejudice to Mr. Vandusen, the person alluded to, is this state of things fair, either to the poor, who, like other people, have choice of shops, or where the fact of their poverty is taken into consideration, to their benefit or to the ratepayer, thereby creating a monopoly, and sinecure for Mr. Vandusen; or is it fair to those produce dealers who supplied the poor on orders heretofore, and never present their bill till the Tax Collector made his appearance in the last quarter of the year. To abate this nuisance Mr. Editor, you will please lend your aid and you will have the thanks of the community.

Yours, &c., FAIR PLAY.

Belleville, Feb. [illegible], 1870.

Kingston Correspondence.

KINGSTON, Feb. 8, 1870.

REV. MR. CHINIQUY—PLYMOUTH BRETHREN—THE RAILWAY—P. W. O. RIFLES—FIRE—IRISH PROTESTANT BENEVOLENT SOCIETY.

The Rev. Mr. Chiniquy preached in the Rev. Mr. Wilson's Presbyterian Church twice on Sunday last, and addressed a meeting in the same place in the afternoon, each service being very largely attended. The afternoon address being the only one of the three which I heard, of it I only can speak. The Roman Catholic system of religion, said Mr. Chiniquy, is undeserving of the name of a Christian Church. The character of Christ was grossly misrepresented by the Priests. This was held up to the gaze of the people as a judge anxious to destroy the sinner, rather than as a merciful saviour, willing to pardon transgression. Through Mary were they to seek from Christ forgiveness; she is represented as all powerful with her Son, and in consideration of her entreaties, was she graciously pleased to answer prayer. A direct communication between the soul of the penitent and the one mediator was a thing almost unknown; all is carried on by saints and angels; the Priest forgives in the name of Christ; the officer of the Holy Spirit are hereby ignored. The reverend gentleman spoke most feelingly of the great change wrought in himself by the spirit of God. He was once blind. Formerly he only believed what the Church said; her interpretation of the Gospel alone, did he receive; now he rejoiced that the veil had been taken from his eyes; what Christ Jesus taught that alone did he now place implicit confidence in. He narrated at some length many of the trials and persecutions he had to encounter. Frequently had his life been in danger, but he thanked God who had so miraculously preserved him from the violence of his enemies. To illustrate the amount of good that had been done among his fellow-countrymen, he gave the history of the conviction and conversion of several French Canadian families. It was the great object of his life to see his brethren brought from the deep gloom of Romish error to the bright light of Protestant truth. In this work he was determined to continue, and if necessary he was prepared to die in the field, proclaiming with his latest breath the unsearchable riches of Christ. Mr. Chiniquy is in great earnest in doing the work of his mission. He deserves the support and sympathy of all Protestants. The people to whom he ministers are suffering greatly from a famine, and he is greatly concerned for their temporal comforts. It is anticipated that he will return to Montreal shortly where his labours for several weeks past have proved very successful. What a terrible system it is which exercises so tyrannical a power over the mind, the independent exercise of whose functions must be subject to priestly dictation and intolerance! The French Canadians are the abject slaves of Rome's most presumptive arrogance, and we don't wonder that when such men as Chiniquy throw off the galling yoke and expose the iniquities of the system, that they should be met with the fiercest opposition and all the hostility of an unrelenting hatred. Men like Chiniquy may be persecuted; the truth they preach may be called by the worst names; but as in the past, the wicked devices of men's evil hearts will prove ineffectual to trample out the light of truth; it will shine with all its power and beauty, giving joy and happiness where its influences are felt, until it has reached the effulgence of its meridian glory, when all error and superstition shall be overthrown, when systems, persecuting in their spirit, arrogant in their claims, and mind-enslaving in their arbitrariness of their self-constituted right to dictate, shall be overthrown and men everywhere shall rejoice in the fullest freedom which Christianity, pure and simple, can confer.

I have just heard that at the evening service, in Mr. Wilson's church, on Sunday last, Mr. Chiniquy invited any Roman Catholic who would desire to meet him to talk of matters of religion, to do so on Monday at 2.30 o'clock, the result of which was, that a number availed themselves of the opportunity and appeared anxious for light and guidance.

The services conducted by the Plymouth Brethern are being very numerously attended. On Sunday evening the City Hall was crowded, the consequence of which, was that some of the churches contained small congregations. Many are attending the preaching of these gentlemen, who never enter a church at all, and a large number go purely from curiosity to hear what they have to say and how they say it.

It was anticipated that the railway question would be discussed at the regular meeting of the City Council last night, but I understand that nothing in relation to it was done. A writer in the *Whig*, "Old Hickory," has been "pitching into" the project with great vigor, but not with much force of argument.

The regular battalion drill of the 14th, P. W. O. Rifles took place last evening. Lieut.-Col. Jarvis was present during the evening, and after the drill had concluded addressed the members of the battalion. He complimented Lt.-Col. Callaghan on the marked improvement in drill, and more especially in discipline, since the last time he had met them on parade. He referred to the probable withdrawal of the Imperial troops from the country, a fact which would render the Volunteer force of greater importance than at any time heretofore. It was not unlikely that the Government would require the services of volunteers for Red River in the spring.—He felt confident that Kingston would do its duty when called on to act.

A fire broke out this morning in some of the offices or stores near the corner of Wellington and Princess street, occupied by Mr. Andrews, Tailor, Mr. Johnston, Watchmaker; and others. At present it is unknown where the fire originated. The result was that the stores of Mr. Andrews and Mr. Johnston, and all the offices above them were completely destroyed, the walls alone remaining. Mr. Johnston saved a greater portion of his valuables, but the portion destroyed was not covered by insurance. One or two dry goods stores suffered considerable damage from fire and water.

A short time since "an Irish Protestant," in [illegible] the Whig, advocated the establishment of an Irish Protestant Benevolent Society for Kingston, similar to the one in Belleville, and that in Montreal; but as yet no one has taken the matter up. I have no doubt that the existence of such a society [illegible] would do much good in a variety of ways, and would therefore desire to see it in active operation.

News Condensed.

—The colored Baptist Churches in Virginia have a membership of 43,318.

—Nearly all the under-offices in the legislature are sought after by women in the States.

—Cold feet is sufficient grounds for a divorce in Indiana.

—Quartely fairs will be hereafter held in Colborne. The first is fixed to take place on Thursday, 24th inst.

—A complimentary dinner was given to J. Ross Robertson, Esq., of the *Telegraph*, upon his return from the Red River.

—The first subscription toward the monument to commemorate the battle of Crysler's Farm came from a lady.

—Philadelphia has subscribed $5,000 and New York $20,000 to a memorial chapel to be erected honor of Stonewall Jackson.

—Loughborough Council has passed a By-Law, giving a bonus of $10,000 to the Madoc Railway, on condition that the road run by Knowlton Lake.

—The *Tribune* says that after Prince Arthur left his seat in Trinity Church, a number of ladies rushed there in order to sit where a live Prince had been sitting.

—Discussions on Confederation in Prince Edward's Island regarding terms of admission, offered by the Dominion Government, show that they are not likely to be accepted.

—The ship 'Monarch' has received orders to sail for Portsmouth, England, direct, and will leave on Saturday or Sunday, without going to Boston or New York.

—The South Bend (Indiana) 'Register,' commenting on the high price of eggs, thinks that "hens could make piles of money now by paying strict attention to business."

—There are only about 3,300 Jewish families in Jerusalem, where by rights there should be more Jews than in any part of the world. In New York there are about 80,000 Israelites.

—*La Minerve* asserts that Bishop Tache was summoned from Rome by a telegram sent by the Dominion Government. He received it on the 9th and left on the 14th of January.

—There is a rumour, probably only a rumour, that General Doyle will shortly proceed to Montreal as Commander-in-chief, and be succeeded as Governor of Nova Scotia by Dr. Tupper.

—A member of the New Orleans police, when on the stand testifying against a man he had arrested, was identified as an escaped murderer, and sent back to serve out his life sentence in the penitentiary.

THE VOICE OF LOVE AND THE DEAD LETTER OFFICE.—Those who may be purposing this season to give vent to the Tender Passion in the elegant expression afforded by a Valentine would do well to be careful to repay their postage. This wholesome advice applies especially to such of these epistles of Love as are posted for delivery in the city or town where the charmer dwelleth. On such letters for local delivery, a postage stamp of one cent must of necessity be repaid, for, if not, even the most tender of Valentines, instead fulfilling its high mission of kindling a mutual flame in the adored One's breast, will only eventually promote combustion in the stoves of the Dead Letter Office.

PRECEPTORY No. 158,

Royal Black Knights of Ireland.

THE Annual Meeting of this Preceptory will take place in the Orange Hall, Belleville, on FRIDAY EVENING, Feb. 11th, at 7.30 o'clock, SHARP

THE RIOTS IN THE CITY—ANOTHER OUTBREAK—FURTHER ARRESTS—ADDITIONAL BARRICADES—QUIET RESTORED.

PARIS, Feb. 10, 8 p.m.—At noon to-day tranquility had been restored in all the districts where the disturbances arose last night, and up to this hour the city has remained quiet.

PARIS, Feb. 9, 8 p. m.—The disorders broke out again at Belleville, and in Rue Du Faubourg Du Temple, at midnight. Several additional barricades have been erected in the narrow streets. Troops are still in the neighborhood of the scenes, but up to this hour have not fired on the rioters. The police are active, and there are rumors of killed and wounded on the Boulevard Montmartre, running from Rue Montmartre to Rue Kepliteu. The police have made several charges on the position of the rioters there. This point is fully a mile and a half distant from the scene of the disturbances yesterday; many additional arrests have been made. Gustave Flourens, the leader of the disturbances, is still at large, though the authorities are making every effort to arrest him.

3 p.m.—The police and military authorities have the riot under control, and the city is tranquil.

Noon, Feb. 9.—The morning journals have the following details of the disturbances which occurred last night.

COMMERCIAL.

LIVERPOOL, Feb. 10.—Flour 19s 6d; red wheat 7s 3d 7s 4d; red winter 8s 3d; white 8s 10d to 8s 11d; European corn 26s 6d; Barley 5s; Oats 2s 5d; Peas 34s; Pork 97s 6d; Lard 11d; Bonds 87⅛

American Despatches.

WIFE MURDER AND SUICIDE.

ATCHESON, Kansas, Feb. 8.—Francis Buttermere shot his wife to-day, inflicting dangerous wounds, and then blew out his own brains. Mental derangement was the cause.

STORM IN NEVADA.

SAN FRANCISCO, Feb. 9.—A terrific wind storm passed over Virginia, Nevada, yesterday. Houses were unroofed, chimneys blown down, and several promiscuously injured. One man was killed.

VISITORS TO THE "MONARCH."

PORTLAND, Me., Feb. 10.—The Hayden Association, 300 strong, yesterday afternoon went down in a steamer to visit the "Monarch." They were courteously received by the officers and after examining the ship, sang several pieces of music. Capt. Commerell thanked them in a brief address. To-day the officers of the "Monarch" give a dinner on board, and on Friday noon a hop. On Sunday the "Monarch" will sail.

TELEGRAPHIC CHANGES.

NEW YORK, Feb. 10.—For several weeks past, negociations have been pending between the Bankers' and Brokers' Telegraph Co. and their employees with a view to transferring the line to the latter. The negotiations are almost completed.

CATARRH, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

CONSUMPTIVES, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

CURE for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

FROSTED FEET, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

DR. J. BRIGGS' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks: —"The singular success which Mr. Epps attained by his homœpathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 94—6mT&S

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

Money Found.

FOUND, a small sum of money. The owner can have it by describing it, on application to

PHILIP BADGELY.

Tyendinaga, 3rd Con., Lot 11, February 5th, 1870. 103-3t

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber, firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO, LINDSAY, ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.

51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds, BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
304d 51w 4w Montreal, P. Q.

The Ontario Farmer.

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

Publishers Ontario Farmer,
Hamilton, Ont.

December 15th, 1869.

THE BEST IN THE WORLD.

The Scientific American

$1,500 CASH For 1870. $1,500 CASH.

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country, *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS—AMERICAN INVENTORS,*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ 1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year threee dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free, address the Publisheas MUNN & CO., 37 Park Row, New York.

How to get Patents.—A pamphlet of Patent Laws and instruction to Inventors sent free.

Belleville, Jan. 6th 1870. 210

VICE.—He who yields himself up to vice must inevitably suffer. If the human law does not convict and punish him, the moral law, which will have obedience, will follow him to his doom. Every crime is committed for a purpose, with some idea of future personal pleasure; and just so sure as God governs the universe, so surely does a crime, although concealed, destroy the happiness for the future. No matter how deeply laid have been the plans of the criminal, or how executed, detection pursues him like a blood-hound, and tracks him to his fate.

An eating house keeper, who prided himself on his ability to get up the best dinners to be had anywhere, wishing to give the public the full benefit of his knowledge, perpetrated the following sign: —'Try my dinners,—they can't be beat.' In an evil hour, however, a wicked wag came along, and dexteriously painted over the initial letter of the last word. The announcement then was: 'Try my dinners, they can't be eat.'

—A young man fell in love with an heiress, and the passion being returned, it only wanted the parent's consent to make them happy. A length, meeting the father, he asked for the daughter's hand. 'How much money can you command?' asked the millionaire gruffly, 'Not much, was the reply, 'what are your expectations? 'Well to tell you the truth, I expect if you refuse your consent, to run away with your daughter, and marry her without it.'

A young Californian went to sleep, leaving his candle in the bunghole of a powder keg. He was picked up in the morning all over the house.

An Irishman, hearing of a friend who had a stone coffin made for himself, exclaimed, "Faith, that's good. Sure an' a stone coffin 'ud last a man a lifetime."

READ THE FOLLOWING.—Gents—This is to certify that I have found ALLEN'S LUNG BALSAM one of the best remedies in the world for diseased Lungs. I have used in it my family for breaking up a troublesome cough with the happiest effect. I recommended it to a young lady who had a harassing cough and was threatened with Consumption, and it cured her in a few days. I would recommend it to all those predisposed to Consumption. Respectfully yours. A. A. HARRISON, Cincinnati, O.

EVERY BODY USES IT.—And all agree that the "Canadian Pain Destroyr" is the best medicine for the instant and permanent removal of pain from the system, ever yet introduced. It acts as a general alterative, thereby removing the cause of the disease, and renovating the action of the system. For the purpose for which it is recommended, it has no equal. Truly it is a "good thing." Sold by all Medicine Dealers.

HIDE BOUND HORSES.—A horse is said to be hide-bound when his skin will not slip under the pressure of the hand, but sticks as if it was glued, which condition is always dependent on a deranged state of the stomach and digestive organs—by correcting, which, and giving to them a healthy tone and condition, the disease or complaint will disappear. Experience has proved that the means best adapted to this end is "Darley's Condition Powders and Arabian Heave Remedy." It has been used in numerous cases with complete success, generally effecting a cure in a few days. It is the best condition medicine known, and may be given with safety at all times and does not require that the horse be kept from work. Remember the name, and see that the signature of Hurd & Co., is on each package. Northrop & Lyman, Newcastle, Ont., Proprietors for Canada. Sold by all Medicine Dealers.

Is health worth having? If it is protect it—it is a jewel as easily lost as virtue, and in many cases as difficult to recover. In this climate, and more particularly at this season of the year, people are very apt to take cold and suffer from sore threat, coughs spitting of blood and pulmonary complaints generally, which if not checked immediately lead to serious consequences. The question arises—which is the quickest and most effectual remedy? Bryan's Pulmonic Wafers have been before the public for twenty years, and have always given perfect satisfaction, and invariably effect permanent cures when taken in season. Sold by all medicine dealers and country stores generally throughout the Province, at 25cts per box.

COUNTY OF HASTINGS
Sabbath School Convention,

THE First Sabbath School Convention of the County of Hastings will (D. V.) be held in the John St. Presbyterian Church in Belleville, on

Wednesday and Thursday,
the 16th and 17th of February,

Commencing at 2.30 p. m. on Wednesday. Ministers of the Gospel and two Delegates from each Sabbath School within the County of Hastings are cordially invited to attend and take part in the proceedings of the Convention.

Ample provision will be made by the Christian people of Belleville for the reception and comfort of the Ministers and Delegates attending the Convention.

In order that Ministers and Delegates may be properly provided for, it is important that the Secretary be duly informed of the names of those who intend to be present. Delegates will therefore please to have certificates duly filled up and forwarded to the County Secretary—Chas. Martin—not later than the 8th of February.

Ministers and Sabbath School workers from the adjoining County of Prince Edward are also cordially invited to be present, for whom also (due notice being given to the Secretary) the Committee will provide homes.

The introduction of the following subjects for discussion has been placed in the hands of competent Sabbath School workers, the aim of the Committee being to draw out the talent we have in our own County:—

SUBJECTS:

County Conventions—their work.
Aim and object of Sabbath School Teaching.
Duties of Parents to the Sabbath School.
Encouragements to labor in the Sabbath School.
Teachers' Meetings and how to conduct them.
Establishment and organization of Sabbath Schools.
How can we best retain our Senior Scholars?
How to conduct a Sabbath School Session.
The Blackboard.

CHAS. MARTIN,
Belleville, Jan. 27, 1870.

P. S.—Any Sabbath School in the County failing to receive circulars from the Secretary will please to appoint their Delegates and send notice thereof to the Secretary.

Chronicle copy twice. 302d1-51w2

FRONT STREET, BELLEVILLE.

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened under the most favorable auspices. **Splendidly furnished & Thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the old price of $1.50 per day will not be departed from. We, therefore, bespeak for ourselves a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS. (162d1y) DECKER & CO.

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are prepared to receive Tenders for the following Rolling Stock:—

40 Locomotive Engines & Tenders.
250 Box Freight Cars.
150 Platform Cars.

Printed Specifications according to which these Engines and Cars are to be constructed can be had, and general plans of the different vehicles can be seen at the office of the Chief Engineer, in Ottawa, on and after the 17th January, 1870.

Sealed Tenders, addressed to the Commissioners of the Intercolonial Railway, marked "Tenders," will be received at their Office in Ottawa up to 7 o'clock P. M., the 17th March, 1870.

A. WALSH,
ED. B. CHANDLER,
C. J. BRYDGES,
A. W. McLELAN,
Commissioners.

Commissioners' Office, Ottawa, January 14, 1870. 227

BARNUM'S

Fortieth Year.
GODEY'S LADY'S BOOK
For 1870.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

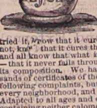
CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.



Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always —that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's
Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

INTELLIGENCER BUILDING,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use,

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL,

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this marvelous remedy known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

if exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first, at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED *Attacks if exposed.*

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will, in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to *wait* for their "bread cast on the waters to return after many days" who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere—shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, the Ready Relief in a few minutes will stop

---

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world There is no Ague Cure Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic Mercury, bottled in the many Ague Cures and by vain Practice pay the penalty in engorged liver, fat spleen, disordered kidneys, saffron-colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers Chills Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $5, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits will give you equal in quantity and superior in quality to 144 bottles of the 25 cent Pain Relievers, Paints, Killers, Embrocations, Panaceas, Balsams, &c., all of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least (25) twenty-five dollars, had you to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyptheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co's Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. Ask for **Radway's Ready Relief.**

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series, In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum.
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one* of the *Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two* of the *Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,

VOL. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, FRIDAY EVENING, FEBRUARY 11, 1870. No. ~~611.~~ 241

Mr. Rose's Letters on Colonial Relations.

The Montreal *Herald* supplies the following summary of three letters signed "A Colonist," which have appeared in the London *Times*, discussing the relations between the Colonies and Great Britain.—It is not difficult to fix the paternity of these upon the late Finance Minister of Canada, the internal evidence, apart from other information, being sufficient to prove this. The first letter at the outset classifies the different views now existing on the subject, under three heads:—First, that of the class which desires to get rid of the Colonies; second, of those who desire to continue the connection, but seek to have either the Colonies represented to Great Britain, or who think that the powers of self-government should be given up, and these powers devolved on the Colonial Secretary; and third, those who regard the maintenance of the present connection as paramount, but who seeing the elements of danger in the present unsettled aspect of the question, consider that some authoritive expression of opinion or other form of action is called for, affirming the supreme condition of maintaining the integrity of the empire. A speedy discussion of the whole subject in Parliament is thought to be desirable, as although there are no tangible grievances calling for relief at present, yet it cannot be denied that the prevailing uncertainty is doing its work in the Colonies, and the policy of drifting without guidance cannot fail to be pernicious; the discussion of theories distract men from practical questions, "and becoming aspirations, either as Englishmen, or as men founding a new nationality of their own, worthy of their race, are for the time repressed". After pointing out that the present danger lies in the misunderstanding of the feeling of the colonists with regard to the charge ot hanging in helpless dependence on the Mother Country and adding to her burdens; of being slack to assume the functions of political maturity and of being unworthy of Imperial protection, and acknowledging that there is no official utterance to testify a feeling which undoubtedly exists, the letter proceeds to sift the causes of the misunderstanding in Britain. In doing so the separatists, argument istested by considering in what respect the Colonies are either a source of danger, burdensome or profitless, and the case of Canada is taken as being the strongest illustration against the colonies, and the one with which "A Colonist" is most familiar. The question of the defence of Canada in event of a war between Great Britain and the United States is taken up, and the argument that in such a contingency Canada must either be abandoned or, if defended, overrun, so that national disaster would result in either case, is combated. In this question of abandonment Canada does not stand alone, but its decision may influence all the colonies in deciding whether they shall make common cause with Britain or stand neutral in her quarrels.—The chances of war may appear to be against a successful defence of Canada, 3,000 miles distant from Great Britain; occupying a long narrow strip, conterminous for 1,000 miles with the United States, which has a population of nearly 40,000,000 people as opposed to 4,000,000. But exceptional considerations are regarded as existing with respect to Canada, and an attack on her would only be an incident, in not the object of a war. The immense expenditure of men and money necessary to effect the reduction of Halifax, Quebec, St. John, Montreal and Kingston, and other places in the Peninsula between Lakes Ontario, Erie and Huron,—the different points lying at long distances from each other, requiring separate armies and fleets to attack them—are pointed out, and the impossibility of conducting a winter campaign, so that siege operations would have to be raised and begun afresh in the spring, is dwelt upon as very materially affecting the question, particularly as in those parts where the two countries are contiguous the country is wild, the climate most severe, and winter operations wholly impossible. Supposing, too, that the enemy had command ot the lakes, they are impassable in winter, all munitions of war would have to be drawn by them in summer, and stored in a hostile country. As regards Lake Ontario, "A Colonist" holds that the advantages are all on the side of Canada, if properly used at the outset; on the south shore there are only four or five harbours, at which all offensive power must be created for use on the Lake, the access to which is in the hands of Canadians. If the feeling of devotion to England continues, there are no sacrifices the Canadian people would not willingly endure to resist the attempt at conquest, or to take common cause with England in the struggle. Canada has as many fighting men as the Southern States ever brought into the field; she has 40,000 active militia, well trained and armed, and could supply 500,000 men capable of bearing arms.—Every consideration leads "A Colonist" to form a high opinion of the power for the defence of Canada, and he calls on those who commanded at the great battles during the American war to say whether the subjugation of Canada is an operation they would covet without armies as numerous and efficient as ever taxed the power of the United States to bring into the field.

The second letter is occupied with the consideration of the position of Great Britain in the event of Canada being given up. By such a course she is deprived of naval stations; ships requiring repairs must go to Britain; Bermuda could not long stand; the West Indies would fall; the contagion of dissolution would it not extend to Australia and other colonies; suppose all the ships of war withdraw from American possessions, Newfoundland becomes a safe base of operations against Ireland; and the result would be that the risk is run of alienating active support, turning present friends and allies into neutrals, if not worse. The difficulties that have arisen between the United States and Britain have not, it is pointed out, sprung from the questions affecting Canada, but that these have had their origin in other causes, and what some call the spiritless policy ot Britain in reference to the Alabama dispute, isd trace not to any fear with respect to the position of Canada, but to the natural hesitation to enter on a strife of which the end or the extent cannot be forseen. In regard to the objection of the disseverance party, embodied in the words profitless and burdensome, "A Colonist," at considerable length, shows that the whole military expenditure in Canada does not exceed £100,000 beyond the ordinary regimental and other changes incurred, no matter where the army may be. In the whole of British North America, including £70,000 for works at Halifax, the total amount would not exceed £200,000. It is then shown that Canada has been subjected to a military expenditure, for cause of an Imperial nature, of a very large amount, the milita estimates having risen from about £80,000 in 1858 to about £400,000 in 1867, on account of Fenian invasion, &c., and that this represents but a mere fraction of the total expenditure to repeal an attack made on Canada purely with a view to give a stab to Britain. Then the mail services are kept up at a heavy expense, although the British Government has subsidized steamers to the United States, by which for years Canada had to pay internal postage to that country. Commercial conventions, also, might have been entered into with the United States had Canada chosen to impose differential duties on goods from Britain, but she preferred to submit to drawbacks rather than adopt a policy of hostility to British interests, which would have a tendency to weaken a relation which she prefers to maintain even at tenfold the sacrifice. In spite of the abrogation of the Reciprocity Treaty this policy, has not been without its advantages in stimulating the exportation of Canadian staples to other markets, and in showing that she is not dependent on the markets of the United States for her prosperity. A defence against the charge of raising revenue by custom duties rather than by direct taxation is made, and it is shown that whereas in 1857 excise duties were a little over £25,000 they are now over £600,000, nearly one fourth of the total revenue.

The third letter deals with the general subject of the utility and advantages of the colonies, and suggests that a Parliamentary, inquiry, might be made to ascertain what is unsatisfactory on either side. It is pointed out to those who argue that emigration to the United States is as useful to Britain as it would be if directed to Canada, that to take the case of the Irish exodus, the difference will be seen strikingly manifested—those who go to the United States and become surrounded by hostile influences becoming more embittered daily against Britain, while in Canada, with justice extended to all and a fair share of influence in public affairs, the same people would meet in deadly enmity a Fenian invasion the Canadian frontier. Radical changes in the relations between Britain and her colonies are deprecated; the more emphatic assertion of the principle of maintaining inviolate the unity of the empire is maintained, and it is held to be a duty to show the extent of the burdens on the United Kingdom caused by the Colonies; to disabuse the public mind of the belief that they are ready to palm burdens on Britain which should be borne by the Colonies themselves, and it is held to be obvious that the protective character of the existing relations must be superseded by one possessing more of the elements of a Federative Union.

* * *

A LEGACY.—A contemporary tells this amusing story:—"A young lady while going to her wedding in Rondout, United States, was thrown from her carriage and broke her leg. It was proposed to take her to a surgeon and have the limb set, but she refused, saying she was going to be married first. And, as usual had her way." Our view of the case is that though the lady might not mind the fractured limb, the bride-groom might have fairly objected to a broken "rib."

FRESH OYSTERS.

CANADA
Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates*, will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are

Indisputable on any ground whatever,

Subject only to payment of premiums which may become due.

SPECIAL FEATURES.
ECONOMY—
Giving more assurance, for the same money than other Companies.
HOME MANAGEMENT—
HOME INVESTMENTS—
Every advantage to policy holders which is compatible with sound management and ultimate safety.

Daily Intelligencer.

BELLEVILLE, FRIDAY, FEB. 11.

Police Court.—In the absence of the Police Magistrate, no Court was held this morning.

Y. M. C. A.—We have much pleasure in informing our readers that T. James Claxton, Esq., President of the Montreal Young Men's Christian Association, will address the young men this evening in their new rooms, at 8 o'clock. We hope there will be a large attendance.

Cotton and Woollen Factory.—It will be seen by advertisement in another column that the Hon. Billa Flint offers water power for the establishment of a Cotton and Woollen Factory in Bridgewater. We hope the project may be successful, as it is by such manufactories that the prosperity of the country is augmented.

New Brunswick Legislature.—On the 10th inst., Governor Wilmot opened the session of the New Brunswick Legislature, with the customary formalites. Reference is made in the speech to the remission of subsidy on the Eastern Extension Railway, and the condition of the Provinces financially and otherwise is pronounced satisfactory.

Salt.—We notice in the Ontario *Gazette*, that the Peterborough Salt Company has been incorporated, and we learn that the Company have so far advanced as to have erected the Derrick, and have a steam engine and the boring apparatus on the ground, viz. E½ 29 in 11th con. of Otonabee. They intend to commence boring next week. At a meeting of the Directors, Mr. Calcutt was elected President, and G. Burnham Secretary and Treasurer.

Death of an Old Journalist.—The Ottawa *Evening Mail* of the 10th says:—"An inquest was held this afternoon on the body of Mr. Robert Kelly, proprietor of the Brockville *Central Canadian*. Mr. Kelly came to the city a few days ago, for the purpose of hiring printers, and was walking about Lafield's Hotel last night, when he dropped on the floor and soon after expired. The jury returned a verdict of "Died from Apoplexy."

British Templars.—The above order met last night and elected officers for the present term: Charles McWatters, W. C. T.; Miss I. A. Traver, W. V. T.; John G. Moore, W. S.; William Ferguson, W. F. S.; James Macoun, W. T.; Wm. J. Smith, P. W. C. T.; Wm. J. Taylor, W. M.; Miss I. McLeod, D. M.; James Clarke, I. G.; Edward Morden, O. G.; Dr. G. J. Potts, W. Chaplain; Mrs. W. J. Taylor, R. H. S.; Miss A. Waren, L. H. S.; Dr. G. J. Potts, Provincial Deputy for Speedwell Temple; Wm. J. Taylor, Provincial Deputy for Ontario. The Lodge meets on the 18th of Feb., at W. J. Taylor's Sewing Machine Office.

Canadian Dominion Directory.—We are glad to learn that sufficient encouragement has been obtained by Mr. John Lovell, the eminent Montreal publisher, to proceed with the above stupendous work, which will be issued in October of the present year, and corrected up to August. The value of such a work to men of business will be very great, both to those within the Dominion and also in the United States, Great Britain, France and other foreign countries having transactions with Canada. The fame of Mr. Lovell as a Directory compiler was established by the issue twelve years ago of the Canada Directory, one of the most complete books of reference ever published in any country. That work contained the names of the principal inhabitants of 1,300 cities, towns and villages, while the Dominion Directory will contain those of at least 3,500 cities, towns and villages in the six Provinces. Agents will at once commence canvassing, and every means will be taken to ensure the greatest possible accuracy.

Publications Received.

Whitney's Musical Guest.—W. W. Whitney: Toledo, Ohio.

The February number is rich with the choicest of music and literature. "Mozart in Italy," (concluded), besides the musical items, are well worth a careful perusal. The music consists of three songs, all of which are of a pleasing character.

The Churchman's Magazine.—Hamilton: T. & R. White.

The number for February well sustains the high character of this publication, which we would recommend, for the perusal of every churchman.

The Gavel.—Toronto: Robert Ramsay, publisher.

We have received No. 2 of this Masonic monthly, which gives promise of being of great value to the craft. The original articles are written in an able manner, while the selections are choice and fitting to the character of the magazine.

The Manufacturer and Builder.—New York: Western & Co., 37 Park Row.

The February number is even better than usual, the illustrations being of a high class, and the reading matter interesting. We shall probably transfer some of its articles to our columns.

—There is not a liquor shop within twenty miles of the village of Perry Sound.

The Attorney General on Disallowance.

One of the largest and most successful public dinners which ever took place in Canada, occurred on the 10th in Cornwall, in honor of her representative, the Hon. J. S. Macdonald, Premier of Ontario. The hon. gentleman made a long speech, towards the conclusion of which he made the following reference to the measures lately disallowed by the Dominion Government:

"I have been accused of introducing Acts into our Legislature which have been called unconstitutional. I am not at all ashamed of the measures that I have been accused of bringing in. They merely asserted rights which our Province must have. (Cheers). One of these is to allow us to do with our own money just as we please. We say that if we ask the judges of our Superior Courts to do work for us we must pay them as we like. My accusers say, "You can give these Judges as much work as you want, but you cannot give them anything." Gentlemen, I will never submit to that. (Cheers). They may have law on their side, but they have not justice, and justice will prevail. (Great applause). The Minister of Justice has the inside track, but the people of Ontario, if their rights are denied them, will fight, and fight, and fight until their rights are given them. They will even knock at the door of the Imperial Parliament until they get them. We shall never allow that the caprice of one man is to set aside the legislation of the Province. We have in our Legislatures some of the ablest lawyers in the country, and our Judges are all of the opinion that the law is constitutional. Until a Court is established on the principle of the Supreme Court of the United States, which overlooks the act of the Senate, we shall not give up our right."

While according to Mr. John Sandfield McDonald our hearty support for the able and economical manner in which he has conducted the affairs of Ontario, we must decidedly dissent from the views expressed by him, regarding the Judges of our different Courts. No man should have two masters, more particularly those who have to dispense justice between man and man. The power of appointment in one Government, and dismissal in another, is at variance with British custom and law. Nor should any person or body of men have the right to suppliment the regular established salaries of the Judges, other than the power that appoint them. There should be no apparant tampering with these men, nor should they be placed in a position whereby suspicion could even arise as to their impartiality. If the Superior Judges are not sufficiently well paid, let Mr. McDonald and those who think as he does, bring the question before the Dominion Parliament, and we have no doubt justice will be done them. But we protest against the Local Legislatures having the power to increase the salaries of Judges, and then when it pleases to reduce them.

Public Dinner to Mr. Blake.

Last night Mr. Edward Blake, Q. C., was entertained at a public dinner in Stratford. The attendance was numerous, and the occasion was signalized by the formal recognition of the learned gentleman as leader of the opposition in the Ontario Legislature, *vice* Mr. McKellar, resigned. Mr. Blake, however, assured his admirers and friends that it was with great reluctance he had assumed the position of his deposed chief, and that he did so only after Mr. McKellar had "declined longer to hold the place," when "he was obliged to agree to the unanimous wishes of his friends in the House, and accept the leadership." The self-denial of Mr. Blake will certainly be appreciated by the outside world.

Mr. Blake argued strongly in favor of party Government, and the necessity of an opposition to all Governments; to which few will object; but that opposition should be based upon principle, and not merely for the sake of opposition. In condemning the no party cry, which he says was used at the last election, and urging his views upon the absolute necessity of an opposition, the learned gentleman said: "suppose that in "every constituency in this country that "principle (no party) had been agreed to, "and if it were sound for one he did not "see how it could be unsound for another, "they would have the House a mob "for the Government." Or in other words if there were not an opposition under the style and designation of "Reform," there could be no opposition at all. All will agree with Mr. Blake, that an opposition is essential, and productive of good in all deliberate bodies, but that opposition should be based upon principle and not upon name merely. Notwithstanding Mr. Blake's strong anti-coalition feelings, he declared he would "not object to an honest "combination—an approach to his own "side." Wonderful condescention on the part of the newly installed leaders of the opposition in Ontario. An honest combination which approaches his own side, is not objectionable; but a combination, no matter how honest, which approaches the other side, must be a moral degradation to those engaged in it. If an honest combination which approaches his side of the House be right, surely a similar conbination towards the other side is equally right, though it might not be so flattering nor profitable to them.

Mr. Blake was eloquent in his praises of his former leader in the Ontario Legislature, and of his present leader in the Commons, and declared "that it was his pride and "pleasure to be able to assert that from "the commencement of his political career "to this hour, there had not been the "slightest breath of disagreement, nor a "want of concord and co-operation in the "work in which they had been engaged." It is not at all wonderful that such should be the case where there is but one object in view, and that to oust the Governments of the day. They have no policy to enunciate nor details to work out, so that a unity of action without quarreling is not of so much wonder after all. Still jealousies may arise, and no doubt Mr. Blake has forgotten when Mr. McKenzie took umbrage at the course pursued by him in seconding a motion of Mr. Dorion's without consulting him, and leaving the House with a few of his followers, and holding an indignation caucus; remaining out of the House until the vote was over, just to teach him his duty to his leader, and to give him a lesson in following his master with due reverence.

News Condensed.

—Prince Arthur returned to Montreal on the 10th.

—The remains of Ceneral Wyndham have arrived at Montreal.

—Hon. Malcolm Cameron will oppose Mr. McDougall, in case of a new election in Lenark.

—Macneil Clark, Esq., M. P. P., Prescott, has suffered a relapse and is again seriously ill. His symptoms are truly alarming.

—The Ottawa *Free Press* asserts that the shinplasters contemplated in Sir Francis Kincks' circular, have already been partly printed.

—A young man named Frederick Schlend, employed in Chopping wood, near Colborne, was instantly killed by a tree falling on his head.

—A son of Tahourenche, or Break of Day, Chief of the Huron Indians, at Lorette, has passed as Notary, being the first member of an Indian tribe ever admitted to the profession.

—The New York *Tribune*, announces that Mr. Huntingdon will, at the coming session of Parliament, bring up the subject of Canadian independence.

—Of leading officials in the United States, President Grant receives $25,000 a year; Gen. Sherman, 13,000; Lt. Sheridan, $14,808; Gen. Halleck, $9,882; Secretary Fish, $8,000; Chief Justice Chase, $6,5000; Vice President Colfax, $8,000, and Speaker Blane, $10,000.

—The Minister of Justice has recommended the Government to pass an order in Council, adopting the rules followed in England, with respect to the execution of criminals in private. He reports that the same, as suited to Canada, should be adopted for the Dominion.

—The Hamilton *Spectator* understands that negotiations are going on between Mr. John Fowler and the Directors of the Whitby and Port Perry Railway, with a view to a lease of the line to that gentleman for 25 years. Mr. Fowler offers to pay for the lease of the line a sum commencing at $10,000 a year, to be gradually increased until at the end of seven years it has reached the sum of $15,000, at which it is to remain until the end of the term.

Latest from Red River.

LETTERS FROM THE GOVERNOR GENERAL AND FROM EARL GRANVILLE READ AT A MASS MEETING.

Chicago, Feb. 10.

At a mass meeting held at Fort Garry, Winnepeg, on the 21st ult., a letter was read from Sir John Young, Governor General of the New Dominion, in which he says:—"People may rely upon it that respect and protection will be extended to the different religious persuasions, that titles to every description of property will be guarded, and that the franchises that have existed or which the people may prove themselves qualified to exercise, shall be duly continued or liberally conferred."

The message from Earl Granville to Sir John Young, was also read, to the effect that "the Queen had heard with surprise and regret that certain misguided persons had banded themselves together to oppose by force the entrance of the Lieutenant Governor into our territory at Red River. Her Majesty does not mistrust the loyalty of her subjects in the Settlement, and can only ascribe to misunderstanding and misrepresentation their opposition to a change so plainly to their advantage. She relies on your Government to explain the misunderstanding and conciliate the good-will of the people of Red River." The despatch concludes:—"The Queen expects from her representative that as she will always be ready to receive well-founded grievances, so will she be ready to exercise all the power and authority she has entrusted to him in support of order and the repression of unlawful disturbance."

To the Editor of the Daily Intelligencer.

Poor and Sanitary Committee.

Dear Sir,—The person who, over the signature, "Fair Play," in your paper last night, made statements respecting my position as Chairman of said Committee, has misled the public by not telling the truth. Were I to remain Chairman of the Committee during the whole year, I could not, if disposed, "receive the profit on perhaps one thousand dollars," for the simple reason that more than half that sum is paid out in cash direct by the Treasurer, and a large amount is paid for cord wood and cartage. In the amount so dispensed there is no profit to any one. You are asked to 'imagine' my telling the poor that unless they take orders on my shop, they can go without. The foundation for this charge against me, which you are asked to imagine, exists only in the jealous imagination of "Fair Play." The circumstance has never occurred, and he who states it utters a falsehood, even though he very inappropriately styles himself "Fair Play." As to any monopoly, I can state that since my appointment this year, I have given orders on five different produce dealers. However, that "Fair Play" and other provision dealers may have their minds relieved and have cash enough to pay their taxes when the collector comes around, I shall not hold the position longer than Monday night next. No doubt some other Councillor can easily be induced to take my very desirable position, especially as out of it so much is to be made.

J. G. Vanduren.

Belleville, Feb. 11, 1870.

Mr. Foster on Fenianism.

In a speech of Mr. Foster, Vice President of the Privy Council, at Bradford on the 1'th, he made the following reference to Irish affairs:—

I cannot tell you the details of the Irish Land Bill that will be brought forward, but I am sure that neither the principles nor the details of that Bill will be affected by anything that has happened in Ireland. Although I cannot say what measures the Ministry will bring forward, I venture to say what the English nation desires on this matter as regards general principles. What do they desire? That no lawless deed by the Fenians shall cause the House of Commons for one moment to diminish its efforts to improve the law which must and shall be kept; that no agrarian outrage shall cease to make us strive to improve the relation between the landlord and the tenant in Ireland, but that in Ireland, as in England and Scotland, outrage shall be punished and as in the last session, so in the next session, I believe that the majority of the House of Commons will determine to carry out the true principle of union between England and Ireland—and what do I understand that union to be? I have often said it, both here and in the House of Commons, I consider that idea to be an absolute disregard of all distinctions between England and Ireland when English interests are concerned. While we are determined to carry out the principle of that idea of the union of the future as in the past, yet that union must and shall be maintained. (Loud cheers.) One word more. We Englishmen do not like to have political prisoners, we wish to open the prison doors and to let the Fenian prisoners go free; but order must and shall be kept. We know full well that no civil community can disregard that principle of self-defence which applies to communities as well as to individuals, and that no civil community can consider an attempt to cause civil war in any other light than as crime; but we trust and believe that such is our policy in time to come, that very soon we shall take from every man in Ireland the motive to commit crime—(cheers)—and so we can afford to say that we will keep the Fenian prisoners in gaol as long as the safety of our country demands—loud cheers—and no longer. (Renewed cheers.)

Railway Enterprises.

RAILWAYS A MEANS OF PAYING TAXATION

The citizens of Toronto are about to vote a bonus of one hundred thousand dollars to the Toronto, Simcoe and Muskoka Railway. Toronto has already granted a bonus of four hundred thousand dollars to the Grey, Bruce and Nipissing Railways, and this last proposition will make a clear half million of free gifts to promote railways to feed Toronto. That city expended eight hundred thousand dollars on the Esplanade in order to bring her railways in connection with the harbor, and to induce the Grand Trunk to go in front instead of behind the city. She also gave four hundred thousand dollars to the Western Section of the Grand Trunk (then the Toronto and Guelph Railway) and two hundred thousand to the Northern of Simcoe and Lake Huron Line. This makes a grand total of one million eight hundred thousand dollars invested in railways, and yet there is now a movement, generally supported by the leading men, to add another hundred thousand to the sum. It is also a significant fact, that after having invested fourteen hundred thousand dollars for railway purposes beginning as far back as 1850—the city should in 1869, by overwhelming mojorities, and at the demand of all her leading merchants, manufacturers and proprietors—in short all the heaviest tax-payers—grant by way of bonus or free gift, another one hundred thousand to the same purpose. Could there be any stronger proof than this that the ratepayers of Toronto, who have had over fifteen years' experience of railways, are convinced that almost any rate of taxation is warranted for such a purpose? In other words, that the railways bring the means of paying the increased rate more easily than would be paying a smaller rate without them.—*Ottawa Times*.

—The preparations for the state ball in Ottawa in honor of Prince Arthur are going on. Five thousand invitations are being issued to all parts of the Dominion; between 1,000 and 2,000 are expected to be present. It will be magnificent. Preparations for the citizens' ball to the Prince are well advanced.

Breakfast.—Epps's Cocoa.—Grateful and Comforting.—The very agreeable character of this preparation has rendered it a general favourite. The Civil Service Gazette remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—James Epps & Co., Homœopathic Chemists, London, England. 94—6mT&S

Piles are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

BRIDGEWATER

COTTON & WOOLLEN FACTORY

THE subscriber offers to grant splendid water power for a Cotton and Woollen Factory combined, or separate, at the thriving Village of Bridgewater, to a Company, or Companies, to be formed to erect the same.

The power is superior, as a constant supply of water can be obtained to work the Factories the year round.

The facilities for building are good, as the best material can be obtained on the premises.

A Prospectus for the formation of a company, or companies, will soon be issued, and Stock Books will be opened at Bridgewater, Belleville, and other places.

BILLA FLINT.

Latest by Telegraph.

BY ATLANTIC CABLE.

INTEREST ON CONSOLS.

LONDON, Feb. 10.—A bill will be submitted to parliament at an early day for making the interest on consols payable quarterly.

EMIGRATION TO CANADA.

The *Times* opposes the government proposition for promoting emigration to Canada.

WAR STEAMERS FOR SALE.

The Admiralty office will sell a number of war steamers at Lloyd's at the close of February.

TELEGRAPH SHARES.

There is an active speculation in telegraph shares in commercial quarters.

TOBACCO DUTIES.

The English government has declined to promise a reduction in tobacco duties as requested by a delegation.

FRANCE—STATE OF FEELING.

PARIS, Feb. 10.—There was considerable excitement among the people yesterday and last evening. The police are very active dispersing the crowds. No outbreaks occurred. Many arrests were made.

The city is tranquill, but there is a strong feeling of excitement under the surface, but the ample precautions of the government prevent any manifestations or disorder.

It is reported that at the beginning of the present trouble the Emperor and his staff in full uniform were prepared, if the riot became an insurrection, to join the troops.

Gustave Flourens has not yet been arrested. He is said to have fled to Belgium.

TREATIES OF PEACE.

MADRID, FEB. 10.—The government has sent authority to the Spanish Minister at Washington to make treaties of peace with the republics of South America.

INFALLIBILITY.

ROME, Feb. 10.—The Œcumenial Council is deluged with petitions from the Gallican clergy favouring the dogma of Papal infallibility.

PARIS, Feb. 10.—Copies of the *Gazette de Augsbourgh* containing a draft of the cannon of Papal infallibility were seized at and confiscated at the post-office in Rome.

American Despatches.

ARCTIC EXPLORATION.

WASHINGTON, Dec. 10.—Hall, the Arctic explorer, is now in this city with his Esquimaux. He desires to obtain Government aid for another and more extended expedition than has yet been undertaken, and he expresses his belief that with some assistance from Government he will be able to penetrate to the North Pole, and explore regions between 80° and 90° of north latitude.

WASHINGTON GOSSIP.

The 'World's' special says that Washington society is soon to have a sensation in the withdrawal from its circles and the world generally of Miss Romero, a sister of Senor Romero, late Mexican Minister to this country. Miss Romero is aged 19 years, and is a lady of rare accomplishments and striking beauty. She will soon take the vows and enter the society of Catholic nuns, known as the order of the Visill Visitation in this city. She is reported to be possessed of considerable wealth, which she will probably make over to the order.

UNSTAMPED RECEIPTS.

Collector Bailey instituted suits yesterday against the French Transatlantic Telegraph Co. to recover penalties in one hundred cases in which the Company are accused of giving unstamped receipts for money from its patrons. The fine for each violation is fifty dollars.

FENIAN PRISONERS IN ENGLAND.

In the House a resolution reported some time since from the Committee on Foreign Affairs, calling on the President for information concerning the imprisonment of American citizens in England for political offences, came up for discussion this morning. Mr. Wood addressed the House on the subject, taking strong ground against the British Government.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

PETERS'

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO, LINDSAY, ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.

51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds, BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors.
304d 51w 4w Montreal, P. Q.

The Ontario Farmer.

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

Publishers Ontario Farmer.
Hamilton, Ont.

December 15th, 1869.

THE BEST IN THE WORLD.

The Scientific American

$1,500 CASH. **For 1870.** $1,500 CASH.

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country, *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS--AMERICAN INVENTORS,*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ 1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free, address the Publishers MUNN & CO.,
37 Park Row, New York.

How to get Patents.—A pamphlet of Patent Laws and instruction to Inventors sent free.

Belleville, Jan. 6th 1870. 210

We Were Thinking

Of the absurdity of many of the comparisons and figures found in song. For instance:

"Oh, I feel just as happy as a big sunflower,
That bends and blows in the breezes."

Now, about how happy is a big sunflower? What evidence is there to show that the life of a big sunflower is not one of supreme wretchedness and woe? Admitting that happiness is not inconsistent with the career of a sunflower, is a big sunflower any more happy than a little one? We think not. As far as our own observations extend, the big sunflowers look much the more *seedy* of the two, and sediness is not usually associated with the serenest joy.

We are told that this big sunflower—emblem of perfect and unalloyed bliss—"bends and blows in the breezes." It it is so very happy, what's the use of *blowing* about it?

"And my heart's just as light as the winds that blow
And scatter the leaves of the treeses."

There it is again; if anything is happy it must needs *blow*. We are a little suspicious of happiness that requires to be trumpeted in this manner.

"Come where my love lies dreaming,"

A. Ward used to say he wouldn't go—he did't think it would be right. He evidently missapprehended the writer's meaning. We can feel *nothing* but the utmost aversion for one who *lies* dreaming. What credit could she have for veracity in her waking hours?

Even Byron could write some absurd things. For instance, his famous lines to Thomas Moore:

"My boat is on the shore,
And my bark is on the sea."

Of what use is a boat on the shore, unless it is a stone boat? Queer way to announce that he had a bad cough by saying "my *bark* is on the sea." Why didn't he stay at home, and bark it out on dry land?

"Roll on, silver moon, guide the traveller on his way,
While the nightingale's song is in tune."

If the nightingale's song was out of tune, what then? Would the moon be justified in ceasing to roll on, leaving the confiding traveller to continue on his way with a lantern? No conscientious or reasonable moon would be guilty of such a thing.

"For never, never more with my true love I'll stray
By the sweet silver light of the moon."

This is a plain intimation that he has no further use for moonlight nights, and intends in the future to walk his girl in the dark. As they had evidently "strayed" in the moonlight, perhaps they had better try daylight for their rambles.

As a specimen of happy comparisons, we append the following in conclusion:

"My love is a rhinoceros,
A hump backed camomile:
She's a gyasticutus,
A kangroo-crocodile."

Catarrh, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

Consumptives, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

Cure for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

Frosted Feet, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

Mortgage Sale.

July 22, 1867

Fortieth Year.

GODEY'S LADY'S BOOK

For 1870.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Book contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world ever.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in the country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a Children's, a Horticultural, and a Health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50

Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,

AUTHORIZED discount on American Invoices until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use,

Its wonderful power in raising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this mervelous remedy, known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED *Attacks if exposed.*

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to cast their bread upon the waters to return after many days—who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere—shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, he Ready Relief in a few minutes will stop

---

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cure, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,

Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the shape of Ague Cures and Private Practice, pay the penalty of engorged liver, fat spleen, disordered kidneys, sallow colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits will give you equal in quantity and superior in quality to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, &c., as well as these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least ($25) twenty-five dollars to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the Edinburgh. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum.
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The Postage on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews for 1869.* New Subscribers to all the five may receive Blackwood or *two of the Reviews for 1869.*

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by Henry Stephens, F.R.S., Edinburgh, and the late J. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo, 1600 pages, and numerous Engravings. Price $7. By Mail post-paid, $8.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, SATURDAY EVENING, FEBRUARY 12, 1870. No. ~~312.~~ 242

The Clear Vision.

I did but dream. I never knew
What charms our sternest season wore.
Was never yet the sky so blue,
Was never earth so white before.
Till now I never saw the glow
Of sunset on yon hills of snow,
And never learned the bough's designs
Of beauty in its leafless lines.

Did ever such a morning break
As that my eastern windows see?
Did ever such a moonlight take
Weird photographs of shrub and tree?
Rang ever bells so wild and fleet
The music of the winter street?
Was ever yet a sound by half
So merry as you schoolboy's laugh?

O Earth! with gladness overfraught,
No added charms thy face hath found:
Within my heart the change is wrought,
My footsteps make enchanted ground.
From couch of pain and curtained room
Forth to thy light and air I come,
To find in all that meets my eyes
The freshness of a glad surprise.

Fair seem these winter days, and soon
Shall blow the warm west winds of spring,
To set the unbound rills in tune,
And hither urge the bluebird's wing.
The vales shall laugh in flowers, the woods
Grow misty green with leafing buds,
And violets and windflowers sway
Against the throbbing heart of May.

Break forth, my lips, in praise, and own
The wiser love severely kind;
Since, richer for its chastening grown,
I see, whereas I once was blind.
The world, O Father! hath not wronged
With loss the life by thee prolonged;
But still, with every added year,
More beautiful thy works appear!

As thou hast made thy world without,
Make thou more fair my world within;
Shine through its lingering clouds of doubt;
Rebuke its haunting shapes of sin;
Fill, brief or long, my granted span
Of life with love to thee and man;
Strike when thou wilt the hour of rest,
But let my last days be my best!

Pray With Your Children.

A young mother made it her daily practice to carry her little ones in supplication to the throne of grace, and yet complained of a want of faith and definiteness in asking for them the special influences of the Holy Spirit.

'Do you pray for each child separately, and by name?' inquired the pastor.

'No, that has never been my habit,' was the reply.

'I think it of much importance, as a help to our faith, and to the clearness and intensity of our desires on their behalf. You pray with them, I trust, as well as for them?'

'Sometimes I do, but not often.'

'Let me persuade you, then, to take your little son and daughter each separately to the place of prayer, and kneeling with them before the Lord, tell Him the name, the daily history, the special want of each, and see if your heart is not open to plead for them as you have never done before.'

Tears were in the eyes of the young mother, as she said with trembling lips, 'I'll try.'

As evening came she had not forgotten her promise, but as she saw that Sarah, her daughter, was unusually peevish, she thought it best to take her little son first to her chamber. Willie was a bright and pleasant boy of five years; and when his mother whispered her wish to pray with him, he gladly put his hand in hers and knelt by her side. As he heard his name mentioned before the Lord, a tender hush fell upon his young spirit, and he clasped his mother's fingers more tightly as each petition for his special need was breathed into his Father in Heaven. And did not the clinging of that little hand warm her heart to new and more fervent desire as she poured forth her supplication to the Hearer and Answerer of prayer?

When the mother and child rose from their knees, Willie's face was like a rainbow, smiling through tears.

'Mamma, mamma,' said he, 'I am glad you told Jesus my name; now He'll know me when I get to Heaven. And when the kind angels that carry little children to the Saviour take me and leave me in His arms, Jesus will look at me so pleasant, and say, 'Why, this is Willie Huston; his mother told me about him; how happy I am to see you, Willie.' Won't that be nice, mamma?'

Mrs. Huston never forgot the scene. And when she was permitted to see not only her dear Willie and Sarah, but their children afterwards added to her family circle, each successively consecrating the dew of their youth to God, she did, indeed, feel that the pastor's plan was 'the more excellent way.' So she resolved to recommend it to praying mothers by telling them this touching incident.

Power of a Parting Admonition.

Mr. Wendell Philips tells the following: "As a mother stood by the garden gate of a sunny morning, she said, 'Edward, they tell me—for I never saw the ocean—that the great temptation of the seaman's life is drink. Promise me before you quit your mothers house, you will never drink.' And he said (for he told me the story,) 'I gave her the promise, and I went the broad globe over—Calcutta, the Mediterranean, San Francisco, the Cape of Good Hope, the North Pole and the South—I saw them all in forty years, and I never saw a glass filled with sparkling liquor that mother's form by the garden-gate on the green hill-side of Vermont did not rise before me; and to-day, at sixty, my lips are innocent of the taste of liquor.' Was not that the sweet evidence of the power of a single word? Yet that was not half.

"For," said he, 'there came yesterday into my counting-room a man of forty, and asked me; "Do you know me?" 'No' "Well said he, 'I was once brought drunk into your presence on shipboard. You were a passenger. The captain kicked me aside, you took me to your berth, and kept me there until I had slept off the intoxication. You then asked me if I had a mother. I said I never knew a word from her lips. You told me of yours at the garden-gate, and to-day I am master of one of the finest packets in New York, and I come to ask you to call and see me."

'How far that little candle throws its beams—that mother's words on the green hill side of Vermont! O God be thanked for the power of a single word.

A Good Wife.

The following sentences from Archbishop Seeker's 'Wedding Ring' are worth reading twice:

Hast thou a soft heart?—it is of God's breaking. Hast thou a sweet wife?—she is of God's making. The Hebrews have a saying, 'He is not a man that hath not a woman.' Though man alone may be good, yet it is not good that man should be alone.—'Every good gift and every perfect gift is from above.' A wife, though she is not a perfect, she is a good gift, a beam darted from the Sun of mercy. How happy are those marriages where Christ is at the wedding! Let none but those who have found favor in God's eyes find favor in ours.

Husbands should spread a mantle of charity over their wives' infirmities. Do not put out the candle because of the snuff. Husbands and Wives should provoke one another to love; and they should love one another, notwithstanding provocations. The tree of love should grow up in the midst of the family, as the tree of life grew in the garden of Eden. Good servants are a great blessing; good children a great blessing; but a good wife is the greatest blessing; and such a help let him seek for that lacks one; let him sigh for that hath lost one; let him delight in that enjoys one.

Long-lived Men.

Hufeland, the physiologist, tells as follows how, the man who is likely to live long is characterized:—

He has a proper and well proportioned stature, without, however being too tall. He is rather of the middle size and somewhat thick set. His complexion is not too florid; yet at any rate too much ruddiness in youth is seldom a sign of longevity. His hair approaches rather to the fair than the black. His head is not too big; his skin is strong but not rough; he has large viens in the extremities; his shoulders are round rather than flat; his neck is not too long; his abdomen does not project; his hands are large but not deeply cleft; his foot is rather thick than long, and his legs are firm and round. He has a board arched chest, a strong voice, and the faculty of retaining his breath for a long time without difficulty. There is a harmony in all his parts. His senses are good but not too delicate; his pulse is slow and regular; his stomach is excellent, his appetite good, digestion easy. The joys of the table are not to him of importance; they tune his mind to serenity, and his soul partakes in the pleasures which they communicate. He does not eat merely for the sake of eating, but each meal is an hour of daily festivity. He eats slowly, and he has not too much thirst, the latter being a sign of rapid self-consumption. He is serene, loquacious, active, susceptible of joy, love and hope, but insensible to his impressions of hatred, anger, avarice. His passions never become violent or destructive. If he ever gives way to anger he experiences rather a useful warmth, an artificial and gentle fever, without an overflowing of the bile. He is fond, also, of an employment, particularly calm meditation and domestic felicity; he has no thirst after honor and riches, and banishes all thoughts of to-morrow.

An Englishman, conversing with an Indian asked him if he knew that the sun never sets on the Queen's dominions. "No" said the Indian. "Do you know the reason why?" asked the other. Because God is afraid to trust an Englishman in the dark," was the savage's reply.

It is painful to listen to many girls' talk. They begin with a "O!" and "Ah's!", and "Sakes alive!", and 'so sweet', and, so queenly," and so many silly phrases, that one is tempted to believe that they have had no training at all, or else their mothers were very foolish women. There is nothing more disgusting than the twaddle of ill-bred girls. One is provoked often into taking up a paper and reading and letting them ripple and gurgle on, like brooks that flow they know not whither. My heart warms with love for sensible girls and pure boys; and, after all, if our girls are not this, I fear it is our own fault. This great trust rests in the hearts and hands of the women of our land. If we have noble, useful purpose in life we will infuse the tight spirit into those around us.

Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates*, will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are

Indisputable on any ground whatever,

Subject only to payment of premiums which may become due.

SPECIAL FEATURES.
ECONOMY—
Giving more assurance, for the same money than other Companies.
HOME MANAGEMENT—
HOME INVESTMENTS—
Every advantage to policy holders which is compatible with sound management and ultimate safety.

The Rapids Climber.

How to make such a river as the Ottawa navigable at the least possible cost is a matter not unworthy of the most scientific among us. To overcome falls, and rapids, and shallows, without such stupendous undertakings as canals, would be creditable to any person, scientific or theoretic. Practically, all but the first have been overcome by making the navigating vessel itself an instrument of science. The paddle wheel or the screw propeller already baffles currents of wind or tide, but rapids were difficulties which science has not, until now, successfully encountered. Rapids can now be surmounted. Mr. S. S. Philips, of St. Catharines, has patented a mode of propulsion—paddles combined with pushing feet or poles—the latter shoving when the former would be of no avail against the rapid current and shallow water, by the same steam power. In addition to paddle wheels, four feet, not unlike those of a grasshopper, pass through the bottom of the boat and shove up against the stream ingeniously attached, as they are under such circumstances, to the same shaft as the paddles. These feet will enable a boat of any length to climb up, as it were, a slide or a rapid, overcoming everything except a fall, and doing away with portages. The inventor has already climbed in a boat 140 feet in length, the Mattawan Rapids, and he can doubtlessly climb up any rapid on which there is sufficient water barely to float his boat. Dr. Tache, Deputy Minister of Agriculture, has been kind enough to show us the model—No. 114, new series, under the new act—and we are persuaded that much is to be expected from the ingenuity of Mr. Philips, interesting to the man of science. His boat may accomplish all that is promised for it, and if it should do so, the northwest may be reached by water with more rapidity and comfort than has hitherto attended a journey to that distant country.—*Ottawa Times.*

Montreal Time.

Daily Intelligencer.

BELLEVILLE, SATURDAY, FEB. 12.

COMMITTED.—We are informed that the examination of the alleged forger Parsons, whose arrest we noticed in our issue of Thursday, took place in Napanee on the 10th, and that the prisoner was committed.

PICTON RACES.—These annual races came off yesterday on the ice at Picton. The principal race, for a purse of $150, was won by Mr. Soby's (of Belleville) "Dutchman," after a good contest in which four heats were trotted. Some of the Picton sportsmen dropped heavily on the result, having brought a celebrated mare from a long distance to beat the Belleville representative, against which heavy odds were laid.

SUICIDE.—A most melancholy occurrence transpired near the Sidney Town Hall, some time during the night of the 10th inst., in the house of Mr. Wm. Sharp. It seems that his wife has not at all times been of perfectly sound mind, and on the night in question was left at 11 o'clock knitting, the rest of the family having retired. Mr. Sharp awoke at 2 a. m. and his wife not having come to bed got up and struck a light, when he found her hanging by the kitchen stove, dead; she having hung herself to a hook in the ceiling. Coroner Oronhyatekha was notified of the sad facts of the case, and having impanelled a Jury the above facts were elicited. The Jury therefore returned a verdict "that the said Elizabeth Sharp came to her death by hanging herself during a fit of insanity."

DESTRUCTIVE FIRE.—This morning between 10 and 11 o'clock, a fire, originating in a defective chimney flue, broke out in the dwelling occupied by Mr. Henry Bull, in West Belleville, and known as the Bull Buildings. The hand and steam fire engines were quickly at work, but before they could get to the spot, the flames had broken through the roof, and fanned by the high wind which prevailed, rendered abortive all attempts to subdue them. In about two hours the walls alone of the three dwelling houses were left standing, the interiors being thoroughly gutted. All the furniture, we are happy to say, was saved. Both fire engines worked excellently, the steamer being placed on the ice in Flint's marsh, and forcing the water a distance of some 300 feet up the steep hill in front of the burning buildings. The hand engine had but a scanty supply of water, but good use was made of it. The houses were built of brick, and divided into three tenements, two of which were occupied; the west end by Mr. Henry Bull, and the east end owned and occupied by Mr. John Redner, while centre tenement was vacant. This is the second time that this property has been destroyed by fire. Both parties were insured for a like amount—$1,200 each in the North British and Mercantile.

NEW MASONIC LODGE.—A new Masonic Lodge was lately established in Marmora Village, under favorable auspicies. The following are the officers elect for the current year:

Bro.	Geo. G. Bull,	W. M.
"	D. G. Bowen,	S. W.
"	G. L. Houston,	J. W.
"	Robt. Steen,	T.
"	D. Fitchett,	Sec.
"	Rev. J. C. Grout	Chap.
"	J. T. Purdy,	S. D.
"	B. Johnson,	J. D.
"	— Aunger,	I. G.
"	R. Campion,	Tyler.

Kingston and Madoc Railway.

The question of passing a By-Law to grant $50,000 bonus to the Kingston and Madoc Railway, was before the City Council of Kingston, on Friday night, February 11th, and after a good deal of discussion, the Council adjourned to give time to Councillors and others to consider the question. We are not a little surprised to find one of the delegates to Madoc "turning Turk." The *News* in its editorial notice of the meeting, says:—

> "The railway project was brought up in the City Council last night, and the bonus by-law introduced. Mr. Alderman Gildersleeve made a very careful statement of the details of the scheme. A motion to adjourn was offered by Mr. Alderman Tomkins. The mover denounced railways, high taxes, the Finance Committee, and all the old dead speculations in which the city has been involved. He was followed by Alderman Allen, who asked for a map of the route, and opposed the railway with some of the arguments that have been employed in the press by "Old Hickory." The gentleman seemed to have forgotten entirely his visit to the railway meeting at Madoc, and the promise there given of what Kingston would do. He ridiculed the invention of the gentleman from Russia, whose model was to be seen in the neighbourhood of the station house, and thought that the city Solicitor might have saved the community $200 by getting the charter. Alderman Price thought that the rolling stock would not carry the freight, and rapidly went over some calculations to show his point. Alderman Chown thought the road would secure a large amount of freight and would benefit the farmers, but expressed some doubt of its benefit to the city. He thought it would be of more importance to get rid of market and road tolls. The Mayor, in reply to this, stated that an effort had been made to secure the abolition of tolls, but it ended in this that we would by giving up the market tolls and our interest in the county roads, lose $7,000 a year or thereabouts for all time to come without leaving any other item of revenue to look to. Finally the Council ordered the by-law to be printed and to stand over for its second reading on Monday evening. In the meantime the members of the council and the citizens generally may peruse the details supplied by the press and prepare themselves for the second reading."

Y. M. C. A.

The meeting last night in the rooms of the Young Men's Christian Association was a very interesting one, brief addresses being given by the Rev. S. Jones, M. A., Rev. J. C. Smith, M. A., and Mr. William Johnson. From these we learn that the present prospects of the Association are very encouraging. The rooms present a very attractive appearance, they are large, well ventilated and warm. Considerable expense has been incurred in carpeting, painting and finishing. They will be opened to the public on Monday evening.

The address of T. James Claxton, Esq., President of the Montreal Association, was listened to with much attention. Mr. Claxton was one of the founders of the first Association formed on this continent. His experience of nearly twenty years is therefore valuable. He first referred to the fact that much of his present position, as a Christian and a business man, he owed to the Young Men's Christian Asssociations, and then urged his hearers to consecrate themselves to a work so great as these Associations contemplated, advising them not to wait until they had what they might deem qualifications for it, but now with, if but one talent commence to labor for that Jesus who had done so much for them. He gave examples from the Bible, as also from some of the men of our own day, to prove that God uses "the weak things of this world to confound the mighty," and that if we do just what we can, in every way that we can, God will use us for His glory, and add to our talents.

The practical and valuable hints which he gave, about conducting the meetings, and the duties of the officers, will, we trust, be treasured up. If followed, the Belleville Young Men's Christian Association, will be a mighty power for good.—Mr. Claxton practically showed his appreciation of the effort being made to establish a Free Reading Room, by subscribing twenty dollars. He expressed himself as astonished at the comfortable appearance of the rooms, and added they had no such rooms in Montreal, or anywhere else in the Dominion, so far as he knew.

Preceptory No. 153, R. B. K. I.

At the annual convocation of this Preceptory, held in the Orange Hall, Belleville, on Friday evening, the 11th inst., the following Sir Knights were elected office-bearers for the ensuing year:

Bro. John G. Moore, W. M.
" Dr. G. J. Potts, D. M.
" H. L. Bottoms, C.
" J. H. Post, R.
" James Macoun, T.
" John Post, } L's.
" Frederick Post, } L's.
" G. D. Dickson, } C's.
" W. H. Scholes, } C's.
" Jas. T. McCreary, Per.

COMMITTEE.—Bro. Donald McKay, W. H. Lott, James McKewen, C. T. Lane, Thomas Good, James Geddis, Chas. F. Post.

THE NOR'-WEST.—The Minnesota State Legislature, true to the character of the American people, has passed a resolution sympathizing with the insurgents of Red River, and protesting against allowing Canadian troops to cross American territory. It would be as well for these rebel sympathizers to wait until they are asked for a route through their sacred soil. A letter from Winnepeg, 20th January, says there is every prospect of an early settlement of the difficulty.

—Emigration sheds are to be built in Toronto by the Dominion Government.

—The first Protestant school house, built under the new School Act of Quebec, was opened on the 10th before Prince Arthur.

—The Emperor of the French is now one of the largest landed proprietors in Spain. He has been buying land in that country for the last ten years.

To the Editor of the Daily Intelligencer.

Railway Agitation.

DEAR SIR,—In looking over the proceedings of the Belleville Board of Trade, as reported in your issue of the 8th inst., I was surprised at the want of interest manifested by the members of the Board towards the Townships north of Belleville, and would ask to what does the Town of Belleville owe its present prosperity? Is it to the Counties of Northumberland and Peterboro, or the rear Townships of the County of Hastings? I fancy if you take the trouble to ask old business men of your town, such as Hon. Billa Flint, E.W. Holton, Esq., Erastus Holden, Esq., and others I might name, I think your answer would be the rear Townships. I remember attending a railway meeting in your Town Hall some years ago, and at that time the Town was unanimous in doing something to open up the back Townships in the way of building a tram or some other railway, and I am at a loss to know the cause of the reversion of feeling that has taken place in the meantime. Is it that Belleville business men are getting so independent that they don't want our trade any longer; and now cast us off as they would an old shoe and fancy they have got all we are worth? If the latter, they are laboring under a very great mistake, as the rear Townships will compare fovourably with the front, and I think a search in the registry office would bear me out. Where you will find one farm mortgaged in the back Townships you will find two in the front. I would also ask what have become of the men who advocated the Moira Valley route to Madoc and thence to Marmora? and where is the great benefit to arise from building a road from Belleville to Peterboro via Halloway, Stirling and Campbellford? True, it may be to the interests of some to have a road in that direction, and they may perhaps turn a penny in the transaction, but the prosperity of the County which Belleville should take an interest in, would not be benefitted one cent, and it would be well for the people of Belleville to consider at your proposed meeting what would be most beneficial to the interest of the Town and County, as their interests are identical.

The old Moira Valley route, where there would be nearly sixty miles of a road passing through six Townships within the County, or the now proposed route via Halloway, Stirling, &c., passing through only two Townships, and they within two hours' drive of the town.

Yours, &c.,
MARMORA.

Marmora, Feb. 10th, 1870.

News Condensed.

—Fergus has beaten Toronto at Curling, by 18 shots.

—In Johnson county, Kansas, corn is now being burnt as fuel.

—The question of street Railways are before the House of Lords, England.

—The Newfoundland Ministry has resigned, and Mr. Bennett is sent for, to form a new one.

—Hon. A. N. Richards has been enlightning the people of Brockville upon the Nor'-West.

—Kossuth is writing his autobiography, which is to be published in six languages simultaneously.

—The shareholders of the Grand Trunk Railway, approve of the consolidation with the Lake Huron Road.

—Munroe the murderer of his paramour in New Brunswick, has made a full confession of his guilt.

—A citizen of Quebec invited a friend to his house, and then kicked him out, breaking his arm.

—The wife of one Rivard, of Quebec, gave birth to triplets a few days since, all sons, and doing well.

—The Chamber of Commerce, in Halifax protests against a substitution of Dominion notes for their Bank notes, and against the issue of a fractional currency.

—A Commission Merchant, while canvassing in Quebec, for the Municipal election, was knocked down from behind, rendering him senseless and smashing a number of his teeth out. The ruffian was not arrested.

—The manufacture of alcohol from reindeer moss, which was set on foot in 1867, by Professor Sternberg, of Stockholm, is now carried on to a considerable extent in Sweden and Norway.

A physician boasting at dinner that he cured his own hams, one of his guests remarked, "Well, doctor, I would sooner be your ham than your patient."

American Despatches.

MURDER OF AN AMERICAN CITIZEN.

NEW YORK, Feb. 12.—Havana correspondence gives news for the first time of the brutal murder of another American citizen, Mr. Vincent Dauncy, of Florida. He went over to Havana from Key West in the same steamer that conveyed the remains of the editor of the *Voz De Cuba* and for relating a somewhat modified account of the assassination, was set upon in San Jose street in the evening, by a band of armed volunteers, and put to death.

STEAMSHIP ARRIVAL.

The steamship 'Westphalia,' from Hamburg, has arrived.

THE PRINCE ARTHUR ASSASSINATION HOAX.

Superintendent Kennedy is still engaged in collecting evidence in the case of the Prince Arthur assassination hoax. It is understood that he acquits representatives of the press, of any intention to misrepresent the case, and has evidence showing that the story originated with the police.

DISCOVERY OF GOLD AND SILVER.

LOUISVILLE, Ky., Feb., 11.—Considerable excitement prevails in Harrison county, Indiana, over the reported discovery of gold and silver mines near the line of the proposed Louisville and St. Louis railway. 22 miners have been prospecting in good earnest for the past four months, and are believed to have met with success.

SMALL-POX AMONG THE INDIANS.

CHICAGO, Feb. 11.—A telegram received at the Indian Department from General Sully, states that the Regan Indians of Montana are in a deplorable condition. Small-pox is raging in the tribe, and they are suffering intensely for the necessaries of life. Unless some assistance is received from government they will perish from disease and starvation.

Personal Statistics.

The oldest Duke is the Duke of Leinster, aged 78; the youngest, the Duke of Norfolk, aged 22. The oldest Marquis is the Marquis of Westmeath, aged 84; the youngest, the Marquis of Ely, aged 20. The oldest Baron is Lord St. Leonards, aged 88; the youngest, Lord Kenyon, aged 5. The oldest member of the Privy Council is Lord St. Leonards, aged 88; the youngest, the Duke of Norfolk, aged 22. The oldest member of the House of Commons is Mr. Wm. H. Barrow, member for South Notts, aged 85; the youngest, Mr. John Hutton, member of Northallerton, aged 22. The oldest Judge in England is Vice-Chancellor Sir John Stuart, aged 76; the youngest, Sir Henry Hannon, aged 49. The oldest Judge in Ireland is the Right Hon. David R. Pigot, Chief Baron of the Court of Exchequer, aged 69; the youngest, the Right Hon. Michael Morris, Common Pleas, aged 42. The oldest Scotch Lord of Session is Hercules J. Robertson, Lord Benholme, aged 73, the youngest, Lord Mure, aged 58. The oldest Archbishop is the Archbishop of Armagh, aged 68; the youngest, the Archbishop of York, aged 50. The oldest Bishop of the Church of England and Ireland is the Bishop of Cashel, aged 86; the youngest, the Bishop of Derry, aged 45.—The oldest Baronet is Sir Thomas Beckett, aged 90; the youngest, Sir Robert Gresley, aged three. The oldest Knight is Sir John Cooke, aged 88; the youngest, Sir Charles Henry Firth, aged 33—*Who's Who in* 1870.

—Halt, Q. C., of Quebec City, has obtained a verdict of $20 for slander against Mitchell, a Montreal merchant.

The increase of taxation in the United States since the war commenced, has been fearful. In the State of New York: "Within ten years the taxation for State purposes, has nearly quadrupled, and the taxes for all purposes, including town county and school purposes, have nearly trebled, and the rate of taxation has been doubled. In 1869 the taxation for State purposes was $3,458,599. In 1859, the State tax was $8,138,029. In 1859, the taxation for all purposes was $26,353,286, and in 1859, for all purposes $46,161,531.

THE QUEEN'S SPEECH.—The comments of the English Press are not very elaborate. The *Times* thinks the weak point in the Ministry is the timid policy on the Irish question, though this is somewhat redeemed by the courage displayed in the matter of the Fenians and promise to urge vigorous legislation. The *Standard* (Conservative) considers the government responsible for the violence in Ireland, for it has failed to protect life and property there. The *Daily News* (Radical) only refers to the speech and debate which followed to urge the ballot as the panacea for the national grievances.

LEGERDMAIN.—*Or how to get a whole suit of clothes into a bottle.*—Every time you feel like taking a horn, drop the price of a "nipper" into a bottle and take a glass of pure cold water. Repeat this until the bottle is full, then break it, and carry the contents to a good tailor, and within a month you will find yourself encased in a new suit of clothes, without any trouble or expense to yourself. The same can be done with hats, boots, &c. We have known a cart load of wood and a barrel of flour to be transmogrified in a similar manner.

VALUE OF LAND IN GLASGOW.—A signal instance of the great increase in the value of land in the central business parts of the city was recently afforded by the sale of a property in St. George's place, which realized an enormous advance upon the price paid for it only three or four years ago. Another has just come to our knowledge. Mr. David McGubbin has, within the last day or two, concluded the purchase of that block of building at the south-west corner of Buchanan and St. Vincents street, facing the Western Club, at a price of somewhere about £30,000, or upwards of £50 the square yard. This is, we believe, the highest price ever paid for ground in Glasgow. The site, however, is one of the most valuable in the city.—*Glasgow Herald.*

DR. J. BRIGGS' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks: —"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 94—6mT&S

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

Orange District No. 1, S. H.
SPECIAL MEETING.

THE members of Orange District No.1, South Hastings, are hereby notified that a special meeting will be held in the Orange Hall, Belleville, on TUESDAY, 15th instant, at half-past 10 A. M., sharp, for the purpose of transacting special business.
By order, JOHN G. MOORE,
District Secretary.
Belleville, Feb. 12, 1870.

BRIDGEWATER
COTTON & WOOLLEN FACTORY

THE subscriber offers to grant splendid water power for a Cotton and Woollen Factory combined, or separate, at the thriving Village of Bridgewater, to a Company, or Companies, to be formed to erect the same.

The power is superior, as a constant supply of water can be obtained to work the Factories the year round.

The facilities for building are good, as the best material can be obtained on the premises.

A Prospectus for the formation of a company, or companies, will soon be issued, and Stock Books will be opened at Bridgewater, Belleville, and other places.

Latest by Telegraph.

BY ATLANTIC CABLE.

NEW WRIT ISSUED FOR TIPPERARY.

LONDON, Feb. 11.—Mr. Gladstone moved that as O'Donovan Rossa could not, under law, take a seat in the House of Commons, a new writ of election be issued for Tipperary.

Mr. Henry Mathews, member for Dungarvan, opposed the motion.

The Solicitor-General, admitting that Rossa's crime was not treason, said that nevertheless an attainder attached, and therefore the motion was within the powers of the House.

Mr. Johnson made a speech against the motion.

Mr. Gathorne Hardy argued that if Rossa was a member of the House he would be liable to expulsion. The course of the government in this case would therefore have his support.

Sir Roundell Palmer concurred in the opinion expressed by the Solicitor-General.

After speeches against the motion from Mr. Bouverie and Mr. Gregory, a vote was taken with the following result: For Mr. Gladstone's motion, 301; against it, 81.

Notice was given of a bill providing for the reorganization of a mint and making the Chancellor of the Exchequer ex-officio master of the mint.

Mr. Monsell, Under Secretary for the Colonies, referred to the Red River disturbances and attributed the opposition there to Lieut-Governor McDougall to his misconception of his powers. He said instructions had been forwarded to the Governor.

ALABAMA CLAIMS.

The Earl of Kimberly submitted the correspondence between England and the United States on the Alabama claims.

GRAND TRUNK RAILWAY.

The shareholders of the Grand Trunk Railroad approve of a consolidation with the Lake Huron road.

OCEAN POSTAGE.

The Postmaster-General alluded to the proposed reduction of ocean postage between Great Britain and the United States, and expressed the opinion that it would result in a great increase of mails and of revenue therefrom.

INDIAN CABLE.

The shore end of the Indian telegraph cable taken out by the Great Eastern has been landed at Bombay.

THE TIPPERARY ELECTION.

The *Times* urges that O'Donovan Rossa's election to parliament from Tipperary be declared void.

REDUCTION OF THE DEBT.

The *Times* denounces the plan of the Chancellor of the Exchequer for redeeming the debt as an old sinking fund chimera obliging the state to redeem at an increasing rate for a century to come.

FRANCE.

PARIS, Feb. 11.—The city is entirely quiet and no disturbances during the night. Places of business were open as usual. The police patrolled the streets in force, but did not make any arrests. Over 400 persons have been apprehended during the past three days. The magistrates are investigating cases as rapidly as possible. All prisoners who have been prosecuted have been sent elsewhere for confinement.

Gustave Flourens is still at large.

(5, p. m.)—The police authorities profess that they have discovered an extensive conspiracy against the government, and are actively engaged in searching for the parties implicated. A great number of arrests were made last night and to-day. It is stated that the editors of 'La Marseillaise' and two of the editors of the 'Reveil' were arrested on charges connected with the alleged conspiracy.

'La Marseillaise' re-appeared to-day and was largely bought on the streets.

Several citizens were killed during the recent riot and their bodies placed in the Morgue. The police refuse to give any details concerning them.

RUSSIA.

ST. PETERSBURGH, Feb. 11.—The Home Secretary, in view of recent manifestations of popular discontent, recommends the Czar to cancel all liberal reforms lately inaugurated.

ROME.

ROME, Feb. 11.—The Œcumenical Council at the last two sessions was engaged in the discussion of ecclesiastical discipline. That subject has been disposed of, and at a meeting to-day the subject of the catechism was considered. Seven fathers participated in the discussion.

SPAIN.

MADRID, Feb. 11.—It is reported that the Carlists are preparing for another insurrection.

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber, firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO, LINDSAY, ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.

51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds,
BURNS AND BRUISES,
PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors.

304d 51w 4w Montreal, P. Q.

The Ontario Farmer.

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 384 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	15.00

And all over 20, at 75c per copy, free of postage.

Communications intended for publication, Items of agricultural intelligence, &c., may be addressed to

W. F. Clarke,
Editor Ontario Farmer, Guelph.

Orders and Remittances will be sent to

T. & R. White,
Publishers Ontario Farmer,
Hamilton, Ont.

December 15th, 1869.

NOTICE.

APPLICATION will be made to the Parliament of the Dominion of Canada at its next Session, for an Act to revive the Charter of the GRAND JUNCTION RAILWAY COMPANY, and to place the said Company in the same position it held before its amalgamation with the Grand Trunk Railway Company of Canada, and with power to make arrangements with said Grand Trunk Railway Company for Station and other accommodation at Belleville, and for other purposes connected with said Railway.

Also for power to build said Railway of such gauge as may be most expedient; and for such amendments to said Charter as to the route, the character of the Railway, &c., as may be thought best.

Also for power to the Municipalities interested in the construction of said line, to grant bonuses, &c., to aid its construction; and for other purposes.

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building, Front Street

"Go, Feel What I Have Felt."

[A young lady of New York was in the habit of writing for the Philadelphia *Ledger*, on the subject of Temperance. Her writings evinced such deep emotion that a friend of hers accused her of being a maniac on the subject of temperance, whereupon she wrote the following stanzas:]

Go, feel what I have felt,
Go, bear what I have borne;
Sink 'neath the blows a father dealt,
And the cold world's scorn;
The sufferer on from year to year—
The sole relief the scorching tear.

Go, kneel where I have knelt,
Implore, beseech and pray;
Strive the besotted heart to to melt,
The downward course to stay;
Be dashed with bitter curse aside,
Your prayers burlesqued, your tears defied.

Go, weep as I have wept,
O'er a loved father's fall;
See every promised blessing swept—
Youth's sweetness turned to gall—
Life's fading flowers strewn all the way
That brought me to woman's day.

Go, see what I have seen,
Behold the strong man bow;
With gnashing teeth, lips bathed in blood,
A cold and livid brow;
Go, catch his withering glance and see
There mirrored his soul's misery.

Go, hear, and feel, and see, and know,
All that my soul hath felt and known;
Then look upon the wine-cup's glow,
See if its beauty can atone;
Think, if its flavor you will try
When all proclaims, "'tis drink and die!"

Tell me I hate the bowl;
Hate is but a feeble word;
I loathe—abhor—my very soul
With strong disgust is stirred,
Whene'er I see, or hear, or tell,
Of that dark beverage of hell.

A Puzzle, with a Suggestive Moral.

Theyt ell me Iam hands ome yet,
Andall thel adies say:
"Dol cok athim, thed ear ol dman
Gro wsyoung ereve ry day!"
And whent heyas kme, "Aty oura ge.
Ho ware yo ufreed fro mills?"
Ial waysan swer: "In my youth
I prid my Printers' Bills."

—A song that is just now popular in London has the following chorus:

I saw Esau kissing Kate,
And the fact is we all three saw;
For I saw Esau, and he saw me,
And she saw I saw Esau.

A teutonic citizen out West, went away from home on a business tour, leaving money with his wife to pay for the support of his family during his absence. On the first day of his return his wife asked him for five dollars to go a marketing. 'Vair peas de seven hundred tollars I left mit you? said the husband. 'You know, Hans,' said the husband. 'You know, Hans,' said the vrow, persuasively. 'Katrina is growing up very much, and I bought her a—a planner.' 'A planner!' yelled the astonished Teuton—'bought Katrina a planner! Vell, you shust go un cook de planner!' 'Ach!' shrieked the mother of Katrina. 'Mind, now der is more vot I ain't got to say,' says Hans, 'ven you get hungry you can shust make your sassages out of der planner keys!' 'Ach!' 'Don't ask me for money to get der markets. Make leg of mutton out of planner legs and schop up planner cover into sour krout!' 'Ach Himmel!'

Too High Up.—There has always been comfort to soured, unamiable bachelorhood in those quaint, but beautiful, ideas expressed in the song:—

"If a body meet a body
Comin' thro' the rye,
An' a body kiss a body,
Need a body cry?"

It doubtless influenced the action of a certain official whose wife suddenly entering his private office, detected him lavishing the most tender caresses upon a young and beautiful female.

"What are you doing Judge!" she very pertinently inquired.

"Why—ah! bless my soul—yes! Why this young lady is taken suddenly ill, and I was just feeling her pulse!" And, as if in proof of his words, the young lady appeared to be in a severe faint.

"Well, Judge, you feel too high up for the pulse. *Its in her wrist—not on her lips!*" was the suggestive rejoinder.

At a negro ball, in lieu of "Not transferable" on the tickets, a notice was posted over the door, "No gentleman admitted unless he comes hisself."

Catarrh, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

Consumptives, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

Cure for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

July 22, 1867

Fortieth Year.

GODEY'S LADY'S BOOK For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies' Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 60.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,
Ottawa, Nov. 6.

AUTHORIZED discount on American Invoices until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use,

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL,

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this marvelous remedy known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that no one of the best approved discoveries in Medical Chemistry or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS.

If exposed to contagious or epidemic pestilence, it not only Cures Pain, but will prevent it and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure. It cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith in its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicine and the best skill of physicians. Without having the assurance of one dollar's return beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED *those who were exposed.*

The Wisdom of Providence in selecting the Inventors and Proprietors of this remedy as agents to carry out His will in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to wait for it [illegible] who were the waters to return after many days, who were content to spread out before the world the healing, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity [illegible] showed the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Relief, the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, he Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cure, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever.

In the world. There is no Ague Cure, Chi [illegible] or preparation of Quinine, Arsenic, or [illegible] forms of Mercury in fact, any remedy [illegible] will cure this disease so positively, so [illegible]

Radway's Ready Relief.

No. not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, [illegible] Ague Cures and Private Practice [illegible] the penalty of engorged liver [illegible] discolored skin and hundreds of other symptoms of distress. There agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $5, and Radway's Ready Relief is good for hundreds of other ailments that these are [illegible]

One 25 cent bottle of [illegible] Relief diluted in [illegible] will give you equal in [illegible]

141 bottles of the [illegible] Pains, Killers, [illegible] of Rad [illegible]

One bottle of [illegible] Relief, for 25 cents [illegible] Family Purposes will secure every household [illegible] would cost at least [illegible] ($25) twenty-five dollars [illegible] to purchase prescriptions or drugs every time pain sickness, or accident takes place.

Painful Attacks when

Radway's Ready Relief

WILL AFFORD INSTANT EASE

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops in a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,
Wind in the Bowels,
And All Internal Pains.

The above dose, taken every fifteen minutes wil quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic. Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co's Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. Ask for **Radway's Ready Relief.**

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the Edinburgh. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum.
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The Postage on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, one of the Four Reviews for 1869. New Subscribers to all the five may receive Blackwood or two of the Reviews for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by Henry Stephens, F.R.S., Edinburgh, and the late J. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo, 1600 pages and numerous Engravings. Price $7. By Mail post-paid $8.

Gossip for the Ladies.

GOOD WORDS TO LADIES.

The subject of clothing is understood well enough, and the rules of common sense are well enough observed by men. But women are under the guidance of a higher law than any relating to her individual safety. No woman who is a woman values her comfort, health, her life, in comparison with her personal appearance. She is impelled by a profound logic—say rather a divine instinct. On the slender thread of her personal attractions hangs the very existence of a human future. The crinkle of a ringlet, the tie of a ribbon, has swayed the wavering choice of a half-enamored swain, and given to the world a race which would never come to the light of day but for the pinch of the curling tongs of a turn of the milliner's fingers. It is in virtue of this supreme indifference to consequences—this sublime contempt of disease and death with the loss of the smallest advantage—that woman has attained the power of resistance to exposure which so astonishes the mail sex. Think of her thin shoes and stockings, her bare or scarcely protected neck or arms, her rose leaf bonnet, by the side of the woollen socks, the layers of flannel and broadcloth, and the warm hats and caps of her effeminate companion!—We may learn a reason in the matter of clothing from the trainers and jockeys.—They blanket their horses carefully after exercise. We come in heated and throw off our outside clothing. We dress for summer, and the next thing down goes the thermometer, and we run a risk to which the owner of a race horse would not subject his beast.

HOW TO CHOOSE BLACK SILK.

As this is a point upon which most ladies possess little or no information, the following correct test, if observed, will be found advantageous:—"When a woman is about to choose black silk, it is well to pull a thread out of the 'tram' or filling. She must try the strength of the thread. If it breaks easily the examination has gone far enough; it is wisdom to look further. We will suppose the thread has been tried, and that it indicates some backbone. Then it is necessary, if the woman is right brave, and dares to do such a thing with a handsome pair of clerk's eyes bearing down upon her like a privateer upon a poor little merchant-man, to seize the silk by the corner, and to rub it just as the washerwoman would do when she intends to remove a stain. If this awful ordeal can be performed to perfection—remember, some muscle must be brought to play—the silk is honest and legitimate. If it is heavy with dye, if held up to the light, slight traces of disaster may be discerned."

THE MANAGING WOMAN.

The managing woman is a pearl among women; she is one of the prizes in the great lottery of life, and the man who draws her may rejoice for the rest of her life. Better than riches, she is a fortune in herself—a gold mine never failing in its yield—a spring of pleasant water, whose banks are fringed with moss flowers when all around is all bleached white with sterile sand. The managing woman can do anything, and she does everything well. Perceptive and executive, of quick sight and steady hand, she always knows exactly what is wanting, and supplies the deficiency with a tact and cleverness peculiar to herself. She knows the capabilities of persons as well as things, for she has an intuitive knowledge of character. The managing woman, if not always patient, is always energetic, and can never be disappointed into inaction. Though she has to teach the same thing over and over again, she is never weary of her vocation of arranging and ordering, and never less the hopeful of favorable results.

HOOP STATISTICS.

The question of hoops has been before the public for some time now, and it still seems a question in the minds of most people whether they are fashionable or not. One thing is certain; they are more generally worn this winter than last, and from information received from one of the largest manufacturers, it would appear that the hoops lately ordered by the ladies of fashion and the retail dealers are much larger in circumference than those worn for the last five years. It is claimed also by manufacturers that the trade is comparatively brisk. By going into statistics it is discovered that never, once, since the creation, has the fashion of wearing hoops, when once adopted, lasted less than fifty years, and judging the future by the past, we have, according to that, some forty years of hoops, more or less, in store for us. However, if the ladies of olden times could stand the ungainly, stiff, poky arrangements of their day for fifty years, we ought, with the light, flexible, graceful little articles manufacturers have been to such trouble and expense to perfect for us, to submit to the infliction (if it can be so called) a thousand years at least.

PLAIN DRESSES.

To make up plain materials into fashionable dresses and costumes is, says the *Queen*, no easy matter. For house dresses bright warm colors are preferred, rather than the dark rich colors so appropriate for the street. Blondes wear bright Alexandra blue, violet purple, oasis green, or the stylish prune-color; brunes choose ruby, maroon, French blue, or else a clear grey, enlivened with trimmings of garnet or gay plaid. The design for such dresses is a short basque, with revers or without, and coat-sleeves. The skirt is but two fingers longer behind than a walking dress skirt, and is four and a half yards wide. The trimming is velvet ribbon or bias silk bands of the shade of the dress. If the waist is without revers, the neck is merely corded, and a standing frill of sheer muslin is worn with it. A similar ruffle inside the coat sleeves falls over the hand. For street suits of Empress cloth or merino the colors are lapis-blue, invisible green, Egyptian brown and other dark shades. These are plainly made with a single skirt, trimmed with a deep plaiting, headed by a band of velvet. The plain round waist and coat sleeves are but little trimmed. An over-basque with velvet collar and cuffs is flannel-lined or wadded. Half flowing sleeves make this garment more dressy. Finer woollen materials are made with Metternich mantles, ample enough to dispense with tunics, or else they have long redingotes draped to give the appearance of two skirts. With furs these suits are worn in the coldest weather. If more warmth is desired, a short paletot of cloth or velveteen, the color of the dress, is added. Heavy suits of cloth are trimmed with Astrachan bands. Hercules braid is more appropriate for serge and plaid goods. The most stylish velveteen suits consist of a basque and skirt edged with a thick core of satin, or with a tiny frill of plaited gros grain. Elaborate trimming on velveteen is in bad taste. By far the most tasteful costumes of the season, and only less distinguished than velvet, are those of black cashmere. The mode for these is a Metternich mantle ample enough to make a tunic unnecessary, and a single skirt trimmed with flat plaitings. Passementerie ornaments and thick crimped fringe, or else fine guipure lace, trim the mantle. It is in refined style to wear a cashmere Metternich over silk and velvet skirts, and thus this useful wrap gives variety to costume.

THE LAST CAPRICE OF FASHION.

The London *Echo* remarks that the last and sweetest thing in fashion is the "Alexandra Limp." Shoemakers in London now offer their fair customers the choice of boots with equally high heels for each foot, or the far more charming variety of a high heel for one foot and a low heel for the other, causing the wearer to halt in a way supposed to be imitative of royalty! And after this, Frenchmen and Americans will say we English are not a courtly people! What small remnant of humanity will there be left "to sink or swell as nature pleases," when fashion has completed its conquests? One of the journals which rule the world of dress concludes a recent description of attire by the observation: "With this costume the mouth is worn slightly open." We have heard before of lips wearing

A bright sunny smile,
While the cold heart to ruin runs darkly the while.

But to "wear" one's own mouth opens out quite a new vista of possibilities in the way of decoration.

WHAT TO GET FOR BREAKFAST.

Most housekeepers can easily arrange or order a dinner; but breakfast, then comes the tug of war. What shall we have? There's cold roast beef, mutton, etc.; but *pater familias* may take exceptions to such fare. Here are a few recipes for toothsome breakfast dishes, which can be made from those cold remains of roast or broil:—

Beef Rissoles.—Cut the meat from the roasted joint, or take pieces of beefsteak left from dinner. Chop them very fine, freeing them from all bits of gristle. If salt pork is liked, chop a slice of it with the beef. To one teacupful of beef add one teacupful of grated bread; if it is very stale moisten it with milk, and chop with the meat. Add one well beaten egg, salt, pepper, a sprinkle of allspice, and, if onions are comeatable, chop a small one for flavoring. Mix all well together; if the bread used is not softened, add two tablespoonfuls of sweet milk. Flour the hands and roll up the mixture into good-sized balls. Fry in hot lard or in beef drippings. Serve on a platter with sprigs of parsley and pickled beet sliced, and you will relish your breakfast.

Fried potatoes are easily prepared, and with a little practice, one can soon fry them as perfectly as they do at Saratoga Lake.—Slice the potatoes with a potato or cabbage cutter. A sharp knife may do. Of course they are first to be pared. Soak the slices all night in very cold water. In the morning dry them in a towel; then fry in boiling lard—as you fry dough-nuts—only cooking a few at a time. Five minutes will cook them, if the fat is as hot as it should be.—A failure often results from frying too long. To make them crisp and white, only a few moments are needed. A large supply can

be cooked, and warmed over in the oven when needed. They make a nice supper-dish.

ADVICE TO A WOMAN WHO WISHES TO BE BEAUTIFUL.

First—Let her correct her bad habits, if she has any, of carriage, of expression, of want of cleanliness, of false modes of dress, of injudicious diet, and of indolence.

Secondly—Let her study her own complexion, expression, statue, profile and outline, precisely as an artist does those of one of his ideal figures, and with the same care and pains as the artist, let her choose for herself the contrasting and harmonizing colors, the coiffure, the expression, and the manner best adapted to bring out prominently all her natural advantages, and throw into the shade all unfavorable traits.

Thirdly—Let unsightly warts and scars be done away with, let hairs which injure the appearance be destroyed, the complexion and hair be cultivated, the form developed, diminished or increased by hygienic and dietetic means, if need be, and the general health improved under the advice of an intelligent physician, the teeth, voice and even the nails attended to. If she has done all this, there will be little need for the purely venal cosmetic arts, such as paints, powder, patches and rouge.

NEW YORK LADY BANKERS.

King Solomon was of the opinion that there is nothing new under the sun. On general principles he was, perhaps, right; but when we come to specialities, details and modifications of old things he was wide of the mark. Something new in this line is turning up every day, and among the latest, the most interesting, the most suggestive and the most promising of new things is the female banking firm in Broad street of Woodhull, Claflin & Co. They have created a new sensation "on Change," not so violent as, but more profound than the gold corner panic of that awful "black Friday,"and these lady financiers, as dealers in bills, bonds, stocks, &c., appear to be so firmly seated in the saddle and so confident and so well posted that the notion prevails among the lame ducks and old foxes of Wall street that Vanderbilt, the oldest fox of them all, is at the bottom of the experiment. No matter. The experiment is one of great importance. If successful it opens a new and boundless field for employment to women—a regular California gold placer, not only in New York, but in every city and town in the United States and in both hemispheres. But if it should fail? Fail! These ladies of the new banking firm, they say, are backed by a capital of half a million, and they cannot fail. At all events, we like the experiment as a new thing, and we wish it success.

Extraordinary Phenomenon on Lake Superior.

A TIDAL WAVE, OR WHAT?—THE LAKE SUDDENLY RISES FOUR FEET ABOVE ITS USUAL LEVEL, THROWING UP TREES, LOGS AND ICE, AFTER WHICH IT GRADUALLY SUBSIDES.

From the Tri-Weekly Chatham Planet.

We are credibly informed by an eye witnes—indeed yesterday we saw for ourselves tangible evidence of the truth of what is told us—that on Thursday the 13th of January last, a most extraordinary and sudden rise of the waters of Lake St. Clair occured and was particularly observable in the vicinity of the mouth of the River Thames and along the south shore of the Lake, to and beyond the River Ruscom. Parties resident on the lake shore inform us that at first two loud reports were heard resembling the reports from cannons fired at a distance, after which was experienced a sensation as from a gentle swaying to and fro, as though an earthquake had been awakened from a century's repose. Upon visiting the water line, it was discovered that the ice had been suddenly shoved upon the shores and piled up several feet in height, carrying with it trunks of trees and logs, which had for a quarter of a century lain embedded in the sand of the beach; at the mouth of the River Thames and vicinity the ice was thrown to the height of two or three feet, while at the River Ruscom, it was raised at least four feet above its ordinary level. As was intimated before, so sudden was the action of the water in the lake, that the ice and trees, and logs were absolutely piled in a jumbled mass several feet in height along the shore for a distance of several miles, but was most observable on the south and south-east quarter. At the mouth of the River Thames the waters fell to their natural level in less than two days; but in the vicinity of the River Ruscom it was full a week before they had retired to their ordinary boundary.

Now, what could possibly have caused this wonderful freak of the elements? We cannot tell. Perhaps some of our *savants* can explain. Could it have been any volcanic action beneath the waters? Could it have been produced by the atmospheric elements above? Or could it possibly result from a flood of ice making its way down the Detroit River and becoming checked in its onward course to Lake Erie? But it seems most extraordinary that this last circumstance—supposing it ever did occur, but of which we have no knowledge—could bring about the very wonderful effects which were most unmistakeably observable for miles along the south and south-east shore of Lake St. Clair. For our own part we don't pretend to be posted on these intricate and debateable matters, and do not feel disposed at present to discuss them. We prefer to leave their investigation and elucidation to those who have more time on their hands and whose bent of mind naturally leads them to find causes for astonishing and hitherto unexplained facts. We profess to be pre-eminently practical.

Socialism in Russia.

A REVOLUTIONARY PROCLAMATION—CHARGES AGAINST THE CZAR.

The *North Eastern Correspondence* publishes a curious proclamation, which has been discovered by the Russian police in its search for the members of the late Socialist conspiracy.

"Brothers," says the document, "our patience is at an end. Existence every day becomes harder to you. We have been deceived with vain promises, This earth which God has made for all men, has been seized upon by our masters. * * * Justice is nowhere. Tyranny reigns everywhere. Formerly it was not thus. The fields belonged to those who cultivated them. Our ancestors knew neither nobles nor priests,nor merchants, nor usurers; and they therefore, lived free and happy. But foreign princes came from beyond the seas, bringing in their train nobility and officials; they enslaved the people and seized their fields, and have ever since lived on the sweat of our brows. * * * After becoming masters of our country the conquerors built towns,whence they still lord it over us. It is to them we owe those oppressive laws and heavy imposts which reduce us to misery. They are satisfied. Why should they not be? They fatten on our bread. Their towns are so well fortified that it is impossible for us to attack them, unless by firing the red cock." (This is a term used by the peasants for setting a town on fire.) "The Czar" proceeds the proclamation, "was drunk when he signed the ukase which was read on the 19th of February, 1861; What says this ukase? Peasants you are free; but only on one condition—that you shall not possess an inch of ground. * * * There was a moment in our history when we were allowed to hope—the Czar and all his family had perished! Unfortunately, the nobles got a small prince from a German country,and it is from this stranger that has arisen the line of sovereigns who have so long oppressed us, this German family has multiplied indefinitely. * * * It eats a great deal, and the expenses of its courtiers are enormous. * * * The consequence is that we are deeply in debt without a hope of clearing ourselves. Like fools, we allow ourselves to be governed by Germans, who do so in order to fill their pockets. * * * There is only one course left to us—to strangle our masters like dogs. No quarter! They must all perish. Their towns must be destroyed; the country must be purified by fire. * * * what is the use of these towns? Only they engender servitude. When the peasant will be master of his house, and his field, when he can work in his village, he will not feel the want of being employed as a servant in a town. As they have rifles and cannon,and we are without arms, it is only by fire that we can attack and conquer them. When the walls behind which these rascals entrench themselve are reduced to ashes,they will be forced to die of hunger."

News Condensed.

—Mr. Workman has been elected Mayor of Montreal.

—Discount on United States invoices, this week, 17 per cent.

—A Young Men's Christian Association has been established in Cobourg.

—Over 1,000 cards of invitations have been issued for the Ball to Prince Arthur in Ottawa.

—A fire at the residence of Chas. Farewell, on the 12th inst., Oshawa, destroyed barns, sheds, grain, and four valuable horses.

—A great Masonic Ball was held at Whitby on the 11th inst., which was attended by large numbers from different parts of Canada.

—A curate having been overhauled by his bishop for attending a ball, the former replied, "My lord, I wore a mask." Oh, well, returned the bishop, "that put a new face on the matter."

—The new Premier of Newfoundland has made a speech in the House, assailing the late Minister, and justifying the course taken by himself and his party. He repeated the assurances already tendered,that it was not intended to infringe upon the prerogative by sending up his (Mr. Bennett's) name to the Premier. His explanation of the motives which led to that step being taken are, however, very weak, and ought to be accepted on the supposition that the Lieut.-Governor was totally ignorant of the ordinary proceedings of his own Legislature.

—The funeral of the late Lieut.-General Sir Charles Ashe Wyndham took place on Saturday at Montreal. There was an entire absence of ostentation in the ceremonies, although nothing was wanting to show the sincere respect of all classes for the deceased commander. The Military attended in great force. Prince Arthur was present, and the Governor General was represented by one of his aides-de-camp.

The Mayor of a country town was questioning the boys at a ragged school, and asked them what were the pomps and vanities of this wicked world. He asked them one by one, but they could not tell him. At last a little boy near the bottom said, "I know, Sir, the Mayor and Corporation going to church, Sir."

A Trinity College (Dublin) man was talking the other day upon the small value attached to life by uncivilized nations. Somebody remarked that in China, if a man were condemned to death, he could easily hire a substitute to die for him. "Ah, yes," said T. C. D., I believe many poor fellows get their living by being substitutes that way." A vision of life, verily!

Daily Intelligencer.

BELLEVILLE, MONDAY, FEB. 14.

ENLARGEMENT OF THE CANALS.—The Toronto people intend memorializing the Government, respecting the enlargement of the St. Lawrence Canals, which the rapidly increasing traffic renders necessary. If the St. Lawrence Canals are enlarged, the Welland Canal will also likely be.

DISCOUNT ON SILVER.—From the order in Council, it appears that the 15th day of April is the day named, after which a reduction of 20 per cent. on American silver will take place; therefore we would advise our readers to dispose of their spare silver before that date, otherwise they will subject themselves to said discount, or penalty if any attempt is made to pass silver at a higher rate.

DAYS GETTING LONGER.—The first day of February was nine hours fifty-eight minutes long. The last day of the month will be eleven hours and twelve minutes, being a gain during the month of one hour and twelve minutes. In March the gain will be one hour and twenty-three minutes; in April one hour and twenty minutes; in May 56 minutes; from June 1st to June 22nd, when the maximum is reached, 16 minutes.

FORGERY.—A telegram from Napanee, Feb. 12th, says: "Edward De Forest Simpson was arrested last night in Kingston,on a telegram from the Chief of Police, Napanee, for uttering forged papers for washing machine rights, in connection with O. F. Parsons, who was brought up this morning to Napanee and locked up till half past two o'clock. He was then arraigned before the Mayor; but for want of evidence was remanded till Monday morning at ten o'clock. In default of bail he was locked up."

"Private and Confidential."

Sir Francis Hincks has issued a circular addressed to prominent Reformers throughout the country, in which he gives his reasons for joining his fortunes with the Cabinet of Sir John A. Macdonald. The circular is marked "private and confidential," and it is a matter of some little interest to know how it first became public. We observe that the Toronto *Telegraph*, which claims to have been the first journal to publish it, says it cost it fifty dollars, and pitches into the *Globe* in sledge-hammer style for "*stealing*" said document from its columns. Who is the Reformer that sold the letter for fifty dollars? Will the *Telegraph* tell?

The document referred to is a most extraordinary one, and although it is addressed to Reformers, and purports to be a private explanation of the reasons which induced him to accept office in the Dominion Government, its revelation of State secrets, and its bearing upon the political crisis now pending, give it an importance which otherwise would not be attached to it.

An epitome of this letter can be given in a few brief sentences. It sets out with justifying the coalition; refers to the hostile attitude of the Fenians and annexationists who desire to absorb Canada; tells us that two Maritime Provinces are yet out in the cold; laments the opposition of the majority of the Reform members of Ontario; considers Mr. Brown's resignation wholly indefensible; refers to the seats held by Reformers which had become vacant, and modestly says "personally he had no claim to consideration from any party with regard to political arrangements, and but for the peculiar state of parties existing at the time of my arrival,it is most improbable that I should have been thought of in connection with them"; refers to the desire of Sir John A. Macdonald to convince the Reform party in Ontario that he wished to "adhere to the principle on which the Dominion Government had been originally formed, and that he would not reconstruct his Cabinet on one of exclusion," and having been offered the position of Finance Minister with the privilege of recommending another Reformer as his colleague, he waived all personal objections, and consented to sacrifice himself on the altar of his country.

We said it was a most extraordinary document. Considering that Sir Francis had been absent from the country for fifteen years; that he must necessarily be a comparative stranger to the present political condition of Canada; that he had been read out of all parties long before he left Canada; that his antecedents were of that character which rendered his return to power in the Dominion repugnant to both political parties—his acceptance of office, as we expressed at the time, was without parallel in the history of the country, and was wholly unjustifiable and indefensible.

His "private and confidential" letter to Reformers can only be characterized as a gross piece of assumption and impertinence, and we fancy will be treated as such by nine-tenths of those to whom it was addressed. It is certainly not creditable to the once powerful Reform party, and not creditable to the Dominion, to admit that Sir Francis Hincks was the only man to whom the destinies of the party and the destinies of the country could be safely committed. We shall expect some lively times before many risings and sittings of the sun.

Police Court.

(Before ALEX. ROBERTSON, Esq., who presided in the absence of the Police Magistrate.)

MONDAY, 14th Feb., 1870.

VAGRANCY.

Mary Long, an old offender, was brought up on a charge of Vagrancy. Fined $2 and costs, or 30 days at hard labor. Being unprovided with the cash, she was sent up.

Latest from Red River.

CONVENTION AT WINNEPEG—PROCEEDINGS AT THE MEETING—DONALD SMITH'S COMMISSION—FRIENDLY SPIRIT TO CANADIAN GOVERNMENT—BILL OF RIGHTS—COMMENTS OF THE "NEW NATION"—RED RIVER PART OF THE DOMINION—BILL OF RIGHTS.

From the Telegraph's Special Despatch.

ST. PAUL, Minn., Feb. 12.—Winnepeg dates of 28th received. The Convention met on the 25th, but did nothing the first day, owing to the non-arrival of some delegates. On the second day the Convention was organized, and Judge Black elected as chairman. Schmidt and Coldwell, Secretaries in the contested election case, Bannatyne vs. Scott, decide in Scott's favor.—Riell moved that Smith's papers be translated into French.—Carried. The third day Smith's Commission was read and commented on favorably. Riell said that there is ample grounds in this document for the belief that Canada is disposed to do us justice: she has shown her disposition, willingness, and readiness to do us justice. It would seem that at first the Canadian Government forgot to speak to us of certain of our rights; but that later events have caused them to recollect what they were willing to do for us. Riell moved that Smith be requested to come before the Convention, as a Commissioner to state what he can do, and to state, according to his judgment, what ought to be done to secure the rights of the Red River people. Riel said now that Canada begins to respect us, and we are willing to meet these advances, and consider them fairly and justly. He concluded by saying that being now in a position to get our rights, we heartily welcome Mr. Smith to this country. Mr. Smith explained his position, after which a Committee (four French and three English),consisting of Thos.Bunn, James Ross, Dr. Bird, S. Inis, Riel, Louis Schmith and Chas. Nalon, he appointed to meet at Winnepeg on the 28th, to draw up a new bill of rights and to submit it to Mr. Smith as a basis of demands of the Red River people. The convention was harmonious and the best of feeling prevailed.

The Winnepeg *New Nation*, of Jan. 20th, says: The Red River convention met at Winnepeg on the 25th inst., and after three day's session decided to draw up a list of rights demanded by the people,and submit it to the Canadian Government through Donald Smith,the Canadian Commissioner, as a basis of their becoming part of the Dominion of Canada.

American Despatches.

ARRIVALS—VESSEL STRANDED.

NEW YORK, Feb. 13.—The 'Anglia' has arrived from Glasgow. She reports Feb. 12th they passed the schooner 'Nerita,' of St. Johns, N. B., waterlogged and abandoned. The crew is probably saved.

The steamer 'Ville De Paris,' arrived this evening.

CUBAN INSURGENTS.

The Cuban Junta here report that the Insurgents who were furnished with arms from the steamer 'Anna,' were attacked eight miles from Neuvitas by the Spaniards. The Spanish troops were defeated and their general wounded.

Three steamers left this port during the past week from Havana by way of Nassau, one of them had 31,000 Remington Rifles on board and 150 cartridges to each rifle.

INTERNATIONAL EXHIBITION.

WASHINGTON, Feb. 13.—A letter has been received here from Queen Victoria's commissioners explaining a scheme for a series of International Exhibitions of works of art and industry, to be held annually in London. The first exhibition to take place in 1871. The proposed annual International exhibitions will differ materially from those which have preceded them; these will be comparatively limited in extent. The objects will be selected by competent judges before they are admitted. The arrangements will be in classes without reference to Nationalities as heretofore. Exhibitors will be relieved of all charges for arranging and taking care of their objects during the exhibition. It is intended that the exhibitions shall be opened on the first of May and closed punctually the thirtieth of September.

BRITISH COLUMBIA.

SAN FRANCISCO, Feb. 12.—The Legislative Council of British Columbia opens on the 10th inst. The principal measure to come before it will be one for Confederation with the Dominion of Canada. Annexation to the United States is strongly advocated in the papers of the Colony. Gov. Musgrove is rapidly recovering from the effects of a recent accident.

ARRIVAL.

NEW YORK, Feb. 14.—The steamship 'Manhattan,' from Liverpool has arrived.

—The wife of one Rivard, of Quebec, gave birth to triplets a few days since, all sons, and doing well.

'Doctor, what do you think is the matter with my little boy?' 'Why, it's only a corrustified exegesis pantispasmodically emanating from the germ of the animal refrigerator producing a prolific source of irratibility in the pericranial epidermis of the mental profundity.' 'Ah! that's what I told Betsy, but she 'lowed it was worrums.'

TO LET,

THE premises at present occupied by A. SHEARING, corner of Front and Bridge Street. Possession on the 11th MARCH.

BRIDGEWATER
COTTON & WOOLLEN FACTORY

THE subscriber offers to grant splendid water power for a Cotton and Woollen Factory combined, or separate, at the thriving Village of Bridgewater, to a Company, or Companies, to be formed to erect the same.

The power is superior, as a constant supply of water can be obtained to work the Factories the year round.

The facilities for building are good, as the best material can be obtained on the premises.

A Prospectus for the formation of a company, or companies, will soon be issued, and Stock Books will be opened at Bridgewater, Belleville, and other places.

Belleville, Jany. 27, 1870. 50-d&wtf

TENDERS

WILL be received till MONDAY, the 21st February, 1870, for the Carpenter and Joiner work of six tenement buildings to be erected on the "Blacklock Lot," alias "Central School Lot," on John Street, in the Town of Belleville. Also, for the Brick work.

Plans and specifications to be seen at the office of Messrs. Dickson & Gilbert.
WM. SUTHERLAND.
B. S. GILBERT.
Belleville, Feb. 8, 1870. 308td w52:2t

MADAME MONSUER,
SEEING MEDIUM,
Astrologist and Phrenologist,

HAS arrived in Town, and will remain a short time at the
ANGLO-AMERICAN HOTEL.
☞ Please Walk Up-Stairs. ☜
Reception Room first door to right. Private Room No. 6, second flat,
Where she can be consulted in regard to future events, relative to sickness, health, distant friends, place of residence in future, and even the complexion and condition in life of the future husband and wife, and will answer any question given her on any subject whatever, agreeable to the person propounding the same. By what means she can do this last is not known to herself, and barely knows as others know—she can do it.

She is descended from a long line of French Astrologists, and can also tell the future by the hand and cards.

Those who wish for consultation will please call on Madame Monsuer, at the Anglo-American Hotel, from 9 a. m. to 9 p. m.

Consultation fee, ladies and gentlemen 50 cents each.

N. B.—Remember to come soon, as her time is limited in Belleville, owing to arrangements in other places.
January 8, 1870. 212

BY ATLANTIC CABLE.

TRANQUILITY RESTORED—PLOT AGAINST THE EMPEROR—NUMEROUS ARRESTS.

PARIS, Feb. 12.—The city is tranquil.

Seven editors of Reform newspapers have received an order to appear before the Court to answer the charges preferred against them for violation of press law. In answer to the summons, the *Reform* this morning publishes an article against the Government of extraordinary violence.

Thirty-five persons were arrested yesterday on suspicion of complicity in the plot against the State and life of the Emperor. In all cases arms were found upon the persons of the prisoners. Those arrested were incarcerated in the prison Mazas and An Zeret, on the Boulevard Mazas, and will soon be proceeded against.—More arrests are to be made.

COLD WEATHER.

LONDON, Feb 12.—The weather to-day is intensely cold throughout Europe. At Paris the thermometer indicates 30° Fahrenheit, below freezing point. The Elbe is entirely closed to navigation on account of the ice, and the practice of the Oxford and Cambridge boat crews on the Thames is suspended from the same cause.

BILLIARD MATCH.

The game of billiards was played last night at St. James Hall, between John Roberts, the English champion, and Wm. Cooke, Jr.,—1200 points even, for Champion's Gold Cup and £200 a side, spot stroke barred. Only 500 tickets were issued, but 1200 persons were present, including the Prince of Wales and suite. At first Cooke did not play well, but at last he won splendidly by 117 points.

VALENTIA, Feb. 12.—Owing to a rain storm, the lines to eastward are working with difficulty this morning.

THE LATEST.

DETHRONING A KING.

ROME, Feb. 12.—The Council is considering the subject of the dethronement of the King.

MORE ARRESTS IN FRANCE.

PARIS, Feb. 12, 10 p. m.—There have been still further arrests by the Police to-day, of persons engaged in the recent plot against the life of the Emperor. Several arrests have been made this evening, and in all cases arms were found on the prisoners.

ATTEMPTS ON LIFE OF THE EMPEROR.

LONDON, Feb. 12.—The proofs which Paris officials pretend to have of the deep laid plots against the Emperor's life, are totally discredited here.

DR. TEMPLE.

The *Pall Mall Gazette* this evening is severe upon the insincerity of Rev. Mr. Temple's disclaimer.

IRELAND.

Agrarian outrages in Ireland continue.

Despatches received to-night state that a landlord in Kerry County was fired at to-day through his window, while sitting in his parlor. The shot did not take effect. No arrests.

SPAIN.

MADRID, Feb. 12.—In the Cortez to-day, Senor Rinew in reply to a question, said the Government was fully aware of the conspiracy of the Carlists—of their introduction of arms—giving out of money, and appointing of officers, but would do nothing until an outbreak actually occurred, being abundantly able to crush it at once.

PRUSSIA.

BERLIN, Feb. 12.—Bismarck closed the Prussian Diet to-day with a speech. He regretted the spirit of opposition shown in the Upper Chamber, and promised an extraordinary session soon. He made no reference to foreign affairs.

TURKEY.

CONSTANTINOPLE, Feb. 12.—The Servians and Montenegrins are intriguing, which causes considerable solicitude here.

ARRIVAL.

LIVERPOOL, Feb. 12.—The steamer 'Prussia,' from New York, has arrived.

FRANCE.

PARIS, Feb. 13.—M. Fouvillie, the friend of M. Victor Noir, and witness of his death, has been discharged from custody. The other editors of "La Marseillaise" are still in prison. Rochefort is not allowed to see his fellow prisoners.

A proposition to impeach the Ministry was sent last week by Rochefort to a Deputy, to be introduced in the Corps Legislatif, but the Chamber refused to hear it, and after the sitting the Deputy sent it to the President of the Corps.

LIVERPOOL, Feb. 14.—Flour 19s 6d; red wheat 7s 5d to 7s 6d; red winter 8s 5d to 8s 6d; white 8s 10d to 9s; European corn 27s; Oats 2s 5d; Pork 95s; Bonds 87¼.

BIRTH.

In West Belleville, on Thursday 3rd inst., the wife of the Rev. D. L. BRETHOUR, of a son.

DIED.

In Wellington, on the 6th inst., Nina Mary Corby Chadd, infant daughter of Geo. J. and Ida Chadd, aged 4 months.

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber, firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO, LINDSAY, ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chilblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.

51-304 4w SETH W. FOWLE & SON, Boston.

For Frost Bites, Chilblains, Scalds, BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
304d 51w 4w Montreal, P. Q.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

Editor Ontario Farmer, Guelph.

Orders and Remittances will be sent to

T. & R. White,
Publishers Ontario Farmer,
Hamilton, Ont.

December 15th, 1869.

NOTICE.

APPLICATION will be made to the Parliament of the Dominion of Canada at its next Session, for an Act to revive the Charter of the GRAND JUNCTION RAILWAY COMPANY, and to place the said Company in the same position it held before its amalgamation with the Grand Trunk Railway Company of Canada, and with power to make arrangements with said Grand Trunk Railway Company for Station and other accommodation at Belleville, and for other purposes connected with said Railway.

Also for power to build said Railway of such gauge as may be most expedient; and for such amendments to said Charter as to the route, the character of the Railway, &c., as may be thought best.

Also for power to the Municipalities interested in the construction of said line, to grant bonuses, &c., to aid its construction; and for other purposes.

Belleville, 9th February, 1870. 309:tf

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building, Front Street

Act on the Square, Boys.

Though being fond of acting right,
Straightforward, just, and fair,
I try to make my troubles light,
And little do I care;
As happy as a king I live
On just what I can spare,
And from experience I give
This hint—Act on the square.
Act on the square, boys,
Act on the square,
Upright and fair, boys,
Act on the square.

Now in the street a thing so bad,
Which often is the case,
A swellish, foolish-looking lad
Some modest girl will chase;
Then square you round, and let him know,
If he annoyance dare,
You'll give him striking proof to show
How to act on the square.
Act on the square, boys, &c.

I never like a round game, nay,
Round tables cannot bear;
And in a circus I can't stay,
So I live in a square.
Now Brothers all, and Masons too
Of good let's do our share,
And when a chance presents itself,
We must act on the square,
Act on the square, boys, &c.

Please Exchange.

An editor his sweetheart kissed,
And then said, "Please exchange,"
Although she wasn't on the list,
She did not seriously desist,
Nor did she think it strange;
For with a smile she recognized
His right to that caress—
And readily 'twill be surmised,
'Twas something they both highly prized,
The "Freedom of the Press."

—Carlisles, England has been blessed with a shower of spiders, which came down one forenoon in countless numbers, and immediately every individual spider set to work spining a web in front of houses and upon all available projections. These small creatures were of a dark mahogany color, and not so large as the ant. Their webs were whither and more plainly visible than that of tne ordinary spider, and very glutinous. Many tiny insects fell a pray to the invaders.

A man is said to have applied to a New York note shaver for discount on a note of the amount of $75, having twenty months to run. Old sixty per cent said that he sometimes "done" long time paper and gravely figured the discount at five per cent a month for the specified time, and then for three days' grace. Turning to his customer he said: "Have you thirty-seven and a half cents about you?" "Yes," was the reply, handing it over. "That makes it just right," said the banker, as he quietly locked up the note and went on footing up his daily cash.

Here is the latest story from Paris—a conversation between two friends on the *Bourse*: 'How are you?' 'Not as well as I might be.' 'So much the worse.' 'What have you been doing that I haven't seen you lately?' 'I have got married.' 'So much the better.' 'Not at all, for I have got a coquette for a wife.' 'So much the worse.' 'Not at all, for her dowry is 300,000 francs.' 'So much the better.' 'Not at all, for I risked the money at play.' 'So much the worse.' "Not at all, for I doubled it.' 'So much the better.' 'Not at all, for my banker has absconded.' 'So much the worse.' 'Not at all, for my wife has gone with him.'

FEEDING PIGS.—How they raise good pigs in the Eastern Townships, Province of Quebec, has been shown by the experience of Mr. Alvan Farewell, of Compton. On Wednesday last he killed two Chester whites, nine months and fourteen days old, which weighed, one 463 pounds, and the other 427 pounds—a grain over one and a half pounds per day from birth. Mr. Farewell thinks they gained about four pounds each per day for the last two months. They were fed on boiled potatoes and buckwheat meal for a time, but, for two or three of the last months on buckwheat meal only stirred up with cold water and consumed daily the meal of a little less than two thirds of a bushel of buckwheat. They were sold in Sherbrooke for 11 cents a pound, amounting to $97 95, in gold. This is converting buckwheat into money to good advantage.

CATARRH, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

CONSUMPTIVES, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

CURE for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

FROSTED FEET, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

Mortgage Sale.

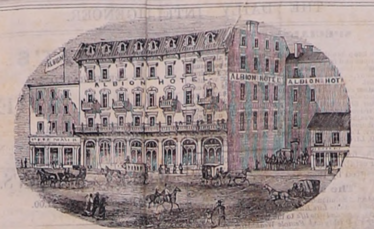
M. BOWELL,
INTELLIGENCER BUILDING
FRONT STREET, BELLEVILLE.



ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened under the most favorable auspices. **Splendidly furnished & Thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the old price of $1.50 per day will not be departed from. We, therefore, bespeak for ourselves a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS. (162d1y) DECKER & CO.

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are prepared to receive Tenders for the following Rolling Stock:—

40 Locomotive Engines & Tenders.
250 Box Freight Cars.
150 Platform Cars.

Printed Specifications according to which these Engines and Cars are to be constructed can be had, and general plans of the different vehicles can be seen at the office of the Chief Engineer, in Ottawa, on and after the 17th January, 1870.

Sealed Tenders, addressed to the Commissioners of the Intercolonial Railway, marked "Tenders," will be received at their Office in Ottawa up to 7 o'clock P. M., the 17th March, 1870.

A. WALSH,
ED. B. CHANDLER,
C. J. BRYDGES,
A. W. McLELAN,
Commissioners.

Commissioners' Office,
Ottawa, January 14, 1870. 227

July 22, 1867.

Fortieth Year.

GODEY'S LADY'S BOOK
For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as MARION HARLAND, INO CHURCHILL, LOUISE DORR, METTA VICTORIA VICTOR, S. ANNIE FROST, MRS. DENNISON, AND MRS. C. A. HOPKINSON. Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY's is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50

Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

All orders by mail promptly attended to.

M. BOWELL,
Publisher.
INTELLIGENCER BUILDING,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious [illegible] stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this marvelous remedy known as RADWAY'S READY RELIEF, was completed it supplied a want that had ever existed, that no [illegible] the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS.

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure. It cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation in the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first, at our own risk,

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED attacks if exposed.

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will, in placing an antidote within the reach of His people of all nations of the earth, who had sufficient faith to "cast their bread" upon the waters to return after many days," were content to spread out before the world the remedy, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues become a household necessity everywhere, shows that the instruments selected for this great work have discharged [illegible] a few minutes will stop [illegible]

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Billious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or in fact any remedy or medicine that will cure this disease so positively and safely as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the various Ague Cures and Private Practice, [illegible] the penalty of an engorged liver, [illegible] spleen, disordered kidneys, [illegible] colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Billious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $5, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief, diluted in one gallon of proof spirits, will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Pain Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes, will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least (625) twenty-five dollars, had you to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Billious Colic. Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. Ask for Radway's Ready Relief.

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews* for 1869. New Subscribers to *all the five* may receive Blackwood or *two of the Reviews for 1869.*

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers, nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

Vol. 3. — BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, TUESDAY EVENING, FEBRUARY 15, 1870. No. ~~314~~ 244

OUR PARIS LETTER.

Paris, Jan. 29, 1870.

THE COBDEN TREATY—THE NEW PARLIAMENTARY SYSTEM—POLITICAL INTRIGUING—THE POPE AND THE ECUMENICAL COUNCIL—THE CANDIDATURE FOR THE SPANISH THRONE—FRANCE AND PRUSSIA—REFORMS IN RUSSIA—DIPLOMATIC DINNERS—COURT BALLS—THE GUILLOTINE—THE DEMI MONDE—THE STRIKE AT CREUZOT—BARON HAUSSMANN—THE BYRON SCANDAL—PRINCE PIERRE NAPOLEON—TROPPMANN'S CONFESSION.

A Parliamentary inquiry is to take place on the question of Free Trade, and the Cabden Treaty will not be broken. Notwithstanding these foregone conclusions, the Deputies continue to beat the air, and waste valuable time, by debating protection, or no tariffs. After the discussion had been closed, that spoiled child of the House, M. Thiers, requested to re-open it, which was acceded to, and for a second time this able but mistaken statesman is laboring to show that grain ought to be excluded, because it would give the people cheap bread, and the materials for clothing prohibited, because they could dress 30 to 40 per cent. cheaper. No wonder Lord Clarendon is said to be coming to Paris next week, to know the mind of the Cabinet. The protectionists are afraid to allow France to compete with the world, to satisfy a few wool farmers, who have to submit to lowered prices, like other nations, consequent on Australian importation. They would destroy the wine and brandy trade of the South, and the exportation of agricultural produce on the North and West. French opinion is in favor of free trade, only don't make it too sweeping at once. A new fashion of settling disputed figures, is for a protectionist to put into the mouth of his rival certain statements, and bet him 100,000 francs he cannot substantiate them. Such has taken place between two prominent Deputies.

> "Quoth she, I've heard old cunning stagers
> Say, fools for arguments use wagers."

It would be more sensible, not to say business-like, to leave the matter with the Committee of Inquiry, and allow the Ministry to carry out their reforms. What a change has the inauguration of the Parliamentary system—not yet a month old—wrought in political appearances. But yesterday the Emperor was everything—to-day he is, in a sense, nothing, as he says himself, "I no longer act—I but look on." The sincerity of his abdication of personal power is shown more strongly from day to day. He "solicits" that many of his old servants, who loved the old regime, not wisely but too well, may be remembered in this day of judgment. One trait in His Majesty's character—above all Greek—above all Roman fame, that he never has, nor does forget services rendered—whether by a Marshal or the humblest domestic.

Some little intriguing is going on, to sow dissension in the Cabinet. But Ollivier and his "honest associates," are determined to carry out their work to a successful issue.—The reformed laws already prepared, and the vexatious restrictions up to the present removed, show ministers to be men who "understand their epoch." They will soon be able to read the history of their measures in the nation's eyes. We have now no serious apprehension of "days," or "spectre rouges." The inflammatory writings of the Red journals have ceased to terrify—they were not lions after all—only Bottom the weaver. All this change is excellent, and promises to be abiding. It is a revolution France has never yet experienced, the passage from violence and impracticability, to calm and good sense without barricades, and by the force of healthy public opinion and universal suffrage. Every step taken in the way of equal laws, and unfettered freedom, is a "Tree of Liberty" planted, that will grow, and blossom as the rose.

The Pope is unfortunate just now in having "the eyes of all Europe upon him," as there are no wars nor rumors of wars, to turn aside attention. He now feels the force of the proverb that one man may bring a horse to the water, but twenty cannot make him drink. For two years the Jesuit party—all powerful at the Vatican—has been preparing the programme for the Council, but it is found impossible to rally the German, French and American Bishops to accept a dish so medieval and uncivilized. The Italian and English prelates are prepared to swallow everything. The more he is opposed in the personal infallibility dogma, the more is His Holiness determined to carry it. He will proclaim it if ratified by a numerical majority; but then in France, such a new article of faith will lead to a separation of Church from State, a result not to be regretted. Many are willing to leave Pio Nino his despotic Court, his Remington Rifles, and Artillery, to let him "play at soldiers," till such things die out naturally, but to deify him and his successors, kicks against the spirit of the age. After all, the Council is likely to end in a *fiasco*.

The check to the candatiture of the Duc de Montpensier on his own ground, promises little for his acceptation, were he chosen King. All factions combined to oust him—an evidence of what would take place all over the Peninsula. The Ministry have now no King candidate, but it is not unlikely they must decide between a Federal Republic and Isabella's son, with a liberal Regent. Austria is "laying down pipe" to Prussia or her contra. The visit of an Arch-Duke to Berlin is ntended to heal old sores. Meantime old King William strikes the commemorative medal for Sadowa, and Bismark will be the first decorated with it. France wishes to reduce her monster army, but apart from home necessities, she prefers first to see Prussia ratify the Treaty of Prague. The new Russian loan, contracted for by the Rothschilds at five per cent, will be subscribed for five times over. The Czar is in a peaceful mood—he wishes to educate his masses and to make them prefer the school for the dram shop, the alphabet for raki. The laws are particularly benighted in Eastern Russia and the Polish Provinces But then say the most wealthy Israelites—"our successors before us and our ancestors after us"—have grown rich without being able to read or write. What is the necessity for such things—ignorance is bliss.

Never was there such dining, and giving of dinners, as exists at the present moment in the diplomatic and officials worlds. If "a dinner lubricates business"—foreign and domestic affairs, must be amicable and thriving. The ambassadors must long for the season to arrive, when they can fly to "drink the waters," like a bath in the fountains of Lourance. The first of dinner givers is admitted by all to be Lord Lyons. His "spreads," like that of Billy O'Rourke's

> "Will ne'er be forgot, by those who were there,
> And by those who were not."

He is a great improvement on his predecessor Earl Cowley, the smoke from whose kitchen chimney formed one of the sights of Paris.—The best "diner out" is the Papal Legate, Monseigneur Chigi. No party is complete without him. No wit is finer or more polished, no one's stories can better set the table in a roar. And then his *cigarettas*! Princesses smoke them, and even Majesty itself covets them. The Turkish Ambassador, if not the first letter, is in the first line "of right good fellows." Balls, *raouts* and *sauteries*, are becoming more plentiful, since the city has calmed down from Rochefort prosecutioners—Noir funerals, and princely assassinations. The ladies are remarkable for an entire absence of crinoline, abundance of tulle and lace, and flowers of all kinds have cut out the family jewels. The theatres are in the height of their season, five of them have for their *piece de resistance*, an adulterous woman as the central figure. It seems not a play has a chance of a "run." without "the erring sister's shame." The ladies of Paris ought to be very virtuous Spartans, with so many Helots performing under their eyes.

The first of the season's Court Balls has taken place, with the proverbial *eclat*. There are more a *spectacle* than anything else. One walks about, talks, goes to the *buffet*, whirls in a waltz, and home. Uniforms of all nations abound—gold and silver—fuss, feathers, paint, and powder. The officials are in violet, mauve, and blue. Their Majesties and the Prince Imperial entered at half-past nine.—The Emperor looked graver than usual, but in robust health—the Empress had a word for a few, smiles for many, and a cheerful welcome for all. She had an "oriental grace" about her, as she sat in the *Salon de Diane*, surrounded by the leading beauties of the *grand monde*. Never was a supper so exquisitely laid out, or done better justice to.—About twenty Americans, and the same number of English were "presented."

☞ There is no diminution of interest in the controversy as to how long a man's head and body live after being guillotined, and a veritable slaughter had set in on rabbits, cats and poultry, as to their comparative sensibility when decapitated and tortured with hot needles or pointed wires. All this cruelty in the interests of knowledge. A suggestion has been made that if the head lives for three hours, and guards its intelligence for one, it would be well that such head, instead of being received in a basket of bran at the moment of its fall, ought to be dropped into a bucket full of water, when a few minutes would place vitality beyond all doubt. All this discussion will not lead to the abolition of death as a punishment. Executions for the future will take place inside the prison. The "Irreconcilable" journals advocate the abolition of death punishment, except in the case of Emperors and Kings. Strange contradiction to the immortal principles of 1789, which made all "equal" before the law.

A peculiar example of the state of French society at the present day, is to be found in the balls given by the stars of the *demi monde*. The queens invite each other, as well as a sprinkling of actresses, of whom it may be said, show me your company, and I will tell you what you are. Invitations are sent broad cast to the clubs, and the *serins*, a name given to veteran *debauches*, which are responded to The journals duly chronicle the event, and the men speak of it, without shame or reticence. These fetes are truly got up regardless of expense. Between them and other balls, there is only the difference between virtue and vice.

The miserable 'strike' at the great iron works of Creusot is ended peaceably; the disaffected have returned. It is an incident, however, that has arrested much attention. For some days 10,000 men desert the forges, the mines and workshops; and after a strong military force has been quartered in the prosperous town to prevent bloodshed between those who 'struck' and those who would not, the whole thing collapses. The Government is about dealing with the difference between capital and labor in a sensible way. It will invite the workmen to set forth their ideas, and the employers also. A Commission will arrange the papers for publication, and when examined by public opinion, will legislate. Thus will be seen what labor demands, and what capital will not concede.

Since Baron Haussmann's dismissal, or rather execution, by the new Cabinet, he has been actively engaged in the preparation of a great work, to be called, "Old and New Paris." He

(Continued from first page.)

will fully show "how the money went," what it costs to rebuild a city for nearly two millions of inhabitants, and of the opposition he received from his colleagues being simply the offspring of spiteful jealousy. M. Rouher, it is reported, may expect to receive some hard knocks.

The "Byron Scandal" is not going to quietly die. M. Adolphe Belat is working it up into a thrilling romance. In due time, it may be dramatized.

No day has yet been fixed for the trial of Prince Pierre Napoleon. He has been fully examined by the Police Magistrate, and has detailed all the incidents of his corsair-life, from his condemnation to death at Rome, his native city, up to the moment he shot the poor journalist, Victor Noir, in the heart. Plans of his 'salon' have been made, shewing the position of Noir at the time of being shot, and of his companion, Fouville, in whose coat His Highness lodged two balls. Fouville persists in his statement that the Prince's version is a lie. The High Court of Justice to try Prince Pierre will after all likely sit at Versailles, in the course of the ensuing month. The excitement about the event has cooled down, as also the great admiration for the victim, whose grave, however, is daily visited by the curious at Neuilly. Rochefort fails even to make any more capital out of the affair, and even his condemnation to six months' imprisonment, and 10,000f. fine has made him rather ridiculous in the eyes of his party, who are beginning to find out that as a Deputy he is worthless, and as a leader a delusion. It was just what was expected; he could not keep his army of 200,000 men, that he marshalled at Victor Noir's funeral, ever 'at red heat,' and to turn tail the moment he encountered the military in the Champs Elysses.

We are not yet done with Troppmann. It appears he has 'confessed' his life in a short interview with his executioner, and the latter is about publishing it. Further, it is alleged that when being strapped to the revolving plank on the scaffold, the assistant reminded him that he would soon see the 'Kincks,' (the family of eight whom he murdered,) and Troppmann bit him in consequence. Not contented with having received permission to bury the wretch's remains apart from other murderers, his family desire to place a stone at his head.

"Leave him alone in his terrible shame."

Montreal Time.

Daily Intelligencer.

BELLEVILLE, TUESDAY, FEB. 15.

OUR PARIS LETTER.—Our usual weekly letter from Paris will be found on the first page of to-day's issue, and will be found very interesting.

SCIENTIFC LECTURE.—In consequence of the County Sabbath School Convention to be held on Wednesday and Thursday, the lecture of Professor Macoun is postponed until next week.

A WORTHY PRODUCTION.—The Canadian *Illustrated News* continues to improve. The last number contains portraits of Sir John Young, the Emperor Napoleon and the members of his Cabinet and several sketches of Canadian scenes.

DR. MATHIESON DEAD.—The Rev. Dr. Alexander Mathieson, of St. Andrew's Church Montreal, died on the 14th inst., at the advanced age of 75. The Rev. gentleman had been growing feeble of late years, and a fortnight since was taken seriously ill with heart disease complicated by congestion of the lungs. Dr. Mathieson was called from Roseneath, Scotland, to St. Peter Street Presbyterian Church in 1826, and has ministered to the same congregation ever since. He was one of the leading men in the Scotch Kirk in Canada, in whose councils he has long maintained a prominent position. In private life he was remarkably affable and courteous.

RED RIVER.—The London *Canadian News* arrived by the last mail, says: "We hope shortly to be in a position to state that the Imperial Government will take the necessary steps to have a formal transfer of the Hudson's Bay Company made to itself, and with this view an envoy representing Her Majesty will no doubt, be despatched to the Red River at an early date. This course will be hailed with equal satisfaction by the Dominion of Canada, the Hudson's Bay Company, and the insurrectionists themselves, and will, we feel assured, be the means of removing all trace of the present rebellious feeling on the part of the disaffected few."

CONSULAR AGENT.—Mr. R. R. Lloyd, the recently appointed Consular Agent of the United States, at this port, entertained a few of his friends, including the Mayor and Town Council, at an Oyster Supper at the Dominion House last evening. The Supper was got up in Borridale's best style, and was done ample justice to. Mayor Robertson presided, and in proposing the health of Mr. Lloyd, took occasion to speak of him in the highest terms as a man of sterling worth and integrity, both in his public and private capacity, and wished him every prosperity in the position to which he was appointed. Mr. Lloyd acknowledged the toast in a very happy and effective speech, alluding to the warm friendships he had formed here, the obligations he was under to most of those who surrounded him; the pleasure he had in meeting with them, and hoped his conduct in the future would be such as to merit their continued respect and confidence. A number of Volunteer Toasts followed, amongst which were the "Mayor and Town Council," "Commerce," "Agriculture," "The Press," "The Bar," and "The Ladies," to each of which suitable responses were made. A very pleasant and agreeable evening was enjoyed by the company, and many warm wishes for the future prosperity of Mr. Lloyd, were heartily expressed.

The Intercolonial Railway.

The Hamilton *Times* learns from gentlemen who lately arrived from the Eastern Provinces, that certain sections of the Intercolonial Railway are being rapidly proceeded with. He says that Mr. Worthington of that city has made very great progress in his sections, and if the other sections are pushed forward in the same ratio, the road will soon be open to traffic. Mr. Worthington's contract is composed of sections 1 and 2, extending 40 miles eastward, commencing at Riviere du Loup. Of this 30 miles of the road is graded, 40 structures of masonry built, and 17 miles of fencing completed on both sides. The balance of materials for masonry will be delivered on the ground during the winter. One of the heaviest pieces of work on the "Canadian Intercolonial" is the viaduct at Trois Pistoles, being 5 spans of 100 feet each, and 65 feet above the bed of the river. The foundations of this work are already built above high water mark. The quarrying and cutting of the stone will be proceeded with during the winter, and the structure completed in the spring. The approaches at both ends are in a forward state. Green Island Bridge is 2 spans, 80 feet each, and 40 feet above the bed of the river. The stone is ready for this structure, and the building will commence as soon as the weather will permit. At Riviere du Loup is a bridge of 3 spans, 100 feet each, and 36 above the bed of the river. The stone for this work will be all cut and delivered during the winter, ready for spring operations. So far we understand that Mr. Worthington has got along quite smoothly with the authorities, and has no fault to find with the Commissioners.

The Silver Nuisance.

The following is the proclamation of the Governor-General respecting the discount on silver, which every individual would do well to read carefully. Those who have an abundance of Silver on hand will find it to their advantage to get rid of it immediately:

WHEREAS in and by a certain Act of the Parliament of Canada passed in the Thirty-First year of our reign, Chaptered Number Forty-five intituted "An Act respecting Currency" is amongst other things in effect enacted that Our Governor may at any time after the passing of that Act declare by Proclamation that all or any of the silver coins of the United States of America, or of any other foreign nation or State coined before the passing of said Act, shall, when of the weights and dates to be assigned in such proclamation pass current, and be a legal tender in the Provinces of Quebec, Ontario, and New Brunswick at rates in currency to be assigned to them respectively in in such Proclamation, to such amount in one payment as may be therein declared

NOW KNOW YE and we do hereby declare and proclaim that on, from and after the FIFTEENTH day of APRIL now next hereafter, the coins namely; half dollars, quarter dollars, dimes, and half dimes of the United States of America, coined before the passing of the herein before in part recited Act of the Parliament of Canada, that is to say; subsequent to the First day of July, which was in the year of our Lord one thousand eight hundred and fifty-three, and prior to the Twenty-second day of May, which was in the year one thousand eight hundred and sixty-eight, and which are hereinafter mentioned shall when of the weights and dates hereinafter assigned in this Our Royal Proclamation pass current and be a legal tender in the Provinces of Quebec, Ontario and New Brunswick at rates in currency hereinafter assigned to them, respectively in this Our Royal Proclamation, to the amount of Ten Dollars in any one payment. And we do hereby further declare and proclaim that the silver coins of the United States of America aforesaid shall be of the weights and dates hereby assigned, and pass current, and be a legal tender as aforesaid, at the rates in currency hereby assigned to them respectively by this Our Royal Proclamation, that is to say:—half dollars of the weight of one hundred and ninety-two grains at Forty cents—quarter dollars of the weight of ninety-six grains at Twenty cents—dimes of the weight of thirty-eight grains and four-tenths of a grain at eight cents; and half dimes of the weight of nineteen grains and and two-tenths of a grain at four cents.

Town Council.

MONDAY, Feb. 14th. 1870.

PRESENT.—His Worship the Mayor; Messrs. Tannahill, Patterson, Flint, Holden, Watters, Vandusen, Lewis, Smith and Beckett.

PETITIONS.

For Shop Licenses were presented from D. Pitceathly, M. Adamson, W. Michael, Jas Brown, McDonnell & Co., Felix Graham and W. H. Scholes.

For Saloon Licenses, from P. H. Hambly, E. Perkins.

For Tavern Licenses, from Stephen O'Brien, G. A. McArthur, John Doyle, G. Borridale, A. Snider, Truaissh & Zollar, L. Williams, M. Kehoe, D. Gerow, C. Papineau, and C. Mullen.

From Francis Clarke, applying for the position of Harbor Master.

From John Redner, offering to lease the property lately occupied by him.—Referred to the Committee on Harbor and Town Property.

A number of petitions for relief were read.

Several accounts were presented.

The applications for licenses were referred to the License Inspectors.

REPORTS OF COMMITTEES.

Mr. Watters verbally reported that the work on the Lower Bridge was proceeding rapidly, and though some difficulty had been experienced, he hoped to make the expense as light as possible.

The Poor and Sanitary Committee reported expenses, and the Chairman tendered his resignation.

The Market and Police Committee reported, expressing a want of meat stalls in Coleman and Baldwin Wards. William Massey had tendered his resignation as policeman, and the report recommended the appointment of Wm. White at $300 per annum salary.

The Finance Committee reported as follows:

They recommend that the Committee be empowered to sell at a discount, of two and a half per cent, any silver in the hands of the Treasurer, if no less discount can be obtained.

The Committee recommend that a return be made to the Council of the names of parties holding Shop or Tavern licenses from the Town of Belleville, who have been convicted of offences against the By-laws of the Town or the laws of this Province, and who have not paid the fines imposed upon them for such offences. Further the names of the sureties in the Bonds given by such parties convicted as aforesaid, and the penalty named in the Bonds, and that on such return being made, the sureties for those parties who have not paid said fines, be prosecuted on the said Bonds, in case such unpaid fines are not paid forthwith after notice.

The Committee recommend that a return be made by the Clerk of the Police Court, to the Auditors of the number of County cases tried in the Police Court in 1869, in which the policemen of the Town were employed.

Mr. Flint gave notice of motion to amend By-law 187.

Mr. Holden moved the adoption of the Finance Committee's report, as it would be advisable to sell the silver immedately, the discount being now only 2½ per cent.—Carried.

All the reports were received.

Mr. Vandusen moved that the Poor and Sanitary Committee's report be adopted.

Mr. Lewis objected, and moved that the report be referred back to the Committee, with power to amend it by striking out the portion relating to the chairman's resignation.

Mr. Vandusen stated that he had occupied the office very reluctantly, in his peculiar circumstances, and earnestly appealed to be released from the unpleasant position.

Mr. Watters expressed his entire confidence in the ability and integrity of the chairman, and in supporting Mr. Lewis' amendment, he hoped to see Mr. Vandusen retain the position, as he had kept the expenditure within the estimates last year, and no one knows better than he the wants of the poorer community.

Mr. Flint supported the report, believing that Mr. Vandusen had reason to feel keenly the late attack on his character. Of course the channel through which it found publicity had only done its duty.

Mr. Tannahill supported the amendment, remarking that Mr. Vandusen had satisfied the Council, and that the Council should sustain him.

Mr. Holden observed that he was justified in proffering his resignation, and that it could not be desirable for him to remain under the circumstances.

Mr. Vandusen said that he liked to be placed fairly before the public, and was not afraid to have the whole matter investigated. He was anxious to be relieved of the unpleasant office.

The amendment was carried.

Mr. Watters moved, seconded by Mr. Tannahill, that Mr. John Lewis be placed on the standing Committees, in place of the late Geo. Vair.—Carried.

Mr. Flint moved for the supension of rules to have a By-law read a first time.—Carried.

Mr. Flint introduced a By-law to amend By-law 161 and 172, and to repeal several clauses therein—Read the first time.

Council went into Committee on By laws, Mr. Watters in the chair.

The appointment of Wm. White instead of Wm. Massey, as policeman was carried.

The By-law to amend the Market By law was read clause by clause and passed.

Council resumed.

The By-law to amend By-law 187; also By-law to amend By-law 161 and 172, and to repeal clauses therein, were carried.

Mr. Holden moved, seconded by Mr. Watters, that the time for the return of the collector's roll be extended to 21st Feb.—Carried.

Council went into Committee on Ways and Means.

Moved by Mr. Flint, seconded by Mr. Watters, that Wm. Massey be paid his salary up to the first of next month.—Carried.

$50 was placed to the credit of the Poor and Sanitary Committee.

Council adjourned after a letter of invitation was read from Mr. R. R. Lloyd, Consular Agent, to an Oyster Supper at the New Dominion House.

DOMINION PARLIAMENT.

GOVERNOR'S SPEECH.

(By special Telegraph to the *Daily Intelligencer.*)

CHAMBER OF THE SENATE,
OTTAWA, Tuesday, 15th Feby., 1870.

This day at 3 o'clock His Excellency the Governor General proceeded in state to the Chamber of the Senate, in the Parliament Buildings, and took his seat upon the throne. The members of the Senate being assembled, His Excellency was pleased to command the attendance of the House of Commons, and that House being present, His Excellency was pleased to open the third session of the first Parliament of Canada with the following speech from the throne:

Honorable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I recur with confidence to your advice, and have much satisfaction in being enabled, on the present occasion, to summon you to the discharge of your public duties at the period of the year most convenient to yourselves.

The circumstances under which we meet are in many respects auspicious. The bounty of Providence crowned the harvest with abundance, and made the fisheries unusually productive.

In many districts existing industries have been enlarged, and new enterprises have started into activity, furnishing fresh avenues for commerce and additional employment for our people.

Whilst every day new sections of the country are being opened to the labors of the husbandman, the trade and wealth of the Dominion are on the increase, and the equal administration of the laws maintains, as heretofore, the enjoyment of a general sense of security.

I have watched with much anxiety the course of events in the North-West Territory. Unfortunate misapprehensions of the intentions with which the country was sought to be acquired by Canada have led to complications of a grave character. With a view to their removal, I have thought it desirable to exhaust every means of conciliation before adopting other measures, and the latest advices lead me to expect that the groundless alarms entertained by a portion of the inhabitants have given place to a desire to listen to the explanations which I have caused to be made to them. Efforts made in the spirit which has animated my Government throughout, can scarcely fail to accomplish an equitable and peaceful solution of the existing difficulty, and thereby secure the speedy incorporation of the North-West Territories with Canada.

An object so earnestly desired by the Empire and the Dominion as the Act for the temporary government of the Territories when united with Canada will expire at the close of the present session. A measure providing for their government will be submitted for your consideration.

The charters of most of the Banks of the Dominion were last session extended for a limited period, with a view that during the interval the question of Banking and Currency should receive the consideration which their importance demands. A measure intended to ensure safety to the community without interfering with the legitimate operations of the Banks will be submitted for your consideration, and will I trust be found calculated to place these important interests upon a sound and stable basis.

The laws in force on the subject of the Elective Franchise and the regulation of Parliamentary Elections in the several Provinces of the Dominion, vary much in their operations, and it is important that uniform provision should be made, settling the franchise, and regulating elections to the House of Commons. A measure upon this subject will be submitted for your consideration.

Under the operation of an Act of the Imperial Parliament, passed in the year 1869, to amend the laws relating to the coasting trade and merchant shipping in British possessions; a period of two years is given to the Legislatures of the Colonies of the Empire, to make provision for the regulation of the coasting trade. In the absence of legislation on the subject within the period named, the provisions of the Imperial law will be in force. The extent and value of our internal commerce render legislation on the subject desirable, and a measure with regard to it will be submitted for your consideration.

The creation of a Court of Appeal under the powers conferred upon you by the Union Act, is a matter deserving your attention. A measure will be submitted to you for the establishment of such a Court, and for conferring upon it certain original jurisdictions.

The year 1871 is that in which the next decennial census is fixed by law to take place. As there are different laws on the subject in the several Provinces, it will, therefore, be necessary to pass a general Act to establish a uniform and accurate system throughout the Dominion. Steps have already been taken to secure the co-operation of Newfoundland and Prince Edward Island, and I trust a census upon one system will be made simultaneously in all Her Majesty's British North American possessions. I need not expatiate on the importance of the information which the tables of the census are calculated to afford, as in addition to their interest and value on general grounds, it must be recollected that upon them depends the re-adjustment of the Parliamentary representation.

Gentlemen of the House of Commons:

I have directed that the accounts of the last year shall be laid before you.

The estimates for the present financial year will also be submitted. They have been framed with every regard to economy compatible with the efficiency of the public service, and you will, I trust, be of opinion that the finances are in a satisfactory state, and that the people can, without inconvenience, afford for the service of Her Majesty the supplies which it will be the duty of my Government to ask you to vote.

Hon. Gentlemen of the Senate:

Gentlemen of the House of Commons:

The Act respecting the Militia and defence of the Dominion has not failed to engage my attention. The high spirit and loyalty of the people are placed in a clear light, by the fact that the active militia have voluntarily come forward largely in excess of the quota required, as well as by the zealous attendance of the various corps at the annual training in the camps, and by the promptness with which they assembled in force at the call of duty on more than one occasion, when Fenian marauders threatened the peace of the country.

I have observed with great satisfaction the efforts which have been made in several of the Provinces of the Dominion to foster and encourage immigration to our shores. The continued progress of great Public Works in many portions of the country, afford the opportunity of early employment to intended immigrants, and I look forward with confidence to the addition of a large and valuable class of settlers to our population, during the coming season.

During the summer and autumn I had the opportunity of visiting different parts of the Dominion. I proceeded first to Quebec, thence to the Maritime Provinces, and at Halifax I had the honor of receiving His Royal Highness Prince Arthur. Subsequently I attended His Royal Highness in a tour through the Province of Ontario. Everywhere the great capabilities of the country and the proofs of vigorous industry made themselves apparent, and it became my pleasing duty to report to Her Majesty's Government, as the result of my observations, that the inhabitants of the Dominion are well contented with their position and prospects, and that the wish nearest their hearts is to avail themselves of the franchise and full powers of legislation which they possess, in order to build up, as a portion of the British Empire, institutions of their own choice by laws of their own making.

I now leave you to the labors of the session, with earnest aspirations for your complete success.

—The Quebec Government has reduced the prices of Crown Lands from the old price of sixty cents per acre, to thirty.

—Ottawa will be gay this week with receptions and balls. "And there was a sound of revelry by night."

—Brantford has been selected for the Blind Asylum.

—Prince Arthur arrived at Ottawa last evening.

—Hon. Mr. McDougall has taken a seat on the opposition side of the House.

Latest from Red River.

THE INSURRECTION "PEGGED OUT"—"A HUMBUG" ALL THROUGH—WHY MR. MC'DOUGALL LEFT PEMBINA.

ST. PAUL, Minn., Feb. 14.

The St. Paul *Pioneer* says:—"The Red River rebellion has at length pegged out. It was a humbug all the way through.

"These half-breeds never sought Independence, much less Annexation. They were dissatisfied from fear that they might lose the title to lands upon which they squatted.

"Roulette, Stutzman and others of Pembina, incited the commission of the riot at, and the occupancy of the deserted Fort Garry, because it contained a supply of the Hudson Bay Company's goods.

"All else done has been the merest farce, except McDougall's retreat, which was caused, not by the River tribes, but because Roulette and Stutzman caused him to be refused food at Pembina, by frightening the tradesmen by stories of the United States' interference, and to supply Mr. McDougall would be treason.

"The Convention Proclamation, &c., was a saucy rigmarole. There had never been a time, nor would there thereafter be a time when the outbreak would require over two companies of troops in its suppression.

"These would have reached there early in the summer, had not the disturbance been peaceably ended.

"As it is, we have been flooded with spontaneous letters of similar import to those published in the St. Paul *Press*. We published two or three then, because satisfied of their spurious character, and desisted.

The *Pioneer* ridicules the *Press* and Senator Ramsey for their attempts to exaggerate the affair, and make it appear of national importance.

The *Daily Despatch* believes the Red River trouble is nearly ended, and declares the speech delivered by Ramsey, at Washington, on the Red River business was written by Stutzman, and that Ramsey was the mouthpiece of Pembina annexationists.

—Discount on Silver in Montreal has been raised to 3 and 4 per cent.

Sabbath School Convention.

THE County of Hastings Sabbath School Convention will (D.V.) assemble in the John Street Presbyterian Church, on

Wednesday, 16th February.

THE LATEST.

HOUSE OF LORDS—THE COLONIAL QUESTION.

LONDON, Feb. 14.—In the House of Lords to-day the Earl of Carnarvon moved for copies of correspondence with Canada and other colonies relative to the recall of troops. He desired that the Colonial question should have careful consideration. He favoured a Confederation of which Albion would be the centre. He complimented Canada for her consistent conservatism and deprecated the theory that the colonies should be allied with independent countries.

Lord Lyttleton called attention to the prospects of New Zealand, and thought that colony was about to enter on a new and prosperous career.

Lord Monck explained his reasons for asking for more troops. When he was Governor General of Canada the battle of Sadowa was fought, and as the war in Europe was ended the Home Government could spare men. The Fenians, who were supposed to be armed with breech-loaders, had just made a raid into Canada. The Colonies were in a panic, and clamored for protection. Under these circumstances he was led to call for reinforcements from England. He then discussed the subject of the relations of the Colonies to the mother country, and admitted generally the wisdom of Colonial self-protection.

The Earl of Derby congratulated Earl Granville that the Colonies were not to be left utterly defenceless, and that their relations with the Home Governmt were harmonious.

Lord Lynden asked that serious consideration be given to the policy of Colonial Independence.

The House then adjourned.

HOUSE OF COMMONS—THE ALABAMA CLAIMS.

In the House of Commons to day the under Secretary for the Foreign Department denied the truth of the report that the United States had offered to re-open negotiations for the settlement of the 'Alabama' claims. He stated that, if renewed, negotiations would be conducted at Washington instead of London.

THE BUDGET.

Mr. Lowe, Chancellor of the Exchequer, said he hoped to submit the Budget to the House before Easter.

Mr. Lefere asked leave to introduce a Bill relative to Merchant Marine. The Bill is very long, containing nearly 800 clauses, and embodies the views of the shipping community. It will probably be referred to a select committee.

PRUSSIA—OPENING OF PARLIAMENT —THE KING'S SPEECH.

BERLIN, Feb. 15.—King William yesterday opened Parliament. In the speech from the throne a programme of laws to be proposed to Parliament, is given. Among them are Bills for a new criminal code, and for the development of the right of citizenship in the Confederation. Parliament is assured that the Federal revenue now promises to equal the expenditure. Union with the Southern States is still urged, and the treaty with the Grand Duke of Baden is pronounced one link in the chain. Peace with all Foreign nations has been preserved in accordance with the policy of the members of Confederation. The army is maintained solely for defence, not for oppression. The speech concludes with congratulations on the development of the welfare of the North-German States.

THE "TIMES" ON CANADIAN DEFENCE.

LONDON, Feb. 15.—The "Times" in reviewing the morning's debates in Parliament, rejoices that the Government has adopted the idea so often advocated in its columns, the withdrawal of the troops from Canada. The "Times" admits that Canada is the only English Colony liable to be invaded in case of war. Peace is so assured that it is foolish to provide now for its rupture.

THE WEATHER.

The weather is again fair though cold.

COMMERCIAL.

Belleville, Feby. 1st, 1870. 302-2w

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. *Apply* to T. FOLEY & CO, LINDSAY, ONT. 221-2w

---

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.

51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds,

BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

W. F. Clarke,
Editor Ontario Farmer, Guelph.

Orders and Remittances will be sent to

T. & R. White,
Publishers Ontario Farmer,
Hamilton, Ont.

December 15th, 1869.

NOTICE.

APPLICATION will be made to the Parliament of the Dominion of Canada at its next Session, for an Act to revive the Charter of the GRAND JUNCTION RAILWAY COMPANY, and to place the said Company in the same position it held before its amalgamation with the Grand Trunk Railway Company of Canada, and with power to make arrangements with said Grand Trunk Railway Company for Station and other accommodation at Belleville, and for other purposes connected with said Railway.

Also for power to build said Railway of such gauge as may be most expedient; and for such amendments to said Charter as to the route, the character of the Railway, &c., as may be thought best.

Also for power to the Municipalities interested in the construction of said line, to grant bonuses, &c., to aid its construction; and for other purposes.

Belleville, 9th February, 1870. 309:tf

How Marbles are made.

The chief place of the manufacture of "marbles," those little round pieces of stone which contribute so largely to the enjoyment of "Young America," is at Oberstein, on the Nahe, in Germany, where there are large agate mills and quarries, the refuse of which is carefully turned to good paying account by being made into the small balls employed by experts to knuckle with, which are mostly sent to the American market. The substance used in Saxony is a hard, calcareous stone, which is first broken into blocks, nearly square, by blows with a hammer. These are thrown by the one hundred or two hundred into a small sort of mill, which is formed of a flat, stationary slab of stone, with a number of concentric furrows upon its face. A block of oak, or other hard wood, of the same diametric size, is placed over the small stones and partly resting upon them. This block or log is kept revolving while water flows upon the stone slab. In about fifteen minutes the stones are turned to spheres, and then, being fit for sale, are henceforth called marbles. One establishment containing only three of these rude mills, will turn out full sixty thousand "marbles" in each week. Agates are made into marbles at Oberstein, by first chipping the pieces nearly round with a hammer, handled by a skilful workman, and then wearing down the edges upon the surface of a large grindstone.

Water on Stoves.

The Boston *Journal of Chemistry*, in the course of an article on "Evaporating Water in Connection with Stoves and Furnaces," wherein it takes the ground that the practice of evaporating water upon stoves and furnaces is not conducive to health or comfort, makes the assertion that atmospheric air cannot be "dried up or burned up" by any heating apparatus in use at the present day, and that while heated air has larger capacity to hold vapor than cold air, none of its natural moisture is expelled from it by heat.—The writer maintains that the trouble is that housekeepers keep up too high a temperature, and have the sensation of dryness. If the heat of dwellings is kept at a normal standard, the warm air contains all the moisture needed for health or comfort. If the temperature is abnormally high, the train of evils which follow are not avoided by evaporizing large quantities of water. In families where this is practised there have been uniformly more catarrhal difficulties, more rheumatism, more headache, than in other houses where no evaporation is allowed, and where the heat is kept at a uniform temperature. It is scarcely necessary to remark that there are other scientific and medical authorities quite in opposition to this theory.

Some negroes that had mastered the Irish brogue played a trick upon a boat load of immigrants who were so eager to set foot on the soil of the new world that they had left the ship before their companions. 'An' are you just over, boys?' said a jet black African, in the richest possible brogue, and with the warmest interest, as he bent over the wharf where he and his comrades were working. The strangers regarding him with a look of mingled astonishment and terror, while one of them found breath to inquire, 'An' how is it that ye're black?' 'It's the climate, boys, it's all in the climate, was the answer. 'An' how long did it thake,' said the anxious spokesman, 'to make ye this color?' 'Three years, an' niver a bit longer.' 'Thin, bedad boys,' said the Paddy to his countrymen, 'bedad boys, boys, let's go back; it's too soon to be divils intirely.'

Dr. J. Briggs' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

Piles are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 5 King St. West, Toronto.

Catarrh, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

Consumptives, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

Cure for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

Frosted Feet, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

Mortgage Sale.

WILL be sold under the powers contained in certain Mortgages which will be produced at the sale, on

Tuesday, 22nd Day February,

A. D. 1870, at 12 o'clock, noon, at the Auction Rooms of A. Keyes, Bridge Street, Lots Nos. 11 and 12, East Hastings Road, Tudor, containing 100 acres, a large portion under cultivation. Also, Lot No. 24, 9th con. Marmora, containing 200 acres; a good frame barn on the premises.

BARNUM'S

LINE OF STAGES

For the Madoc Gold Regions.

COACHES for Madoc will leave all the principal Hotels in Belleville every morning (Sunday's excepted), at half-past 7 o'clock, arriving in Madoc at 12, noon.

Returning—Leaves all the principal Hotels in Madoc at 2 o'clock, arriving in Belleville in time to connect with the evening trains going east and west.

S. BARNUM, Proprietor.
C. Horton, Agent, Belleville,
S. Gustin, Agent, Madoc.

P. S.—Parties wishing to send parcels on this route will be promptly attended to. All parcels unless booked and paid for will be at the risk of the owner.

July 22, 1867

Fortieth Year.

GODEY'S LADY'S BOOK

For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per cent.

Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion or Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in raising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL,

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is [illegible] as much to the inspiration and direct will of DIVINE PROVIDENCE, as to science. When the combination of the ingredients of this mervelous remedy known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain, but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure. It cured thousands, and saved millions from an attack. Thus it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk,

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED attacks if exposed.

The Wisdom of Providence in selecting the inventors and Proprietors of this marvelous remedy to carry out His will, is [illegible] who reach of His people of all nations of the earth who had sufficient faith to cast their bread upon the waters to return after many days—who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity [illegible] the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, he Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever.

In the world. There is no Ague Cure [illegible] or preparation of Quinine, Arsenic [illegible] forms of Mercury or in fact [illegible] will cure this disease so positively [illegible]

Radway's Ready Relief.

No, not one. Thousands [illegible] Quinine, Arsenic, Mercury, [illegible] Cures and [illegible] gorged liver [illegible] spleen [illegible] colored skin and hundreds of [illegible] distress. These agents never cure [illegible] disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Attacks, &c. than the Quinine [illegible] Chologogues [illegible] Ready Relief is good for hundreds [illegible] that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in [illegible] gallon of [illegible] will give you equal in quantity [illegible] to 144 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas [illegible] these remedies being but poor imitations of Radway's [illegible]

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least [illegible] twenty-five dollars [illegible] to purchase prescriptions, or drugs every time a pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic. Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief**. Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. Ask for **Radway's Ready Relief.**

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the Edinburgh. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The Postage on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews for 1869.* New Subscribers to *all the five* may receive Blackwood or *two of the Reviews for 1869.*

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, WEDNESDAY EVENING, FEBRUARY 16, 1870. No. ~~315.~~ 245

The Terrible January Snow Storm.

Destruction of Valuable Property and Great Loss of Life—Sad Particulars—A Band of Indians Frozen.

Omaha, Neb., Jan. 25, 1870.

The storm or Saturday, Jan. 16, will long be remembered as one of the most dreadful that has ever occurred in the West. It extended over a great space of country, and many people and large quantities of live stock of all descriptions were destroyed by it. I can give you some incidents of the storm that you may judge of its severity. While the snow was flying so thick that no one could see ten feet in advance, two brothers named Leopold and Jacob Unger, who lived near Columbus, Neb., on the Pacific Railroad, left their house for the purpose of going to the barn, only a few rods off, to attend to their stock. They soon got lost, and wandering about in every direction in the blinding snow and sleet trying to find the house, shelter of some kind, at length one of them fell and expired. The other then stripped off his brother's clothing and covered himself with it and alone tried to find his way back to the house; but after going on about forty rods further, he, too, fell, and was soon covered up with snow and ice and frozen to death. These young men were Hungarian and were highly respected for their probity and good conduct. Their remains were found on the following Monday about five miles from their home, and the track which they had made showed that they had during the prevalence of the storm, traveled over fifteen miles.

A SAD STORY.

A Mr. Dowd, who lives on Vermillion River, about four miles from Vermillion City, Dakota, had a family consisting of his wife and three children, aged respectively 16, 8 and 6 years. The house in which he lived was a poor one, and very cold, and being without much fuel, he started to visit a neighbor some forty rods distant, when the storm first began, taking the six year old child in his arms. His wife followed with the other two. On the way the father became separated from the mother and the other children, and he continued on until he found his neighbor's house and went in to get warm. He waited some time, but his wife not coming in, he started out to look for her, and gave the alarm to his friends. Every effort was used to discover the whereabouts of the missing wife and children, but without success, until Monday, the 17th, when they were found about seventy five rods from the house, frozen stiff. They had lost their way, and the density of the flying sonw had prevented their finding the house.

A BAND OF INDIANS FROZEN.

About thirty warriors of the Pawnee tribe strated out from their country a week before the storm to find some buffalo, and, if in luck, get a few scalps from their old enemies the Sioux. When out the party divided, some going south, where they found some buffalo, and returned well-loaded with meat. The others equally fortunate fell in with a band of Sioux, killed several of them, and started back with about forty captured ponies. On their return, and when about eight miles from Lone Tree Station, they were overtaken by the terrible storm on Sunday, and all perished within a day's march of their homes. The bodies of these Indians, with their own and their captured ponies, were all found lying dead together, partly covered with snow and ice, by the runners who were sent out to discover their whereabouts.

SNOWED IN ON THE RAILROAD.

On account of the storm the Pullman Hotel Express train from San Francisco was 24 hours behind time, owing to the fact that the telegraph poles and wires were in many places blown down, and the were prevented the trains from travelling by becoming entangled in the locomotive. They had plenty of provisions on board the train, so that there was no suffering among the passengers, though several of the employés had their hands, feet and ears frozen. This is without doubt the most dreadful storm ever known in the West since it was settled by the whites, and as yet no estimate can be made as to the destruction of life which it has caused.

To the Editor of the Daily Intelligencer.

Sir,—Allow me to call the attention of our city fathers to the necessity of enacting a By-law making it obligatory upon the inhabitants to clean their chimnies. This is required in all large cities, and should receive the immediate attention of those in authority in our town. I am astonished that our shrewd Insurance Agents have not had an eye to this matter. The burning of Mr. Bull's building was undoubtedly owing to some neglect of this kind. Once make it compulsory upon the inhabitants, and they will be willing to pay, and the necessity having been created, the supply will soon be forthcoming in the form of a competent staff of sweeps. Trusting this suggestion will be kindly received and acted upon, I am

Yours truly,
A Citizen.

Belleville, Feb. 14, 1870.

Love's Belief.

I believe if I should die,
And you should kiss my eyelids when I lie
Cold, dead, and dumb to all the world contains,
The folded orbs would open at thy breath,
And from the exile in the aisles of death
Life would come gladly back along my veins.

I believe if I were dead,
And you upon my lifeless heart should tread,
Not knowing what the poor clod chanced to be,
It would find sudden pulse beneath the touch
Of him it ever loved in life so much,
And throb again, warm, tender, true to thee.

I believe, if on my grave,
Hidden in woody deeps or by the wave,
Your eyes should drop some warm tears of regret,
From every salty seed of your dear grief
Some fair sweet blossoms would leap into leaf,
To prove death could not make my love forget.

I believe if I should fade
Into those mystic realms where light is made,
And you should long once more my face to see,
I would come forth upon the hills of night,
And gather stars like fagots, till thy sight,
Led by the beacon blaze, fell full on me!

I believe who has not loved
Hath half the treasures of his life unproved,
Like one who with the grape within its grasp,
Drops it, with all its crimson juice unpressed,
And all its luscious sweetness left unguessed,
Out from his careless and unheeding clasp.

I believe love, pure and true,
Is to the soul a sweet immortal dew
That gems life's pedals in its hours of dusk;
The waiting angels see and recognize
The rich crown jewel, love of Paradise,
When life falls from us like a withered husk.

Correspondence.

To the Editor of the Daily Intelligencer.

Balls, Dances, &c.

Mr. Editor.—In this day and age of the 19th century one might be led to think that sound, solemn judgment should take the place of the follies of the past; but not so, you can hardly take up a paper but you see the accounts of some great ball or dance that has taken, or is to take place.

We have Balls under the patronage of several of the Saints, Masonic Balls, Firemens' Balls, &c., &c,

But the latest we hear of is to come off at Ottawa, in the Parliament Buildings; which from the notices is to be "*a grand affair*."—His Excellency the Governor and Lady, together with the members of the Dominion Government, (I hope not all of them), and the members of the Commons and Senate are to honor Prince Arthur with a grand reception and Ball.

The business of both Houses must be laid over at a large expense to the country, in order to accommodate the large party which are to be present, as it appears that over one thousand cards of invitation have been issued, and Senators and Commoners will dance away, to the tune of six dollars per day, work or play, and all for what? why "to honor the Prince." If there was no one to be gratified but the Prince, I think there would not be much dancing done.

Well, the Prince must dance; has he not danced from Halifax to London, and back to Montreal? Has he not danced from Washington to Ottawa, and now only three dances are awaiting him at the seat of Government.

We see that even the Peabody funeral ship, the "Monarch," after getting rid of its freight was to have a "hop" before leaving Portland Harbor; was it for joy on the part of the Captain and officers of the "Monarch" at the conclusion of the funeral ceremonies that the "hop" was to be given?

Now sir, who pays for the ball, or "hop" at Ottawa? No doubt the whole expense will be found in the people's bill of fare, which we will all have to pay sooner or later if we can; and these expenses are heaped upon us whether we will or no, contrary to the wishes of tens upon tens of thousands of Christian people in this Dominion of ours.

When will our Governors, our Government, our Senators and Commons, learn to respect the opinions of a large class of Her Majesty's subjects who are opposed to dancing, and now particularly so in using the Parliament Buildings and the people's money for such frivolity?

I wonder if our noble Queen would, with the House of Lords and Commons, stop the business of the Session to use the Parliament Buildings for a Ball; I incline to think Her Majesty's womanly nature would revolt at the idea.

It is left to us in Canada to show how these things can be done, and as the Senators voted by quite a majority that the Senate Chamber should be given to Speaker Cauchon for his "Hop" into the first Session of the Dominion Parliament, although strongly spoken against at the time, why not other "hops" take place also?

Now as the Senate Chamber is to be again the seat of frivolity, why not carry it out and grant the building to parties for Saints' Balls and fifteen penny Hops. Our Government might make something out of letting the Chamber, the funds of which might go to lessen the expenses of the Legislature. But enough, I oppose such desecration of our Parliament Halls.

Yours, &c., &c.,
Billa Flint.

Belleville, 15th February, 1870.

—Several persons have recently lost their way on the Iowa prairie during the heavy snow storms, and been frozen to death.

FRESH OYSTERS.

JOHN WILSON

H. ROSENBERG.
Belleville, Sep. 1868. 122-tf 32-tf

CANADA
Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates*, will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are

Indisputable on any ground whatever,

Subject only to payment of premiums which may become due.

SPECIAL FEATURES.
ECONOMY—
Giving more assurance, for the same money than other Companies.
HOME MANAGEMENT—
HOME INVESTMENTS—
Every advantage to policy holders which is compatible with sound management and ultimate safety.

A. G. RAMSAY,
Manager.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, FEB. 16.

ARRIVED.—The Steamship *Nestorian* arrived at Portland on the 15th at 8:45 a. m.

CONGREGATIONAL CHURCH.—Rev. Mr. Douglass will preach in the Congregational Church next Sabbath, the 20th inst.

RUMOR.—It is rumored that Hon. Mr. Tupper is to be appointed Lieutenant Govenor of Nova Scotia to replace Gen. Doyle, who assumes the chief military command of the Dominion.

PASSED.—We are pleased to observe that Mr. T. G. A. Henderson, son of Geo. E. Henderson, Esq., of Belleville, has passed a very successful examination at the late Hilary term, and been admitted as an Attorney.

REIFFENSTEIN.—The preliminary examinations of Reiffenstein before the Police Magistrate have been concluded, and the prisoner was fully committed for trial, at the next Assizes, on charges amounting in the aggregate to about $14,000.

KINGSTON AND MADOC RAILWAY.—The City Council of Kingston on Monday evening passed the By-Law giving $50,000 bonus to the Kingston and Madoc Railway, by a vote of eighteen to three. It is to be voted upon by the people on the 15th of March next.

GOLD IN NOVA SCOTIA.—Public returns show that the quantity of gold produced in Nova Scotia, from the date of the first discovery of the precious metal to the end of 1868, a period of eight years, amounts to 160,000 ounces. The best year was 1867, when the yield amounted to nearly 30,000 ounces.

ST. PATRICK'S SOCIETY BALL.—We would call attention to the Ball of the Young Men's St. Patrick's Society, which takes place this evening in Ontario Hall. From the success which attended the Ball of last year, and the exertions used by the Committee on this, there is no doubt but those who attend will, with the aid of first class music, thoroughly enjoy themselves.

THE GRAND JUNCTION ROAD.—At a meeting of the Council of the Township of Thurlow held on the 15th inst., a resolution was unanimously passed appointing a Committee to co-operate with the Belleville Committee for the furtherance of the Grand Junction Railway. The Committee consists of Messrs. J. J. Farley Reeve; and P. R. Daly and Jno. N. Diamond Deputy Reeves. The ball is rolling.

ENTERPRISE.—The Napanee *Express* says that Mr. R. J. Cartwright, M. P., has resolved upon building a Cotton Factory in that town, with the idea of still further employing the immense water power on the Cartwright estate. The building will be of stone and frame, five stories high, 100 x 60 feet, and the contract for it is taken at $10,000. We are glad to hear of Mr. Cartwright's enterprise, and would be still more pleased to announce that some equally enterprising individual would take steps to establish a similar manufactory here.

THE IRISH LAND BILL.—Mr. Gladstone yesterday introduced into the Commons his bill for land reform in Ireland. It provides for security to tenure, the facilitation of transfer and purchase of land for loans to tenants desiring to buy, and to landlords to enable them to reclaim waste lands. The new law is to be administered by a court of arbitration. Ulster customs are to be recognized, improvements giving value to land are to be paid for and evictions for non-payment of rent are to bar all claims against tenants. Notices to quit are to give the tenant one year's time from the end of the current year and the county cess is to be divided between landlords and tenants.

FREE READING ROOM.—Last night the Free Reading Room, in connection with the Young Mens' Christian Association, was opened to the public. The rooms present a very attractive appearance. They are well carpeted, comfortably furnished, warm and well ventilated. The reading matter is not yet complete, but there is a very fair number of leading newspapers; the members of the Association are determined to make it complete in every department. The privilege of attending the Reading Room is not confined to members of the Association; all young men are cordially invited. Arrangements will also be made for young men to write letters, &c., and every facility for spending profitable and agreeable evenings. The following meetings will be held every week, in the room in rear of the Reading Room: On Sabbath morning a prayer meeting at 9 o'clock; on Monday evenings a prayer meeting at half-past 7 o'clock; on Thursday evenings a meeting of the Association at half-past 7 o'clock.

—Fears are entertained in the Atlantic fruit-growing States that the fruit crop this year will be a total failure. There is no frost in the ground, and the buds of peach trees, and currant and gooseberry bushes are ready to burst. Even in Connecticut, there is no snow, farmers are ploughing, and violets and dandelions are in blossom.

Out With It.

The Hon. Geo. Brown and the *Globe* have time and again made most gross and unjustifiable attacks upon the private character of Sir John A. Macdonald and others, and in retaliation therefor, some of the Ministerial journals threaten if naughty Mr. Brown does so any more, he will be paid off in his own coin. Why not out with it at once? The *Globe* is cowardly and mean enough to continue these dirty attacks upon public men's private characters, just so long as it thinks it can make political capital; and the only effectual way of silencing him, and preventing him from thus prostituting the privileges of the press to his base purposes, is to pay him off in his own coin. It is evident from what these journals say, the Hon. George lives in a glass house, and as he takes particular delight in prying into, and exposing what takes place in other people's private apartments, by all means let us have a peep into the glass house of the chief editor of the *Globe*. The Ottawa *Citizen*, commenting on a late dirty attack of the *Globe* on the character of Sir John A. Macdonald, says:

"There is but one remark that we have to make to Mr. Brown, and we beg to draw his special attention to it. It is this, Mr. Brown has chosen to insult Sir John A. Macdonald again in a gross and unjustifiable manner. Now we would in the first place ask Mr. Brown how he would like to be held up to the public gaze in the same way? And in the next place we warn Mr. Brown that unless he observes the courtesies common amongst gentlemen, we shall feel it a duty to expose him, and lay bare his weaknesses in England, when on Dominion deputations, and also when on private business in London, in such form and manner as will perhaps surprise or horrify his friends and admirers. We have no desire to do this, or to imitate the nastiness of the "Globe;" but it depends upon Mr. Brown whether we shall be forced to retaliate upon him in the same form as he has attacked those infinitely his superiors in decency and virtue."

British Templars.

At the adjourned meeting of the County of Hastings County Lodge of British Templars, held at White's Church, Front of Sidney, on Saturday last the 12th inst., the following officers were elected for the year ending next September 1870, viz: George J. Potts, M. D., County Chief Templar; E. Lott, County Vice Templar; J. B. Young, County Secretary; John Ross, County Treasurer; Dr. Rose, County Lecturer; M. A. Bradbier, County Counsellor; W. C. Wallbridge, County Chaplain; W. J. Taylor, County Financier; G. Finkle, County Marshall; J. Kelly, County Deputy Marshall; Wm. Morrison County Past-Chief.

The meeting was largely attended, and composed of some of the leading men in the various sections of the county. The next session of this Lodge will be held (D. V.) in Belleville, on the first Wednesday in June next. A Committee was appointed to take active steps in the futherance of the "Dunkin Act" in the County and the usual proceedings, which were highly interesting, were brought to a close at 4½ p.m. by singing a solemn ode on Temperance to the tune of the grand Old Hundred, and by the Chaplain's beautiful prayer; much satisfaction was manifested at the election of officers, and order of proceedings.

We may observe that a Primary Lodge has been organized in Belleville, and a large number of names have been submitted, in addition to those already named in a previous issue.

Grand Orange Lodge of Ontario East.

The Grand Orange Lodge of Ontario East, met in the Workingmen's Temperance Hall on Tuesday, at noon. There was a very large attendance of the members of the Grand Lodge from different parts of the Province. The chair was occupied by Mackenzie Bowell, Esq., M. P., Grand Master. The day was occupied in the appointment of committees and in the consideration of general questions relating to well-being of the Institution. A resolution was carried congratulating Bro. Bowell on his safe return from Europe, in which was expressed a feeling of gratitude on account of the great kindness shown by the Orangemen of Ireland to the Grand Master during his stay in that country, and promising a return of fraternal greeting should any of the leading members of the order from Great Britain or Ireland visit Canada. The Grand Master in reply made a lengthened and eloquent speech, giving an account of his visit to Europe.

At this morning's Session the Grand Lodge was occupied in discussing the reports of the several Committees.

During the morning the following telegram was received:—

To the Right Worshipful the Grand Lodge of East Ontario:

The Provincial Grand Lodge of Western Ontario send their fraternal greetings and respects to their sister Lodge now in session.

(Signed) DALTON MCCARTHY, G.M.
G. O. L. of West Ontario.
THOS. KEYS, G. S.

Newmarket, Feb. 16th, 1870.

The following reply was returned:

To the Right Worshipful the Grand Orange Lodge of Western Ontario, Newmarket:

The Grand Orange Lodge of Ontario East heartily reciprocate the fraternal greeting of your Right Worshipful Grand Lodge. Our meeting is large; our cause is progressing.

H. S. MACDONALD, D. G. M.
A. J. VANINGEN, G. S.

Belleville, February 16th, 1870.

The following is the list of officers elected to serve for the present year:—

Grand Master, M. Bowell, Esq., M. P.; Senr. Deputy Grand Master, H.S. Macdonald, Esq., Barrister, Brockville; Junr. Deputy Grand Master, George Brown, Kingston; Grand Chaplain, Rev. Wm. Burns, Omeeme; Grand Treasurer, S. S. Peck, Minden; Grand Secretary, A.J. Van Ingen, Cobourg; Deputy Grand Secretary, George J. Potts, M. D., Belleville; Grand Lecturer, William Makins, Kingston; Grand Director of Ceremonies, Wm. Henderson, Port Granby.

Police Court.

(Before A. DIAMOND, Esq., Police Magistrate.)

WEDNESDAY, Feb. 16.

MARKET BY-LAW.

The postponed case against Edward Snell, for infringement of the Market By-law, was at length brought to an issue. Mr. Dougall objected to proceedings being taken, on the ground that the Court had no jurisdiction, the new By-law not being suspensory in cases standing for trial. The Magistrate held the objection good, and dismissed the case.

THE LIQUOR CASES.

The adjourned charges against Chas. Mollins, F. Fanning and T. A. Holbrook, were not gone into. The witness Jones, who had been allowed an adjournment of a week, in order to procure evidence as to his character for veracity, failed to appear, and the charges were dismissed with costs against complainant, or 10 days in gaol on each case.

The case against P. H. Hambly, for selling liquor after 7 o'clock on Saturday night, 5th inst., was dismissed, the evidence not being conclusive.

William Power, Canifton, was charged with Sunday liquor selling. The only witness examined had not drunk liquor charged, and the Magistrate consequently dismissed the case with costs against complainant.

FURIOUS DRIVING.

The case of Wm. Bleecker, charged with furious driving, was further adjourned till Friday.

ASSAULT.

John McCarty charged Martin McDonald with having assaulted him on the 23rd January last. Defendant admitted the charge, and was fined $1 and costs, or 10 days imprisonment. The money was paid.

DOMINION PARLIAMENT.

HOUSE OF COMMONS.

OTTAWA, Feb. 15th, 1870.

The SPEAKER took the the chair shortly before four o'clock.

Seventy-three members were present.

The SPEAKER reported a list of constituencies rendered vacant since the last session, and in which the elections had taken place. The new members were then introduced, and took their seats. J. M. McDougall, for South Renfrew, by Mr. McKenzie and Mr. Blake, Sir Francis Hincks, for North Renfrew, by Sir John A. Macdonald and Sir G. E. Cartier; Mr. Dunkin, for Brome, by Sir G. E. Cartier and Hon. Mr. Langevin; Mr. Morris, for South Lanark, by Sir John A. Macdonald and Hon. Mr. Tilley; Mr. Sciever, for Huntingdon, by Sir G. E. Cartier and Mr. Dunkin.

The SPEAKER reported that the members of the Commons had at a bidding of His Excellency repaid to the Senate Chamber, and that he had there received the speech from his Excellency, which he will now read:—By common consent the reading of the speech was dispensed with.

Sir JOHN A. MACDONALD moved that his Excellency's speech be taken into consideration to-morrow.

Mr. MCKENZIE said that before taking the speech into consideration, the House should be in possession of papers relating to the subjects treated of in the speech.—He asked if the papers relating to the Red River question would be brought down before the discussion came on.

Sir JOHN A. MACDONALD said it was not the intention of the Government to bring these papers before the address in reply to the speech was past:—All the information would subsequently be furnished to the House that could be given without risk to the public interest; this was the usual practice.

Mr. MCKENZIE did not wish for any papers, the production of which would prejudice the public interest, but he thought some of the papers respecting the Red River question ought to be in the possession of the House before they could intelligently discuss the portion of his Excellency's Speech referring to the matter.

Mr. HOLTON was quite aware of the usual practices in such cases, but to-morrow they would be called on to echo the sentiments of the Speech; and there were some statements in it, the echoing of which would be an endorsation of all the steps taken by the Government. Of course, it was quite impossible that the House would be disposed to endorse the action of the Government; but they ought to be in possession of such information as would justify them in giving that endorsation. He thought this was a sufficient strong reason to justify the Government in departing from their usual course, and in sending down the papers at once they had precedents in Canada for that course; though, he admitted, they were rare.

Sir JOHN A. MACDONALD thought it would be more convenient to follow the English practice, but he would take care that the House was in possession of every information before the measures referred to on the speech were discussed.

The motion was carried.

Sir JOHN A. MACDONALD then made the usual motion respecting the printing of votes and proceedings, the appointment of select standing committees respecting bribery at elections.

The Speaker laid on the table the report of the Librarian.

The House then adjourned at 4:20.

—The Kingstonians are to have a grand Carnival and Masquerade, at the Skating Rink on the 1st of March.

County of Hastings Sabbath School Convention.

FIRST DAY.

The first meeting of the County of Hastings Sabbath School Convention was held to-day, in the John street Presbyterian Church. The attendance of delegates was numerous, while the interest of the outside public in the progress of this most important branch of Christian education was testified by a goodly attendance.

The Convention was called to order at half-past two, p. m., by the Hon. BILLA FLINT, Chairman of the Provincial Sabbath School Convention, who shortly stated the object of the meeting, and urged upon all a close attention to the proceedings, which would be of consequence to the eternal welfare of all.

The Rev. WM. MCLAREN, pastor of the John street Presbyterian Church, then read the 1st chapter of the 2nd Epistle of Timothy, and afterwards engaged in prayer.

Miss FANNING then sung, with fine effect, the hymn "Beautiful Stream."

On motion of Revd. S. JONES, M. A., pastor of Christ Church, Mr. ALBERT L. GEEN was appointed Secretary.

CHARLES MARTIN, Esq., then addressed the Convention, and read the constitution and rules of order which had been drawn up for its governance.

On motion of Rev. Mr. MCLAREN, the constitution and rules of order were adopted.

The remainder of the afternoon was taken up in discussing the organization of the Convention. The early hour of our going to press prevents our giving to-day a report of these proceedings, which will appear to-morrow.

Execution of Munroe.

HIS CONFESSION.

A telegram from St. John, N. B., announces that Munroe was executed at 8 o'clock yesterday morning, for the murder of Miss Vail. He struggled hard and his sufferings appeared terrible. The following is his confession:—

Confession of John A. Munroe to Sheriff Harding, in the presence of Messrs Stewart, and Lathern, Feb. 14, 1870:—The first time I went out with Miss Vail, it was only for a ride. We had no quarrel and our going out was at her wish. When we got out of the coach, at or near the place described at the trial she had a satchel, and we walked along the road, I cannot say how far, and sat down and had a little to eat. We both fired at a mark, she using a pistol I had given her,—one of a pair, a breech-loader, the same as my own. The mate of it I gave to a friend. I had learned her to use it. There was no intention on my part to harm her at that time. We came back, and I left her at Lake's. She was to have gone to Boston on the Thursday after the first going out, but it was too stormy, and I went with my wife to Fredericton on that day and came down again on Friday night. It was during that trip to Fredericton I first thought that the spot I had visited was a suitable spot to commit a bad act. I went out again with Miss Vail on the Saturday following. We went the same road as before and to about the same place. The morning was frosty and the moss was crisp and hard. There was no wet on the barran. The road was a little muddy. We went off the road a little way together and sat down. I went into the bushes. The child cried. I came out again and I was angry. I strangled the child. I do not know that it was actually dead. As she was rising up I shot her (Miss Vail) in the head—I do not think on the same side as shown in the court. I threw brush over her face and some over her hands. I found the pistol in her pocket or just fallen out of it a common handkerchief, and a wallet with only a few dollars in it. I threw the wallet and handkerchief away, and left at once and have never been back since. I previously had some of her money; could not say how much—perhaps half or a little more. I cannot say that money was not one of the motives for the act committed. I do not say it was in self-defence I killed Miss Vail. It was the money, my anger with her at the time, and my bad thoughts on and after the trip to Fredericton, working together, caused me to do this bad act. The letter written to Mr. Crear was written by me and mailed in Boston by a friend of mine living in or near Boston. I never killed any other person or child.

(Signed.) JOHN MUNROE.

CHARLES STEWART, }
JOHN LATHERN, } Witnesses.

—The Paris Opera House physician uses the galvanic battery to cure singers of hoarseness; they are so shocked that they don't know whether they are hoarse or not, and immediately sing and electrify the house.

—The Chinese are becoming extensive purchasers of real estate in San Francisco, where unimproved real estate pays one per cent. a month on leases to persons who desire to build. The sales of valuable property of this kind to Chinamen in January amounted to $44,500.

—An alligator 17 feet long and weighing 950 pounds, was recently killed in the swamps of the Wateree River, South Carolina. He was very ferocious, and with a snap of his immense tail, broke the leg of a colored boy, besides wounding several others, before he could be secured.

—An American paper says the Chicago dentists are discussing the property of advertising their business. Why they hesitate, it is hard to tell. We always thought dentists wanted to draw, and if advertising won't draw, nothing will. If they doubt it, let them stop advertising, and see how quickly they will fall in spite of their teeth.

BRIDGEWATER

COTTON & WOOLLEN FACTORY

THE subscriber offers to grant splendid water power for a Cotton and Woollen Factory combined, or separate, at the thriving Village of Bridgewater, to a Company, or Companies, to be formed to erect the same.

The power is superior, as a constant supply of water can be obtained to work the Factories the year round.

The facilities for building are good, as the best material can be obtained on the premises.

A Prospectus for the formation of a company, or companies, will soon be issued, and Stock Books will be opened at Bridgewater, Belleville, and other places.

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO. LINDSAY, ONT. 221-4w

---

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element* IRON, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.

51-30d 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds,

BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

NOTICE.

APPLICATION will be made to the Parliament of the Dominion of Canada at its next Session, for an Act to revive the Charter of the GRAND JUNCTION RAILWAY COMPANY, and to place the said Company in the same position it held before its amalgamation with the Grand Trunk Railway Company of Canada, and with power to make arrangements with said Grand Trunk Railway Company for Station and other accommodation at Belleville, and for other purposes connected with said Railway.

Also for power to build said Railway of such gauge as may be most expedient; and for such amendments to said Charter as to the route, the character of the Railway, &c., as may be thought best.

Also for power to the Municipalities interested in the construction of said line, to grant bonuses, &c., to aid its construction; and for other purposes.

Belleville, 9th February, 1870. 309:tf

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietary interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

December 15th, 1869.

THE BEST IN THE WORLD.

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH.

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country, *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS."

the plate costing nearly $4 000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American can the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

$1,500 Cash Prizes.

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free, address the Publishers

MUNN & CO.,
37 Park Row, New York.

How to get Patents.—A pamphlet of Patent Laws and instruction to Inventors sent free.

A Crazy Editor.

The following lunatic rhapsody is from the New York *Democrat*, and a specimen of the stuff the people of the United States have to accept as newspaper comment:—

DEATH OF STANTON.

God is just!

Edwin M. Stanton committed suicide, and died by his own hand rather than longer endure the torture which was his lot to bear from the execution of Mary E. Surratt, till the time of his wretched death.

The once robust man went to his own death, and though the particulars of his demise are as yet not fully public, enough is known to prove that in a fit of terror, when he trembled like a leaf shaken by the storm at the ghost of the murdered woman, who stood before his vision, he cut his throat, and died to escape his great dread.

For years he has lived the life of a conscience-stricken wretch. We personally knew that he has told a gentleman in this city—a gentleman high in judicial position—with whom he formerly affiliated politically, and who is known as the soul of truth and honor, that since the murder of Mrs. Surratt, he (Stanton) had not known one hour of peace.

Said he, when speaking of the matter: "Judge, it is terrible! That woman was *murdered* to appease the wrath of a party! And I was the coward that struck the blow for those who demanded this wrong. But I have suffered—O, God! how I have suffered—how I do suffer. Every hour of the day I see her and her innocent face. Every night I see her on the scaffold—swinging in air—bound—struggling—dying!

"Every night of my life I stand face to face with her—I hear her daughter's prayers for justice—I see her in her coffin—I see the Court which sentenced her dancing like devils in hell and saying to me—

"'You! *You*! YOU DID IT! You Edwin M. Stanton—Edwin *Murderer* Stanton compelled us to *murder* your victim, and we will *murder you*!'"

Those who knew him from the murder of Mrs. Surratt till the day of his death, *know* how he suffered. He would waken from sleep and cry out like a child for some one to——

"Take her—O! take her away!"

He would sit upright in bed—his very hair on end—his face pale as death itself, and tremble till the great livid drops of sweat would trickle down his cheeks. Then he would moan and call for drink, walk the floor, and at last find relief under the influence of opiates, only to start in horror again. His brilliant talents died out. His ambition weakened. His nerves seemed to rot. His soul cried for relief even in hell. At last, by his own hand, to escape the horrid vision of a woman murdered by a tyrant, he cut his own throat, and so passed from earth to the bar of God, the cowardly soul of the tyrant and tool of tyrants, Edwin *Murderer* Stanton!

Who says God is not just! Look at the record of those Republicans, who have died raving maniacs, by suicide or violent death, and tell us if you dare that the power which has protected us in denouncing tyranny has not punished many, and will not punish more of those who, in the name of liberty, loyalty, and justice, have robbed, murdered destroyed and outraged laws, States, people and even common humanity.

And vengeance is not yet satisfied.

Let the ones who have met violent death as a reward for their crimes against a country, and a people, as they are ushered to their blood stained, graves, say—

"Coming, Father Abraham, three hundred thousand more!"

* * *

DR. J. BRIGGS' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called *internal piles*; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

CATARRH, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

CONSUMPTIVES, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

CURE for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

FROSTED FEET, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

Mortgage Sale.

WILL be sold under the powers contained in certain Mortgages which will be produced at the sale, on

Tuesday, 22nd Day February,

A. D. 1870, at 12 o'clock, noon, at the Auction Rooms of A. Keyes, Bridge Street, Lots Nos. 11 and 12, East Hastings Road, Tudor, containing 100 acres, a large portion under cultivation. Also, Lot No. 24, 9th con. Marmora, containing 200 acres; a good frame barn on the premises.

Fortieth Year.

GODEY'S LADY'S BOOK

For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50

Five copies, one year, and an extra copy to the person getting up the club, making six copies,	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, payable *to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

NORTHROP & LYMAN,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt. ch. xxi v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was [illegible] to the notice of the medical faculty [illegible] standing the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES AND INFIRMITIES

In a few moments after its use

Its wonderful power in raising the Bedridden Crippled, Rheumatic, Neuralgic—[illegible] all suffering from Pain, Inflammation [illegible], and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination and distribution throughout all nations of the earth of this marvelous remedy is [illegible] to the inspiration and direct will of DIVINE PROVIDENCE [illegible] to science. When the combination of the [illegible] of this marvelous remedy known as RADWAY'S READY RELIEF was completed it supplied a want that had ever existed, that [illegible] the best approved discoveries in Medical Chemistry [illegible] the Materia Medica, or the skill of the most eminent Physicians could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain, but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS.

If exposed to contagious or epidemic pestilences, it not only Cures Pain, but will prevent it [illegible] all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure. It cured thousands, and saved millions from [illegible]. [illegible] it was that Divine Providence [illegible] to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar be[illegible] secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS—all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED [illegible] exposed.

The Wisdom of Providence in selecting the Inventors and Proprietors of this [illegible] remedy to carry out His will, in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to cast their bread upon the waters to return after many days, who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere—shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from Pestilence in all forms; and as regards ordinary PAINS that are common to all, the Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the [illegible] forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-doses of with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty in an gorged liver, fat spleen, disordered kidneys, sallow colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $[illegible], and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits, will give you equal in quantity, and stronger in [illegible], to 144 bottles of the 25 cent Pain Remedies, Pain Killers, Embrocations, Panaceas, [illegible], &c., these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, is a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least ($25) twenty-five dollars, had to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,
Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic. Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. Ask for Radway's Ready Relief.

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above *periodicals* for 1870 will be entitled to receive, *one of the Four Reviews for 1869*. New Subscribers to all the five may receive Blackwood or *two* of the *Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by HENRY STEPHENS, F.R.S., Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo. 1600 pages, and numerous Engravings. Price $7. By Mail post-paid $8.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, THURSDAY EVENING, FEBRUARY 17, 1870. No. ~~316~~ 246

Science and Art.

A steam engine was exhibited at Georgetown on Saturday last, in which the only fuel used was crude petroleum, vaporized and burned as gas, according to the system fully described in this column a short time ago. For the past two months the duty of the apparatus in question, has been to drive a 30-horse power engine, with a common 35 foot cylindrical boiler. Relative tests with Cumberland coal show that the average pressure of steam with coal fuel under the same boiler is 35 pounds; the gas being started, the pressure is increased to 65 pounds in 20 minutes. This service is performed at an expense of one gallon of crude petroleum per hour; cost 17cts. From the fire produced, when combustion is regulated, there is neither smoke dust, nor ashes. As a matter of comparative economy the results thus far seem to be of great promise.

The great producer of artificial perfumes is fusil oil, or amylic alcohol, a substance generated during the distillation of whiskey from potatoes. Its normal odor is very unpleasant, but in certain combinations it gives rise to the sweetest toilet perfumes. Drop amylic alcohol on platinum black. It immediately oxidizes to an acid which gives the smell of valerian. Distil amylic alcohol with acetic acid obtained by the decomposition of acetate of potash with sulphuric acid in the retort, and an oily product smelling exactly like the Jargonette pear, is generated. Distilling with chromic acid obtained in an analogous manner to the above, and an oil smelling like apples is produced. Cognac and grape oils are imitated by the action of concentrated sulphuric acid upon the same radicals. Products having the odor of bananas, oranges, and many other kinds of fruit, are successfully imitated by analogous methods. But the odors produced are not, by any means, all of them pleasant. Those of disgusting plants, bed-bugs, squash bugs, &c., &c., are equally attainable though not in general request.

To Make a Well and Cistern in one.—Joseph Simpson, Newark, Ohio.—First dig a hole until you come to water. Settle a curb as if you was going to wall it up, and when you have sufficient depth of water, and your wall is up to the water-line, cover it up with flat stones or something that will answer the same, leaving a small hole in which to insert a two-inch earthen pipe, not letting it go below the surface of the water, and long enough to reach up to the level of the ground. After standing the pipe upright, begin and fill in a portion of the dirt, pounding down solid After filling it up to the required depth of your cistern, cement it with water-lime mortar, as usual. The two-inch pipe leads down to the well, in this pipe insert an inch pipe and attach a pump. The well never needs cleaning out, no rats or vermin can enter, and it has the advantage over the Drive Well, that no sand will rush in the pipe and necessitate the taking up of the same; and in case of bursting with frost, it is easily lifted out and repaired You have a well and cistern with one digging and the once walling. I have had one in successful operation three years. My neighbors all come when they want a good drink.

A machine for making cigars is one of the latest inventions. After two weeks for learning a girl can make 1,500 cigars a day equal to the best made by hand, and at a cost for labour of only, $4 a thousand whereas the cost of making wholly by hand costs $18 a thousand. The machine will will work tobacco so tender that it cannot be worked by hand, and the tobacco, being moistened in bulk, the filthy practice common among cigar makers of taking water into their mouth and squirting it upon the tobacco to moisten it is entirely abolished as well as the practice of biting off the points of the mouth end of cigars with the teeth.

Welding by Pressure.—It is claimed that recent experiments by French machinists have shown that continued steady hydraulic pressure in welding, causes complete union of two masses of iron, while the junction is only superficial if produced by the hammer. Among other experiments, two iron bars, one and a half inches in diameter, were heated to the welding point and brought under the hydraulic press. The welding was effected with extraordinary quickness, the fibres of the iron being thoroughly intercalated with each other, and the joined portion of the bars were quite as strong as anywhere else a microscopic section of the joint showing a perfectly homogeneous texture.

Ammonia Powder.—A new explosive of great power is announced by English journals under the name of ammonia powder. Analysis shows merely a substitution of nitrate of ammonium for nitrate of potash, ordinary gunpowder; the change adding immensely to the explosive force. The salt being quite deliquescent; the old adage "keep your powder dry," would lose its significance should the powder come into general use.

Comparative Product of Coal from Wood.—Chesnut makes more coal to the cord than any common wood, oak a little less; and so on down through elm, willow ash, and birch to pine, which makes only two-thirds as much to the cord as chesnut.

Another Indiana Divorce.

Indianapolis Correspondence of the Cincinnati Commercial.

The most startling divorce in the history of Morgan county, Indiana, was that granted the gentleman from Boston. He came thither with a full purse and a retinue of servants. He hired a splendid house, and set up an establishment in princely style.—He had his carriage, his horses, his hounds, and was accompanied and followed by jolly companions who partook of his hospitality, and made the country ring with their revelry and pranks. The old house was turned into a castle of indolence and dissipation, where these men kept high carnival all the night, and slept the livelong day. This gentleman was old. That is, he was sixty; but tall, erect, and splendidly proportioned, with a head set on his shoulders like Webster's, and a face as beautiful as that of Gen. Hooker. The gay old Yankee baron was tired of his lawful wedded wife, and wished to take unto himself a "younger, brighter form," in the person of the maid-of-all-work about his house. To marry the maid, he came with all his witnesses and affidavits to the State of Indiana, to get rid of her mistress by divorce. One witness he sent to Paris for, and when his troop of gay fellows came to Martinsville on the business of divorce, they took the town by storm. The honorable judge was dignified, and their attorney forbade levity in the court, but they made up for it at night. Dr. Clapp, the waggish witness from Paris, was a famous lecturer, and in the evening he would have the court house bell rung until the town would shake again to assemble the citizens to hear him speak. "Pumpkin Pies," was the subject of one of his most amusing discourses. The audience laughed until they cried, then they laughed again. The cause for some reason dragged—perhaps from the amount of evidence, at any rate, my Lady Baroness of Boston got wind of it, hearing, just as the case was about to be submitted to be judged, appeared with her attorneys and witnesses in court; Banquo's ghost was not more unwelcome. The case was interrupted, until he consented to give the baroness aforesaid thirty thousand dollars alimony. The divorce secured him away to Paris, where at the Legation of *des Etats Unis* he was united to the fair maid of Lynn, and at last accounts had set up a coronet, attached a *de* to his name and was flourishing in Germany. Times are changed; the old Court house, which Dr. Clapp made resound with mirth, is supplanted by a grand structure with tower and facings. The statutes are changed, and it has come to pass that respectable law firms are very slow to undertake divorce cases where either party is a non-resident. It is only done, where, as was the case with Mrs. Richardson, the party comes recommended by responsible people.

A Wonderful Plant.

The Victoria Regia, in the Botanic garden at Ghent, has thriven to an unprecedented degree during the past summer. Several leaves have attained a diameter of nine feet, and have supported a weight of two hundred and fifty pounds, and one even the enormous weight of five hundred pounds! Seven of the leaves completely cover a basis of 164 feet square. Every four or five days a fresh flower appeared, which lasted only two days, or rather two nights, opening in the morning of a perfectly white color, diffusing, about five or six p.m., a very powerful odor of vanilla, closing the next morning about eight or nine a.m., opening the same day towards evening, this time of a beautiful carmine, and finally closing the next morning. The magnificent leaves last through summer, the plant begins to dwindle in October, and dies towards December. About this time the seeds, which have been obtained by artificial fecundation, arrive at maturity. They are sown in January, and appear above the ground in about six weeks. Their infancy is very critical; but once past that period, the young plant grows with astonishing rapidity. The plant in the Ghent Botanic Gardens, unquestionably is the finest that has ever been cultivated, arrived at its development in five months.

We have more than once heard it intimated that Nevada is an infernal region, and the last reports from that country rather confirm the opinion. The Virginia City *Enterprise* announces the discovery of a brimstone mountain, dried and piled ready for use, and big enough to burn the earthly dross out of all the saints in Utah. Why it should be placed in Nevada, is a matter of surprise to the natives, and yet it should not be, as it hints at the only way the plains are ever likely to be made useful.—Strange to say, the irreverent discoverers are already calculating how much they can make by boxing up the whole diabolical arrangement and shipping it East.

CANADA
Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates*, will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are

Indisputable on any ground whatever,

Subject only to payment of premiums which may become due.

SPECIAL FEATURES.
ECONOMY—
Giving more assurance, for the same money than other Companies.
HOME MANAGEMENT—
HOME INVESTMENTS—
Every advantage to policy holders which is compatible with sound management and ultimate safety.
A. G. RAMSAY,
Manager.
Agent at Belleville,
W. J. SMYTH. 137-9m

Daily Intelligencer.

BELLEVILLE, THURSDAY, FEB. 17.

College.—We notice by programme that the ladies of Alexandra College will give a public entertainment in the College Chapel, to consist of recitations, essays, reading of papers, and music, on Friday evening, at 7½ P. M.

Suspicious.—The Quebec *Mercury* has a violent article advocating resistance by the North West to counterbalance the influence of Ontario, and threatening the retaliation of the United States on account of Canadian Southern sympathy. From the tone of this article there is evidently good ground for the suspicion that the insurgents of the North West have been aided by emissaries from Quebec.

London Society.—We have received from Mr. E. Harrison, the February number of this monthly. The following is a list of the contents :—Castles in the Air ; Matchmaking; Selections from Artists' Sketch book, by Linley Sambourne ; How the Course of True Love did run smooth ; Visits and Revisits ; Waiting for a Valentine ; Who Sent it ? The House of Lords ; Riddles of Love ; Answers to Acrostics in the Christmas Number ; The White Cat ; Poppies in the Corn ; The Piccadilly Papers ; St. Valentine in Germany ; The Ballet-girls of Paris ; Flaccus the Flancur.

What the Result Would be.—Chicago has been punishing some of its thieves and ruffians lately, and their indignant accomplices threaten vengeance. To all of which the *Evening Journal* responds : "Let but a hair of Judge McAllister's head be harmed, and within twenty-four hours a vigilance committee of five or ten thousand good citizens would be sweeping through Chicago like a hurricane of honest wrath. Every lamp post would be ornamented with a choked thief, and not a single ruffian would be left alive in all Chicago to tell how Judge Lynch succeeded Judge McAllister."

Church Dedication.—The Methodist Episcopal Church at the Sidney Town Hall, was opened for religious worship on Sunday, 18th inst. Rev. A. Carman, M. A. preached in the morning ; Rev. J. Wild' M. A., in the afternoon ; and Rev. J. Curts, of Orono, in the evening. The house was filled to overflowing on each occasion. The tea meeting on Monday evening, was a grand success. After the splendid supper provided by the ladies had been disposed of, the preacher on the circuit, Rev. A. Campbell announced that he wanted $700 to pay off all debts. The large and liberal assembly gave him $800. This could not but make the speakers of the evening, Revs. Williams, Walton, Curts, Jones, and Simpson ; and E. D. O'Flynn, Esq., of Madoc, and W. S. Williams, Esq., of Napanee, good natured and eloquent. The choir too, during all the exercises rendered efficient service, and proved how nicely the church enterprise is developing the musical talent of the neighborhood. The Methodist Episcopal Church is building numerous and very respectable places of worship. After completing the Centenary Church in the Murdoff neighborhood, the members and friends at once went on with one at the Hall. The tea meeting about a year ago raised over $200 for that purpose, and now the building is completed, a credit to any neighborhood. It is 50 feet by 30 feet, with a gallery across the front. The walls are painted, and the wood finely grained. The ladies, with socials and private donations, have furnished the church with beautiful carpets, chairs, and chandeliers ; they have also laid upon the desk a very rich Bible and Hymn Book. A fine spire ornaments the building ; and a good shed, 148 feet long increases its comforts. Altogether we feel we cannot speak too highly of the Committee and friends that have carried this enterprise to so successful a completion.

News Condensed.

—A general reduction of the rate of interest by the Continental Banks is said to be taking place.

—Gen. Prim has denied that the Duke de Montpensier's late visit to Madrid had any political object.

—The delegates to a Central Canada Railway Convention met at Ottawa yesterday. They passed resolutions favorable to the enterprise, and also one urging the enlargement of the Grenville Canal.

—Russia demands, in peremptory terms, the extradition of a criminal who has sheltered in Switzerland, with which country she has no extradition treaty. The Federal Government is deliberating on the matter. The other powers are said to favor the Russian demand.

—The telegraphs in England are still out of gear, so far as the general arrangements for the transmission of messages is concerned. However, things are said to be daily improving.

—It is said that the Pope will relieve Father Hyacinthe of the obligations imposed on him by his vows as a Carmelite monk, but that he will be permitted to continue in holy orders.

—The fight between the Government and the Press in Paris still rages. Seven journals have been "warned," and the *Marseillaise* is again being prosecuted. A crowd gathered at Belleville (Rochefort's quarter) last evening, and was dispersed by the police with some difficulty.

Sabbath School Convention.

FIRST DAY.

After the close of our report of yesterday, the work of organization was completed as follows :—

Nomination Committee.—A. G. Northrup, Belleville ; S. Martin, Stirling ; William Johnson, Belleville ; S. Crawford, Bridgewater ; W. Watt, Belleville ; J. Diamond, Ameliasburgh ; Rev. D. Brethour, Belleville ; Wm. Bance, Stirling.

The Committee on Nominations beg to report the following, as the officers of the County of Hastings S. S. Association for the ensuing year :—

President.—A. F. Wood, Esq., Madoc.

Vice Presidents.—Samuel Crawford, Elzevir ; James Martin, Rawdon ; W. Wood, Thurlow ; J. Pegan, Tyendinaga ; S. Wilmot, Sidney ; John Brown, Madoc ; —— Grant, Carlow ; J. S. Tait, Limerick ; John Menton, Hungerford ; S. Vantassell, Huntingdon ; J. S. Beddome, Marmora.

Secretary.—Chas. Martin, Esq., Belleville

Minute Secretarys.—Rev. W. Gray, Roslin ; A. S. Geen, Belleville.

Treasurer.—J. C. Holden.

Business Committee.—William Johnson, Chairman ; Revd's. S. Jones, D. Brethour, John Forin, E. Bunce, S. Crawford, A. G. Northrup and the Rev. Wm. Millard.

Committee on Resolutions.—Rev. D. Wishart, Rev. D. Ryan, Rev. W. McLaren, Rev. G. R. Sanderson, Rev. A. Campbell. W. W. Dean and Dr. Holden.

EVENING SESSION.

The Convention assembled at 7 o'clock, the Church being comfortably filled.

A. F. Wood, Esq., President occupied the chair.

A very large number of delegates and their friends assembled in the Church, showing the deep interest that is being taken in the holy work for which this Convention is convened to further. The meeting was opened by prayer—a very large choir, composed of members of various churches assisting the devotion. The first speaker was the Rev. Mr. Smith, who spoke in a very animated and eloquent manner as to the organization and management of Sabbath Schools, the immortality of the work, and the responsibility attached to those who have the instruction of children committed to their keeping.

He was followed by the Rev. Mr. Millard, the Secretary of the Provincial Sabbath School Convention—a gentleman who has taken great interest in the work of Sabbath School Education, which he declared to be the first work of Christianity, equal, if not superior, to that of the pulpit itself, and urged upon those present the utmost diligence in their Master's Work. His address was listened to with much attention, and was well received.

Music by the choir—"Battling for the Lord."

Rev. G. R. Sanderson, Chairman of the Belleville Circuit, W. M. Church, delivered the address of welcome. He said he was called upon to be the organ of friends to extend a welcome to the delegates from a distance, and if he failed to express their kindly feelings, the failure was due rather to the stammering lips than to the want of kindliness in the heart. He related an anecdote of two friends, one of whom was very pressing in inviting the other to visit him, and gave his invitation in these words : "If ever you come within a mile of my dwelling, be sure and stop." Now this was ambiguous, but the error was simply in the use of the words, and was no doubt sincerely meant He rejoiced that the various sections of Christ's Church were taking part in this good work. In this Convention were some whose hair had grown grey in the service, but who had not yet failed to take an interest in it. There were many present who took an interest in the Convention who were not members. As a minister of the Christian Church he welcomed them. If one class more than another should take an interest, it was the Ministers, whose duty was to feed the lambs of Christ's flock. There were many sects, but all were working for the same end. At the siege of Sebastopol, when a British soldier was wounded, it was not asked to what arm of the service he belonged—whether to the cavalry, the infantry, the artillery or to the naval brigade. The fact of his being a comrade in arms was sufficient to gain him kind attention to his wants. One good effect of this Convention was to bring the different sects together, so that they might know, and knowing, respect each other. It was wonderful the change which had been wrought within the last fifty years in respect of toleration. In all probability, if a Presbyterian suffered a wrong gfty years ago, he would attribute it to "A deil o'a Methody." But this was all now happily altered, for men had learned to respect the religious faith of their neighbors. In the name of the Christian people of Belleville, he bid them welcome to the Convention.

Rev. Wm. McLaren said previous speakers had urged work and prayer—Prayer was the means of leading children into the true faith, and old children too. There was once a school teacher who was an Athiest, who got an appointment to a school, which he was informed must be opened every day with prayer. At first he objected to this, but his desire to get the school was so great that he finally agreed to do as required. So he went into the woods to commence with himself, and study a form of prayer for the opening of the school. While doing this, the spirit of the words entered his mind, and he became converted to Christ, and afterwards was the means of converting many in his school also. He, (Mr. McLaren) had known in the United States a small place which, from the number of irreligious people dwelling there, had acquired the name of "Hell's Corner." A revival of religion swept over the district, and the people of "Hell's Corner," to show their contempt for the good work, organized a sham revival. The leader in this, who conducted the services, became converted while praying before the meeting, and others, with tears in their eyes, followed his example, so that their mock prayer was turned into real prayer. We ought to give our children the example of prayer.

Dr. Holden thought it a good thing to see the different sects working harmoniously together. He believed there was real unity in the Church of Christ without uniformity, which was preferable. The great object of Sunday School instruction was to bring children to the kingdom of the Saviour. This ought to be the aim of every parent and teacher, for it was easier to keep children right than to reform them after going astray. We see members of the Church of Christ addicted to intemperance. How many sad cases of this had he known, in which, after years of Christian life, the reformed had relapsed to their old habits. Even in those who had to teach their fellow-men the way of salvation, one weak spot in the system had, in the time of temptation overcome them. Some of them had been saved by the word of God as by fire. It prevented these evils to teach children to shun the cup which inebriates. Sunday School teachers, as well as every other class, ought to be abstainers. It was an easy matter to teach children to do this if instruction were given while they were young. He would urge that the pledge be sent to all Sunday Schools, for the children who took the pledge would keep it. A celebrated divine had said that the number of those who had apostatized was much larger of those who had taken the pledge as adults, than of those who had taken it when children. Fondness for a alcohol was a disease, for which he had more charity now than formerly, for he now understood it. He would also recommend the circulation of temperance papers in the Sunday Schools. If we wished to do good, we should work and pray, and if necessary pay, in order to do it.

The choir then sang, "Singing for Jesus."

Then followed a discussion on "The Aims and Objects of Sabbath School Teaching," the subject being introduced by Rev. D. Wishart, at the conclusion of whose discourse, the choir gave "Stand up for Jesus." Hon. Billa Flint, Anson G. Northrup, Esq., Wm. Johnson, Esq., and Rev. Mr. Dingman followed up the discussion, and the proceedings were closed by singing the Doxology, after which Rev. Mr. Gray delivered the final prayer.

SECOND DAY.

The Convention re-assembled at 9 o'clock, at which hour prayer meeting was commenced and lasted till 9½, at which hour the business recommenced. The attendance at the opening was small, and the proceedings were begun by singing "Jesus, lover of my Soul," after which Rev. G. Dingman read the 35th chapter of Isaiah and the 3rd chapter of the 1st Epistle to the Corinthians, and engaged in prayer.

The Secretary then read the minutes of last evening's session, which were approved.

The next subject of discussion was, "The Establishment and Organization of Sabbath Schools."

Charles Martin, Esq., opened the discussion in a speech of considerable length and ability. He said the Sabbath School was the most important work in connection with the Christian Church. While in London in 1863, he had heard this statement made in the pulpit by an eminent and venerable divine, and had, at first, felt inclined to demur to the proposition advanced ; but after hearing the able and eloquent sermon on the subject, he had fully admitted its truth. Sunday School teaching had, in Great Britain, done more for the moral welfare of the people than any other mode of instruction. During the cotton famine, when tens of thousands of people were idle in the cotton manufacturing districts, it was wonderful to see the amount of good done by the teachings of Sabbath Schools. Men then felt inclined to break into the shops and steal what they had not the money to buy, but were restrained by the sense of wrong inculcated by the Sabbath School teachings of their youthful days. Sabbath Schools were valuable as a means of bringing children to Jesus and preparing them for the proper discharge of the great duties of life. Let the word of God constitute their platform, which should be wide enough and broad enough, and liberal enough for all. The Sunday School should be like a home to the children—a pleasant and beautiful home. It should be a very presence chamber of Jehovah Jesus. Every part must be to sustain the other, so that all should be one harmonious whole—no one part to sustain a greater strain than they intended to bear, nor none to sustain a less. No friction of the parts should be allowed. Every note in the Sabbath School should be in tune. When one note was out of time or out of tune, how it did grate on the ear of a musician. There should be the greatest harmony, and blessed results would follow. Just as the Superintendent was, so would the Sabbath School be. For this reason he urged the appointment of God fearing men, earnest students of the Bible, as Superintendents of Sabbath Schools.

The discussion was continued by the Rev. Mr. Dingman, Francis Brenton, Esq., Canifton ; Hon. B. Flint, Messrs. J. B. Bird and Richard Osborne.

Music by the choir—"Come, Oh Father."

Following this were reports from delegates, limited to five minute addresses.—The President opened this subject, and was succeeded by Rev. Mr. Millard, Chas. Martin, H. J. Beckett, W. Woods and A. C. Cook, Esqs.

Music—"Marching Along."

Silent prayer for three minutes, at the expiration of which Rev. W. McLaren engaged in prayer for a short time.

"Teachers' Meetings, and how to conduct them," was the next subject, which was opened by the Rev. S. Jones.

Discussion followed, in which the Revs. Messrs. Wishart, Dingman, McLaren, and Wm. Johnson took part. The Business Committee reported the programme for the afternoon's proceedings.

The choir then sang the Doxology, and the Rev. Mr. Howell, of Tweed, closed the session with prayer.

The Forgers.

Parsons Bailed and Skedadled—Simpson Taken to Cobourg, but Escaped from the Railway Train.

Parsons, the Washing Machine Agent, who was arrested here last week and taken to Napanee, was admitted to bail in that place on Tuesday night last. He at once secured a horse and cutter and made for Cape Vincent in double quick time, where he arrived all right in the morning, leaving his bail to foot the bill.

Simpson, the confederate of Parsons, was also arrested last week at Kingston and taken to Napanee, and lodged in jail. After undergoing an examination at the latter place, another policeman made his appearance from Cobourg, with a warrant for his arrest for extensive frauds on the farmers in that neighbourhood. The Cobourg policemen with Simpson in his charge, left Napanee last night for Cobourg, on the night train, but on the way up Simpson managed to make his escape between Napanee and Belleville, and probably is on his way to Uncle Sam's dominions.

The frauds were well planned, and confined exclusively to farmers. The manner of obtaining the notes was as near as we can learn, as follows : Simpson and his confederate called on farmers exhibiting a model of a washing machine, and offering to make parties agents for a township or section of country. Two documents are presented for signature, one of them is handed to the farmer, the other, which the farmer innocently supposes to be a duplicate, is kept by Simpson or his confederate, and afterwards turns out to be a promissory note,

A considerable number of these notes have been disposed of to parties in Cobourg and Napanee, and many of the farmers are as yet unaware that they have given their note.

Parliament Yesterday.

Hon. Mr. Holton referred to the question affecting the seat of the Hon. Wm. McDougall, and stated that his opinion was that the proper course would be that on the earliest occasion, when the Standing Committees were constituted, and the papers relating to the appointment of Mr. McDougall as Lieutenant-Governor of the North-west were brought down, the question of the seat in the House should be referred to the Standing Committee on Privileges and Elections, with directions to take all necessary measures to ascertain what would be the proper course to pursue.

Sir John A. Macdonald said the subject was really one to which it was right to call the attention of the House. The circumstances of the case well known to the House and the country, but he would state them anew as exactly as he could. The Hon. Mr. McDougall, who has held the office of Commissioner of Public Works, had accepted the position of Lieut.-Governor of Red River. He accepted this office uner the Act of last session, providing for the provisional Government of Red River, the appointment to take effect whenever that Territory became a portion of the Dominion, and the Act further fixed the salary of the Lieut.-Governor. The Hon. Mr. McDougall having accepted the appointment, the Government thought it well to send him to the North-West with all convenient speed, to report and take the necessary measures for incorporating it with the Dominion, and to ascertain the requirements of the country. He was, in fact, appointed Lieut.-Governor of the North-West, such commission to take effect only after the time the country was united to Canada. The House is aware of the circumstances of his return to Canada without assuming the Governorship. All these facts would appear in the papers. He (Sir John A. Macdonald) thought, as regarded the seat, it was premature for any member to offer an opinion until the matters were brought before the Committee on Privilege. Until then it would not be well for any hon. member to commit himself to any opinion on the subject. He (Sir John) did not think that the seat should be called vacant, and for this reason he did not move as he otherwise would have moved to that effect.

Hon. J. S. Macdonald thought that the matter should be referred to the Committee on Privileges and Elections.

Hon. J. Howe said that the papers relating to this matter would be ready immediately.

The subject then dropped.

In answer to Mr. Holton Sir Francis Hincks said it was impossible to say when the public accounts could be presented.

The consideration of the address was deferred until to-day and the House adjourned.

(LATE)

GEORGE VAIR'S STORE

BRIDGEWATER

COTTON & WOOLLEN FACTORY

THE subscriber offers to grant splendid water power for a Cotton and Woollen Factory combined, or separate, at the thriving Village of Bridgewater, to a Company, or Companies, to be formed to erect the same.

The power is superior, as a constant supply of water can be obtained to work the Factories the year round.

The facilities for building are good, as the best material can be obtained on the premises.

A Prospectus for the formation of a company, or companies, will soon be issued, and Stock Books will be opened at Bridgewater, Belleville, and other places.

American Despatches.

INSURRECTION IN MEXICO.

MEXICO CITY, Feb. 9.—Gen. Escobede, largely reinforced, faces the insurgents of San Luis Potisi, and in a telegram to President Juarez he declares the situation reassuming, but he has as yet made no attack.

The revolution in Puebla continues; Yucatarin and Covhuela protest against the revolution.

It is reported that the French emissaries have secretly fomented insurrections at San Luis and elsewhere.

AN EX-GENERAL GUILTY OF TREASON.

Ex-General Guithenez has been found guilty of treason, and will probably be shot.

The southern portion of Jalisco has pronounced against Juarez and is in arms. Many pronunciamentos have been made in Michoalan under the leaders of different parties.

The general condition of the country is deplorable.

AT

VAN NORMAN'S.

R. M. Clarke & Son,

HAVE REMOVED

To the Store one door North of

W. BULLEN'S, FRONT STREET,

Where they will be happy to see all their

OLD CUSTOMERS,

And as many new ones as will favor them with a call.

Belleville, Feb. 7. 307

OVER 400,000 SOLD

OF THE

WHEELER and WILSON Silent Motion SEWING MACHINE.

It is a universal favorite. Call at Vantassel's and see them.

Democritus says a cheerful man is happy even if he possesses little; a fretful man is unhappy in the midst of affluence. One great difference between a wise man and fool is that the former only wishes for what he may possibly obtain; the latter desires impossibilities.

FENIANISM.—The *Newry Telegraph* states that a spirit of jealousy has lately sprung up in that neighborhood between the Fenians and Ribbonmen. The latter allege that the former do not go far enough in their demands, and the consequence is that for some time past in several districts collisions have taken place between the factions. An instance which shows the bad feeling prevailing occurred the other night, when a crowd of about fifty persons visited the house of a man named M'Allister, who lives in High street, Newry. Four men forced open the door as M'Allister was retiring to his bed. One of them asked if he was a Fenian, and he made no reply. Another of the party said he was a 'Bogman' and then a large stone was hurled at M'Allister. An alarm was given, and the police were soon on the spot, but the fellows had decamped.

LOST.

IN Belleville, on or about the 12th inst., a Memorandum Book containing Wool Carding and Cloth Dressing accounts. The finder will be rewarded by leaving it at this office.

S. A. LANPHIER.
Hillier, Feb'ry 16th, 1870. 315-31

Dissolution of Partnership.

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO, LINDSAY, ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.
51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds, BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors.

NOTICE.

APPLICATION will be made to the Parliament of the Dominion of Canada at its next Session, for an Act to revive the Charter of the GRAND JUNCTION RAILWAY COMPANY, and to place the said Company in the same position it held before its amalgamation with the Grand Trunk Railway Company of Canada, and with power to make arrangements with said Grand Trunk Railway Company for Station and other accommodation at Belleville, and for other purposes connected with said Railway.

Also for power to build said Railway of such gauge as may be most expedient; and for such amendments to said Charter as to the route, the character of the Railway, &c., as may be thought best.

Also for power to the Municipalities interested in the construction of said line, to grant bonuses, &c., to aid its construction; and for other purposes.

THE BEST IN THE WORLD.

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH.

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country, *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS.-AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞1,500 Cash Prizes.☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free, address the Publishers

MUNN & CO.,
37 Park Row, New York.

How to get Patents.—A pamphlet of Patent Laws and instruction to Inventors sent free.

Cheese Production.

The New York *Mercantile Journal* publishes in a recent number an interesting article on the subject of cheese production. It is estimated that there are in the United States and Canada 1,000 factories, the average weekly production of which is equal to 117,250 boxes. The cheese made in the United States and Canada in 1867 reached 215,000,000, and in Great Britain 179,000,000 pounds. The consumption in America during the same period amounted to 160,000,000, and in Great Britain to 400,000,000 pounds leaving a deficiency over the joint production of the two countries of 79,000,000. This deficiency was supplied by Holland and Belgium. The principal States engaged in the manufacture of cheese in America, are New York, Vermont, Massachusetts, Pennsylvania, Illinois, Ohio, Michigan and Wisconsin. Western New York, the Western Reserve, and some sections of Illinois and Michigan, enjoy a deservedly high reputation for the excellent qualities of the products of their dairies.—Gouda cheese, the best made in Holland, is very pungent, which preserves it from mites, and this pungency is attributed to the fact that muriatic acid is used in curdling the milk, instead of rennet. Parmesan cheese, made at Parma, in Italy, owes its rich flavour to the fine sweet herbage of the meadows along the Po, where the cows are pastured. The best Parmesan cheese is kept several years, and none is sold until it is at least six months' old. Swiss cheese is made in part of skim milk, and is flavored with fragrant herbs. They usually weigh from 40 to 60 lbs. each, and are exported in casks, each of which contains ten cheeses. Westphalia cheese derives its flavour from the curd being allowed to become sour before it is compressed. Dutch and Swiss cheese contain, according to chemical investigation, from twenty-six to forty per cent of nitrogen matter, considered the most nutritive constituent of food. The best cheese is from twenty-five to one hundred per cent. more nutritious than bread and meat, which contain only about twenty-two per cent. of nitrogen. The superior qualities of cheese have been repeatedly proved by the experience of labourers in those countries where it forms one of the principal articles of food.

An Irishman, travelling in a street that was paved, was startled by a dog with a a threatening growl. The traveller attempted to pull up one of the paving-stones to throw at him, but it was fast. 'Arrah,' said Paddy, 'what a fine village this is, where stones are tied and dogs let loose!'

A droll answer is said to have been given not long since in an examination at Cambridge. The candidate, being asked who Wycliffe was, and having doubtless heard him called the morning star of the Reformation, and that he died Vicar of Lutterworth, answered that the great Reformer 'was for some time editor of the *Morning Star*, and died Vicar of Wakefield.'

The following cut from an American paper contains a nut for long range friends to crack: 'That's a good gun of yours stranger, but my Uncle Dave here has one that beats it. 'Ah, how far will it kill a hawk with No. 6 shot?' 'I don't use shot or ball either,' answered Dave for himself.' 'Then what do you use, Uncle Dave?' 'I shoot salt altogether. I kill my game so far with my gun that without salt the game would spile before I could get it.'

Dr. J. Briggs' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

Piles are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

Catarrh, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

Consumptives, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

Cure for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

Frosted Feet, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

Mortgage Sale.

WILL be sold under the powers contained in certain Mortgages which will be produced at the sale, on

Tuesday, 22nd Day February,

A. D. 1870, at 12 o'clock, noon, at the Auction Rooms of A. Keyes, Bridge Street, Lots Nos. 11 and 12, East Hastings Road, Tudor, containing 100 acres, a large portion under cultivation. Also, Lot No. 24, 9th con. Marmora, containing 200 acres; a good frame barn on the premises.

July 22, 1867

Fortieth Year.

GODEY'S LADY'S BOOK For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00

Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,
Ottawa, Nov. 6.

AUTHORIZED discount on American Invoices until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

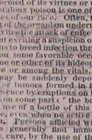
PRICE. $1.00 PER BOTTLE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.



The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Publisher.

Intelligencer Building,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi v. 12.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first [illegible] the notice of the medical faculty, in [illegible] standing the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use,

Its wonderful power in rising the Bed-ridden Crippled, Rheumatic, Neuralgic, divesting the [illegible] of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort. it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is [illegible] inspiration and direct will of DIVINE PROVIDENCE [illegible] to science. When the combination of the ingredients of this marvelous remedy known as RADWAY'S READY RELIEF was completed it should be [illegible] that had ever existed, that never [illegible] the best approved discoveries in Medical Chemistry or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race—CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS.

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy, it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure. It cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever,	Typhoid Fever,
Scarlet Fever,	Ship Fever

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED Attacks if exposed.

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will, in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to wait for their [illegible] the waters to return after many days, who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere, shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, the Ready Relief a few minutes will stop

---

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No; not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty of an gorged liver, fat spleen, disordered kidneys, jaundice colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits, will give you equal in quantity and superior in quality to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, &c., &c., all of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least ($25) twenty-five dollars, and yet to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat. Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyptheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,
Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes wil quickly cure

Asiatic Cholera,	Cholera Morbus,
Bilious Colic,	Flux,

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water:

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate Radway's Ready Relief.

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of Radway's Ready Relief, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general Storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. Ask for Radway's Ready Relief.

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the Edinburgh. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The Postage on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one* of the *Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two* of the *Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by Henry Stephens, F.R.S. Edinburgh, and the late J. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo, 1600 pages, and numerous Engravings.
Price $7. By Mail post-paid, $8.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, FRIDAY EVENING, FEBRUARY 18, 1870. No. ~~817.~~ 247

The New Geological Theory.

The Edinburgh *Review* for January has an interesting article upon "Geological Theory in Britain," which sums up the results of recent inquiry and speculation among scientific men in this great field.

"Catastrophism" is, according to Professor Huxley, the doctrine of a past era in geological enquiry; uniformitarianism, that of the present; while to the third, or evolutionism, he assigns the high honor of being that of the future.

The notion of sudden "catastrophes" at remote periods, by which mountain chains were upheaved or seas opened, is now generally abandoned. Sir Charles Lyell has succeeded in making the doctrine generally accepted that geological facts are to be explained by forces now at work; that the same power which now raises the coast of Scandinavia at the rate of a few inches in a century, and depresses that of parts of New Jersey about as fast, if it has time enough to work in, will suffice to make continents of all the oceans and to submerge every continent; that the earthquaks and eruptions which have built up some mountains and islands in our own time need nothing but more time to build innumerable others. But, according to the most enterprising speculators in this field, the last word on the earth's history is not to be spoken by geology alone; and the changes which are recorded in the rocks under our observation are not the limits of our inquiries.

Indeed, the other sciences sometimes attempt to contradict the conclusion of geology. Mr. Darwin thinks that the washing away the rocks from the ruins of which the famous "Wealden," strata in the south-eastern part of England were formed could not have taken place in less than three hundred million years; and others have thought it more reasonable to assume ten times that period as necessary. But Sir William Thompson insists that this is contrary to know principles of physical science. He says that the sun and moon, acting on the tide wave of the ocean, slowly retard the motion of the earth on its axis; so that it must have been revolving so fast one hundred million years ago that no life could exist on its surface, while even the lowest of the Wealden strata are full of fossils. He says the sun is losing its heat by radiation so fast that, at the present rate of emission, it could not have illuminated the earth so long as the geologists claim; while the earth itself must have been one molten mass at anything like the remote period to which they refer these rocks.

But all these arguments are indefinite and unsatisfactory. That which seems most susceptible of one day furnishing a precise argument is the tidal retardation of the earth; but methematicians are by no means agreed as to its degree, or even its nature. This may be. Mr. Huxley shows that one hundred millions of years afford probably room enough for all known geological facts. Doubtless a far longer period is probable; and no astronomical or physical presumption has yet been raised against it.

The new geology, then, inherits from the old school the right to assume all the time it needs: it accepts from the "uniformitarians" their rigid adherence to the doctrine of the permanence of law, and claims no force not to be found now at work in nature; but it extends its inductions into new fields of thought and discovery. It finds the system of worlds now existing in space, consisting of the following, among other, forms of matter:

First—There is the sun, clearly proved to be a "great fiery globe surrounded by an atmosphere of intensely heated gases and vapours, that are continually rising or falling, like our clouds, according to their change of temperature." Flames of burning hydrogen flare out seventy or ninety thousand miles beyond the dazzling atmosphere of light. This "photosphere" itself has already been proved, by spectrum analysis, to contain certainly thirteen elements familiar to us on the earth, besides some that are doubtful. In other words, the sun is made of the same materials as the earth.

Second—The stars, so far as they can be examined, yield similar results. Nine of our elements have been detected in Aldebaran, including three metals not yet observed in the sun. The nebulæ were made up, some of remote solid stars, but some chiefly of such well known gases as hyrogen and nitrogen. In short, the starry heavens are made up of matter similar to that of the earth.

Third—The planets generally resemble the earth in form, in solidity, in atmosphere, in their general relation to the sun and his system. Most of them are veiled, some of them very thickly, with clouds; but when their faces can be seen, they show still more striking resemblances to the earth. Mars, for instance, is whitened in every one of his long winters, over all the polar regions, by heavy falls of snow, which melts away again in summer.

Fourth—Meteorites frequently fall to the earth out of space. They are but small planets, turned out of their course by its attraction; and they bring to it nothing new. Twenty-seven of the elements have been found in these wandering bodies; combined just as they often are in our own rocks; and supposed, with the strongest reason, to be specimens of what the earth contains in its hidden depths.

Other facts might be quoted, in addition to those furnished by the reviewer, and bearing on the same conclusion. He might have pointed to the recent researches of Professor Tyndall into cemetery matter; to the spectroscopic revelations concerning the identity of the Zodiacal Light with the sun's "corona;" and to recent speculations upon the auroral streamers. But these are enough to justify his inference:

"The inevitable conclusion derived from the study of the heavenly bodies—of sun, earth, stars, meteorites and nebulæ—is that the immeasurable space is full of matter of the same kind, but aggregated in different fashions; sometimes being gaseous, at others solid, sometimes in a state of the most intense heat, at other times cooled sufficiently to admit of the presence of life, as in the Earth and Mars, or lastly, cold barren and lifeless, as in the meteorites. Whether the gaseous condition of matter preceded in any particular case the solid we cannot tell. So far as our earth is concerned, the only idea that we can grasp of its origin is that it was a fiery body like the sun, and that it has been gradually cooling from that time down to the present day. This realization of the steady change is a fundamental doctrine of evolutionism."

In short, the earth was once a molten ball, a source of light, like the sun. It has cooled off, and is cooling still. The sun too is cooling; its vast size makes the process slower; but the result is inevitable, and it will one day be what the earth is now. On the other hand, the earth, too, has its destiny: "the time will arrive when, like a meteorite, it will become cold to its very core, and when life will cease to be found upon it, on account of the low temperature." The process may be delayed by collisions with other bodies; for the immense force with which they move is turned into heat by impact, and the stoppage of the motion of the earth itself, by falling into the sun, would furnish as much heat as is radiated from the sun in ninety-five years. "It is absolutely certain that all planetary matter is inevitably gravitating towards the sun, which will be the common bourne of our system. 'As surely,' eloquently writes Sir William Thompson, 'as the weights of a clock run down to their lowest position, from which they can never rise again, unless fresh energy is communicated to them from some source not yet exhausted, so surely must planet after planet creep in, age by age, towards the sun; not one can escape its fiery end. In like manner the satellities of the planets must inevitably fall into their respective planets."

Borrowing a Horse.

The Kalamazoo *Telegraph* is responsible for the following story—less improbable than many Yankee tales and not a little ludicrous:—

"The other day a gentleman called on a friend of ours, who lives on the outskirts of the village, on a little matter of business. As the visitor (Mr. S.) left, the gentleman of the house, (Mr. E.) also came out to go down town, and finding a horse and buggy at his gate, inquired of his visitor, 'Are you going down town?' 'Yes,' was the reply, 'Well I will go with you,' and began untying the horse. Both jumped in, and Mr. E. handing the lines to the supposed owner, received in reply, 'No, you drive.' They drove down town, and when at a certain corner, Mr. S. said, 'I get out here.' 'Very well,' said Mr. E., and jumping out was about to leave, when Mr. S. said, with surprise, 'Do you leave your horse in the street without tying, like this?' 'Do you leave *your* horse without tying?' asked Mr. E. in reply. '*My* horse?' 'I thought it was *yours*.' 'And I—I—supposed I was driving your horse,' said the astonished Mr. E.

"The conclusion of Mr. E. was that it was best to make his way back again to where he found the horse tied, which he did, keeping meanwhile a sharp lookout lest a constable, with an arrest, should be on his track."

WHY WILL YOU SUFFER.—The "Canadian Pain Destroyer" instantly and permanently removes all pain from the system, and is decidedly the best medicine known for the cure of rheumatism, pleurisy, neuralgia, tic douloureux, toothache, colic, burns, frost bites, &c., and is so cheap that all can afford to buy it. Sold by all Medicine Dealers.

SPECIAL NOTICE.—MORRISBURGH, Sept., 1869.—Gentlemen,—Suffering from the prostration and weakness caused by a severe attack of Influenza, the past winter, I was induced to try your Sarsaparillian Resolvent as a restorative, and its effects were most satisfactory. I therefore, conscientiously recommend it as a thorough purifier and invigorator of the humam system, thus giving increased health and vitality to the weary invalid. (Signed), MRS. JAMES GLASSFORD.

BELLEVILLE, FRIDAY, FEB. 18.

BRITISH TEMPLARS.—We direct attention to the meeting of British Templars at Taylor's "Sewing Machine Rooms" this evening at 7.30 o'clock. Members and others may expect a very interesting evening.

GOING HOME.—We observe by the Brockville *Recorder* that Mr. Wylie, its editor and publisher, left Brockville on the 17th inst., for the purpose of visiting his native country, Scotland. We wish our old friend a pleasant journey and a safe return to his home.

INTERCOLONIAL.—From a return presented to the Dominion Parliament it appears that there are employed on the Intercolonial Railway 149 engineers and assistant engineers, receiving about $150,000 a year as pay. Quebec furnished 47, Ontario 35, Nova Scotia 22, New Brunswick 44, and England 1.

SUSPICIOUS.—The Quebec *Mercury* has a violent article advocating resistance by the North West to counterbalance the influence of Ontario, and threatening the retaliation of the United States on account of Canadian Southern sympathy. From the tone of this article there is evidently good ground for the suspicion that the insurgents of the North West have been aided by emmissaries from Quebec.

THE WEATHER.—Hoary-headed old winter is evidently not over yet. The rain-storm which commenced last evening and continued until day-light this morning, changed into snow, and with a stiff North-west wind the "beautiful snow" has been coming down all day long, as the little ones would say, like "sixty." It has covered the ground to the depth of a foot or more and round the corners, and where the wind has had full sweep, it has made big heaps and drifts which renders pedestrianism somewhat difficult. The roads will be very heavy for some days, and we may expect some detention on the Railway in consequence.

BALL.—The ball given by the "Young Men's St. Patrick's Society of Belleville," in Ontario Hall on Wednesday evening last the 16th inst., was a great success. The [illegible] decorated with evergreen and with the banners and mottoes of the Society. Dancing commenced about nine o'clock, and was kept up with great spirit until about five in the morning. The hall was well filled, 75 or 80 couples being present. The committee of management deserve great credit for the admirable manner in which the programme of the evening was carried out. Supper was served at the "New Dominion House."

HONOR TO CANADIANS.—We copy the following from the London *Chronicle*, of Feb. 2nd, received by the last mail. We congratulate Dr. Burdett upon the honorable mention he has received. The *Chronicle* says: "At the late examination for membership of the Royal College of Surgeons of England, the following gentlemem presented themselves from the Canadian schools, viz.:—William Wade, M. D., J. H. Widdifield, M. D., and Frank Buller, M. D., of Victoria University, Toronto; and D. E. Burdett, M. D., of Trinity College, Toronto. It must be highly gratifying to our Canadian cousins and the medical schools of Canada, that all those gentlemen were not only eulogised as individuals for their very superior answerings, but were congratulated as a body, which reflected great credit on the colleges they represented.—This fact speaks very highly for the progress of medical science in Canada, and those gentlemen may well feel proud of the distinguished honour which has been conferred upon them."

Grand Orange Lodge Western Ontario.

The annual meeting of the Grand Orange Lodge of Western Ontario was held at Newmarket on the 15th and 16th inst. There was a very large attendance and the proceedings were of a harmonious character. The following are the principal Grand Officers for the current year:

Bro. D'Alton McCarty, Barrie, Grand Master.

Bro. W. W. Conner, Huron, and Bro. J. Ross Robertson, Deputy Grand Masters.

Bro. Smyth, St. Mary's, Grand Chaplain.

Bro. Keyes, St. Catharines, Grand Secretary.

Bro. Bessy, St. Catharines, Grand Treasurer.

Bro. Parkhill, King, Grand Lecturer.

Bro. McClure, Holland Landing, Grand Director of Ceremonies.

The Grand Lodge hold their next session at London, Ont.

A Testimonial.

During the sitting of the Grand Orange Lodge of Ontario East, about forty of the Brethren put up at the Dominion Hotel, and so well pleased were they with the treatment received, that they met and passed the following resolution:—

Moved by W. Robinson Co. Master of Frontenac, seconded by Charles Livingstone, District Master, Kingston, That we tender our hearty thanks to Mr. G. C. Borridale for his kindness and gentlemanly conduct towards us during our stay with him, and heartily recommend him to the general public.

Signed on behalf of forty others.

WM. ROBINSON,

Belleville, Feb. 17th, 1870.

Parliament Yesterday.

The session yesterday was occupied in debating the Address, and was of rather a more exciting character than usual. Mr. Savary of Nova Scotia moved the Address, the sentiments of which he echoed. Mr. Scriver seconded it.

Mr. Holton asked for the Ministerial explanation as to the changes in the *personnel* of the Cabinet.

Sir John A. Macdonald stated the reasons at some length.

Sir Alex Galt announced his opposition to the Ministry. He contended that the Administration of Sir John had been an utter failure; that so far, the only satisfactory thing about the Confederation had been the economical and effective Governments of Ontario and Quebec. While he should try to break down the Government, he had no sympathy with the Opposition.

Mr. Mackenzie condemned at some length the arrangement of a Ministry that had destroyed the Reform balance of Coalition.

After recess, Mr. McDougall made explanations, and condemned very strongly the arrangement by which the Reform balance in the Cabinet was not maintained. But he yet contended that the Government should be sustained if its policy is in the public interest.

Sir John A. Macdonald answered that the appeal to the country was made on a "No Party" cry, and the members returned to support the Government were elected upon a distinct "No Party" issue, to carry out the Act of Confederation. He totally denied any breach of faith in altering the basis of the Coalition, and read a letter from Mr. Howland in support of this view, also a written statement of Mr. Aikens.

Mr. Blake, at great length, contended that there was a breach of faith in altering the basis of the Combination, but that he learned, with joy, that the Coalition was publically declared dissolved.

Mr. Cartwright announced his want of confidence in the Ministerial rearrangement and particluarly condemned the appointment of the Finance Minister. He stated he would not offer any factious opposition.

Mr. Ferguson condemned the hasty opposition to the Government, and contended that the Government should have a fair support to carry out the Confederation.

Sir F. Hincks gave his explanation, claiming to have been always a member of the Reform party. Nothing could be more puerile than this kind of attack on the Government. Their policy on their proposed measures was not assailed, but the whole dispute was, whether two or three Reform members occupied seats in the Cab- [illegible] New Brunswick and Nova Scotia. He stated that Sir. A. Galt had supported his Government till 80 hours before his resignation, when he wrote him a letter stating that he could no longer do so, because the Speech from the Throne was not sufficiently explicit on the Clergy Reserve question. He (Sir Francis) had not regular annual deficits when he was Finance Minister.

Sir A. Galt denied he had been a regular supporter of Sir Francis Hincks' Government.

Mr. Jones made some remarks in opposition.

Mr. Bowell had always given an independent vote. He desired to support all the measures of the Government he could, but he condemned the introduction of Sir Francis Hincks.

Mr. Howe would answer the charges and slanders referring to his department when the papers came down.

The House adjourned without finally passing the address.

News Condensed.

—New York has a policeman six feet nine.

—Discount on Silver in Montreal is 6½ per cent.

—The Nova Scotia Parliament was opened on the 17th instant.

—Seventy English emigrants, who arrived by the "Nestorian," remain in Canada.

—Carlists in Spain are plotting for a general outbreak in the spring.

—Iowa has given about one-fifth of its area to aid railroads.

—Mrs. Vanderbilt eschews jewellry, save diamond ear-drops.

—English papers deny that the Queen's health is in any way affected.

—Bishop Tache has left Ottawa *en route* for his diocese on the Red River.

—The best timbered lands in Maine are offered to actual settlers at fifty cents per acre.

—There are 31 prisoners at present in Kingston gaol.

—Houses are plenty in Montreal, and 10 per cent lower than last year.

—How rapidly the coal in the bin becomes the coal that hath been.

—It is said that the Forts at Kingston are to be dismantled.

—Maple sugar manufacture has begun in Vermont, much earlier in the season than usual.

—Lloyds reports 45 wrecks during the week ending January 29th, making 191 thus far this year.

—A Fenian demonstration at Cork, Ireland on the 17th inst., was suppressed by the authorities.

—473 patients were admitted to the Kingston Hospital during last year, of whom 16 were from the County of Hastings. There were 26 deaths in the Institution.

—Mexico is again in a ferment of revolution. Insurrection and revolt are springing up everywhere, and the general condition of the country is deplorable.

—Several of the editors of the "Reveille" and the "Marseillaise" have been sentenced to six and ten months' imprisonment, and to pay heavy fines, in consequence of incendiary articles during the late excitement in Paris.

County of Hastings Sabbath School Convention.

SECOND DAY—AFTERNOON SESSION.

On the assembling of the Convention this afternoon the attendance was larger than at the morning session.

Rev. Mr. BRETHOUR conducted the opening services.

The first question for discussion was "How can we best retain our senior scholars."

Rev. Mr. SANDERSON said he was not aware that there was any question of greater importance or perplexity than this one. The senior scholars constituted an important power, but unfortunately they were now lost to a great extent. The question had agitated the minds of many eminent men, but the solution of the difficulty had not yet been attained. The leading cause which induced the senior pupils, say from 14 to 20 years of age, to withdraw from the Sabbath School, was the lack of doing the duty on the part of parents. At 14 to 20 years girls began to consider themselves young ladies, and boys set up for young gentlemen, and wished not to be treated as scholars. Another reason was the non-conversion of the scholars previous to that age. We should uproot the idea that the senior scholars were children and to be treated as such. Let us treat them as young men and women, feel that their responsibility grew as their years were advancing, and that the Church recognized them as a great and mighty power. Another reason was the incompetency of teachers. The great difficulty was to secure properly qualified teachers, for it was hard to find those who would advance them sufficiently. Nothing would bind them so strongly to the schools as conversion. The senior pupils ought to furnish from amongst them the teachers in the Sabbath Schools. He would have the idea implanted in their minds that they were to be connected with the Sabbath Schools not merely as graduates, to leave at the expiration of a certain time—not merely to go from the Sabbath School to the Bible Class—but that their connection with the work was to be permanent—that they were to go on until they became teachers. Napoleon had said that with British troops and French officers he could beat the world. Napoleon's officers were raised from the ranks, and this was the system he would apply to Sabbath Schools.

Five minute speeches on the subject followed from Rev. Mr. Cobb, Wm. Johnson and W. W. Dean, Esqr's., Rev. Wm. McLaren, Rev. S. Jones, Rev. D. Brethour, A. F. Wood, Esq., and the Hon. Billa Flint.

Music—"Calling us Away," Miss Fan- [illegible]

Rev. Mr. MILLARD then gave some interesting demonstrations of the use of the black-board in Sabbath School teaching.

WM. JOHNSON, ESQ., opened the discussion on the next subject: "How to conduct a Sabbath School Lesson." He said it was impossible to lay down a rule for the order in which the services were to be conducted. Nothing was worse than allowing the order of service to degenerate into "ruts," by which he meant to say that variety should be imparted to the forms of opening, &c. To accomplish this, great tact on the part of the Superintendent was necessary. The Superintendent should be on hand fifteen minutes before the opening of the school. He had known teachers who would stay at home until perhaps ten minutes after the time for opening, and then arrive breathless and call the school to order, being themselves at the time the most disorderly person in the room. He would commence exactly on time, even if there were but two or three scholars present. The exercises should be varied, so as not to become stereotyped. He held that uniform lessons should be given for the instruction of both junior and senior classes, so arranged as to be within the capacity of both, and the hymns sung should be somewhat in accordance with the subject of the lessón.—The prayer should be for the school in particular, for the absent, the sick or the dying scholar, and not for the whole universe. The lesson should be read by the entire school in different manners—by the Superintendent and some of the scholars one day, and by others of the scholars another Sabbath, varying each time. The introduction of new scholars was most important. It should not be, as now, in many schools, that new scholars should come in and take a place in classes which pleased them most, whether fitted for those classes or not. Seats should be provided for new scholars, and they should be interrogated by the Superintendent and placed in the class best fitted for them.—Teachers should be guarded from intrusion during the hours of instruction, for he considered their work as scarcely inferior in importance to that of the Ministers.—He would not permit strangers to address the classes, unless known to be specially qualified, for very few persons could interest children. The closing services should be short, consisting of singing and prayer, after which the Superintendent should address the school in a short speech, and then books and papers might be given, for if these were given before, they would distract attention during the time of service.

Music by the choir—"Water of Life."

Short speeches followed in discussion of Mr. Johnson's plan of Sunday School services. The speaking was very animated, and was taken part in by A. F. Wood and Anson G. Northrup, Esqr's., Rev. D. Wishart, Chas. Martin and W. W. Dean, Esqr's., Hon. Billa Flint, Mr. Bird, and Rev. S. Jones. The general opinion seemed to be in favor of having some regular order of conducting the services.

The Business Committee reported the programme for the evening session.

Music—"Must Jesus bear the Cross alone."

After prayer by Rev. S. Jones, the Convention adjourned till half-past seven o'clock this evening.

(TO BE CONTINUED.)

Missionary Meeting St. Thomas' Church.

A meeting was held in St. Thomas' Church on Monday evening last, in aid of the Church of England Missions in this Diocese.

The Chair was taken by F. McAnnany, Esq., and there were present on the platform, the Revs. J. Grier, Rector; W. Irwin, Shannonville; J. Parnell, Kingston; R. Please, Trenton; S. Jones, and A. Baldwin.

Mr. McAnnany said that he regretted the apparent want of interest which was taken in the Missions in this Church, and referred to what Christ Church had accomplished, as an example to this congregation. He then called upon

Mr. Irwin, who after expressing his pleasure in being able to address them, said he need not refer to our duty as Christians, the duty of self-sacrifice and zeal in the cause of Christ; nor to the claim, which the Church of England had upon us—how her labor should call forth our energies to support her; but he would deal with the statistical matter as briefly as he could. The resources of the Society, he said were derived from collections after sermons preached on Whit Sunday, and Advent Sunday. The collection from these last year, was $800. Secondly—from Missionary Meetings, and the sum realized last year, was $1,570. Thirdly—from Parochial collections, which amounted to $3,749; and lastly there was a grant from the Propagation Society, of $2,663; this sum had been expended on Missions.

One Missionary receiving....	$ 100
Twenty-five, $200 each	5,000
Ten, $300 each..............	3,000
	$ 81,00

The rest was divided among the missionaries equally.

Mr. Irwin then made an earnest appeal, and showed how truly missionary the Church had ever been and what a call there was now for labourers in the vineyard.

Mr. Jones then addressed the meeting, thanking the Chairman for the compliment given to Christ Church, and urged upon the people the necessity of making an effort in missionary matters; this spirit being so well called "the thermometer of Christian activity." He drew from the example of secular societies the necessity of each man doing his own work in the Church. He said we had all, or nearly all, been baptized and were members of Christ, therefore we should be aggressive, [illegible] soldiers of Christ, and as we were so lately ready to go forward for our country, should now go forth for Christ's sake, as He is calling us.

Mr. Parnell, in speaking, referred to the greater interest taken in the country in these meetings, but thought that if gentlemen (he would like to call them by the noble name of men) considered these meetings beneath their manhood, they might at least patronize them. He gave some further statistics, that the Church of England has in this diocese, during the last seven years, added thirty to the number of her Clergy; fifty-four Churches have been erected and twenty Parsonages. The Bishop has confirmed 6976; 200 of these had received the doctrines of the Church of England in preference to those in which they had been educated. He also showed how the collections had gone on increasing, and gave Kingston as special example which had been nearly as bad as Belleville, but this year the meeting yielded $180 instead of its usual $40, He spoke with much power on the duty of earnestness.

Mr. Baldwin thought the meeting, though apparently small, was really large, and felt sure his Reverend brethren would agree with him if they could only see the Friday evening's congregation, how both apparently and really small they were. The reason St. Thomas' congregation did not attend their meetings was from the idea that they could learn nothing new, or that they would rather have it all in printed form so that they could peruse it all at leisure before the fire; the congregation had an antipathy to snow, he might add rain also. Yet the congregation had not been idle, $80 were contributed last year at the meeting, and much had been done in restoring the church. He was delighted to hear of the Missionary work, and thought that no one need now use those verses,

"If I were a Cassowary
On the plains of Timbuctoo,
I would eat a Missionary,
Hat and boots and hymn-book too."

Since the order of things was reversed, and surprise parties were everywhere being adopted, he told them of an Italian Friar who having to preach before the Pope, went some time beforehand to Rome, and then gave the following impressive sermon: St. Peter was a fool! St. Peter was a fool!! St. Peter was a fool!!! and then left the pulpit. On the Pope's demanding the reason for this, he said, that if the Cardinals with all their luxury and sinful indulgence could get to heaven, St. Peter "was" a fool for taking such pains as he did. Mr. Baldwin thought our lesson plain enough from this the necessity for exertion in the cause of Christ, as set forth by the Apostles and true Christains. The meeting was opened with prayer, and closed by the Rector with the benediction. Several appropriate hymns were sung.

Police Court.

FRIDAY, Feb. 18.

VAGRANCY.

Toby Mink made his re-appearance in the hall of justice, but only to be sent up, on the old charge, for a space of 30 days, in default of the required $2 and costs.

Michael Downes, for drunkenness and vagrancy, was sentenced for a like term, being equally impecunious with his colored brother.

(LATE)

BY ATLANTIC CABLE.

ENGLAND.

House of Lords.

COMMITTEE ON STANDING ORDERS.

LONDON, Feb. 17.—In the House of Lords to-day, a Committee on Standing Orders was appointed.

LAND TENURE IN IRELAND.

Lord Cairns demanded returns as to the condition of agricultural laborers and the tenures of land in Ireland.

Lord Salisbury censured this mode of conducting business as likely to lead to great waste of time in the early part of the session.

After observations from the Lord Chancellor, Earl Gray, Lord Redesdale and others, the House adjourned.

House of Commons.

CANADA AND THE HUDSON'S BAY COMPANY.

In the House of Commons, Mr. Munsell, Under Colonial Secretary, stated that the Hudson's Bay Company's domain had been transferred to Canada, but no money had been paid. The transfer had been brought about through the concurrence of England, Canada, and the Hudson's Bay Company. The Red River difficulties would be speedily settled, but how soon it would be premature to say.

THE NEW TELEGRAPH SYSTEM.

The Post-Master General again alluded to the irregularity of the telegraph service, and regretted that his hopes of improvement had not yet been realized. He explained that recent storms and defective insulation had interfered with the working of the wires, while at the same time the lines were overloaded with despatches by rival news companies. The Government was unable to forward all reports offered, and some compromise was indispensable.

ELEMENTARY EDUCATION.

Mr. Foster then rose and asked leave to bring in a Bill providing for Elementary Education in England and Wales. He spoke in general terms of the value of education, and pronounced the present system deplorable. He then gave a sketch of the Bill. It proposed to divide England and Wales into educational districts.—Grants were to be made under certain conditions, to be ascertained by inspection, and, where needful, compulsory rates would be imposed to supply any deficiency of aid from the State. Local Inspectors were to be elected.—Parents, when able to do so, were to pay school fees. All others to receive free tickets, admitting their children to the schools. In every poor section, education to be entirely free.

A general debate followed the introduction of the Bill. Messrs. Minlague, Dixon, Mundella, Wheelhouse, and others participating.

Mr. Walter made a speech in support of the Bill.

Mr. Fawcett wished to have attendance at school made compulsory.

Sir John Pakington argued against the Bill, and Mr. Foster met his objections and promised that the House should have time for deliberation.

The Bill was then read a first time, and the House adjourned.

CANOE RACING.

A canoe race between the champions of Oxford and Cambridge will take place on the Thames the week of the University race.

BANK STATEMENT.

The bullion in the Bank of England increased £114,000 during the week ending yesterday.

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO, LINDSAY, ONT. 221-4w

---

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.,* it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chilblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.
51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds, BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
204d 51w 4w Montreal, P. Q.

Dissolution of Partnership.

NOTICE is hereby given that the Partnership lately existing between James Boldrick and Robert Potts Fidlar, both of the Village of Stirling, in the County of Hastings, under the firm of Boldrick & Fidlar, was dissolved on this 11th day of February, A. D. 1870, by mutual consent. All debts owing to the said Partnership are to be received by the said James Boldrick, and all demands on the said Partnership are to be presented to him for payment.

Dated this 11th day of February, A. D. 1870.

JAS. BOLDRICK.
R. P. FIDLAR.
312:3t

Orchard and Nursery.

ANIMALS must be kept out of young orchards. Tight fences and securely closed gates will do much to exclude domestic animals, including man.

MICE AND RABBITS are the most trouble some among the wild animals. Tramp down the light snow around the trunks of the trees. Sprinkle blood near the base of each tree, to keep off rabbits.

COINS can be cut if the trees are not frozen; mark and store in sawdust or moss in a cool cellar.

PRUNING.—Though winter pruning is objected to by good authorities, if we had an old orchard that needed treatment, we should go at it in winter when there is plenty of time. Painting over large wounds, or covering them with melted grafting wax will prevent injury from rotting. If trees are properly shaped when young, it will seldom be necessary to do much pruning.

INSECTS.—One of the worst enemies of the orchardist is the Tent-caterpillar, but it is fortunately, one of the easiest to keep in check. The eggs may now be seen near the ends of the twigs, glued in a broad band-like cluster. Remove the eggs and there will be no caterpillars, as another crop will not be laid until next summer.—A pole pruning implement of some kind is convenient for this.

MANURE may be spread upon the orchard. We sometimes see trees manured by a heap placed directly around the trunk, where if not a positive injury, it is of no use.—Spread it evenly over the surface.

Salting Cattle.

The importance of properly feeding salt to cattle to promote health and thereby guard against disease, is not sufficiently appreciated. I have ever been in the practice of giving salt to my cattle once a week, precisely to a day, with the following exceptions, viz., when they first go to pasture in the spring, and the first part of summer they need it oftener, and will let me know it by going to the place where I usually salt them and gnawing the ground. I then give them salt twice a week; but as their bowels are loose from eating fresh grass, I gave a smaller quantity.—During the last forty years, or more, I have kept cows and horses through seasons when black-tongue, hoof-ail and other diseases prevailed throughout my neighborhood, at which time I recommended giving salt twice a week, as I gave during the prevalence of the late cow disease.

I now make the statement that I have never had a cow or horse affected by any prevailing disease, unless you may call this an exception; I bought a cow two and a half months before the appearance of the late cow disease, and I kept a close watch of my cows, the cow that I had recently bought had a crack across her ancle horizontally between her dewclaw and hoof, which I should not have noticed at any other time, but that healed in less than a week. I have now stated facts; draw your own conclusions.

If the dreaded rinderpest should approach us I should rely with a great deal of confidence upon the same course.—E. May, *Rochester, in the Rural New-Yorker.*

An Old Farmer's Experience.

That the success of farming is in experience.

That to ask a mans advice is not stooping but often of much benefit.

That to keep a place for everything, and everything in its place, saves many a step, and is pretty sure to lead to good tools and to keep them in order.

That kindness to stock, like good shelter, is a saving of fodder.

That to fight weeds is to favor grain and to do justice to your neighbors.

That in making home agreeable, you keep your boys out of the city.

That it is a good thing to grow into farming—not jump into it.

That it is a good thing to keep an eye out on experiments, and note all, good and bad.

That it is a good rule to sell your grain when it is ready.

—Boston theatres keep a man at the door with a revolver ready to shoot the first pick-pocket who cries fire to create a panic.

CATARRH, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

CONSUMPTIVES, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

CURE for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

FROSTED FEET, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

Mortgage Sale.

WILL be sold under the powers contained in certain Mortgages which will be produced at the sale, on

Tuesday, 22nd Day February,

A. D. 1870, at 12 o'clock, noon, at the Auction Rooms of A. Keyes, Bridge Street, Lots Nos. 11 and 12, East Hastings Road, Tudor, containing 100 acres, a large portion under cultivation. Also, Lot No. 24, 9th con. Marmora, containing 200 acres; a good frame barn on the premises.

Terms made known at time of sale. For further particulars apply to

ALEX. ROBERTSON,
Vendor's Solicitor.
ANDREW KEYES,
Auctioneer.

Fortieth Year.

GODEY'S LADY'S BOOK

For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, payable *to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

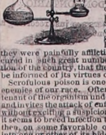
PRICE, $1.00 PER BOTTLE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.



The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

INTELLIGENCER BUILDING,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 18[illegible], notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use,

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this mervelous remedy known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure. It cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first, at our own risk,

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED [illegible] *exposed*

The Wisdom of Providence in selecting the inventors and Proprietors of this marvelous [illegible] to carry out His will in placing [illegible] within the reach of His people of all [illegible] who had sufficient faith to [illegible] upon the waters to return after many days [illegible] were content to spread out before the world the [illegible] purity, and miraculous quickness of this [illegible] until such time that its wonderful virtues became a household necessity everywhere [illegible] instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready [illegible] the people of all nations have been rescued from [illegible] Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, the Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,

Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the form of Ague Cures and Private Practice, pass the penalty of engorged liver, fat spleen, diseased kidneys, saffron colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures Cholagogues, &c., costing $1 to $5. One Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits will give you equal in quantity and superior to [illegible] 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, [illegible] &c., all these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will supply every household [illegible] against sickness, and can be used for the same purposes that would cost at least ($25) twenty-five dollars, had you to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief**. Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum.
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two of the Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by HENRY STEPHENS, F.R.S., Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo, 1600 pages, and numerous Engravings. Price $7. By Mail post-paid, $8.

"Let Me In."

BY CARRIE M. WHITNEY.

"Let me in, mother dear; I am weary
With my pilgrimage o'er the wide world,
And to-night it looks dismal and dreary,
With its treacherous banners unfurled.
O long have I wandered, and distant,
In lands far away o'er the sea,
But the joys I have sought so expectant
Have never been born yet for me."
Thus sighed a weak mortal in sorrow,
Who long had sought riches and fame;
But the ever delusive to-morrow
Had woven no wreaths for his name.

"Let me in! O a battle is raging
With a fearfully threatening sound:
In the terrible war I am waring
Life's blossoms are strewing the ground.
Let me in to the little thatched cottage
That sheltered my innocent head;
I am weaker than age in its dotage,
For the hopes of my future are dead,"
Cried a maiden in wild desolation,
As she fainted before the low door;
But no mother could give consolation,
Heart-broken—life's conflicts are o'er.

"Lo! pilot, the tempest is breaking;
O, steer for the sheltering coast;
The ship to its broad hulk is quaking;
Put in, or we surely are lost!"
Then back, o'er the roaring of breakers,
Came answer, in tones of despair,
"No skill of the pilot can save us;
'Tis rock-bound! no haven is there!"
And soon the huge vessel was riven,
And sank 'neath the dark angry wave;
Each soul was thrust into a haven
Through a sudden and watery grave.

"Let me in! let me in! I am trying
To lay down this burden of sin:
Without, I stand knocking and crying,
O, merciful Lord, let me in!
I know I have nothing to pay thee,
No treasure thy favor to win,
But thy grace is sufficient to save me;
Lord, cleanse me and keep me from sin!"
Thus prayed a poor, weak, erring mortal,
Who a life-time in bondage had been;
And Jesus threw open the portal
To welcome the wanderer in.

N. Y. Christian Advocate.

A Beautiful Allegory.

Once on a time a little leaf was heard to sigh and cry, as leaves often do, when a gentle wind is about. And the twig said:

'What is the matter, little leaf?'

'The wind,' said the leaf, 'just told me that one day it would pull me off, and throw me down to the ground to die!'

The twig told it to the branch on which it grew, and the branch told it to the tree. And when the tree heard it, it rustled all over, and sent word back to the leaf:

'Do not be afraid, hold on tightly, and you shall not go till you want to.' And so the leaf stopped sighing, and went on nestling and sighing. And so it grew all summer long, till October. And when the bright days of Autumn came, the little leaf saw all the leaves around, becoming very beautiful.—Some were yellow and some were scarlet, and some were striped with both colors. Then it asked the tree what it meant. And the tree said:

'All these leaves are getting ready to fly away, and they have put on these beautiful colors because of joy.'

Then the little leaf began to want to go, and grew very beautiful in thinking of it, and when it was very gay in colors, it saw that the branches of the tree had no color in them, so the leaf said:

'O branch, why are you lead color, and we golden?'

'We must keep on our working clothes,' said the tree, 'for our life is not done yet, but your clothes are for a holiday, because your task is over.'

Just then a little puff of wind came, and the leaf let go without thinking of it, and the wind took it up and turned it over and over, and then whirled it like a spark of fire in the air, and let it fall gently down, under the edge of the fence among hundreds of leaves, and fell into a dream, and never waked up to tell what it dreamed about.

Brother and Sister.

As fathers love daughters better than sons, and mothers love their sons better than daughters, so do sisters feel towards a brother a more constant sentiment of attachment than towards each other. None of the little vanities, heart-burnings, jealousies, that—alas for poor human nature!—are but too apt to spring up in female hearts, can (or at all events should) arise between brother and sister; each is proud of the other, because it cannot interfere with self—nay, on the contrary, is flattering to self. Hence, if there be a bond of female union more free from the selfish blots that interrupt all others, it is that which exists between an affectionate sister and brother.

How to break One's self of Bad Habits.

Understand clearly the reasons, and all the reasons, why the habit is injurious.—Study the subject till there is no lingering doubt in your mind. Avoid the places, the persons and the thoughts that lead to the temptation. Frequent the places, associate with the persons, indulge in the thoughts that lead away from temptation. Keep busy idleness is the strength of bad habits. Do not give up the struggle when you have broken your resolutions, once, twice, ten times or a thousand times. That only shows how much need there is for you to strive. When you have broken your resolution, just think the matter over, and endeavor to understand why it was you failed, so that you may be on your guard against a re-occurrance of the same circumstance. Do not think it a little or any easy thing that you have undertaken. It is folly to expect to break off a bad habit in a day, which may have been gathering strength in you for years.

The Fallen Son.

Follow him home from the scene of his debauch. He is an only son. On him the hopes of the family are centered. Every nerve has been strained to give him the choicest education. Parents and sisters gloried in his talents and looked forward to his future fame. Alas! already these visions are less bright.

Enter now the family circle. Parents surrounded by lovely daughters. Within the circle reigns peace, virtue and refinement.—The evening has been spent in animated conversation and the sweet interchange of affectionate endearment. But there is one who used to share all this, who was the centre of that circle. Why is he not here? The hour of devotion has come; they kneel before their Father and God. A voice that used to mingle in their praises is wanting. An hour rolls away—another hour has gone. Why has all cheerfulness gone? Why do those parents start at every footstep?

The step of that son and brother is heard. The door is open—he staggers in before them and is stretched out at their feet in all the loathsomeness of intoxication.

"Oh, who shall tell the sorrows of a home made dark with sin?"—*Rev. Dr. Wayland.*

How to Shoe Horses in Winter.

When the shoes of carriage horses are fitted up with sharp heel calks, as soon as they are driven through snow deeper than their gambrel-joints, they are exceedingly liable to thrust one foot down on the other, tearing a deep and bloody wound just above the hoof. Many a valuable horse has 'calked' one foot so terribly, when floundering in the snow, as to unfit him for service for several weeks.

The remedy is to have no heel-calks at all, unless they are large and square on the ends. A shoe fitted up with calks three fourths of an inch square on the end will prevent slipping quite as effectually as high heeled shoes for men.

The authorities of some of our city railroads make use of the 'Goodenough shoe,' the heels of which instead of being calked, are forged in the form of a long, blunt edge, which will prevent slipping sideways. If a sharp calk be welded to the toe of the shoe, there is no danger of a horse wounding his feet with the calks of his own shoes. If the shoes are provided with sharp steel toe calks, properly tempered, a horse will rarely slip the breadth of a hoof.

Many blacksmiths, instead of employing good steel for toe-calks, properly hardened to wear a long time, swindle their customers by forging calks from a piece of some old horse shoe which a customer has thrown away, and which will require sharpening every three days. When toe-calks are made good steel should be employed; and every calk should be tempered as hard as a coal-chisel for cutting hard iron. After a calk has been tempered, attempt to file it. If the file will not cut the surface, the metal is sufficently hard to wear a long time and keep sharp. Owners of horses should keep awake to the difference between soft iron and tough, hard steel in the toe-calk. Two cents worth of steel per shoe, tempered, would frequently have saved the price of resetting and sharpening the calks, besides preventing, perhaps, some serious injury to the horse, in consequence of slipping when his calks were dull.—*Manufacturer and Builder.*

Eccentric Prayers.—Some very eccentric expressions were used in the prayers of clergymen of the last century. An Edinburgh minister was inclined to grumble when he prayed; 'Give us not evil, to think Thee neglectful of Thine own, for we are Thine own family; and have been but scurvily provided for for a long time." The following is a specimen of baptismal prayer: "Lord, bless and preserve this young calf, that he may grow an ox, to draw in Christ's plough." We wonder whether the municipal gallery was occupied when Mr. Erskine prayed thus; "O Lord, have mercy upon all fools and idiots, and particularly on the magistrates of Edinburgh." Mr Dickson once indulged in the following kitchen-garden allegory; "Dibble Thou the kail of Thy grace in our hearts; and if we grow not up to the stature of good kail, Lord, make us good sprouts at least.'

New Steamships.—The number of steamships plying between the United States and Europe will be greatly increased in the Spring. The National Line will put on three new vessels of about 4000 tons each, which will convey emigrants from Copenhagen. The Williams & Guion Line will add two steamers to their stock. The Cunard Company are building two new and large ships. Two steamers are also building at Liverpool for the line between that port and New Orleans.

FRESH OYSTERS.

JOHN WILSON
IS RECEIVING
Fresh Oysters Daily,
XXX
WHOLESALE AND RETAIL.

CANADA
Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates*, will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are

Indisputable on any ground whatever,

Subject only to payment of premiums which may become due.

SPECIAL FEATURES.
ECONOMY—
Giving more assurance, for the same money than other Companies.
HOME MANAGEMENT—
HOME INVESTMENTS—
Every advantage to policy holders which is compatible with sound management and ultimate safety.

A. G. RAMSAY,

Daily Intelligencer.

BELLEVILLE, SATURDAY, FEB. 19.

BIBLE SOCIETY.—The annual meeting of the Belleville Branch Bible Society, will be held in Ontario Hall on Tuesday evening, when addresses will be delivered by the Rev. J. Gemley and others.

TRAINS DELAYED.—As anticipated in our paragraph of yesterday, the storm delayed the trains on the Grand Trunk, the Eastern mail arriving about six hours late, while the train from the West was but one hour behind time.

SEAMEN'S MISSIONARY.—The Rev. Thos. Bone, of St. Catharines, Colporteour of the Upper Canada Tract Society, and missionary to seamen passing through the Welland Canal, is in town, and will preach in the John St. Presbyterian Church to-morrow morning, and in St. Andrew's Church in the evening.

The Railway Age.

This is a Railway age. Turn which way you will, from the golden shores of San Francisco to the coast of Halifax, from the Gulf of Mexico away even to the North Pole, and you find all sorts of Railway projects from the link of a few miles, connecting two important points, to the mammoth idea of an iron track connecting two continents. So much has been accomplished by Railways; their construction gives employment to the surplus wealth of the country and feeding thousands of hungry mouths. The resources they develop, the hidden wealth they bring to the surface, the manufactories they establish, the sleepy towns which they convert into flourishing cities, the deserted villages which they transform into prosperous towns, the increased value which they give to farm as well as Town property, the facility which they afford the farmer to get to market with his produce; all these things are opening the eyes of the people to the value of Railway communication, and it is not very surprising that we are having a Railway *furore* in Canada just now. In view of what Railways have done and are doing for Great Britain, for the United States and for Canada, it would be surprising if the stand-still and do-nothing policy were continued.

In the Western part of Ontario, Hamilton and Toronto are stretching out their iron fingers to grasp the trade which the country north and east and west is rapidly developing, and well the business men and property holders of those localities know what estimate to put upon these Railway projects. Whitby and Port Hope are endeavoring to establish centres for the trade of the country north of their rising and prosperous towns. Kingston has succeeded in getting ahead of Belleville, and however much some may pooh-pooh the idea of their Railway project, there is every reason to believe the Kingston and Madoc Railway will be built, and that much sooner than some of our sleepy-headed stage-coach business men are willing to believe. The people of the Northern Townships see the necessity of having a market at their very doors, and the only way to obtain this market is by some more rapid means of communication than they now possess.—They find their barns and granaries filled with grain, and no way of reaching market except by the old method of teaming, and when they get their grain thrashed and fall work done, the price is down and the market to a certain extent is closed. A Railway will place them on the same footing with the front Townships, and who will blame them, when Belleville gives them the cold shoulder, for seeking some other outlet? The earnestness with which Madoc, Hungeford, Elzevir and the other Townships along the line have entered into the work, augurs well for the speedy and successful completion of the Railway.

The question now is, will Belleville allow itself to be cut off altogether, and be deprived of the trade of the rear Townships? If not, prompt and decisive action is necessary.

Still further east Railway projects are assuming even larger proportions. At Ottawa, on the 16th inst., a large and influential meeting was held to revive the Canada Central Railway project, and judging from the proceedings, it is evident that something substantial will come out of it. This line of Railway is to run from Montreal to Ottawa and further west; the ultimate idea being to extend it to Pembroke and Lake Huron. It is only 150 miles from Pembroke to Lake Huron, consisting of a wooden country, the lumber of which would create a traffic for a railway passing through it. This line has already a most advantageous charter with a land grant of 12,000 acres a mile, and it is proposed to amalgamate its interests with the Northern Colonization Railway Company, the combined resources of which, together with bonuses from Municipalities, would secure the early construction of the line. Resolutions were passed, and steps were taken to secure the extension of the Charter and the amalgamation with the Northern Colonization Railway Company.

Parliament Yesterday.

The House was occupied again yesterday in discussing the Address. Messrs. Mackenzie, Tupper and Mr. Huntington being the principal speakers. In consequence of the Citizen's Ball to Prince Arthur, the House adjourned at a quarter to eight until Monday, when it is probable the debate will be concluded. It is not expected that any amendments will be made to the Address.

Mr. BOWELL said the introduction of the Finance Minister would prove the destruction of the Conservative party, and there was not a man in Quebec or Ontario who had not opposed the appointment when it was proposed. The course followed by the Premier in bringing in such men would result in his having a smaller following than he had at the time of the coalition.—He could easily understand the position of the member for Sherbrooke, who had to bear the burden of sins committed by the present Finance Minister when he had formerly been in office, and there was not a man who took the stump in defence of the Government of which the member for Sherbrooke formed a part who did not take that ground in his defence. It was strange that when the Finance Minister took office, if he was a Reformer, that he could not get a Reformer to resign in his favor, but had to get a Conservative to do so in a Conservative county. Mr. Galt's action in resigning on the Clergy Reserve question was quite intelligible to them who know that it had been kept as a stabling horse for 25 years, and would never have been sealed but for the Minister of Justice and his friends. He demanded that the charges against Messrs. Howe and Langevin should be investigated, and if found guilty of a title of what they were accused they should be dismissed by their colleagues; if they supported them they should all be driven out.

County of Hastings Sabbath School Convention.

EVENING SESSION.

The Convention met at half-past seven, for the closing services. The attendance of delegates and of the public was again large.

At the opening the choir sung "Joy to the World."

Rev. Mr. COBB read the 23rd Psalm.

The first subject for the evening's discussion was "The Establishment of Township Conventions."

Hon. BILLA FLINT said a large sum was now paid for the superintendence of Common Schools in the County. There were about 170 Schools in the County, and if we had 170 Common Schools, why not have as large a number of Sabbath Schools? A small sum added to the salaries of the Local Superintendents of Education, who could also Superintend the Sabbath Schools, would be money well spent. The people might at first complain, but they would soon see the benefit of it, by the lessening of crime, for by this they would be the gainers. The object was to have the townships organized to work up Sabbath Schools so that they might be effective. For this purpose and to this end the Vice-Presidents ought to go to work each in their own neighborhood and stir the people up to the importance of the subject. The duty of every one in the Convention was to look to the interests of this work. This was the first step towards organization, and he hoped before their next annual meeting to hear of every section having a Sabbath School. If the gentlemen present from the country would go to work, the matter would be easy. Let them begin at once and put ther shoulders to the wheel and it would be done. If there were any present who were lukewarm in the cause, the sooner they got their hearts warmed up the better. He had often felt inclined to give up, but had found it would not do. He trusted the good work would go on. He would endeavor to see that those connected with him in the township of Elzevir would do their duty. Wherever there was a School Section, a Sabbath School might be started which would do incalculable good to the eternal welfare of its scholars.

The choir then sang "Battling for the Lord."

Rev. Mr. MILLARD then addressed the Convention on "The duty of Parents to the Sabbath School." He said there were many parents who were ever careful of the bodily welfare of their children, but who appeared to care little for that of their souls. If a man did not care for his own soul, he was apt to care little for that of his children. There were many children who merely attended Sabbath School from the example of others, not from any interest in the instruction derived. But now efforts were being made to render Sabbath Schools so attractive as to induce the children to attend, from the amount of pleasure they would experience in doing so. The great duty of parents was to manifest sympathy towards the Sunday Schools. Some scholars were in the habit of going late to the Sabbath Schools, but this was in many cases to be attributed to the parents, who were neglectful rather than urgent. It was important that all the scholars should be there when God was supplicated on their behalf. During the week parents should see that the subjects given out at the Sabbath meetings were studied. This was done in his school, and with the best effects. He did not give long verses for home study, for he believed that they merely caused a loss of valuable time. It would be a glorious day indeed, when teachers studied the lessons they had to teach. For how could they properly instruct others in what they had not studied themselves? Another important thing was that parents should teach their children the virtue of self-denial. He instanced a Sabbath School in Kincardine, where poor children had, from their savings, subscribed $6 in one month to the funds of the Missionary Union, and in Rochester, the pupils of one Sabbath School had subscribed upwards of $700 towards the building of the ship, "Missionary Star." He hoped to see the day when there were not three services in the churches on the Sabbath, but only one, so that there might be more time for Sabbath School exercises. This had been tried with the most salutary effects in Massachusetts.

Miss ELLA JONES, a little girl of about 7 years of age, then sang, assisted by the choir, "I will sing for Jesus," which was raptuously received by the audience, who demanded an *encore*.

The question drawer was then opened, and a number of interesting questions were answered satisfactorily, after which the choir sang "Nearer, my God, to Thee."

Rev. WM. MCLAREN then delivered an address on "The encouragement of Sabbath Schools." God never called us to work in any department without giving us some encouragement. It was pleasing to look at the bright side of the subject. There were two grounds of encouragement in connection with Sabbath School labor—one from above and the other from beneath. They had good soil to work upon, as the ground was not preoccupied by erroneous views and ruinous propensities. Sin had not attained the strength which attached to it in later years. The Gospel of Christ was specially adapted to the minds of the young. Christ had been a child himself, had cared for little children, and had not forgotten them yet. Children could be brought to Christ so early that they would never know how they had been saved. This was the case with Richard Baxter, the celebrated preacher. The minds of children were easily moved, and impressions made in early years were lasting. The time would never come when the impressions made by a pious father or mother would be effected.—They were not, as instructors, responsible for results, but for the work they did. He thought there was a special dispensation in the Scriptures for Sunday Schools contained in the text, "Train up a child in the way he should go, and when he is old he will not depart from it." Every Christian worker had his own monument to build, and so had others who were not, but some would not care at the last day to see the monuments they had built. The work that was done for Christ was never lost,

Rev. Mr. COBB made a short address, and recited some interesting anecdotes of the powerful influence of religious instruction in youth.

Several delegates then gave further remarks respecting their experiences.

Music—"Cheerful Giver."

The Committee on Resolutions then submitted the following report, which was carried unanimously:

1st. That the Convention has welcomed with peculiar pleasure the visit of the Rev. Mr. Millard, who has gladdened our hearts by his addresses, who has been an honored and earnest laborer in the work of Sabbath Schools; and their prayer is that he may be long spared to labor for the spiritual welfare of the young.

2nd. That the thanks of the Convention are hereby tendered:

(1) To the Christian people of Belleville of various denominations for their open-hearted hospitality towards the delegates, who will ever retain a sunny remembrance of it.

(2) To the trustees of the John Street Presbyterian Church for the use of their Church, and the comfortable way in which it was kept.

(3) To the Local Committee, and especially to Wm. Johnson and Chas. Martin, Esquires, for the thorough and complete arrangements which have tended so much to the efficiency and comfort of the Convention.

(4) To Nathan Jones, Esq., and the ladies and gentlemen who assisted him in discoursing sweet music, which tended greatly to enliven the meetings and elevate the mind.

3rd. In view of the vast and increasing interest attaching to Sabbath School work, which is yearly becoming a greater power in the Church and country, the Convention urge on all concerned the following:

(1) That the grand aim and object of Sabbath School teaching is, by a faithful exhibition of the teachings of God's word, to bring the young to Christ, to develope in them a healthy and vigorous piety, and to induce them to become active and efficient laborers in the Lord's vineyard, and

(2) That teachers be recommended to encourage in their pupils the habit of prayer, and to endeavor, by a faithful and loving exhibition of their wants, and the preciousness of Christ, to lead them to pray in spirit and in truth.

(3) That while recognising the paramount aim of Sabbath School teaching to be the exhibition of the way of life through Jesus Christ, in order to the salvation of the scholars, special attention be given to the counteracting of those moral evils which are found to hinder the success of the Gospel, and especially that all legitimate means be employed to discourage the drinking usage of society and to promote temperance.

(4) That in view of the felt necessity of having the whole youth of our country under Christian training, all legitimate efforts should be employed to induce as many persons of piety and ability as can be obtained, to engage in organizing and conducting Sabbath Schools in destitute localities.

(5) That it is earnestly recommended, wherever it is possible, that weekly Teachers' Meetings be established for devotional exercises, for the study of the lessons, and for conference on the spiritual state of their classes.

(6.) That to retain the senior scholars care be taken to disabuse their minds of the false notions which often lead them to their serious injury, to withdraw from school, and that every effort be made to secure for them such able teachers as will induce confidence in their capability to feed the expanding minds of their scholars; and above all who shall strive to lead them to embrace Christ.

(7.) That all proper means be employed to bring under the notice of the parents their duty to the Sabbath School by interesting themselves in seeing that their children are punctual and regular in their attendance, that their lessons are prepared beforehand, and that they be encouraged to give for missionary objects.

Finally, by the special promises given in connection with the training of the young, and the many cheering facts which have come before this Convention, teachers are stimulated to continue with increased faith and energy in the glorious work of feeding the lambs of the Lord Jesus Christ.

After the passing of these resolutions, farewell addresses, limited to five minutes, were delivered by Rev. Mr. Gray, Mr. Osborne, Rev. S. Jones, Mr. Loomis, Mr. Brenton, Hon. Billa Flint, and Rev. Mr. Millard.

"Shall we gather at the River" was then sung by the choir, after which the President delivered a few farewell remarks.

The doxology was then sung, and the Convention closed with prayer.

Latest from Red River.

PROCEEDINGS OF THE CONVENTION—THE NEW BILL OF RIGHTS—ITS ADOPTION BY THE DELEGATES—WHAT THE HALF-BREEDS ASK FOR—THE BILL PRESENTED TO COMMISSIONER SMITH—A STRANGE CHARACTER TURNS UP.

From the Toronto Telegraph's Correspondent.

RED RIVER, Feb. 5.
via ST. CLOUD, MINN., Feb. 18.

The Convention of forty delegates has been occupied all week in discussing the items reported by the sub-committe last Saturday. The discussion was completed to-day, and the Convention adjourned until Monday morning. The following is a summary of the amended Bill of Rights as adopted by the Covention:—

While Winnepeg remains a Territory, the present duty of 4 per cent. must be allowed to remain in force (except the duty on liquors) for three years, or till a railway has been built connecting with St. Paul, and steam communication established with Canada by way of Lake Superior.

No taxation shall be levied except by the Local Government, and then it must only be for local improvements.

The general expense of governing the country must be borne by the Dominion.

The affairs of the country to be managed by the Local Government, which is to consist of the Governor and the heads of departments.

The number of local representatives to be decided on when the Province has a Government the same as other Provinces.

The Dominion interierence in local affairs will be allowed.

The veto of the Governor to be overborne by a two-thirds majority of the Legislature.

A homestead and pre-emption law to be passed.

An appropriation to be made annually, amounting to $25,000, for schools, roads, bridges, &c., while the country remains a Territory.

The cost of all public buildings to be borne by the Dominion.

Uninterrupted steam communication with Lake Superior to be established within five years, and a rail to meet the American lines, when they reach Pembina.

The item demanding a native military force was removed from the Bill.

English and French to be spoken in the Courts and Legislature, public documents to be printed in both languages, and the Judge of the Supreme Court to speak both.

All Indian treaties to be made by Canada.

The Territory to have representatives in the Senate and House of Commons of the Dominion.

All existing rights and privileges must be respected.

The Local Legislature to have control over public lands within a certain distance of Fort Garry.

All British subjects over 21 years of age, and all foreign householders of three years' residence to have the right to vote.

The Territory not to be liable for any part of the compensation to be paid to the Hudson Bay Company for the surrender of their title.

The Bill as adopted was submitted to Commissioner Smith. What his opinion is of it I have not yet learned. He will probably forward it to the Canadian Government immediately.

The best of feeling prevails, and the general impression is that the rebellion is ended.

Capt. Gay, a Frenchman, arrived here on Saturday. There is some mystery about him. Some say he is General Carl. The priests say he is mad. He says he is an intimate friend of the Emperor of the French. He keeps close to Riell, and professes much sympathy with the insurgents.

News Condensed.

—Counterfeit half dollars are in circulation.

—A Union Station is talked of at London.

—France objects to the proposed dogma of the infallibility of the Pope.

—Mail communication with Ottawa is suspended on account of the storm.

—The *France* says Gen. Beauregard has arrived in Marseilles, on railroad business.

—The citizens Ball in honor of Prince Arthur at Ottawa last evening, was attended by over 250 couples.

—A plot to assassinate Emperor Napoleon and the Prince Imperial, has been discovered by the Government.

—Prince Pierre Bonaparte is to be tried before the High Court of Justice on the charge of "homicide through imprudence."

—The actual payment of subscriptions towards the Queen's College Endowment Fund amounts to $52,243 76.

—The Negro Clerk of the Alabama senate managed to get 500 errors in spelling into one bill the other day.

—A correspondent coolly suggests that the reason Snow left the Red River Territory so soon was that it was Riel hot up there! Turn him out!

—A substance has been found in Pancake Mountain, Nevada, which is said to resist intense heat better than anything heretofore discovered, and it is to be used in lining smelting furnaces in the silver mines.

—A severe earthquake occurred in San Francisco on the 17th inst. People flocked to the streets, and all brick buildings were vacated instanter. Buildings shook perceptibly, and the cracks made in the buildings by the shock in October, widened a little.

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through doors. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most efficacious of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO. LINDSAY, ONT. 321-4w

---

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element Iron*, giving strength, vigor and new life to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation; thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chillblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.

51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds,
BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache. Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors.
304d 51w 4w Montreal, P. Q.

In School Days.

BY JOHN G. WHITTIER.

Still sits the school house by the road,
  A ragged beggar sunning;
Around it still the sumachs grow,
  And blackberry vines are running.

Within the master's desk is seen,
  Deep scarred by raps official;
The warping floor, the battered seats,
  The jack-knife's carved initial.

The charcoal frescoes on its wall,
  Its door's worn sill betraying,
The feet that creeping slow to school,
  Went storming out to playing!

Long years ago a winter sun
  Shone over it at sitting;
Lit up its western window panes,
  And low eaves' icy fretting.

It touched the tangled golden curls,
  And brown eyes full of grieving,
Of one who still her steps delayed
  When all the school was leaving.

For near her stood a little boy
  Her childish favor singled,
His cap pulled low upon his face
  Where pride and shame were mingled.

Pushing with restless feet the snow
  To right and left he lingered;
As restlessly her tiny hands
  The blue-checked apron fingered.

He saw her lift her eyes; he felt
  The soft hand's light caressing,
And heard the tremble of her voice,
  As if a fault confessing.

"I'm sorry that I spelt the word:
  I hate to go above you,
Because"—the brown eyes lower fell—
  "Because, you see, I love you!"

Still memory to a gray-haired man
  That sweet child's face is showing;
Dear girl! the grasses on her grave
  Have forty years been growing!

He lives to learn in life's hard school,
  How few who pass above him
Lament their triumph and his loss,
  Like her—because they love him.

'John,' said a pious uncle to his nephew who was paying his first visit to the city, 'John, we're in the habit of saying something before we eat.' 'All right,' said John! 'Go ahead! You can't turn my stomach!'

'Now, sposin' you was to be turned into an animal,' said Jim, 'what would you like to be, Bill?' 'Oh, I'd be a lion,' replied Bill, 'because he's so ——' 'Oh, no, don't be a lion, Bill,' interrupted little Tom, who had some recent painful experience at school; 'be a wasp, and then you can sting the school-master.'

Mr. Hudson, of Napoleon, Ohio, has delivered two lectures in that place on 'Bugs' and 'Hash.' Of the lecture on 'Bugs' the local paper says:—'It was commendable in matter, full of love to God and man, and was calculated to make those who heard it better Christians and better citizens.'

PLEA FOR MORNING SLEEPERS.—As life becomes more concentrated, and its pursuit more eager, short sleep and early rising become impossible. We take more sleep than our ancestors, because we want more. Six hours' sleep will do very well for a ploughman, or any man who has no other exhaustion than that produced from manual labor; but for a man who is tired in the evening with a day of mental application, neither early to bed nor early to rise is wholesome. The longer the interval between the active use of the brain and his retirement to bed, the better his chance of sleep. To him, an hour after midnight is probably as good as two hours before it. His best sleep, probably, lies in the early morning hours, when all the nervous excitement has passed away, and he is in perfect rest.

RED RIVER.—People will prophesy that if this settlement is to be a success, it should now be prosperous and self-supporting. Such folks forget that Ontario was aided at its settlement by a generous Government for three consecutive years, and is it not now a success? The virtues and advantages of a colony are not so earily testified and established as are the undeniable curative properties of the great Shosonees Remedy for the respiratory and digestive organs. *For sale by Druggists.* 51-4w

ALLEN'S LUNG BALSAM.—The best remedy for the cure of Consumption, and all diseases of Lungs. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state. It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

TWO QUESTIONS EASILY ANSWERED.—Why should men wear beards? Because they are a protection to the throat and lungs and add much to their personal appearance. Why should we use "Bryan's Pulmonic Wafers?" Because when used for coughs, colds, tickling in the throat, Hoarseness, &c., they act like a charm. Ministers and Lawyers use them, physicians recommend them and singers and public speakers say they are the very best medicine in existence for the cure of such complaints. Sold by all medicine dealers, at 25 cts. per box.

VERY NATURAL.—When a person has proved an article and found it good, and answering the purpose for which it is intended, he will not readily abandon it for one of doubtful reputation, or concerning which he knows nothing. We are led to make these remarks owing to the course always pursued by those who have used that celebrated and truely valuable horse medicine known as "Darley's Condition Powders and Arabian Heave Remedy." All are so well pleased with it that they will not use any other; many have waited several weeks until the agent could obtain a new supply. There is nothing equal to it as a condition medicine, or for any complaint affecting the wind of horses. Remember the name, and see that the signature of Hurd & Co., is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all Medicine Dealers.

Fortieth Year.

GODEY'S LADY'S BOOK

For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year, - - - - - -	$3 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once-a-Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, payable to the Order of L. A. Godey, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

INTELLIGENCER BUILDING,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this mervelous remedy, known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

if exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first, at our own risk,

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever,   Typhoid Fever,
Scarlet Fever,   Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED *Attacks if exposed.*

The Wisdom of Providence in selecting the Inventors and Proprietors of this miraculous remedy to carry out His will, in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to *wait for their* bread cast on the waters to return after many days" who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy until such time that its wonderful virtues became a household necessity everywhere—shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, the Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,

CHILLS AND FEVER,

SCARLET FEVER,

Bilious Fever.

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or [illegible] forms of Mercury, or in fact any remedy [illegible] that will cure this disease so positively [illegible] as

Radway's Ready Relief.

No, not one. Thousands, from overdosing with Quinine, Arsenic, Mercury, bottled in [illegible] Cures and Private Prescriptions [illegible] gorged liver, fat spleen, [illegible] colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $5, and [illegible] Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Panacea, Killers, Embrocations, Panaceas, [illegible] &c., all of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least (say) twenty-five dollars, had you to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,   Cholera Morbus,
Bilious Colic,   Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews, - -	$4.00	per annum
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - - - -	10.00	"
For Blackwood and three of the Reviews, - - - -	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one* of the *Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two* of the *Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by HENRY STEPHENS, F.R.S., Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo, 1600 pages, and numerous Engravings.

Price $7. By Mail post-paid. $8.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, MONDAY EVENING, FEBRUARY 21, 1870. No. ~~849~~ 249

Masonry Among the Indians.

The evident doom of the Aborigines of this country to extermination, while it does not fail to excite a sympathetic feeling in every one, most of all should strike a tender chord in the Mason's breast. They are not what they once were; civilization has only approached near enough to brutalize them with the vices that accompany it, as the crowd of dissolute camp-followers accompany an army. The novelist Cooper has been ridiculed by some for idealizing his Indian character, but we believe his pictures to represent much more nearly the Indians of former days than their descendants do now. Whether there are lodges of brethren of the Mystic Tie now among the Indians of the west we do not know, but there are individual Masons among the better classes among them we do know, and we are equally certain that once there existed fraternities who possessed, like Freemasons, an historic knowledge which was confined solely to the initiated. DeWitt Clinton, once G. G., High Priest of the United States, related on the authority of a respectable native minister, who knew from examination, the existence of such a society among the Iroquois. That there were mysteries among the Mexican and Peruvian tribes, is equally well known.

Tecumseh, the famous Shawnee orator and warrior, and equally noted for his temperate habits and adherence to truth, was made a Mason while on a visit to Philadelphia; and more than once, when under trial, did he prove himself true to the brotherhood. P. Grand Master Scott, of Virginia Lodge of that State, in 1845, related an interesting incident in Tecumseh's life, which he stated was well authenticated, and vouched for by several witnesses then living. "During the war with England, a detachment of Americans were overpowered in the North-West, by a superior combined English and Indian force, and compelled to surrender. Scarcely had they laid down their arms, when the Indians began to insult, strip and maltreat them. At length the tomahawk and scalping knife were raised, and Tecumseh entered upon the scene at the height of the barbarity. He made no motion to check his followers, but on the contrary encouraged them in their work. Many of his best warriors had fallen previously by their Kentucky rifles, and this was an Indian's revenge. But a cry of a Mason and a brother reached his ear, in a language he could not but comprehend. In a moment he sprang among his followers with his tomahawk uplifted and uttered the life-saving command—'Let the slaughter cease; kill no more white men.' This is but one of the several authentic incidents in the Masonic life of the brave Tecumseh."

We have another noble example in Indian Masonry in the person of Gen. Parker, grandson of the great Indian Chief, Red Jacket, a pure blooded Indian, and at the same time an educated gentleman and a Mason. During the late civil war he became famous on General Grant's staff, and proved himself to possess the war-like blood of his ancestor. At a Masonic banquet, in Chicago, prior to the war, he spoke most touchingly of himself, as almost the lone remnant of what was a noble race. As he found his people thus wasting away, he asked himself, Where shall I go when the last of my race shall have gone forever? Where shall I find home and sympathy when our last council-fire is extinguished? I said, I will knock at the door of Freemasonry, and see if the white race will recognize me as they had my ancestors, when we were strong and the white man weak. I knocked at the door of the Blue Lodge, and found brotherhood around its altar; I knelt before the Great Light in the Chapter, and found companionship beneath the Royal Arch; I entered the encampment, and found a valiant Sir Knight willing to shield me there, without regard to race or nation. I went further, I knelt at the cross of my Saviour and found Christian brotherhood, the crowning charity of the Masonic tie. I feel assured that when my glass is run out, and I shall follow the footsteps of my departed race, Masonic sympathizers will cluster around my coffin, and drop in my lonely grave the ever-green acacia—sweet emblem of a better meeting!

Joseph Brandt, the famous Mohawk Indian and Mason, was still another example of the practical power of Masonry principles. During the revolutionary war, at the battle of the Cedars, near Montreal, Col. McKinstry, of the continental troops, was taken prisoner by the Indian allies in the British service. After a council, it was resolved that he should perish at the stake by the usual protracted Indian tortures.—When fastened to the fatal tree, as a last resort he made the great mystic appeal of a Mason in the hour of danger. The Chieftain Brandt was present, and in a moment saw, understood, and responded to the sign. He at once commanded the savages to liberate him, and was obeyed. Then, with fraternal care, he conducted him in safety to Quebec, whence he returned to his home on parole. He survived for several years after, and often, with deep emotion, related how he was snatched from the jaws of death by an Indian Mason.

We love the race that gave birth to such brethren; it is worthy of a nobler fate than that which has befallen it. We occupy the Indians' inherited hunting grounds; let them have in return our truest efforts for their welfare.

Scientific and Useful.

"*Vulcanized Caoutchouc.* M. Monton (*Cosmos*)—In order to give to vulcanized caoutchouc all that softness which is requisite, for instance, for printing-ink rollers, the author reduces ordinary vulcanized caoutchouc to powder, places it in suitably shaped vessels, and submits it a second time to the temperature required for vulcanization. By this means it is rendered soft and smooth, has entirely lost its usual harshness, and is fit for various uses—among these the making of durable printing ink rollers.—*Chemical News.*

"*Electric Alarums to Indicate a Certain Temperature.* M. M. Besson and Knieder (*Revue Hebdomadaire de Chimie* and *Chemical News*).—The authors have constructed a set of thermometers, through the tubes of which are soldered two small pieces of platinum wire, which are not in metalic contact until the mercury just rises to the height at which the wires have been placed. Since the latter are in contact with conducting wires to a suitable galvanic apparatus, the instant the mercury makes metallic contact, an alarum is sounded; and this may, of course, by proper adjustment, be affected at any temperature which, for some purpose, or other, should not be exceeded. The instrument is intended for industrial use."

Cement.—J. M. Benthall writes to the *Sci. Amer.*: "I have used the compound of glycerine, oxide of lead, and red lead, for mending a large cast-iron kettle that had been fractured across the bottom by allowing water to freeze in it, with the happiest results. It takes some little time to dry, but turns almost as hard as stone, and is fire and water-proof. For mending cracks in stone or cast-iron ware, where iron filings cannot be had, I think it is invaluable.

"My method was as follows: Take litharge and red lead, equal parts, mix thoroughly and make into a paste with concentrated glycerine to the consistency of soft putty, fill the crack and smear a thin layer on both sides of the casting so as to completely cover the fracture. This layer can be rubbed off if necessary when nearly dry by an old knife or chisel."

"*Varnish in Burns.*—Paris is much interested in a remedy discovered by a workman who, to relieve the pain from a severe burn, thrust his hand into a pot of varnish which happened to be at his side. The relief was so sudden, and the healing of the wound so rapid, that the news spread, with the result of bringing to him every one in the neighbourhood who had a burn. Many wonderful cures are said to have been performed at the time of the great explosion in Metz, last September, and the discoverer has been summoned to Paris, to make some public experiments." (*Journal de Chimie* and Boston *Journal of Chem.*)

DIFFICULTIES IN THE USE OF PLASTER OF PARIS.

Complaints are frequently made of unsatisfactory results of the manipulation of plaster of Paris, many of which are doubtless due to a failure to observe some necessary precautions.

Plaster should always be kept in a dry place—never in a cellar—and in winter time in a warm room. It will not work satisfactorily if cold, nor if mixed with cold water. Premising that the article is good, the observance of the following directions should insure success:

Put the required quantity of *tepid* water into the mixing vessel, and add the plaster gradually (*stirring constantly*), until the proper consistency is obtained. If too thin, it will not set as quickly. If for taking impressions, it should be quite thick, and the addition of a *small pinch* of salt will facilitate the setting, but the cast will not not be quite as hard.

Frightened Horses.—Never whip your horse for becoming frightened at any object by the roadside; for if he sees a stump, a log or a heap of tan-bark in the road, and while he is eyeing it carefully and about to pass it, you strike him with the whip, it is the log, or the stump, or the tan-bark that is hurting him, in his way of reasoning, and the next time he will act more frightened. Give him time to examine and smell of these objects, and use the war bridle to assist you in bringing him carefully to these objects of fear. Bring all objects, if possible, to his nose, and let him smell of them, and then you can commence to gentle him with them.

—There are excellent reasons, Sir Roderick Murchison thinks, for disbelieving the story of Dr. Livingstone's death, and Mr. Horace Waller is of the same opinion. The letter has been in the possession of the mercantile firm who have now published it for some weeks, and the dates (to say nothing of other circumstances) seem to show that it cannot refer to Livingstone.

Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

CANADA

Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates,* will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are

Indisputable on any ground whatever,

Subject only to payment of premiums which may become due.

SPECIAL FEATURES.

ECONOMY—

Giving more assurance, for the same money than other Companies.

HOME MANAGEMENT—
HOME INVESTMENTS—

Every advantage to policy holders which is compatible with sound management and ultimate safety.

A. G. RAMSAY,
Agent at Belleville, Manager.

Montreal Time.

Daily Intelligencer.

BELLEVILLE, MONDAY, FEB. 21.

W. M. CHURCH.—There will be service in Wesleyan Church, Bridge Street, each night during the present week, with the exception of Tuesday night, when the Anniversary of the Bible Society will be held in Ontario Hall. Each service commencing at half-past seven.

MILITIA ORDER.—Lt. Col. Macpherson Dy. A. A. G. of Militia, has been appointed to proceed without delay to Montreal, to perform the duties of Superintendent of Schools of Military Instruction, during the absence on leave of Major Smyth.

RUNAWAY.—To-day a team of horses attached to a sleigh from which wood was being unloaded at Messrs. Patterson's office, started to run away, but did not get far. Mr. Reuben Patterson, who caught hold of the reins, succeeded in pulling them up before any damage was done.

THE COLD TERM.—The cold weather of the last fory-eight hours has had the effect of again raising the water in the river. Many cellars and yards in the rear of Front Street are again flooded, and in West Belleville the district formerly inundated is again under water, though not to so great an extent as before, the snow on the surface of the ice having in some measure stopped the flow of water. Much inconvenience has, however, been experienced by several families, who have been driven to the upper stories of their dwellings.

Parties in the House.

The debate upon the Address in the House of Commons in Ottawa, has justified the course we have taken in the INTELLIGENCER relative to the introduction of Sir Francis Hincks into the Cabinet. Though we have had very little beyond personal explanations so far, enough has transpired to show that the Conservative party are not only dissatisfied with that gentleman's appointment, but have expressed in the most emphatic terms, their determination not to be dragged at the heels of one who was driven from this country some fifteen years ago by both parties.—The first defection is that of Sir A. T. Galt, who declared in the House he could not support a Government with Hincks in it. True, Mr. Galt is not a favorite in Ontario; many of his opinions are too theoretical to suit our political views, but his detection is a sign of the times, and will act upon others sooner or later. Following Galt, came R. J. Cartwright of Lennox, an out and out supporter of Sir John A. McDonald and his government, who upon all occasions has voted for whatever measures were introduced by him, declaring in the most positive manner his hostility to Hincks, and determination in the future to act independent of the Government, regardless of the result of his opposition; and that in future he must not be looked upon as a Government supporter. He was followed by Mr. Bowell of North Hastings, who condemned the appointment, which he said was made in defiance of the almost unanimous voice of the press and people of Ontario, and from the undercurrent which is visible to the most casual observer of passing events, the weakening process is going on, and unless Sir John changes his course it will result in the overthrow of his Ministry.

We are the more pleased at the course these gentlemen have pursued, from the fact that they avowed their determination not to give a factious opposition to the Government, but to judge them and their measures upon their merits, irrespective of the result their course might have upon the stability of the McDonald-Cartier Government. This is the correct course, particularly when the opposition is not composed of men in whom they have implicit confidence.

These defections in the Ministerial ranks, particularly on the part of such men as Messrs. Cartwright and Bowell, has led the press to comment freely upon the situation of parties, and the reasons which have actuated these members. Not the least among these is the Ottawa Evening *Free Press*, which journal, in its issue of the 18th, under the heading of "the beginning of troubles," attributes to Sir A. T. Galt a personal antipathy to Sir John A. McDonald, and therefore goes into opposition.

Mr. Cartwright is annoyed, says the same journal, because Mr. Morris was chosen in preference to himself. This charge we believe to be utterly groundless. Mr. Cartwright represents a Conservative constituency, whose opinions are in unison with his own, and we freely accord to him an honesty of character and purpose which many others may possess but have not the courage to avow. Commenting upon the position of the member for North Hastings this same journal says: "We are inclined "to give Mr. Bowell credit for pursuing a "straightforward course. He evidently "thinks the time has come for making the "Government feel its responsibility to Par "liament, as it has never yet felt it since "Confederation was a *fait accompli*." This is precisely the position held by the member for North Hastings. The country first, the men who administer its affairs afterwards. It would be well if there were a stronger party in the House who, while objecting to oppose every measure brought forward by the Government, would not hesitate to oppose, condemn and defeat if possible, any measure opposed to the true interests of the country, commercially or otherwise. Such a power we hope to see in our Legislature.

Police Court.

(Before A. DIAMOND, Esq., Police Magistrate.)

MONDAY, Feb. 21.

MALICIOUS INJURY TO PROPERTY.

D. L. Carscallen charged Robt. McDonald with inflicting malicious injury on his property by driving against his cutter while standing on the proper side of the road, thereby breaking the dash board, for which damages were claimed. From evidence taken, it appeared that defendant had driven on the wrong side of the road, and the horses shying had caused the whiffle-trees to strike Mr. Carscallen's cutter, thereby inflicting the injury complained of, but it was proved that the offence was not intentional. The Magistrate said this was no case for damages, the offence not having been intentionally committed, but came under the Highway Act, defendant not having kept his proper side of the road. He should, therefore be compelled to inflict the fine of $1 and costs, or in default 10 days.

ASSAULT.

James McDonald was brought up at the instance of the same complainant, on a charge of assaulting him at the time his cutter was damaged. The offence was proved, and defendant was fined $5 and costs, or 20 days in gaol.

THE NOR'-WEST.

A NEW PHASE OF THE TROUBLE—ARREST OF GOVERNOR M'TAVISH AND DR. COWAN—THE CAUSE OF THEIR ARREST UNKNOWN—STORMY TIMES IN THE CONVENTION—RIELL THREATENS A NEW BILL OF RIGHTS—DISTRESS AMONG THE PEOPLE—THE HUDSON'S BAY STORE AT BONIFACE BROKEN INTO.

From the Toronto Telegraph's Correspondent.

RED RIVER, Feb. 8.
via ST. CLOUD, MINN., Feb. 19.

Governor McTavish and Dr. Cowan, the officers of the Hudson's Bay Company in charge of Fort Garry, were taken prisoners on Saturday evening last. The reason for their arrest has not transpired. It is supposed that some new complications have arisen.

Governor McTavish, because of his illness, was not placed in the prison, but is permitted to occupy a room in his own house, where he is closely guarded by four insurgents, who are instructed not to allow him to converse or communicate with anyone.

Dr. Cowan and Wm. Hallett are confined in the room lately evacuated by Dr. Schultz. This is in the same house in which the Canadian prisoners are confined. It is guarded night and day, extra precautions having been taken since the escape of Dr. Schultz. There is not much chance of escape now.

At the Convention, on Saturday, a number of items in the Bill of Rights were disposed of, after considerable discussion.

Riell made a demand for the annulment of the terms of the Treaty between Canada and the Hudson's Bay Company. This demand was defeated by a vote of the delegates, some of whom showed that as it was an Imperial measure Canada had no power to amend it.

Riell then threatened to bring in a new Bill of Rights, of his own manufacture, declaring that he was not to be ruled by the Convention or anyone else. This brought on a warm discussion, in which both sides took part. One of the French members replied rather roughly to Riell.

Yesterday the Convention reassembled and the first three hours were spent by the English delegates in discussing a motion of Riell's. All parties dread to count the House, for in case Riell is defeated on the vote, it is feared that he will call in his armed force and have his opponents arrested.

After a hot debate, without deciding the question, Commissioners Smith, Thibault and De Salaberry were sent for. They attended the Convention, but the result is unknown. The Convention is still in session as I write.

The general impression is that the delegates will be sent to Ottawa, for the purpose of arranging a basis of settlement with the Canadian Government.

The arrest of Governor McTavish and Dr. Cowan has occasioned much excitement, but no trouble is apprehended.

Postmaster Bannatyne was also taken into custody on Sunday evening, and is now confined with the other prisoners.—The cause of his arrest is unknown.

Last night the Company's store at St. Boniface was broken into by a gang of half-breeds belonging to a party opposed to Riell. They have been arrested. The excuse they give is that they were in want of food, and had to steal or starve. They promise to pay for what they have taken when they are able.

There is a good deal of suffering among the people in consequence of the troubles. Many of them having neglected the hunt and chase, and having no work to do, are in distress. You need not be surprised if you hear of more robberies.

SUN STORM.—The result of observations being taken show that storms rage upon the sun with a violence of which we can form no conception. Hurricanes sweep over its surface with terrific violence. Vast cyclones wrap its fires into whirlpools, at the bottom of which our earth could lie like a boulder in a volcano. Huge flames dart out to enormous distances, and fly over the sun with a speed greater than that of the earth itself through space. At one time, a cone of fire shot out 80,000 miles and then died away all in ten minutes, time. Beside such awful convulsions, the mimic display of terrestrial volcano or earthquake sinks into insignificance.

American Despatches.

THREATENING THE CHINESE.

SAN FRANISCO, Feby. 19.—There are vague rumors of an organization in this city for the purpose of exterminating the Chinese residents on or before St. Patrick's day. There are said to be several associations, one of which alone numbers 2,000 members. Brutal assaults on Mongolians are of daily occurrence. Carefully compiled statistics presented to the Legislature recently, place the number of Chinese on the Pacific Coast at 89,500.

STEAMSHIP ARRIVALS.

NEW YORK, Feby. 20.—The steamer 'Idaho,' from Liverpool, arrived to-night.

BOSTON, Feby. 20.—Arrived, the steamship 'Aleppo,' from Liverpool.

YANKEE SYMPATHY WITH THE RED RIVER REBELS.

WASHINGTON, Feby. 19.—Senator Pomeroy, from the Committee on Public Lands, has reported in favor of a land grant to the St. Paul and Pacific Railroad Company, to extend their line from its terminus in Red River, north to the Winnipeg frontier. Senator Ramsay, of Minnesota, has assurances that American capital will construct this road to Pembina so soon as the Northern Pacific Railroad can be built from Duluth to the Red River, which will be in the course of a year. This measure will be supported on political grounds as the most tangible expression by this Government of sympathy with the struggle of the Winnipeg people for Republican institutions, and as a checkmate to the Canadian scheme of a Pacific Railroad.

HAYTI.

ANNEXATION TO THE UNITED STATES.

NEW YORK, Feb. 19.—The steamer "Tybee," from St. Domingo, brings news that President Baez has completed arrangements for a popular vote on the question of annexation to the United States. The feeling in its favor is growing and a large majority for it expected.

The Revolutionary movement is virtually ended.

SOUTH AMERICA.

RETURN OF AMERICAN EMIGRANTS.

The steamer "Rakia" brings advices from Rio Janeiro to January 18th, and a number of American immigrants, whose return passage is paid by the Brazilian Government.

BRAZIL AS A BORROWER.

It is reported a Brazilian loan failed in England.

THE WAR IN PARAGUAY—FEARFUL ATROCITIES.

A Brazilian scouting party found 1,000 women in a starving condition, of whom only 400 had strength to come away, and reports the road covered with other women who were lanced or their throats cut by the scouts of Lopez. Deserters say Lopez is constructing canoes to cross the Paraguay or descend the Parana, also that he is habitually drunk and also that he has a fortification 350 yards long, defended by 700 men and four guns, at Parradero, on the Aguara River.

Tea Meeting in Stirling.

To the Editor of the Daily Intelligencer.

SIR.—A Tea Meeting in the Methodist Episcopal Church, Stirling, came off on the evening of the 10th instant. The evening was very fine, and the commodious Church was well filled at an early hour. An ample tea was served, much to the satisfaction of those present.

Dougal McDougal, Esq., being called to the chair, the intellectual, with wit and good humor, was fairly introduced. We had a variety of good things from Revd. Messrs. Andrews, Norris, J. Simson, E. Woodcock, J. Curts, H. Williams, A. Campbell, and Lawyer Lighburn; but the charm of the evening was the music furnished by Mr. Hocksworth and family, late from England, residing now at Blairton. This little band, only five in number, accompanied their superior singing with two instruments; they seemed to gain in the esteem of the delighted audience to the last, when it was intimated that it would be well to give some tangible evidence of appreciation, a collection of over $16 was taken up, and presented by the chairman to Mr. Hocksworth, saying should they visit Stirling again, they might be sure of a warm reception and a full house.

The meeting closed at a late hour. Though the company had left over $130 behind them, we think they will often go and do likewise if they have the opportunity. X.

Stirling, Feb. 19, 1870.

To the Editor of the Daily Intelligencer.

Tea Meeting St. John's Church.

SIR,—On Wednesday evening, the 16th inst, the ladies' of St. John's Church, Stirling, held their annual Tea Meeting for the purpose of raising funds to pay off the debt on the Church, and on Friday evening they used up *the fragments* at a Social. The nett proceeds amounted over $100.

St. John's Church, Stirling, is one of the finest country Churches in Ontario, and worth about $7,000; there is a debt on it of over $1,200. It was suggested by one of the speakers at the Tea Meeting (Dr. Wilson), that a subscription list should be started then and there, and an effort made to wipe off the whole debt at once. The list was opened and upwards of $400 subscribed. The Building Committee feel confident that before the expiration of a year the Church will be out of debt. B.

Stirling, Feb. 19th, 1870.

(LATE)

GEORGE VAIR'S STORE

Now Opened.

BUSINESS TO BE CONTINUED.

THE LATEST.

ENGLAND.

WEIGHTS AND MEASURES.

LONDON, Feb. 20.—A deputation waited on the Board of Trade on Saturday, and urged the adoption of the metric system of weights and measures.

THE GREAT NUNNERY CASE SETTLED.

The nunnery case of Saurin vs. Starr has been settled. The ex-nun has received back her dowry, and each party pays their own costs.

THE IRISH LAND BILL.

The 'Observer' is confident of the passage of the Irish Land Reform Bill.

FRANCE.

THE CHARGE AGAINST PRINCE PIERRE BONAPARTE.

PARIS, Feb. 19.—The decision of the High Court is more serious than was reported. By order of the court, dated 18th February, 1870, Pierre Napoleon Bonaparte is to be judged first for having committed voluntary homicide on the person of Victor Noir, and it is alleged that this was preceded or followed by the attempt on the person of Ulric Fonvielle; second for having attempted the homicide of Fonvielle. This order places the Prince under article 304 of the penal code, the punishment being death. In case of extenuating circumstances the court can lessen the sentence by two degrees.

THE RIOTERS,

The magistrates are engaged every day examining the prisoners arrested during the late troubles.

CONVOCATION OF THE HIGH COURT.

An Imperial decree in the Official *Journal* convokes the High Court of Justice to meet at Tours on the 21st March. It provides that a drawing shall take place among the GrandJury, within the next ten days to decide which members are to form the Court. It is said the Grand Jury will be composed of members of the Councils General.

PROBABLE RESULT OF THE TRIAL.

The "Grand Des Tribunaux," an official organ, says on examination of Prince Pierre Bonaparte, it will be proved that he was provoked, and used his legitimate right of self-defence, as the accusation is so grave it is generally believed the Prince will be acquitted.

ROCHEFORT AND "LA MARSEILLAISE."

'La Marseillaise' announces that owing to prosecutions threatened, the name of Rochefort will not appear in that journal hereafter. The name of M. Dangerville is printed as chief editor, but it is understood to be a cover for Rochefort, who will continue to direct the paper. An additional fine of 3,000f. has been imposed upon 'La Marseillaise."

MOVEMENTS OF THE EMPRESS.

Itis announced that the Empress Eugenie will visit Norway and Sweden in the spring.

ITALY.

THE ROMAN CARNIVAL.

ROME, Feb. 20.—The Carnival opened with customary ceremonies. The number of strangers who take part in the festivities is small and the scenes in the streets are not so lively as usual. Placards against Papal Infallibility were found on the walls last week and torn down by the police.

ARRIVALS.

PLYMOUTH, Feb.20.—The steamship 'Cambria,' from New York, arrived yesterday.

QUEENSTOWN, Feb. 20.—The steamship 'Nemesis,' from New York, arrived yesterday.

QUEENSTOWN, Feb. 21.—The steamships 'Virginia' and 'Etna,' from New York, have arrived.

The steamer 'Nebraska,' from New York, arrived to-day.

GLASGOW, Feb. 21.—The steamship 'Cambria' has arrived from New York.

PHIPPEN & GRAHAM,

HAVING secured the services of a thorough practical Soap Boiler, now offer to the public as good a quality of Soap as any in the market, which they will sell reasonable.

Merchants and Grocers wanting Soap would do well by inspecting their stocks before purchasing elsewhere.

Belleville, Feby 12, 1869, d312,w1:tf

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO, LINDSAY, ONT. 221-4w

---

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,

Fast Life in New York.

A young Boston lady, by an eligible marriage with a princely merchant, became the mistress of an extensive mansion in Madison square. While in France she captivated the Emperor by her superb dancing and graceful skating. His majesty sent her a costly present. At Saratoga and Newport she drove her own dashing team with her footman behind, and became the most conspicuous of the visitors at those gay places. She resolved to give a fancy ball, and all the elite were in a fever of excitement, Brown, of Grace Church, had charge of the invitations, and five hundred were given out. All the guests were in costume. Three-fourths of the guests wore masks. The dresses were rich, elegant and costly. Suits were ordered from Paris and London. The hostess appeared as the goddess of music. The dress was short, and her boots scarlet and trimmed with small bells. On her head was a lyre, from which issued jets of burning gas.—Stock brokers, men in high life, and fast New Yorkers, appeared in various characters, among which the representatives of a monkey and of Satan attracted the most attention.

The mansion was superbly fitted up.—Thousands of dollars were spent in floral decorations. Plate of gold and silver, china from beyond the seas, adorned the table. Servants in brilliant gold and silver livery waited on the guests. Hidden hands sent music through the mansion. The supper lasted till five in the morning. The last strains of music for the dances closed at six. The counting rooms were thrown open; the hammer of the artisan was heard, cabmen and laborers were at work, before the festivities ended and the door closed on the last departing guest. Such is high life in New York.

Flattering to Printers.

A Yankee rustic thus gives vent to his feelings on seeing a printer: They may talk about a tailor being only the one-ninth of a man, but I will describe one of these 'ere type chaps. I wept at the sight. He was as thin as a whippin' post, and his skin looked like a blown bladder after some of the air had leaked out, kinder wrinkled and rumpled like, and as dim as a lamp that's living on a short allowance of ile; he put me in mind of a kitchen tongs, all legs, shaft and head, and no belly; a real needle-gutted lookin critter; as hollow as a bamboo walking cane, and twice as yaller. He looked actually as if he had been dragged through a gimlet hole. Thinks I, as I turned away in disgust, the Lord a massey on you, you essence of starvation and misery.

* * *

Chinchona.—The range of growth of this plant is being rapidly extended. During the Indian mutiny the enormous price for quinine proved the importance of cultivating the chinchona plant in that country, and efforts have since been attended with remarkable success. A new variety, yielding a larger percentage of quinine than any species yet analysed, has been discovered, by Mr. Broughton, the quinologist to the Madras Government; and it is said to have been raised from seeds collected in the Loxa district of the Andes. About four thousand chinchona trees have lately been planted in the island of St. Helena; and as the climate is specially favorable, and the inhabitants skilful in the management of the trees, there is no reason why this place of call for many of our vessels should not in this way supplement usefully her somewhat scanty revenues.

* * *

The Editor of the New York *Tribune* is bothered beyond further silence and endurance by 'Shoo Fly.' It buzzes about his ears in 'Shoo Fly' shirt collars, it pinched his corns in 'Shoo Fly' boots, it envelopes his brain in 'Shoo Fly' hats, and it offends his eyes in miscellaneous collections of 'Shoo Fly' knicknacks in the windows of fancy stores. The more people sing 'Don't bodder me' the more it does bother him. In Gotham it would seem that the silly lyric, as a public abomination, has usurped the place of swill milk and Democratic Aldermen. Instead of running into tongue, as Carlyle said it was doing, the 'Great Republic' on the unlimited side of the Atlantic Ocean, seems to be in danger of running into 'Shoo Fly.'

* * *

A Liverpool journal of the 27th of Jan., says:—The Fenians are determined to put O'Donovan Rossa forward again for Tipperary as soon as the late election shall have been declared invalid by the House of Commons; and the head of one of the wings of the brotherhood in the United States has made an urgent appeal to Irish nationalists of all classes for money to carry on the contest. He thinks it ought to be feasible to raise a sum of £10,000 in a few weeks to defray the expenses of the contest, and to combat the extraordinary influences which he assumes will be set in motion by the British Government against the Fenian candidate.

Catarrh, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

Consumptives, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

Cure for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

Frosted Feet, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

Fortieth Year.

GODEY'S LADY'S BOOK
For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50

Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, payable *to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address **L. A. GODEY,**
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on American Invoices until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

NORTHROP & LYMAN
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this mervelous remedy, known as RADWAY'S READY RELIEF, was completed it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS.

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED Attacks if exposed.

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will in placing this remedy within the reach of His people of all nations of the earth who had sufficient faith to wait for their bread cast on the waters to return after many days, who were content to spread out before the world the richness, purity and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere, shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, the Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever.

In the world. There is no Ague Cure [illegible] or preparation of Quinine, Arsenic, [illegible] forms of Mercury, or in fact any remedy [illegible] will cure this disease so positively [illegible] as

Radway's Ready Relief.

No, not one. Thousands [illegible] Quinine, Arsenic, Mercury, [illegible] Cures and [illegible] Place, [illegible] gorged liver [illegible] spleen [illegible] colored skin, and hundreds of other symptoms [illegible] distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague [illegible], Cholagogues, &c., costing $1 to $5, and [illegible] Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief, diluted in one gallon of proof spirits, will give you equal in quantity and superior in quality to

141 bottles of the 25 cent Pain [illegible], Pain Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of Radway's Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy and for Family Purposes will secure every household freedom [illegible] ness, and can be used for the same purposes that would cost at least [illegible] twenty-five dollars [illegible] to purchase prescriptions, or drugs every time [illegible] sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,
Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the Edinburgh. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum.
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The Postage on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one* of the *Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two* of the *Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by Henry Stephens, F.R.S., Edinburgh, and the late J. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo, 1600 pages, and numerous Engravings. Price $7. By Mail post-paid $8.

Daily Health---Regulating the Bowels.

Two things are necessary to health and long life, under all conceivable circumstances—the proper regulation of the diet, and the proper regulation of the bowels.—As to the former, there is no danger that the want of the appetite will be neglected. All eat fully enough for the needs of the body. We therefore turn our attention to the proper regulation of the bowels, as having a greater bearing on human health and disease than almost all other things together, in that it requires a daily attention, and attention as imperative in disease as it is in health, for in all human maladies it is the first care of the physicians.—When the bowels do not act with sufficient freedom, when less is passed from the body than is received into it,it is termed costiveness, but when there are no discharges for days together, that is called constipation. It will be really seen that one runs into the other, and the distinction is not important; for the great idea is, that whenever twenty-four hours have passed, during which the bowels have not acted, disease has begun; there is a cause for it, and the truly wise will take measures for the removal of that cause, and remedying the effect.

The young, if not alone, are as regular as a clock, almost, in their daily evacuations, but comparatively few, especially in cities, and in large towns, reach the age of twenty years, without having the regularity interfered with; and what we want is to point out to the attention of the young the manner in which constipation first begins to gain a footing in the system, preparatory to a permanent hold, to the undermining of the health, and of making a blast and a blight of human hopes and happiness. The lower portion of the bowels is called the *Rectum*, 'right,' or 'upright,' from its erect position in the body; it is some half a dozen inches long; it is one, two, several inches in circumference, according to age, sex, and habits of life.—The point at which it opens out of the body is called the *Anus*, which opens and closes as occasion may require—very much like a miller's bag, which operation it performs first by an instinct which produces a 'desire,' which is telegraphed to the brain through the nervous 'wires' of the body; at this point, the will comes to the aid, the function is performed; the very pleasure of performance, by the ease which it gives, is not the least among the countless beneficences of our Creator, in that he has arranged a certain degree of gratification to attend these operations of nature which are accounted the most ignoble. But suppose the intimation is disregarded, then it is made more decisive every moment, until actual pain gives a note of warning not likely to be neglected. If, however, these indications are not attended to, the delicate sensibilities of the parts are blunted, their keen edge dulled, and mischief follows apace.

The young are modest and impatient. They are often led to disregard a call of nature, to resist an inclination to stool; something makes it inconvenient at the time, a friend is present who expects to depart in a few moments, but the departure is protracted; a lesson is to be studied, a chapter to be completed; a few pages will end a book, an unexpected sight is presented, a strange occurrence takes place, it is raining, a newspaper article has to be finished, or, being from home, no convenient place is at hand; in these and many other circumstances, the feeling is, that 'in a minute or two' the obstacle, real or imaginary, will be removed, and nature will be attended to; so, by an effort, the inclination is repressed, the mind lays hold on something else, its attention is compelled away, and desire is for the present gone.—But nature has been violated, and, as in other cases, when what ought to be accomplished in one way cannot be done, she directs her attention to the next most practicable plan for bringing about her purposes as follows: The 'Rectum' is a distensible purse, or pouch, or bag. A meal bag may be filled with bran, but by careful packing may be made to hold a great deal more, because it is of a flexible material. The rectal bag is so contrived, that when it is 'full enough,' it calls for being discharged as a ship does, when it has safely reached its destined haven. Its sensibilities are so nicely adjusted, that the very moment enough material has been passed into it, from the upper portion of the body to cause a certain amount of distention it contracts upon itself, just as a partly filled bladder is discharged, if compressed by the fingers of the hand. But the rectum is made distensible, as there are cases where its immediate discharge would be impracticable or the health of the system requires a delay. In cholera, for example, if the discharges are prevented, or retarded under proper conditions, the patient is saved. If there be a valid reason under any circumstances which measurably justifies temporary resistance to a call of nature the rectal bag is capable of adapting itself to the occasion, and can receive a large surplus beyond what it was intended to hold ordinarily. But a person postponing a call should, the instant the circumstances have passed which seemed to require the postponement, repair to the privy, wait, and solicit the return of the call—not wait for it to return itself, for that call may not be repeated for hours or even days. Nature does not suffer violence with impunity. There is almost as great a tendency to mathematical regularity in the workshop of the body, as there is in the revolution of the stars. Therefore if a call of nature is resisted for an hour to-day, it will most likely be an hour later than usual to-morrow; but then it does not come so strong, it is less and less full day after day, until the machinery is interrupted, proportions are changed, and that is disease. It is a hazardous act to resist the call of nature for any cause, for a single moment, and the hazard should be removed as just indicated by immediate attention to the method named—invite the return.—*Hall's Journal of Health.*

Correspondence.

For the Intelligencer.

Presentation and Address.

On the morning of the 8th of February, 1870, Mr. Isaac Snider's class at Rednerville, Prince Edward Co., over whom he has watched spiritually for the last four or five years, and it being thoroughly understood that he (Mr. Snider) was to remove to Trenton—assembled at his house to the number of twenty-one, as a surprise party. As soon as the party were seated, Mr. John H. Morden, associated with Mr. Peter Brickman, in the name of the class presented him with a beautiful Bible and the following address:—

ADDRESS.

Dear Friend and Brother,

Allow me in the name of your class, to whom you have endeared yourself by so many unselfish acts of love for their spiritual good, for whose welfare spiritually you have spared no pains, though oft-times it has cost you a sacrifice in matters of comfort and home, and who admire in you the Christian virtue of being always at your post, though the season be inclement—allow me, then, in the name of your class here assembled, who thoroughly appreciate your efforts, to present you with this copy of the Word of God.

May we all take a lesson from this night's exercises—may we read God's holy word; it will enrich our minds, its philosophic truths will make us wise, its loving counsels will tend to make our lives pure. Let us read it for the purpose of saving souls; let us study the Author's loving character, and become wise unto salvation.

We are sorry indeed to part with so worthy a member of society; a Christian so laborious in the discharge of duty, and we are convinced that wherever your lot is cast God has a work for you to do.

In conclusion, Dear Brother, allow us to say to you and your amiable companion, that wherever your station in life may be, you have our sympathies and prayers for your prosperity and happiness.

REPLY.

Dear Brothers and Sisters,

In reply to the address you have just given me, allow me to say that no words can express fully my feelings for the class I have taken sweet counsel with, and for whose spiritual welfare I have labored in my weak way for the past four or five years.

As regards the counsel given with reference to the reading of God's word, a copy of which you have presented to me this evening, my prayer is that it may be the man of my counsel.

Regarding our separation, you cannot possibly feel it as strongly as I who am about to leave the true friends of so many years. You will continue to enjoy the society of each other, but I shall be separated from your society, and my lot among strangers cast.

The last thought in the address strikes a tender chord. Much, and indeed I cannot tell how much, as I prize the gift both for its own sake and those who gave it, yet infinitely above this I prize the prayers and sympathies of those whom I love so dearly; in whose Christian and moral character I have the utmost confidence. These are to me priceless jewels. May our Christian intercourse never cease at the throne of grace.

* * *

—Certain waters in the County of Ottawa are set apart by an order in Council for the preservation and propogation of fish.

—A substance has been found in Pancake Mountain, Nevada, which is said to resist intense heat better than anything heretofore discovered, and it is to be used in lining smelting furnaces in the silver mines.

—Ben. Franklin once wrote

"He who by the plow would thrive,
Himself must either hold or drive."

The lines were very popular in their day, and even now they are occasionally quoted by old fogies. But some person has eclipsed them by bringing out the following:

"He who by his biz would rise,
Must either bust or advertise."

* * *

A New Whitewash for Walls.—Soak one-fourth of a pound of glue over night in tepid water. The next day put the vessel in a kettle of water over the fire, keep it there till it boils, and then stir till the glue is dissolved. Next put from six to eight pounds of Paris white into another vessel, add hot water and stir until it has the appearance of milk of lime. Add the sizing, stir well, and apply in the ordinary way while still warm. Paris white is sulphate of baryta, and may be found at any drug or paint store.

BELLEVILLE, TUESDAY, FEB. 22.

BIBLE SOCIETY.—Remember the meeting of the Belleville Branch Bible Society to-night, at 7½ o'clock, in Ontario Hall.

DRAMATIC—The Belleville Amateurs announce their second appearance this season for Monday evening, 28th inst., when they will produce Shiel's tragedy of "The Apostate" and repeat the farce "That Rascal Pat."

METEOROLOGICAL.—In another column will be found an interesting meteorological statement, kindly furnished by Alex. Burdon, Esq. The same gentleman also informs us the lowest point the thermometer has reached during the present cold spell, was 9° below zero on Sunday night.

EDINBURGH REVIEW.—The January number contains the following articles:—Mr. Froude's History of Queen Elizabeth; Geological Theory in Britain; Memoirs of General von Brandt; Sir Charles Adderly on Colonial Policy; John Calvin in Church and State; London Topography and Street Nomenclature; Veitch's Memoir of Sir Wm. Hamilton; The Prechristian Cross; The Irish Land Question. Published by the Leonard Scott Publishing Company, New York, at $3 a year.

THE STORM AND THE MAILS.—A heavy snow storm prevailed east of Prescott yesterday, and a violent wind accompanying it the snow drifted considerably, and completely blocked up the Railway. No train left Montreal since Saturday for the west, until noon to-day. She was reported making about twelve miles an hour, and may be expected here some time during the night. On account of the detention of this train we have not had any mails from Ottawa or the east since Saturday. Yesterday's noon express reached Montreal this morning and reported the track clear.

GODEY'S LADY'S BOOK.—The March number of Godey has already made its appearance. The usual array of beautiful engravings appears in this number. In fact, Godey never retrogrades. The steel plate, fashion-plate, and colored page of fancy work are superb specimens of the art of engraving and coloring. There is also a rich selections of extra fashion cuts, particularly for children's dresses, and any amount of fancy work for the ladies. A pretty wood engraving representing a March day is also given. Lessons in drawing, and a handsome design for a cottage assist to make this an indispensable number. Published by L. A. Godey, Philadelphia, at $3 a year.

POST OFFICE SAVING'S BANK.—The following is a statement of the Post Office Saving's Bank account for the month of January, 1870:—In the hands of the Receiver General as per last statement 31st December, 1867—$1,154,007 02. Received from deposits during January—$124,081. Interest allowed on accounts closed during January—$411 85. Balance—$124,492 85. Withdrawn by cheques paid during January—$52,439 77. Balance—$72,053 08. In the hands of the Receiver General on the 31st January, 1870—$1,226,060 10. Bearing interest at 4 per cent.—$705,964 96. Bearing interest at 5 per cent.—$511,800. Bearing no interest—being the amount in the hands of the Receiver-General to meet out-standing cheques—$8,295 14. Total—$1,226,060 10.

THE RED RIVER TROUBLE.—The Ottawa *Citizen* attributes the origin of the Red River insurrection to the imprudent utterances of the Clear Grit press. It says: "We have had the most positive assurance from parties who have been at Winnepeg during the late difficulties, that the misrepresentations of a part of the Canadian press, and especially of the *Globe*, have contributed largely, we might almost say chiefly, to the trouble which has occurred there. Mr. McDougall has to thank George Brown chiefly for being stopped a mile or two beyond Pembina; for which he is doubtless grateful. As Mr. Brown is not in the House, he will probably laugh in his sleeve at the mischief he has caused. It has partly answered his purpose. It hampered or rather hindered the Government in the carrying out of its plans, and almost drove Mr. McDougall into opposition. If it had quite done so, the *Globe* would have laughed more; but it will find, unless we mistake, that there is such a thing as laughing on the wrong side of the mouth."

Police Court.

(Before A. DIAMOND, Esq., Police Magistrate.)

TUESDAY, Feb. 22.

DRUNK AND DISORDERLY.

William Collins, representing himself as an old pensioner, from Toronto, had been amusing himself last night by breaking windows, and was sent up for 20 days, in default of a sufficient amount of circulating medium to settle the fine of $2 and costs imposed.

—The Steamship 'Peruvian' arrived at Portland, on the 20th inst.

The Situation.

The position taken by Messrs. Cartwright, Bowell and others, has created considerable surprise in Ministerial ranks, and while some of the organs attempt to make light of the defections, they cannot conceal their chagrin and mortification at the display of independence manifested by these gentlemen. If the organs would reflect but for a moment, they would have no reason to express astonishment. When the question of appointing Sir Francis Hincks was first mentioned last summer, the press from one end of the Dominion to the other, Conservative as well as Reform, condemned the proposed appointment in the strongest terms. The INTELLIGENCER was about the first amongst the Conservative journals that warned Sir John A. Macdonald against taking Sir Francis Hincks into the Cabinet. It told him plainly and distinctly that no more unpopular appointment could be made, that if it was made in defiance of the popular will, in defiance of the earnest remonstrances of his supporters, that his Ministry would be liable to crumble to pieces. And well we remember how the position of the INTELLIGENCER was sustained by the Montreal *Gazette*, the Hamilton *Spectator*, the Kingston *News* and other Conservative papers. Indeed, with the exception of that toadiest of all toadies, the Toronto *Leader*, the voice of the Conservative press of Ontario, was a unit against the selection of Sir Francis Hincks as Finance Minister. To pick up a man who was a comparative stranger in Canada, who had been "dropped" from the list of Imperial office-holders for some very good reason, and was hungrily waiting for something to turn up, who had been the bane of every political party with which he was connected, who as the Premier well and truly said, was "steeped to the lips in corruption"—to pick up such a man and place him in such a responsible position at this particular crisis in our country's history, was an insult to the leading men of all parties and to the country, and Sir John had ample and timely warning that if he persisted in making the appointment, he could not expect to retain the confidence of his supporters.

It is not so much therefore, a matter of surprise that such high-minded members as Messrs. Cartwright and Bowell should find fault with the conduct of the Premier, and give him to understand that if he treated with contempt their remonstrances, and so utterly put at defiance the popular will, they could not give him that cordial support they had hitherto done. These gentlemen have decided opinions and fixed principles, which they are bound to respect; they have also responsibilities, the importance of which they understand; and their self-respect and manhood revolt at the idea of being continually asked to violate these principles and shirk these responsibilities to gratify the whim and caprice of any man.

We are glad they took the earliest opportunity afforded them on the floor of the House, of giving expression to their opinion respecting this most unwise and unpopular appointment, and it is gratifying to know that they are sustained by nine-tenths of the community. If Sir John's Cabinet goes to the wall he will only have himself to blame, for he had timely warning that such would be the probable result if he persisted in setting at defiance the wishes and opinions of his supporters.

Parliament Yesterday.

Yesterday's session was also taken up in debating the address, and the remaning paragraphs down to the 10th were passed, when on motion of Mr. Cartwright the House adjourned at 12 o'clock. Mr. Cartwright was to have the floor at the opening this afternoon.

Mr. Howe resumed the debate yesterday, explaining his conduct in the North-West.

Mr. McDougall replied, contending that Mr. Howe had done harm to the cause of the Union, during his visit to Winnepeg instead of smoothing the way for the Canadian representative.

Mr. Howe, in response, said he would be quite prepared to show how unjust these attacks on him were. That if any person raised prejudice against Canada, it was the hon. gentleman, who was in the Settlement professing to speak for the Dominion.

Mr. Blake argued that the conduct of Mr. Howe was only to be explained by his still entertaining the opinions about the worthlessness of the Territory, and folly of annexing it, which he announced just before taking into office.

Mr. White called for the reading of the letters offering office to Mr. Galt and his reply.

Sir John A. Macdonald and Mr. Galt consenting, they were read.

Sir George E. Cartier made a stipulation that the Government should be a unit against independence.

Sir A. T. Galt replied that he thought that policy was to be approved by the Imperial Government, and that the policy of Canada should be adapted to it, as the inevitable future of the country.

Mr. White continued that there was no one in his part of the country who favored independence. They regarded it as leading to something broader, which they would like still less.

Sir Francis Hincks defended his circular against the attack of Mr. Mackenzie, justifying his remarks about annexation by declaring that independence meant the same thing, citing Mr. Young of Montreal, in proof; and independence was supported by so distinguished a politician as Sir A. T. Galt. He again deprecated a narrow dispute about the number of men belonging to old parties chosen to carry out the new policy. He was not surprised that the members for Lennox and Hastings should object to his coming in, but hoped when they knew him better they would trust him better. He referred to Sir A. Galt's past career as a politician, first as a Conservative, then an Annexationist, then a supporter of the policy of the Government, especially in granting aid to railways, then as an opponent of Ministers. He was willing to accept office with Sir A. T. Galt and allow him to take the Department of Finance.—Sir A. T. Galt replied to Sir Francis Hincks and to Mr. Tupper. He spoke respecting the financial policy of the former as demoralizing the country, entailing on his successors infinite labor and difficulties.—He spoke of the offer to him being made in terms calculated apparently to prevent his acceptance of the office, by raising the question of independence as a barrier.

Sir Geo. Cartier said it was not so intended; it was desired that he should pledge himself to resist any movement in favor of independence, while he should spare the influence of the Government.

Meteorological Statement

For the years, 1866, 1867, 1868, and 1869, by Mr. Alex. Burdon, Head Master, Belleville Grammar School:—

1866.	18
1867.	24
1868.	17
1869.	14

Total depth of rain and melted snow expressed in linear inches and decimals:

1866.	Rain 32.777,	Total depth of rain and melted snow,	38.437
1867.	" 22.889,	" "	30.909
1868.	" 22.664,	" "	35.134
1869.	" 28.916,	" "	39.666

Total depth of rain and melted snow for 1869 was as follows, expressed in linear inches and decimals:

Jan.,	1.768	May,	2.601	Sept.,	7.276
Feb.,	4.683	June,	2.625	Oct.,	2.559
March,	3.491	July,	2.525	Nov.,	4.967
April,	1.594	Aug.,	1.555	Dec.,	4.022

Total, 39.666, or 39⅔ in. nearly.

With reference to the above, the following explanations may be given. The dry bulb thermometer is examined 3 times a day—at 7 a. m., 1 p. m., and 9 p. m. The sum of those observations divided by 3 is the mean temperature of the day. The mean temperature for a month or year is obtained by dividing the sum of the mean daily temperatures by the number of days in the month or year. The average pressure of the atmosphere is ascertained in the same way. The maximum and minimum thermometers are examined each day at 9 o'clock p. m., and show the highest and lowest temperatures respectively that have occurred during the preceding 24 hours. An inch of snow is reckoned equal to one tenth of an inch of water. Weekly and monthly abstracts of the observations are sent regularly for examination to the Education Office, Toronto.

The thermometers are kept entirely in the shade. Latitude of Belleville, 44° 10' N.; Longitude, 77° 25' W. Height of Meteorological Station above the sea, 307 feet.

FOR JANUARY, 1870.

Highest Temperature, 46°.4 on 17th.

Lowest Temperature,—17°.5 below zero, on 14th.

Monthly Range, 63°.9.

Greatest range of temperature in 24 hours 43°.0 on 15th.

Least range of temperature in 24 hours, 5°.4 on 1st.

Warmest day, the 17th, the mean temperature being 38°.33.

Coldest day, the 14th, the mean temperature being —8°.43, or about 8¾ below zero.

Mean Daily Temperature for the month, 22½°.

Total depth of rain and melted snow, 6.314 in. or 6⅓ inches nearly.

A remarkable depression of the barometer, the greatest in many years, occurred here about the beginning of the year. The mercury, which at 9 o'clock p. m. on Saturday, 1st Jan., stood at 29.691, had fallen to 29.205 at 7 o'clock a. m. on Sunday, 2nd inst.; at 1 p. m., it stood at 28.858; at 4 p. m. at 28.602; at 6 p. m. at 28.465; at 8 p. m. at 28.391, and at 10 p. m. at 28.392; after which it began to rise. At 7 a. m. on Monday, the 3rd, it had risen to 28.877; at 1 p. m. to 28.965, and at 9 p. m. to 29.208. The barometrical range in 24 hours, say from 9 p. m. on the 1st to 9 p. m. on the 2nd, was 1.300.

Belleville Meteorological Station,
Feb. 1870.

—A telegram from Quebec, says the Ottawa Government telegraphed for Mr. Huot, on Saturday, to proceed to Ottawa in anticipation of a vote.

—The Montreal Daily News has furnished the most complete report of the opening debate in the Senate and Commons on the address. It was printed next morning.

—The Lieut.-Governor of Newfoundland has declined to accept the view of the House of Assembly, that the conviction of the people is settled against Confederation. In an address to the Legislature he reiterates his conviction that the public interests will be promoted by Annexation to the Dominion of Canada.

A Very Sad Story.

From the New York Sun, Feb. 1.

Joseph Wyble's three children left home at nearly 4 o'clock on the afternoon of New Year's Day. They went to a white walnut tree but little over half a mile from the house. They must have reached the tree at about half-past four. The weather was murky and damp. Probably the children spent an hour in gathering white walnuts and in peeling off the outer shells. By the time they had filled a bag and a tin pail with nuts, it must have been half past five. The twilight was very short, and darkness rushed upon them in a heavy rain storm.—Terrified at his situation, the oldest boy piloted his brothers in a straight line to the left of the homeward path. The night was so dark that one could not see his hand before his face, and the rain fell in torrents. The frightened children hurried over the rocks and through the underbrush, but every step took them further from home.

At half-past four the mother ran from the house into the woods, and called the children. She did not go to the hickory tree, because she did not know its situation. She hardly penetrated the forest because the younger children at home followed her, and alarmed her with their cries. At about seven o'clock the father entered the woods with a lantern. The deep and steady fall of rain drowned his shouts. It was certainly after seven when he reached the hickory tree on Camel Mount. The children had gone from the tree at least an hour and a half before, and were then, drenched to the skin, struggling through the forest three-quarters of a mile to the left.

The neighbors were not fairly on the search until after one o'clock, A. M. By that time the little fellows exhausted, wet, chilled, and hungry, had probably fallen asleep at the roots of some large tree, or under the shelter of a rock. Day dawned but the rain still fell in torents. The poor children awoke and struggled onward. Their sufferings may be imagined. But one of them wore shoes. The storm did not clear away until nearly three o'clock on Sunday afternoon. They had been twenty-four hours without food, and for twenty hours had suffered the pitiless beating of the rain. When night was setting in they had reached the roughest rocks of the mountain. From where they stood they could see the lights of sixteen dwellings. They shouted for help. The air being rairfied by the rain, their voices were borne to the ears of Mrs. Gough, only a mile distant. She tesrified that on that night she distinctly heard children crying on the mountain. They first cried "Hi-ee-ee!" A second time she heard their week voices shout "Papa, papa!" and yet a third time "Papa, papa, papa!" As her husband was deaf, she said nothing, giving as an excuse that she didn't know any children were missing.

The boys then prepared for their final struggle. Precipices eighty feet high were near them, and the side of the mountain was covered with huge boulders. With bleeding feet and shivering bodies they moved in the direction of the lights. The night became very cold. Hemmed in by the rocks, the children dropped in despair, not a hundred rods from the mountain road. Little Johnny fell asleep under cover of a rock. His heroic brothers stripped themselves of their soggy coats in a vain effort to keep him warm. Warren clasped the tin pail to his breast, and dropped asleep at his brother's feet while Anthony, the oldest brother, climbed the rock, and watched the lights as they faded one by one, until benumbed with cold, he rolled from the rock and died,

Such was the fate of the Wynockie children, dying within a hundred yards of the road, within a mile of a comfortable mansion, and within thirty miles of New York city. A month elapsed before their bodies were discovered. Their parents have literally spent their last penny in searching for their lost children. George Wyble, the brother of Joseph, on Wednesday night had hardly a mouthful of bread in his house. He had spent over a month in searching for his little nephews. Time in his case was truly money. The people of Paterson and Wynockie have raised less than a hundred dollars for these poor people. That will hardly suffice for the burial of their dead. "A Friend of the Afflicted" sends a dollar to the *Sun* office for their benefit, and wishes that he was able to make it a thousand. The dollar has been forwarded to Mr. Wyble. Shall this be the only response from the richest city in America?

One of the worst features in connection with this sad affair is the fact that the parents of the children, being wretchedly poor, were suspected of having made away with their offsprings to save the expense of clothing and feeding them; and suspicion found utterance in deeds and words, Thus had they not only to undergo the most dreadful sufferings about their little ones, but they were deprived in a great measure of public sympathy.

—Mr. Disraeli's health is improving.

—Houses are plenty in Montreal and 10 per cent lower than last year.

—Mr. Sydenham Howe is formally gazetted to the Halifax Auditorship.

—Brantford is to have water works, as soon as the necessary buildings are erected and the pipes laid through the town.

—The 'City of Boston' has not yet been heard from. Thirty Halifax gentlemen, principally merchants, sailed in her.

—The Stratford *Beacon* deprecates a certain kind of 'consistent snarling.' Some of its Opposition confreres might take a note of this.

(LATE)

GEORGE VAIR'S STORE

THE LATEST.

ENGLAND.

THE WEATHER.

LONDON, Feb. 21.—Weather continues extremely cold. The ice in the Thames obstructs navigation.

House of Lords.

CONSERVATIVE LEADERSHIP.

LONDON, Feb. 22, midnight.—Lord Derby has formerly declined the leadership of the House of Lords, which has been tendered him by the Conservative Peers.

House of Commons.

ARMY REDUCTIONS.

The British army estimates announce a reduction of 12,500 men.

ITALY.

NEWSPAPER CORRESPONDENTS ORDERED TO LEAVE ROME.

ROME, Feb. 22, midnight.—Several newspaper correspondents have been ordered to leave Rome, the correspondent of the 'Times' among the number.

COMMERCIAL.

LONDON, Feb. 22.—Consols at 92⅝ for money; 92⅞ for account; 5-20's of '62 89⅛; '65 old 88⅝; '67 87⅝; 10-40's 84⅛; Erie 22⅝; I. C. 111⅝; A. & G. W. 29⅝.

FRANKFORT, Feb. 22.—Bonds opened firm at 94 to 94⅛.

PARIS, Feby. 22.—Bourse opens firm; Rentes 73f 72c.

LIVERPOOL, Feb. 22.—Cotton firmer; Uplands 11⅛ to 11⅝; Orleans 11⅛; Peas nominal; Corn 26s 6d; red winter wheat 3s 5d. Receipts of wheat for the past three days, were 7,500 quarters, of which 1,000 were American.

American Despatches.

INTENSE COLD IN THE WEST.

CHICAGO, Feb. 21.—The thermometer at St. Paul this morning was 30 degrees below zero, in Chicago 8 degrees and at Jacksonville 10 degrees below zero.

SHOOTING AFFRAY IN ILLINOIS—THE MURDERER KILLED BY THE MOB.

Thursday last at Beardstown, Ill., a man named Wilcox entered the saloon of Yick and Becker during their absence, and assaulted a drunken man and beat him badly. In a few minutes Yick and Becker came in, when the ruffian shot Yick dead and dangerously wounded Becker. The murderer was arrested just after dusk. A large crowd gathered around the jail, and without employing force took the keys from the Sheriff, and put him under guard. The mob then entered the jail and seized a prisoner whom they supposed to be the murderer, and got a rope around his neck. They then discovered they had the wrong man. In the meantime the murderer who was in another cell and chained to the floor, possessed himself of an iron bar. As the leader of the mob proceeded to open the cell door, the prisoner warned them that he would sell his life dearly. The mob then shot the desperado through the head, killing him instantly, and afterward hanged the body to a tree.

INDIAN FIGHTING IN NEVADA.

SIDNEY, N. T., Feb. 22.—Thirty Indians attacked Moore's Section while the men were six miles east of Antelope Station yesterday, at 10 o'clock. At their section house the men drove them off and started to Potter Station on a hand car to report, where a running fight took place, the Indians getting the worst of it. The attacking party did not seem to be a regular war party, but were well armed and had their squaws along with them. They moved off south after being repulsed.

THE MISSING STEAMSHIP "CITY OF BOSTON."

NEW YORK, Feb. 21.—The agents of the Inman Line have heard nothing of the "City of Boston" now 29 days out. She was provisioned for 80 days. The agents thinks she has probably been forced to make a harbor in the Azores.

NO BUSINESS.

NEW YORK, Feb. 22.—The Banks and Public Buildings closed to-day. No business being transacted on the street. No market or stock to-day; prices of last night nominally unchanged.

ARRIVAL.

The steamer 'Erin,' from Liverpool, has arrived.

A GENTLE HINT.

PHIPPEN & GRAHAM,

HAVING secured the services of a thorough practical Soap Boiler, now offer to the public as good a quality of Soap as any in the market, which they will sell reasonable.

Merchants and Grocers wanting Soap would do well by inspecting their stocks before purchasing elsewhere.

Belleville, Feby 12, 1869. d312,w1;tf

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make this worthy requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Beading, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO. LINDSAY, ONT. 121-4w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element, Iron,* giving strength, *vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.,* it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chilblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.

51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds, BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors.
304d 51w 4w Montreal, P. Q.

Railway Romance.

AN INNOCENT EXCHANGE OF BOOTS.

A singular mistake lately happened in a sleeping car in France, which for a time threw two families into trouble. The millionaire Mr. Blane, has small feet, and wears brogans. On returning from Burgundy in the night train he occupied a compartment on one side of which slept a beautiful young lady and late bride, who also wore gaiter boots. In the morning Mr. Blane got on one of the lady's gaiters, and she got the one left by him. On returning to their respective homes the wife of Blane found that he had worn home a lady's gaiter, and the husband of the bride found that his wife had a gentleman's on one of her feet. Madame Blane cried, went into hysterics, and then went to the home of her father. On the other hand, the young husband fainted and came near dying. It took a week to explain and settle the accidental exchange of the gaiter's. Be careful in the sleeping cars.

Marrying in the Far West.

A far western marriage ceremony, thirty years before the Pacific Railroad had annihilated the 'Far West,' has been thus discribed to us:

Scene—a potato field. The magistrate in his shirt sleeves, busily plying the hoe. Enter two candidates for matrimony, who follow him closely along the row. The magistrate at first pays no attentaion to them.

'Be you the squire?' the youth asks.

'Yes.' And the hoe rises and falls faster than ever.

'We want to be married,' the youth desperately exclaims.

'Well, shet up, dern you, till I get to the end of this row. I'm counting the hills.'

Thus admonished the train follow him anxiously along, hand in hand, until the end of the row is reached.

'Twenty-seven, twenty-eight. Now, dern you, stand up here;' and the squire leans for a moment upon his hoe handle.

'Do you (to the youth) solemnly swear, by thunder, to take this woman for your wife?'

'Yes.'

'Do you (to the girl) solemnly swear, by thunder, to take this man for your husband?'

'Yes.'

'Then I swear, by thunder, you are man and wife!'

Getting Fashionable.

'I want gold put in this one, and this and this,' and she pointed out several of her front teeth.

'Why they are perfectly sound, and do not require plugging.'

'I know they are sound but I want to be in the fashion, and have them filled with gold.'

'But it is a pity to spoil them,' replied the dentist.

'Never mind, I want it done; its fashionable with American women.'

'They have their teeth filled because they have decayed, and not for the purpose of being fashionable.'

'Is that so?'

'Yes, and there is not one but would give five hundred dollars to have as beautiful teeth as you have got.'

'Then if that is the case, I guess I will not have mine interfered with.'

Had she not been disabused of the error that plugged teeth are worn as an article of fashion, and not as a neccessity, she would imperatively have demanded the destruction of her beautiful incisors, in order to be 'the thing' in society.

DR. J. BRIGGS' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks: —"The singular success which Mr. Epps attained by his homœpathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 94—6mT&S

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

CATARRH, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

CONSUMPTIVES, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

CURE for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

FROSTED FEET, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

THE DAILY INTELLIGENCER

BOOK AND JOB

Printing Office.

July 22, 1867.

Fortieth Year.

GODEY'S LADY'S BOOK

For 1870.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50

Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

NORTHROP & LYMAN
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc.

All orders by mail promptly attended to.

M. BOWELL,
Publisher.

INTELLIGENCER BUILDING,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use,

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this mervelous remedy, known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and improves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure. It cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk,

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED *Attacks if exposed.*

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will, in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to wait for their "bread cast on the waters to return after many days" who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere—shows that the instruments selected for this great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, the Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cure, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,

CHILLS AND FEVER,

SCARLET FEVER,

Bilious Fever

In the world. There is no Ague Cure Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or in fact any remedial agent that will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from over-doses with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, are shaken with an engorged liver, fat spleen, disordered kidneys, saffron colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of **Radway's Ready Relief**, diluted in one gallon of proof spirit, will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Pains, Killers, Embrocations, Panaceas, K[illegible] &c., all of these remedies being but poor imitations of **Radway's Ready Relief.**

One bottle of **Radway's Ready Relief**, for 25 cents, as a Pain Remedy, and for *Family* Purposes will secure every household *freedom* against sickness, and can be used for the same purposes, that would cost at least ($25) twenty-five dollars, had you to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum.
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"

For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two of the Reviews for 1869.*

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

The Daily Intelligencer.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, WEDNESDAY EVENING, FEBRUARY 23, 1870. No. 251.

To the Editor of the Daily Intelligencer.

The Bible Women and Domestic Mission.

More than a year has elapsed since the attention of the public in Belleville has been directed towards that department of Christian labor called "The Bible Woman Work," and now that the effort is no longer a prospective good, partaking of the nature of a hope deferred, but an accomplished fact, a work begun; it were well that the subject be fully understood, in order that the undertaking, still a little seed, deep under ground, may be abundantly watered by the prayers of God's people; that a healthful and earnest interest may be excited, an intelligent and liberal support accorded, and the patient and persevering effort persistingly carried out; that is necessary to make this root out of a dry ground, develop into that tree planted by the Lord, under whose shadow many shall sit and find rest unto their souls. Although superfluous to many, it may be interesting to some, to explain what the Bible woman work is, its object, and its province. It is no modern innovation, since in the time of the Apostles we find honorable mention made of Dorcas, who was wont to gather round her in her upper chamber poor widows, and there make coats and garments for them. And Lydia, another Mary, who had chosen the good part, was accustomed to steal out of the Heathen Philippi and wend her way at eventide towards the retirement of the quiet river side, to meet in prayer the women who resorted there. Now, as then, it is the work of those whose hearts the Lord has opened, to speak often one to another of the things that belong to their peace. The systematic agency in London under this name, commenced in 1856, with one worker, now multiplied to from four to five hundred. Its necessity arose out of an overcrowded population of the wretched and neglected, who never entered a church or opened a Bible; and this mission, which carried the simple Gospel in the simplest manner, has wonderfully met this state of religious destitution. From London as a centre, this Association has ramified to every corner of the world, so that wherever Missionary effort finds a field, the Bible woman has her upper chamber, or her river side assembly. It is often felt to "be a difficulty, and brought forward as an objection, that suitable and necessary as such a remedial agency is, in large and crowded cities in our country towns, with their healthful atmosphere, their ample space, their many churches and liberal school system, such a work is wholly uncalled for. It is true, and we thankfully acknowledge it, that the tenements in which our poorer work people live are not ten, twelve, or fourteen stories high, with four or five families occupying one room; our people have light in their dwellings and water at their door, and were this mission chiefly of a sanitary and releiving character the argument would be well founded; but how does the comparison stand where it is a moral destitution that cries for aid, when the field to be occupied is all who are out of Christ, those who care for none of these things, whose interest in their own souls and the souls of their children will not bring them to God's House, nor make them seek means of grace? To those who will not come to Him, Jesus offers to go—"behold" He says, "I stand at the door and knock." In none of our churches are the poor sufficiently represented. Where do they go? is often asked. Now and then the wearied eye passes over the gay dresses and fashionable atire, and rests with interest upon the poor, but decent clothing of some earnest listener, with a pleasing hope that to her belong the riches neither moth nor rust doth corrupt. The clergyman who works most among his people, who knows most intimately their wants, their difficulties and their sorrows, will welcome with the utmost cordiality as a fellow worker in his master's vineyard, the Bible woman. Her work is to visit in the poor localities from door to door, carrying with her the Word of God, to seek out the lost and erring, to cheer the desponding and broken hearted, to comfort the sick and sorrowful, to instruct the ignorant and in every hut and to every heart proclaim the glad tidings of a full and free salvation in Christ Jesus. A valuable agent from another mission field was employed during the summer to break up the ground, and the result of her month's work was most encouraging. She readily gained access to many homes and hearts where her instructions and counsels were greatly prized. And now "another worker has come among us," "Belleville's own Bible Women" fresh from the country of Bibles and Gospel light; a land dear to many of us from early association and specially dear to every Christian heart, because from thence has sounded out the words of truth for so many centuries to all ends of the earth.—Where God has been manifestly preparing her for work in His service, by the earnest desire long felt burning within for an open door, and a clear call to give time and labor wholly to the Lord, seeking those who are out of the way and compelling them to come in; that your need and her desire thus met on her arrival in this country, we cannot but feel has been of the appointment of one who seeth all things from the begining to the end, and we ask for her your earnest prayers, your Christian sympathy, and your kindly encouragement, all of which will be needed in the labor that is before her. But this is not all that is asked of those by whose patriot exertion and persevering effort the Bible woman and domestic mission of Belleville has been organized. The duty to do good as we have opportunity, to visit the faithless and the widows in their affliction, rests alike on all Christians, and it were to relinquish at once one of the highest privileges and most useful self-helps to accomplish this duty by proxy. The very opening out of the work the whitening of the harvest field, is but a signal to call more laborers into the harvest; unaided a Bible woman can do little, well supported by efficient and interested allies she can do much. It is equally clear this undertaking belongs to all, is the common property of all denominations. "The poor ye have always with you" is spoken not to one Church or to another, but is of universal application. What Church is there amongst us that has not some who ought to belong to it, families connected in many cases too traditionally with one or another denomination, who yet have a lingering to "a Mission link," with the Church of their fathers where they *once* went when, perhaps, they were married or had children baptized to reawaken old sympathies, to reunite old ties and bring within the Shepherd's fold these wandering sheep, is the result of successful Bible women work. From all Churches active co-operation is expected, and from all quarters a portion of that pecuniary aid which is dedicated to the Lord. To do good and to communicate, forget not, for with such sacrifices God is well pleased.

Mr. Bowell's Speech on the Address.

Mr. Bowell would not now discuss the questions to which the speech from the Throne referred, but would at this early stage of the debate, while personal explanations were being made, state that he was not in the position occupied by the member for Lennox, who hitherto has been a firm supporter of the Administration, and therefore had no reason to state that in future he would occupy a different position towards the Ministry. Since he held a seat in the House he had upon all occasions voted upon the measures, as he conceived them good and bad, and would continue to do so in the future. He had no hesitation, however, in stating that he believed the introduction of the present Finance Minister into the Cabinet would prove the destruction and downfall of the present party in power. It was well known that upon the first intimation of that gentleman being asked to join the Ministry, there was not a Conservative paper in Ontario or Quebec, and scarcely any others, who did not condemn that act of the Government. Yet in the face of this unanimous condemnation the Minister of Justice had persisted in taking him into the Cabinet as a colleague. He had no hesitation in saying that the course pursued by the Premier would, ere two elections had been held, find him in a worse position, and a less following than he had at the time of coalition, and he warned the leader of the Government, that such would be the case if he persisted in his present course. The Finance Minister had boasted that he went to the election as a Reformer, and to a Reform constituency. If such were his professions to the electors, and if he accepted office as a Reformer, why did he not get a Reformer to retire in his favor and not a Conservative, and why did he not go to a Reform constituency to seek a seat in Parliament? It was well known that the gentleman who retired to make way for him was a Conservative, and that North Renfrew was a Conservative constituency, where none other than a Conservative appeared at the election for the local member. Yet the House was told he was a representative of the Reform party, and as such was asked to accept a seat in the Cabinet. If such were the fact, he should have gone elsewhere, and the leader of the Government would learn, when too late, that the placing a man who had no status in the country in such a position as Finance Minister, would prove his overthrow. He (Bowell) could easily understand why the honorable member for Sherbrooke, if he were desirous of having the Clergy Reserve question settled and removed from the political arena, decided to withdraw his support from the Government of which Mr. Hincks was the leader, because he did not promise to secularize the Reserves. It was well known to those who watched events some years ago, that the question of secularizing the Clergy Reserves was used as a stalking horse for a quarter of a century, and he had a right to presume it was the intention to keep it longer before the people to assist at future elections, and he did right from his stand point, to withdraw his support from the party in power. That question had since been settled equitably by the Minister of Justice, and his Conservative colleagues, as all great questions heretofore had been. It was also well known that every supporter of the Government for years, who took the stump at elections, defended the Minister from the charges of increasing the debt of the late Provinces, that the ground taken was that they fell heir to the sins and iniquities of the present Finance Minister. It was no wonder, then, that he (Galt) stated it was the policy of Hincks when in power that led to all his difficulties. There was one question which had not yet been explained, and which, now that personal explanations were being given, should not be allowed to pass without the House being put in possession of the facts. Certain charges had been brought against the Secretary for the Provinces, and the Minister of Public Works, which if a tittle were true, they should be compelled to leave the Cabinet, and if their colleagues sustained them in the course they were charged to have pursued, they should all be driven from power. (Hear, hear.)

FRESH OYSTERS.

JOHN WILSON

Daily Intelligencer.

BELLEVILLE, WEDNEDAY, FEB. 23.

TEA MEETING.—The annual tea meeting of Christ Church will be held this evening in Ontario Hall.

CROWDED OUT.—A report of the proceedings at the annual meeting of the Bible Society, held last evening, is in type, but has been crowded out and will appear to-morrow.

COURT OF REVISION.—The sitting of this Court, to revise assessments for the current year, will be held in the Town Hall on Friday next, of which parties interested are requested to take notice.

THE MAILS.—The postal arrangement on the Grand Trunk appear to have been sadly disarranged by the delays caused by the late storm. To-day the train from the West brought no papers, though letters were received all right, and no mails were sent from here eastward, for the reason that no Post Office car was attached. There must be bad management somewhere, to cause such vexatious blunders. Whose is the blame?

"ONE MORE UNFORTUNATE."—In a drunken affair at Castleton on Monday, a woman named Margaret McGinnis, formerly well known in our Police Court as a vagrant, was brutally murdered by a man by the name of John Ellis. He knocked her down, jumped on her and stamped her to death; both were from Trenton. An inquest was held by Dr. Gould, coroner. Ellis was committed for trial.

COINCIDENCE.—It is a remarkable fact that almost all the legislative bodies in the world of any consequence are at present in session. The English Parliament, the French Corps Legislatif, the Spanish Cortes, and the Roman Ecumenical Council, are in full operation in Europe, while on this Continent the United States Congress, the Dominion Parliament, and the Local Houses of New Brunswick, Nova Scotia and Newfoundland are in session.

PRECEPTORY No. 157, MADOC.—At the annual meeting of this Preceptory, the following Brethren were elected office-bearers for the ensuing year:—Bro. And. Wright, W. M.; L. S. Guffin, D. M.; Wm. Moore, Chap.; G. D. Raw, Regis.; Joseph Bateman, Treas.; W. Stokes and J. B. Fox, S. B's; Jno. Robertson, sen., and Thos. Wiggins, C's.; J. Groves and Wm. Bristol, L's.; Alexander Moore, Pursuv. Committee—Jas. Findlay, J. Gerow, Jno. Jeff, J. French, James Moore, Wm. Coulter, Wm. Wood.

WITHDRAWAL OF TROOPS.—The Lt.-Governor of Newfoundland, on Monday communicated to the Assembly a despatch from Earl Granville, to the effect that the British Government had determined to withdraw the troops from that island, and requesting the inhabitants to make the necessary arrangements for the internal defence of the Colony. This should prove, we think, a strong argument for the necessity of their joining the Dominion, as the unaided resources of the island would prove but a weak protection in case of trouble with our Republican neighbors.

"SHOO FLY."—St. Catherines has a large "cullud" population who furnish occasional items for the local of the *Journal*. That genius gets off the following in a late number: "That irrepressible African Dandy who superintends the baggage department of Mr. Davis' omnibus line, is just now devoting his attention to the elaboration of an African can-can to the air of "Shoo Fly, *don't ye bodder* me." He practices in Coontown every evening, and all shades of color are represented, from the meerschaum moke to the ebony coon. This proceeding aroused the curiosity of George Washington, who attended as a spectator. While thus engaged Dandy capered round the room on his hands, cutting a pigeon wing, when he brought down his sixteen stogies directly on George's half-acre clam crushers, at the same time singing—"Shoo, Spidah, don't bodder me." Spider lifted his foot in agony, and with a concentrated yell of anguish roared—

> Mudder, I'se gwine home to die
> Wid one foot in de grabe.
> "Shoo Fly, don't bodder me."

Curling Match.

The return match, or rather the last stage in the match between the Belleville and Ottawa Clubs, for the possession of the Caledonia Medal, is to be played at Ottawa to-morrow. Most of the Curlers who are to play at Ottawa left by this morning's Express. A match between Brockville and Belleville is also to be played to-day.

The following are the Rinks who play at Ottawa:—

W. H. Ponton,	Thos. Kelso,
W. A. Shepard,	Jas. W. Thomson,
J. Gordon,	Jas. Corby,
W. R. Dean, Skip.	F. Ridley, Skip.

—The Grand Trunk Railway Company invite consignments of freight for China and Japan, via Michigan, and Union and Pacific mail steamers from San Francisco.

—A train on the Great Western Railway was attempted to be thrown from the track near Dundas, by two large boulders placed on the line. The perpetrator of this outrage failed in his attempt, as, fortunately but little damage was done to the engine.

The "Leader" and the Member for North Hastings.

The debate upon the address from the Throne has been prolific of newspaper criticisms Each paper, in accordance with its leanings and political or personal proclivities, has given its valuable opinions, not only on the points touched upon in the address, but upon the attitude assumed by the different members of the House towards the Ministry of the day.—A defection from the Opposition to the Ministerial side of the House is hailed by the out and out Government press, as an indication of popular opinion in the country; but a declaration from one who has been a firm and steadfast supporter of the Ministry, that he can no longer approve of all that has been done, is the key note for the subservient creatures in the pack to sound the alarm, threaten, and impugn motives, in order to destroy every man who, having a spark of independence, does not hesitate to avow it. Not the least notable among this class of journalists, is the *purely disinterested* Toronto organ and mouthpiece of Sir Francis Hincks, the *Leader*.—It commences its denunciations with attributing all kinds of reasons for the position assumed by Sir A. T. Galt. While we have no sympathy nor feelings in common with the sentiments uttered by that gentleman, upon the ultimate destiny of this country, we hesitate not to say that his reasons for expressing a want of confidence in Hincks are well grounded; many of the sins which he (Galt) had to bear and defend, having been the result of Hincks' policy when in the Government.

Mr. Cartwright also comes in for a share of the general condemnation. He too had no right to step out of the beaten track, in which he has been walking for years past, without the consent of such men as control the *Leader*, who fancy they see looming up in the vista of the future, a good round sum to add to the already ill gotten York Roads gain. The reason assigned by the member for Lennox, for withdrawing his entire confidence from the Ministry, may not satify such men, but they will learn, as will Sir John A McDonald, when too late, that they are the feelings and sentiments of the people of Ontario.

In the general condemnation the member for North Hastings could not expect to be allowed to pass without a scathing from the York Road suppliants at the door of the new Finance Minister. He having run counter to the course which the *Leader* thinks proper to pursue, receives the following notice:

> "As for Mr. Mackenzie Bowell, he has been nothing but a persistent growler ever since he got into Parliament, and his temper, ordinarily not over-amiable, has not been at all improved because so prominent a Liberal as Sir Francis Hincks has been induced to join the Government. So much Liberalism in the Cabinet is disagreeable to his intensely Conservative olfactories. Having obtained his seat as an avowed follower of Sir John Macdonald, he shows his gratitude for his election on this ticket by a perpetual snarling at his leader. A day may come when Mr. Mackenzie Bowell will find that his "proved independence" is not after all so beautiful a thing as he supposes."

To the personal part of this extract we shall not deign to reply. The writer, however, is widely astray in his declarations as to the position the member for North Hastings occupies in the House, and before his constituency. If to find fault with what he knows to be extravagance in the management of the Militia department of the country by retaining a staff altogether disproportionate to the requirements of the force, and to defeat the Government upon this point constitute a grumbler, then is the member for North Hastings a "persistent growler." If to oppose the granting of about $2,000,000 extra subsidy unconstitutionally to Nova Scotia at the expense of Ontario, entitles him to the designation, then is he a "growler." If to oppose the granting of $150,000 annually to Newfoundland in lieu of her Crown Lands, which so far as is known are utterly worthless for agricultural purposes, while the other provinces have to retain and manage their own lands be evidence, then we may expect to find him a "growler." If to oppose the giving to the Great Western Railway, which has since became almost entirely an American Road, run to subserve American interests, over $1,500,000 out of the coffers of this Dominion, entitle him to the designation, then one admits he is a "growler." And if to oppose the introduction into the Cabinet of a man of Sir Francis Hincks' antecedents be crowning proof, then the *Leader* may continue its style of writing, and persist in fastening upon the member for North Hastings, the euphonious name of "growler."

The *Leader* is most egregiously in error when it says that gentleman obtained his seat "as the avowed follower of Sir John A. McDonald," or any one else. On the stump, at the hustings, and in every other way, he distinctly denied and repudiated the charge of his opponents, whom the *Leader* favored, of being a follower of Sir John A. McDonald. All that he ever promised was that he would give the Coalition a fair trial, voting for and against them, as their measures pleased him, or as he might believe them conducive to, or detrimental to the interests of the Dominion at large and Ontario in particular. Such has been his course, and such he will, if we are to judge from the position he has taken at the beginning of this session, continue to pursue.

The charge that Sir Francis being of Reform antecedents, is the cause of Mr. Bowell's opposition to him, is a base slander. Mr. B. has always, through these columns and elsewhere, maintained the impropriety of departing from the arrangements entered into between the two great political parties in 1867, and from what we know of him we are safe in saying that he believes it to be a great political blunder of Sir John in departing from that compact. For his advocacy of that compact he has been personally denounced by the *Globe*, and it is somewhat strange that the *Leader* should now take the opposite tack. Its opposition, however, will prove a tower of strength to any man in this country.

"Gratitude," forsooth! Were he in the position of Beaty of the *Leader*, who received the York Roads from Hincks, for which he never paid even the interest, and from the tolls of which he pocketed sums variously estimated from $50,000 to $100,000, which having been taken from him he is now trumping up a claim of some $20,000, which no Government has dared hitherto to give him, but which he now expects to wheedle out of the man to whom he was indebted for them, the charge of ingratitude might have some force. Let Sir Francis refuse the demands of the man of York Roads notoriety, and the country will soon see a change of sentiment towards him in the *Leader*. Does this journal fancy that the outside world does not know its present antipathy to the Premier of the Ontario Government? Does it fancy that people do not know that its opposition did not find vent until that gentleman refused to give Beaty the Government and Parliamentary printing? For such a political hack to read members a lesson upon their duty is enough to "sicken a horse."

The North-West Territory.

The Toronto *Telegraph* professes to have reliable information that the Imperial Government has recommended the payment by our Government of the purchase money at once. It is also informed that it has been decided to send a military force into the Territory. This force will consist of one battery of Royal Artillery, and the Royal Canadian Rifles. They will start from here in May, and proceed to the Territory by way of Lake Superior. Orders to this effect have already been issued, and the proper officers have been directed to make the necessary preparations. The American authorities were asked to allow the troops to pass through their country, but they refused to grant the request. The troops are not to be sent to take forcible possession, but merely to uphold the Government authority in case of need. The rights of the inhabitants are to be respected in every particular.

Confederation in Newfoundland.

There is evidently not much prospect of Newfoundland coming into the Union for some time at least. The following paragraph in the Assembly's reply to the Governor's Address passed the House on Friday last:

> "The subject of the Union of this Colony with the Dominion of Canada, has been largely discussed both within and outside the House for several years past, and the result has been a settled conviction in the minds of the people, that such a Union would not be conducive to their essential interests—a conclusion which has manifested itself at the recent general election, by the return of an overwhelming majority of representatives in opposition to that measure. Firm in their adhesion to the fortunes of the Mother Country, the people of Newfoundland shrink from the idea of linking their destinies with the Dominion in the future of which they can at present see nothing to inspire hope, but much to create apprehension.

Curling.

BELLEVILLE vs. BROCKVILLE.

Just before going to press we received the following telegram from Brockville, by which it will be seen that Belleville has been successful by a handsome majority:

BROCKVILLE, Feb. 23.

Match over at 3:30.

Ridley's Rink	35 to 11
Dean's	22 to 19
Majority for Belleville	27.

To the Editor of The Daily Intelligencer.

DEAR SIR,—My attention has been called to a paragraph in the 'Chronicle' of to-day's date, in reference to the death of a young woman of the name of A. Castles, or Martin, headed, "Sudden Death," and in which it is stated that painful rumors are afloat as to the cause of her death, and suspicions relative thereto. As her medical adviser, I wish to correct such rumors and suspicions, (if any). I was called in as her medical adviser more than a fortnight before her death, and I attended her almost daily during that time; a part of the time three times a day. She died from inflammation of the lungs, and before her death, which took place on Monday morning,—on Sunday in the forenoon, I called on Dr. Lister. In consultation with me he confirmed my diagnosis of the disease, and approved my treatment of the case. The Dr. visited her with me twice on Sunday in consultation, and I can say without contradiction that during my attendance she had every care and attention, and that there was nothing in her case to warrant the rumors or suspicions referred to. I hope you will in justice to all parties give this a place in your paper.

Yours, &c.,
JAMES F. CURLETT.

Belleville, Feb. 23, 1870.

Police Court.

(Before A. DIAMOND, Esq., Police Magistrate.)

WEDNESDAY, Feb. 23.

LAID OVER.

A case against E. Britton, for infringement of Market By-Law, was laid over till next Court day.

DISMISSED.

A charge of infringement of the Market By-Law, preferred against E. Snell, was dismissed on the ground of the want of a suspensory clause in the new By-law.

LIQUOR LAW.

F. Gabourie was charged with selling liquor in less quantity than a quart, but as the evidence adduced did not sustain the charge, the case was dismissed.

Parliament Yesterday.

The Senate yesterday was occupied in discussing the inadequate accommodation provided for members of the Senate, in the galleries of the House of Commons, and the Fisheries Bill, which passed its second reading.

In the House of Commons Mr. Cartwright resumed the adjourned debate on the address, drawing the attention of the House to the necessity of a careful management of the finances, and expressing his doubts as to whether the policy of the Government would be safe, at the same time stating if the Finance Minister could bring in such a measure as would meet the exigences of the country, he would not offer any factious opposition.

Hon. Mr. Huntington attacked Sir Francis as the Rip Van Winkle of Canadian politics, and censured him for making use of the private conversation of Mr. Young, after which he made a long speech in favor of his pet project of independence.

Sir Francis Hincks replied to the personal attack of Mr. Huntington, and repudiated the doctrine of independence on the ground that we could not have independence and a monarchical Government. He thought the latter much the best.

Mr. Dufresne stated his view of the Ministerial position, and attributed the troubles in the North-west to the appointment of Mr. McDougall as Governor of the Territory.

Mr. Scatcherd would judge Ministers by their future policy, not their past. To talk of independence and loyalty was as absurd as of Fenianism and loyalty. If the people desired to change their institutions—the way to the United States was not far, they could go there to enjoy their independence.

Mr. Young reviewed the address and policy of the Government at some length.

Mr. Langevin called attention to the rumors that French Canadian members of the Government had given encouragement to the Red River nomination. He gave them the most explicit contradiction.

Mr. McDougall said the report to that effect came to Mr. Provencher through the rebels. When in conference with them up Stinking River he (Mr. McDougall) said on the spot it was incredible and impossible. He thought it possible some relation of Mr. Langevin might have written something which had been thus misconstrued.

Mr. Langevin gave the same contradiction respecting his brother.

Mr. McGill thought the address erred by the omission of allusion to the enlargement of the canals and some other things. He denounced the Independence cry, as essentially disloyal, and criticised the conduct of the Secretary for the Provinces in the North-West.

Mr. Bodwell, Mr. Mills, Mr. Oliver, and Mr. Jones, of Leeds, and Chamberlain followed Mr. Huntington in reply to Mr. Chamberlain.

The remaining clauses of the address were then agreed to.

The House adjourned at 11:40

News Condensed.

—Sweden has at last admitted Dissenters and Jews to equal political rights.

—Another discovery of human remains has taken place at Prescott Gate, Quebec.

—George Hemings, Esq., taxing officer of the Court of Chancery, died in Toronto on Monday.

—General Lindsey is to start shortly from England, to take command of the forces in Canada.

—Between Montreal and Lachine snow has drifted to the depth of 10 to 12 feet, and the railway is completely blocked up.

—There is a spot on the sun so large that it can be plainly seen through a piece of smoked glass. It was first observed on the 7th inst.

—The Supreme Court of Ohio has decided that the exclusion of the Bible from the schools of Cincinnati is contrary to the Bill of Rights.

—Rev. Mr. Baldwin, of Ingersoll, lectured on the "North-West" in Toronto last night. He described the soil as the richest on the face of the earth.

—A freshet occurred in Kenebec River, Maine, on the 21st inst., which destroyed an immense amount of property. The water rose 25 feet above low water mark.

—The Montreal Telegraph Company transmitted no less than 76,000 words from Ottawa to Toronto and Montreal on the 17th inst., in addition to all their ordinary business.

—Recent overland mails announce the arrival of the Great Eastern, at Bombay. She will be employed in conveying and laying cable to the mouth of the Red Sea.

—The New England Society of Toronto celebrated Washington's birthday yesterday by a supper at the Queen's Hotel. About two hundred ladies and gentlemen were present.

—Owing to the number of runaway horses in Ottawa lately, the City Council has passed a By-law to punish parties leaving horses untied in the streets. A similar measure would have a good effect here.

—From an official statement it appears that during the year ending December, the receipts in the United States from spirits were nearly $50,000,000, from tobbacco upwards of $29,000,000, from stamps $15,893,000, from passports through the State Department $27,000, from salaries $701,000. The aggregate receipts of the Internal Revenue bureau was nearly $174,000,000.

It was formerly the practice among physicians to carry a cane having a hollow head, the top of which was gold pierced with holes like a pepper box. The top contained a small quantity of aromatic powder; and on entering a house or room where a disease supposed to be infectious prevailed, the doctor would strike his cane on the floor to agitate the powder and then apply it to his nose. Hence all the old prints of physicians represent them with canes to their noses.

THE FLOOD IN MAINE.

AUGUSTA, Me., Feb. 22.—The Portland and Kennebec Railroad expect to resume their passenger trains from Augusta northward in about ten days. It will take nearly three months to rebuild the bridge across the Kennebec.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 91—6mT&S

PHIPPEN & GRAHAM,

HAVING secured the services of a thorough practical Soap Boiler, now offer to the public as good a quality of Soap as any in the market, which they will sell reasonable.

Merchants and Grocers wanting Soap would do well by inspecting their stocks before purchasing elsewhere.

Belleville, Feby 12, 1869. d812,w1:tf

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO, LINDSAY, ONT. 221-4w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, vigor and new life to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chilblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.
51-30s 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds, BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors.
204d 51w 4w Montreal, P. Q.

Bound to Go Back to her Ma.

From the Milwaukee Wisconsin.

A curious scene was recently enacted at the Union depot. A young, newly married couple, from a neighboring city, came in on the train from Chicago, their destination being Minneapolis. From the young man's story it was learned that they were married in Chicago, and went up in the vicinity of Minneapolis, where he worked in a mill. A few weeks ago the two went to Chicago to visit the girl's parents, and having paid their visit were going back to their home. While sitting in the ladies' room in the depot, the wife went to the ticket office and asked if there was another train for Chicago that night. Being told that there was, she turned to her husband and said: 'Jim, you can go on to that wooden country if you want to; I'm going back to Chicago to-night.'

The poor husband was thunderstruck at this intelligence, and asked his wife what she meant, but she vouchsafed no reply save this: 'You go your way to the north, Jim, and I'll go back to Chicago.' Poor Jim's eyes began to fill with tears, and taking his better half one side, he talked to her in a very low tone, and evidently pleaded his case very earnestly; but the shake of the head and occasional sniffle of the wife showed that she had made up her mind and would act accordingly. After Jim had pleaded for some time, she turned to him and said, just to spite him: "It ain't no use Jim, I've got sick of all this thing and it might just as well be now as at any time. I'm going home, and you may go where you please.'

"But Susan, only see how it looks."

"I don't care how it looks—I'm sick of it, and I'm sick of you too, Jim. I'm going back to my mother, and you'd better go on. Good-by Jim."

Jim was not going off in any such way as that. Never mind what had become of the baggage. He had before only shed tears, but now he sobbed in downright earnest, and really seemed to take the matter much to heart. The wife called him a booby and a fool, but in spite of all that Jim kept on crying, and clung to his wife until the night train was ready to move off, and then went on board, the last heard from him being a sob and a pleading entreaty that Susan would give up the foolish notion in her head and go to Minnesota with him. Some of the lookers on pitied him very much, while others laughed at his misfortunes, and really felt that he was a booby, as his Susan pronounced him.

A Trying Situation.

A queer adventure happened in a New Orleans street car. A gentleman was disturbed by a singular rustling from a lady next him, and with the purpose of removing the annoyance, he quietly inserted his hand under her shawl, and sure enough came across the offending paper. It was however, not there by accident. Some stay or lacing had given way. The young man didn't know this, however, and gave a savage jerk. The lady was turned half round and gave a loud scream. The youth intent upon his work, jerked away. The lady screamed louder. "Let me go sir! O let me go!" "Let go the paper yourself," the youth screamed in concert, "It ain't paper." "It is." It ain't." "What do you call that?" he triumphantly exclaimed as a sheet gave way, and he he held the fluttering tell-tale in his hand. "O, its my bustle!" "O!" And both parties made a hurried exit out of the car.

An Excursion to Hell.—Under the god of this world—alias devil—a fast train will run every day in the week, and a monster train on Sundays, from the station of idleness, passing *en route* the pleasure gardens of religious indifference, through the dark tunnel of infidelity, and across the river of good conscience. A splendid band will be in attendance, and will play the anthem entitled, "There's a good time a coming." The fare to the journey's end is a stupid and unawakened conscience. No return tickets.

If four dogs, with sixteen legs, can catch twenty-nine rabbits with eighty-seven legs, in forty-four minutes, how many legs must the same rabbits have to get away from eight dogs with thirty-two legs, in seven minutes and a half.

A scene at a late Washington reception, at the house of an ultrafast political people either was as follows, or sufficiently near it:—Wife of a moneyed committee man, in a blissful state, enters the punch room on her husband's arm. A Radical politican passing she greets him: 'Say Charley, won't you drink some champagne in my shoe.' Radical husband blushes dangerously. Husband appealingly; 'My dear I think the carriage must be ready by this time.'

Dr. J. Briggs' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

Catarrh, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

Fortieth Year.

GODEY'S LADY'S BOOK

For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Book contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, payable *to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

NORTHROP & LYMAN

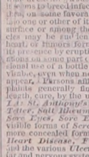
For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.



The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty in [illegible], notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—arresting the [illegible] of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is [illegible] inspiration and direct will of DIVINE PROVIDENCE [illegible] to science. When the combination of the ingredients of this marvelous remedy known as RADWAY'S READY RELIEF was completed, it supplied a want that had ever existed, that [illegible] the best approved discoveries in Medical Chemistry or the Materia Medica, or the skill of the most eminent Physicians could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium would allay pain, but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS.

If exposed to contagious or epidemic pestilences, it not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water, taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure, it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return beyond our own faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk.

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHŒA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED [illegible]

The Wisdom of Providence in selecting the Inventors and Proprietors of this [illegible] to carry out His will in [illegible] the reach of His people of all nations of the earth who had sufficient faith to [illegible] for their bread cast on the waters to return after many days, who were content to spread out before the world the virtues, purity, and marvelous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere, shows that the instruments selected for the great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms, and as regards ordinary PAINS *that are common* to all, the Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,

Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Pills—pay the penalty of engorged liver, fat spleen, disordered kidneys, sallow colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits will give you equal in quantity [illegible] to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, [illegible] &c., all of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least ($25) twenty-five dollars had you to purchase prescriptions or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH, HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic. Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the Edinburgh. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews, - -	$4.00	per annum.
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - - - -	10.00	"
For Blackwood and three of the Reviews, - - - - -	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The Postage on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one* of the *Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two* of the *Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, THURSDAY EVENING, FEBRUARY 24, 1870. No. 252.

Don't Stay Late To-night.

The hearth of home is beaming
With rays of rosy light ;
And lovely eyes are gleaming,
As fall the shades of night ;
And while thy steps are leaving
The circle pure and bright,
A tender voice, half grieving,
Says, "Don't stay late to-night."

The world in which thou movest
Is busy, brave and wide ;
The world of her thou lovest
Is on the ingle side.
She waits for thy warm greeting ;
Thy smile is her delight ;
Her gentle voice entreating,
Says, "Don't stay late to-night."

The world is cold, inhuman ;
Will spurn thee in thy fall ;
The love of one pure woman
Outlasts and shames them all.
Thy children will cling around thee,
Let fate be dark or bright !
At home no shaft will wound thee,
Then, "Don't stay late to-night."

The Chinese New Year.

MONGOLIAN RITES AND FESTIVALS.

(From the San Francisco Chronicle, Jan. 30.)

To-day is the commencement of the Chinese new year. By all classes of the Mongolian element it will be observed as a season of rejoicing, inaugurating, as it does every year, a series of festivals that extend for a period of twenty days. Before considering the peculiar rites and ceremonies which mark this period of Chinese time, it will not be uninteresting to notice the customs of the people on the last day of the old year.

Early in the morning on the last day of the year all families, except the exceedingly poor, make what is termed 'the offspring of the early rice.' The gods are supposed by this offering to be propitiated, and to grant good luck to their devotees. This is emphatically a busy day in the Chinese world. Although the law does not require the people to pay their debts at this time, established custom demands it. If any debtors should show a disposition on this day to shirk their liabilities, their creditors would be particulary hard on them. If a debtor failed to pay his account at his hong, store, or grocery, he would not be trusted there during the ensuing year, his reputation would be ruined, and that great stigma in the Chinese belief would be attached to him, viz., that he is a man who did not pay his accounts at the end of the year.

It frequently occurrs that debtors, by skillfully playing the game of hide and seek, escape the clutches of their creditors on the last day of the year. When such an event takes place, the creditor is allowed, by custom, to seek for the delinquent debtor on the ensuing day, providing he supplies himself with a lighted lantern. The lighted lantern implies that the one bearing it believes it still night ; that the new year has not yet dawned, for it would be an outrage on Chinese custom without the lantern, to collect debts on New Year's day. So sensitive are the people as to the obligations of paying their debts before the new year begins, that frequent instances are known of debtors, who were unable to receive the necessary coin to meet their liabilities, committing suicide.

Sometimes before midnight on the last day of the year, called the Thirtieth night, even if the twelfth month has only twenty nine days, the ceremony of rounding the year is gone through. Justice Doolittle, in his work on 'Chinese Customs,' thus describes this festival :—'All the members of families are present who can possibly arrange their business to be at home. A presentation of meats, vegetables and fruits is made before the ancestral tablets of the family. Incense candles, and mock money are burned before them and before the household gods. The father of the family presents himself before the tablets with kneelings and bowings ; if absent the wife or the eldest of the children takes his place in worshipping. A bonfire of pine wood is made before the tablets. While the bonfire is burning, fire crackers are exploded by the youngsters. Salt is thrown upon the flames, and the crackling which it occasions is looked upon as an omen of good fortune in the coming year. After a while, the food is taken away and consumed by the members of the household, and it is a time of general rejoicing.

It is customary on the night before New Year's or on New Year's morn, in all well regulated Chinese households, for the master or head of the family to present every member of his household with a present. The presents vary in quality and value with the position and fortune of the giver and receiver. He who would fail to keep this custom in relation to his domestic would be looked upon as a very hard and stingy man.

The Mongolians commence the celebration of the New Year's festivities by arraying themselves in new clean garments.—Very early in the morning of the first day of the year these festivities commence. They consist, in most families, of five parts, viz: 1. The sacrifice to heaven and earth. 2. The worship of the gods and idols belonging to the family. 3. The worship of deceased ancestors. 4. Prostration before living parents and grand-parents. 5. Making New Year's calls. The ceremonies gone through with in the first, second, and third parts are very similar in detail to the ceremony we have already described in speaking of rounding the year. The custom of worshipping relatives is gone through with in this manner. The surviving heads of families seat themselves side by side at the head of the room, while their children and the junior branches of the household come before them, kneel down, bow three times, offer their congratulations and pass out. No incense is used.

Having gone through with the foregoing ceremonies, the male members of the family start forth to greet their friends and relatives. Such a thing as calling on their female friends is unthought of. The period of making New Year's calls extends to two or three days, and is accompanied with many bowings and kneelings, the Chinaman of an inferior grade being always expected to humble himself before his superior.

The Mongolians with one accord shut up shop on New Year's day. No work is done that can possibly be avoided. The longer the shutters remain on a Chinaman's store or grocery, the more respectable he is supposed to be. Some do no business for ten or fifteen days, while others open in three or four. The use of animal food during the first fifteen days of the year is looked upon as wrong. The demand for candies, sweetmeats, and peanuts at this season is enormous. Gambling is indulged in to an alarming extent by old and young ; theatrical exhibitions are everywhere open, and the day is generally rendered hideous by the use of fire-crackers.

The only seeming employment or use of the Chinese lady during the festivities of New Year seems to be approaching the shrine of a goddess called 'Mother.' Married childless women during this period solicit a shoe or flower from 'Mother,' which they take home and worship by the burning of incense and candles, expecting or desiring as a consequence of such devotional acts to 'Mother' to have male offspring. It would occupy too much time to enumerate all the peculiarities of this singular people during these holidays ; suffice it to say they are generally brought to a close on the 15th by a feast called the Feast of Lanterns. The Chinese officials, however, do not work from the 20th of the twelfth to the 20th of the first month, taking full month in rest from official toil.

Sheep Require Water in Winter.

That sheep will eat snow and get along tolerably well without water, especially when the snow is light and clean, is a good argument in favor of the hardiness of these patient and useful animals ; but it proves nothing in regard to the economy of compelling them to do without water. In our cold climate a large amount of food is required to keep up the animal heat, and all the water a sheep drinks has to be raised to the temperature of the body. The heat required for this purpose is derived from the food. Now, it requires twenty-one times as much heat to raise a pint of water when frozen to the temperature of 40° as it does a pint of ice cold water not frozen. Those who have ever undertaken to melt snow to wash with, will readily believe this statement. What would be said of the farmer who should use wood or coal for such a purpose when it could be avoided, and yet wood or coal are far cheaper sources of heat than hay or corn. When we compel a sheep to eat snow, we in effect undertake to melt snow by burning straw, hay, and corn in the animal stove. The same remarks will apply to feeding animals on frozen roots. A sheep, weighing say 100 lbs., will eat, in addition to a liberal allowance of hay and grain, 10 lbs. of roots a day, containing nearly or quite nine lbs. of water. Now, before the carbon in the turnips can produce fat, or furnish material to keep up the heat of the body, it must first raise this frozen water to blood heat. A flock of a hundred sheep will nearly drink two barrels a day, and there are few things more important to the economical and successful wintering of sheep than to see that they are constantly, or at least frequently and regularly supplied with water. A running stream, brought by pipes into the barnyard, is doubtless the best, but when this cannot be obtained, the water should be pumped up fresh for the sheep, and not allowed to stand until frozen, and then the surface broken and the ice left to float in the water that the sheep have to drink. We do not know that it would pay to heat water for sheep, but certainly it will not pay to make them eat snow, or drink water with melting ice in it.

When early lambs are raised, it is important to provide the ewes with a constant supply of fresh water. If from accident or neglect, such sheep have been kept without water for a day or two, nothing is more dangerous than to permit them to drink their fill of cold water. We once lost several sheep from this cause, and have since heard of many similar instances.—Take the chill of the water, and no danger need be apprehended. Suckling ewes require more water than other sheep, and when roots are not fed, it would undoubtedly contribute much to obtaining a good supply of milk for the lambs if the ewes were furnished with warm water, or better still, warm, cooked food, such as oatmeal and bran mash, and boiled barley, &c.—*American Agriculturist.*

FRESH OYSTERS.

CANADA
Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates,* will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are

Indisputable on any ground whatever,

Subject only to payment of premiums which may become due.

SPECIAL FEATURES.
ECONOMY—
Giving more assurance, for the same money than other Companies.
HOME MANAGEMENT—
HOME INVESTMENTS—
Every advantage to policy holders which is compatible with sound management and ultimate safety.

BELLEVILLE, THURSDAY, FEB. 24.

BRITISH TEMPLARS.—As will be seen by advertisement, the British Templars meet every Thursday night hereafter in the Workingmen's Temperance Hall, at 7:30.

ERRATUM.—An error occurred in our paragraph of yesterday respecting the sitting of the Court of Revision. It can be easily rectified by reference to the advertisement in another column.

THE BOBCAYGEON INDEPENDENT.—This is the title of a new candidate for public favor in the newspaper line. It presents a neat appearance typographically and seems worthy of support. Mr. E. D. Hand is the publisher.

POLITICAL RUMOR.—An Ottawa despatch to the Montreal *Gazette* says:—It is rumored that a caucus will shortly be held among all the New Brunswick members, but three, to discuss the propriety of joining the Opposition. The pretext is discontent with the conduct of Hon. Mr. Tilley.

Y. M. C. A.—The weekly meeting of the Young Men's Christian Association will be held to-night. We learn that an Essay will be read by John J. B. Flint, Esq., to be followed by readings. We are pleased to learn that the number of applications for membership far exceeds the anticipations of the members; let there be a large attendance to-night at half-past 7 o'clock.

A HANDSOME COMPLIMENT.—The De Wolf Hose Company No. 7, of Oswego, remembering the kindly reception accorded to them by our firemen on their visit to this town last year, have presented to Moira Engine Company No. 1 of Belleville; a very large and handsome photograph of their Hall, and the Company arranged in uniform standing in front, with their apparatus. The picture is taken in the first style of the art, is beautifully framed, and will no doubt be highly prized by the recipients, who intend to hang it in the Town Hall, where all will have a chance to see for themselves.

Curling.

OTTAWA vs. BELLEVILLE.

The second stage of the match for the possession of the Caledonia Medal, was played in Ottawa to-day, and resulted in the defeat of our representatives by 23 shots. The following is the score as received by telegraph:

BELLEVILLE.		OTTAWA.	
Dean's Rink	12	No. 1 Rink	27
Ridley's "	16	No. 2 "	24
	28		51

Majority for Ottawa 23.

Parliament Yesterday.

In the Senate, Hon. Mr. Letellier de St. Just moved for copies of McDougall's commission as Lieut.-Governor of the North West, correspondence, &c. He said he had been formerly opposed to Confederation, but seeing it was a *fait accompli* he would do all in his power to support the constitution, at the same time censuring the appointment of Mr. McDougall, who, he said, was not acceptable to the half-breeds and Indians from his actions in the Manitoulin affair.

Mr. Macpherson thought better communication with the North West should be established than those contemplated last session.

Mr. Campbell defended the Government.

The Bill relating to the Coasting Trade was read a third time, as was also the Fisheries Bill.

The debate on the address being over, the House of Commons has at last got *fairly to work.*

A considerable amount of formal business was got through yesterday afternoon, but very little of it has any special importance. The Government intimated their intention to fulfil the pledge given last session with reference to a bill to limit the rate of interest, the question being for the present left open whether such measure could constitutionally originate in the Senate.—Resolutions on the subject of banking and currency are also promised for next week; and M. Langevin informed the House that the question of improving the navigation of the Ottawa River and of the Welland Canal are under the consideration of the Government.

—It is said that the New Brunswick members will oppose the Government on the Intercolonial Railway question.

—The present military establishment of the United States consists of 2,277 officers and 35,106 enlisted men.

—Commodore Stephen Champlain, who was with Perry at the Lake Erie fight of 1813, died in Buffalo on Sunday at an extreme old age.

—"The Mystery of Edwin Drood" is the title of Dicken's new novel, which is to begin publishing in *Every Saturday* next month.

—There are two patient white men in Gaston, N. C. Last Monday they got into a fight, at the end of which one threw the other down and sat on him for four hours.

—The great Mordaunt divorce case, a case of *crim. con.* in high life, was brought before the divorce court in London yesterday. The Prince of Wales was a witness, and testified there had never been any criminal connection between himself and Lady Mordaunt, a statement which was received with cheers in the Court.

Bible Society.

The annual meeting of the Belleville Branch Bible Society was held on Tuesday evening, 22nd inst., in Ontario Hall. The hall was tastefully decorated for the occasion, and the attendance as large as ever graced a similar occasion in Belleville. A large and efficient choir, under the direction of Nathan Jones, Esq., contributed much to the enjoyment of the evening.

The meeting was opened by singing "O, for a thousand tongues," after which Rev. S. Jones read a portion of the 119th psalm and engaged in prayer.

FRANCIS MCANNANY, Esq., President, delivered a few appropriate remarks, showing that grants had been made to the parent Society, through the Upper Canada Bible Society, which donations had been used in assisting to translate the Bible into 185 different tongues and dialects. Many had thought these grants should be given to the parent Society direct, but this could not be so long as the Belleville Society remained a Branch of the Upper Canada Society—a connection which he could not desire to sever.

JOHN J. B. FLINT, Esq., Secretary, then read the annual report as follows:—

Your Committee have much pleasure in presenting for your sanction and approval the following Report of the operations of this Branch of the Bible Society during the past year.

It is pleasant to know, that notwithstanding the many and wide diversities that exist in the Christian Church, both in regard to doctrine and worship, there are still some religious movements that are dear to every christian heart, some common objects in regard to which the multitude of them that believe, are still of one heart, and of one soul, and for the furtherance of which they can come together with one accord. The Bible Society is practically an Evangelical Alliance; its very existence attests the substantial unity of all the followers of our Lord Jesus Christ, and our own profound conviction of the truth of those momentous doctrines which distinguish the christian religion, while the world lieth in wickedness; it is the high privilege no less than the bounden duty of every man that hath received the gift, to minister the same one to another, as good stewards of the manifold grace of God. The Divine author of the Bible has put us in charge of it, in common with the rest of Protestant Christendom, as a sacred truth for the benefit of the nations of every land, which are still in darkness. No selfish and contracted policy ought to be permitted to limit our efforts for its circulation in our own neighbourhood and country, but upon our banners should be inscribed the motto of the sainted Carey, "The Bible for the World." It will be interesting to state that the Bible is now printed in one hundred and eighty-five languages and dialects, and during the last sixty-five years, about fifty-five and one quarter millions of copies have been distributed throughout the world. Among the many important movements that have taken place in the world of late, and which will have a most energizing effect upon the operations of the Bible Society, in opening up an extensive field for the circulation and distributing of the word of God, is the revolution in Spain. For centuries, notwithstanding the extraordinary efforts that were made by the Bible Society, notwithstanding the prayers of God's people which have daily ascended for a nation enshrouded in darkness the door remained firmly closed, scarcely a ray of light emanating from the word of God was permitted to enter. The barriers of ignorance and prejudice encompassed the nations and gross darkness enveloped the people; but now the barriers are removed, the people of Spain are so far emancipated from Priestly rule as to have admitted the Colporteurs to all parts of the kingdom; religious liberty, and the Heaven born right to worship God every man according to the dictates of his own heart, has been accorded, and finds enthusiastic exponents even in the Cortes. A writer from Spain says, "the whole land is before us, all Spain is white to the harvest." Had any one twelve months ago ventured to predict the half of what is now fact, the reply would have been "thou art beside thyself." Spain is the best missionary field at the present moment in Europe, I may almost say in the world; three-fourths of the entire population of Spain would be eager listeners to the gospel. Can any other country show to the church such a spectacle! In France upwards of seventy Colporteurs have been at work; a number of these are constantly engaged at the military camps, and their labours have been attended with marked success. During the Exhibition in Paris, it is said that one thousand two hundred Priests received from the Depot of the British and Foreign Bible Society "copies of God's Word." Who can say whether one of those copies did not find its way into the hand of Father Hyacinthe, and, under God, enlightened his mind and showed to him the truth as it is in Christ Jesus, causing him to pursue the fearless and independent course in denouncing the corruptions of the church of Rome, and resisting the attempt that is now being made by the Œcumenical Council to enforce belief in certain dogmas contrary alike both to scripture and reason. In Germany there are about sixty Colporteurs at work, and their experience has been very encouraging. In the Prussian army, Major Westfall has distributed in one year, eight thousand and ten volumes. One Colporteur writes, My work this month has been exclusively among Roman Catholics; they have bought the Word with joy, I have found friends even among the priests. In Portugal the highest legal tribunal has ruled that there is no legal impediment to the printing, publishing and circulation of the gospel.

The upper Eclesiastical Council in Prussia has officially recommended Sabbath Schools to all the consistories, and opposition to them is greatly diminishing; in Russia new channels of distribution have been opened and the scriptures have been carried to its remotest parts; from the depot of the British and Foreign Bible Society, copies have been carried to thousands; at Misluna on the banks of the Volga, and the Don, on the shores of Azoff and the Black Sea, and even to the limits of the Caucasus, one Colporteur sold in nine months seven thousand six hundred and seventy copies. In Italy the good work is progressing, and it is conceived that the Œcumenical Council instead of strengthening the Church of Rome, will only be the means in the hands of God of shattering the bulwords of error and unbelief in which that church is encased, and will give the death blow to many of her most cherished superstitions. In Madagascar, the most wonderful outpouring of the Spirit of God has taken place; thousands that formerly bowed down to stocks and stones, now recognize our Jesus as their Saviour, and the whole Island is filled with the sounds of praise and prayer. While your committee feel that the great work of the British and Foreign Bible Society, in circulating the word of God, is rapidly extending, and many new fields of labour opening up, requiring the most active co-operation on the part of the friends of, and contributors to the Society,—your committee, recognizing it both a duty and privilege to aid in circulating God's word, whether through the Upper Canada Bible Society, or the British and Foreign Bible Society, yet while there is ample scope in Canada for the distribution of the sacred record to those who are spiritually perishing for the bread of life, your committee deem it their direct duty in the circulation of the same, before lending their aid to other Societies, to supply the spiritual wants of our own beloved Canada.

Owing to the energetic and thorough course pursued by the Ladies' Bible Association, Belleville has been fully canvassed, and an opportunity has been presented to almost every family to obtain a Bible; in the past few years the County of Hastings has been very generally canvassed by Colporteurs; but the opening of new townships required that energetic measures should be used for the supply of the settlers with the Scriptures. An application was accordingly made to the Upper Canada Bible Society for a Colporteur, and Mr. McPhail was sent by that Society to act under the instructions of our Branch. In August last he reported to the President as follows:—

Madoc, Aug. 31st, 1869.

F. MCANNANY, Esq., Belleville.

Dear Sir,—It was late in June before I got your order by post to Stirling, so I had finished here before I came out to obey your direction; then on the first day of July I went out on the Hastings Road, and between the Jordan and McKilligan's Post Office, got my democrat wagon broken; left the broken wagon there, and took two travelling bags full of Bibles with me, and sold them all between that and Lanabelle post office. Turned back, and worked in Madoc, Tudor, Limerick, Dungannon and South Wollaston during July, and the following is a synopsis of month of July: Books on hand, $32 62; Sales, $29 29; Free grants, $4 18; Reduction in prices, $1 25. The number of Bibles given away, 13 Bibles and 7 Testaments—the price of which amount to about $4 18. Salary and expenses, $27. 22 less 74c deducted from above sum, leaving $26 48; Visits, 325; miles, 348. For August, 1869, travelled in Elzevir, through part of Madoc, out to North Dungannon, Mayo, Carlow, Mount Eagle, Farraday, McLure, and Wicklow. Sale of Bibles and Testaments, 48 Bibles and 67 Testaments, $32 54; Free Grants, Bibles, 9; Testaments, 7—$2.70; Left 6 Bibles, and 6 Testaments to the Ontario Sabbath School, $1 92; Visits, 252; Miles, 373. Commission on sale of Bibles, with psalms, from S. S., during the month, 76c, which left my salary from Bible Society, $24 24; expenses, $2 45. I hope the above will be satisfactory; if it was in winter, I am persuaded that I would nearly double the sale, and I would not grudge to go out again in sleighing time, when money will be more plentiful. Let any person think *for a moment* of their hardships, paying $12 for a barrel of flour! when only $4 in Toronto. With all due respect for the Belleville Branch of the Bible Society, I am, dear Sir,

Yours very truly,
WILLIAM MCPHAIL.

Remitted to Toronto $5.85cts. A grant of two dozen Bibles, and four dozen Testaments, was made to Mr. Denike, of Denbigh Mission.

The Depository has been kept well supplied with a large stock of Bibles and Testaments, and it is gratifying to observe that the sales have been large. The Depositary reports as follows:

		Leaving a balance due Treasurer,		$6 86

In drawing this report to a close, while we have reason to feel grateful to God for the encouraging state of our Branch of this Society, we would urge all friends of the Society, and lovers of our Lord Jesus, to increased activity in the future. Our conflict is with ignorance, unbelief and superstition.

Let us, setting aside all minor differences, in humility, in simplicity and in faith, gird on the whole armour of God and go forward, carrying the battle to the very gates of the enemy, knowing that he who is for us is more than those who can be against us. All of which is respectfully submitted,

J. J. B. FLINT
Secretary

Belleville, Feb. 22nd, 1870.

ANSON G. NORTHRUP, Esq., moved the adoption of the Report, also of the following list of officers for the ensuing year:

O. V. BOGART, President.
Dr. HOLDEN, 1st Vice President.
Wm. REEVES, 2nd Vice President.
Gen. HANWELL, 3rd Vice President.
F. MCANNANY, Esq., Treasurer.
M. SAWYER, Depository.
Chas. MARTIN, Secretary.

COMMITTEE—Messrs. Burdon, Dr. Hope, E. J. Sisson, A. Thomson, Geo. Robertson, Mr. Goldsmith, Dr. Stewart, Dr. Relyea and John J. B. Flint, and all the resident Ministers of the Town, who are members of the Society.

Rev. S. JONES seconded the motion, which was carried unanimously.

Dr. HOLDEN delivered a short address, reviewing the history of the Society.

Rev. Mr. BRETHOUR also made a short speech.

Rev. J. GEMLEY, Secretary of the Upper Canada Bible Society, delivered a [illegible] and interesting address respecting the operations of the Upper Canada Bible Society and of the parent Society. The Rev. gentleman spoke for upwards of an hour, and was greeted at the conclusion with loud applause.

Dr. HOLDEN, seconded by Mr. ROBERTSON, moved, in amendment to the Constitution, that the number of Vice-Presidents, instead of being limited to three, be extended indefinitely.—Carried.

Votes of thanks were then passed to the choir and to F. McAnnany, Esq., and the meeting separated a little after ten o'clock.

Christ Church Tea Meeting.

The annual tea meeting in connection with the congregation of Christ Church, came off last evening and resulted in a perfect success. Shortly after seven o'clock the Ontario Hall was crowded to suffocation, so that the sale of tickets had to be suspended and large numbers were unable to gain admittance. The need of a larger hall in Belleville on the ground floor is increasingly felt. It was only by the most strenuous exertions that the multitude of guests could be attended to, for the people were literally wedged together in a solid mass. The provision of edibles and potables was most sumptuous and abundant, so that in spite of the unexpected crush there was still enough and to spare. During the tea, which occupied nearly two hours, and at intervals afterwards, the Belleville Brass Band, who kindly contributed their valuable services, greatly enlivened the proceedings by a variety of musical selections most admirably executed. The Hon. Lewis Wallbridge having been called by the ladies' to the chair, expressed his high appreciation of the honor and his gratification at the splendid attendance of all denominations; viewing it as a token of sympathy and good will upon the part of the Christian public towards a free seated Church, open to all on equal terms, and sustained by the free will offerings of the people. (Applause). An exquisite quintet was then performed by Miss Davy and Messrs. Shearing, Ross, Davy and Greaves, followed by a short and pithy address from Mr. P. D. Conger, who, as Warden of the Church, gave a brief financial statement. At the tea meeting last year a movement had been set on foot to reduce the debt of two thousand dollars on the Church. $1,500, including $500 from one liberal member who did not wish his name to be mentioned, had been already paid up, the remainder had been subscribed. (Applause). Why then the present tea meeting? The admirable Sunday School Conventions lately held in Belleville had set them upon making some important improvements in their Sunday School at an outlay of over $100. He was pleased to see through their liberality the prospect of a surplus for which some outlet would without difficulty be found.—The Church, thank God, financially still continued to be a success. (Applause). A brilliant duet on the Piano was then splendidly executed by Miss Stewart and Miss C. Howard. Next followed a beautiful song by Miss Annie Murphy, of Trenton, accompanied by Miss Malo, which was rapturously encored. Then a duet for two flutes, one of the gems of the evening, by Messrs. Deans and Greaves, accompanied by the accomplished and obliging musician Mr. Wm. Jones, son of Mr. Nathan Jones. A lovely song by Mrs. John Taylor, accompanied by Miss Dacy, was most sweetly rendered and loudly applauded. A solo on the Concertina by Master Mills, was unanimously encored. A Piano solo by Miss Malo was executed in a masterly style. A song by the popular amateur Mr. Leif Crozier, was greeted with thunders of applause. A vocal duet by Miss Annie Murphy and Mr. L. Crozier, was most charming. A flute duet, a French song, by Miss Malo, and a humorous song sung with irresistible effect by Mr. L. Crozier, were all received with evident delight and ended the musical part of the programme. The Rev. Mr. McLaren in a brief speech brimful of wit and wisdom, and listened to as attentively as the music, congratulated the Pastor and the Congregation upon the evident esteem in which they were held by the Christian public. After a few words from Rev. S. Jones, a most enjoyable evening was brought to a close by singing God Save the Queen. Between 800 and 900 persons must have been present.

Latest from Red River.

ESCAPE FROM FORT GARRY—SAFE ARRIVAL AT ST. PAUL'S—BISHOP TACHE'S OPINION—HE THINKS CONCESSIONS MUST BE MADE.

ST. PAUL, Minn., Feb. 23.

Brown Wallace and Roland Macdonald, two Canadian refugees from Fort Garry, arrived here last night. They travelled from Fort Garry to Fort William, thence to Duluth, Minn., on snow shoes, and from Duluth to St. Paul by cars and stages.

Bishop Tache thinks that the Dominion must grant liberal concessions without delay, to insure peace and amicable arrangement. He believes things look critical.

To the Editor of The Daily Intelligencer.

MY DEAR INTELLIGENCER,—Though not an engineer, I have an idea that our Lower Bridge would be better without the casing which is now being partly taken off. My reasons, whether sound or not, are as follows:—

1st. It will lighten the Bridge.
2nd. You need'nt be so much afraid of being murdered without evidence.
3rd. The pressure of the wind will not be so great.
4th. You can't pass your friend or debtor without seeing him.
5th. The beauty of the structure will be apparent.
6th. By painting, dry rot will be prevented and additional durability the result.
7th. The obstruction to the view of our beautiful river will be removed.

Ever truly,
SMITH, JONES, AND ROBINSON.
Belleville, Feb. 23, 1870.

Police Court.

(Before A. DIAMOND, Esq., Police Magistrate.)

THURSDAY, Feb. 24.

VAGRANCY.

Mary Smith and John Davis, two old offenders, were committed to gaol for 60 days each, for vagrancy.

DRUNKS.

Isaac Berry and William Watson, who were found in a drunken condition on the streets last night, were allowed to depart in peace.

—A number of commercial travellers from Montreal have been taxed by the Mayor of Fredericton from $10 to $20 each, before being allowed to solicit orders there.

—The stem of the English iron-clad ram Rupert, which has just been forged, weighs nineteen tons, and is thirty feet long. A five ton hammer was used in forging the immense mass.

—The *Pall Mall Gazette* says of John Bull's faith in figures that "If a powder barrel was called 'statistics,' an Englishman would repose on it with the most perfect confidence."

—Alfred Waddinton, an English projector of an overland railroad through British North America, has arrived in Boston. He will visit Montreal and Ottawa to press the scheme upon the Canadian Parliament.

—Mr. Thornton, the Bristish Minister at Washington, has received an intimation, so it is reported, of the intention of the Queen to create him a baronet, in recognition of his distinguished diplomatic services.

THE LATEST.

THE LATE ANSON BURLINGAME.

LONDON, Feb. 23.—The Emperor and Empress of Prussia, have sent letters of condolence to the widow of the late Hon. Anson Burlingame.

American Despatches.

FRENCH REPUBLICAN BANQUET.

NEW YORK, Feb. 24.—The French Republicans had a banquet last night, in commemoration of the anniversary of the French Revolution in 1848

THE ERIE RAILWAY.

Intimations have been given from head quarters of the Erie Railway Company, showing that the resignation of Superintendent Rucker, is being considered and leading to the belief; also that other sweeping changes are to be made.

THE MISSING STEAMSHIP.

The officials of the Inman Line still entertain hopes of the safety of the *City of Boston*.

VISIT OF ENGLISH CRICKETERS.

In the latter part of August next a third visit is to be made to this country by professional English cricket players, who are represented to be far superior to the eleven that preceeded them here.

THE POSTAL-TELEGRAPH SYSTEM.

WASHINGTON, Feb. 24.—The Postal Committee of the Senate have agreed to hear Mr. Orton of the Western Union Telegraph Company to-day, in reference to the postal-telegraph system, and assumption of its management by the Post Office Department. Orton will oppose the system, and there does not appear to be much probability that either House will pass any measure looking to the management of telegraphing by the the Government.

PROPOSED REDUCTION IN POSTAGE.

Bowen, of the "Independent" appeared before the House Postal Committee yesterday, and made an argument in favor of reducing the letter postage to one cent. He presented some statistics concerning the matter, whereby a large reduction of the expense for carrying on the Post Office Department can be secured; and also stated that there were capitalists in New York city, representing one hundred million dollars, who are ready to perform the service of carrying the letters at the reduced rate of postage, provided the Government is willing to abandon this branch of the service.

CUBA.

PROCLAMATION BY THE CAPTAIN-GENERAL.

HAVANA, Feb. 23.—The Capt.-General authorizes the following statement to be made in the Official Journal:—

Information has come into the hands of the Government confirming suspicions long entertained. It is known that the agents of the Laborants, or Cubans, who are not fighting in the field, but are otherwise working against Spain, have ordered their men to join the volunteer battalions here, and under cover of their uniform to perpetrate a series of assassinations on foreigners, with the object of embroiling the Government with foreign powers. The assassination of Greenwood was part of the programme. The Government expects the loyal volunteers to aid it in exposing all traitors of this class.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœpathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 94—6mT&S

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

A GENTLE HINT.

AGENT FOR Belleville,
J. H. HAMBLY,
Apothecaries Hall.

Belleville, Feb. 16th, 1870. 315ly

PHIPPEN & GRAHAM,

HAVING secured the services of a thorough practical Soap Boiler, now offer to the public as good a quality of Soap as any in the market, which they will sell reasonable.

Merchants and Grocers wanting Soap would do well by inspecting their stocks before purchasing elsewhere.

Belleville, Feby 12, 1869. d312,w1:tf

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO. LINDSAY ONT. 221-2w

---

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *strength, vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chilblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.

51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds, BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
304d 51w 4w Montreal, P. Q.

Shoo Fly!

Oh, listen, maidens, listen—
A story I will tell
About a loving couple—
A dashing beau and belle.
I'll speak of their betrothal,
Their wedding and its cost,
Their troubles and their trials,
And how they were divorced.
Shoo Fly! Don't bother me!
Shoo Fly! Don't bother me!
Shoo Fly! Don't bother me!
Shoo Fly! Don't bother me!
For I belong to Company G!
I feel like telling sister,
I feel like telling ma,
I feel like telling brother,
I feel like telling pa,
I feel like telling Cousin Sue
And handsome Cousin Spencer
I fell like telling every one
To read the INTELLIGENCER.

Odds and Ends.

Waiter's Epitaph—He couldn't wait any longer—so he went.

A Ray that always Lights up Woman's Despair—Rai-ment.

The man whose head was fairly turned says it feels very uncomfortable in that position.

Every Cardinal is now in Rome except the Cardinal—virtues.

No miller need ever be out of employment, for he can always grind his teeth.

Shameful.—Why would a donky be a bad debtor?—Because he is more likely to pay in kicks than half-pence.

Advertisement.—Wanted, a tall policeman to be the comfort of an outlying and unprotected district. Cooks plentiful—food abundant—drinks gratis!

Reminiscence.—The old gentleman whose memory carried him a long way back, is requested to return to his disconsolate friends.

A man who bumps his head against that of his neighbor isn't apt to think that two heads are better than one.

A young woman can have no excuse for thinking her lover wiser than he is, for if there's any nonsense in him, he is sure to talk it to her.

There is a man in Boston who has such a perfect control over his face and muscles, that he can laugh on one side of his nose and cry on the other.

A Portland school-house caught fire the other day, and as the boys watched it, one from another school enthusiastically and honestly said to his companion;—'Oh, Billy don't you wish it was our school!'

'John,' said a farmer to his servant as he was taking dinner, 'do you know how many pancakes you've eaten? 'No.' 'Why you have eaten nineteen.' 'Well,' said John, 'you count and I'll eat.'

A fat man in an omnibus, a tall man in a crowd, a short man on parade, and a lady in a huge bonnet sitting before you at a lecture, are declared to be four of the most unpopular personages of the day.

A husband for whom the memory of the honeymoon seemed to have been powerless wants to know why his wife is like a small pie. Do you give it up. Because, says the unfeeling wretch, she is now a little tart.

The harvest in Australia this year promises to be so abundant that it was feared there would not be a sufficient number of farm laborers to get it in. Even the Government have been asked to suspend for a short time some of the large public works in order to release a number of hands for the country employment.

A few days ago a very starchly dressed individual called at an out-of-the-way shop on Howard Street, over which hung the sign of Dr. Jiffers. "Is the doctor in? he inquired of a dilapidated darkey who answered his summons. "He am dat, sar," was the smiling rejoinder. "Tell him I think I have symptoms of small-pox, and wish to consult him." The whites of the darkey's eyes grew intense, and his dusky complexion assumed rapidly a creamy hue. "Golly boss what you say?" 'Tell the doctor I'm sick with the small-pox, and wish to see him." The astonished African gave a wild leap, and darting through an inner door, slamming it in the visitor's face, cried out: "Leave dis yer house; I don't want no small-pox." "But the doctor?" "Golly, boss, I'se the doctor, but I ain't good at small-pox."

THE BENEFITS OF ADVERTISING.—When trade grew slack, and bills fell due, the draper's face grew long and blue; his dreams were troubled through the night with sheriff's bailiffs all in sight. At last his wife unto him said, "Rise up at once get out of bed, and get your paper, ink, and pen, and say those words unto all men, —'My goods I wish to sell to you, and to your wife and daughters too; my prices are so very low, that each will buy before they go." He did as his good wife advised, and in the paper advertised. Crowds came and bought of all he had, his bills were paid, his dreams were glad; and he will tell you this very day how well did printers' ink repay. He told us, with a knowing wink, how he was saved by printers' ink.

DR. J. BRIGGS' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

CATARRH, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

CONSUMPTIVES, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

CURE for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

FROSTED FEET, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

Fortieth Year.
GODEY'S LADY'S BOOK
For 1870.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world ever.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50

PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

NORTHROP & LYMAN

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and al Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

INTELLIGENCER BUILDING,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is [illegible] the inspiration and direct will of DIVINE PROVIDENCE, as to science. When the combination of the ingredients of this mervelous remedy known as RADWAY'S READY RELIEF, was completed it supplied a want that had ever existed, that [illegible] the best approved discoveries in Medical Chemistry or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk,

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED Attacks & [illegible]

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will, in placing an antidote within the reach of His people of all nations of the earth, who had sufficient faith to "cast their bread upon the waters to return after many days," who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere—shows that the instruments selected for His great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, the Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Billious Fever.

In the world. There is no Ague Cure Chologogue, or preparation of Quinine, Arsenic, [illegible] forms of Mercury, or in fact any remedy [illegible] that will cure this disease so positively [illegible] as

Radway's Ready Relief.

No, not one. Thousands [illegible] Quinine, Arsenic, Mercury, bottled in the [illegible] Ague Cures and Private Practice [illegible] gorged liver, [illegible] spleen [illegible] colored skin, and hundreds of other symptoms [illegible] distress. These agents never cure, but smother [illegible] disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $5, and [illegible] Ready Relief is good for hundreds of [illegible] ailments that these are not.

One 25 cent bottle of Radway's Ready Relief, diluted in one gallon of proof spirits, will give you equal in quantity and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Pain Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy and for Family Purposes will secure every household freedom [illegible] sickness, and can be used for the same purposes [illegible] would cost at least (5.00) twenty-five dollars had you to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism.
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum.
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one* of the *Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two* of the *Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, FRIDAY EVENING, FEBRUARY 25, 1870. No. 253.

OUR PARIS LETTER.

Paris, Feb. 5th, 1870.

Political Intrigues—The Corp d'Etat—The Elections and the Prefets—Protection—Victor Hugo's Plays—Continental Affairs—The Pope's Difficulties—Pierre Napoleon—The Purification of the Virgin—The Dog Tax—The Society of Authors—A Curious Case of Scandal—Row in the Observatory—Cab Regulations—Public Balls.

Napoleon the First, when adopting the eagle as the national emblem instead of the cock, alleged that the latter was a bird easily devoured by the foxes. The friends of the reigning dynasty are of opinion, that the foxes are at work on the eagle—as evidenced in the great friendship of Guizot, Thiers & Co for the new Ministers, and which, if the affection becomes more marked on the part of these Orleanist chiefs, it would be desirable to poll the nation forthwith, as to what King they would desire to live under—the Comte de Paris, or Napoleon the Fourth.—The out-and-out Napoleons believe His Majesty, in throwing himself into the system of Parliamentary Government, is marching straight to ruin. *Facilis descensus Averni.* But the Emperor is still quite wide-awake. He holds the Senate in the hollow of his hand, and when he nods to the Patricians, they will, by their extraordinary powers, pull up the chamber of Deputies, if it goes too fast. Besides, there is the *ultima ratio* in case of necessity—the army.

This possibility of employing the army in the event of a retractory chamber, has led M. Grevy to demand that the President of that body be provided with the power of calling in military aid. Should the executive attempt another "terrible surprise," as took place on the second of December, 1851, when the Deputies saw themselves transported to prison, amidst the indifference of the population. The motion was a useless precaution. The Emperor could not attempt another Coup d'Etat, and if so, there is no remedy against such, but a general insurrection. The debate evoked the spectre of the Coup d'Etat. But what a change in the House! under the dictatorship of vice-Emperor Bonher,

> "Who threw off his friends, as a huntsman his pack,
> For he knew when he pleased he could whistle them back."

Such a subject would have set the Chamber in an uproar. On the present occasion, all was calm, good temper and politeness.—On the moment of going to vote, Arago exclaimed, "Remember the second of December." Only 43 did so—against 211 who did not. It is felt that unless this event be forgotten, it is useless to attempt liberalizing France.

The conduct of the Prefets during the general elections last May, was notoriously oppressive and illegal against every opponent of the official candidate. Public opinion demanded that these satraps so offending would be dismissed, the first thing the present "honest Ministers" would do on taking office. Vain expectation. The Minister of Justice has forgotten to make his colleague at the Home Office do his duty. A few of the Prefets who had not back-stairs influence enough, have been pensioned off—a few changed, and some of the arch-offenders retained. Naturally the nation calls for another list of the proscribed, revised and corrected. It would be well at the same time, in filling up vacancies, to select prominent local men, instead of Parisians, editors and clerks, ignorant alike of the localities, their customs and wants. Why not allow universal suffrage—the great political elixir under the Empire, to appoint Prefets and their "subs?" The best men would be elected and the ablest, and a nursery of talent created. In the way of able men the famine is sore in the land.—In the Chamber of Deputies, the great body of the members are nonentities, who when the storm rages, imitate the cries of animals, and keep up a clatter with the paper knives. 'Tis true, they figure in uniform at the Court balls, and in the processions of the Fete-Dieu. But such is not what France wants. The present Cabinet is not only excellent, but indispensable, for there are no Ministers to succeed them. The measures of reform, now being introduced, originate with the "Left," as if revolution was the only fruitful source of national amelioration.

There is still a running fire kept up on the warlsome subject of protection. The Parliamentary Commission is said to be composed of twelve free-traders, twelve protectionists, and twelve indifferents. Pity the commission was not the first step taken, and thus save valuable time, that could have been devoted to the passing of improved laws.

Under the old arbitrary *regime* the plays of Victor Hugo were not allowed to be acted. Now they are, and *Lucrezia Borgia* has just been brought out. The Republican party has taken this piece under its protection, and each allusion to liberty, tyrants, &c., turned against the Emperor. The piece was written in 1833, and though well brought out, is very indifferently acted in 1870. The first night was disgraceful in the insults heaped by the pit and galleries on a spectator, M. de Cassagnac—the editor of the ultra-Napoleon journal *le Pays*. Yet not one of that *claque* dare meet this gentleman singly.

Continental matters are calm. Russia is finishing up with the armament of her *braves* with three different kinds of breech-loaders, all from native manufacturers. The Cossacks are being supplied with the most murderous of new artillery. The Pope and his differences with the Bishops, who will not swallow the dogma of personal infallibility, daily increase. The eastern bishops, elected by universal suffrage by their flocks, will not surrender this practice, and they are right. Among the *schema* less grave are the propositions for prelates to wear beards, for the abolition of standing armies, the punishment by death, and duelling.

Prince Pierre Napoleon's indictment drags its slow length along; 150 witnesses are summoned, while only *one* witnessed the deed. The Americans give a ball at the Grand Hotel, the proceeds to go to erect a monument to the Prince's victim.

The second of February is an important religious fete in France—the purification of the Virgin. It is called *chandeleur* (candlemas), because at this festival the religious formerly carried candles, like the clergy. In the south, the custom still exists. In Paris the faithful only contribute candles—very consumptive ones, too—to be burned specially in their favorite chapel, as a thank offering. Louis the Eleventh, of pious, glorious, and immortal memory, following the custom of his times, presented candles in wax equivalent to his weight and as long as himself.—The Parisians had once great faith in the burning of candles, as they manufactured one in a coil long enough to stretch round the city, and burned it at Notre Dame, to charm away the Victors of Poitiers. When the Cossacks were quartered in Paris they did not disguise their taste for tallow dips, and simply observed that the French were a very ingenious people in making *batons* of soup with cords to hold them, so that you have only to put one in the mouth, draw, and not a crumb is lost. Candlemas day is also dedicated by the French to pan-cake eating, as in other countries is Shrove Tuesday. It is believed that if you do not eat pan-cakes on this day you will have no money for the ensuing year, and borrowing money to buy them is the order of this day.

There was quite an [illegible] these last few days among the dogs of Paris. The tax collector had come down on their owners for the ten francs duty per annum, and the poor Trays—the first to welcome and the foremost to defend—were ignominiously disowned by hundreds, and being thus vagrants, were passed on to the knacker's yard.

The Society of authors has adopted a very excellent plan of reading their productions before the public, and judging of their success by their reception. This is not exactly a "Dickens' Reading"—the latter reads his published works—the authors in question, those yet in manuscript. Some authors having dashed off a few chapters of a novel or a couple of acts of a play, will take the sense of a public meeting in their work before going farther.

A very curious case of scandal will soon come before the courts, and from the respectability of the parties will make a noise. A young doctor, but a few months married, met one of his friends, and asked, "what's the news?" "Great news," replied the friend, "I too am going to put an end to myself, I am going to be married." "So much the better," added the doctor, "for it was time for you to give up that grul," an epithet applied to a young lady, *en ronte* for the *demi monde*—"Adele, who was deceiving you, as she was all the world." "Your proof," demanded the friend flashing with indignation, "it is Adele, I am going to wed." The proof given, the match broken off. But it was the doctor himself had to admit, he committed adultery with Adele. His wife has left him, and demands a separation in consequence, and Adele has taken an action for defamation. *Sic trasit gloria mundi.*

The last place in the world that one would expect a revolt or a "strike," was the Observatory—yet fourteen assistants have indicted the astronomer royal—M. Leverrier, of conduct unbecoming an officer and an astronomer. The gentleman in charge of the "equator," and his confrere who guards the "meridian," accuse their chief, in whose hands has been confided for fourteen years the cares of the heavens—of knowing nothing of his duties—of appropriating to himself the discoveries of his subordinates, and forcing them to leave, after sucking their brains. "Oft in the stilly night," he has made them submit to the insolence of office. Meantime, the case of the runaway stars has fallen to the embulatory astronomers of the Place Vendome, and the Place De La Concorde, who for two sous, permit the scientific to take a peep at the overtures of Jupiter to Venus, at the spots on the sun, and the active volcanoes of the moon.

The first salmon of the season has appeared—and brings from 15 to 20 francs a pound.—The fish comes from Scotland, in perforated wood cases, being further enclosed in a zinc case and saw dust, with a lump of ice under the head, "just like an infant in its coffin," as said a fishmonger. A French paper informs us, that on the east coast of Scotland, salmon are so plentiful, that servants, when engaging, stipulate with their masters not to be given this kind of fish to eat oftener than four times a week. *Toujours perdrix.* Would that such domestics could exchange their hard lot with some of our luxuries, for sirloin of horse or donkey cutlets; snails ready for grilling in their shells; a few skewers of frogs-thighs, or steaks from Russian bears.

The Kilometric system of regulating accounts between cabby and the public, does not work well. The dials have the unfortunate habit of going faster than the cab.

> "Like damaged clocks, where hands and bell dissent,
> Science says six, while practice points to twelve."

A gentleman hired a cab lately, and having taken his seat, had to wait some fifteen minutes, while the driver was *tuant le ver*, or in

(*Continued on second page.*)

CANADA

Life Assurance Company.

POLICY HOLDERS in the "Canada Life" are not compelled to surrender their policies even if unable to pay their premiums, as the Company will lend the holder a sum nearly equal to the reserve in hand. This, in the case of the older policies, *even at ordinary life rates*, will cover several years premiums, the policy *remaining valid* for the benefit of the assured.

Foreign offices do not extend this aid to their policy holders.

Policies five years in force, upon which age has been admitted, are

Indisputable on any ground whatever,

Subject only to payment of premiums which may become due.

SPECIAL FEATURES.

ECONOMY—

Giving more assurance, for the same money than other Companies.

HOME MANAGEMENT—

HOME INVESTMENTS—

Every advantage to policy holders which is compatible with sound management and ultimate safety.

A. G. RAMSAY, Manager.

Agent at Belleville,
W. J. SMYTH. 137-9m

other words, finishing his glass. Judge of the gentleman's surprise to find the dial had already debited him with having travelled nearly half a mile before the cab had moved!

Two railway porters on the Lyons line, and belonging to it, were as usual, supplied with passes for the second class. Determined to make themselves comfortable, they selected the first class. When the guard came to examine their tickets he was very angry, but the porters begged him to be cool, as they all belonged to the "family." "Do you, Sir," said the guard addressing a passenger muffled up in a corner, "also belong to the family?" "Yes," replied the passenger laughing, "I am the father of it—I am the Chairman of the Company."

There are 500 public balls open every Sunday, in and around Paris.

OUR PARIS LETTER.—Our weekly letter from Paris will be found on the first page of to-day's issue. It will repay perusal.

VICK'S CATALOGUE.—Mr. Vick, of Rochester, N. Y., has sent us his annual illustrated catalogue of flower seeds and bulbs. It is an invaluable assistant to persons who desire to procure seeds, &c., for the flower garden.

THE NORTH-WEST—The Minnesota Legislature has taken a more friendly course towards Canada in the Red River affair than was generally expected. At the meeting on the 23rd they postponed, indefinitely, the resolution expressing sympathy a the Red River people, and refused to ass the resolution protesting against the ssing of foreign troops over Minnesota o.

HE FLOOD.—The river to-day made a her rise of about ten inches, thereby ing the hopes of several parties on the est Belleville flats, who had trusted to scape the inconvenience attending a watery visitation. A considerable number of removals to second storeys took place to-day, and the travel has been stopped on two or three streets. On the Eastern side, also a rise has taken place, and a quantity of grain in storehouses near the wharves has been all but destroyed.

SAD ACCIDENT.—A most heart-rending accident occurred near Frankford, which resulted in the death of a son of William Irvin, on Thursday, February 24th. The young lad, a bright intelligent fellow, had been left at home alone, while his parents had gone to Belleville, and at noon he came home from school, and it seems proceeded to the barn yard to feed the stock. He had probably got on the straw stack, and while engaged in cutting some straw with a large heavy "Hay Knife" he had backed off the stack and fell to the ground, a distance of seven or eight feet, and the heavy knife falling after him struck him on the left breast, a little over the heart, cutting a gash four inches long and three or four inches deep into the lung. The poor little fellow seems then to have got up and attempted to make his way to the next neighbor's. But he had proceeded only 20 or 30 yards from the front gate when he had evidently fallen on the snow by the road side from exhaustion. There he lay for half an hour or so, until a lady drove by in a cutter. On her asking the matter he said he had cut himself with a sickle. She then drove on a couple of hundred yards to Mr. Donnelly's, whom she called out. Mr. Donnelly hastened up and found the little fellow lying by the road, and he immediately carried him in and sent for Dr. Oronhyatekha. But before the *arrival of the Doctor*, the sufferer had expired. It was found on examination that nearly the whole of the left lung was protruding through the wound.

Police Court.

(Before A. DIAMOND, Esq., Police Magistrate.)

FRIDAY, Feb. 25.

ASSAULT CASE.

Robert Green, of Stirling, for assault and battery committed on Robert Crosby, of the same place, was fined $5, and deposited that amount to the credit of the town.

MARKET BY-LAW.

Edward Britton was fined $1 for infringement of the Market By-Law.

DRUNK AND DISORDERLY.

Ellen Sheehan was charged with being drunk and disorderly, but the case was dismissed.

VAGRANCY.

Julius G. Farmer was brought up under the vagrant Act, but was allowed to go, having found employment.

—Heavy robberies have for some time been perpetrated on some of the leading wholesale dry goods and hardware houses in Toronto, by a carpenter named Kingswood and his associates. The *modus operandi* seemed to have been to obtain duplicates of the keys of the doors in places where the thieves have been employed.

—A stormy scene occurred in the French Chamber yesterday. M. Ollivier announced the intention of the Government to abandon the system of placing in the field and supporting the candidates for the Chamber. The ministerial supporters opposed this, and a vote on the question resulted in the Government being defeated by 187 to 53.

Consistency.

Truly Sir Francis Hincks has, like the original Rip Van Winkle, of whom he is a fitting prototype, found but few friends since his return to his former place of abode. Few hands were extended to clasp those of the aged wanderer, and scarce a smile wreathed the countenances of those who succeeded in calling to mind the political magnate of the by-gone days, when Sir Francis returned to the scene of his former disgrace. From being honored and courted as the representative of Her Majesty in more than one colony, he came back to Canada to find his friends grown so cold as to compel him to ally himself with his former most earnest opponent, and it is now matter of history how that alliance was received by the press and the people of this Dominion. But, if the ex-Governor found no friends on his own account, he has found a few who are ready to clasp him to their bosoms at the bidding of his leader in the Government. That these did so under a sort of submissive protest at first is true, but familiarity with the process has greatly diminished the repugnance at first experienced by these self-sacrificing patriots.

Among the first of the journals in this Province to denounce the appointment of the Finance Minister was the Kingston *Whig*; but its indignant protest turned out to be "all sound and fury, signifying nothing;" for two or three days afterwards it was found to be contentedly chewing its leek, having "taken its groat in earnest of"—something more substantial to follow. Having reconciled its elastic conscience to this mode of procedure, the *Whig* seems to think that other papers should follow its example, and its issue of Thursday contains the following reference to the course of the *Intelligencer* in the matter:

> "The Belleville INTELLIGENCER's opposition to the Ministry, with Sir Francis Hincks in it, is very fierce. It goes a little too far; because however much all Conservatives may regret it, still, *since he is placed in it by Sir John A. Macdonald*, he must be tolerated if not sustained."

Now here is political morality with a vengeance. Because Sir Francis has been appointed by Sir John A. McDonald, he must be tolerated, if not sustained! This may be a fitting course for our Kingston contemporary, whose only creed in politics is to follow the lead of the member for Kingston, go where he will. We, on the contrary, adhere to the compact made between the great parties at the dawn of our new political existence, and that agreement we will continue to maintain until no further necessity for its continuance exists.—Having chosen our course, we will consistently follow it, irrespective of the pleadings of the *Whig* or the lashings of the *Leader*.

The Government Banking Scheme.

Sir Francis Hincks has announced his intention of bringing down his banking resolutions on Tuesday next, and will follow them with a bill on Friday. The correspondent of the *Globe* gives the following as some of the leading features of the scheme: All Bank Charters to be renewed for twenty years. The paper circulation of each Bank to be limited to the amount of its capital. Government will claim the circulation of bills of one and two dollars which are legal tenders. Bankers to hold a large part of their revenues in legal tender of large denominations. It is supposed that the Banks will probably be offered as equivalents for these exactions the exemption from Government Tax, and from holding Government Debentures. It is supposed that the Government will obtain from eight to ten millions at once from the scheme.

The Public Works.

The report of the Hon. Mr. Langevin, Commissioner of Public Works, was presented to Parliament on Wednesday, and contains a full review of the works of the country. It opens by stating that the St. Lawrence line of navigation extends from the Straits of Belleisle to Fond du Lac at the head of Lake Superior, a distance of 2,384 miles, and comprises 7 canals, of a total length of 70 miles, with an ascent of 536½ feet, by means of 54 locks, all of which are deeper and larger than the corresponding locks and canals in American territory. At the head of Lake Superior, or rather a few miles from it, may be found a chain of lakes and rives which extend to Red River a further distance of 433 miles, 305 of which distance can be made available for navigation, and the remaining 137 utilized by portages. Work was commenced on this route in the fall of 1868, and the operations are now considerably advanced. With regard to the Parliamentary Buildings at Ottawa, no important work during the year was undertaken. Plans are now under consideration for the completion of the library and central tower. The work of finishing the terraces has been proceeded with. Repairs to the roofs have been called for, and under all these several heads (including furniture) $26,349 have been expended. The railways of the Dominion are also referred to at length by Mr. Langevin. The cost of the railways from St. John to Shediac, 180 miles, had been, up to 30th June, 1869, $4,674,807; that of the road from Halifax to Pictou, and the branch line to Windsor, $6,699,647. In Nova Scotia 85 miles of road were under construction, and in New Brunswick 176½, and both systems were receiving grants from the Dominion Government.

An appendix, containing Mr. Rubidge's report on the public buildings, is attached to the Minister's report.

Parliament Yesterday.

In the House of Commons a large amount of business was got through with, and debating was indulged in only to a small extent.

Hon. Mr. Howe laid on the table papers connected with the North-West Territory.

Sir Geo. E. Cartier said he deplored the conduct of the insurgents at Red River, and condemned it.

Hon. Mr. McDougall acknowledged the wisdom of making the explanation, complained of the inefficient accommodation afforded to the reporters, and justified his conduct in the Manitoulin matter.

Sir John A. Macdonald had proved that the charges mentioned were mere unfounded calumnies; but he considered that the honorable gentleman could afford to disregard these as well as the other stories that had been set afloat to injure him.

Mr. Mackenzie said the blame of making these charges rested with the Ministerial papers.

Sir John A. McDonald said the first paper which opposed Mr. McDougall and suggested his recall was the Toronto *Globe*.

Sir John A. McDonald introduced a Bill respecting elections, which was read a first time.

Hon. Mr. Langevin introduced an Act to extend the powers of the Dominion Arbitrators.

Mr. Jones (Leeds and Grenville) moved for a statement of costs and charges connected with the office of the Intercolonial Railway.

Mr. Mackenzie moved for copies of correspondence between the Government and the trustees or stockholders of the Upper Canada Bank. He was afraid the entire available assets would be wasted unless the matter could be closed up speedily. He was informed that the expense of winding up had amounted to $14,000 annually for the last three years, and this had only been reduced by $2,000 or $3,000.

Sir Francis Hincks had no objection to the production of the papers. The liquidation was in an unsatisfactory state, but the most important part of the assets was in real estate, which it might not be desirable to realize immediately.

The House then adjourned till Monday.

News Condensed.

—The steamship "Austrian" arrived at Portland yesterday.

—The Dunkin Bill has been carried in Ernestown by a majority of 101.

—The Chinese own one-tenth of the real estate in San Francisco.

—There are women barbers in a shop on Michigan street, Chicago.

—Sir Francis Hincks proposes to fix the value of sovereigns at $4.86.

—Garibaldi announces that he will visit London some time in March.

—The commercial treaty between Austria and Great Britain has been ratified by both Governments.

—It is positively stated that the Royal Canadian Rifles are to be disbanded on the 31st March.

—It is understood that Mr. Haycock has given up his contract for section six of the Intercolonial railway.

—A man named Duboise, who had shot another man without reason, in Colorado was overtaken by a moba nd lynched.

—It is expected that Mr. Greely, M. P. P. for Prince Edward, will receive the appointment of Sheriff of that county.

—The Grand Trunk Railway has reduced the freight on flour from Montreal to Halifax, 10c per bbl. $1 is now the rate.

—The crude oil sent abroad by Pennsylvania last year amounted to $25,000,000 in value, more than half the value of gold export of San Francisco.

—The Lord Mayor of London, at a recent meeting to promote emigration, estimated the number of skilled workmen out of employment in England as between 70,000 and 80,000.

—The By-law of the Kingston and Madoc Railway has been printed and circulated in Kingston, prior to the appeal to the electors.

—A boiler exploded yesterday afternoon in the refinery of Englehart & Co., London, seriously injuring one man and slightly hurting several others.

—The Erie Railroad has compelled all its station agents to give bonds, varying from $1,000 to $10,000 for the faithful and honest performance of duty.

—A substance has been found in Pancake Mountain, Nevada, which is said to resist intense heat better than anything heretofore discovered, and it is to be used in lining smelting furnaces in the silver mines.

—A Quebec paper asserts that $400,000 or $500,000 in Canadian five, ten and twenty cent pieces, coined some years ago, is hoarded in the banks of the different banking houses in the Dominion.

—The performance of a dramatized version of the story of the persecuted nun of Cracow, in Rotterdam, occasioned a collision between the Roman Catholic and Protestant elements in the audience.

—It is reported that a four-oared race for the rowing championship of the world, has been arranged between the "Paris crew" of St. John, N. B., and the English "Tyne crew," to come off at Lachine during the coming summer.

—It is stated that Dr. Lewis, the Bishop of Ontario, proposes removing his see from Kingston to Ottawa, and has already with that view taken a house in New Edinburg. It is intended also to build a Cathedral in the Capital.

BY ATLANTIC CABLE.

ENGLAND.

House of Lords.

SHORT TIME BILL.

LONDON, Feb. 24.—The Peers had a short discussion upon the Bill for regulating the hours of labour, and adjourned early.

House of Commons.

COMPULSORY PILOTAGE.

The Bill for the abolition of Compulsory Pilotage, introduced on the first day of the Session, passed its second reading and was referred to a Select Committee.

WAR OFFICE REFORM.

The subject of reform in the War Department was discussed with some bitterness.

THE DIVORCE CASE.

LONDON, Feb. 24.—In the Mordaunt divorce case counsel on both sides made closing arguments. To-morrow the Judge will deliver the charge and give the case to the jury.

ELECTION RIOTS.

The elections at Waterford and Nottingham have been attended with scenes of violent excitement. In both places disturbances have ocurred and persons been roughly treated.

BANK RETURN.

The weekly report of the Bank of England shows an increase of £125,000 in bullion since last report.

LEGAL TENDER.

The *Times* also has an editorial on the subject of the recent decision by the Supreme Court of the United States, in the matter of legal tenders, asserting "That decision has restored English confidence in American justice."

THE LATEST.

ITALY.

AMBASSADOR TO WASHINGTON.

FLORENCE, Feb. 24.—Comde Cord has been appointed to succeed Cerruti as minster of Italy at Washington.

FRANCE.

CELEBRATIONS IN PARIS.

PARIS, Feb. 25.—Political news unimportant. The celebrations yesterday of the proclamations of the French Republic in 1848, were very orderly. The police did not disturb the meetings anywhere.

For The Intelligencer.

The Dunkin Act in Sidney.

The first public meeting of those opposed to the passage of the Dunkin Act was held in Golding's Hall, Frankford, on the evening of the 18th inst

The Hall was just comfortably filled with empty benches at the time the chair was to be taken. Among the most prominent of those present, we noticed James Cullen, W. Craske, William Corbett, David Pace and A. Dunlop, Esqs., and others. After waiting for over an hour for an audience, those present proceeded to business by electing Wm. Corbett, F. Frazer, K. Grass, W. Williamson, and others.

The eminent Barrister then took the platform, and in a clear, logical and demonstrative manner showed the evil effects of Temperance, [illegible] right of every Briton to make a swine of hisself," and which right is guaranteed by the Constitution to every one of Her Majesty's liege subjects.—He next discussed the Dunkin Act as to its legal bearings, and attempted to show that Esq., chairman, and James Cullen Secretary.

The Chairman stated the object of the meeting. After which the Secretary, James Cullen, Esq., read letters of apology from J. the law was wholly illegal, and advised his audience that if the Temperance Fanatics of Sidney passed this Act, that he would be prepared to appeal to the Privy Council in England, where, if no where else, he was sure the liberty of the subject would be protected.

The speaker, after an hour's speaking sat down amid deafening applause.

The next speaker who was announced, was Boniface himself. The short, but pithy and pointed address was received by the entire audience with the utmost enthusiasm. We can give but a resume of his remarks, and they were "What'll you have," "What'll you have?" repeated several times with considerable *spirit* and power.

We understand that some of the audience were so overcome by this powerful address that they were unable to pursue their ordinary avocations till late the next day.

Several other speeches were delivered, but space forbids our making mention of them at this time. At the close of the meeting the Chairman asked for a vote on the Dunkin Act, when there were seven votes recorded against it, whereon the Chairman announced that the meeting was *unanimous* against the Act.

Ever thine,

MIKE.

Frankford, Feb. 23, 1870.

'John,' said a farmer to his servant as he was taking dinner, 'do you know how many pancakes you've eaten?' 'No.' 'Why you have eaten nineteen.' 'Well,' said John, 'you count and I'll eat.'

RED RIVER.—People will prophesy that if this settlement is to be a success, it should now be prosperous and self-supporting. Such folks forget that Ontario was aided at its settlement by a generous Government for three consecutive years, and is it not now a success? The virtues and advantages of a colony are not so early testified and established as are the undeniable curative properties of the great Shosonees Remedy for the respiratory and digestive organs. For sale by Druggists. 51-4w

NOT QUITE SO.—It is among the most savage and debased tribes only that the condition and comfort of the horse has been neglected, but we believe there are many in civilized countries who are guilty of the same neglect, and without the excuse of the former; here all may avail themselves of the use of an article which has done more than anything else heretofore known to improve the condition and relieve the suffering of the horse. Those who will not use it will be the losers, their horses the sufferers; to avoid both use 'Darley's Condition Powders and Arabian Heave Remedy,' and you will be satisfied with the result. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ontario, proprietors for Canada. Sold by all medicine dealers.

BLANKS of every description for sale at *The Intelligencer* office.

American Despatches.

GREAT FIRE IN GALVESTON.

GALVESTON, Texas, Feb. 24.—A fire last night destroyed the block of buildings on the south side of the strand, between Tremont and 22nd Streets. Many houses were of little value, but filled with large stocks of goods. Loss estimated at $1,000,000.

THE ALABAMA CLAIMS AGAIN.

WASHINGTON, Feb. 25.—Every day that passes adds strength to the belief that a new basis for settlement of the 'Alabama' claims has been suggested. The subject has not been very generally broached, but the Senate Committee on foreign relations is understood to have the matter in hand and when opportunity offers will promulgate it in all its entirety. A prominent member of the Committee has openly declared that a new basis of settlement is on foot, with which the public is entirely unacquainted and which will fall like a bombshell when the proper moment arrives. A cash basis of settlement is understood to be the one alluded to.

ERIE RAILWAY AFFAIRS.

NEW YORK, Feb. 25.—It is stated that the Erie Railroad Company has offered $600,000 for the ground on which the Protestant Episcopal Theological Seminary stands on, fifth avenue, with a view to erect a monster Railway depot on the property. The Erie cars it is stated, also are intended to cross the River from Jersey by running under the bed of the river in a gigantic tunnel.

THE MONARCH.

It is stated that the officers of the Brooklyn Navy yard have invited Capt. Commerell and the officers of the 'Monarch' to a grand ball and supper, to be given within the precincts of the Brooklyn navy yard, and that Capt. Commerell and his officers have accepted the invitation.

WRECK OF THE "MORNING STAR."

SAN FRANCISCO, Feb. 23.—The missionary packet, 'Morning Star,' was wrecked on Ibionga Island, on October 18. She is a total loss. Her passengers, among whom were the Revds. J. F. Payne, G. B. Snow, and A. A. Sturges and family, were saved and taken to Honolulu by the English brig, 'Annie Porter.'

EARTHQUAKE.

There have been several severe shocks of earthquake on the Island of Hawaii. The summit of Manualoa is shrouded in smoke, indicating that the fires in the crater are again active.

OUTRAGES ON CHINESE.

There were numerous outrages on Chinamen yesterday. In one instance a fearful riot was imminent, but the heavy rain and a large police force dispersed the mob. Several persons were injured while attempting to rescue Chinamen from danger.

DISTRESS AMONG LAKE SUPERIOR INDIANS.

CHICAGO, Feb. 24.—Captain Brown Wallis, late of the British army, who arrived in St. Paul yesterday from Fort William, says that the Indians throughout the region of Lake Superior are starving to death. Fish cannot be found in the shallow water, and partridges and reindeer were never known to be so scarce. The Chief Warden of the Hudson's Bay Company, at Fort William, had sent a train of provisions to Dog Lake for the Indians, but many must die before the relief reaches them. The country is covered with snow and the weather is very cold. A refugee was taken and [illegible]

ARRIVAL.

NEW YORK, Feb. 25.—The steamship 'St. Laurent,' from Brest, has arrived.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks: —"The singular success which Mr. Epps attained by his homœpathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 94—6mT&S

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

PHIPPEN & GRAHAM,

HAVING secured the services of a thorough practical Soap Boiler, now offer to the public as good a quality of Soap as any in the market, which they will sell reasonable.

Merchants and Grocers wanting Soap would do well by inspecting their stocks before purchasing elsewhere.

Belleville, Feby 12, 1869. d312,w1:tf

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO. LINDSAY ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, vigor and new life to the whole system. For *Dyspepsia, Debility and Female Weaknesses*, etc., it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chilblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.

51-30d 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds, BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors.
304d 51w 4w Montreal, P. Q.

BRIDGEWATER

COTTON & WOOLLEN FACTORY

THE subscriber offers to grant splendid water power for a Cotton and Woollen Factory combined, or separate, at the thriving Village of Bridgewater, to a Company, or Companies, to be formed to erect the same.

The power is superior, as a constant supply of water can be obtained to work the Factories the year round.

The facilities for building are good, as the best material can be obtained on the premises.

A Prospectus for the formation of a company, or companies, will soon be issued, and Stock Books will be opened at Bridgewater, Belleville, and other places.

Cautions for those Having Sheep.

We copy the following excellent suggestions about sheep from a circular issued by F. C. D. McKay, Esq., the general agent of the American Emigrant Company who have already over 10,000 sheep scattered among the farmers who purchased land of them in flocks ranging in size from fifty to two hundred head.

1. Keep sheep dry under foot with litter. This is even more necessary than roofing them. Never let them stand or lie in mud or snow.

2. Take up lamb bucks early in summer and keep them up until December 1st, following, when they may be turned out.

3. Drop or take out the lowest bars as the sheep enter or leave a yard, thus saving broken limbs.

4. Count, every day.

5. Begin graining with the greatest care and use the smallest quantity at first.

6. If an ewe looses her lamb, milk daily, for a few days, and mix a little alum with her salt.

7. Let no hogs eat with the sheep—by no means in the spring.

8. Give the lambs a little "mill-feed" in time of weaning.

9. Never frighten sheep if possible to avoid it.

10. Sow rye for weak ones in cold weather, if you can.

11. Separate all weak, or thin, or sick, from those strong, in the fall, and give them special care.

12. If any sheep is hurt, catch it at once and wash the wound, and if it is in fly time apply spirits of turpentine daily, and always with something healing. If a limb is broken, bind it with splinters, tightly, loosening as the limb swells.

13. Keep a number of good bells on the sheep.

14. Don't let the sheep spoil wool with chaff or burs.

15. Cut tag-locks in early spring.

16. For scours, give pulverized alum wheat bran—prevent by taking great care in changing dry for green feed.

17. If one is lame, examine the foot, clean out between the hoofs, pare the hoof if unsound, and apply tobacco, with blue vitriol boiled in a little warm water.

18. Shear at once any sheep commencing to shed its wool unless the weather is too severe, and save carefully the pelt of any sheep that dies.

19. Have some good work by to refer to at least; this will be money in your pocket.

◆

A correspondent sent to the New York Farmer's Club, for answer, the question what is the comparative value of corn and potatoes as food for stock? One of the members gave the following answer to the question: "Dry corn contains from eighty to eighty-five per cent of nutrive matter, a considerable part of which is nitrogenized and helps to make red flesh while the starch and sugar tend to make fat. Average potatoes have some twenty-seven per cent of nutrition and with the exception of less than one-half per cent of albumen, this is mostly starch. In round figures, one bushel of corn would be worth as much as four bushels of potatoes."

◆

The collection and application of manure should go on continually, for the grases and cereals and all kinds of cultivated plants make an annual draft on the soil for the ingredients which enable them to build up their foliage, stems and seeds. No liquid or solid manure suited for enriching the soil should be allowed to go to waste about the household. Soapsuds, wood ashes, soot, charcoal, sawdust, &c., may be applied to the soil with benefit to the crops.—Leached wood ashes are very useful for top dressing grass land, deepening the color of the plants and increasing their productiveness, so much as to double the acreable yield of hay whenever they are applied in sufficient quantities.—*Priarie Farmer.*

SPECIAL NOTICE.—MORRISBURGH, Sept., 1869.—Gentlemen,—Suffering from the prostration and weakness caused by a severe attack of Influenza, the past winter, I was induced to try your Sarsaparillian Resolvent as a restorative, and its effects were most satisfactory. I therefore, conscientiously recommend it as a thorough purifier and invigorator of the humam system, thus giving increased health and vitality to the weary invalid. (Signed), MRS. JAMES GLASSFORD.

A WANT SUPPLIED.—The public have long felt the want of something that could be depended upon for the cure of rheumatism, sprains, bruises, neuralgia, bowel complaints &c., and we are happy to say that that want is now supplied in the shape of the "Canadian Pain Destroyer. It is truly a most wonderful medicine, and one that effects an immediate and premanent cure in all cases for which it is recommended. Sold by all Medicine Dealers.

BRYON'S WAFERS, (The great public remedy) have now been in use over twenty years, hence it cannot be said that they are on trial. They have been thoroughly tried, and pronounced (on the authority of those whose lives and health they have preserved) to be a pure, harmless and eminently salutary preparation, and if taken in season will invariably cure coughs, colds, sore throat, and all Bronchical affections. One fair trial will convince the most sceptical. Sold by all medicine dealers, at 25cts. per box.

CATARRH, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

CONSUMPTIVES, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

CURE for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

FROSTED FEET, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

Fortieth Year.

GODEY'S LADY'S BOOK
For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50

Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets, PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

NORTHROP & LYMAN
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and al Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

INTELLIGENCER BUILDING, Front Street, Belleville. }

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE, as to science. When the combination of the ingredients of this mervelous remedy known as RADWAY'S READY RELIEF, was completed it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain, but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first at our own risk,

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED attacks of [illegible]

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to wait for their [illegible] were the waters to return after many days [illegible] content to spread out before the world the [illegible] purity, and miraculous quickness of this remedy, until such time that its wonderful virtues [illegible] household necessity every [illegible] instruments selected for [illegible] work [illegible] the [illegible] their duties in this [illegible] infallible curative powers of Radway's [illegible] the people of all nations have been [illegible] Pestilence in all forms; and as regards PAINS *that are common* to all, be Ready Relief in a few minutes will stop

---

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty of engorged liver, enlarged spleen, disordered kidneys, discolored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $5 and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief, diluted in one Gallon of proof spirits, will give you equal in quantity, and superior in quality to 144 bottles of the 25 cent Pain Remedies, Pain Killers, Embrocations, Panaceas, Killers, &c., all these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom from pain, sickness, and can be used for the same purposes that would cost at least ($25) twenty-five dollars had to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza.
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two of the Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by HENRY STEPHENS, F.R.S., Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols., Royal Octavo, 1600 pages, and numerous Engravings. Price $7. By Mail post-paid $8.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 3. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, SATURDAY EVENING, FEBRUARY 26, 1870. No. 254.

Keep a Light Heart in Your Breast.

Troubles and cares in this wide world of ours,
Striving will speedily banish ;
Cringe not in fear when life's thundercloud lowers,
Meet it with smiles, and its once dreaded showers
Soon will in rainbow hues vanish.
Ponder not sadly on ills past recalling !
Care is a sorrow and comfortless guest ;
Half of the troubles you fancy appalling,
Flee if you keep a light heart in your breast.

Work with a purpose and work with a will—
Idleness breeds melancholy ;
Work, that the world may see proof of your skill ;
But should huge obstacles encompass you, still
Fret not, remember 'tis folly
Pondering sadly on ills past recalling ;
Care is a sorrow and comfortless guest ;
Half of the troubles you fancy appalling,
Flee if you keep a light heart in your breast.

Does thy pursuit after Riches or Fame,
Meet not reward for endeavor ?
Brooding will but to thy failure add shame—
When pockets feel light let the heart feel the same ;
Heed me, 'tis wrong to be ever
Pondering sadly on ills past recalling ;
Care is a sorrow and comfortless guest ;
Half of the troubles you fancy appalling
Flee if you keep a light heart in your breast.

Hast thou won glory, and honor, and power ?
Let not grim selfishness smother
All thy best feelings—remember the hour
When thou wert battling at the gate of the tower ;
Think of thy less favored brother
Pondering sadly on ills past recalling ;
Care is a cold and comfortless guest,
Aid him to vanquish his troubles appalling,
Help him to keep a light heart in his breast.

The Heart of the Home.

All really useful and happy homes have a heart-centre towards which every member gravitates, drawn by attraction resistless because unfelt. The house band that surrounds, strengthens and protects, is usually the husband and father; the house-heart is usually the wife and mother. More than several times have we known the weak, the sick, the needy one of the family to become the house-heart *to* and *from* which the activities of every member were in steady circulation.—For her room the best in the house was chosen. The stately parlor gave up its best chair and picture. To that room came the first flower, the first berries, the first fruit of the orchard or vineyard. The newspaper came into that room first of all. There the father "reported" when returning, and left his good-bye when going. Thither the young girl dressed for a party, went to be admired in the household heart. Thither the sons have come thrice a day fresh with the last excitement and stories from the street. For her the concert, the lecture, and the sermon have been listened to and a story of them brought home. Her need has wrought a gentleness and unity through the whole family. Her tranquil judgment has tempered hasty speeches and taught the way of impartial thought. Around her chair, or couch or bed, as around an altar thrice consecrated, have come the daily worshippers, with Scripture, song and prayer. And so through years of chastened enjoyment and trembling hope, this family has found training in a life of unity, purity and love. The house has had a heart. The passers-by said "afflicted." But the dwellers knew that the afflictions was working out fruits most peaceable and rewards eternal.

The heart ceased to beat, the room was empty. The errands and services of love ended. And the stricken ones stood together, and with voices low and earnest bowed and prayed; by the memory of the past, by the ache and emptiness of this hour, and by the hope of the future, we owe a holy living to the Lord; and we beseech Him that in His house of many homes, we may have one, and may she be the heart of it. Amen. *Blessed are they that mourn.*

Crime at Home.

So long as the great crime against our homes is practiced—even, alas! in professedly Christian homes—so long such protests as these are in place:

God, by His providence, inflicts His curse upon every violation of family faith, whether by practice or by legislation. A family fashioned by divine precepts is a little heaven.—But a man living with the responsibilities of a husband and a father without the fear and the love of God in his heart, socially lord and legally lord over a woman and children, such as women and children are in fact, and what sort of a chance is there that he will continue worthy of the name of the father and husband? Let your newspapers tell you, but they only speak the better part. Let the secret practice of the medical profession (not always so secret either) tell how many wives have fallen victims to a husband's tyranny and filled early graves either beneath the sod or above it, the former the more quiet and honorable of the two. One such victim, writhing in agony as she was borne from the private room of a physician, exclaimed, to the dismay of her husband: 'They murdered me when I did not know it.' Yes, he enticed here by a fiending a lie to submit to the nameless deed that bore her through a week's agony into an untimely grave. Highway robbery is not half so cruel as family murder is—and children yet unborn killed by a father's cruelty and, buried like the assassion's victim, where no eye can find them.—Deeds black as hell are recorded against men who idly dream that the family veil conceals their awful guilt.

Nor is the matter much improved when woman usurps the place assigned to man, and acknowledges no lord but herself, and wants the male title to characterize the usurped position. When the place and work of this unnatural arrangement interfere with the functions of the noblest office of woman in motherhood, the most unnatural of crimes is recorded against the tenderer sex. Verily, Jezebel was a saint, when compared with these fashionable murderesses. The very blackest of crimes occur in the family, this most holy of earthly communities. They increase in frequency, and before what tribunal shall they be exposed—if not at that of enlightened Christian sentiment?

Hereditary Appetites.

If a man *will* drink in spite of the certain harm to themselves, they ought to be restrained by the thought of the no less certain harm they will transmit to their children. Dr. Elam, in his 'Physician's Problems,' discusses hereditary appetites and establishes the fact with a fearfulness of certainity that the sins of the intemperate father are visited upon the children. In his words, 'The annals of vice teem with illustrations of this fearful inheritance; in selecting cases there could be no difficulty, save that of choice.' He quotes cases and opinions on record to show the ineradicable nature of an inherited tendency to drink, of M. Morel, than whom no living writer has entered more deeply into these important investigations says: 'I have never seen the patient cured of his propensity whose tendencies to drink were derived from the hereditary predisposition given to him by his parents.'

The Missing Steamer "City of Boston."

The New York *Times*, of Tuesday, says that Captain Brooks, of the *City of Brooklyn*, which arrived at New York, on Sunday evening, reports strong easterly gales during the whole of the voyage, and the officers of ships which arrived on Monday, report heavy ice fields on the course the *City of Boston* must have taken. The propeller attached to the vessel is a new two flange one, fitted during her last visit to New York, her original three-flange propeller having been broken during the last voyage from Liverpool. Captain Brooks is of opinion that the strength of the new propeller would not be sufficient to enable her to make headway against the adverse winds which she must have encountered, and, therefore, that the worst to be feared is that she has been driven out of her course; but he and other Captains recently arrived express confident opinions that she will ultimately reach Liverpool safely.

The missing steamer was built by Messrs. Todd & McGregor at Patrick, near Glasgow, and was launched on the 15th of November, 1864. She is a remarkably fine specimen of naval architecture, having, like the rest of the numerous fleet belonging to the Inman Line, been built with especial care, and has always received the highest premium at Lloyd's, and been ranked to the highest classification by the Association of Underwriters in Liverpool.

In her general build and aspect the *City of Boston* bears a strong resemblance to the splendid steamer, which in speed rivals those of the Cunard Line, the *City of London*, belonging to the same Company, and as well as the others which constitute the Inman fleet, she is large, commodious and handsome, and is propelled by engines of great power. The *City of Boston* is an iron vessel, and in her construction the greatest care was taken in selecting the very best material as regards tenacity and strength, while every attention was paid to secure speed, safety and comfort to all on board of her. Besides being a mail steamer she is designed as a passenger ship of the first order, and is 305 feet long in the keel and four rake, and measures 332 feet in length over all; her moulded beam width is 39 feet, and she is 27 feet 6 inches deep in the hull, from the bottom of her hold to the spar deck. She is of 2,278 tons of the old measurement, and is propelled by two engines of 300 horse power (nominal), and was built with a three flange propeller, but the engines are capable of working up to considerably more than 600 horse power.

The *City of Boston*, like the rest of the Inman fleet, is ship rigged, a large spread of canvass being assigned to her to act in aid of her propellor in securing steadiness and speed in sailing. The ribs, beams, and plating of this fine vessel are all exceedingly strong, and built of the best material; the whole of the framing is securely bound together by heavy stringer plates and ties, and the ship is transversly divided into eight compartments by seven strong and well secured water tight bulkheads, which reach from the kelson to the upper deck.

Every department connected with the management and working of the ship, which is under the command of Captain Halcrow, is of the very best discription, and consequently every hope is entertained of her ultimate safety. She is provisioned for fifty-eight days, and this part from her cargo, which consists in a great measure of supplies of food.

FRESH OYSTERS.

Montreal Time.

Daily Intelligencer.

BELLEVILLE, SATURDAY, FEB. 26.

Board of Agriculture.—At the annual meeting of the Ontario Board of Agriculture, Hon. D. Christie was elected President, and Hon. Jas. Skead, Vice-President.

More Railways.—A movement is on foot to construct a Railway from Toronto to Lake Erie, passing through Streetsville, Milton and Brantford Brantford promises a bonus of $100,000.

Dunkin Bill in Sidney.—The polling in Sidney on the Dunkin Bill, commenced to-day, and will be continued on Monday. We learn that about three o'clock there was a majority of about 60 in favor of the Bill.

Belleville Amateurs.—We would again remind our readers of the performance of the Belleville Amateurs, which takes place in Ontario Hall on Monday night. Let there be a crowded house to welcome them.

The Mordaunt Divorce Case.—This celebrated case with which the Prince of Wales' name has been connected, was concluded yesterday. A cable telegram, says: "The jury returned a verdict that Lady Mordaunt was not responsible for her words or acts."

Light Wanted.—We would suggest, for the consideration of the Market Committee, the necessity of placing two more windows in the Butter Market, opposite the step about the middle of the structure. When the market is crowded, as it was to-day, people are very apt to stumble over this obstruction, to the danger of their limbs. All of which is respectfully submitted.

Fenian Rumors.—The Washington *Chronicle* of the 21st inst., briefly says: "The Fenians are said to have recently collected a great number of arms in New York, and another raid on Canada is expected." We scarcely need have any fear of these fillibusters since Sir Francis Hincks has promised to save the country!

The State Ball.—The State Ball at Ottawa last night, was a grand affair. The Chamber is described by the reporters as a "perfect fairy palace." About 2,000 persons were present. Amongst those present from Belleville were Hon. R. Read, M. P., James Brown, Esq., M. P.; Alex. Robertson, Mayor; and Messrs. Geo. Neilson, W. H. Ponton, Angus McFee, Geo. Stewart, Fred. Ridley, Lt. Col. Campbell and R. C. Hulme. The *Telegraph's* report says: "After the reception was over in the Commons Chamber, the Senate Chamber was the principal point of attraction, though the vast corridors and lobbies of both Houses afforded capital opportunities for quiet promenading, which was not neglected. A new floor had been laid for dancing, smooth as glass, and glittering in the gas light. Of course all the members' desks were removed. Around the walls were hung large mirrors, draped in scarlet, and surmounted by bannerets of red, white and blue. Over the main entrance was a large portrait, in oil, of Her Majesty, by Partridge, of London; to the right of this was a portrait of King George, and to the left a portrait of Queen Charlotte, both in oil, and painted by Sir Joshua Reynolds. The portrait of Her Majesty was surmounted by four well worn militia flags, that had seen service in the war of 1812.—Red, white and blue streamers were stretched from pillar to pillar upon the galleries, and large vases of flowers and evergreens placed round the walls of the galleries, contrasted beautifully with the brilliant scene on the floor below. Over each of the side doors was a semi-circle of rich drapery, with a monogram tastefully arranged in the centre. That over the right of the throne being V. R.; that over the left door was P. A.; and over the doors at the lower end of the chamber, J. Y. and A. Y., the initials of the names of His Excellency and Lady Young.

Railway Accident.—The Toronto *Telegraph* of to-day, says: "An accident of rather a serious nature occurred yesterday a.m., at eleven o'clock, to No. 8 express train, which left Sarnia at 10:50. The train consisting of two passenger cars, well filled, also a baggage express and post office car, was thrown off the track and down a steep embankment over sixteen feet deep, three miles from Forest Station; the cars being turned on their side, the tender across the track and the engine thrown off. At the moment of the accident, of course, the utmost confusion prevailed, and well there might, for several had narrow escapes. As it was, some ten or twelve were bruised, cut, and otherwise injured, and were immediately removed from the ruins of the smashed-up train to Forest Station, where medical attendance was promptly on hand. A Mr. Stephens, of Sarnia, is among those who are badly injured. Five other passengers who suffered, are now at Forest, and a couple were brought to this city early this morning. A lady and gentleman from Paterson, New Jersey, were injured, but not seriously. The former has one of her sides bruised and cut, while the latter has received injuries about the head. Another lady was found lying near a stove with her arm broken, and her head cut.—Mr. Ouimet and wife, of Montreal, were on the train. The latter is wounded about the head, but not seriously. The train men and conductor were prompt in putting out the fires, so that the accident was confined to the smash up alone. It is supposed that the engine in its progress along the track broke one of the rails, hence the calamity."

Burned to a Crisp.—An Oil Still belonging to Engleheart & Co., London, exploded on the 24th, by which one of the workmen was horribly burned, and several others injured. The *Free Press* referring to the injuries received by Olliver Odell, the engineer, says: "Before he could realize his position and the necessity for action, he was enveloped in a fierce mass of fire arising from the tar. When released from his fiery shroud, his condition was was such that the heart grew sick at the sight. He staggered to his feet, gasping for breath; his clothing was stripped from him, but a few charred remnants were left and, as he rose, the flesh dropped away in pieces from his bones. "My wife! my child!" These were his only words, as he reeled senseless into the arms of those who sprang to his support. A dray was procured, and the unfortunate man—doubtless unconscious of suffering—was conveyed to those whose names were his only utterances. In about half an hour word was brought that he was dead, and many a murmur of sorrow went round; for Odell was a young man very much respected in the city by those who knew him. He was, we understand, for a long time employed on the London & Port Stanley Railway as fireman. Up to the hour of going to press, he is still alive, and semi-conscious, But the doctors in attendance do not hold out much hope of his recovery."

Trotting Races.—In the Trotting Races in Montreal on the 25th inst., the Dutchman, owned by Mr. Walter Fanning of Belleville, from the following report was evidently badly treated: "The first race, open to all horses that never beat —2:45—was won by Rosemary in three straight heats—fastest time made, 2:45. It is to be regretted that the decision of Judges in the $300 purse, open to all horses, was not considered satisfactory. The following are the horses that went for this race: The Dutchman, of Belleville Lady Charmer, from Vermont, and Peacock from St. Hyacinthe. Lady Charmer was the favorite in the pools, Dutchman second choice. Several thousand dollars were asked on the result. Dutchman won three straight heats, but was refused the third on the plea of having done too much running, and the heat was awarded to Lady Charmer. On the fourth heat the Vermont Mare came in ahead, the Belleville horse second. Again the Judges, who followed in a sleigh behind the trotters, made objection to Dutchman on the score of running, and although he did not win the heat actually distanced him, consequently ruling him out of the race, passing no opinion about the justness of the decision. Several people present expressed it as their opinion that there was a desire on the part of the officials connected with the Club, to beat Dutchman out of the purse, and great dissatisfaction was expressed."

Rumors.

Ottawa is busy with rumors just now, the most important of which is that Mr. Gordon Brown who has been in Ottawa some days, has been endeavoring to form a combination against the Government under the authority of Mr. George Brown. It is said that approaches have been made to the Hon. Sandfield Macdonald to resign the leadership of Ontario to Mr. Blake, with a promise of the support of Sir A. Galt and Opposition members in the House, and of Mr. Brown and the *Globe*, for the premiership of the Dominion. We believe that the rumor is true, and that Sandfield indignantly refused to have anything to do with George Brown and the Grits. The Browns must have a great deal of cheek, after abusing Sandfield in the manner they have, to make such overtures. They are brassy enough, however, to do anything, and we are not at all surprised at this new development of their character. The Hon. John Sandfield Macdonald knows the *Globe* and the Browns too well to have anything to do with them, and if he connects himself with any new party in the House of Commons it will not be under the protection of the *Globe*.

The Western Lumber Trade.

From some interesting statisties respecting the Western lumber trade, we gather the following information: "The aggregate production of all the pineries of Wisconsin and Minnesota during 1869 is estimated at 812,400,000 feet of lumber and logs. The pineries along one river alone in Wisconsin—the Chippewa on which there are 39 mills, employing a total capital of ten millions of dollars—turned out 198,000,000 feet of lumber, besides 15,600,000 of logs sent to market. The growth of the trade is shown by a comparison of these figures with the production of 1866. In that year the Chippewa valley produced but 22,000,000 feet in all. Nearly 400,000,000 feet of lumber and logs were cut in Minnesota last year. St. Louis claims to have extraordinary facilities as a lumber mart. Her lumber trade now employs annually a capital of from fifteen to sixteen millions. The total amount of lumber received at that city in 1866 was 176,089,526 feet, including 23,907,841 feet of logs, 42,062,200 feet of shingles, and 18,860,900 feet of lath. Twelve million feet of this total were from Missiouri pineries. Of the balance, 157,196,793 feet were from Wisconsin, Minnesota and Michigan, and 6,885,143 from Illinois, Tennessee and Mississippi.

Kingston's Bread and Butter.

The Kingston *Whig* pitches into the business men of that city because they don't eat at proper hours, and attributes the "ruin and decay" which are everywhere visible in the ancient capital, to this cause. In a late number the *Whig* says:

> "Kingston never can become a real place of business until its chief inhabitants, the merchants and traders, keep their offices and shops open all day long. At present two of the very best business hours are lost. Between twelve and two o'clock, every man has gone to his dinner, and no one is found at home to do business. This is a positive nuisance and should be abated. Let business men learn to dine after business hours, and Kingston may then become a city, which, under present circumstances, never can be the case."

Whereupon the Hamilton *Spectator* comments as follows: "We had no previous idea that Kingston was so charming a place of residence. Between twelve and two o'clock throughout the year every man has gone to his dinner and no one is found at home.—Every man evidently dines out. Why complain of this as a positive nuisance that must be abated? To us unhappy outsiders it seems at first sight an arrangement much to be envied. It is painful, however, to reflect that in its very luxury may lurk its dangers. And there is a solemn warning in the concluding sentence of our quotation. The future of Kingston trembles, so to speak, on the jaws of her business men. Between twelve and two, when they blindly think they are fortifying nature, they are in reality dismantling the ancient capital, which tumbles into ruin simultaneously with the roast turkey and pumpkin pie. For the welfare of so hungry a city our contemporary declines upon any terms to be answerable. Not even the Penitentiary and the *Whig* together can hope to rescue from obscurity men so lost to every sense of moral propriety. More unfortunate than Lot in Sodom, the *Whig* finds itself absolutely companionless in the path of well-doing—and late dining. Remembering such depravity, can we wonder at the report given yesterday, of the City Council's meeting winding up with a dog fight at 9.15 p. m.? Not even the brute creation escapes contamination by association so reckless! Very likely the dogs, following their master's ill-example, had dined too early, and under such circumstances were impotent to behave themselves better."

Curling Matches.

OTTAWA vs. BELLEVILLE.

As already announced the Curling Match for the possession of the Caledonian Medal, played at Ottawa on the 24th inst., between Ottawa and Belleville, terminated in favor of the former. The game was keenly contested, and there was remarkable good playing on both sides, but it was evident from the first that the Ottawa players had large experience, and a much more thorough knowledge of the game than their opponents. So far as the playing of the Belleville Curlers was concerned, the most favorable opinion was expressed by those who witnessed the game; and the fact that the five hours was exhausted without the Ottawa Rinks scoring 31 points each, was evidence that Belleville did well. The utmost good feeling prevailed throughout. After the game was over, sleighs were in readiness to convey the Belleville Curlers about the city, and during the drive several points of interest, including the Parliament Buildings, the Chaudiere, the extensive SawMills and Match and Pail Factories were visited.

In the evening the Ottawa Club entertained the Belleville Curlers to a sumptuous repast at Gowan's Hall. Allan Gilmour Esq., acted as chairman for the evening, having as his right hand supporter, the Hon John Young, President of the Canadian Branch of the Royal Caledonian Curling Club. Speeches, toasts, and songs, were the order of the evening, winding up of course with "Auld Lang Syne," and the National Anthem.

Among the guests present were the Hon. Robt. Read, M. P., M. Bowell, Esq., M. P., Jas. Brown, Esq., M. P., Jos. Rymal, Esq., M. P.; Geo. Neilson, Esq., Vice-President of the Belleville Curling Club.

Too much cannot be said of the hospitable manner in which the Curlers from Belleville were entertained by their Ottawa brethren. It was truly princely hospitality, which the recipients will not soon forget.

COBOURG vs. BELLEVILLE.

The first part of a friendly match between Cobourg and Belleville was played at Cobourg yesterday, with the "Grantie Stanes," two Rinks aside. The Belleville Club, it must be remembered play here with "iron stanes," and in playing at Cobourg with the granite, with which they are not accustomed, played at a great disadvantage. The weather was all a Curler could desire, and the Cobourg Curlers were very kind in offering their "brethren of the broom" from Belleville every facility in obtaining a knowledge of the ice and the use of the "granite stanes."

The game lasted four and a half hours, and resulted in a victory for Cobourg of 22 shots. The play was good generally, especially upon Rink No. 1.

David Johnston, Skip —37.	James Robertson, Skip —11.

In the evening the Belleville players were handsomely entertained at a supper given by their Cobourg brethren at the Pauwell House.

—Brown & Co., proprietors of the Galt Trout Pond have engaged in the artificial propogation of fish.

TERRIBLE RAILWAY ACCIDENT

ENTIRE TRAIN THROWN OFF THE TRACK.

LARGE SACRIFICE of LIVES.

(Associated Press Despatch.)

New York, Feb. 26.

The *Democrat* has the following special from Memphis:—

A horrible railroad accident is reported to have occurred yesterday afternoon on the Mississippi Central Railroad, two miles south of Oxford, where an entire passenger train was thrown from the track, causing a large sacrifice of life.

At last accounts 12 bodies have been taken from the wreck.

News Condensed.

—No news yet of the "City of Boston."

—Snow is four and five feet deep in the streets of Ottawa.

—B. Hutchins & Co., grocers of Montreal, have failed.

—Lent will commence March 2, and ends April 15.

—Ex-Secretary Seward has arrived in New York.

—The supply of ice this season will fall short in Toronto.

—A fire in Galveston, Texas, destroyed property to the amount of $1,000,000.

—An American Company is to propose to purchase the Welland Canal.

—The new cable to connect the West India Islands will be laid in about two months.

—British engineers have obtained a contract to build 300 miles of railroad in Japan.

—542 emigrants arrived in Hamilton during the month of January, 1870, of whom 206 remained in Canada.

—Hincks taunted Galt on Thursday with annual deficits. Yet Sir Francis urged Galt to take the position. Consistency, thy name is Hincks!

—Hincks joined John A.'s Government, he says, for fear we poor Canadians would be gobbled up by the Fenians. Generous, chivalrous Sir Francis!

—Some horrible Ottawa Grit has got off the following conundrum? Why did Riell succeed in creating a disturbance in the North West? Because he knew "Howe."

—The *Whig* mourns the decay of business in Kingston. Between twelve and two o'clock, it says, no business is done there, as everybody is dining.

The New President of Hayti.

HIS PERSONAL CHARACTERISTICS AND MILITARY HISTORY.

Nesage Saget, President of the republic of Hayti, is a genuine Haytien, of the same caste as the late President Geffrard. He is about 82 years of age, of tall and slender build. Saget was kept in a dungeon for over ten years and maltreated by the impervious Soulouque. The overthrow of Soulouque by the Geffrard party caused his release. In 1861, when old Spain took possession of St. Domingo, once a part of the Government of Hayti, it was conjectured by the Haytien people that slavery was again to be introduced into the country and Saget was selected by Geffrard to take charge of the entire northern District of the country known as the District Artibonite," great fears being entertained that the people would be inclined to revolt. He succeeded in winning the confidence of the national guard and prevented an outbreak. When the people of the south clamored against Geffrard's Government in 1864, Saget being in the confidence of the Government, was again selected to pacify them. He took charge of the District of Leogane and restored order to that section. After a time he was again removed north and was continually made the instrument of preserving peace between Geffrard and a dissatisfied people. Ultimately Saget himself became displeased with the Geffrard Government and all its measures, and told the President so, at the same time tendering his withdrawal from office. On the 23rd Feb., 1867, a revolution broke out in Port au Prince, which induced Geffrard on the 24th March to abdicate. His authority was tendered to Saget, and he accepted it only to arrest disorganization, but took it under protest, publicly stating that he desired to have the office of President made by constitutional enactment, and not by the momentary impulses of monocracy.—He acted on this occasion as provisional President until the usurpation and nomination of Salnave. Being of retiring habits, and not unduly ambitious, he gave way for Salnave, on condition that the choice of President should be by election according to law. After Salnave's election as President under the new constitution, Saget became once more charged with the department of the north, which he kept until the final overthrow of Salnave's Governmnet.

—The stem of the English iron-clad ram Rupert, which has just been forged, weighs nineteen tons, and is thirty feet long. A five ton hammer was used in forging the immense mass.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

Dr. J. Briggs' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

Breakfast.—Epps's Cocoa.—Grateful and Comforting.—The very agreeable character of this preparation has rendered it a general favourite. The Civil Service Gazette remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—James Epps & Co., Homœopathic Chemists, London, England. 91—6mT&S

Belleville, Feb. 10th, 1870. 310ly

American Despatches.

VISITORS TO THE MONARCH.

ANNAPOLIS, Md., Feb. 25.—An excursion party from Washington to visit the 'Monarch,' arrived in a special train this morning. There were 200 or 300 persons, including Secretary Robeson, and members of the Cabinet, Minister Thornton and others. The 'Monarch' will proceed a few miles down the Chesapeak with the party and practice her guns for the benefit of naval men.

FEMALE SUFFRAGE IN MISSOURI.

ST. LOUIS, Feb. 25.—The House Committee on the constitutional amendments will report in favor of Woman suffrage. The Senate Committee will probably do the same.

RETURN OF THE MONARCH.

ANNAPOLIS, Md., Feb. 25.—The 'Monarch' has returned. Her non-commissioned officers entertained the non-commissioned officers of the Naval Academy at supper to-night.

THE MISSING STEAMSHIP.

NEW YORK, Feb. 26.—The Capt. of the Cunard steamer 'Calabria,' expresses opinion that there is no occasion for alarm relative to the 'City of Boston.' The 'Calabria' and other vessels lately arrived, report continuous easterly winds, against which a disabled steamer would make small headway.

MEXICO.

ANOTHER INDEPENDENCE MOVEMENT.

SAN FRANCISCO, Feb. 25.—Mexican advices state that a public meeting held in Tepic on the 15th January, which declared in favor of the Independence of the North-Western States. Generals Loza and Pedro Vego are the leaders of the movement.

VANCOUVER'S ISLAND.

FURTHER GOLD DISCOVERIES.

A despatch from Victoria, Vancouver's Island, states that colony is greatly excited over the news from Place River. The lower country will soon be nearly deserted. Miners find nuggets of gold and lumps of silver in about equal proportions in their sluices.

CUBA.

INSURGENTS SURRENDERING.

HAVANA, Feb. 25.—Insurgent Col. Garcia, with five officers and eighty soldiers, surrendered voluntarily to-day, at Villa Clara, and took the oath of allegiance to Spain.

COMMERCIAL.

LONDON, Feb. 26.—Consols for money 92⅝; Account 92⅝; 5-20's of '62 90; '65 old 89½; '67 88½; 10-40's 85⅛; Erie 22½; I. C. 111½; A. & G. W. 2½.

LIVERPOOL, Feb. 26.—Flour 19s 9d; red wheat 7s 6d; red winter 8s 5d; white wheat 9s; European corn 27s to 27s 3d; Barley 5s; Oats 2s 5d; Peas 34s 6d; Pork 92s 6d; Lard 65s 6d.

Stock Market.

The following are the Stock quotations in the Montreal market on the 25th inst:

The transactions of the past week have been very limited, and, although the demand is not very large, there is considerable improvement in prices of some securites.

Bank of Montreal—Remained dull throuhout the week at 156 to 157, but to-day advanced two per cent, with sales at 159, closing with buyers at 159, and sellers at 159½.

Bank of British North America.—Sold during the week at 106, which price would still be paid.

City Bank.—Has ruled steady, with buyers at 85 to 86, holders now [illegible] Bank—There were some small sales at 100, at which price it is still offered.

Merchants' Bank—Sold to a considerable extent at quotations. It is still offered at 107, with buyers at 106½ to 106¾.

Mechanics' Bank—No transactions, 90 would be paid.

La Banque du Peuple—Transfer books closed. There were sales to-day at 102½ to 102¾ ex-dividend.

La Banque Jacques Cartier—Is offered at 109 to 109½, with buyers at 108 to 108½.

Quebec Bank—No stock offering in this market; 103½ would be paid.

La Banque Nationale—Is asked for at 105½.

Union Bank of Lower Canada—There are sellers at 106½, and buyers at 105½; no state transactions.

Eastern Townships' Bank—There are buyers but no sellers at 100 to 101.

Ontario Bank—The advance noticed last week has been maintained, but there is not much demand.

Bank of Toronto—Firm and in demand at 130

Royal Canadian Bank—No transactions to report, buyers offering 64, sellers asking 66.

Canadian Bank of Commerce—No stock in market; 110½ would be paid.

Montreal Telegraph Co—There are sellers to some extent at 147½, but buyers have reduced their offers to 142½.

Canadian Navigation Co—Continues to be offered at 94 to 95, without attracting buyers.

Richelieu Navigation Co—There have been no transactions since the opening of the books, 120 would be paid.

Canada Debentures—Are much enquired for, but there are none of any kind in market. Dominion stock has been sold to a considerable extent at 108½.

Mortgages—Continue to be inquired for to pay 7 to 7½ per cent.

Exchange—Closes rather weaker at 9 to 9¼ for sixty days, and 9½ for demand bills.

Money—Has been in rather better demand at the banks, but the amount unemployed is still very large.

SPECIAL NOTICE.—MORRISBURGH, Sept., 1869.—Gentlemen,—Suffering from the prostration and weakness caused by a severe attack of Influenza, the past winter, I was induced to try your Sarsaparillian Resolvent as a restorative, and its effects were most satisfactory. I therefore, conscientiously recommend it as a thorough purifier and invigorator of the humam system, thus giving increased health and vitality to the weary invalid. (Signed), MRS. JAMES GLASSFORD.

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

To Let,

THE STONE HOUSE on the corner of Church Street, opposite Rev. Mr. Wild's Church.

HENRY BROWN,

Rawdon, Feby. 7th, 1870, 52:4w

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO., LINDSAY ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts, Wounds, Bruises, Sprains, Chapped Hands, Chilblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.

51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds,
BURNS AND BRUISES,
PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors.
304d 51w 4w Montreal, P. Q.

The Master's All.

Up and be doing! the time is brief,
And life is as frail as an autumn leaf.

To God and thy better self be true,
Do with thy might what thou find'st to do.

Though the day is bright and the sun is high
Ere long 'twill fade from the glowing sky.

While the evening shades darkly fall;
There's a time of rest, it will come to all.

The harvest is white, and the field is wide;
And thou at thy ease may'st not abide.

The reapers are few and far between;
And death is abroad, with its sickles keen.

O think of the master worn and faint,
Whose meek lips uttered no complaint.

Who toiled for the noonday heat,
And sought no rest for his weary feet;

Of a Father's wrath who drank the wine,
And bore his cross to lighten thine.

Go forth and labor? A crown awaits
The faithful servant at Heaven's high gates.

For a death of shame the Saviour died,
To open those golden portals wide.

That souls redeemed from the toils of sin,
In His spotless robes might enter in.

Work with thy might! ere the day of grace
Is spent, and the night steals on apace.

The Master has given his pledge divine;
Who winneth souls like the stars shall shine.

Progress in Agriculture.

The present age is the beginning of a mighty progress in agriculture, and we may therefore look forward with confidence to better cultivation, larger crops, improved stock, and more perfect implements of husbandry. The intelligence and skilled industry of the country are to be largely involved in this movement, and it is important for us to know and understand how best to promote this great object. The question naturally arises, then, what can be done to make farming more popular with our young men, so as to induce them to become farmers and help forward this work ?' We must first make them feel that the pursuit of the farmer is a dignified and honorable one; that it is as honorable to be a farmer as a lawyer, doctor or merchant. We must create an enthusiasm among our boys, and teach them that the labor of the hand is not incompatible with the brain. With the mind to help the hand, labour becomes light. We must require an earnest love for the calling. How can one enjoy greater independence and freedom than as a tiller of the soil? Think of the folly of exchanging the independent life of a farmer to the narrow life of a clerk in one of our cities, doomed for a lifetime to measure tape and grow effeminate behind a counter earning hardly enough to pay for one's board and clothes. Boys, stick to the farm; educate yourselves for the work; cultivate the mind and so add intelligence to manual toil. Make your home the centre of taste, refinement beauty, honesty, frugality, and industry, and out of these will spring the purest life and the holiest example. There is no object that gives more pleasure and delight to the farmer's home, when surrounded by these adornments which are dictated by native simplicity and a natural love of beauty. It is the stuff out of which states and empires are built. It is the summit of civilization.—*Address of Hon. Eliphalet Stone.*

Country Boys in the City.

It is the common ambition of country boys to quit the farm and make for themselves a home in the city. And it is true that a majority of the great business firms in our large cities are recruited from the ranks of the country boys. It is also true that the majority of those who come to the cities to seek fortunes are swallowed up in the great malestroom of dissipation, and go to the bottom in a dozen years or so. Now, who are the successful ones, and what made them so? They are not the young men who came to the city in order to throw off the restraints of home, and 'see life' and 'have a chance to enjoy themselves.' They are the young men who come with sound principles and a determination *to work hard* to make themselves a position, with a willingness to do any honest work, and shun, like a viper, bad company.—No other boys need come to the city with the hope of advancing themselves in the world. Boys who 'shirk' never get the fine situations here. Boys who smoke and drink are not in demand among keen-sighted merchants. Sabbath breaking and theatre-going boys are not advanced to high positions even by worldly employers. The boy who wishes to rise, who hopes some day to build his palace, must learn a great deal outside of his daily routine. He should paste up over his room table, or some place where he could see it—'Knowledge is power.' The carpenter who can draw his plans, make out his estimates, understands the legal form necessary in putting up his buildings, can tell what materials are best to use, where they can be purchased best, what is the most economical means of transport, and a hundred other things that arise in building, will be the one to grow rich and influential in his business, while the man who can only handly his saw and hammer must be content to drudge on in grinding poverty. The difference comes almost wholly from the different way in which leisure minutes and hours are passed. Your evenings, young men, will generally decide whether your future is to be one of cheerful prosperity or one of harrowing privation.

CATARRH, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

CONSUMPTIVES, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you.—For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by Druggists.

CURE for Piles. Dr. J. Briggs' Pile Remedy is offered to the sufferers of this distressing disease, with a confidence warranted by its success for their relief. Sold by Druggists.

FROSTED FEET, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This Remedy has been compounded with great care, and used as directed, never fails. Sold by Druggists.

THE DAILY INTELLIGENCER

Fortieth Year.

GODEY'S LADY'S BOOK For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs a club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per sent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

NORTHROP & LYMAN
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and al Medicine Dealers.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

INTELLIGENCER BUILDING,
Front Street, Belleville.

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief.

When this marvelous remedy was first presented to the notice of the medical faculty, in 184[illegible], notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use.

Its wonderful power in rising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sickness and diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this mervelous remedy known as RADWAY'S READY RELIEF was completed, it supplied a want that had ever existed, that none of the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain, but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS,

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights, commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent forth at our own risk,

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHŒA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever,

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED *Attacks if exposed.*

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will, in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to wait for their "bread cast on the waters to return after many days," who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere—shows that the instruments selected for the great work have discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from the Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, the Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cure, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,

Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty of engorged liver, fat spleen, disordered kidneys, saffron-colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits, will give you equal in quantity and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, Ki[illegible]s, &c., all of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least ($5) twenty-five dollars had you to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyptheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels.
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic. Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

~~Price of~~ **Radway's Ready Relief,** per dozen bottles, $2.50 cents; ~~Single Bottles, 25 cents.~~ Sold at Dr. Radway & Co.'s Principal Office, No. [illegible] St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. Ask for **Radway's Ready Relief.**

Standard Periodicals for 1870,

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews, - -	$4.00	per annum.
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - - -	10.00	"
For Blackwood and three of the Reviews, - - - -	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one* of the *Four Reviews* for 1869. New Subscribers to *all* the five may receive Blackwood or *two* of the *Reviews* for 1869.

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by HENRY STEPHENS, F.R.S., Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven 2 vols., Royal Octavo, 1600 pages, and numerous Engravings.
Price $7. By Mail post-paid $8.

Transits of Venus.

THE GRAND PROBLEMS DEPENDING ON THE NEXT TRANSIT FOR SOLUTION.

Transits of Venus are as rare as they are important. They occur in couples in June and December, about eight years apart, and then not again for several generations.—Kepler was aware of the phenomenon, and as early as 1604 announced that one would take place in 1761, but young Horrocks, of Liverpool, with better tables and additional data, calculated that there would be a transit on the 4th of December, 1639. He let a friend into the secret, and they two, on the day named, for Venus was punctual, were the first ever known to observe it. It was soon calculated that one must have taken place on the 6th of December, 1631, and another in June, 1826, and that the next would not occur till the 5th of June, 1761. But of all the transits, past and to come, the climax would be that of the 3rd of June, 1769, when Venus passed across the disc of the sun very near the centre.—The next one, but not visible in this country, will take place five years hence, on the 8th of December, 1874, which will be a grand one for science, considering the great advance in scientific instruments, but far inferior to the last. If, however, it produces only a half dozen Carsors it will be a godsend to this rapid century. Let young folks take notes of the date 1874.—Another will occur on the 6th of December 1882, but not again till nearly five quarters of a century later, on the 7th of June, 2004; to be followed eight years after, on the 5th of June, 2012; to be repeated in December, 2117, and so on. The last transit of Venus was a conjunction of planets coincident with the birth of twelve imperial men of nature, more renowned than the twelve Cæsars. No other single *year* probably, before or since, ever produced such men as Napoleon, Wellington, Soult, and Ney; Brunel, Mehemet Ali, Turner, Sir Thomas Lawrence, Chateaubriand, and Castlereagh; Cuvier and Humboldt—men who upturned the world and set it right again; who revolutionized science, art, politics, states, and the affairs of mankind.

On this subject the Providence *Journal* says: In order to give an idea of the extraordinary interest that is attached to the next transit we give the results of the two *last in regard to the sun's* distance. In Ferguson's astronomy, written about the middle of the last century, the earth's distance from the sun is given as 82,000,000 miles. The transit of 1763 gave a result of 95,000,000. The same result was obtained by the transit of 1769. We are now dependent alone upon the transit of Venus. The base line system has been applied to Mars, and even the velocity of light has been made to bear on the problem. The result of modern investigation shows an error of 4,000,000.

This might appear to be a great fault in astronomical calculations; but even this error in the sun's angular diameter, if it be an error, is no greater than the breadth of a human hair seen at the distance of 125 feet. Moreover, a Mr. Stone, of Greenwich Observatory, has discovered a mistake in the calculations of the transit of 1768, which brings the sun's distance down to 91,000,000. For his research a gold medal has been awarded to him by the Royal Geographical Society. The next transit of Venus will therefore be anticipated and observed, in every inhabited quarter of the globe, with an intensity of interest which no natural phenomenon has ever excited.

Distant stations have already been chosen; the most accurate instruments are being constructed; arrangements for the outfit of expeditions have been commenced. It is nearly time for those designed for the Antartic regions to commence their long journey.

How Children are Murdered.

The adulteration of candies in New York has becoming of late years alarming and in order to produce cheap articles manufacturers are adulterating with various extracts and substances which are either injurious to consumers, or a deadly poison. Many children are doubtless, yearly sacrificed by the absorptions inadevertently given by parents. Terra alba, or white earth, costing but one and one-fourth cents per pound, is extensively used instead of sugar, and lozenges are produced by cheap dealers at from two to five cents a pound less than the cost of sugar at wholesale. In the manufacture of gum drops, glue is used in lieu of gum arabic, the former costing about a few cents per pound and the latter about forty cents. Verdigris, tonka beans, Paris green, chrome yellow Berlin blue, aniline, and sublimate of mercury are all used, each of which is either a deadly poison, or very injurious to the system.

The common method of flavoring candies, in order to produce them economically can be readily accounted for. Poisons are much cheaper than genuine extracts. Peach flavours in candid almonds and sugar plums are obtained from fusil oil, which is very poisonous. The bitter almond flavor is created from unadulterated prussic acid; pine apple is procured from very rotten cheese and nitric acid. Candies are made purporting to be flavored with fruits from which no extracts can be obtained. The imitations are all poisonous. Cheap candies are a means of desolation in numberless households.—*N. Y. Sun,*

The Canadian Indian Policy.

The report by F. N. Blake, Esq., United States Consul at Hamilton, Ontario, gives important information regarding the policy of the Canadian Government towards the Indians. We make some interesting extracts:

The result of the policy adopted towards them is strikingly shown by the facts that they have always remained most loyal subjects of the Government under which they live, that they have maintained peace among themselves, are advancing in education and agriculture; and, on the whole, instead of decreasing towards the ultimate extinction which is frequently regarded as the foregone conclusion of their race, have, for the last quarter of a century, been increasing in numbers.

The Indians of Canada present striking variations in condition. Those who, like the Six Nations, formerly of and now settled in Ontario, have had intercourse for centuries with the Anglo-Saxon or Anglo-Celtic race, naturally conform to our standard of civilization. They generally speak English, hold an agricultural fair, and have a temperance society; while the Indians of Lower Canada, where they have associated with the French, have already become so nearly Gallic in their customs and physique, that it is said they would cease to be distinguishable from their neighbors, were it not that, as being nominally Indians, they are permitted to receive certain moneys annually through the hands of the Government. One of these tribes has forgotten its ancient language.

Along the northern shores of Lake Superior and Huron, and in the country behind them, little progress has been made towards civilization among the aborigines; and near the lower St. Lawrence, in that portion of the continent nearest to those nations of the Old World whence we chiefly spring, the Indians are yet in a condition of primary barbarism now seldom equalled elsewhere. Their cold and sterile country offers no inducement to the settler, and they yet obtain fire by the old process of the bow and drill, sacrifice part of every animal they kill to imaginary deities whom they suppose to inhabit the sun and moon, and are sometimes driven to the last and most direful extremities for food to maintain life.

Wherever there is any important settlement of Indians in Canada there is a Christian mission and a school. Education seems to be prized by the Indians as the means of diminishing their inequality with civilized men.

A part of the original intention in placing the Canadian Indians under a system of tutelage, was to qualify them to the end for the duties and responsibilities of civilization, and the recent efforts of Canadian legislation in this respect have been strenuous. The change in the land tenure of the Indians, enabling them to dispose of their land under certain restrictions is connected with a proposed extension of suffrage to them, but the Indians regard the doctrine of inalienable homesteads as best suited to their condition. Yet the Government is legally impowered to order the election of native chiefs triennally by universal vote of the male adult population of the tribe. Freedom of debate is enforced in the councils, and legislative powers on certain sanitary and local affairs is extended to them, subject to the veto of the Governor.

A very decided point in the Canadian policy is to treat the Indians not only with integrity, but in such a way as to leave them without any suspicion of injustice. All goods furnished to them are of a sterling, substantial kind, meant to be fairly in character with the Government itself. The agents or superintendents who are placed in communication with the Indians, hold their offices during good behavior, and are thus interested in gaining and retaining their confidence.

Mr. Blake's conclusions are hopeful as to the ultimate civilization of the Indians. On this point, few are confident of success and he himself seems to be more hopeful than positive about it. But scarcely any thoughtful man will disagree with him as to the conclusions suggested, but not enunciated, by him in regard to our own land. When speaking strictly of this subject, the Canadian treatment of the Indians, he says: Whatever may be the ultimate result, those who have aided in this honorable effort may safely be assured that their country will be known in history as having striven to do justice to the aborigines whom the white man found in possesion of it, and that they have so far based their empire or dominion upon the principles of humanity and free civilization."

BELLEVILLE, MONDAY, FEB. 28.

"THE APOSTATE."—Remember the performance by the Belleville Dramatic Association in Ontario Hall this evening.

TOWN COUNCIL.—The regular fortnightly meeting of the Town Council will be held in the Town Hall at 7½ o'clock this evening.

TO CORRESPONDENTS.—Correspondents who send us notices of Marriages, must accompany such notices with their own names, otherwise they are consigned to the waste basket.

INDIAN LANDS.—It is reported that the Government will decide to make a reduction of 25 per cent on all Indian Lands on which payments are in arrears, as well as unsold lands.

HARBOR APPROPRIATIONS.—It is reported that the Government will make appropriations for Chantry Island and Goderich Harbors on Lake Huron, and at Roundeau on Lake Erie.

CHRIST CHURCH TEA MEETING.—We are informed that the gross proceeds of the Christ Church Tea Meeting exceeded $300, leaving $260 for Church purposes after all expenses have been deducted.

THE GAME LAW.—We would remind parties in town who are now selling venison—of whom we learn there are one or two—that a heavy penalty attaches to any person vending the flesh of deer after the 1st of January, at which time the close season begins.

SNOW STORM.—Yesterday we were favored with another snow storm, which seem to come thick and fast towards the close of the season. Though the drift was heavy, but little interruption to travel has resulted, the trains being nearly on time.

MORE RUMORS.—Ottawa is busy with rumors. Amongst the latest the *Mail* says: "It is reported in town that Mr. Aikens and Mr. Howe have or are about to tender their resignation to Sir John A. Macdonald." It's a pity Hincks wouldn't make a virtue of necessity and throw up his portfolio; then we might have peace.

ASSAULT.—On Saturday night, Mr. George McArthur, hotel keeper, was assaulted and badly beaten in his own house by two men named Taafe, from Prince Edward, aided and abetted by one David Gerow. The row originated in a dispute about a whip. The case will come before the Police Court this week, when justice will no doubt be meted out to the offenders.

REPAIRING.—John Redner, Esq., whose residence in West Belleville was destroyed by fire little more than two weeks ago, has since been engaged in repairing the damage then inflicted. The roof is now on and shingled and the building will again be tenable in a short time. Considering the cold weather we have had of late, this is very commendable enterprise indeed.

THE LIQUOR LAW.—Had the constables been on the watch Saturday night, they might have succeeded in bringing before the Court to-day more than one tavern-keeper, from whose premises we observed drunken men issuing a considerable time after the hour fixed by law for the closing of taverns and saloons.

NAPANEE RACES.—The annual trotting meeting will be held on the ice at Napanee on the 3rd and 4th instant. The monetary attraction on the second day, is very good, being a purse of $160, open to all horses, the conditions being mile heats, 3 in 5, in harness, $100 to first horse, $40 to the second and $20 to the third. Fast time may be expected, as Mr. W. Fanning has entered "Dutchman" and other celebrities from a distance are expected.

THE PHOENIX GOLD MINE.—Our readers will be pleased to hear that the Directors of this Company have concluded to go on with the work vigorously at the mine. The shaft is now down about forty-five feet. The shaft house, whim, and whim house are complete, and all things ready for going ahead with the shaft. We may add that the Montreal Stockholders are now quite satisfied of the legal formation of the Company and with the action of the Directors, and no doubt will promptly pay calls.

THE DUNKIN BILL.—But very little interest was manifested by the people of Sidney respecting the passage of the Dunkin Bill. Out of over one thousand votes only about 180 were polled, 130 or 140 of which were in favor of the Bill. It is said by those who ought to know that the Dunkin Bill is a dead letter, having been repealed by the License Act of 1869, and this fact is said to have prevented the opponents as well as the supporters of the measure from taking any active part in the matter.

WOODEN RAILWAY IN QUEBEC.—The Montreal *Gazette* says: "It is estimated that the proposed wooden railway from Sorel to Drummondville will cost $300,000 and towards this amount the following townships and villages have already subscribed—Drummondville $15,000; Wendover and Simpson $15,000; St. Germain $15,000; Wickham $10,000; Wickham West $10,000; L'Avenir $6,000; Sundry persons $4,000,—Total $75,000. The following further subscriptions have also been promised—Sorel town, $40,000, parish $10,000, Yamaska town and parish $10,000; St. David $10,000; St. Guillaume $15,000; Sundry persons $10,000. This will form a grand total of $170,000 or with the Government subvention of $100,000 an aggregate of $270,000 leaving a balance of $30,000 to be further provided for.

A LAUGHABLE INCIDENT.—On Saturday afternoon a somewhat novel sight was seen in our streets, a man mounted on an ass—one of the regular Gipsy kind. On his perambulations down Front street, Jack stopped short, throwing the able-bodied cavalier who bestrode him into the snow, to the great amusement of the spectators. The rider, however, remounted and went on his way with unmoved gravity.

ORANGE GRAND LODGE OF THE PROVINCE OF QUEBEC.—At the recent annual meeting of the Grand Orange Lodge of the Province of Quebec the following officers were elected for the ensuing year:—Grand Master, George Smith, Montreal; Deputy Master, Joshua Breader, of Athelslan; Junior Deputy, R. Winfield, of Quebec; Chaplain, Rev. H. Shaw, of Hemmingford; Deputy Chaplain, Rev. F. X. Rivet, of Two Mountains; Treasurer, G. B. Rearson, of Montreal; Secretary, Thomas Scott, of Montreal Lecturer, G. R. Devan, of Montreal; Director of Ceremonies, H. McLaughlen, of Montreal; Tyler, Robert Denon, of Montreal.

BARN AND CONTENTS BURNED.—On Saturday morning, the 25th inst., one of the barns of Mr. John McMullen, who lives in the 6th Concession of the Township of Rawdon, was discovered to be on fire. The fire was first seen by parties living quite a distance from the place, who harnessed their teams and drove to the fire, and awoke Mr. McMullen and the neighbors who were within a few rods of the burning barn. By this time the fire had made such headway that assistance was useless. The barn and contents, amounting to several hundred dollars worth, were consumed, partially covered by insurance.—Moccasin tracks were discovered the next morning leading northward from the barn, which leaves no doubt, that the fire was the work of an incendiary.

Through Different Spectacles.

The position of the member for North Hastings has been variously commented upon by Dominion journals, most of whom give him credit for honesty and consistency in opposing the appointment of Sir Francis Hincks, for independence of thought and action, soundness of views, and for being moderate and temperate in his general political conduct. About the only journalist which finds fault with his course toward the Government, is that political weather-cock, the Toronto *Leader*, whose abject and slavish adherence to his new patron, Sir Francis Hincks, renders his opinion of little value, and less weight.—It looks through spectacles "perfected" by the promise of York Roads Interest, and consequently its vision of men and things cannot penetrate beyond the background, of which the anticipated $20,000 cheque forms the chief object. In contrast to such opinions, take the following from the New York *Tribune*. Its Ottawa correspondent, in a lengthy review of the debate which took place in the House on the address, says: "Mr. Mackenzie, the leader of the "Ontario Opposition, made a very telling "speech, reviewing and condemning the "general policy of the Government. Then "came Mr. Bowell, a moderate Conservative from Ontario, who, though a supporter of the Government, was so moderate, reserved and critical, that his speech "evoked general attention. Then came "the rumors that Sir A. T. Galt was at "variance with his party, and then he "crossed the floor and arrayed himself "among the opponents of the Government." Considerable difference between the opinions of impartial observers and those interested in "casual advantages."

Hastings Mutual Insurance Company.

At a meeting of the Stockholders of this Company, held on the 26th inst., at the Town Hall, Belleville, pursuant to notice, the following gentlemen were elected Directors for the ensuing year:

Hon. Robt. Read, M. P., Belleville.
M. Bowell, Esq., M. P., "
John Cook, Esq. "
Dr. G. H. Boulter, Esq., M. P. P., Stirling.
R. W. Williams, Esq., M. D., Trenton.
Lewis Crookshanks, Esq., "
Robert E. Grass, Esq., Sidney.
Samuel Gilbert, Esq. "
John Row, Esq. "

The following gentlemen were elected Honorary Directors:

Hon. Billa Flint, Senator, Belleville.
Jas. Brown, Esq., M. P. "
Henry Corby, Esq., M. P. P. "
K. Graham, Esq., M. P. P. "
John Eyre, Esq., M. P. P., Brighton.
J. Carnegie, Esq., M. P. P., Peterborough.
A. F. Wood, Esq., Warden, Co. Hastings, Madoc.
S. S. Peck, Esq., Warden Co. Peterborough, Minden.
J. S. McCuaig, Esq., Picton.
George Cunningham, Esq., Ameliasburg.
N. S. Appleby, Esq., Shannonville.
Henry Humphrey, Esq., Percy.
E. Mallory, Esq., Napanee.

At a meeting of the Directors held subsequently, the following gentlemen were elected office-bearers for the ensuing year:

PRESIDENT—M. Bowell, Esq., M. P.
VICE-PRESIDENT—Dr. G. H. Boulter, Esq., M. P. P.
SECRETARY TREASURER—Jas. H. Peck, Esq.
BANKERS—Merchants' Bank of Canada.

This Company commences business with the fairest prospects, and from the position of those who have been elected Directors and Officers, there is no doubt that it will soon be one of the most successful as it will be one of the safest Mutual Fire Insurances of the Dominion.

Mr. Jas. H. Peck, the Secretary Treasurer, will shortly open an office in Belleville, and agents will be appointed in different sections of the County and country.

News Condensed.

—No news yet of the steamer 'City of Boston.'

—Discount on American invoices this week 14 per cent.

—The Fenian Senate is in session at Washington.

—More Carlist disturbances have taken place in Spain.

—Several insurgent bands have lately surrendered in Cuba.

—Prince Arthur left Ottawa for Montreal, Saturday afternoon.

—The Ottawa *Free Press* says, the State Ball will cost $20,000.

—What are fishermans' profits? The net proceeds.

—Banks that do not amount to much this winter—snow banks.

—The Ottawa papers are filled with graphic accounts of the State Ball.

—The Duke of Richmond has accepted the leadership of the Conservative Party in the Lords.

—Seventeen persons were killed by the Railway accident, at Oxford, Miss. and fifteen or twenty injured.

—Gooderham & Worts have taken $120,000 of the bonds of the Toronto, Grey and Bruce Railway.

—About every second woman in Indiana has a 'mishun' to perform, and washing day goes by default.

—The Convention of the English Chambers of Commerce has adopted a resolve urging the sale of cereals by weight.

—A Paris correspondent of the London *Times* has resigned because his salary was cut down to $10,000 a year.

—A polite way of reminding a man of 'that little account,' is to send him word that you intend interviewing him shortly on an important financial question.

—The Indianopolis *Sentinel* says that 'the bones of every sinner in Indiana are shaking like a skeleton in a hurricane.'

—Since the passage of the Fifteenth Amendment, Sambo no longer asks plaintively, 'Am I not a man and a brother?' but sings gaily, 'Shoo, fly, don't *brother* me.'

Police Court.

(Before A. DIAMOND, Esq., Police Magistrate.)

MONDAY, Feb. 28.

SELLING LIQUOR WITHOUT LICENSE.

The only case which occupied the attention of the Magistrate this morning was that of Samuel Connell charged with selling liquor without the formality of procuring a license. Samuel at first boldly denied the charge, but afterwards admitted the soft impeachment, and was required to deposit $20 and costs, amounting in all to $24:20 for the benefit of all and sundry, which he faithfully promised to do within one week, failing which his goods will be distrained.

A Wonderful Square Mile.

Under this head Chambers' Journal of a late date, gives some statistics of the hurry of business within a single mile in London. Ten thousand vehicles passed Blackfriar's bridge in twelve hours of one day, 12,000 at Fleet street, and 19,000 at London bridge. On one day of twenty-four hours, not extraordinary, 38,000 vehicles passed over the Thames. In nine hours of one day in 1848, 315,000 people entered and passed out of the eight principal arteries of London in one day, as follows: Aldersgate, 16,000; Finsbury pavement, 21,000; Bishopsgate, 23,000; Blackfriar's bridge, 54,008; Temple bar, 25,000; Algate, 29,040; Holbornbars, 30,000; and London bridge, 42,000. In twelve consecutive hours of a day in 1867, there passed in Walbrook 17,000; Throgmorton, 16,000; Threadneedle street, 22,000; Lombard street, 30,000; Newgate street, 33,000; Leadenhall, 36,000; Cornhill, 44,000; Fenchurch, 46,000; Fleet street, 62,000; Paultry, 75,000. The latter is said to be the busiest part of London. Along the nine foot pavement of that street the passengers number one hundred per minute!

American Despatches.

THE IRISH PRISONERS IN BRITAIN.

SAN FRANCISCO, Feb. 27.—Several prominent Irishmen, of the city propose getting up a monster petition to the Government, in reference to the cruel treatment of Irish prisoners confined in English prisons, and asking the Government to appoint a Commissoner to visit the different prisons, and ascertain the real facts relative to their treatment.

FAST PASSAGE.

The ship "Golden Gate" arrived to-day, from Liverpool, making the quickest time on record, namely 100 days.

TROUBLES OF A FENIAN GENERAL.

RICHMOND, Va., Feb. 27.—John H. Gleason, an ex-Federal General of Fenian notoriety, has been brought here from West Virginia charged with obtaining money by representing himself as a Revenue officer.

GOVERNMENT GOLD SALES.

WASHINGTON, Feb. 27.—The Secretary of the Treasury has directed the Assistant Treasurer at New York to continue the sale of one million of gold and purchase one million of bonds in ultimate weeks during March, on account of the sinking fund, or the sale of two millions of gold in all; also, to purchase a million of bonds in each alternate week for the special fund.

ARRIVALS.

NEW YORK, Feby. 26.—The "Westphalia," from here, has arrived at Plymouth, and the "Bellona" at Havre. The "Nevada," from Liverpool, arrived here to-night.

NEW YORK, Feby. 28.—The steamships "City of Antwerp" and "France," from Liverpool, have arrived.

To the Editor of the Daily Intelligencer.

The Belleville Bible Society.

MR. EDITOR,—It surely never was intended that a Bible Society should be used simply as an "advertising medium" for its office-bearers; yet in what other light can we view the conduct of those who year after year vote themselves into office and utterly neglect the duties thereby devolving upon them, as is the case with those who manage the affairs of that Society in this Town. Unless indeed remitting the monies annually collected in this Town to another Society to be disposed of, or selling Bibles and Testaments at the Depository, which may be had in any of the Book Stores, may be considered a fulfilment of their duties, I know of nothing else to entitle this Committee to the confidence of the public.

The pretence for sending the funds to Toronto has always been the anticipated benefit to be derived from one of their Colporteurs, although I am inclined to believe that many years have elapsed since any such benefit has been conferred on this District, except through the Kingston Society.

Ten months ago it was equally amusing and mortifying to find that the Secretary was under the necessity of writing to the Society in Toronto to know whether a Colporteur had been sent to labor in this District, (and this after what had appeared in the Annual Report) and was then furnished with a long list of Townships in which it was averred a Colporteur had been laboring; and this statement was published as a fact, although after due enquiry no trace of such Colporteur could be found as having laboured in the places specified, and no one of the Committee had seen or heard of any such person. The proof is not much stronger that a Colporteur has been laboring in this District during the past year.

Every year there is a shuffle of the cards, but this year there has been a double shuffle in the Committee.

Some three or four years ago it was proposed that the Secretary, on his own responsibility, should submit a list of names for the approval of the Committee, to serve as office-bearers, &c., for the year ensuing, in accordance with the practice of other religious bodies, instead of voting themselves in every year in the unseemly manner they have always been doing. But the gentleman who leads the—I had almost said clique—party who so ably represents the intelligence and piety of this Town, declared in his wisdom he had never heard of any such practice, and the proposition was of course voted down.—His motive was obvious. But this year this same gentleman, under the pressure of public opinion, proposed that a sub-Committee be appointed to nominate the office-bearers and committee for the present year. A sub-Committee of *five* was appointed accordingly, and the action of this same sub-Committee richly deserves to be placed on lasting record as another specimen of the unassuming modesty of those who manage our Bible Society affairs in this Town. After erasing the names of eight persons then on the Committee (the elite always excepted) they of course made the most strenuous exertions to ascertain and designate the ablest and best men to fill the highest offices, and succeeded to a miracle by nominating *themselves*, respectively as President, Secretary, Treasurer, first Vice-President, and first on Committee. Is it any wonder that this Society has got aground? But this article is getting too long.

ALIQUIS.

Belleville, Feb. 25th, 1870.

To the Editor of The Daily Intelligencer.

SIR.—Will you permit me through the medium of your paper to make a few necessary explanations respecting accusations made against me, for paying out silver at par, for material and work done under my directions, for the County.

In the first place, I beg to state that I have acted in conformity with my instructions from the County Council, to pay out silver at par, and when advertising for Tenders, I stated that payment in silver at par would be made; after being ordered to pay in silver when I have received bills, I got silver in the Bank, with the percentage, and placed the discount to the credit of the County in my book, and have paid over to the Treasurer $27.11, with $1.19 to Mr. Sidney Way, the discount on the amount due him for timber had from him, making a sum total of $28.30 for last year. I have only this to say, that my position in this silver affair is very unenviable. I am willing to be governed by the County Council, respectfully, and solicit a more tangible mode of payment of County money. I have feelings as sensitive as some others, and regard my character more than dollars and cents.

I trust this explanation may come under the notice of those who have suspected me as making gain out of this silver transaction, and see that I am not to blame for acting according to my instructions; and in conclusion, I heartily wish the silver trouble may be satisfactorily disposed of.

I remain with due respect, your obedient servant,

ROBERT FRANCIS,
County Surveyor.

P. S.—In the October session, the Hon. Billa Flint got it ordered that I should pay in silver or bills as I received them from the County Treasurer. Up to this date I have received silver and no bills, therefore could not pay in bills.

Trenton, February 21, 1870. R. F.

DR. J. BRIGGS' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by Druggists.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. THE CIVIL SERVICE GAZETTE remarks.—"The singular success which Mr. Epps attained by his homœpathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 94—6mT&S

CANADA.

J. YOUNG.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c., &c., &c.,

To all to whom these presents shall come, or whom the same may in any wise concern.—GREETING.

A PROCLAMATION.

JOHN A. MACDONALD, Attorney General, Canada. } WHEREAS, in a certain Act of the Parliament of Canada, passed in the Thirty-first year of our Reign, chaptered Number Forty-five intituled, "An Act respecting Currency" it is amongst other things in effect enacted that our Governor may at any time after the passing of that Act declare by proclamation that all or any of the Silver coins of the United States of America, or of any other foreign nation or State, coined before the passing of said Act, shall, when of weights and dates to be assigned in such proclamation, pass current and be a legal tender in the Provinces of Quebec, Ontario, and New Brunswick, at rates in currency to be assigned to them respectively in such proclamation, to such an amount in any one payment as may be therein declared:

NOW KNOW YE, and we do hereby declare and proclaim that on, from and after the FIFTEENTH day of APRIL now next hereafter, the Silver coins namely: half dollars, quarter dollars, dimes and half dimes of the United States of America, coined before the passing of the hereinbefore and part recited Act of the Parliament of Canada, that is to say subsequent to the first day of July, which was in the year of our Lord, one thousand eight hundred and fifty-three, and prior to the twenty-second day of May, which was in the year one thousand eight hundred and and sixty-eight, and which are hereinafter mentioned, shall, when of the weights and dates hereinafter assigned in this our Royal Proclamation, pass current and be a legal tender in the Provinces of Quebec, Ontario, and New Brunswick, at rates in currency hereinafter assigned to them respectively, in this our Royal Proclamation, to the amount of Ten Dollars in any one payment. And we do hereby further declare and proclaim that the Silver coins of the United States of America aforesaid shall be of the weights and dates hereby assigned, and pass current, and be a legal tender as aforesaid, at the rates in currency hereby assigned to them respectively by this our Royal Proclamation, that is to say: halfdollars of the weight of one hundred and ninety-two grains, at Forty cents—quarter dollars of the weight of ninety-six grains, at Twenty cents—dimes of the weight of thirty-eight grains and four-tenths of a grain, at Eight cents—and half-dimes of the weight of nineteen grains and two-tenths of a grain, at Four cents.

Of all which our loving subjects and all others whom these presents may concern, are hereby required to take notice and to govern themselves accordingly.

In testimony whereof, we have caused these our letters to be made Patent, and the Great Seal of Canada to be hereunto affixed; Witness, Our Trusty and Well Beloved The Right Honorable Sir John Young, Baronet, one of our Most Honorable Privy Council, Knight Grand Cross of Our Most Honorable Order of the Bath, Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George, Governor General of Canada; at Our Government House, in Our City of Ottawa, the FOURTH day of FEBRUARY, in the year of Our Lord one thousand eight hundred and seventy.

By Command.

Albert Street,
Near Christ Church, West Belleville.

February 22, 1870. 22tf

RULES PRESCRIBED by the Treasury Board, under sanction of the Governor-General in Council, in reference to the mode of Acquittal of Warrants for the payment of Money by the Government of Canada:

1. No Officer in the Civil Service shall, under any circumstances, be permitted to act as Attorney for the receipt of public moneys.

2. No power of Attorney will be recognized, received or acted upon by the Receiver General, which is not printed, and of the form to be obtained from the Department of the Receiver General, under which only payment can be made—and such power will operate as to any sum of money due only by the Government at the date of the power of Attorney.

3. General Powers of Attorney, authorizing the receipt of money due, or which may become due after its date, by which any chartered Bank or Agent of a charatered Bank is constituted the Attorney, will be received and acted upon if printed and of the special form to be obtained from the Department of the Receiver General, and in the event of the power being to the agent of a Chartered Bank, the Bank must declare itself, by a proper instrument in writing, responsible for the acts of such agent, in respect to the receipts of the moneys thereunder.

It is, however, optional with the party executing any Power of Attorney to a Bank or Agent of a Bank, prior to the execution, to erase the words "or may hereafter become due."

4. Duplicate Powers of Attorney must be produced in every case, except when there may be General Power of Attorney, as above mentioned; to a Chartered Bank or Agent of a Bank, in which case a duplicate must be lodged with the Finance Department.

5. All powers of Attorney and duplicates must be signed in the presence of a witness.

6. In case of the death of the person in whose behalf payment is claimed, the probate of Will or other proof that the applicant is entitled to receive the money, must be furnished on application for such payments.

Blank Forms of Powers of Attorney may be obtained from the Department of the Receiver General, and at all Branches of the Bank of Montreal.

By order, JOHN LANGTON,
Secretary.

For Colds, Cough, Bronchitis, Consumption and all Diseases of the Throat, Chest, and Lungs, Dr. J. Briggs' Throat and Lung Healer is a certain and reliable Remedy. Sold by Druggists.

SPECIAL NOTICE.—MORRISBURGH, Sept., 1869.—Gentlemen,—Suffering from the prostration and weakness caused by a severe attack of Influenza the past winter, I was induced to try your Sarsaparilla [illegible] as a restorative, and its effects were most satisfactory. I therefore, conscientiously recommend it as a thorough purifier and invigorator of the humam system, thus giving increased health and vitality to the weary invalid. (Signed), MRS. JAMES GLASSFORD.

PILES are a very common affection, there being but five persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles; when without and around the anus, external. When they discharge blood they are termed bleeding piles, and when no blood appears, blind piles. Dr. J. Briggs' Pile Remedy, remarkable for its superior excellence, should be used for this painful affliction. All who have tried it, do not hesitate to say it is superior to anything they have ever used for this disease. Sold by all Druggists and Country Merchants generally. Dr. J. Briggs & Co., Proprietors, No. 208 Broadway, N. Y., and No. 6 King St. West, Toronto.

DIED.

In Kingston, on the 28th inst., Mr. James Falconer, sail maker.

[The funeral will take place on Wednesday, 2nd March, at 2 o'clock p. m.]

At Stirling, on Sunday, the 27th instant, Mr. Robert McKorey, grocer, aged about 86 years.

[The funeral will take place at 3 o'clock p.m. on Tuesday, March 1st, and will be attended with Masonic honors, of which order the deceased was an old and respected member.]

SPECIAL NOTICES.

To keep health requires care, and one of the most injurious and frequent causes of illness is the perpetual draughts through houses. To make money requires economy, and one of our heaviest expenses in winter is fuel. To remedy these evils Johnston's Patent Weather Protectors are the most effectual of anything yet introduced. Made of the best quality of Vulcanized Rubber firmly held in place by Metallic Binding, they render doors, windows and skylights perfectly air-tight and weather-proof. Awarded Extra Prize, Provincial Exhibition, 1869. Agents wanted and can make money. First come, first served. Apply to T. FOLEY & CO. LINDSAY ONT. 221-2w

The following Remedies are all old and well established, and thousands have been benefitted by their use:—

The Peruvian Syrup,

A Protected Solution of the Protoxide of Iron, supplies the blood with its *Life Element*, IRON, giving strength, *vigor and new life* to the whole system. For *Dyspepsia, Debility and Female Weaknesses, etc.*, it is a specific. A 32 page pamphlet, containing a valuable treatise on "Iron as a Medicine," with certificates and recommendations, &c., will be sent free.

J. P. DINSMORE, Proprietor,
No. 36 Dey St., New York.

Wistar's Balsam of Wild Cherry

Has been used for nearly half a century for Coughs, Colds, Consumption, and every affection of the Throat, Lungs and Chest. It cures a Cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

SETH W. FOWLE & SON, Boston.

Grace's Celebrated Salve

Works like magic on Old Sores, Burns, Bruises, Scalds, Cuts Wounds, Bruises, Sprains, Chapped Hands, Chilblains, &c., &c. It is prompt in action, soothes the pain, takes out soreness, and reduces the most angry looking swellings and inflammations thus affording relief and a complete cure.

Only 25 cents a box; sent by mail for 35 cents.
51-304 4w SETH W. FOWLE & SON, Boston

For Frost Bites, Chilblains, Scalds, BURNS AND BRUISES,

PAIN-KILLER

Affords immediate relief, it soothes the inflamed and irritated part and gives rest and quiet to the sufferer. A celebrated Physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both

Internally and Externally

And for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system.

IT IS THE MOST POPULAR MEDICINE EXTANT.

Sold by all Druggists. Price 15, 25 and 50 cents per bottle.

The Nursery Song.

Sippity sup, sippity sup,
Bread and milk in a china cup,
Bread and milk from a silver spoon,
Made of a piece of the silver moon!
Sippity sup, sippity sup.

Dippity dash, dippity dash,
Wash his face with a merry splash!
Polish it well with a towel fine,
O, how his eyes and his cheeks will shine!
Dippity dash, dippity dash.

Rippity rip, rippity rip,
Untie his strings with a pull and slip,
Down go his petticoats on the ground!
And away he dances round and round!
Rippity rip, rippity rip.

Trittery trot, trittery trot,
Off he goes to his pretty cot,
Where he falls asleep with a little song—
Where the angels watch over him all night long!
Trittery trot, trittery trot.

The Dutchman's "Bony."

"Chon, you recklemembers dat liddle black bony I pyed mit the bidler next week?"

"Yah, vot of him?"

"Nothings, only I gets sheated most burdy bad."

"So."

"Yah, You see in the vust place he is plint mit bote legs, and fery lame with von eye. Den ven you gets on him to rite he rares up behint and kichs up before so vurser as a chackmule. I dinks I dake him a little rite yesterday,unt no sooner I straddle his pack on a poatstream, and ven he gits tone, I vas so mixed up mid efery dinks, I finds myself zittin around packwards, mit his dail in my hands vor the bridle."

"Vel, vot you going to do mit him?"

"Oh I vixes him petter as sham up. I hitch in te cart mit his head where his dail ought to be, den I gif him about a dozen cuts mit a hide-cow, he starts to go, but soon he sees the cart before him, he makes packwarts. Den I takes him out, hitch him the rite vay, unt he goes rite off, so good as anybody's bony."

A Good Dog Story.

The Milwaukee *Wisconsin* says: A gentleman living at Wauwatosa relates to us to-day the following incident, for the truth of which he vouches:

"One day last week a man went to a saloon, as was his daily custom, to drink, and meeting boon companions, remained with them till late at night, when he started to go home. Overcome by the liquor he had drank, the man laid down on the railroad track and went to sleep. The faithful dog, who had followed the man, stood and watched over him, until the whistle of a locomotive in the distance showed that a train was approaching. The dog, fully aware of the danger imminent to his master, tried to arouse the drunken man, and tore his clothes badly *in the attempt*.—Unable to awaken the sleeper, the dog took the man by the shoulder and fairly dragged him from the track just as the train came on. The man was saved, but the poor dog who had so faithfully protected the master he loved, was struck by the cow-catcher and smashed to pieces.—When the man recovered his senses it was found that his flesh was bitten in several places by the dog in the strong efforts made by the animal to save his life.—The man the next day gathered up the pieces of the faithful animal and buried them. He was so fully impressed by the remarkably narrow escape from death that he has resolved not to get drunk again."

Unfriended indeed is he who has no friend bold enough to point out his faults.

CATARRH, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Allevantor, an invaluable Remedy for all pain and inflammation. Sold by all Druggists.

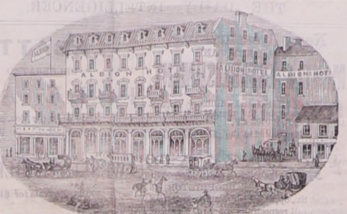
M. BOWELL,
INTELLIGENCER BUILDING
FRONT STREET, BELLEVILLE



ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened under the most favorable auspices. **Splendidly furnished & Thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the old price of $1.50 per day will not be departed from. We, therefore, bespeak for ourselves a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS. (162d1y) DECKER & CO.

Intercolonial Railway.

THE Commissioners appointed to construct the Intercolonial Railway give Public Notice that they are prepared to receive Tenders for the following Rolling Stock:—

40 Locomotive Engines & Tenders.
250 Box Freight Cars.
150 Platform Cars.

Printed Specifications according to which these Engines and Cars are to be constructed can be had, and general plans of the different vehicles can be seen at the office of the Chief Engineer, in Ottawa, on and after the 17th January, 1870.

Sealed Tenders, addressed to the Commissioners of the Intercolonial Railway, marked "Tenders," will be received at their Office in Ottawa up to 7 o'clock P.M., the 17th March, 1870.

A. WALSH,
ED. B. CHANDLER,
C. J. BRYDGES,
A. W. McLELAN,
Commissioners.

Commissioners' Office, Ottawa, January 14, 1870. 227

Fortieth Year.
GODEY'S LADY'S BOOK
For 1870.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as
MARION HARLAND, INO CHURCHILL,
LOUISE DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON.
Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1870.

One copy, one year,	$3 00
Two copies, one year,	5 50
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Once a Month will be sent one year on year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

Godey's Lady's Book, Arthur's Home Magazine, Once a Month, and the Children's Hour, will be sent one year on receipt of $6 50.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

CUSTOMS DEPARTMENT,
OTTAWA, Nov. 6.

AUTHORIZED discount on AMERICAN INVOICES until further notice: 18 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's
Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc.

All orders by mail promptly attended to.

INTELLIGENCER BUILDING, Front Street, Belleville. M. BOWELL, *Publisher.*

R. R. R.

"The stone which the builders rejected is become the head of the corner."—Matt., ch. xxi—v. 42.

The historical truth of holy tradition finds an apt illustration in the history of

Radway's Ready Relief

When this marvelous remedy was first presented to the notice of the medical faculty in 1847, notwithstanding the mysterious influence it exhibited in stopping the most excruciating

PAINS, ACHES, AND INFIRMITIES,

In a few moments after its use,

Its wonderful power in raising the Bed-ridden, Crippled, Rheumatic, Neuralgic—divesting the bodies of all suffering from Pain, Inflammation, Weakness, and other infirmities, curing in a few days the sick— diseases of months and years, and for all ordinary pains, aches, either

INTERNAL OR EXTERNAL.

All Spasms, Cramps, Inflammations, Congestions, affording INSTANTANEOUS ease and comfort, it met with the same treatment that the stone which the builders, through their ignorance of its importance, rejected, but that afterwards became the head of the corner.

A CURE FOR EVERY PAIN.

We believe that the discovery, combination, and distribution throughout all nations of the earth of this marvelous remedy is due as much to the inspiration and direct will of DIVINE PROVIDENCE as to science. When the combination of the ingredients of this marvelous remedy, known as RADWAY'S READY RELIEF, was completed, it supplied a want that had ever existed, that neither the best approved discoveries in Medical Chemistry, or the Materia Medica, or the skill of the most eminent Physicians, could secure to the Human Race. CHLOROFORM, Ether, Morphine, Opium, would allay pain; but an over-dose of either would cause death, and neither of these remedies could be used with safety by the public.

RADWAY'S READY RELIEF

stops pain of every kind, much quicker, and is safe under all circumstances, and it proves the miraculous power of

PREVENTING SICKNESS.

If exposed to contagious or epidemic pestilences. It not only Cures Pain, but will prevent it, and all kinds of sickness that are contagious, or malarious, or atmospheric.

Hidden Powers brought to Light.

As a Pain Remedy it excels all remedial agents, and when first introduced the doctors as well as the people were astonished at its marvelous curative powers—for the moment it was applied externally, or TWENTY DROPS diluted in water taken as a drink, the most violent Pains, Cramps, Spasms, Rheumatic, Neuralgic, and all unpleasant feelings ceased.

PESTILENCES AND PLAGUES.

When Asiatic Cholera appeared, RADWAY'S READY RELIEF was the only positive cure; it cured thousands, and saved millions from an attack. Then it was that Divine Providence inspired us to send forth this great remedy to every nation on the face of the earth. We were inspired with faith of its infallibility in saving the lives of all people against the plagues and pestilences that resisted all medicines and the best skill of physicians. Without having the assurance of one dollar's return, beyond our firm faith in the RADWAY'S READY RELIEF proving itself a savior to the afflicted human race, we sent forth on its mission of cure over

ONE MILLION DOLLARS' WORTH

RADWAY'S READY RELIEF,

without one dollar being secured by purchase, and having to wait for remuneration until the same was sold, and all expenses for foreign duties, freights commission agents, advertising bills were paid, and this we continued to do for years. Wherever a community of living civilized souls existed, there we sent first, at our own risk,

RADWAY'S READY RELIEF,

and the marvelous cures it effected in ASIATIC CHOLERA, CHOLERA MORBUS, all BILIOUS ATTACKS, DIARRHEA, DYSENTERY, and every other disease peculiar to the countries and climates where it was used, suggested its use in

Yellow Fever, Typhoid Fever,
Scarlet Fever, Ship Fever.

FEVER & AGUE,

all other fevers; and in this class of diseases it cured when all others failed, and PREVENTED *Attacks of* [illegible]

The Wisdom of Providence in selecting the Inventors and Proprietors of this marvelous remedy to carry out His will, in placing an antidote within the reach of His people of all nations of the earth who had sufficient faith to wait for their "bread cast on the waters to return after many days" who were content to spread out before the world the richness, purity, and miraculous quickness of this remedy, until such time that its wonderful virtues became a household necessity everywhere—shows that the instruments selected for this great work have faithfully discharged their duties in this respect. Through the infallible curative powers of Radway's Ready Relief the people of all nations have been rescued from Pestilence in all forms; and as regards ordinary PAINS *that are common* to all, the Ready Relief in a few minutes will stop

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from over-doses of [illegible] Quinine, Arsenic, Mercury, bottled in the various Ague Cures and Private Preparations [illegible] gorged liver, fat spleen, [illegible] colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief diluted in one gallon of proof spirits, will give you equal in quantity and superior in quality [illegible] 144 bottles of the 25 cent Pain [illegible] Paints, Killers, Embrocations, Panaceas, Drugs, &c., all of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household free from against sickness, and can be used for the same purposes, that would cost at least ($25) twenty-five dollars had you to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism.
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,
Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic. Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate Radway's Ready Relief.

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of Radway's Ready Relief, per dozen [illegible] & Co's Principal Office, [illegible] Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. Ask for Radway's Ready Relief.

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Company, New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the *January* number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. *In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.*

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced *52 years ago*. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

TERMS FOR 1870.

For any one of the Reviews,	$4.00	per annum.
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numb Blackwood, 35 Cents.

The Reviews are published quarterly; Blackwood's Magazine is monthly. Volumes commence in January.

CLUBS.

A discount of *twenty per cent*, will be allowed to Clubs of four or more persons, when the periodicals are sent *to one address.*

POSTAGE.

The POSTAGE on current subscriptions, to any part of the United States, is Two Cents a number, to be prepaid at the office of delivery. For back numbers the postage is double.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive, *one of the Four Reviews* for 1869. New Subscribers to all the five may receive Blackwood or *two of the Reviews for 1869.*

Back Numbers.

Subscribers may, by applying early, obtain back sets of the Reviews from January, 1865, to December, 1869, and of Blackwood's Magazine from January, 1866, to December, 1869, at half the current subscription price.

☞ Neither premiums to subscribers nor discount to Clubs, nor reduced prices for back numbers, can be allowed, unless the money is remitted *direct to the Publishers.* No premium can be given to Clubs.

The January numbers will be printed from new type, and arrangements have been made, which, it is hoped, will secure regular and early publication.

THE LEONARD SCOTT PUBLISHING Co.,
140 Fulton St., N. Y.

The L. S. PUB. CO. also publish the FARMER'S GUIDE to Scientific and Practical Agriculture, by HENRY STEPHENS, F.R.S., Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols. Royal Octavo. 1600 pages, and numerous Engravings.

Price $7. By Mail post-paid $8.
